Editorial Comment

Younger personnel join an association of younger alumni to face new problems, programs and concepts.

THIS issue of the ALUMNUS announces a long-awaited and perhaps long-overdue expansion of our Alumni Association staff.

There are some comments in connection with the changes that seem important to me.

Always, you regret losing a staff member. John Laughlin has a fine writing talent, and contributed much to the ALUMNUS readers during his eight years as managing editor. The volume of detail took on some of the character of *The Old Man and the Sea* to John's creative abilities. Certainly all of us wish him the recognition and the enjoyment of his capacities, in the many years he has ahead.

Jim Cooney is a young but familiar addition, coming from the excellent preparatory programs of the Foundation, and from the colorful world of the University Theatre.

Similarly, John Thurin assumes editorial responsibilities of both the ALUMNUS and NOTRE DAME magazines working under the present editors, with sound background as editor-in-chief of the 1959 *Dome*. He was a successful officer in the rigorous programs of the Army, and has been a valuable member of the University of Notre Dame Press for the past several years.

And Jim Gibbons, who will devote some of his time to Association projects, is already familiar as a former member of Notre Dame teams, coaching staff, and more recently (and continuing) as the assistant to the Director of Public Relations, Art Haley.

You will note the youth of the new men. In addition to the implication of

long associations, with the invaluable asset of continuity, I hope the new appointments also open a broader era of understanding of the large number of our younger alumni, and, even more importantly, the advent of adequate handling of new problems and programs in the Association.

Our Workshop of last January and the considerations of the Alumni Board have spotlighted the inevitability of new concepts.

The imaginative and effective expansion of the University programs under Father Hesburgh will demand many accompanying new and imaginative alumni approaches.

Computerization is an almost certain trend within a few years.

Club and Class organizations will face substantial changes.

Placement will take on new dimensions and relationships.

Continuing education will become perhaps a dominant factor in alumni life.

Public relations, financial support, enrollment problems will all assume new proportions.

But one important fact remains. Much of the past success of the Association has come from alumni initiative. The new program will not produce push-button or instant substitutes for this essential perennial.

As the presiding elder who has lived under six Presidents and nine football coaches, indulge me in just a few reminders.

The same fine tradition of alumni family identity that marked the Association's birth in 1868 persists today, and should never be a casualty.

The tangible services to the University that existed as a purpose a hundred years ago have only grown in scope and diversity. The principle remains intact, and desire to serve should remain dogma.

The expectations of our society when it faces a graduate of Notre Dame may sound far greater and be phrased quite differently now and in the years ahead, but analysis in depth will always include a good image of the Ten Commandments and the Sermon on the Mount.

And while the programs of the Association must keep step with, in fact lead, the creation of a sound and productive alumni, another dogma, it seems to me, must be the function of the Association: fighting a protective rearguard action against the aggressive pursuit of progressive impersonalization.

Stroganoff or stew, the beef is vital. Whatever the blend of the future — and our faith is unlimited in it — we should never omit basic ingredients.

To Meet a New

As the Association's 1968 Centennial date approaches, the staff expands to face the new challenges of a second 100 years.

A NEW managing editor for the ALUMNUS and an assistant Alumni secretary are among the recent additions to the executive staff of the Alumni Association as one resignation was tendered and three appointments were made.

John F. Laughlin '48 has resigned as managing editor of the ALUMNUS after eight years of publishing the magazine for alumni. He has accepted a position as an editor with *Our Sunday Visitor*, publishing the national edition of the weekly magazine.

Replacing John as managing editor will be John Thurin '59, who will simultaneously accept the editorship of the *Notre Dame Magazine*. This joint editorial policy was operative in the early years of the *Notre Dame* quarterly when James E. Armstrong and John N. Cackley served as editor and managing editor, respectively, of both. The reunification of the two publications is an indication of the increasing unity between Alumni Association and Foundation offices. Fortified by his experience as editor-in-chief of the 1959 *Dome*, John Thurin will aid in reunion planning and work toward increased faculty-student-alumni contact.

The other two appointments are those of James D. Cooney '59 to the position of assistant alumni secretary, and James V. Gibbons '53, while remaining as assistant to the director of public relations, will inaugurate programs to increase contact between students and the Association, especially between the Association and sons of alumni.

In the newly created position of assistant alumni secretary, Cooney will devote the majority of his time to the local alumni Clubs, renewing the contacts made under Tom Kernan when he was field secretary in 1963. Under the new programs of continuing education, placement, student recruitment

and fund raising, the local Club will gain in importance, becoming a vital arm of the University.

In addition to this responsibility Cooney will assist in the overall operations of the Association which have grown with the numerical expansion of alumni, the intensification of Association programs such as Universal Notre Dame Night and reunions, and the growing regional events such as the Florida State Convention and the family weekend at Cedar Point, Ohio. He will help maintain contact between these related endeavors and the Board of Directors and the concerned offices at the University.

Jim Gibbons will devote part of his time specifically to the Association's programs with students. The Association's annual award to the best geographical club on campus and the annual Senior Class dinner are just two such programs which will be continued. The liaison between the Student Government campus commissioner and the contacts with class officers will be expanded under Gibbons. Also new programs will be initiated to contact student sons of alumni.

In 1968, when the first 100 years of the Alumni Association ends, we can point to many achievements in Notre Dame's history. But more than that, we will have programs under way to meet the new challenges of the Association's second century.

Thurin has been sales promotion manager of the University of Notre

Dame Press since December, 1963. A native of Canton, Ohio, he attended Canton Central Catholic High School and was graduated from St. Vincent's, Latrobe, Pa. At Notre Dame he majored in communication arts, receiving an AB degree in 1959. He is presently a candidate for a MAB degree at the University. Prior to coming to Notre Dame, he served four years with the U.S. Army security agency in Ft. Devens, Mass., and Herzo Base, Germany, attaining the rank of captain. He also served as assistant advertising manager of Thurin's Home Furnishings in Canton. He is married to the former Catherine Ann Clancy of Rocky River, O.; they have three children: Martin Phillip, Peter Francis and Julie Marie.

Laughlin was educated in South Bend and was valedictorian of Central Catholic High School in 1944. During the war years, he attended Notre Dame, enlisted in the Navy and studied at Bucknell and the University of Pennsylvania, majoring in journalism. He was graduated from Notre Dame in 1948, cum laude.

He became a member of the ALUMNUS staff in 1957, having previously worked for the Record Press in South Bend and having edited the *Record*, a county political-legal weekly. He was also editor of the *Plane Facts*, a monthly paper for 8,000 Bendix workers in South Bend and Mishawaka. Active in many civic organizations, he has recently turned to pro-

grams helping the migrant worker, the Catholic Family Movement and Catholic Young Adults. He is a member and soloist of St. Anthony's choir. He is married to the former Dorothy Koches and the father of Thomas, Maureen, Sheila and Patricia.

Cooney joined the Notre Dame Foundation as an assistant director in July, 1961. For three-and-a-half years previous to that he was staff announcer and newscaster on WNDU-TV and radio, the University stations. In his Foundation post, Cooney was engaged in fund raising and related activities in several states, including Illinois, Kansas, Missouri, Oklahoma and New Mexico. Cooney received an AB degree in communication arts from Notre Dame in 1959. As an undergraduate he was active in the University Theatre; since graduation he has been director of the South Bend Civic Theatre. A native of Chicago, Ill., Cooney is a graduate of St. Mary's High School, Albuquerque, N. M. He was employed by station KQUE and the FBI while there from 1953 to 1955 before entering Notre Dame. He is married to the former Anne Rody of Elkhart, Ind. They have two daughters and one son.

Gibbons was appointed assistant director of public relations in January, 1963. He had served as assistant baseball and basketball coach at the University since 1956, after pitching for Jake Kine's baseball squad and playing guard for Johnnie Jordan's basketball team as an undergraduate. He received an AB degree from Notre Dame in 1953 and served two years in the U. S. Army and was basketball and baseball coach at Chicago's Mt. Carmel High School, 1955-56. He managed the Pittsburgh Pirates' farm club in Kingsport, Tenn., during the summers of 1960 and 1961. He is married to the former Betty Ann McGinn of Jamaica, N.Y. They have four children: Nancy Marie, Brian James, Kevin and Michael.

McGeorge Bundy

Peace

"We have given respect to the fact that there are interests, hopes and purposes not the same as ours"

" . . . The spring of 1940 marks the great modern turning point in the international affairs of the United States." Thus was Presidential Assistant McGeorge Bundy's prelude to his address before the 120th Commencement Exercises. Following are excerpts from that address.

There is a sense in which the foreign affairs of the United States before 1940 are episodic, intermittent, unsustained and in a measure even unreal, but from that day forward it has not been so.

We have been called . . . to address ourselves continuously for a quarter of a century to the obligations of great power. . . . We must be preoccupied not simply with the gaining and the use of this extraordinary power, but with the end to which it should be used, and that end beyond victory was peace.

To many of us who served in that war (WW II) it seemed, too easily, that victory itself would mean world peace.

We did not foresee the complexities and hazards and the error of the post-war world. We thought we were forward looking when we gave our allegiance to the notion of a new world organization; when we saw and cheered the work of Franklin Roosevelt and those about him as they organized the UN. . . .

So that made two steps new for our generation: the acceptance of power;

and the objective of peace and the responsibility for action to achieve it.

It became clear very soon after the war that you could not simply win a victory or sign a peace. You had to build, and you had to build in a world torn apart by destruction and shaking with beginning hopes. And the United States, in serving its own interests, must give its attention to the interests of others.

And then we found ourselves confronting a fourth continuing reality: that there are centers of power now increasing; . . . that if they are not resisted they would have their own way . . . ; and that if they are to be resisted the responsibility, in the first instance, must fall to the United States.

Now I submit to you that the world in which you graduate is a world in which these four great facts of American life are still with us. And I submit to you also that the tribulations and difficulties of 1965 are not greater than those through which we have come in the last 25 years.

. . . We have met in the main the responsibility of having and of holding and of using the great power which comes to us by our size and strength and our social, economic and political success.

We have been true in the main to a continuing purpose of peace and have been ready to accept the discipline of

membership in an international society. . . .

I think that we have given respect . . . to the fact that there are interests, hopes and purposes not the same as ours, that we have conducted our affairs so as to permit and even encourage the diversity which the world has by the nature of its peoples and its countries and its climates, and that we have not sought to make this an American century.

In the main we have met the challenge where we could and as we could, posed not for us alone, but for the hopes of all free men by the ambitions of the communist imperialists.

The record is by no means perfect. We have had moments of weariness and weakness, moments of division and doubt. We have had debates, greater debates I think than any we faced this spring.

There have been troubles along the way and there will be more to come. They come increasingly because what began . . . one problem at a time . . . has now become a mixed, continuing exercise. So when we look, as we must, at the hard problems of Santo Domingo and Saigon, we are looking at problems of power and of peace and of the interests of other men and also of the ambitions of the communists. And we must look at them, work upon them . . . all four of them . . . to serve our purposes.

Through Understanding

“Between faith and knowledge there is no contradiction — but in an individual man faith and knowledge may be in conflict”

Saint Peter's sermon on Pentecost to the multitude in front of the house where the Apostles had gathered became the first manifestation of the Church — in the power of the Holy Spirit. The Apostles were no longer afraid, for they had seen the victory of their Lord. The doors, shut for fear of the Jews, were thrown open. Saint Peter, at the head of the Apostles, came out in front of the multitude, which represented all mankind. Without fear, frankly, Peter spoke about his Lord's triumph, for the Holy Spirit was within him. He enunciated to the world the meaning of Pentecost: the authorization by God of Jesus of Nazareth as Lord and Christ, and the authorization by God of all those who were going to believe in Jesus as their Lord and Christ, the authorization of the Church. Saint Luke in his Acts of the Apostles tells with some sort of pride how on that Pentecost, after Peter's convincing and fervent preaching, 3,000 men were baptized and joined the young Church. The history of the Church had begun — her march through the ages had started.

And *we* are the Church — all of us who believe in Our Lord and who are united with Him through Baptism.

a Prince of the Church, a noted educator and biblical scholar, a shepherd whose pastoral concern embraces the world. This son of a Netherlands carpenter has himself become a builder, a fashioner of spiritual bridges joining men of all faiths. He has urged the Catholic Church to “sacrifice nonessential elements of her life that tend to confuse non-Catholics about the true nature of her unity.” Early in his priesthood the future Cardinal commenced on a long career of teaching Sacred Scripture and biblical exegesis in Dutch seminaries. Before leaving the life of the seminary for the more rigorous duties of an archbishop, he made important contributions to the official Dutch translation of the Bible. A further indication of this great priest's unflagging interest in movements of international scope developed after his elevation to the episcopate when he served as national chairman of the international Catholic peace organization, Pax Christi. Proclaimed a Cardinal in 1960 by the late Pope John, he played an energetic and illuminating role in preparatory work for the Second Vatican Council, and throughout the Council itself has brilliantly led and ably abetted the forces of ecumenism and the Peace of Christ. Cardinal Alfrink

In every one of us the Spirit of Jesus wants to live, to work, to be active.

This is the task the Lord has given us through His Paraclete: to show the world, the people in the midst of whom we live, the image of the grown-up Christian, who in all circumstances of life takes God into account, who lives with God, who by his faith in the Lord Jesus and by his love for Him also tries to keep His commandments. For so the Lord has said: “If any one loves me, he will keep my word. . . . He that loveth me not, keepeth not my words.”

That image of the grown-up Christian, of a good man, of a faithful Catholic, is the best preaching, the clearest manifestation of the Holy Spirit of the Lord Jesus, of His Church.

If this applies to every Catholic, it applies in a special sense to the Catholic who in some way or other devotes himself to knowledge. Between faith and knowledge there is no contradiction — but in an individual man faith and knowledge may be in conflict sometimes. When a man only increases his intellectual development to win influence and social position, but forgets to fortify and consolidate his faith and to increase his religious knowledge, it may be that in such a man a gap arises between faith and knowledge, even a conflict. Faith and knowledge should not exist in a man next to each other as if they could not exist together. Faith and knowledge must be integrated in a Christian man, must grow together into a perfect harmony. And therefore we need the light of the Holy Spirit — and in all humility we have to pray for that light.

About ND

Sr. Suzanne Kelly OSB

Br. Raphael Wilson CSC

ND's 'First Lady'

(Editor's Note: This "first" refers to a full-time faculty appointment during the regular school year. It does not affect the long and brilliant record compiled by women faculty members, religious and lay, who have been members of the faculties of the Summer Sessions since their beginning in 1918.)

It took a nun to do it, but the girls have made it to the "head of the class" at ND.

Sister Suzanne Kelly OSB will be the first woman to join the full-time University faculty when she begins her teaching as an assistant professor in the general program this fall.

Completing her studies this summer at Oklahoma State University, Sr. Suzanne will teach courses in the philosophy and history of science.

Rev. John Walsh CSC, vice-president for academic affairs, stated that Sr. Suzanne's appointment was not regarded "as a change of policy in view of the fact that women have taught in our summer program for many years."

"In the case of Sr. Suzanne," Fr. Walsh added, "we regard her as the best qualified person available in her highly specialized field."

Sr. Suzanne is a native of Tulsa, Okla. where she received her undergraduate degree from Benedictine Heights College. Her doctorate in science is from the University of Oklahoma, Norman.

The daughter of Mr. and Mrs. J. M. Kelly, of Tulsa, Sr. Suzanne has two married sisters and a younger brother who graduated from ND in 1957.

Fr. Walsh indicated that other women, both religious and lay, will be considered for full-time faculty contracts on their merits as the occasion arises.

'Enter Here'

Brother Raphael Wilson CSC has been appointed director of admissions for the University, it was announced September 8 by Rev. Edmund P. Joyce CSC.

Brother Raphael, who has been serving as assistant head of the biology department, succeeds Rev. James Moran CSC, who has been on sick leave since 1963. Rev. James Hoffman CSC, who has been acting director of admissions, was recently appointed University chaplain.

A specialist in radiation physiology, Brother Raphael holds a doctorate in bacteriology and virology, is a member of the Lobund Laboratory staff, has a master's degree in educational psychology, and has been a consultant to the Educational Testing Service, Princeton, N.J.

A native of Trenton, N.J., Brother Raphael entered the novitiate of the Brothers of the Holy Cross in 1943 and enrolled in Notre Dame the following year, receiving an undergraduate degree in biology in 1948.

During the next 11 years he was associated with St. Edward's University, Austin, Tex. as a professor of biology, director of guidance and testing and dean of the college.

While in Texas, Brother Raphael received his master's degree from the University of Texas in 1951 and his doctorate at its medical branch in 1954.

A New Department

As classes began this fall a new psychology department offered its first

courses at the University.

Rev. Theodore M. Hesburgh CSC, University president, recently announced the formation of the psychology department and the appointment of its head, Dr. John Santos, formerly co-director of the Program in Reality Testing, Menninger Foundation, Topeka, Kans.

The new department, under the College of Arts and Letters, will be research and not clinically orientated.

Psychology courses have been taught for years in the University's philosophy department and these will continue to be offered in that department.

Rev. Charles Sheedy CSC, dean of the College of Arts and Letters, explained the need for the department as a recognition "that the philosophical or Thomistic approach cannot take into account the modern empirical methods of studying behavior."

The establishment of an autonomous psychology department is now possible, Fr. Sheedy explained, with funds not previously available. He cited support generated by Notre Dame's Challenge II Program and the participation in the Ford Foundation's special program in education.

According to Fr. Sheedy, the new department will focus on the experimental, developmental, personal and social aspects of psychology. At the outset, he said, two undergraduate courses will be offered, normally in the sophomore year, "Introduction to Psychology" and "Statistics." He said a major sequence of studies will begin in 1966, and a doctoral program will be established in about five years. He stressed that the University will seek to produce psychologists who are primarily scholars rather than practitioners.

Temporarily the psychology department will occupy the former Architecture Building which is currently undergoing extensive remodeling. Eventually, Fr. Sheedy said, the psychology department will move into Wenninger-Kirsch Biology Hall when a contemplated Life Sciences Center is erected.

Prof. Santos and Dr. Bobby J. Farrow, who also joins Notre Dame's psychology department, have been associated in the work of The Menninger Foundation. Santos holds undergraduate and doctoral degrees from Tulane University and has done extensive cross-cultural and Peace Corps research in Brazil. Farrow, who recently received a doctorate from the University of

Dr. John Santos

Texas, studied earlier at the Texas College of Arts and Industry, Washburn University and the University of Kansas.

Philosophy Head

Rev. Ernan McMullin, a specialist in the philosophy of science, was named the new head of the University's philosophy department in August by Rev. Theodore M. Hesburgh CSC.

Fr. McMullin, who joined the Notre Dame faculty in 1954, succeeds Dr. Harry A. Nielsen as department head. Dr. Nielsen will devote his time to teaching.

