Hetterich, Cook tickets to vie in SMC run-off

By PEGGY PROSSER
Staff Reporter

Two tickets for the election of Saint Mary's student body officers, senior class officers and junior class officers will face each other in a run-off election to be held Friday in Haggard College Center from 7 a.m. to 6 p.m.

None of the tickets received a majority of fifty percent plus one vote, according to current Student Body President Jeanne Heller.

"I think it's important for everybody that voted today to vote again on Friday. It's going to make a difference. Every

vote makes a difference," said Heller.

In the election for student body officers, the ticket of Sarah Cook, Janel Hamann and

Jill Winterhalter received 46 percent of the vote. The ticket of Eileen Hetterich, Smith Hashagen and Julie Parrish received 36 percent of the vote. The third ticket, consisting of

Ann Rucker, Ann Reilly and Ann Eckhoff finished with 17 percent of the student vote.

The election for senior class officers resulted in a run-off between the ticket of Teresa Donegan, Lois Morahan, Angie Teeple and Kate McDevitt and the ticket of Mary Kim Koch, Christine Schymik, Julie Baer and Nancy Kloc.

The Koch ticket finished first with 43 percent of the vote, followed by the Donegan ticket with 32 percent of the vote. The ticket of Julie Bennett, Ana Cote, Lorie Potenti and Patti Petro finished third with 23 per-

Commission to decide fate of Corby's on Monday

By MARILYN BENCHIK
Assistant Saint Mary's Editor

The future of the Corby Tavern will be decided at a hearing of the Indiana Beverage Commission in Indianapolis on Monday.

The hearing is an appeal to the tavern's liquor license denial which was granted by the county and state Alcoholic Beverage Commissions in November and December respectively.

Doug Hannoy, administrative assistant to the commission, said "This is the last appeal the owners can make to the ABC. If the license renewal is denied at this hearing, the matter can only be appealed to a court of law."

The liquor license depends on the facts of each individual case presented, according to Hannoy. "The commission would most likely send the case back to the local ABC and let the local board decide before the state ABC would overturn the previous decision," he said.

"Procedurally those are the things that can happen before we overturn their majority decision," Hannoy added.

At the actual state hearing, the current owners of the Harold Rowley estate, CTI Inc., and the prospective buyers, Robert and Thomas Przybylinski, will be allowed to present their arguments for the renewal of the license, Hannoy said.

"Any valid reinforcement will be heard. People opposed to the renewal of the license will be allowed to speak," he said.

The tavern was closed more than two years ago by the ABC. The refusal to grant renewal of the license has been denied because of problems with underage drinking and general

Hesburgh discusses ethics in journalism

By REGIS COCCIA
Assistant News Editor

University President Father Theodore Hesburgh, speaking on ethics in journalism to the staff of The Observer, said he agreed with their decision not to print the names of those charged in the recent drunk-driving accidents.

"I'm glad you didn't print (the names), but there's no way on earth you're going to avoid (people) knowing the names of the drivers of the cars," Hesburgh said, speaking Wednesday night.

"I think there's probably a

way of just stating it in a bland manner without destroying people. You've got to remember (the driver's) mother and father are going to read that," he said. "I think there's a certain honesty you have to have. You don't sensationalize it, you almost put it out as though you're talking about somewhere else, not here," he said.

"But I don't see any way in the world you can hide it. I don't think you have to put the names in because everyone involved will know the names and anyone who wants to know the names can find out," said Hesburgh.

"I didn't know quite how to

say it, but there's a virtue you don't hear much about and it's called magnanimity," he said. "And it means sometimes that something is more important than getting a Pulitzer Prize. You could print some things that would absolutely destroy somebody or their family or their marriage or their business, because you find out things.

"Magnanimity comes from two Latin words, 'magna' and 'anima' which mean 'big soul' and I think there are probably times when magnanimity would lead you not to publish something that might be totally destructive of another human being that's unneces-

sary," Hesburgh said.

"The other side of that question is the public's right to know. Well, I'm not sure the public has a right to know... what the confessor should know. Who has the right to know that? I think in that kind of case I would do what is expected. You're expected to tell the normal news," he said.

"But if it's just the bare facts of what happens, you might as well read it in The Observer or somewhere else. There are some things I would be very, very careful about," said Hesburgh. "Mag-

Results of referendum on divestment released

By REGIS COCCIA
Assistant News Editor

The results of a student referendum on University divestment in South Africa were released late Wednesday by Student Senator John Gardiner.

Election official Dan Gamache announced the results of a referendum on student opinion of The Observer that will be released today, between 9 and 10 a.m.

According to Gardiner, 44 percent of the students who voted on the referendum supported University divestment, 30 percent were against divestment and approximately 26 percent were undecided.

Gardiner, who sponsored the referendum, said almost 60 percent of those who professed an opinion on divestment voted "yes" while approximately 41 percent voted "no" on University divestment of its holdings in South Africa. "I'm generally pleased," said Gardiner. "I hope to present the results to the Board of Trustees. Hopefully we'll be able to form a

committee of senators who are for divestment," he said.

Gardiner said he hopes a committee will be formed by April 10, in order to present a report at the Board of Trustees' May meeting. "We'll recommend to the Board of Trustees to divest," Gardiner said. "The results (of the referendum) show support for divestment."

"I think there would've been more students supporting divestment if there was more advertising (of the divestment issue)," said Gardiner. "Eighty students voted from off-campus. They just didn't have enough information," he said.

Margarita Rose, chairperson of the Anti-Apartheid Network at Notre Dame, said "there was a resolution in the Student Senate for a general referendum last October, before the November Board of Trustees meeting." The idea for a student referendum was first brought up by Student Body President Mike Switek, Gar-

In Brief

A possible satanic worship location was examined by Cincinnati and Fairfield police Wednesday as part of an investigation related to the discovery of a woman's severed legs in Indiana. "We don't even know if we have a crime committed here," said Fairfield police Sgt. Ray Houchell after he took part in the search of a mobile home. Houchell said police were trying to connect Monica Denise Lemen, 21, of Cincinnati, whose legs were found near a Brookville, Ind., church, with the mobile home. Houchell said officers found satanic objects and a marble altar during the search. No one was in the home, he said.