A native of Donegal, Ireland, Fr. McMullin was a visiting professor at the University of Minnesota in Minneapolis during the past year. Fr. McMullin received honor degrees in physics and theology from Maynooth College of the National University of Ireland and was ordained in 1949.

He studied theoretical physics at the Institute of Advanced Studies in Dublin, following which he studied philosophy at the University of Louvain, Belgium.

His book, *The Concept of Matter*, was published by Notre Dame Press in 1963.

He studied the philosophy of science at Yale University from 1957 to 1959 under a National Science Foundation grant.

Sandeen Appointed

Prof. Ernest E. Sandeen, a poet and specialist in American literature, was recently named head of the University's English department.

Rev. Ernan McMullin

Ernest E. Sandeen

Prof. Sandeen was appointed to replace Prof. Alvan S. Ryan who is leaving the University to become chairman of humanities and professor of English at the University of Massachusetts in Boston.

Two volumes have been published of Sandeen's poetry: *Antennas of Silence* and *Children and Older Strangers*. His poems have also appeared in *The New Yorker*, *Poetry*, *The Yale Review*, and *Commonweal*. He is also co-author of *Fifty Years of the American Novel* and *American Classics Reconsidered*.

An Illinois native, Prof. Sandeen is a graduate of Knox College, Oxford University in England and the State University of Iowa where he received

in 1952, entered the novitiate of the Holy Cross Fathers in 1954, and was graduated from the University in 1957.

Following four years of theological studies at Holy Cross College, Washington, D. C., he was ordained to the priesthood in 1961. He holds master's degrees from Notre Dame and Holy Cross College and took graduate study during 1963-64 at Yale University.

He is the author of *Introduction to Quadratic Forms*, a volume in a celebrated German mathematical series.

He is married to the former Jean Fadden of Philadelphia and they have five children.

ND's Vatican II

An international conference of theologians of all faiths will discuss "The Main Theological Issues of Vatican II" in a conference scheduled for March 20-26, 1966, in the soon-to-be completed Center for Continuing Education.

Rev. Theodore M. Hesburgh CSC, University president, said Council fathers and theologians from this country and abroad who were very influential in the formulation of Vatican II documents will present papers in three major areas: Religion and Revelation; The Church; and The Church in the World Today.

(A Council father is a bishop or other delegate to Vatican who possesses full voting rights.)

"The purpose of the conference," said Fr. Hesburgh, "is to explore the implications of the final results of the council, and to draw out their influence on Christian faith in the years ahead. The spirit of the session will be that of attempting to bring to the fuller light and fruition the theological achievements of the council and, in no sense, that of critical re-examination."

Rev. Albert Schlitz CSC, head of the Notre Dame theology department and executive chairman of the conference, said, however, that animated discussion will be encouraged, not only in the Center's auditorium with its simultaneous translation facilities, but also in smaller groups and even at meals.

The Most Rev. Mark McGrath CSC '44, Bishop of Santiago de Veraguas in Panama and a member of the Council's Theological Commission, will be general chairman of the conference.

The Problem

Supported by another Ford Foundation grant of \$100,000 the University plans to sponsor a series of regional population conferences and studies of certain population problems.

Dr. George N. Shuster, assistant to the president and director of the Center for the Study of Man in Contemporary Society, said conferences were planned

his doctorate in 1940.

He became a member of the University faculty in 1946. He was a Fulbright lecturer in American literature at the University of Aarhus in Denmark in 1957-58.

He is married to the former Eileen Bader of Madison, Ill., and they have a daughter and a son.

Dean of Students

Rev. Joseph B. Simons CSC has been appointed dean of students at the University by Rev. Theodore M. Hesburgh CSC, University President.

Fr. Simons, who was assistant dean of students during the past year, succeeds Rev. A. Leonard Collins CSC, who has been the University's disciplinary officer since 1957. Fr. Collins will be the director of a newly established postulate or house of formation for prospective Holy Cross seminarians in New Orleans, La.

A native of Janesville, Wis., Fr. Simons has specialized in educational psychology. He enrolled at Notre Dame

New Math Head

Prof. O. Timothy O'Meara has been appointed head of the University's mathematics department to succeed Prof. Thomas E. Stewart, recently named associate vice-president for academic affairs.

Prof. Wilhelm Stoll has been named chairman of the department for a year-and-a-half and Prof. George Kolettis has been appointed assistant head for a three-year period.

This distribution of duties was designed to allow the three professors to pursue mathematical research while providing administrative continuity.

O'Meara came to Notre Dame in 1962 after serving four years as a faculty member at Princeton University. He holds a doctorate from Princeton and did his undergraduate work at the University of Cape Town, South Africa, his native city.

He has specialized in algebra and the theory of numbers. His research, supported by the National Science Foundation, deals with the arithmetic properties of classical groups.

for the Southwest, New England and the South Atlantic areas. The research will deal with issues of moral or theological implications.

Dr. William Liu, the Center's director of population studies, will head the two-year program.

Conference participants will include theologians, philosophers, sociologists, demographers and other specialists in marriage and family life representing the laity and a cross section of religious communities.

According to Shuster the in-depth studies will consider sexual morality, contraceptive birth control and rhythm, responsible parenthood and contemporary theology, population problems in developing countries and public policy in the United States.

Dr. Liu, an associate professor of sociology and a specialist in social psychology, joined the Notre Dame faculty in 1961. He was educated at St. Thomas College, the University of Notre Dame and Florida State University where he received his doctorate in 1958. He also has done postdoctoral research at the University of Chicago. He is the author of a Chinese text, *Social Psychology*, and is a frequent contributor to sociological journals.

New Fund-Raisers

Three alumni have been appointed new assistant directors of the Notre Dame Foundation by James W. Frick '51, vice-president for public relations and development.

They are Deon Sutton '31, David J. Shanahan '58 and John W. Crowe '62.

Sutton will be in charge of the Notre Dame Foundation's office in New York City after serving 11 years as export manager for an industrial chemicals manufacturer. Success Story

The number of University freshmen qualifying for the Dean's List after one semester has virtually doubled since the 1962-63 school year and the inauguration of the Freshman Year of Studies, according to Dr. William M. Burke, dean of the program.

Whereas 105 freshmen achieved Dean's List status in 1962-63, there were 208 first year students on the list after the 1964-65 first semester. Twenty of these have a straight "A" (4.0) average, an increase of 12 over last year. The number of academic probationers for freshmen has dropped 25 per cent.

There were an additional 200 freshmen with a "B" (3.0) or better average who did not meet the Dean's List requirement of 3.25. In all 408 (28 per cent) of the 1,550 freshmen last year had a "B" average or better.

According to Dean Burke the freshmen's academic success can be attributed to three factors: an active counseling program to identify to the student areas of strength and weakness; the new Memorial Library; and the use of more experienced teachers for freshman classes.

Lay Spokesman

A Notre Dame alumnus, William Ball '48, general counsel of the Pennsylvania Catholic Welfare Committee, former Villanova professor and a specialist in constitutional law, is frequently in the national spotlight.

Most recent, as this is written, is Bill's appearance before the U.S. Senate Government Operations Subcommittee on August 24th, as a representative of the views of the National Catholic Welfare Conference, as well as the Pennsylvania branch. The hearing was on proposed birth-control legislation, particularly the Gruening bill.

In his testimony, Bill reviewed the

DEFERRED-GIVING SYMPOSIUM—Three guests and specialists in taxation and estate planning meet with Rev. Thomas O'Donnell CSC (right), director of the University's Library Association, at a symposium in New York in May on "The Creative Conservation of Wealth Through Estate Planning and Its Relationship to Private Higher Education," sponsored by the University. Left to right are: James F. Thornburg of South Bend, estate planning specialist and tax counsel to the Notre Dame Foundation; Rene A. Wormser, New York attorney and specialist and lecturer in the estate planning field; Harold Swartz, assistant commissioner Internal Revenue — Technical, Washington, D.C., pension and corporate tax specialist. More than 150 lawyers, tax authorities, insurance and trust executives and others gathered to discuss deferred giving to private institutions of higher learning.

relationships between individual liberty and social welfare, and indicated a national consensus for promoting both goals without sacrificing either.

He cited four guideposts for protecting individual liberty, which he attributed to U.S. Supreme Court decision sources: freedom from governmental inquisition; the related right of privacy; concern for the weaker members of society; and governmental coercion of mind and conscience.

From the above sketchy indication of Bill's effective contribution in just one incident, it is apparent that the Church and the Catholic laity have an outstanding talent at work.

New Law Advisor

Morris B. Abram, prominent New York City attorney who practiced law in Atlanta until 1962, has been appointed to the Notre Dame Law School Advisory Council, it was announced August 15th by Rev. Theodore M. Hesburgh CSC, University president.

Abram is U. S. representative to the United Nations Human Rights Commission and national president of the American Jewish Committee. He is a

member of the New York law firm of Paul, Weiss, Rifkind, Wharton and Garrison and formerly was a partner in the firm of Heyman, Abram and Young in Atlanta.

Born in Fitzgerald, Ga., Abram is a graduate of the University of Georgia and the University of Chicago Law School. As a Rhodes Scholar, he holds baccalaureate and master's degrees from Oxford University in England. He was admitted to the Georgia bar in 1940 and to the bar of the State of New York in 1962.

Abram is a former chairman of the Atlanta Citizens Crime Commission and was a candidate for the Democratic nomination in Georgia's 15th Congressional District in 1954. He was decorated with the Legion of Merit for his service as an Air Force major during World War II. He is a member of Phi Beta Kappa and a contributor to legal journals.

A GROWING ND CLUB PROJECT

As recommended in the *Manual for Local Alumni Clubs*, more and more clubs are sponsoring the "Going-Away" meeting for returning undergraduates and new freshmen. Usually, and desirably, the fathers have been included. In the evolution of the program, there is a movement to include mothers as well. It builds up both the campus and the alumni clubs; it brings new members into the Notre Dame family.

Jim Gibbons, assistant in the Public Relations Department, has been specializing in representing Notre Dame at these meetings. His 1965 schedule (below) reflects the growth of this significant program. If your Club does not have this type of meeting in its 1966 planning yet, you might start considering it now.

NOTRE DAME BOOKS

SELDOM WITHOUT LOVE, by *Josephine Curtsinger and E. C. Curtsinger Jr.* BA '48 PhD '55 (Macmillan).

This is a story of a farm wife in a little Texas town in 1933. Her assets include an old-fashioned hearing aid, a houseful of children, a husband capable of doing all things — but who has never been challenged — and an insane old father who must be gotten into heaven.

Gene Curtsinger worked with his late mother in writing this novel and attributes many of the scenes to her creativity and memory. She too wore a hearing aid and raised eight children in a small Texas town.

As Gene writes of the work: "I re-

gard it as somewhat in the tradition of the epic, its characters written large if only to fall harder, and its action on a grand scale. . . ."

OFFENSIVE AND DEFENSIVE DRILLS FOR WINNING BASKETBALL, by *Lyle Brown with Dave Warner '48* (Prentice Hall, Inc.)

Rochester *Democrat and Chronicle* sportswriter Dave Warner wrote this book for University of Rochester basketball coach Lyle Brown.

The book contains 250 game situation drills as well as a complete, year-around plan for player improvement and isometric exercises.

ND basketball coach Johnny. Dee writes on the book's jacket: "A very much needed book, particularly since it is directed at all levels of the game. Invaluable to all coaches — from grade school on up."

Library Archives Film Documents

The University has received a \$21,660 grant from the U. S. General Services Administration for the microfilm publication of certain documentary sources of national significance in the University Archives.

Rev. Thomas T. McAvoy CSC, Notre Dame archivist, said that collections to be microfilmed as part of a two-year project include the letters and papers of Orestes A. Brownson, the 19th-century publicist and critic; the papers of General William Tecumseh Sherman of Civil War fame; the family correspondence of Thomas Ewing, U.S. Senator from Ohio and onetime Secretary of the Interior; and the early letters of Edward N. Hurley, the builder of the "Bridge to France" in World War I.

The Notre Dame project, being undertaken at the recommendation of the National Historical Publications Commission, will involve the preparation of the chosen collections for copying during the coming year with the actual microfilming scheduled for the following year. Aiding Fr. McAvoy in the undertaking will be assistant archivist Lawrence Bradley. The microfilmed materials will be sold to libraries and scholars throughout the country at cost.

A Gift from the Living Means Income for Life

You pay taxes annually and it is to your financial advantage to reduce them as much as possible. An investment in Notre Dame during your lifetime can reduce your tax bill and capitalize your investment into a lifetime earning asset which accumulates year after year with safety for your principal and the personal satisfac-

tion in helping sustain and foster higher education at a great University.

An investment in either Life Income Plan One or Life Income Plan Two means you receive expert management at no cost, additional diversification, safety for your principal and protected income backed by the resources of an established University worth more than

\$50,000,000. With advancing years and the possibility of failing health you gain the benefits of sound, efficient management of your money without effort or personal anxiety for the remainder of your life (and for the life of your loved ones if you wish!).

Both plans make provisions for additions of principal during your life for the building of a fund to be applied to an endowed scholarship, an endowed professorship or a perpetual memorial of your choosing in your name — or the names of your family or loved ones.

The following descriptions of both investment plans and the table dealing with the gift portion per \$1,000 invested are taken from the PORTFOLIO OF PHILANTHROPY. A copy of this portfolio may be obtained by writing to:

Assistant Director for Deferred Giving
University of Notre Dame Foundation
Notre Dame, Indiana.

LIFE INCOME PLAN ONE:

You make a gift of money, property or securities to the University. The University agrees to include your gift in its regular endowment investments and pays you or whomever you designate as beneficiary during life the average rate of return earned on these pooled investments. The average rate of return is currently over 4 per cent.

The tax advantages:

You are allowed a tax deduction in the year you purchase the plan. Your investment is considered part purchase and part gift. The gift portion is deducted from your adjusted gross income up to 30 per cent for any one year, with a carry-over for the next five years if it exceeds the 30 per cent limitation.

You avoid capital gains tax by exchanging appreciated securities for your agreement, and your estate and inheritance tax are reduced.

Life Income Plan One may be purchased with a minimum investment of \$1,000.

LIFE INCOME PLAN TWO:

You enjoy tax-exempt income for life by investing in Life Income Plan Two. Appreciated securities are given in exchange for tax exempt securities. All the features of Life Income Plan One accrue to you with one exception. A capital gains tax will be imposed on the appreciated gain realized in exchange of appreciated securities for tax exempt securities. This may be more than offset, however, by the savings realized in the deductions received on your income tax each year for the life of your contract.

Life Income Plan Two requires a minimum investment of \$5,000.

The income received for either plan has no relation to age. It is the same whether you are 35 or 70. The rate of return on both plans is not diminished when two lives are named in the contract. The same income passes to the survivor named in the contract.

Life Income Plans appeal strongly to those between 35 and 60 years of age.

Alumni on NY Stock Exchange

Twin Market Men

THE NOTRE DAME alumni pictured on our cover have added a bit more confusion to the already hectic world of the floor of the New York Stock Exchange: they are the only identical twins in memory to serve as brokers simultaneously.

This distinction earned Kevin and Donald Reilly, 29, of Port Washington, Long Island, a recent feature story and photograph in *The New York Times*.

Both Reillys are members of the Class of '58, finance majors, were guards on their freshman football team, are husky, brown-haired and freckled — but work for two different firms in the Exchange.

Kevin bought his seat on the Exchange in September 1963, for \$210,000, and is now one of eight floor vice-presidents for Bache & Co., Inc.

Donald, although 20 minutes older than his brother, is the newcomer to Wall Street. He began trading as the representative of P. W. Brooks & Co., Inc., where he is a vice-president, in July, 1965, when his firm bought a seat for \$190,000. He made a delayed entry onto the Exchange floor because of three years spent at Fordham University Law School.

Although they now work for different firms, both Kevin and Donald gained their stock experience at home and with their father's firm, J. F. Reilly & Co., Inc., an over-the-counter house.

Bachelor Donald lives at home in Port Washington with his parents and sister Michele. Kevin is married and lives with his wife and two sons, Kevin, 3, and Brian, 2, a block away.

Their "twin-ness" extends through most every statistic, from their weights (193) to their golf handicaps (nine).

But their identity is sometimes a little hard on their customers. Kevin explained that their identity was less confusing at school "because our friends could learn to tell us apart."

The business world does not have time to learn any distinctions, however, and therefore one customer of Donald's got angry when "Donald" snubbed him in a restaurant. Of course it was Kevin, who didn't know the man.

Since they have similar tastes in clothes, about the only distinguishing mark on the Exchange floor is their badge numbers: Kevin wears number 391 while Donald's badge number is 641.

They have yet to transact a deal with one Reilly as seller and the other Reilly as buyer. But that day will undoubtedly come, they feel.

By Michael Bascle '66

ACENTURY is a long time no matter how you look at it. Some say if you look at it under the aspect of eternity it is a short time. I suppose so. But most of us look at a century under the aspect of this tough old world. We see it through our human eyes with all the hurts and hatreds, with all the loves and laughter. So be it.

The year 1865 is a date never to be forgotten. The War Between the States had come to a close. Bitter hatreds, senseless sorrow, unmarked graves, cropless fields, the scarred land of a maimed nation — this was America in 1865. It was Korea and Viet Cong; it was Bataan and East Berlin. The guns were different but the blood ran just as red. Different bodies were broken; different hearts were hurt.

In spite of the troubled times and tragedies of 1865, at Notre Dame there was a bright beginning. That year the young college graduated its first student of science. His name was John Cassidy and he came from Chelsea, Mich. Later young Cassidy became Doctor Cassidy and practiced medicine in South Bend. Since that June day of 1865 much has happened in science at Notre Dame. The school went through its growing pains as all schools must. One hundred years later the College of Science proudly offered courses in departments of biology, chemistry, geology, mathematics, physics and pre-professional studies. Affiliated with biology is the Lobund Laboratory (Lobund means Laboratory of Bacteriology University of Notre Dame). Affiliated with the chemistry department is the Radiation Laboratory. The College of Science numbers a faculty of over 100 teachers, and all but a few have doctorates.

To speak of a department or college one should speak of the people in that department or college. Big money and large grants can clutter a building with material, but good men are needed to make the best use of what is at hand. Over the years Notre Dame has been blessed in having the right man at the right place at that moment in time.

This is true for the entire University. Generous benefactors have seen a need and they proudly gave of their wealth. And no question about it, money is needed to help good men do the best job possible. Again, Notre Dame has been blessed. Proudly we salute in gratitude all who have helped and do help in any way possible.

The College of Science has had some

Chalk Marks On a Cassock

By Thomas J. O'Donnell CSC '41

wonderful people down through the years. To begin to single them out could be trouble — some names are bound to be missed, and only a journal that would read like a telephone book could list them all. Therefore, I ask your kindness as I mention only some men from the College of Science who have done heroic service.