No evidence has been found to support the usefulness of lie detectors in screening employees in sensitive positions, says a congressional report due to be released shortly. The Department of Defense, which was authorized to screen 7,000 people during the last two years as part of the Counterintelligence-Scope Polygraph Test Program, has screened 3,993 people and has not collected the information needed to know whether the tests were accurate, said Denise Dougherty of the congressional Office of Technology Assessment, which prepared the report.

ND student-run TV station could offer great potential

The "unknown" candidates, Raul Gonzales and Bill Donaruma, weren't elected to student government's highest office Tuesday, but they did have an interesting idea going into the election. Starting up a student-run television station similar to WVFI radio, they say, would be an excellent use of student government funds.

Chris Bowler

Managing Editor

I agree.

Think of the potential. The station could provide coverage of campus events uniquely different from that of the print media or the radio station. Talk shows and news programs could be aired. Even movies could be shown. Moreover, it could also provide an outlet for students who feel like expressing themselves on film instead of on paper or over the air.

Already Grace Hall has the beginnings of a cable system. The hall uses a remote video camera to film athletic and social events and then broadcasts the tape through a cable system to every room. After Sunday mass, residents can see a replay of the most recent basketball game or inter-hall hockey match-up. Lately, the program line-up has expanded to include live call-in shows with dorm celebrities and music videos. One video was a parody of the "This is Notre Dame" clip (usually seen during football half-times) with previously unseen footage of significant campus landmarks, like the power plant and the watertower.

With the purchase of a \$1,000 camera and VCR, Grace Hall has been able to start its own dorm media with the ability to bring a televised bulletin board bringing useful hall news, dinner menus, and the shuttle schedule to a large audience. Ed Trifone and Jan Farrell, the managers of Grace Vision, have organized a staff of 10 students to operate cameras and make films, indicating that an interest in dorm television exists.

I wonder if other dorms could imitate Grace Hall's lead? Running cable through dorm rooms is not a technically difficult problem. It definitely should be investigated. And certainly the cost of video equipment is within every dorm's budget.

But an even more exciting idea would be the creation of a campus TV station similar to the current radio station setup. The station could transmit from a central location to campus buildings via a cable system.

In a way, the campus is behind the times if we think that the fund increase for WVFI is the

only media worth funding. It seems that, unlike other campuses, Notre Dame and Saint Mary's haven't discovered the television yet. A student-run television station could go a long way toward giving real broadcast experience to journalistic-minded students. The use of videos and film coverage is a missing dimension in providing a full recipe of news and information services on campus.

While revamping the radio reception system is a good idea, I would like to see a few entrepreneurial types take a stab at starting up a similar organization to bring television to the campus.

It's a secret of mine that if I were a freshman again, I'm not sure that I would so readily get involved with the campus newspaper. Instead, starting up a television station might be an irresistible opportunity. For some eager underclassmen this idea has incredible potential for developing into a much-needed service.

Tuesday's results showed that the unknown candidates will remain in obscurity from campus politics. Hopefully, however, their idea of Notre Dame Television will be taken seriously by the incoming student leaders.

Notre Dame, Saint Mary's student leaders to be featured in talk show in senior video

By KATIE SULLIVAN
Staff Reporter

Thirteen Notre Dame and Saint Mary's senior class leaders held an informal talk show Wednesday at Theodore's in conjunction with the production of the Senior class video.

The Senior class video company, Special Moments Collection (S.M.C.), videotaped these students' reactions and responses to a variety of events occurring during their four years. "We chose these people because we feel they are some of the most recognized members of our senior class," said S.M.C. President, Michelle Coleman.

According to Coleman, the talk show will be only a segment of the senior video. The Special Moments Collection group began video taping senior class events with senior disorientation week

and will end taping with the senior formal.

Included in the talk show were both student government leaders and a variety of leaders from organizations such as the Pre Law Society, WVFI-AM, The Observer, the Notre Dame band and the Alumni-Senior Club.

"This was a great group of people to talk with because we all have different things in common. This event will be a nice thing to look back on," said Notre Dame Senior Class President Dave Miklos.

Mike Switek, Notre Dame student body president added, "It was swell. I'd like to sit around a bit longer and rap with some of these people."

The topics discussed were based on the students' most memorable college moments. According to Saint Mary's Student Body President Jeanne Heller, her most memorable moments are of

the times she got to know and understand those people whom she used to see as, "walking on water". Bruce Lohman, executive assistant to the student body president, said that exploring "the different ways students deal with influences from day to day" is his greatest memory.

Coleman emphasized both the positive and negative effects of the implementation of the alcohol policy. Senior Formal Co-chairperson, Jim Domagalski, said, "Our class had to deal with the situation after experiencing a 'wet' campus for a year. I think it was a positive thing for our class because it opened the doors to a lot of different activities and it caused our class to unify a great deal more."

Rebecca Hetland, student representative to the Saint Mary's Board of Regents added, "It forces us to be more creative." Interna-

tional Student Organization leader, Ronni Karam, said he feels the policy has created a negative effect. "Students are abusing alcohol. It is too difficult to forbid something to college students. I think it's a big failure."

According to S.M.C. Vice President and partner, Karyn Ruesch, seniors will soon be receiving a letter in the mail informing them that the deadline for ordering the video is March 1. The S.M.C group guarantees that each senior that orders a video will appear in it and they also guarantee that an equal amount of material from both Saint Mary's and Notre Dame will be included in the video.

For further information about the senior class video, contact Michelle Coleman, 284-5096.

Senate panel votes to halt aid being sent to Contras

Associated Press

WASHINGTON - The Senate Foreign Relations Committee voted 11-9 Wednesday to halt U.S. aid to Nicaragua's anti-government guerrillas in the first major test of sentiment in the new Congress toward the Contras.