Over the years I have often asked some of the "old-timers" from the community of Holy Cross who was the best scientist we ever had. Without any hesitation four names always occur . . . and in this order: Nieuwland, Zahm, Kirsch and Wenninger. Each of these was a priest of Holy Cross. Each was not equally as good as the other.

For those of you who believe in the stars or read horoscopes here is something to think about. Father John Zahm was born on June 11, 1851. On June 11 in 1936 Father Julius Nieuwland died. The birthday of Father Nieuwland was February 14, 1878. On February 14, 1940 we buried Father Wenninger. The three of these men — as scientists — would, if they could reject any connection. Yet, as scientists, they would take a second look at the dates. I leave out Father Kirsch from this consideration for the very obvious reason that he was a much taller man. He was about six feet, three inches. The other priests were all short, five feet six, to five feet nine.

Not much is written of Father Alexander Kirsch. He had a brother in the

community and of his brother less is written. Alexander Kirsch was, for nearly forty years, the leader in biological studies at Notre Dame. He wrote a book called *Mammalian Osteology*. And when he taught anatomy he drew, with chalk, the heart, arteries and kidneys right on his cassock. He was anticipating audio-visual or else the brother at the cleaning plant was a good friend. But that he was a great teacher there is no doubt.

He never did get a doctor's degree but that was because the Provincial could not spare the man, and did not have the money, to let Father Kirsch have time off.

During several summers he did research at Woods Hole. There he must have practiced his singing because each Lent on Holy Saturday the booming voice of Father Kirsch filled Sacred Heart Church. The change in the rubrics would have been to his liking. This would put the towering priest-scientist up by the altar in front of everyone as he would plunge the anatomy of the paschal candle into the waiting waters.

It is strange what we recall about people who have died. The long hours in a lab, the long years of great work are glossed over or taken for granted. Forty years of long labor are remembered as chalk marks on a cassock and a booming voice on Holy Saturday. But that's the way it goes in this busy world.

Faculty Notes

Dean Joseph O'Meara has been named to the executive committee of the National Citizens' Committee for Community Relations, which endeavors to act as a conciliating force between contending factions in civil rights disputes. His appointment was announced by Arthur Dean, New York attorney and former UN negotiator in Korea, who is NCCCR chairman.

Prof. G. Robert Blakey, who last year taught the courses in real property and family law and the third-year seminar in organized crime, will replace Assistant Dean Thomas F. Dean Broden has been appointed consultant to the Office of Economic Opportunity, in conjunction with the Office's program to provide legal services to the poor. He attended, by invitation, a conference on law and poverty, co-sponsored by the OEO and by the Attorney General in Washington, D.C. in June.

Professor Blakey testified before the House Judiciary Committee in May in support of the Law Enforcement Assistance Act of 1965. He was one of seven witnesses supporting the legislation; the others included Attorney General Katzenbach, Mr. George O'Connor of the International Association of Chiefs of Police, Lt. Robert D. Noonan Jr., whose book, *Contraception: A History of the Teaching of the Catholic Theologians and Canonists*, was published by the Harvard University Press this spring, has been awarded a Guggenheim fellowship to study matrimonial cases in the Church courts. He will conduct his research in American diocesan

tribunals and in the Sacred Roman Rota in Rome.

Prof. Noonan, who is editor of the *Natural Law Forum*, was program chairman for the American Society of Legal and Political Philosophy and presided at its spring meeting in Washington, D.C. where he was elected vice-president of the Society for the coming year. He also addressed groups at St. Paul's College and the Theological College of the Catholic University of America, both in Washington, D.C.; the Cana Conference of the Archdiocese of Chicago; the Episcopal Theological Seminary of the Southwest; and the Newman Club at the University of Texas. His subject in these addresses was the history of the Catholic doctrine on contraception.

Prof. Bernard J. Ward attended a meeting of the Committee on Rules of Practice and Procedure of the Judicial Conference of the United States June 28 through July 1 in Washington, D.C. He is reporter for the committee's Advisory Committee on Appellate Rules, which has prepared uniform rules of appellate procedure for the 11 federal courts of appeal.

Prof. Ward participated in a seminar in April in Tucson, Ariz. at a meeting of the Arizona Bar Association. The seminar was devoted to the proposed federal rules of appellate procedure.

Prof. Thomas L. Shaffer was given a fellowship award by the Ford Foundation to attend a month-long workshop for trusts teachers at the New York University School of Law in August.

Radiation Center Established at ND

A Radiation Chemistry Data Center has been established at the University's Radiation Laboratory, it was announced recently by Prof. Milton Burton, director of the campus research organization.

The Center, which will serve as an international focal point for the collection, storage, evaluation and dissemination of radiation chemistry data, is being jointly sponsored by the U. S. Atomic Energy Commission and the National Bureau of Standards.

Prof. Burton said the Center will be a part of the national standard reference data program of the Bureau of Standards, thus coordinating data and activities in all fields of the physical sciences.

The program will be organized by Dr. Albert Ross, associate research scientist at the Radiation Laboratory, and will consist of four parts: collection and categorization of data; preparation of critical reviews; publication of tables; and answers to specific queries.

Mechanical Engineering Reunion Scheduled

Notre Dame's mechanical engineering department will hold a reunion dinner in conjunction with the Annual Meeting of the ASME to be held in Chicago, November 7-11. The dinner will be at Johnny Lattner's Restaurant (109 W. Madison) at 5 pm on November 10.

All mechanical engineering graduates interested in attending may secure a reservation by notifying Dr. Edward W. Jerger, mechanical engineering department head.

Recognized as the foremost producer of specialists in the field of radiation chemistry, the University's Radiation Laboratory is engaged in the most extensive research in this field being undertaken on any campus.

The nearby Computing Center will be used with its UNIVAC 1107 computer to expedite data storage and retrieval.

Program Initiated With Peru University

The University has announced a three-year program in which it will assist in the academic and administrative development of the Pontifical Catholic University of Peru. It is Notre Dame's first venture in inter-university cooperation involving a Latin American institution.

Dr. George N. Shuster, assistant to the University president, said a \$577,700 Ford Foundation grant, to be administered by the two universities, will enable the Lima institution "to develop its central administration, rebuild its curricular offerings, especially in the natural sciences, and establish an office of university development."

Shuster said that \$226,900 of the grant will be given directly to the Pontifical Catholic University of Peru with the balance of \$350,800 to be administered by Notre Dame in underwriting the expenses of visiting experts, for exchange of professors and trainees, and for laboratory equipment, library resources and teaching materials.

Plans Under Way for Convention

Jack Tarr's Grand Bahama Hotel in West End, Grand Bahamas, has been selected as the site for the 1966 International Convention to be held on April 29, 30 and May 1, 1966. Jack Tarr's was selected largely because of the great alumni demand to return after the tremendously successful convention there in 1963.

As has been the format in past years, conventioners will fly from Fort Lauderdale, West Palm Beach or Miami on Friday morning arriving at Jack Tarr's around noon for an entire weekend of golf, fishing, swimming, tennis, boating, native music and

dancing. There will be hospitality refreshments to greet you on arrival and a delicious island luau on Friday evening.

Saturday there will be golf, fishing and tennis tournaments with many prizes available for the men and the ladies; and on Saturday night, the Fort Lauderdale and West Palm Beach Alumni Clubs will hold their Universal Notre Dame Night banquet. Representatives from the University will be in attendance and will address the group.

After Mass on Sunday morning, there will be an island brunch with all of the trimmings in preparation for the afternoon return flight to the U.S.A.

These conventions have proved to be an unbeatable weekend of fun and relaxation for all concerned. As in the past you will live in luxury and enjoy every minute. Waving palms, the gentle surf and the beautiful island sunsets are there for all to enjoy along with the finest fishing available, and recently added to the native culture have been two new Hong Kong beauties, Hi Lee and Wing Wong — cruising to a tiny cay nearby, each one in beautiful dress — red with embroidered golden Chinese dragons for good luck. Hi Lee means Beautiful Sea, and her sister, Wing Wong, translates into Splendid King. These two beauties will permit you to experience a new and beautiful romance as they sail to the nearby cay. Yes! They are two very beautiful junks.

A special convention price is now being set and will be announced in the very near future. Gather your friends and plan to spend the last weekend in April with them and a great many other alumni and their wives in the Bahamas.

For further information on the entire convention package, just drop a postcard requesting such with your name and address clearly stated to Notre Dame Convention Headquarters, 100 East Las Olas Boulevard, Fort Lauderdale, Florida.

To Expect It Was Unfair

By Charlie Callahan '38

An advance on the football season was asked for by the alumni office. However, the belief is that by the time this sees the light of day, the football season may be three or four weeks on its merry way.

So, writing in that spirit, the chances are that by now the quarterback situation has been determined, and Coach Ara Parseghian may or may not still be wishing that John Huarte had had another year of eligibility.

It was known that split end Jack Snow had no more eligibility . . . but this may be solved in another year as his younger brother Paul is now a freshman.

Face it! Last year was a miracle season brought about by the passing of Huarte and the pass-receiving of Snow — plus the marvelous defensive work led by captain and middle line-backer Jim Carroll, who led the team in tackles-made.

Maybe Coach Ara Parseghian will

come up with another miracle year. Going into the season, the team, the students and townspeople seemed to almost expect it. Which, of course, was unfair.

The attitude of the team could be gained by words of Captain Phil Sheridan, a senior, a tight end last year and right end this season (we now have the two-tight end attack), made at a

preseason civic luncheon: "The members of the football team think they are the luckiest guys in the world to have Coach Parseghian and his staff as the Notre Dame coaches."

However, 17 monogram winners did return and most of them are included in the following lineup used in the initial campaign against California at Berkeley.

To Save It From the Junk

By Frank Wallace '23

Journalist, Author, Past President of the Alumni Association

Some years ago I received a note from Bob Fellows, producer of the motion picture *Knute Rockne All-American*: "Mrs. Rockne gave me what she described as a picture of Knute's high school football team, his favorite and one he always carried with him. I treasure it so much that I fear it might get tossed out with the junk if something should happen to me. I am sending it to you, knowing you will see that it will find a proper home."

There is no mistaking the blazing eyes. It is the only picture of Rock I've seen with hair (he was about 13 at the time) and it is indeed a jewel which will be precious to posterity.

The incident made me wonder what would eventually happen to all the other souvenirs I had collected during 40 years of writing about sports in newspapers, magazines, books and motion pictures; and of talking about sports on radio and television, at countless dinners, smokers and rallies. So I was relieved last spring when Rev. Philip S. Moore CSC, academic assistant to the President, stopped me in the Main Building and said: "We are going to establish a sports and games section in the new library. Do you have any ideas?"

"Father," I said, "I not only have ideas. I have cartons of material in my basement I haven't known what to do with."

"Fine," he said, "you will be our charter donor."

After some correspondence with librarian Victor Schaefer it was decided that I should do this piece for the *ALUMNUS* after which the detailed solicitation would be taken over by Charlie Callahan, the various publicity channels of the University and, prob-

ably, a continuing committee of people most actively concerned.

Here, then, are the basics of the project which will, I'm sure, have immediate and enthusiastic support from all alumni, authentic and synthetic; from professional sports people and all people interested in sports because of the dignified recognition a great University will have given to sports.

The Idea . . . coming, logically, from Victor Schaefer, is to gather records and written and pictorial data on all sports, amateur and professional, so that when reporters, scholars or historians who want to research any segment of this broadening field, the best available sources will be waiting at Notre Dame. Some showpieces will be on display but the basic collection will be privately located with adequate security.

The Material . . . perhaps the easiest way to answer this is to list the contributions I expect to eventually make: copies of my 14 published books about sports, with original manuscripts, working notes and correspondence; about 20 other volumes, mostly autographed, by other writers about sports history and personalities; about 50 copies of magazines, dating back to 1929, containing short stories, serials and articles, including all my Football Previews with contributed material — a history of a sort of college football between 1937 and 1957; motion picture, radio and TV scripts; pictures, cartoons and paintings which illustrated magazine stories; programs, brochures and play-by-play press box charts of famous games, including Ohio State-ND of 1935; a voluminous correspondence, including autographs from famous Americans now dead; and who knows what else I may find?

Alumni Contributions . . . Almost everybody who has attended Notre Dame probably has kept scrap books or pictures or correspondence. If you have one piece which you treasure, write Victor Schaefer.

Special Groups . . . Among those who might make sizeable, important contributions are: The many alumni professionally engaged in the writing and broadcasting of sports; members of coaching staffs, in any sport, at Notre Dame or elsewhere through the years; the roster of the Monogram Club, some of whom have also been in professional sports; nonathletic alumni (or their heirs) who have been close to sports; nonalumni who have previously adopted Notre Dame or who would like to take part in this significant development; coaches and sports writers who went to other colleges but have Notre Dame mementos and general memorabilia they would like to keep off that junk pile.

By now you should have the general idea. Don't wait to be asked — offer. I am enormously flattered to have been asked to kick off this significant project which is so typically Notre Dame. Ours has always been not only a national but a *people's* university; we have that remarkable group of friends because Our Lady has opened her arms and made them welcome.

Last August I visited the community cemetery where each man, including Sorin, has his humble cross. Just across the road was an athletic field and in its middle one man with a golf club, probably a seminarian. Sports have always been part of the air at Notre Dame, and that helps to explain Notre Dame sports.

NOTE TO SPORTS FANS

The ALUMNUS has not given complete coverage to University sports events and it occurs to the Editor that perhaps we have not given the coverage that alumni expect. Obviously — and this has largely shaped our policy—Notre Dame football is covered nationally in great detail. Basketball also shares quite a bit of the national interest and press. So we have not felt a need for the late news approach, or even the editorial treatment. Naturally, the ALUMNUS shares the deep and widespread enthusiasms, hopes, admiration and respect that the University sports programs command. They are a proper part of Notre Dame life, alumni as well as campus. If you have ideas on treatment in the magazine, let us know. JEA

An Obligation Fulfilled

By Jim Phillips, assistant band director

The introduction of this column of news about the Notre Dame Bands follows as a projection of the January 1965 Alumni Workshop where it was decided that alumni tend more toward College and activity identities than the traditional Class structure. We hope to recognize both areas for some time to come. — J.E.A.

Throughout the long history of the Notre Dame Band, there has developed an esprit de corps which has afforded its members one of the most pleasant and worthwhile experiences at Notre Dame.

Because of just such a tradition, a responsibility has been placed on the band administration to keep our alumni aware, not only of current band activities, but also of the activities of past band members.

This we will attempt to do through this column in each issue of the Notre Dame ALUMNUS. We certainly hope this will fulfill our obligation — at least in part.

Any undertaking such as this is dependent upon information received from our alumni and friends. So please do not hesitate to drop us a card, note or treatise on your present whereabouts and activities. All information

may be sent to the ND Band Office, Box 556, Notre Dame, Ind. 46556.

The University of Notre Dame concert band was named the 1965 Outstanding Catholic College Band in a recent national competition sponsored by the National Catholic Bandmasters' Association. The University band is under the direction of Robert F. O'Brien.

Catholic college bands from throughout the country submitted tapes of their performances to a panel of judges.

The Notre Dame selections in the competition included on original piece for band entitled "Constructs," by Rev. Carl Hager CSC head of the ND music department.

The band will perform at the Notre Dame-Army football game in Shea's Stadium, New York, October 9. A pep rally is planned before the game at Singer Stadium and another New York performance is slated for the Vatican Pavilion at the World's Fair. During their NYC stay the band will be staying at the Prince George Hotel. Final itinerary is not yet complete.

Jim Fleisher, assistant director 1961-65, is now attending the Eastman School of Music, working on his doctorate.

Robert O'Brien, band director, has just completed a trip through the Southwestern states booking the band's tour for the coming school year.

Alumni Advance Unique Association

Three Notre Dame alumni are currently members of a group still unheard of in many dioceses of the country: a diocesan school board with true decision-making powers.

Serving on the school board for the Fort Wayne-South Bend (Ind.) diocese are Richard Rosenthal '54 of South Bend, Alden Lenhard '27 of Mish-

awaka and Louis Niezer '29 of Fort Wayne.

These alumni are three of the four laymen on the 17 member board (three women expand the lay representation to seven). All members are rotated on a three-year membership.

During their first regular meeting this spring the board leaped into action with proposals to streamline school administrations, a retirement plan for lay teachers, a uniform diocesan pay scale for lay teachers and modernized methods for school financing.

Rosenthal is president of the St. Joseph Bank and Trust Co. of South Bend. A former ND and professional basketball player, Dick has five children.

Lenhard is director of public relations for Wheelabrator Corp. The father of two grown daughters, Alden is a parish trustee at St. Joseph's Mishawaka.

Niezer was recently named Knight of St. Gregory by Pope Paul VI. He is president of the Tokheim Corp. and an attorney. The father of seven children, he is president of the board of trustees of *Our Sunday Visitor*.

The Club began what may become an annual affair: a stag ND Club of Boston Golf Outing. Members gathered July 22 at the Wollaston Golf Club in North Quincy for the afternoon round of

golf, cocktails and then dinner and prize-awarding.

A schedule of events has been announced for the coming fall, and many of the club plans are ambitious ones. Among the bigger events are a trip to New York for the ND-Army football game October 9; a weekend jet trip to Miami for the ND-Miami game November 27; and the Communion Breakfast for alumni and sons December 12.

A Freshman Send-Off Party was held in the Smith House at Cambridge on September 1 for all the new ND freshmen and parents. Assistant

Public Relations Director JIM GIBBONS was principal speaker.

—BOB MARR '58, president

Coach ARA PARSEGHIAN and players JOHN HUARTE, JACK SNOW, and JIM CARROLL were featured guests at a Club dinner June 22 while they were in town for the 1965 All-American Bowl Game.

Central New Jersey

AL PERRINE '41 has left us recently. He's now National Campaign Director for the Mental Health Assn. All ND men in this area join me in wishing Al the best in his new work. His devoted service to Notre Dame is well recognized from Fr. Hesburgh on down and much of our fund-raising success is due to the AL PERRINES who gave so unstintingly of their time.

HARRY DURKIN is now a married man after such a long bachelorhood. His mom and dad honored him at an open house in their Belmar home June 5 . . . his lovely wife is from out Tucson way.

ART ARMENTO '61 of Alpine has the luckiest brother at ND . . . young ED ARMENTO '63 was picked as official chaperone for the school to accompany other seniors to Bermuda during semester break . . . how times have changed.

VINCE COMMISA '43 is Asst US Attorney in Newark.

New Jersey boasts a number of coaches and teachers in this area: FRANK PLATT '42 is one of New Jersey's most successful basketball coaches after a very fine start in Western Pennsylvania. Frank coaches Tenafly High School which is perennially a power in county circles . . . he's also an outstanding teacher there. FRANK GARGIULO '61 is also coaching and teaching in St. Joseph's High School in West New York. . . . Frank will soon be a head coach in one of the local schools. TOM LIGGIO '62 just finished his two-year Army stint and is now working locally. CHUCK SCRIVANICH '61 from Rutherford, one of the finest baseball players ever to come out of New Jersey, is now coaching and teaching in Montvale, N.J. The school is St. Joseph's Diocesan School.