However, even supporters of the measure passed by the Democratic-controlled committee conceded it will be vetoed by President Reagan if it eventually passes the Senate and the House.

"I think we have the votes on the floor to pass it, but of course the president will veto it and I doubt that we can override the veto," said Sen. Claiborne Pell, D-R.I., chairman of the panel and an opponent of Contra aid. No action by the full Senate is likely for several weeks, he said.

The vote came after more than three hours of debate in which both sides repeated their arguments favoring or opposing the program.

"This is one of the most crucial war-peace issues we will face," said Sen. Alan Cranston, D-Calif., a strong opponent of Contra aid.

Sen. Terry Sanford, D-N.C., another opponent, said Reagan is following "a very dangerous and likely unsuccessful policy."

However, Sen. Paul Trible, R-Va., noted that the Contras have just begun receiving official U.S. help again after a two-year hiatus and said, "We ought to play this hand over the next year or so" and see if they can win.

The program has been highly controversial ever since the Contras, with secret U.S. help, began fighting Nicaragua's leftist government six years ago. Congress banned U.S. military aid for two years but narrowly reversed itself last fall and voted for \$100 million worth of aid, including \$70 million in military help, for the current fiscal year.

Reagan, chief of staff questioned on fate of Regan's future plans

Associated Press

WASHINGTON - President Reagan said Wednesday that it's up to Donald Regan whether he will remain as White House chief of staff, but said he never tries to talk anyone out of leaving.

But Regan indicated he wasn't going anywhere.

Questioned about fresh reports that Regan may be on the way out, Reagan told reporters, "This is up to him. . . . When the people that I've asked to come into government feel that they have to return to private life, that's their business."

Reagan, during a picture-taking session with Israeli Prime Minister Yitzhak Shamir, was asked whether his comment should be interpreted as meaning that Regan was, in fact, leaving the White House. "That's a 'No answer,'" he replied. "That's not an answer."

Regan, confronted by questions shouted by reporters covering Shamir's departure ceremony at the White House

diplomatic entrance, smiled and pointed at Reagan, saying, "It's up to him."

As he and the president walked toward the Oval Office, Regan was asked again, by reporters some distance away, if he was leaving. He turned and replied, "no."

Under questioning during the photo session with Shamir, Reagan scoffed at a report in Wednesday's editions of The Washington Post, which said his wife, Nancy, had not been speaking to Regan, and that she had been pushing for his ouster.

"Oh, for heaven's sake," the president replied. "No. Not true, and nobody's getting fired."

Regan's management of the White House has been criticized by some Republican members of Congress and others since the Iran-Contra affair began unfolding last November, and there have been widespread calls for his resignation.

Law students present mock final arguments

By LIZ PORTER News Staff

Four senior Notre Dame law students presented a showcase of final arguments Feb. 13 in conjunction with the 37th anniversary of the law school's moot court competition.

In the auditorium of the Center for Continuing Education, the four finalists from the Notre Dame moot court competition displayed the arguments they recently presented at the regional moot court competition in Milwaukee, Wis.

The presentation of oral arguments allowed observers to watch the law school's national representatives argue a case in a mock appellate setting before a panel of state and federal judges.

Given a hypothetical case, the students formed two opposing teams consisting of Carol Kucera and Bradford Purcell as counsel for the petitioners, and Christina Smith and Joanne Thomas as counsel for the respondents.

A panel of three justices from various court systems heard the arguments, providing comments for the students after the presentation. The Honorable Carol Mansmann, an appellate justice from the U.S. Court of Appeals for the Third Circuit, presided over the panel. The Honorable John Mowbray, Justice, Supreme Court of Nevada, and the Honorable Sanford Brook of St. Joseph Superior Court were also present.

The Notre Dame moot court competition, which began in 1950, provides second year law students an opportunity to participate in a series of mock trials, said Joanna Johns, executive director of the 37th Annual Final Argument.

According to Johns, students in these trials present an oral argument and a written brief for review by a panel of law school professors and local attorneys. Students who chose to compete enter a progression of elimination rounds which continue throughout their second

year of law school, Johns said. At the review of the panel, she said, four law students are selected as the top competitors of the second year class.

The top second year students move on as third year students to represent the Notre Dame law school in regional and national competitions, said Johns. Academic credit is given to those second year students who participate, she said, and all preparations must be made by the students without the counsel of professors.

According to Johns, first year law students do not compete in the moot court trials, but are required to participate in an appellate brief writing and oral exercise as a part of their academic curriculum.

For the 1986-87 academic year the third year teams consisted of Kucera-Purcell, and Smith-Thomas, who represented Notre Dame at the regional competitions in Milwaukee, according to Johns. Although both teams were

eliminated after the first round of arguments, she said the team of Kucera-Purcell received high marks on the brief writing exercise. This score is combined with the oral argument score to constitute the total score given to participants, said Johns.

Sponsored by the Young Lawyers Committee of the Association of the Bar of the City of New York, the winners of the regional competition proceed to the national competition in New York City, Johns said. Notre Dame competes in the regional competition, which encompasses a large area of mid-western states. This region constitutes the largest moot court conference in the nation, she added.

According to Johns, teams competing against Notre Dame included law schools at Loyola, Valparaiso, University of Wisconsin, University of Illinois, Indiana University, and Northwestern.

Hesburgh

continued from page 1
 unanimity is a great virtue, but then again, you've got to do your job."

"If you were to ask me for one virtue or ethical device someone in journalism ought to have, I'd say get the truth," Hesburgh said. "It isn't easy always. That question of truth, I think, in a way, is the over-arching ethical problem of journalism. If you want the truth, you have to go to people who know the truth."

Hesburgh commented on the values of the profession. "How do you approach a subject like ethics in journalism? There's ethics in everything. There's ethics to being a housewife, there's ethics in being a priest, there's ethics in running a newspaper, there's ethics in everything," he said.