ROBERT STACK '41 is leaving us for Toledo, Ohio. Bob, originally from Cleveland, will be assuming a new position with his firm there. BILL SCULLY '43 is from Tenafly and we see each other often, what with our daughters being in the same class, scout troop, etc. JIM MCGOLDRICK '39 was having dinner with his lovely wife at the Clinton Inn in Tenafly recently when I ran into him. . . . Jim looks as trim and fit as he did when he turned over the shillelagh to JOHNNY KELLY '40. . . . It is now almost 27 years since Ed Sullivan wrote that now-famous article in the NY Daily News about Jim and his teammates when they went out to Southern California and lost to the Trojans . . . he told about what a fine group of men they were who, even though they lost a heartbreaker, were still gentlemen in every sense. The same can be said, no doubt, of another group of boys who more recently lost a heartbreaker.

PETE LUSARDI '48 had JOHN HUARTE '65 and PAUL HORNUNG '57 at the Schaefer Pavilion in the NY World's Fair recently as part of a promotional campaign.

JOE BYRNE III and BILL WALDRON are stalwarts of the First Friday Luncheon Club of Essex County in Newark. . . . I manage to see them monthly.

BOB TANZOLA '64 is now with General Motors Overseas Corp. and working toward his master's degree . . . living right nearby in Tenafly is our oldest living alumnus and Monogram winner, SIMON O'BRIEN '08. Simon was a lineman then and is now retired after a long successful tenure as a teacher in New York.

Two other outstanding young graduates are from this well-known town of Tenafly. . . . JACK ENGLER '60 and BOB ENGLER '63. Jack is studying for the priesthood as an Oratory father and Bob is giving a year of his life as a lay apostolate in Colorado.

Chicago

Notre Dame's golfing football coach, ARA PARSEGHIAN, was honored guest at the August 2 golf outing of the ND Club of Chicago.

Ara showed the Chicago duffers around the course and then gave them some comments on what to look for in football this fall at the prize-awarding dinner that evening.

Games and other entertainment—including a showing of "The 1964 Highlights"—were on hand for the non-golfers.

Cincinnati

The cool and elegant environment of the Wiedemann Penthouse Garden provided the scene for the Notre Dame Club of Cincinnati annual elections in June. The following officers were elected: President CHUCK LIMA; Vice-President BOB FROLICHER; Secretary BILL BURKE; and Treasurer JACK MULVIHILL. Following the elections a rousing applause was given outgoing president PAUL KEL-

LEY for his successful administration of the Club over the past year.

Also at this meeting a special Notre Dame plaque was presented to ALBERT CASTELLINI, recently retired member of the University Board of Trustees. He has loyally served the University in many capacities for a number of years and his award was richly deserved.

The annual golf outing was held this year on July 21 at Hyde Park Country Club. REES LABAR chairmanned the event. Twenty-seven alumni played golf while 41 were in attendance for dinner. BOB McCAFFERTY was low gross and JACK "PIVOT" MULVIHILL was high. Many prizes were awarded on the Blind Bogey System. BOB BURKE gave his usual spiritual address while guest speaker for the evening, assistant basketball coach LARRY STAV-ERMAN, gave us a rundown on the upcoming football and basketball seasons.

The picnic which the alumni gives each year for the incoming freshmen and their fathers was held on September 7 at Maple Ridge Lodge. Fifteen new freshmen and their fathers were our guests for the afternoon softball game followed by a steak dinner and the showing of the highlights of the 1964 football season in the evening.

DENVER—At the Denver Club's Universal Notre Dame Night Denver Mayor Tom Cur-rigan '41 (second from left) congratulates ND Coach Tom Pagna, who was principal speaker for the evening. Looking on are Club President Jim Hilger '56 and Msgr. George R. Evans '44, assistant chancellor for the Denver diocese and Club chaplain.

LANK SMITH, president of the Notre Dame Alumni Association introduced Fr. Hesburgh.

PHIL NORTH '39, an alumnus living in Fort Worth, was presented the Notre Dame Man of the Year award for his leadership and dedication to the ideals of Notre Dame. The Most Rev. THOMAS GORMAN, Bishop of Dallas-Fort Worth Diocese and last year's recipient of the award, presided at the presentation. WARREN HIGGINS '32, outgoing president, announced the new officers for the coming year to be: FRED EICHORN '44, president; GENE KERVIN '58 and JOHN ROGERS, vice-presidents; BOB WILLIAMS '59, treasurer, and ED FLEMING '63, secretary. The wives of the alumni held the first meeting of the newly reorganized auxiliary on June 29 at the Metropolitan Room in Dallas, as they were treated to brunch by the Club. Officers' wives were named to serve as officers of the Notre Dame Wives' Club.

On July 18 the Club held its "Summer Splash Party" at the Inn of Six Flags in the Acapulco Suite. An afternoon was spent with bridge, swimming and sampling the chef's table of hors d'oeuvres.

Dearborn

The most noteworthy news in Dearborn is the election of new Club officers: BILL DOSMANN '53, president; CHARLIE KITZ '58, vice-president; and JIM KLINK '53, secretary-treasurer. Three new members of the Board of Directors were named: JOE BYRNE, DON MULLANEY and BILL DECRICK.

It looks as though we will definitely have to initiate a program of prayer instruction for our officers as the new President, in the tradition established by RAY DeFAUW, added a few new twists to the Hail Mary at the opening of a board meeting.

The last two general meetings were held at the homes of JOE BYRNE and BILL DECRICK and once again fellowship was sustained until sunrise. Those attending the meetings were especially gratified to learn that ALBERTO SALAZAR has received an exit visa from Cuba and permission to immigrate with his family to Canada. Through the efforts of chairman DON MULLANEY enough contributions have been received to send Alberto's family airplane tickets for their flight to Canada, and a little nest egg to begin their new life after they arrive. For this we are indebted to the generosity of members of the Detroit Club, the Chicago Club, and Class of 1952 and the Dearborn Club. In addition, we have recently learned that DICK KING has made employment arrangements for Alberto.

Our annual Communion Breakfast was held this year at the Continental Congress Inn with Fr. William Kienzle, editor of the Detroit Archdiocesan newspaper, *The Michigan Catholic*, as the guest speaker. Fr. Kienzle spoke on "The Emerging Layman in the Church" and afterward all of us had a much better knowledge of our new and more meaningful responsibilities in the Church.

New member TOM GRACE received some distinction locally by beating some of the state's top golfers in winning the Horton Smith Memorial championship. There was no distinction for yours truly, however, as he managed to dislocate his right shoulder playing softball. The shoulder was painful enough, but didn't hurt quite as much as the admonition, "You're not as young as you used to be" from ED CAWI, JERRY KELLY and JERRY SARB.

—CHARLIE "LEFTY" KITZ '58, vice-president

Decatur, Ill.

Having enjoyed two consecutive, but small (JOHN DUNN, NICK NEIERS, PAT NOLAN, JERRY McNAMARA and self) monthly luncheons, the Notre Dame Club of Decatur, Ill., opened a swinging summer season. Seventeen sturdy sons challenged 14 holes of the Country Club of Decatur golf course until they were rained out and "forced" inside for the cocktails and rare beef dinner.

JAY CALDWELL, a new member, and PAT

CENTRAL FLORIDA—Members of the Central Florida ND Club and their families enjoy a club outing to the beach house of the J. Robert Smyth family. The alumni, wives and kids enjoyed the sun, sand and surf overlooking Cape Kennedy.

NOLAN tied for low score honors, barely escaping the onrush of FR. KEVIN SULLIVAN, JOHN DUNN and AL LANDOLT. FR. JOHN STEWART came up from Springfield for the festivities. We're hoping to get more alumni from Springfield, Clinton, Wappela, Taylorville and Tuscola to share a few hours with us one of these years.

—STEPHEN G. GRALIKER, secretary

Denver

Coach TOM PAGNA spoke at the Universal Notre Dame Night dinner at the ND Club of Denver and brought down the house. Tom was featured shortly thereafter in WALTER KRANZ's column in the *Denver Catholic Register*.

Newly elected Club officers were installed. They are: JIM HILGER '56, president; PAT McMAHON '48, vice-president; CHUCK BAIER '51, treasurer; and JACK DELINE '61, secretary.

GERRY SMITH was named Man of the Year for 1965.

The summer family picnic was held July 25 with a large crowd turning out at the Crestmoor Club. Activities were planned for all ages, and all ages turned out to enjoy them.

Past President JIM COUGHLIN has been named the new scholarship and admissions chairman. The Club also has a new chaplain: Msgr. GEORGE EVANS.

Des Moines

The Notre Dame Club of Des Moines held Universal Notre Dame Night ceremonies on April 24. Track Coach ALEX WILSON and the Notre Dame track team were our guests at dinner.

Rev. LAWRENCE G. BROESTL, CSC, was the featured speaker of the evening.

Alumni present included: CARLETON D. BEH JR., ROBERT BEH, JOSEPH BISIGNANO, JAMES BOESEN, WILLIAM FULTZ, PAUL EIDE, WILFRED GILL, JAMES HAMMER, JOSEPH JOYCE, NICHOLAS LAMBERTO, FRED NESBIT and DR. EDWARD POSNER JR.

—JOSEPH A. BISIGNANO, secretary

Detroit

Head coach ARA PARSEGHIAN and University Executive Vice-President Rev. EDMUND P. JOYCE, CSC, were the featured speakers at Detroit's annual Golf Stag Day dinner following the rounds of golf at Meadowbrook Country Club, July 20.

The Club is also planning a weekend trip for those members who want to pay their own way.

Plans are already underway for the other annual activities of the Club, especially the Communion Breakfast in December and the annual Retreat in Lent.

—JACK MURRAY, president

Flint

The Rt. Rev. Msgr. HENRY M. MAYOTTE, a Roman Catholic priest for 40 years, was honored Tuesday night as Flint's Man of the Year by the Notre Dame Club of Flint.

He was given a plaque before 170 persons at the Club's 10th dinner dance at the Flint Golf Club.

Msgr. Mayotte, pastor of St. John Vianney Church, admitted he was told in advance that he would be presented the "surprise" award.

"I'm surprised it took you so long to bestow it on me," he started, and the rest of the sentence was lost in laughter and applause, as he received the award from the event's co-chairmen, RAYMOND J. KELLY JR. and VICTOR E. GEORGE.

He said Kelly and George told him of plans for the award and "in these days of emerging laymen, no one dares to contradict laymen."

Kelly called Msgr. Mayotte "a builder and great leader, but before being a great leader, he is also a great priest."

A native of Menominee, Msgr. Mayotte grew up in Detroit, where he was ordained February 15, 1925.

He was assistant at St. Michael Catholic Church from 1925 to 1928, pastor at St. John's in Davison from 1928 to 1939 and was then assigned to St. Agnes as pastor.

He succeeded St. John Vianney's first pastor, the Rev. William J. Flanagan, in 1944 and was named a monsignor in June 1954. Several months earlier he had been appointed dean of the Flint area Catholic clergy.

The Notre Dame Club of Flint has selected a Man of the Year since 1954, with the exception of

1962, and last year named two men. PAUL C. HUGHES, a real estate broker, and ROBERT J. MacDONALD, an attorney.

The others, starting in 1954, are DR. DAN H. SHEERAN, a physician; FRANK J. MANLEY, director of the Mott Foundation; ANTHONY G. DeLORENZO, a vice president of General Motors; HUBERT L. CURTIS, AC works manager; Msgr. EARL V. SHERIDAN, pastor of St. Michael; ARCHIE R. CAMPBELL, manager of the Elks Club; JACK PRATT, football-basketball coach of St. Matthew Catholic High School, and OSMUND "OZZ" KELLY, former mayor of Flint.

DR. LAWRENCE H. BALDINGER, associate dean of Notre Dame's College of Science, used slides to illustrate a talk on science at the University. This is the centennial year of the first science program at Notre Dame. LeROY E. SUTTON was master of ceremonies.

The committee for the May 25 Universal Notre Dame Night 1965, was composed of: VIC GEORGE, DICK CRAMER, BILL MINARDO, RAY KELLY, PAUL HUGHES and FRED MANSOUR. Co-chairmen were Vic George and Ray Kelly.

Fort Lauderdale

This year's Notre Dame Club Convention in Nassau was the usual enjoyable weekend it always is. BOB McDONOUGH '52 and HUGH MALONEY deserve a special vote of thanks, as does HANK URUSKI, father of ANDREW URUSKI '68, who did a Trojan job for us in Nassau the day before everyone else arrived. Some of those in attendance were DAN DOWNEY '44 (winner of this year's low gross golf score), and wife Rosemary, Judy and TOM MAUS '57, DON DORINI '53 and wife Jeane, GEORGE PATTERSON L.'58, another golf trophy winner this year, Catherine and CHARLIE QUINN '34 and Jane and BILL MAUS '53.

JIM MOTTSETT '64 is handling the arrangements for this year's golf outing at the Oak Ridge Country Club on June 23 and it looks like last year's trophy winner BOB BLAIKIE '56, will have a real battle on his hands keeping it two years in a row.

We are actively looking forward to seeing old friends and classmates at the upcoming Notre Dame-

Miami game on November 27th. TOM WALKER '42 and TOM SULLIVAN '48 are in charge of arrangements and will be ably assisted by CHUCK OLWELL. This year's package will include a buffet with cocktails at the Governors Club Hotel in Ft. Lauderdale, game ticket, and transportation to and from the Orange Bowl. We are also considering sending buses from the game to the victory dance at the Shelburne Hotel in Miami.

If any of you alumni want to see a good game and enjoy Southern Hospitality, and would like to go home with a nice tan which will last until Christmas, come on down.

The Club held their annual Freshman Send-Off dinner August 12 at the Governors Club for five freshmen coming to ND this year from the Ft. Lauderdale area. The five are Steven M. Gehl, Joseph P. Keniry, Richard F. Ott, Michael Trombetta and Donald A. Wich.

A "mackerel snappers' holiday" was held by the Club on July 29, when club members fished from 7 to 11 p.m. Thursday evening off a chartered boat to catch their Friday meals.

Indianapolis

We had our biggest turnout in years for Universal Notre Dame Night with FATHER HESBURGH as our main speaker and guest of honor. One of the highlights of the evening was the award of The Man of The Year which went to J. ALBERT SMITH '34. The winner of the Club's Scholarship to Notre Dame for 1965 was John M. Boyle, a Cathedral High School graduate whose father is an ND grad.

New officers and directors for 1965-66 were announced at the dinner and they are as follows: President, RICHARD F. McNAMARA; Vice President, WILLIAM F. McGOWAN JR.; Secretary, ROBERT E. KANE; Treasurer, RICHARD K. OWENS; Directors, FRED L. MAHAFFEY and LEO A. BARNHORST. TOM KERN and BILL McGOWAN JR. were the chairmen for this excellent affair.

The stag outing was well attended at Two Gaits Farm with BOB BOWERS and BOB KANE in charge. The fund raising project for the Scholarship Fund this year was the Avondale Playhouse with Kathryn Crosby (Bing's wife) playing the lead. LEO BARNHORST and committee did a great job in heading up this drive.

The annual golf tournament and dinner was held July 22 at the Hillcrest Country Club. Ara Parseghian teed off early so he could give us the inside information on this coming fall.

Indiana Governor Roger Branigin recently appointed JIM WELCH '50 as director of trade relations, State Alcoholic Beverage Commission.

Greater Miami

The Miami Club on March 4, following Ash Wednesday, celebrated a belated Mardi Gras of sorts, for it was on that date that the local Alumni, after fifteen long years, viewed the first almost perfect season since Leahy's last National Champs. We viewed the Era of Ara for over an hour; these most pleasing pigskin pictures are the likes of which only the old-timers can recall and relive. Huarte to Snow . . . nuff said. And now we are primed for the big one this fall in the Orange Bowl when Notre Dame takes on the Hurricanes of Miami.

Our club has lost some close ties in recent weeks. Judge VINCENT GIBLIN, an old Alumnus who was in the forefront in the formative years of our club and who arranged for the Four Horsemen to be here at the last ND-Miami game, died. He was a much sought after speaker at affairs and was a great supporter of the Fighting Irish. JACK ADAMSON, an associate member and former recipient of Man of Year Award, and CHARLIE TRICE, who made many of our arrangements in the first two visits of ND to Miami, both passed away and will be missed.

It was announced by our President GEORGE F. HERO that the Deauville Hotel was selected as the Club's headquarters for the Notre Dame-Miami game on November 27. The special rates for the period from November 26 to November 28 will be \$14 double occupancy, European Plan (\$7

Kalamazoo

The Notre Dame Club of Kalamazoo held its 16th annual summer outing at the Gull Lake Country Club on July 13th. Club President GEORGE LAURE stated that over 300 loyal friends of Notre Dame attended the affair. Approximately 225 golfers showed up on the greens.

A large group from the University, headed by coach ARA PARSEGHIAN, HUGH DEVORE, JAKE KLINE, JOHNNY RAY and FATHER DURBIN attended.

At the banquet that evening Head Coach Parseghian introduced his staff and spoke briefly about the forthcoming football season. Program Chairman ART MULHOLLAND JR. awarded the golf prizes.

Kansas City

The annual Freshman Send-Off Dinner was held on September 9, with some 15 men of the Class of '69 and their fathers in attendance. Chairman of this year's dinner was MICHAEL HOGAN '56.

The final preparations are being made by the Club to join forces with a group of nearly 150 Alumni and friends of the University from Salina, Kan. on a private train heading for the October 2 Notre Dame-Northwestern football game in South Bend. The group from Salina is under the leadership of AL SCHWARTZ '37 with co-ordination in Kansas City by TOM McKEON '54.

A second football trip is also planned. This time by charter flight from Kansas City to Miami, Fla. for the Notre Dame-Miami game. A group of some 100 people are scheduled to stay in Miami for five days at the Carrillon Hotel. The chairman for this trip is JIM HIGGINS '53.

The Auxiliary has also been busy.

At their annual luncheon for the installation of new officers, the Auxiliary presented HAROLD SOLOMON '47, President of the Kansas City Club, with a check for \$1,000 for Challenge II.

Other activities of the Auxiliary included a highly successful cocktail party and their annual luncheon welcoming the mothers of the new freshmen.

Los Angeles

The Los Angeles ND Club held their Sports Dinner in the Brown Bottle Room of the Schlitz Brewery in Van Nuys, June 21. Among other highlights was a showing of the "Highlights of the 1964" football season.

A stag "TV-game-watch" party has been planned for the ND-So. Cal. football game, October 23.

McHENRY COUNTY, ILL.—Man of the Year William W. Desmond (second from left) is presented with his plaque at the Universal Notre Dame Night dinner recently. At left is Rev. Thomas E. Brady '59, former club chaplain and now superintendent of Boylan High School, Rockford, Ill. per person, double occupancy daily). If the modified American Plan is desired, an additional \$4 per day per person to the above rate (which means a rate of \$11 per person, double occupancy daily) includes a full seven-course dinner and a full course breakfast or brunch.

During the past several months we have held numerous activities and in February we were fortunate to have the Athletic Director Ed "MOOSE" KRAUSE on his visit to Miami on the Notre Dame Challenge II Program. He said dinner was a huge success with over 125 people in attendance at the Beefer Restaurant. Outgoing President BOB PROBST was in charge of arrangements. In addition TOM HILLS held a successful press luncheon at the Elks Club of Miami for Moose Krause and DICK RUWE of the Notre Dame Foundation.

During the Challenge II Program we were also fortunate to announce the Notre Dame Man of the Year Award presented by JAMES SMITH, last recipient of the award, to GEORGE COURY in recognition of his many fine accomplishments for Notre Dame and our local club. George has always been generous to the University of Notre Dame and has included many contributions to the full commerce.

On May 6 the club assembled at the Urmev Hotel for a dinner meeting. Those who attended the meeting included GEORGE KENNARD, JIM SWEENEY, DAVE RUSSELL, BILL KILLIAN, ROBERT I. PROBST, FARIS COWART, JACK CANANE, CHARLIE MAHER, BOB PROBST, DON MURRAY, E. J. HANLEY, TOM HILLS, CHUCK NACKLEY, BROTHER MICHAEL, GEORGE HERO, JOHN PARKS, ED LYONS, JIM SMITH, JULES BERGUL, JERRY QUELLETTE, RAY POPP, B. J. FEENEY, BILL MAZANEC and BILL STEETER. In addition we were fortunate to have DAN CULHANE, alumnus of Notre Dame from Chevy Chase, Md., and director of the Boys Club of America of the Middle Atlantic Region, in our attendance at our meeting.

BROTHER MICHAEL ADAMS CSC of Archbishop Curley High School, announced the forthcoming testimonial dinner for BROTHER KERIC DEVER CSC, principal of Archbishop Curley High School for the past six years. The testimonial dinner was later held at Miami Springs Villas on May 11 with an overflow of a crowd of over 300 people. Brother Keric was recipient of many fine gifts, plaques and a generous check for a trip abroad. BROTHER CHARLES ANDERSEN CSC, director of admissions, St. Edward's University, Austin, Tex., was the keynote speaker and he did a wonderful presentation.

CHARLIE MAHER and TOM HILLS graduated from Notre Dame in the same class as Brother Charles and in the aftermath of the affair they reminisced with him about "the good old days."

In addition the club was fortunate to have Otis Mooney, assistant football coach of the U. of Miami Hurricanes, who gave us a racy rundown of what to expect from the local lads. He indicated they had fine prospects for a good team and would show some interesting football to the Miami fans. He mentioned the vicious practices of the college recruiting world these days and spoke as a past master of the trade. He jokingly announced that Miami had just jelled negotiations on the officials for the Miami-ND game and these would include two brothers of Miami's Coach Tate, some relatives of Mooney and two other close friends of Miami. After fielding pitched questions from some of our sharpies he ended an interesting talk that was well received. One of our faithful announced he wished him and the Hurricanes the same kind of season ND had last year (get licked in the last game!) but I suggest the old grads of ND would not care to sit until the last two minutes to win this one.

On the subject of football, you might be interested to see some of the Irish because Andy Gustafson, head of the North-South Shrine game held in Miami, has already signed Ara Parseghian to coach the North on the game held here in Miami on Christmas Day.

On June 24, the club held a splash party at the Airliner Motel at 7 p.m., with hot dogs, beer and a band for entertainment. It was a welcome home party for our President, GEORGE F. HERO, who recently got married and was just returning from his honeymoon. TOM HILLS and BILL MAZANEC were co-chairmen of this function.

On July 22, the club had a Notre Dame Night when the Miami Marlins baseball club entertained Leesburg, in the Miami Stadium. GENE KUBICKI and DAVE RUSSELL made the arrangements with Bill Durney, former sports broadcaster of the St. Louis Browns and now general manager of the Miami Marlins.

In the right photo, Irish halfback and leading ground gainer last fall, Bill Wolski (left) totes up his score with John Boeschstein after their round of golf. A capacity gathering filled the course, enabling the Muskegon Club to add to its scholarship fund.

The club closed its summer activities with a picnic at Grandon Park Cabanas on August 14. CHUCK NACKLEY and JIM SWEENEY were co-chairmen of this affair.

Monroe, Mich.

The news from Monroe, Mich., is the following: HUGH LAUGHNA '40 and I attended our 25th and 20th reunion in June. The reunions this year were by far the best.

PAUL BRAUNLICH was elected prosecuting attorney in last November's elections.

DR. JOHN LABOE surprised us all by announcing the birth of his fifth daughter June 6. I'm enclosing a picture that is long overdue. A picture of proof that after five daughters it is still possible to have a son. Our eldest daughter is 17 and the "King," as he is called by his sisters, is 2½.

Muskegon

Heaven blessed us with a beautiful day and the presence of "MOOSE" KRAUSE for our sixth annual golf stag held at the Pontaluna Country Club on Tuesday, July 27. We missed some of the usual participants from South Bend: FATHER BRENNAN, FATHER DURBIN, BILL EARLEY, DEVORE, CAHILL, KLINE and O'NAPOLITANO, but Moose filled in beautifully and added the right spark. Some say that Moose's attendance was a side trip from a short vacation at the Cannon (GEORGE and BILL) Lodge on the Pere Marquette River at Baldwin.

We are grateful to the Cannons for thus making Moose available as well as a great deal of thanks due to tireless STAN TYLER JR., our energetic Club President (whom we are maintaining in that office "in perpetuum") and TV and radio personality, JIM MORSE, along with newly acquired TOM MOORE (of the Detroit Ball Bearing Moores) and the ole faithful and reliable BILL TARDANI, the Hackley Bank executive, all of whom contributed much time and effort to make this year's affair a friendly as well as a financial success.

This annual stag has grown in popularity and is well attended by our non-alumni friends and sympathizers and we do not have any trouble getting together a crowd of 150 or better, which was the approximate number this year. It is helpful to our scholarship fund and helps keep the Notre Dame spirit alive in our area.

Nashville

The fledgling Notre Dame Club of Nashville held their first annual Universal Notre Dame Night observance on April 24 in the Biltmore Gold Room.

Toastmaster DICK DORA '41 then introduced several guests, among them Ray Kemp, former athletic director at Tennessee A & I, and Buddy Young, former star for Illinois and the Baltimore Colts.

The high point of the evening was the presentation of the Man of the Year Award to the Most Rev. Joseph A. Durick, D.D., bishop of Nashville. Fr. John Henrick, Club chaplain, accepted the award for Bishop Durick.

After dinner, the group enjoyed the filmed highlights of the 1964 football season.

New officers have been elected by the Notre Dame Club of Peoria. They are: **GEORGE J. BEST MD '38**, president; **LOUIS ZUMBAHLEN '49**, vice-president; **DENIS BERRY '56**, secretary; and **DAVID THOMAS '62**, treasurer.

It was Notre Dame Night July 27 at a home game of the Peoria Pacers, a member of the Central Illinois Collegiate League. ND senior **DAN MCGINN** is a pitcher for the Peoria baseball club and was honored by the ND alumni.

Also honored were Rich Sauget and Al Kristowski, both ND undergrads who played for the opposing Lincoln, Ill., team.

Philadelphia

Philadelphia Club members looked forward to an active fall and winter season after a quiet summer. The only summer activity was an enjoyable outing at Liberty Bell Race Track, which celebrated the occasion by staging the Notre Dame Club of Philadelphia one-mile feature race. **JIM VOIT** earned a pat on the back for arranging a real fun party.

The new season opened with Back-to-School Night, a cruise on a Delaware River excursion boat which has become a popular annual event with alumni and students of the Philadelphia area.

Two football trips are scheduled this fall: to New York by train for the Army game, and by plane to Miami for the Miami game. Both hopefully will draw capacity.

President **BILL WHITESIDE** and **PAT KITTREDGE**, two ornaments of the Philadelphia bar, have done a fine job of revising the outdated Club constitution and by-laws.

JOHN DEMPSEY is hard at work on arrangements for the annual Communion Breakfast, which will bring together club members and their families in December. Once again the party will honor the Delaware Valley high school football players who win the Knute Rockne Memorial Awards. The 1963 Award winner, John Pergine, has made an excellent impression as a quarterback candidate on the ND varsity.

JIM LEYDON, tireless, ingenious and able club president in 1963 and 1964, was given the Man-of-the-Year Award at the Universal Notre Dame Night party. President Whiteside handled arrangements at the Bellevue-Stratford Hotel. Everyone enjoyed the party, especially the professional en-

tertainment arranged by Bill. **REV. JOHN WALSH CSC** represented the University and made a hit with his remarks.

JOHN MOORHEAD had a long, hard summer—a destructive fire swept through the Connelly Container Co. plant early in the spring, and John (not to mention a couple of hundred other employees) had to labor under difficulties as the rebuilding job went on around them.

TOM MCGRATH (our Club's first Congressman) has been named to the Banking and Currency Committee of the House of Representatives.

Phoenix

Notre Dame Alumni and their wives celebrated Universal ND night on May 6 at the Casa de Paz y Bien, Franciscan retreat house in Scottsdale.

JOHN McSHANE '55 was named as Man of the Year and the presentation of the award was made by **ED BOYLE '38**, last year's honoree and former head of the FBI in Arizona. McShane is presently serving as vice-president of the Club and is an electrical engineer for the computer department of General Electric Co. in Phoenix. A native of Hammond, Ind., McShane is a second-generation winner of a Notre Dame Club award. His father **JIM McSHANE** received the award in 1963 from the club in Calumet, Ind.

The principal speaker for the dinner program was **REV. ALBERT HEINZER CSC '41**, director of Father Peyton's family theater, who described his work and showed a film depicting the work of the family theater. Master of ceremonies for the affair was **DR. WILLIAM DUNN '47** who introduced **ART ERRA '30**, president of the Club, who made a brief business report at the meeting.

PEORIA, ILL. was the site of this talk between actor Pat O'Brien and alumnus Jack Manion on the occasion of the Peoria Deanery Council of Catholic Men's dinner for the bishop last June. Jack brought along Knute and the three had a visit together. Jack's president of the Deanery Council there.

Rochester

The ND Club of Rochester is planning a trip to the ND-Army football game in Shea Stadium for alumni and friends. Chairman **JOHN CASEY** has planned for a bus-ride down and back and two nights in the Hotel Summit in New York City.

The annual golf tournament was held at Braemar Country Club July 19 with a filet mignon dinner following the rounds of golf. Topping off the evening was a drawing for \$100 in the Club's regular raffle. They will give away two more \$100 purses and a new car or \$2,000 in cash to some lucky member.

Back in June the Club held a smoker in conjunction with the Bishop Kearney's Men's Club.

The smoker featured 1964 All-America end JACK SNOW and ND sports publicity director CHARLIE CALLAHAN.

They *All* Came for the 1965 Reunion--- and Filled *All* Rooms . . .

The 1965 Reunions, attended by more than 1100 registered alumni, found room space at a premium in the five halls set aside for the weekend. The Alumni Banquet in the North Dining Hall featured, again, wall-to-wall alumni as a most attentive audience for the Presidents' Reports — Lank Smith for the Association and Father Hesburgh for the University.

The Golf Course found the good weekend weather setting a Reunion record for the more than 500 golfers who toured the Burke course. Father Holderith's alumni sparkled in the prize awards, but the tournament is broad enough to spotlight those alumni whose scores are creative and imaginative and even dramatic.

As we have said, year in and year out, the Reunion is a reunion. It is not intended as a retreat — although the Class Masses, the Sunday Alumni Mass with its fine sermon by Father Maurice Powers and the meditative walks that many alumni enjoyed, come close to this result. It is not intended as a symposium — and the somewhat disappointing crowd that occupied the Library Auditorium to hear Dr. George Shuster, Dr. Frederick Rossini and Dr. Thomas Bergin in a significant approach to continuing education, proved our point. But, those who attended were rewarded by the program.

Watch for the 1966 Reunion literature, which tentatively will include a specific Continuing Education program, but just *preceding the regular reunion weekend*. We think this may be one answer to the problem of integrating the two events.

There was more evidence of general planning in the 1965 Reunions. The Silver Jubilee Class, following a strong recent tradition, was thoroughly organized in detail for the entire weekend. The Class of '25 featured a special dinner honoring the 40th anniversary of the Rose Bowl team. And the younger Classes served notice in their promotion and attendance that a new pattern for Reunions, to meet our own space problems, is now directly facing us.

And

REUNION REGISTRANTS

LENNOX ARMSTRONG, ALVIN BERGER, WILLIAM CARROLL, REV. PATRICK DOLAN CSC, EDWARD GUSHURST, JOSEPH HEALY, L.D. KEESLAR, RAYMOND KELLY, JOSEPH KENNEY, ALBERT KUHLE, EMMETT LEMHAR, HAROLD MUNGER, JOHN O'DONNELL, NORMAN RANSTEAD, EDWARD RIELY.

BOB ROACH reported early in April that in and around Muscatine, Iowa, they have been buried in snow all winter. Bob has had great interest in making our Golden Jubilee an outstanding success.

A letter in April from L.D. KEESLAR of Fort Myers, Fla., disclosed that he was having some difficulty with his vision. However, he did say that he was responding to treatment and hoped that his plans of years standing would be realized — i.e. to attend the Golden Jubilee of the Class of 1915.

Members of the Class will be saddened to learn that FATHER JOHN J. MARGRAF CSC has been ill for some time and, therefore, will be unable to be with us for the Class Reunion. Fr. Margraf is stationed at Holy Cross House, Notre Dame, Ind. I am sure he will be more than pleased to hear from his classmates.

FATHER PATRICK H. DOLAN CSC is stationed at Holy Cross House, Douglas Road, Notre

Dame, Ind. Although he had to undergo surgery earlier this year, he reports that he is improving rapidly and looking forward to seeing the members of the Class who will be at Notre Dame for the Reunion.

FATHER CHARLES L. DOREMUS CSC known to all members of the Class of 1915 resides in Corby Hall on campus. He, too, is looking forward to a visit with many of the alumni in June.

MARCH F. WELLS, better known during his years at Notre Dame as "Prep" and the pitching member of the famous combination "Prep Wells and Dolly Gray" wrote to us in a recent note telling us that he will be with us for the Golden Jubilee Reunion. Prep resides at 1901 E. Taylor, Bloomington, Ill.

Following are excerpts of a newsy letter from HENRY B. SNYDER LLB-LLM who resides at 18058 Lorenz Ave., Lansing, Ill. He was a self-styled "Day-Dodger" and, therefore, did not gain a wide acquaintance on campus. He obtained his degrees in 1915 and 1916. He recalled a close friendship with COL. HOYNES and FATHER O'DONNELL who later became President of the University of Notre Dame. "I practiced law for a while, attended Officers' School at Purdue University and was in three battles overseas. However, none of the 500 candidates ever got their officer-ship. Did attend Sorbonne University in Paris for four months in 1919. Saw President Wilson, Sec. of State Lansing and Colonel House over there." After practicing law in Gary and Hammond, Ind., for 12 years, he became active in organization work, fund-raising for commercial concerns, civic groups and social welfare. He has been retired for eight years and lives with Mrs. Snyder in Lansing. The Snyders have a married daughter who has three boys and a girl and resides in Hammond, Ind. A son, who is with the Martin Co., Orlando, Fla., has twin boys almost five years old and another son nine months. The Snyders' younger daughter's husband is an official of the Raymond Concrete Pile Co. They have resided in Norfolk, Va., where he surveyed the tunnel at the bay. They are now located in New York City, the headquarters of Raymond Co. Barring unforeseen circumstances H. B. SNYDER hopes to be with us at Notre Dame for the reunion.

REUNION REGISTRANT

GEORGE WAAGE.

Our birthday reports show: REV. GEORGE HOLDERITH CSC of Alumni Hall, N.D., May 24; FRED L. STEERS '14 LLB of 1910 W. 107th, Chicago, May 27; NORBERT G. MONNING of 515 Union Bldg., Knoxville, Tenn., June 6; ANTHONY C. FASENIYER '14 '16, address unknown, June 8; FRANK B. MARSHALL '14 '16, 2612 Washington Ave., Santa Monica, Calif., Aug. 9. If we missed your birthday, drop us a line so we can update our records. It'll be a pleasure to hear from you.

My first stop going south was — you may guess — to call on FR. CHARLES WILLIAMS, at St. Malachy's Rectory in Rantoul, Ill. My phone call to Father Williams resulted in a command to come right over and "free load" in the school cafeteria — which is also used as a gym. Fr. Williams has a brand-new school of which he is proud, and justly so.

My first overnight stop was at Robinson, Ill. If I didn't stop BILL BRADBURY and his brother STAN — who is State's Atty — would have the sheriff after me. You really should see the office of this Presbyterian — looks like an indoor Grotto. Religious statues, Rockne bust, campus pictures and ND chair. He's also trying to get on the right side of Fr. Williams by sending Father his picture.

The day of FRANK REESE's funeral Bradbury had the local radio station play the Victory March, and quoting from Alumni Sec. JAMES E. ARMSTRONG's letter, "That slow version of the Victory March can really wear your eyes."

Missed contacting NORBERT G. MONNING of Knoxville, WILLIAM J. NOONAN of Pensacola, Fla., and FRANCIS J. HURLEY of St. Petersburg, Fla. Sure wish they would drop a note to me and let me know they are in good health. We would all appreciate the contact.

Stopped over at Winter Haven and had an enjoyable "bull session" with CMDR. CHARLIE CALL. Showed him the slides I had taken and learned he and the Mrs. had attended the Florida ND convention in Nassau.

Naturally stopped over at Orlando to see my Corby Hall Subway roommate ERNIE "STUFFIE" BURKE — we shared a room with "OLD DUTCH" BERGMAN, whom we believe to be ND's only four-letter man. Ernie is still the same old left-hander who makes those South American boat trips.

JOHN J. VOELKERS the "ole quarter miler" was pleased with my slides and had some prints made from them. Voelkers and RYDZEWSKI and I plan to drive down to ND for Monogram Dinner June 10.

Heard from WILLIAM J. ANDRES of 410 Dorchester Rd., Rochester, N.Y. "First let me thank you very much for sending me SHERWOOD DIXON's and BILL BRADBURY's letters. I knew Sherwood better than Bill for the reason that Sherwood played football and I saw him daily and have seen him quite a few times since. Sherwood has always been one of my favorite people and his feet have always been firmly on the ground as anyone can see from

SPOTLIGHT ALUMNUS

HARRY C. BAUJAN '17

Mayor Frank Somers of Dayton, Ohio, proclaimed June 15, 1965, Harry C. Baujan Day in Dayton; the Ohio state senate passed a resolution praising Harry's contributions to the University of Dayton, the city of Dayton and the state of Ohio; and Gov. James Rhodes sent a personal letter of thanks.