"You go down through a whole list of virtues. They're all the same virtues, but the problem is they've got to be applied," Hesburgh said.

College Briefs

USC students are more sexist than their counterparts at California State U.-Northridge, says a study by USC professors Harry Brod and Gerald Jones. The study also found that students enrolled in gender-studies courses lowered their sexist attitudes more than those in general education courses.

Student council members at Ohlone College want to require a 2.5 grade-point average and better attendance for the privilege of holding office. Under the plan, an officer with four unexcused absences from student council meetings could be impeached.

Pulitzer Prize Winning Playwright Edward Albee will join the University of Houston's faculty. Albee, whose works include "Who's Afraid Of Virginia Woolfe" and "A Delicate Balance," will serve as a distinguished professor of drama.

The theft of unmarked exams for a Medical Genetics course at the University of Toronto has left the grades of 245 students in limbo. The exams were stolen from the professor's locked office over winter break. Now students might have to take another test or accept mid-term marks as their exam marks.

The Kansas University student senate is sponsoring a free cab service for KU students who've had too much to drink. Under contract with the student senate, a local cab company gives rides until 3 a.m. weeknights and weekends. The senate gets charged \$2.50 a ride.

Bucky's Bleacher Creatures have invaded the University of Wisconsin's men's basketball games this season. Members of the student booster club receive red t-shirts and food coupons from area fast-food restaurants in return for their enthusiastic (and loud) support of the team.

Thanks to movies that romanticize military life, applications are up more than 10 percent at the nation's three big military academies: West Point, the Naval Academy, and the Air Force Academy. Officials also attribute the surge to increasing patriotism, the increasing social stature of the military, and the lure of a free education.

Nudes are "Unbearable" in Antelope Valley College life drawing courses. The school's board turned down a dean's proposal for a Life Drawing course because it would involve nudes. Officials say the class would entail too many special requirements, like locking the door and keeping students under 18 out.

cent of the vote.

According to Heller, a record 70 percent of the junior class voted in this election for senior class officers.

The ticket of Christy Wolfe, Michelle Agostino, Tera Sternitzke and Lisa LaMalfa will face the ticket of Rose Pietrzak, Anne Palomaro, Barb Gullifor and Katy Burns in a run-off election for junior class officers. Both tickets tied with 33 percent of the vote. The third ticket of Julie Wagner, Kelly Glavin, Dawn Meyer and Robyn Malone earned 28 percent of the vote.

Sophomore turnout for the election of junior class officers was 54 percent, Heller said.

Forty three percent of the freshman class turned out to elect Megan Hines, Mary Beth Blajda, Deirdre Milon and Lisa Catenacci for sophomore class officers. Their ticket received 59 percent of the student vote, the majority needed to win the election. The ticket consisting of Doreen Brown, Dawn Koutek, Patti Weed and Colleen McCarthy received 36 percent of the vote.

Heller praised the Saint Mary's students who voted this year. She attributed the high turnout to the three tickets, saying that they had renewed interest in student government elections.

Surrogate motherhood leads to many conflicts

Baby M., 8 months old, blonde, and blue-eyed, is the daughter of William and Elizabeth Stern. She is also the daughter of Mary Beth Whitehead and her husband.

Wait. Isn't having only one set of parents the norm?

Carol Brown

on second thought

Yes. But Baby M. is different. "Melissa" Stern or "Sara" Whitehead is the product of a surrogate mother arrangement between the Sterns and the Whiteheads. Several months ago, William Stern provided his sperm and promised Mary Beth Whitehead \$10,000 for her services as a surrogate mother.

Simple, right? Mary Beth would be \$10,000 richer and the Sterns would be the happy new parents of a custom-ordered baby.

Wrong. Somewhere in this simple business contract someone forgot the emotion. Someone forgot the attachment between a mother and her child. Someone forgot that a baby is a person, not a product.

Mary Beth gave the baby to the Sterns three days after the birth. But she begged to have her back a day later. The Sterns, in all compassion, returned the baby to Mary Beth before they sent a court order and five police officers to retrieve the baby.

In the desperation of a mother, which was not part of the contract, Mary Beth handed Baby M. out the rear window to her husband. The family fled to Florida. After three months, the Sterns found the Whiteheads and took Baby M. back to New Jersey, where her fate is being decided in a court room.

As the saga continues, New Jersey Family Court Judge Harvey Sarkow has historians and lawyers waiting for his ruling, which will set a precedent in surrogate mother cases. Surrogate motherhood is neither permitted nor prohibited by law. Five hundred babies have been born to surrogate mothers in the last decade. None have gone to court, although three known disputes were settled privately with the biological mother keeping the baby.

Does the case involve contract or child custody? What rights, if any, does a surrogate mother have to the baby she agreed to sell? Should joint custody and visiting privileges be considered? These questions of legality are the focus of the Baby M. case.

"People treat it like we are fighting over a car," says Mary Beth. "But she's not a possession, she's part of me."

Right, Mary Beth. Baby M. is not a possession. But you should have thought of that before you put her up for sale. And as far as treating Baby M. like a car, you're way off. You can't even buy a decent car for \$10,000 these days.

Costs aside, there is still the question of custody.

"I am the father," says William Stern "and I want my daughter back." He's right. A father should be with his daughter.

"I have three children, and two of them cannot see their sister," says Mary Beth. "I don't think that's fair."

She's right, too. It's not fair. But neither is contracting out a baby's life and then playing tug-of-war with it. It doesn't matter who wins in court. The biggest loser is Baby M.

And where there's a loser, there must be a winner. This time it's Noel P. Keane. Keane is a Michigan attorney who founded the surrogate motherhood business over ten years ago. He set-up the contract for Baby M.

Keane has made more than spare change in the baby-selling business. Just as the surrogate mother receives \$10,000 for her services, Keane collects \$10,000 for arranging the surrogate agreement.

Of course, profit isn't Keane's only motive. Keane is very concerned with the welfare of the mother and the baby. Throughout the Baby M. trials, Keane has spent much time on the beaches of the Bahamas, obviously worrying about the case. In fact, in the past, when a surrogate mother has lost the baby in a miscarriage, Keane has given her \$1,000 for her trouble. What a caring guy.

So what's the solution for the Baby M. case? Is it wrong for a surrogate mother to want the baby she gave birth to? Is it wrong for a father to want the baby that is genetically his? Perhaps, the question should not be one of contract or custody, but whether the practice of surrogate motherhood is ethical in the first place.

America has enough homeless children without creating a baby-selling industry to increase the supply. In 1982, 274,000 children were in foster care. Only 141,861 were adopted. That leaves over 132,000 children seeking parents, far more than needed to satisfy the couples looking to surrogate

mothers as a way to become parents.

For now, Judge Sartow will have to decide the fate of Baby M. I can only look to the future. If babies continue to be bought and sold in the marketplace, this is what I see:

A woman is walking down Hollywood Boulevard wearing a billboard:

"Womb For Rent. \$10,000 For 9 Months. No Emotional Attachment. Guaranteed. Noel P. Keane, contractor."

Carol Brown is a junior American Studies major and a regular Viewpoint columnist.

P.O. Box Q

Fun is the purpose in interhall basketball

Dear Editor:

The game of basketball requires only two things: some level of skill and also sportsmanship. Obviously the skill factor is not as important to us as is the issue of sportsman(woman)ship.

The purpose of our basketball team is to gather together a group of people, most of whom lack previous experience on the court, to compete in the NVA league and most importantly to have a good time. The level of skill that we as a team have encountered in the last few weeks has been impressive.

Our problem is not with the level of skill, but rather with the poor sportsmanship of our opponents. Please don't mistake us for sore losers, for that is not the case at all. We simply feel that some of the situations we have faced in our games have been badly handled by our opponents and have been the cause of some disillusionment within our

team. "It's not important whether you win or lose, it's how you play the game." When you're behind by more points than you care to remember and your opponents are fast-breaking on you and continuing to run a full court press in the fourth quarter when the game is obviously in hand, you begin to wonder whether or not the other team is aware of just how they "play the game." Worst of all these people don't even look as though they're having fun, which is the whole point of interhall athletics, or so we thought. Hey you guys, Lighten up! We know how to lose and have fun doing it but do you know how to win?

To the teams we have already faced, good luck during the rest of your season. To those we have yet to face, we won't be hard to recognize. We'll be the ones that will be determined. Determined that is, to do our best, and have fun while we're at it.

Seniors sing the blues

PAUL-ANDREW CIMINO
features writer

"... Went to my advisor. He said, 'I'd like to help you son but you picked the wrong major.' I keep on trying. Don't know what to do. See, there ain't no cure for the Job Search Blues." Sung to, *Summertime Blues* (with apologies)

I've been trying, rather desperately, to find a job for quite some time now. It is not easy, unless you happen to be an accountant. In which case you're probably already handing out new business cards to all your friends, and making them feel totally worthless. I bet you guys are on a real power trip. Well to tell you the truth, I don't care. Really, I don't at all. You can go and... Sorry about that. Too much pressure. I digress.

These days I'm trying every method short of armed robbery (it has been considered) to coerce someone into, uh, finding a job. Thankfully, at Notre Dame we are fortunate to be graced with the presence of that office of offices, Career and Placement Services. A great group of people with a lot of job hunting know-how, but that can't get you a job. It will give you a chance and then

you have to get lucky. Actually I will consider myself lucky if I can just get an interview through the office.

You (take note, I use 'you' because I seem to be excluded from this group) can be invited to interview with a company after they have perused your profile, or you can get one through the famous computer lottery system. I've had no luck with the invitationals and when I wanted to include a twenty with the profile they wouldn't let me. So, that was the end of that. The lottery, on the other hand, has created some other problems.

I have been having recurring nightmares about the computer system. I find myself dressed in a loincloth with beads, paint on my face, and carrying fruit on my head. Probably somewhere in Guatemala (a great place to work). Trudging through the dense brush filled with snakes and mosquitos I break into an open area containing a temple complex in the shape of a Macintosh computer.

The display screen flashes a vacant, "Who are you?" In ten-foot letters as I cower in fear.

"It is your humble servant Paul, O great Computer God, with a sacrificial offering." I reply through chattering teeth

and shaking knees.

"Leave it and go, worm."

The impersonal machine dismisses me without so much as the whirr of a disk drive. Now comes the tough part. Prostrate in the mud, ants crawling through my hair, eyes averted, I ask, "O great, powerful, and wondrous Computer God, can I please have an interview with Paine Webber? I put the choice as a priority and have only had one interview all year. I've been waiting for this one your worshipfulness. Please, I beg you."

Suddenly the disk drive whirrs. The letters are more sedate.

"You don't seem to understand. There are only 25 spots available and I have requests from 53 million people. In other words, you have about as much chance as Thomas Jefferson."

"He's dead, O high and mighty."

"Right...worm."

The screen goes blank as I raise my tear-filled eyes and begin yelling "No. NO. NNOOOooo."

About this time I wake covered in sweat and realize it's time to start looking at fast food restaurants.

So far I have gotten a few interviews. Not with PaineWebber though (waiting list

\$21,573,022). Some were nice. Others, well... I walked into one and the guy asked to see my fingernails and if I wore braces when I was a kid. They'll do anything to cut you out and you have to make yourself a viable and worthwhile product. The best way to do this -Lie. Excuse me, bend the truth.

An example: A friend of mine had an important interview with a firm he adored. The problem he faced was that his grade point average was not as high as he would have liked it to be. So, he adjusted it on his profile form. When the interviewer, who saw his transcript noticed the discrepancy, he asked, "Excuse me Pete, (not his real name, of course) but your grade point average on your transcript seems to be substantially lower than it is on your profile form."

"Well," my friend replied, "To tell the truth, I found a new way to figure it out."