All occurred when a Dayton sports group,

the Agonis Club, sponsored a dinner to honor the "Blond Beast."

Harry, one of Rockne's boys as a player and a teammate, has been football, basketball and baseball coach and director of athletics at the University of Dayton. He is now a consultant to athletic programs at the university.

He went to Dayton in 1922 as assistant football coach under Van Hill and assumed the head coaching position for the football, basketball and baseball teams in the 1923-24 school year. In his first game as a college coach the Dayton team ran by Indiana Central, 161-0.

In 21 seasons of football he posted a 164-64 record with only three losing seasons, and they were all 4-5. He coached five basketball teams and 23 baseball squads, with two undefeated seasons on the diamond.

For these feats and more, 600 friends, teammates, players and city and university officials gathered to honor Harry Baujan once more.

He has been honored many times before by other groups, capturing the Knute Rockne Clubs of America Award for athletic director of the year in 1962. The year before the University of Dayton had renamed the football stadium Baujan Field. In 1962 he also was named to Helms Athletic Foundation Hall of Fame — as a coach, a player and an athletic director.

In 1963 he was nominated to the National Football Foundation and Hall of Fame.

He has served on the Boxing Commission, the Amateur Baseball Commission and the Dayton Playgrounds Committee.

reading his letter. Since returning from Mexico, I have not done anything professionally but have been very busy doing the little things and making various changes necessary to turn a new house into a home. Hope to have the older grandson enter ND the Fall of '66 if we can persuade 'the powers-that-be' that they have a place for him. He will sure be disappointed, as will I, if he can't make it as it has been his aim since early childhood and mine even before that." Thanks, Bill, for your interesting letter, always appreciate hearing from you. Let's hear some more on how you are coming along with your grandson and ND. I'd say it's "in the bag" knowing his grandfather.

MORRIE STARRETT, the "ole hurdler" of Olympia, Wash., now retired, still nice enough to drop a card and let us know he is enjoying good health.

Heard from that Dallas, Tex., man BILL GRADY. We will be looking for him on the Campus this June.

Let me report that you won't have to have a benefit for your classmate LAMBERT Q. SENG. He looks great and reports he is enjoying good health. He drives a car something like my Falcon — both made by Ford — but his is one whose windows work by buttons and you keep them closed when it is warm. Guess Lambert's car cost a little more than mine — it's one of those called Continental. Hope to take a ride in it as he promised that he'd like to drive down with his wife and call on SHERWOOD DIXON. Guess he flies low in his car as Bert says Dixon, Ill., is but a couple of hours away. Great if GEORGE E. HARBERT and his Mrs. would drive up and we all had lunch together. Honestly Seng and I had a really good old-fashioned talk. Bert had a good story about BUTCH WHIPPLE walking the dog around the campus — broom for gun — his cape Butch got from BROTHER "HUGHIE." Looking forward to enjoying Seng's company again real soon — when I'll listen more carefully and report some of his Campus stories.

Regret that I have not heard from more of you

CLASS OF 1925

ANDERSON related his experiences as assistant to Rockne. ARA PARSEGHIAN gave us an idea of what to expect this fall. GEORGE VERGARA spoke of his days as freshman coach. JIM ARMSTRONG presented HENRY WURZER a well-deserved plaque for his work through the years as class treasurer and custodian of our Mass fund. Hank and Jim were the key men in making our banquet such a success. JIM CROWLEY'S rendition of "Rockne's pep talk" was terrific. REV. EDMUND P. JOYCE CSC the man who gave us Ara, spoke and the "piece de resistance" was WARREN BROWN, who came out of retirement to be with us. He truly was one of the great sports writers of all time and still has plenty of spark as a speaker. EDWARD "MOOSE" KRAUSE presented Warren Brown with a monogram jacket from the Monogram Club, thus ending a truly wonderful evening.

The usual bull sessions prevailed over the entire weekend. Saturday's Class Mass was well attended. FATHER JOHN LYNCH '25, said the Mass. JACK SCALLAN served and LARRY CASEY took up the collection.

Saturday's Alumni Banquet with FATHER HESBURGH'S inspiring talk made it a weekend to be long remembered.

"I roomed at school with Brule and I only accidentally bumped into him at church one Sunday in the approximate six years that I have lived here in White Plains. (My wife reminds me that we have lived here over nine years — you can see how my memory is slipping!) Incidentally, I met her at the dance in the Vanderbilt Hotel in 1926 after the Army-Notre Dame game. . . . FROM PRESIDENT BERNARD GARBER

At one of the Challenge II dinners in NYC, the '28 Class was represented by LOUIS "BUCK" BUCKLEY, GEORGE CRONGEYER and BERNARD GARBER.

With Pauline, Buck then went off in May to Ireland and Sweden, visiting ancestral lands. With them was son Tim, one of the first arrested in Selma with the Chicago clergy. At Shannon airport the Buckleys encountered BILL BROWN and his wife who were on their way to Spain.

Buck has been elected president of the New York Chapter of the Industrial Relations Research Association. The April 1965 *Catholic Mind* carried his article on "Automation—Master or Servant." Lou also wrote "Economic Pressures on the Family" as a chapter in the Fordham Press book *Marriage—a Psychological and Moral Approach* edited by William C. Bier SJ. It should be good—the '28 Class has had lots of pressures!

VINCE CARNEY abandoned the Buckleys one night to have dinner with me. He was interested to hear my son Michael had chosen the U. of Toronto (St. Michael's) over ND. Vince has a son attending Toronto and a daughter who is a graduate. Another daughter won a National Merit scholarship this year, entering college in September.

JOHN HERBERT, someone told me, is sales manager for Will & Baumer, candle manufacturers. John lives in Needham, Mass.

In La Crosse, AUGIE GRAMS was plagued during May by an injured foot and the flooding of his warehouses and plants by "Old Man River," the Mississippi.

FATHER MARK FITZGERALD, director of the industrial relations section of the University's economics department, was chairman of a symposium on *Pacem in Terris* in May. In a panel discussion on "Meeting Responsibilities in the Modern World," Lou Buckley spoke on personal participation. Lou is regional administrator, U.S. Bureau of Employment Security for New York City.

In February I sent a letter to our classmates with an up-to-date '28 Roster, prepared by the Alumni Office, which asked in return for any changes in address. It noted also (on page 9) the names of 33 men whose mail is being returned unclaimed. Can you provide the addresses of any? Page 10 listed almost 100 deceased classmates.

From California's Sunland LESTER M. FLEWELLING reports he is now general agent of Beneficial Insurance Co. Previously he was executive secretary, Southern Calif. State Dental Laboratory Society. His son Roderick is a '56 graduate of Glendale College, while his daughter will be a grad of Mount St. Mary's of Brentwood in '68 (our 40th reunion year). Les was president of both the Sunland Democratic Club and the Association Executive Conference of Los Angeles. Les hears from CHARLES DUCEY and GENE FARRELL but notes the deaths by the end of '64 of FRANK CANE, FRANK OLSEN, JEROME HIGGINS and TERRENCE HALLORAN, all ND alumni and associated in boys' work in Los Angeles.

FATHER JIM McSHANE says BOB CAPEIUS had surgery on his eyes with a great improvement in sight. Bob also wrote me that he had been blind seven years but can now see, read, write and watch TV. Of Bob's children the oldest graduated from IIT, the second from DePaul, the third from Loyola of Chicago and the fourth is at Illinois. Bob has two grandchildren.

JAMES MAURICE INGRAM, architect and engineer, wrote from Louisville that he expected to make the So. Cal game and party, bringing his wife and three grandsons. His son is ND '54.

JOHN IGOE has given up contracting and is now on a new career with Bernard & Co., Columbus stockbrokers. Son Dan is ND '65 and son Kevin is ND '67. Jack is extra active in ND and Catholic affairs, being trustee of St. Charles Bor-

romeo College, district governor of Serra International, director of the Association for Human Emergence. He regularly sees TOM HART, FONTANA, KINNEARY, JOHN MURPHY. He had just talked with JIM SHOCKNESSY in charge of building the North-South Freeway, due into Cleveland this summer. Igoe reports that NORB SEIDENSTICKER retired from Mead Paper; has a son ND '66. John writes he is thankful over and over to be part of the Class of '28 and wishes he could hear from every member. He expects to attend the So. Cal party at ND and the Army party in NYC.

JOHN FONTANA also expects to make the Army game in NYC. He has been staff assistant to Sen. Stephen M. Young of Ohio since 1958.

Anyone receiving a color slide taken at our 35th reunion can thank GENE FARRELL who is cleaning his files in readiness for new ones to be taken in 1968. At that time be sure to see the excellent movies taken by JIM ALLAN JR. at our 35th. Those who saw them last year at the '28 cocktail party are asking for a repeat.

Also at the 40th, journalists will hear GEORGE KELLEY's experiences during an eight-month strike at the *Youngstown Vindicator*. George and others lived at the office and published every day — sometimes one page and other days 104 pages. George reports JOHN RICKORD was sent by Armour Packing Co. to Russia on business. (Maybe he saw Buckley there.)

GEORGE A. WAGNER of Perrysville, Ohio, is a retired attorney and naval officer. He, Seidensticker, JOE BRANNON McSWEENEY — all '28 retirees, should advise the rest of us as to "how, when and where" to retire; we know "why." By the way, who else is retired?

In St. Paul, TOM MAHON reports Tom Jr. at St. Thomas College and son Tim at St. Thomas Academy. He hears often from HOWIE PHALIN, BOB HAMILTON, LOU NORMAN, DON RAU. He expected to see Don (president of a state tax group) in September at St. Paul.

S.H.A.P.E. as the return address on an envelope addressed to BERNIE GARBER seemed appropriate enough, but it means Society for Hispano-American Progress and is designed to aid the work of FATHER VINCE McSHANE in Honduras. If you want to contribute or join, write to Mrs. Charles Jenkins, 3521 West 40th Ave., Denver, Colo.

I heard JOHN V. HINKEL being interviewed on the radio, Memorial Day, about his new book on Arlington National Cemetery. Sounded interesting.

I remind you of another fine ED QUINN-managed Class of '28 party scheduled for October 23 at ND, and another '28 gathering in New York October 9 for the Army game.

GEORGE CRONGEYER left June 4 for six weeks in Ireland and Scandinavia, following the Buckleys. I remained at home, ordered by Buckley to add to his notes that a letter from ARTHUR MILLER, Fort Wayne attorney, said his son Arthur Jr. was entering ND in September and that his daughter Sallie Ann married Robert Joseph Wehrle, April 24. Art often sees MIKE HOGAN, FRANK McCARTHY and BERNIE SCHUH, all looking forward to our '68 reunion.

JIM SHOCKNESSY was appointed to the board of trustees of Ohio State U. according to a news clip from JOHN FONTANA, early in June. Could this, John speculated, lead to a resumption of football relations with ND? Although a Democrat, Jim was appointed by Republican Gov. Rhodes.

ROBERT E. PEQUIGNOT '30

Robert E. Pequignot has been appointed a vice president of The Singer Co. and general manager of a new Climate Control Division which is comprised of all company operations in the electrical heating and air-conditioning fields.

Bob had previously been a vice president of Friden, Inc., a Singer subsidiary, and general manager of its Electromode operation in Rochester, N.Y. The new division will consolidate Electromode operations with those of Singer's Remington Division in Auburn, N.Y. and its Easy Heat/Wirekraft business in Lakeville, Ind. Under Bob's direction, its mission will be to further expand Singer's present position in the electric heating and air-conditioning industry.

Electromode presently produces special residential, commercial and industrial electric space heating equipment. Remington manufactures incremental air-conditioning systems for apartment houses, hospitals, hotels, motels, office buildings and schools, specialty air-conditioning for tropical areas, household window air-conditioners, and household and industrial dehumidifiers. Easy Heat/Wirekraft makes electric heating tapes, cables and wiring harnesses for the refrigeration and air-conditioning industries and freeze protection devices.

In commenting on formation of the new division, Singer President Donald P. Kircher said, "The formation of the new Climate Control Division under Mr. Pequignot's direction will now give us a firm base for expansion of these activities into a substantial business in a rapidly growing industry."

Bob has been active with Electromode in the electric space heater field since 1936. His headquarters will be in Auburn, N.Y. where Electromode and Remington operations are being consolidated in a recently purchased and renovated plant. Easy Heat/Wirekraft operations will remain in Indiana.

The class officers elected were PAUL FERGUS, president; ED SMITH, treasurer; and F. T. MCGUIRE, secretary.

The Class of '35 has for many years had an outstanding secretary in FRANK HOCHREITER who's begged off after 30 years. We at my office are not going to begin to do the fine job Hoch did but may approach it if you will each make it a practice to drop us a line and stop in whenever you are at ND. PHIL DeBRUYNE's older son DAVID graduated from ND last June and was married in August to Nanette Kelly whose father is a '39 ND grad. De Bruyne's daughter Phyllis is a junior at North-western and is to be married this August. Peter, the younger son, is a ND sophomore in mechanical engineering. Since graduation Phil has been with Moline Malleable Iron Co. in St. Charles, Ill., and has held the post of president for many years now. Phil starts off his letter that it has been 29 years and some months since he received my last note. About the only classmate Phil sees is ED McNALLY, but would like to know what others are doing.

Keep the reports coming in to me so we can all know more about what other classmates are doing.

For a number of years we were all wondering what had happened to GEORGE MALET. No one seemed to know or hear of his whereabouts. I was nearly bowled over when I received a nice letter and report from George and that he was kicking and very much alive as he so states in his letter. He is living in Amelia, Ohio, which is not far from Cincinnati. In Amelia he is supervisor of special education for the Clermont County School System where he taught for eight years. George spends his Christmas and summers on Anna Maria Island, Fla., doing surf-fishing and boating. His only daughter, Mrs. Jerry Brennan, supplied him with his first grandson this past year. He lives at 33 Huntington Ave. in Amelia. Am sure many of the boys will be very glad to hear of George's whereabouts as he was quite a figure on campus in our undergraduate days. Be sure and be at the next reunion, George, as we will have a real session. Now if we get a word from "JUNGLE JIM" DWYER it will just about fill the picture along with HOWARD BOLERJACK.

Received a nice personal letter of congratulation from JACK WHITAKER concerning the news of our Class of '36 in the ALUMNUS. Jack feels we could have a real big 30th reunion in '66 and hopes that I will play it up big. I certainly will do all I can. I have sent many personal letters to many of our class to keep talking it up and spread the word about our forthcoming '66 reunion.

Also received a nice letter of congratulation from "WOODY" STILLWAGON along with some news. Woody said he had a call from "RED" CAMP who probably was best known for his wrestling match with "CY" CONNORS before the Bengal Bouts in '32-'33. Red was a resident of Brownson Hall and was with us only in his freshman year. Later he graduated from U. of Washington. He is now owner of the Bay Chemical Co. in Tacoma, Wash. As most Brownsonites remember "Red" spent most of his time trying to save his hair, but lost the battle and is now known as "Baldy." Incidentally, Camp told Woody that he saw CURLY REGAN and that he is well and

living in California. God willing, Woody said that he plans to attend the 30th reunion. Said he hasn't missed one to date. He really enjoys meeting the fellows, particularly reminiscing with the gang and seeing all the new developments at the University.

In closing I wish to thank all the '36 Class for their reports and letters otherwise we would not have had so much news in the last issue of the Feb.-March ALUMNUS. Sure would like to hear a word or two from the rest of our Class that have not sent in their report. Unless the rest of you send me your reports or letters I will have very little news in the next issue or two of the ALUMNUS, so get busy, gang, and write. Let's hear from those who haven't sent me their report.

The Alumni Office received a letter from JOSEPH C. CLARK of Washington, D.C., who writes on the death of fellow '36er, FRANK J. GAUL:

"Frank served in the Navy with me, in fact he was a roommate of mine for a while. We roomed across the hall from JFK's oldest brother Joe Jr. at Norfolk, Va. We had some politics but Frank was more interested in handball and beer.

"Frank Gaul was the epitome of the true Catholic gentleman — an exemplary Notre Dame man, if you will — who each day for the past 86 months lay and fingered his beads, thrice daily. . . .

"He was the fitting example of the fighter who never gave up. His cheery welcome to his visitors was warm, his affection for Notre Dame and the team was outstanding, his staunch faith in the face of adversity was superb.

"For more than 2000 days he lay intermittently

"When you left the Veterans' Administration Hospital at Brecksville, Ohio, after a visit with Frank, you walked on air for the lift he gave you to fight life's battles. . . . You felt so much better for having known Frank Gaul, Notre Dame man, husband, father, citizen, patriot, Naval officer, baseball captain, football player, but most important, friend of Our Lady and servant of His Maker."

REUNION REGISTRANTS

GEORGE BARISCILLO JR., JOSEPH O'KEEFE.

Less than four years remain until our great, super-colossal 25th Silver Jubilee Reunion. If these pass as quickly as did the year just over, it behooves us to begin to make plans for the grand event. The co-chairmen, "BLACK JOHN" MUR-

PHY and TOM ROLFS, appointed by Class President GEORGE BARISCILLO, eagerly are awaiting any suggestions which might help them to prepare for that never-to-be-forgotten reunion. Let's truly "Rise and Shine in '69."

Again we join in extending sympathy to the wife and family of one of our fellow classmates. Bridget Price of Anaheim, Calif., wrote that her husband, ARTHUR V. PRICE, died suddenly in September, 1964. "Vic" started at ND with most of us but, due to the war, finished a few years later. In addition to his wife, he is survived by eight children, six girls and twin sons. Remember him in your ever-growing litany of fellow classmates who have departed from this turbulent world.

The mail was extremely slow in coming since the last issue went to press and it was feared that there would be no news for this column. To avoid such a calamity, a dozen or so telegrams were sent to the area "veeps" and to several other hopeful correspondents. The results were excellent — a 75 percent return. One individual — HARRY YEATES — not only wrote once but did so twice within a month. That is true support! Harry, a New York City resident for the past five years, is associated with Geyer-McAllister Publications which publishes the business magazine for gifts, china, and glass, and home accessories. He regretted not making the '64 reunion, but business prevented his attending. He also said that he hasn't had too many recent contacts with ND classmates, but made calls to FRANK ECK, FRANK ENGLISH and DAN McNAMARA with the hope that they in turn would send news items to the secretary. The look-outs have been sent out but the pony express must have been delayed because nothing has come through.

JACK CRAHAN, midwest-area veep, did not want to take any chances on modern postal service and telephoned his letter instead. It was a most welcome phone call and we had a fine visit. He commented that TOM ROLFS really must have slimmed down to his college weight in order to win the Preakness this spring. Jack, who is in the floor-covering and ready-to-wear business in Napoleon, Ohio, contacted GUIDO ALEXANDER, DICK DOERMER, JIM MALONE and CREIGHT MILLER for news. That, too, has been delayed between their respective domiciles and Green Bay (your secretary's address). He also mentioned that BOB FAUGHT now is a resident of Toledo.