To make a long story short, the interviewer loved his originality, they had a great laugh about the whole thing, and he got a respectable offer. So there. Needless to say, if I tried that one, the interviewer would probably call every other firm in the business and blacklist me. Ahhh, some people

have all the luck.

Well, life isn't all bad and I'll say one thing: If Senior Bar ever does hold a rejection letter night, I'm gonna be first on line. For now I can't help but keep thinking that I should have been an accountant. And every time I do, I realize that there just "ain't no cure for the Job Search Blues." Good Luck everybody.

Home town COMFORT

ZACK HUDGINS
features writer

Searching for homey atmosphere, good breakfasts & rest?

Bed and breakfast inns started in Europe when a family had a few extra rooms and needed a little extra money. The family would rent out the rooms and then serve them breakfast the next morning. Travelers and visitors felt at home and became members of a family away from home. These places were called bed and breakfast inns because of what they provided. There is now one here in South Bend. It is called the Jamison Inn and is located at 1404 Ivy road.

The Jamison Inn offers the comforts of a regular hotel but with a twist. There is an atmosphere straight from the inside of any midwestern boarding house. Each room is a little different in both size and decor. The rooms at the Jamison Inn aren't all carbon copies of one room like some big hotels offer.

The rooms cost fifty three dollars for singles and fifty nine dollars for doubles. Each room has a microwave oven, bathroom with shower, vanity, refrigerator, wet bar, color television with cable and remote control. The rooms are filled with original artwork by local artist Jack Appleton. "Most hotels today just use prints of artwork but with our originals we have relieved nice complements," said innkeeper John Stratigos.

Right now the Inn has fourteen double rooms for rent

Jameson Inn is a new twist to the hotel scene.

each containing two queen size beds. The inn also offers twelve single rooms containing king size beds. The Jamison Inn was hoping to have another 24 rooms available by

Notre Dame's graduation but that won't happen. The twenty four rooms now under construction will all be two room suites. One room will contain the bed and the other room

will be for entertaining guests.

1973 Notre Dame graduate Pat McGraw came up with the idea not from Europe where it originated but from his home state of Colorado. Pat McGraw

wanted to open up a hotel here in South Bend and felt that this kind of hotel would do the best. "A regular hotel wouldn't get by the city council and we wanted to fit in nearby the campus," McGraw commented.

The Jamison Inn offers what most bed and breakfasts offer. With the price of the room comes a traditional breakfast of eggs, fruits, pastries, pancakes, waffles or juices. The homey atmosphere allows for guests to enjoy their stay away from home in unusual comfort. The only things changed from the traditional bed and breakfasts of the past is the added technology. The rooms now have appliances in them and

guests don't have to share the bathroom at the end of the hall.

The Inn is already taking reservations for the year and has many rooms reserved for Notre Dame home football game weekends already. The Inn has only been open for two months and business is already brisk. The Inn will soon begin catering parties and events and also offers facilities for such things as wedding parties.

The Jamison Inn looks like the best idea to come into South Bend in a long time. It offers a home away from home atmosphere for any traveler that comes to South Bend. The football fan, conventioner, business person or tourist will enjoy the hospitality offered by the Jamison Inn.

The Observer/Damian Chin

Irish

continued from page 12

scoring 14 points and leading the team with eight rebounds. He was especially impressive in the first half, as the Irish struggled at the foul line (3-of-7) and in the offensive-rebounding department. In the

half, he led Notre Dame with 10 points, several coming on long jumpers from the baseline.

Center Frank Williams led the Rams with 12 points, while forward Joe Franco chipped in 10. Especially impressive for the Irish defense was the way it held guard Greg Pedro (who was averaging 14.3 points) to

only seven points on 2-of-13 shooting from the field.

"We had a lot to gain, but not much to lose," said Quinn. "At the half, I told the players that we had 20 minutes of basketball left and not to celebrate. I was proud that they played hard, but we've merely come close too often. A win is what we wanted."

"It was a tough win, but that's college basketball," said Phelps. "The team's are so balanced these days. We just wanted to win, and we were able to do that. Now we just have to move on to the next one Saturday at Utah."

IRISH ITEMS - Fordham head coach Quinn announced yesterday before the game that

he did not want to be considered as a potential candidate for the coaching job next year after his one-year contract runs out. Quinn, who replaced former head coach Tom Penders after Penders left at the start of the season, explained that "when the losses don't gnaw at you anymore, it's time to get out."

Junior overcomes injuries

Garrett back on track in distances

By PETE GEGEN
Assistant Sports Editor

Injuries are normally frustrating for an athlete, but for junior distance runner Dan Garrett, they presented him with a difficult situation to deal with.

It began last year when he suffered a hip injury during cross-country season.

"The tendon kept slipping out over the bone," says Garrett. "I tried to run through the injury, but I just didn't realize how bad it really was."

The injury restricted Garrett for several months to just slow jogging every other day. He tried to take his mind off the situation by lifting weights, but he suffered a shoulder injury from it, and all that was left to do was the slow jogging. He missed both indoor and outdoor track seasons that sophomore year.

"I couldn't do anything," he says. "I just try to forget about last year."

Fortunately for Garrett, the severe injuries are past (he strained a tendon in his knee last week, but it has not bothered him). In fact he has assumed once again his position as one of the top Irish distance

runners.

Already he has defeated one of the top mile runners in the nation, Michigan's Chris Brewster.

"I was in really good shape then," Garrett says. "He had never run on our track before. It's really hard to pass on our track, and he just didn't time it right. (Fellow Irish distance runner) Mike Rogan helped a lot. If anyone tried to make a

Dan Garrett

move, we would hold him off."

Garrett recorded a time of 4:12 in that race, the top Irish time in the mile this season. He also recorded a time of 9:00.05 in the two-mile run at the Central Collegiates, leaving him just one-tenth of a second short from qualifying for the IC4A's in that race.

But the quiet Clarence Center, N.Y., native has not even run his best race yet. That will come in the spring when he gets his first crack at the 5,000-meter run since his freshman year. His personal best in that race is 14:36, which is eighth on Notre Dame's all-time list.