JIM MAHONEY, an Orlando, Fla., real-estate tycoon, wrote apologetically for not having much '44 Class news. He looks forward, however, to the ND game in Miami in the fall and hopes he will see some of his classmates then. Jim's son, Mike,

a sophomore at ND, spent the past year in Europe in the sophomore-year-abroad program. Such a program was nonexistent in our day for many obvious reasons.

There was a fine note from TOM O'REILLY, class treasurer, Fort Wayne. Fortunately, there was no request for funds at this time. He wrote that occasionally he sees "BUTCH" DEHNER, DICK DOERMER, ART HOFFMAN and JIM KEEFER. Each year at the National Stationery and Office Equipment Association Convention in Chicago, Tom and his wife, Jean, get together with Betty and OMER STURM. Omer is owner-manager of the Jasper Table Company, Jasper, Indiana. Last winter, the O'Reillys spent some time in Fort Lauderdale and had several visits with BEN BRUNETTI and his bride, Mary. Ben has the welcome mat out for any '44er in the vicinity. Do you suppose he consulted with Mary? There possibly could be quite a crowd.

A welcomed letter was received from SAM WING who reminisced on the most enjoyable reunion a year ago. He commented on Universal ND Night held at the Dallas Club atop the new 50-story Republic Bank Building. Sam and his wife, Hazel, attended with the JACK SCHROETERS, former Clevelandites who now also live in Dallas. FATHER HESBURGH was the guest for this spring gathering and his message, as always, was most inspiring.

OZZIE DOLAN of Dubuque, Iowa, was involved in the disastrous Mississippi floods of '63. Ozzie, a caseworker at St. Mary's Home, directed ten young fellows on sandbagging dikes in East Dubuque. Through their efforts of handling sandbags in bucket-brigade fashion, a gaping hole was repaired in record time. Another '44er, JIM SCHMID, treasurer of Crescent Electric Supply, had two buildings engulfed by floodwaters. More disaster befell still another, TOM CODY, secretary-treasurer of C. F. Cody, Inc., whose building was damaged seriously by a fire in an adjacent building. Let us hope and pray that our classmates in Dubuque will fare better in the year ahead.

A long letter came from CLEM CONSTANTINE, executive director of the Manchester, N.H., Community Services Council. He and JOE GALL seem to make up the entire '44er contingent in that area. The latter still complains of a bad back due to an early-morning ride down the halls of Morrissey to its lobby at the time of the '59 reunion, and wonders if GENE SLEVIN and BOB THUMM will be around doing the same in '69. Clem and Joe journeyed to the Navy game, leaving home at an un-hourly hour of 4 AM, returning 21 hours later. It was almost as hectic a trip as Clem had with "BLACK JOHN" MURPHY returning to New

York after last year's reunion. He would like to see some deluxe charter transportation service available for Eastern classmates for the '69 trek to the Alma Mater.

Our president, **GEORGE BARISCILLO**, is a most busy individual but manages to pen a note frequently. He mentioned that, although it was not reunion time for '44ers, he was at ND for an Alumni Board meeting in June. Unfortunately our paths did not cross.

Let us continue the fine cooperation by keeping the mail coming. Your secretary is dependent upon your letters in order to prepare an adequate column and is confident in your ever-faithful assistance.

DUNNE**, a classmate from ND. Sam was the ND golf-team captain in '41 and Bob fought through four bouts in the summer of '42 in the field house boxing matches.

John was selected for this honor on the basis of his sales record: more than \$3,000,000 in life insurance in a single year.

INTERLOPER ON THE CAMPUS

Although this wasn't the year for '47 men to return to the campus for the annual Junefest, this reporter donned his reunion suit and wandered out to the City by the lakes to hobnob with some of the '45 and '50 grads.

Lo and behold another interloper was there: **JOE O'TOOLE**, late of New Jersey, but now a Hollywoodite as general sales manager for Cogswell, the firm which makes retractable hose for gasoline stations and such. **Joe's** travels brought him back to ND at the proper time and it was good to visit with him.

GUS CIFELLI reported he recently won his law degree and plans to combine his practice with an insurance business. True to form, **Gus** — a gentleman in every sense of the word — plans to pick his clients from among the poor and underprivileged who need him most.

LEON HART, looming above the crowd, told us his 15-year-old son is an inch taller than he and weighs in at 220! **Puny Leon** checked in at only 190 when he was a high-school freshman.

Other happy moments were passed with **HARRY WALTERS, HARVEY NEDEAU, ROLAND KELLY, JOE HICKEY, BENNY SHERIDAN '40, LARRY LEACH '55, GERRY RAMSBERGER, JOE SHANNON, GENE BITTNER** and **JOE CASA SANTA '55.**

RETURN OF RAY FRANKLIN

Early in July my ears were treated to the Down East accents of **RAY FRANKLIN**, who was passing through town 20 percent of the way through a five-week camper tour of the National Parks with his wife Barbara and their children, 7½-year-old Christopher (Chris) and 6-year-old Jocelyn (Lynnie).

He's still living on Sleepy Hollow Road in Atkinson, N. H., and heading up the administration of the Pentucket Regional School in nearby West Newbury, Mass. He has been at the 1,200-pupil school eight years.

Ray phoned from the Alumni Office; he and his family — inveterate campers all — had set out on the Canadian side of Lake Erie and were stopping for a nostalgic "quickie" under the Dome. The Rambler-Holiday rig housing the Franklins on the 6,600-mile trek was booked for stops at all the National Parks except Glacier ("We have to save something for the next time") and at Disneyland.

He contacted **BOB MICHAUD** while here and expressed hope this reference might trigger some messages from some of you.

"Also would like to inform you that **Joseph Thomas**, born June 9, 1963, has joined **James Joseph**, 5½, and **Mary Catherine**, 1½.

"Always enjoy reading about fellow classmates in your column." Thanks, Jim, for the buck, the plug and the dope. And congratulations on giving the boys an edge in your family again.

CLASS OF 1950

At our 15th anniversary reunion June 11-13, I was requested by those in attendance to handle information for this column. Any correspondence you have can be sent to me at the above address.

We had a wonderful class reunion with FRANK KELLY accepting and doing a fine job as local chairman (you have seen Frank's correspondence as the Assistant Director of Deferred Giving). FATHER DAN CLARKE, editor of the *Des Moines Messenger*, was our Class Mass Celebrant. Our favorite president of the Notre Dame Alumni Association, LANK SMITH '50, participated in our Friday night Class Dinner, and together with FR. THEODORE HESBURGH, was a main speaker at the Notre Dame Alumni Banquet Saturday night. We take great pride in the work of Lank Smith and the Alumni Association.

As a sidelight, Lank mentioned that we need renewed moral leadership on the campuses throughout the country, and that the high school and college athlete of yore, who used to furnish leadership, should reassert that image on the campus today. In an analogous vein, it struck me while listening to Lank that our Class of 1950 should do likewise in the Notre Dame Alumni Association in its endeavors. The revered Class of 1925 justifiably maintains the limelight and gives much leadership and inspiration. Our Class of 1950 is distinguished in many ways, not the least of which was enjoying four years of undefeated football. It seems appropriate that our class, both those in and out of athletics, should take a place of leadership in the Notre Dame Alumni Association in all fields and be a source of inspiration for those who come after us.

I will attempt in the near future to forward to each of you a questionnaire which I ask you to immediately fill out and return bringing us up to date on your current status.

Many of our classmates who attended the reunion are planning to attend the Miami-Notre Dame game in Miami, Florida, November 27, a Saturday, in the Orange Bowl stadium at 8 p.m. So that we will have a place for all of us to get together that weekend and visit, if you are in town for that game, you are invited to a cocktail-buffet, 4 to 6 p.m., Saturday, November 27, at my home, 4400 Monserrate Street, Coral Gables, Florida. So bring your wives and friends.

Getting back to the reunion, my sides are still splitting from all of the "nationality" jokes with which we were all entertained by DICK CORDASCO, GERRY RAMSBERGER, GENE BIITTNER and JIM SLATTERY. DICK CORDASCO was still laughing about them in the shower Sunday morning. ANDY LECHNER and ART ARQUILLA represented our class well in winning golf prizes. Other classmates beside myself who are practicing law were: GUS CIFELLI, JOE SHANNON, JIM McLAUGHLIN, FRED FRIEND, JIM SWEENEY, TOM FARLEY, DON MAHONEY, JOE BECKER and JERRY FRAZEL. JOHN BONESSI and BUD IMBUS are practicing medicine. BOB LALLY, CHUCK PERRIN and ED SEXTON tied for first place in having eleven children. ED FOLEY is reduced to second place with

nine children. RAY DUNNE and BOB SLOCUM are yet unmarried and look fine. (For the wives of those who attended the reunion, I report that everyone was on his best behavior, wore the clean shirts that you packed, and had the opportunity to show the pictures in his wallet. JIM SLATTERY and DICK SOISSON tied for the fastest draw to the wallet to show pictures of their loved ones.)

I attended a reception at the Notre Dame Law School by Dean O'Meara prior to the Friday night Class Dinner and who was there but TOM FLYNN '35, whom all of my NROTC classmates will remember for giving Father Hesburgh and ourselves Hawaiian hospitality at its finest on our summer cruises in 1948 and 1949. Tom sends his best to all of you.

Fr. Hesburgh and FR. TOM BRENNAN SR. also send you their best regards. Father Brennan looks as good and youthful right at the present as he did when he used to drop-kick a book to the back of the room in our Logic class in 1946.

After the Saturday night Alumni Banquet LEON HART, BILL WIGHTKIN, ROD JOHNSON, BUD ROMANO, GUS CIFELLI, TOM McHALE, BOB LALLY, MOOSE KRAUSE, DICK KLEE and myself had a spirited conversation with Coach Ara Parseghian and Father Hesburgh. Coach Parseghian looked at the "giants" present and

stated, "No wonder you never lost a game." He is a wonderful person and he and his staff have set a high example on the campus. LEON HART's oldest son is one inch taller than Leon. JIM FRITCH's furniture company did a beautiful job in furnishing the new library. BILL O'CONNELL JR. of Rochester and DICK KLEE of Buffalo are among the leaders in science. JOHN FERRY and JOHN RYAN are as fine as ever. JIM HOLWAY sent a telegram of congratulations from Rio de Janeiro stating he could not attend due to the 5,000 miles, (and probably because he is unmarried and there are senioritas in Brazil). I am always happy to meet Jim at the Miami airport and have a drink with him when he flies through here from Washington to Rio. BOB HOCKMAN is a General Motors metallurgist in Atlanta. JOE HICKEY continues as a distinguished Notre Dame builder. HARVEY NADEAU comes to my neck of the woods for international sailing racing. BILL SHANAHAN is still the twinkling Irish flagpole climber you remember. JOHN McSHANE brought BOB KANE and the Indianapolis crew in his "Shamrock bus" — with police escort, no less. ROLAND KELLY is with WSBT (South Bend). VERNE KELLEY and HUGH MULLIGAN are fine Chicago businessmen. RUSS SKALL, my underdog roommate (my law school roommates were from St. Mary's — Mary Pat Feely Thornton, and children John, Jane and Deborah) flew in in his Cessna 172, took umpteen photos with three sets of cameras, and we hope to reproduce some here later. Other ex-Campion men seen were JERRY SWEENEY, now a CPA, and FR. TOM McNALLY CSC editor of the *Catholic Boy*; the now FR. BERNIE GRAY, now in Louisville, looks wonderful. In fact I must admit everyone looked fine. Classmates whose wives concurrently attended the SMC 15th Year Reunion, besides myself, were: TOM O'GRADY, JIM McLAUGHLIN, CARL LECHNER, DICK KLEE, MOE FERRITER and DAN OSBERGER. I have not given all of the reunion dope by a long shot, so what I have omitted — just write me and tell me. If you are down my way — visit me; if you do not want to visit me when here, call; if you cannot call me, call MACK SCHAEFER or MIKE O'NEILL or LARRY COUTRE (F.B.I.) in Miami and they will give me the latest information; and if you cannot do any of that, smile as you fly by.

The ears of everyone on at the reunion should have been buzzing June 11-13. We asked about every one of you, what you were doing, your family your business, your waistline — all proof positive that everyone is interested in you. The following is a list of those not previously mentioned who attended the reunion. I lost a page of my notes and it is not complete. All of the fellows who attended the reunion say "Hello" and "Best regards" to all of you who did not: NICHOLAS ANGELOTTI, BILL ARZBAECHER, GERRY BEGLEY, PAT BUTLER, JIM CARBERRY, JIM CONWAY, ART CURRAN, ED DENNING, BILL DONOVAN, JIM FISHER, JERRY FRAZEL, JERRY FREEMAN, PETE FRIDAY, ALLEN FANDALT, JOHN HEALY, JOE HERRINGTON, BERNIE

MAJ. VICTOR A. DeFIORI '51 LLB '52 lets daughter Cecilia, 2, get a good look at the Commendation Medal just awarded him for outstanding service as chief of the military justice branch, Judge Advocate Division, U.S. Army Communications Zone, Europe. Vic is moving to Ft. Leavenworth, Kan. for staff college from his base in Orleans, France with his wife, Dorothy, and their seven children.

Anyone I omitted — write me; any incorrect addresses on the October 1964 class list sent to you, write me. We want to know what all of you are doing. Give me enough information to keep this column packed full.

From the Alumni Office:

Two members of the Class of '52 have finally cashed in on their efforts to free a classmate and his family from the poverty and oppression of Castro's Cuba. **DON MULLANEY** and **JOSEPH BYRNE**, both members of the Dearborn, Mich. ND Club, raised \$1,400 from University alumni to finance the moving and resettlement of **ALBERTO SALAZAR**, his wife and their four children. About \$800 of the money went for plane tickets for the family to Windsor, Canada, via Mexico City. The classmates, both Ford Motor Co. engineers, have arranged for several Canadian firms to interview the civil-engineering graduate Salazar. Son of an oil-company executive, Alberto was refused a job in the nationalized industries because he refused to join the Cuban Communist Party.

CARL R. CUNNINGHAM has been assigned to work a year with Alfred Frankenstein, music and art critic with the *San Francisco Chronicle*, as part of a project for training music critics at the University of Southern California. Only five persons are enrolled in the unique program operating under a Rockefeller Foundation grant.

GEORGE F. HERO, a Miami attorney and president of the ND Club of Greater Miami, took on a tax deduction recently when he married the former Miss Marie K. Zerby. George also writes that the Miami Club has made arrangements for alumni coming to see the ND-Miami game November 27. Five hundred rooms are available at the Deauville Hotel on Miami Beach for the entire weekend at \$7 per person, double daily occupancy. A seven-course dinner and full-course brunch can be added for an additional \$4 per person, George writes. All interested persons can write him at 40 NE 75th Street, Miami, Fla.

'53 David A. McElvain 2328 Alexander Terrace Homewood, Ill.

I regret having to pass on the sad news of the sudden death of **JOE TRUCCO** on April 28, as the result of an accident on a construction site in Lombard, Ill. Joe is survived by his wife Ann and seven children in Elmhurst, Ill. I know that he and his family will be continually in your prayers.

Received a note a while back from **PAUL FARMER**, extolling the virtues of Albuquerque, N.M., where he has staked a claim to continuous

sunshine. Paul is controller of the Bradbury and Stamm Construction Co., which specializes in commercial buildings. **QUENTIN MISCHKE** and **JIM RYAN** are also local residents; Quentin is assistant vice-president of the Albuquerque National Bank and Jim is manager of the Alvarado Hotel, reportedly finest in the city. Thanks for the report, Paul.

Another banker of note is **GEORGE FARRELL**, and my underground tells me that as assistant vice-president of the Mellon Bank in Pittsburgh, George has been spending considerable time "down under," seeking out investment opportunities in Australia for some of that Pennsylvania capital. Elsewhere in the financial world, **JOE PAGLIARI** was recently appointed treasurer and counsel of the Percy Wilson Mortgage Company in Chicago.

As you can see, material is rather scarce to maintain this column's standing as one of the highlights of American literature. To assist in the achievement of the coveted Pulitzer Prize for Class Column Reporting, I would be most appreciative of some input from the field.

From the Alumni Office:

JOHN C. MOLENDI of North Liberty, Ind., has joined the Credit Bureau of South Bend in charge of sales and public relations.

EDWARD DUGGAN JR. and his five children attended commencement ceremonies this summer — to see Mrs. Janet Duggan, wife and mother, receive her bachelor of science degree in nursing from Seton Hall U., Newark, N.J. Janet says the degree is the result of family collaboration: the children agreed by being born at times not interfering with studies (she has had all of their five children in the last five years). Any further study planned? Ed wants to get his MA, "so it's his turn now," Janet says.

DONALD K. ROSS has been named executive director of the ND Foundation, succeeding **JAMES W. FRICK '51**, who has been named vice-president of public relations and development. Don has been assistant director in charge of the Chicago office since 1962.

WHY!

Why can't you take just 15 or 20 minutes to drop me a line? I'm not a fiction writer. In fact, I'm not any kind of a writer which makes these articles doubly tough.

We'll have our annual blast, as usual, after the first home game of the season — October 2 — against Northwestern.

It is with deepest regret we learned of the death of our classmate **JOE J. TRUCCO**. Joe died on April 28. I'm sure you'll all want to remember Joe in your prayers.

Does anyone know the whereabouts of one **NED SEIM**?

Did you hear the news about **JACK PITTAS**?

Following is a list of 25 classmates picked at random. For the first 10 of these fortunate young men who write me a letter in time for the December 1965 deadline we will award the following prizes.

1) An autographed picture of **JAKE NOONAN**.
2) An assortment of Goldwater-Miller buttons and pennants.
3) Two tickets to the next Liston-Clay fight and 4) A golf lesson from **FRANK RATH, PAUL KRAUSE** or **TONY MANDOLINI**, depending on your location. Hurry!

Here's the lucky 25: **JOHN P. LANDIG, JIM LANTIS, CHARLES CASEAU, DICK RYAL, WEBB ARCENEAUX, ROGER FERN, HUBERT MADDEN, ROGER VALOISERRI, JIM DECOURSEY, ROD DUFF, LEN DURY, EARL HOLMES, ED DOYLE, KEN ANGYAL, JOE COOK, JOHN JARNOT, HAL RILEY (Doctor), RAY WEST, JOHN STRICKROOT, JEROME FONS, TOM CAMPBELL, JOHN SETTER, CHRIS MALONE, FRANK JOHNSTON, JIM DURKIN, BRUCE HARRISON, JOHN ENGELHARDT, PAT CARRICO, JAY DOUGLAS, DICK POLEY, JOE COSGROVE, NED SEIM.**

You may think this article is brief. You're right. Help!

WOW! . . . and a good time was had by all!!!

Congratulations to the 225 plus who attended the reunion, giving the Class of '55 the largest repre-

sentation at the gathering. The group was so outstanding that a large number of awards were made. Here are those that were recorded for posterity:

BEST ORGANIZER AWARD — GEORGE SHELTON, who handled the preliminary work including the postcard contacts that assured the fantastic turnout, and LEE CREAN, who took care of the on-the-scene arrangements, share this one. Lee, who has four children, is about to take on an executive position with the government's poverty program. His current address is 14082 State Rd. 23, Granger, Ind. George recently moved to a new house at 1109 Forest Ave., Wilmette, George, treasurer of the A. L. Jackson Co. (construction), also has four offspring.

TOP CONDITION AWARD — DICK FRASOR, who now lives at 1806 Ave. L. in Sterling, Ill., with wife, Jane, and four children, still can play handball without a rest from morning until night. Dick is general foreman for Northwestern Steel & Wire Co.

GRAYBEARD AWARD — JIM O'SHEA, who hasn't got a dark hair on his head, got a stiff run this time from TOM MAGILL, who has a few (a darn few!). Jim is active in both newspaper and TV (Jolly Jim Show) work in Columbia, S.C. Jim and Carmella can be reached at 1410 Shirley St. Tom, a supervisor with Western Electric, lives at 821 S. Out St.

CAREER MAN AWARD — WALT CABRAL, who has just finished a pleasant Army hitch with the ROTC unit at Tulane, is heading for Viet Nam. Capt. Walt has five children.

HOME AWARD — No, this isn't for the yearbook. JOHN BENDEL successfully defended his title, so you know it's for the man without any hair. John, Eileen, and their four children live at 8129 Richmond Ct., Wauwatosa, Wis. John received some tough competition, however, from JIM DELINE (2621 S. Kearney, Denver, sales rep. for Mead Corp., four boys), ED SCHICKLER (215 Meadow Lane, Webster, N.Y., section head for RF Communications, boy and girl), JOHN CONNAUGHTON (205 E. Benton St., Wapakoneta, Ohio, attorney and hard guy bachelor), and the dapper SRS FORD (361 French St., Bridgeport, Conn., attorney and father of three).

PONCE DE LEON AWARD — RICK HICKS, Chicago's prosperous broker (Dean Witter & Co.), won this hands down. He looks just like the yearbook photo. Rick and Pat have two boys.

TONY VALENTI AWARD — Now, gals, get the drinking man's diet out. These were the men chosen by the Nominating Committee (not me!) as those who had put on the most around the belt. The winners in the senior division are JIM YONKE, TOM GALLIGAN, JIM PORCARI, JIM WALSH and BOB RONEY. Jim is office manager for Jamieson Insurance (1172 S. East Ave., Oak Park, three children). Tom is a tax attorney

CLASS OF 1955

REUNION REGISTRANTS

W. H. BROMANN, MICHAEL HENDERSON.

I hope this column makes the deadline as I am a couple of weeks late with the copy, and am thankful for an understanding editor. I have a couple of reasons for my tardiness, the first of which is partially explained by my address above. I have discontinued my studies for the priesthood as this does not seem to be the vocation which God has given me. Right now I am "between jobs" and will let you know what happens in the "next exciting episode" of the ALUMNUS. My other reason for waiting to do the column was a recent trip to NYC and Washington where I hoped to pick up a few items to incorporate into this issue.

In NYC I spent a couple of days with DAN FERRONE and his lovely wife Jane. They are expecting their first child in August, and Dan may have some news next issue about a new TV show. I spoke with JIM HITTLEMEYER on the phone but we were unsuccessful in getting together (my fault) so Jim will have to relay class news by mail. I also talked to FATHER JIM VAUGHY by phone as his first assignment took him to St. Catherine Labourer Church, at Lake Katrine, N.Y. (a two-hour drive from the city). Jim says that this is only a temporary assignment, as he is also to organize a summer camp for boys and girls. Tried to call LOU KIGIN at Haskins & Sells but Lou was out on an account. He still lives at 311 E. 75th St. (Apt. 3-C) N.Y. 21, N.Y.

In Washington I was able to meet JOHN HAYWARD for lunch and in between our discussion of Ohio politics, John mentioned PETE SALSICH who will soon take up a position with the Justice Dept., MARK SHIELDS whom John sees regularly, MIKE PHENNER (with the Adjutant General and a social aide at the White House), and many others. I have John's promise that he will soon sit down and send us a "President's report" on our classmates in D.C. and those who look up John and Mary Beth when they pass through the city.

Other news which I have collected, and for which I am most grateful is the following:

BOB HASSENGER wrote from Chicago where he received a Ph.D. from the U. of Chicago on June 11. He was in an interdepartmental program called the Committee on Human Development, which crosscuts sociology, psychology, anthropology and education. Bob will become an asst. professor of sociology at Notre Dame in September. He had been teaching at Mundelein College the past three years. Bob's wife has a MA in history from Northwestern and they recently adopted a daughter, Raissa, who is now five months old.

DICK KATIS writes from St. Louis where he has lived since June, 1962. He married Mary Stuart (Maryville College) in December, 1962, and they had their first baby, a girl, Susie Mae, in August, 1963. Dick is a chemical engineer for McDonnell Aircraft, and he and Mary bought a home in University City, Mo., last Christmas (7467 Kingsbury Blvd., St. Louis, Mo. 63130).

JACK THOMAS has asked me to convey his thanks to all in the class who asked for God's help for the recovery of his infant daughter, Julia Ann. She is doing very nicely now. Her condition was tough and go until she was two months old when Jack and Pat were allowed to bring her home from the hospital. Jack will finish his work for his MBA at Michigan in August, and has accepted a position with Prudential Insurance. He will be with the Commercial and Industrial Loan Dept. in Newark, N.J., for a year and then to one of the regional offices. Jack saw DAN CULLEN in San Francisco recently and reports that Dan is doing very well. Other good news from Jack is that TOM CARROLL, was mentioned in *Forbes* as being an up-and-coming up at Lever Bros.

From 302 Farmington Dr., Camillus, N.Y., comes word from FRANK CAHILL. He was married a few weeks after graduation to his eight-year girl, Marcia. They have two children, Michael and Suzanne, and were expecting again in June. Frank is employed by Roadway Express, Inc. After serving as sales mgr. in Syracuse, he was recently named asst. mgr. of sales and operations for Roadway's upstate New York operations. Indications are that Frank will be transferred to the Midwest in the near future.

The New Jersey report comes from "T.J." MAHONEY (known in the business world as TIMOTHY J. MAHONEY, JR.). PAUL "BUCKY" O'CONNOR is currently completing his fourth

year of Medical School at the U. of Bologna in Italy. He was home in West Orange, N.J., in the middle of July in time to be an usher in "T.J.'s" wedding. Bucky has one more year of study over there, and his lovely wife Beth and two-year-old daughter Karen are with him in their "Italian villa." JOHN HART is a practicing attorney in Montclair, N.J. John was married in January of this year to Nancy Buckley and they are expecting a baby in December. KEVIN HALLIGAN recently received a tremendous promotion and is now an area sales mgr. for Lever Bros. Kevin, his wife Kathy and their two children have just purchased a home in South Orange, N.J. ROGER BRESLIN is also a practicing attorney in New Jersey and is doing quite well for himself. "T.J." says Rog is living in NYC and can be found either on the basketball courts in the evening or the golf links on weekends. ED TREACY is the father of two, and is doing extremely well with IBM. MARK KESSNICH is living in Long Island and commuting to Wall St. where he is putting his grad-school degree to good use for the 1st National City Bank of New York. PAUL "THE GRUBS" GRUBER is married and living in Hawthorne, N.J. He is with I.T.&T.

"T.J.'s" wedding date was August 14, 1965. His bride was Margaret Ward of South Orange, N.J. Margaret was just graduated "cum laude" from St. Elizabeth's College, N.J., and was enrolled in Kappa Gamma Pi, the national honor society. The wedding was pretty much an ND wedding party with BUCKY O'CONNOR, JOHN HART, DONNY WALSH '60, and BILL CROSBY '61, as the ushers. "T.J." is an insurance broker in NYC with the firm of Despard & Co., Inc. He bought a home in Chatham, N.J., and will be living on 118 North Hillside Ave. Congratulations, Tim, and many thanks for the info.

Still on the Eastern seaboard comes word from Lewiston, Me., and JOHN BELIVEAU, our correspondent there. John and Mary are the parents of a girl, Julia Mary, born April 4, 1965. John passed the Maine and Washington, D.C., bar exams in 1964 and became a partner this year in the law firm of Marshall, Raymond & Beliveau, with offices at 95 Park St., Lewiston. John was the legal counsel for the Clay-Liston fight, so you might read more of John in your daily papers. John has also been appointed to the five-man City Planning Board for a five-year term. He also was appointed a complaint justice by the Governor in January, a four-year appointment.

JOHN A. FOCHTMAN's father writes from Potoski, Mich., that John is now a doctor of medicine and is in the naval hospital at Saigon, South Viet Nam. Mr. Fochtmann was kind enough to enclose John's address, which I will pass on to you. Lt. M-C John Fochtmann, HSAS CODE No. 40, APO 96243, San Francisco, Calif.

Mr. and Mrs. ROBERT E. BORLIK of Allentown, N.J., report the birth of a son, Craig Hunter, on February 18.

A note in the *Religious Bulletin* of February 12, 1965, delays word of the death of the father of JIM BAZANY.

On June 7, 1965, TERENCE M. MOLONY received his J.D. (Juris doctor) degree from the School of Law, Washington U., St. Louis, Mo. Terry, his wife Patricia and their two daughters have returned to Los Angeles where they are living at 900 Longwood Avenue, Los Angeles 19, Calif.

JOHN FINN (12345 Inwood Rd., Dallas, Tex.) sends a card telling us that after six years of high-school teaching (history and government) he has decided to pursue the Ph.D. in political science beginning this fall. He and Sherry have four children — three boys and a girl, ages 4, 3, 2 and 1. John recently saw TOM MARQUEZ, who is doing computer work in Dallas, and JIM JUST, who is also in Dallas doing social work.

In April, CLARENCE HUTCHES was admitted to practice before the bar of the Interstate Commerce Commission. Cedar Rapids, Iowa, is Clarence's home.

JAKE RAGUSA finally broke down and wrote. On June 14, 1959, Jake married Dolores Chenevert. For 20 months he was employed by Western Union Telegraph Co. After leaving them, he returned to Baton Rouge, La., his home town, and entered the field of public accounting. On August 1, 1964, Dolores' birthday, he was notified that he had become a CPA. Jake is now a partner in the firm, A. Edgar Thomas and Company, CPAs. "Other things have happened also: Jake T. III (Tommy), Danny Paul, Sonya Michele, Jeffery John and Steven Scott." Jake also tells us that DOUG GONZALES is an attorney in Baton Rouge and is still single. JOE SCHUDD is married and he and his wife Jean are living in Park Forest, Ill. where Joe is a licensed civil engineer. And BASIL

CLASS OF 1960

BECK is an attorney in New Jersey, married and a proud papa.

And finally, a few random notes:
DICK RYAN of Cleveland, Ohio (two sons, one daughter)—internal consultant with Cleveland Pneumatic Tool — MBA '64, Harvard Business School.

DAVE BARRETT of Washington, D.C.—graduated from Georgetown Law School in June.

JOE LUND of Minneapolis, Minn. (three sons)—working for an insurance firm.

VINCE NAIMOLI of Wyckoff, N.J. (two daughters) asst. division mgr. of manufacturing, Continental Can Co.—MSME '62, Newark College of Engineering—MBA '64, Fairleigh Dickinson University.

Again, many thanks to the contributors to the column for this issue. There are many guys whom neither **DENNY NEAD**, while he was Class Secretary, nor I have heard from in the six years since graduation. Here's hoping you'll take the time to drop a line or two.

FR. A. J. KANDATHIL Ph.D. '60

According to a United Nations' study, 10,000 persons die each day in the world due to starvation or malnutrition. Rev. Augustine J. Kandathil Ph.D. '60 is trying to do something about it.

Five months ago Fr. Kandathil, who is head of the chemistry department, St. Thomas University, Fredericton, New Brunswick, Canada, founded the "Save a Family Plan" for the starving thousands in India, his native land.

Under the plan an American or Canadian family "adopts" a poor family in India and sends them aid — direct. This direct contact between needy and benefactor is the unique quality of Fr. Kandathil's program.

The program provides the benefactor with the name and address of a needy family and for \$5 a month the donor can keep a whole family from starving or educate a child to make him self-supporting. Correspondence is urged between the parties, and sources in India check on the authenticity of requests for aid and the use of the money sent to India.

"A person-to-person plan to help people is much more effective than those big projects," Fr. Kandathil explained in a recent feature story in the *Saginaw, Mich. News*.

"A lot of money from those plans doesn't reach the people.

"And that 10,000 a day estimate — that's probably low," he said.

Marion will be married in September prior to his entry on active duty with the Army.

You're right, you didn't elect me class scribe, I volunteered! And don't laugh, for, to borrow a phrase from JOHN LEAHY, I'm not here to be

made sport of. With your cooperation this column will appear four times a year. Because space is allotted on the basis of class size it will not be possible to mention everyone in each column but please keep me informed of your activities. Send any news you have about yourself or about any class member to me and I'll see that you get into print.

Here are a few hasty bits gathered in an east-west swoop in order to make the deadline for this issue. FRANK "MOVER" MIELE is practicing in Newark and is married, according to RUSS BLEY. The Arabian Knight, CHARLIE MacFARLANE, is in New York City and at last word was trying to compile a list of all his former employers and landlords to present to the Character and Fitness Committee there.

DAVE PETRE, with Xerox in Rochester, is also married and is reportedly working on a device to reproduce the "sun god look" for which he became famous. LARRY GALLICK is with a Buffalo firm and will soon be joined by JIM LEKIN '63.

The minute criminal element that does exist in Ohio is rapidly being diminished in size by JOE "SEND 'EM AWAY" KILLIAN, who, according to word passed to JACK JIGANTI by CHUCK SWEENEY, has had three of his convictions upheld on appeal.

From the upper reaches of Michigan comes word that Claudette and JERRY VARIO are the parents of twins. Let's hear more about that, Jerry!

Martha and I plan to get together with Judy and STEVE MORSE in mid-June for a one-year reunion. While I'm at ND I'll check with Mrs. White for any news from CHARLIE O'MALLEY PAUL POLLARD, JACK RAMMEL, JIM SLATER and PAT WEIR.

Wedding plans are being formulated by JOHN "JIGS" JIGANTI. He will marry a very attractive probation officer on September 18.

ZMIGGER is with a Chicago firm that numbers among its clients the Independent Garbage Collectors' Assn. You will recall that Zmig did some graduate work in this field during summer vacations.

LOU PFEILER, in Chicago for a few days while Judge JOHN F. KILKENNY '25, was temporarily sitting in the Northern District of Illinois, plans to join a Dubuque law firm when his clerkship ends. He reports that the Oregon territory was appealing but that the lure of home was too great.

RUSS BLEY will join the legal department of Monsanto Corp. in St. Louis in the fall. GENE KRAMER will join a Cleveland firm.

RON FAKLER is clerking for the Hon. Roger I. McDonough of the Supreme Court of Utah. Winding up this report is the word that COMMODORE LEAHY is holding forth in a surfside apartment in Long Beach, Calif., and is keeping his weight down by taking weekend cruises with the Naval Reserve.

Please let me hear from each member of the class before the October 1 deadline. Cheers to all!

Dear Fellow Alumnus:

One of the distinct pleasures of my life was having a part in honoring Jim Armstrong as the most valuable Notre Dame alumnus for more than a quarter century.

My return, on the occasion of the June meeting, to the hallowed campus that has left its imprint on me, stirred some memories. It always does that. I'm reminded all over again how much of my heart is with Notre Dame — and how much a part of me are men of old Notre Dame.

Jim Armstrong fits into that circle of gentlemen whose dedicated service to Notre Dame has been enduring. They hold a very special place.

In my mind, as I see it now, there are men who represent Notre Dame and what it is, and stands for. One of these was the very kind Father J. Leonard Carrico. Except for him, I'd have missed a lifelong dream of going to Notre Dame. He took me in; I could never have made it without him.

That first autumn of '42, in old Carroll Hall, the present Father Dave Scheider of Batavia, New York, was my roommate. I won't forget I'm better for having known him.

Our prefect — in those days when we washed in the basement, studied on the second floor, and lived on cots on four, where bed sheets partitioned the room — was Brother Justin. His face was round as a moon, and red as an apple. He bubbled cheer and there was a bit of Barrymore in him.

His diction was lyrical, even when (to Dave's and my great pleasure) he recited "Dangerous Dan McGrew" or "Casey at the Bat."

He had his own way of teaching us discipline, and values. And we'd split our sides listening when he recited poems by T.E.B.; compositions like "Kokomo Sue" or "Sonnets to a Substitute." Then, he would draw us in so effortlessly, to "The Hound of Heaven," and weightier stuff.

Somewhere now, I know, there's a cluster of appreciative angels gathered round Brother Justin, evenings, to be entertained.

W. D. Rollison was tall, greying, and courtly — a Southern Gentleman through and through. He taught torts in Law School — and personified all that ever was meant by the term "the reasonable prudent man."

Elton Richter, who taught contracts, had the bearing and the looks of an all-pro tackle. He owned a coal business in South Bend, and so his lectures sometimes were spiced with advice that came not entirely from the books. A serious and most fair man, he could fill the room with his laughter that came sometimes in a roar.

Even today, when I draft any contract in my legal offices in Dallas, I'm inclined to ask "what-would-a-coal-dealer-do-in-a-case-like-this?"

Msgr. W. J. Doheny wrote so much of Canon Law — and he found time to be the spiritual guide to many Notre Dame men, including me, and the young lady who became my wife.

Naturally, we shared the pride that many others felt, when Msgr. Doheny was elevated to the Roman Rota, the Supreme Court of the Catholic Church.

And I sometimes wonder if, in far-off Rome, Msgr. Doheny's old football knees throb just a bit when, on an autumn day, the rousing Victory March echoes the name of Notre Dame.

To many of us, who thrill to the sound of the Victory March, the Monsignor taught much more than a course in Legal Ethics.

They were like that: men of greatness who held in trust the bond that they are a part of all that Notre Dame IS. They possessed warmth and gentleness, and humility. And each had strength of character, and a set of values to pass on freely to students.

Each one is someone special.

Having worked with Jim Armstrong on the Alumni Board, I know there never was a man with more ability, or one whose loyalty to Notre Dame was deeper or stronger. The Notre Dame Alumni Association, and Jim individually, received National Alumni honors in 1964 over every other such group in the Nation.

Deserving of the recognition that we bestowed on him? That is understating it. He has been the heart, breath and soul of the Notre Dame Alumni Association. He deserves appreciation from all of us — the best we can give.

Sincerely,
LANCASTER SMITH '50
President,
Alumni Association