The Irish travel to Bloomington tomorrow for the Indiana Intercollegiates. Indiana and Purdue will battle with Notre Dame for the top three positions in the team standings.

"Indiana has an awesome team," said Head Coach Joe Piane. "Indiana beat Illinois in a dual meet, and Illinois, along with Purdue, beat us at the Central Collegiates."

The Boilermakers feature sprinter and grid star Rod Woodson, who won both the 60-yard dash and the 60-yard high hurdles at the Central Collegiates.

Notre Dame was scheduled to sent its two-mile relay team to the Illinois Classic Saturday, but a lower-leg injury to co-captain Jeff Van Wie will probably force the relay to scratch. The extent of Van Wie's injury was to be determined today.

continued from page 12

through college.

Except for Notre Dame Scholars and ROTC grants, Notre Dame does not promise any such help to recruited athletes outside of football and basketball.

"I happen to be a believer in the Ivy League system," Smith said. "I'd like to see where, if a young man can meet the academic expectations and athletic qualifications, that we could take an honest look at his financial background and award him some help if he needs it. Maybe with the stipulation that he also goes out and works to help pay for his education."

"I would like to think that would be more financially viable for our program, that it could be done. But proving your point is tough. Our financial aid here at Notre Dame is relatively small, but I would like to think that something could be done for us to compete with the top teams in the country again."

Smith also said some good teams would like to schedule the Irish in the future, and that next year's recruiting class has the potential to be the best since the team went back up to the Division I level two seasons ago. With no scholarships or financial aid to players who need it, however, I find it difficult to believe that the Irish could put up a consistent front against the nation's powers.

Without the powerful recruiting weapon commonly referred to as the scholarship, Smith and the Irish will continue to try improving their record in the ACHA against weaker opponents, and the number of Notre Dame players graduating to NHL careers will continue to take a nosedive.

As for me, I guess I'll just never know what those good ol' days in Notre Dame hockey were all about.

Morrissey takes lead in Gold League; Pangborn, Alumni still shooting for playoffs

By ORLANDO RUBIANO
Sports Writer

The Manor is still intact after league rivals, Alumni and Pangborn, fired their best shots at it in interhall hockey action.

The Gold League is now coming into focus, as Morrissey (4-0-1) has affirmed itself on top after disposing of Alumni and tying Pangborn.

With one game remaining on the schedule, Morrissey only needs to beat Stanford to clinch a playoff spot as the top seed from the Gold League. Pangborn (3-0-2), despite the 1-1 tie with Morrissey, can also clinch a playoff berth if it can defeat Fisher in the finale for both teams. Alumni (3-1-1), which lost to Morrissey, 6-3, needed a Pangborn loss to be back in the race. The rest of the Gold participants will

be playing the final week for pride, since the playoffs are out of reach.

The Morrissey-Pangborn match figured to be a good one and it did not disappoint. Goals were hard to come by, however, due in part to the goaltending abilities of Pangborn's Brian MacSwain.

"Their goalie made tremendous saves all game long, and really kept momentum for them," said Morrissey captain Ted Gradel. Gradel and company needed a two-man power-play advantage late in the game to pierce MacSwain's goal. Gradel, who was left open, received a pass in the left slot and then faked MacSwain to his right before depositing the puck into the open side.

Pangborn took the lead in the first half when Paul Eiden scored through a screened Morrissey goal.

After that, Pangborn was forced to protect the lead the rest of the way. MacSwain time and time again frustrated Morrissey attacks, but to its credit, Morrissey held its composure.

"Our patience was tested, but it paid off when we took advantage of that break," said a relieved Gradel.

The Alumni game was a see-saw contest, before Morrissey put it away late. Morrissey jumped out to a 4-0 lead, but Alumni then scored three unanswered goals to put suspense in what had earlier looked like a rout. However, Gradel broke Alumni's comeback effort, scoring his team's fifth goal with five minutes left. In all, Gradel accounted for half of his club's goal production, while Chuck Curley, Brendan Max and Pat Koepl pitched in with a goal apiece.

Alumni got goals from Brian Aquadro, Jim Vizzini, and John McLachlan.

In other Gold League results, Pangborn beat Zahm (0-4-1), 6-1. Stanford (2-3) won two straight over winless Zahm and Sorin, by respective 5-1 and 2-1 scores. Sorin (0-5) has sole possession of last place.

The Blue League seems to be going as expected with Grace and Off-Campus dueling for first place. Grace (4-0) met Off-Campus (4-0-1) last night to settle bragging rights.

Grace is coming off a big win after bombing Carroll/Keenan (1-4), 10-1. Off-Campus held St.Ed's/Holy Cross (0-5) scoreless in winning, 4-0.

The rest of the Blue League saw Cavanaugh/Howard (3-2) shelling Carroll/Keenan, 9-1, and Flanner (2-3) was blanked by Dillon (3-2), 5-0.

Reserves

continued from page 12

and junior Kathy Barron (six points) led the reserves. The team's two newest additions, sophomores Ellen Mouch and Kim Garrison, saw action in their third game as Mouch finished off the scoring by hitting a foul shot with six seconds remaining, to give Notre Dame a 90-53 victory.

The Irish next travel to DePaul on Saturday as they face the North Star Conference leaders, the 18-4 Blue Demons. The two teams met at the ACC in January when DePaul pulled out an 80-68 win.

"DePaul is just going to be a war," said DiStanislao. "They are making a push right now to get into the NCAA's and they're not going to stop themselves. We're going to have to go up there and play real well to beat them."

Donald Royal scored 20 points as the Notre Dame basketball team downed Fordham, 69-57, in Madison Square Garden last night. Eric Scheuermann has the details at right.

ND tops Rams in Garden, 69-57, escapes scare as Royal hits for 20

By ERIC SCHEUERMANN
Sports Writer

NEW YORK - It wasn't the prettiest of games, but it ended up in the victory column. The Notre Dame basketball team picked up its 16th win of the season last night, beating Fordham by a 69-57 score in the second game of a doubleheader at Madison Square Garden.

Despite the score, however, the game was in doubt until Irish center Gary Voce hit both ends of a one-and-one with 34 seconds left to give the Irish a 63-57 lead.

Four free throws and a last-second three-point jump shot by David Rivers gave the Irish their final margin of victory.

"That really wasn't a 12-point game," said Fordham head coach Bob Quinn, "I'll tell you that. They didn't miss their free throws, and that was the

key. If they did, it's a different game."

The Irish managed to hit 15-of-18 free throws in the second half, after making only three-of-seven in the first half, which ended in a 29-29 tie.

A 14-4 run by the Irish, beginning at the 14:47 mark of the second half, gave Notre Dame a 10-point lead at 51-41. Forward Donald Royal, who led the Irish with 20 points, scored six of those points, while David Rivers (16 points, five assists) contributed four.

Fordham made several valiant runs at the Irish down the stretch, but strong offensive rebounding helped put the Rams away. Although Ram forward Joe Paterno brought his team within four at 61-47, Voce's free throws ended all comeback hopes.

"We were a little flat tonight," said Irish head coach

Digger Phelps. "But we didn't lose our composure and we did the things we had to do to win the game."

"But I thought Fordham played very, very well, and that's a credit to Coach Quinn. They played with excellent intensity, and played hard as they always do. I've never seen a Fordham team dog it - we can't ever expect them to lay down when we come in here."

"We couldn't have played them at a better time, this being their third game in four nights," said Quinn. "That's what I was telling my players all week - that we would have a shot. That's a grueling schedule they had lately. I thought my schedule-maker was sadistic."

Guard Scott Hicks turned in another fine effort for the Irish,

see IRISH, page 8

Irish trounce Ill.-Chicago, 90-53, bring three-game drought to halt

By BRIAN O'GARA
Sports Writer

After a slow start last night at the ACC, the Notre Dame women's basketball team took control of the game and rolled over Illinois-Chicago, 90-53.

"This was a real good one to win," said Irish head coach Mary DiStanislao. "It was good to be able to rebound from a game like Tennessee with a game like this one."

Notre Dame overwhelmed the Flames in nearly every aspect of the game, controlling the pace and the boards while shooting .597 from the floor. In turn, the Irish held their opponents to a .283 shooting percentage.

Freshman Annie Schwartz, who has been on a scoring tear for the past three weeks, led Notre Dame with 17 points and 10 rebounds. Junior Sandy Bot-

ham scored 15 of her 17 points in the second half as the Irish ran away with the game and improved their record to 7-15.

After quickly falling behind, 6-0, Illinois-Chicago made a run at the Irish and tied the game at 14-14. Freshman Kathy Emigholz hit two 15-foot jumpers and junior point guard Mary Gavin ran the Notre Dame fast break expertly as the Irish ran up a 38-22 lead at the intermission.

"Cathy Emigholz made a big, big difference coming off the bench," said DiStanislao. "I think she really stemmed the tide in a game that was starting to be a little lack-luster."

Gavin's precision passing kept the Flames on their heels throughout the first half, as she recorded nine assists and three steals. Meanwhile, the Notre Dame defense was holding 6-5

Donna Clark, Illinois-Chicago's top scorer (16.8 points per game), to only two first-half points and three shots from the field.

Clark picked up her fourth personal foul early in the second half, and the Irish took advantage of her cautious play to break open the game. Clark moved out to the perimeter because of foul trouble and scored 16 second-half points on short jumpers and foul shots. This was not enough to hold back DiStanislao's hungry team as Notre Dame ran away with the win to end a three-game losing streak.

Everyone got in on the action at the end as the Irish bench emptied. Four starters finished in double digits, while Emigholz, freshman Molly Mahoney (nine points, five rebounds)

see RESERVES, page 10

The Observer/Drew Sandler

Notre Dame forward Annie Schwartz led the Irish women's basketball team to a 90-53 win over Illinois-Chicago last night with 17 points. Brian O'Gara has the story at left.

Hockey program is short-handed without financial aid

Growing up in Ontario, Canada, it was difficult for me to walk down the street on a winter day without hearing something about hockey. As a matter of fact, it's tough to do in any season.

At Notre Dame, it's quite easy.

I often wonder how exciting it must have been hiking over to the ACC on a winter weekend to watch the likes of Don Jackson, Dave Poulin or Bill Nyrop (all NHL players) in their Notre Dame uniforms, and seeing some of the best college teams in the country battle it out on the ice with the Irish.

But thanks to something called financial feasibility, those days are gone.

The once-strong Notre Dame hockey program, which made the playoffs for 13 consecutive seasons under the helm of Charles "Lefty" Smith, now plays in the four-team American Collegiate Hockey Association, and offers no scholarships. Zero.

Smith himself takes some of the blame.

"We weren't too smart," he said. "In the Western Collegiate Hockey Association (for 10 years) and the Central Collegiate Hockey Association (three years), the top two teams went to the Final Four. To call those tournaments NCAA tournaments would have cost us 25 percent of the reve-

nue, so we decided to keep the names WCHA and CCHA.

"That was a mistake. We never made the Final Four, but we never missed the playoffs, which technically were NCAA playoffs. So on the campus, they weren't really too sure that we had ever had any success."

Marty Strasen

Assistant Sports Editor

How much proof do people need? Notre Dame ranks 10th among all colleges in players sent to the NHL, and five of those players have their names on the Stanley Cup. Poulin, the captain of the Philadelphia Flyers, recently netted the winning goal as the NHL All-Stars knocked off the Soviet Union.

But the 1980's marked rock-bottom for the Irish. After the number of scholarships had been cut from 20 to 15 in 1980 because of rising travel costs and the emergence of women's sports at Notre Dame, the Athletic Department dropped the hockey program to club status for the 1983-84

season, allowing the 12 scholarship players who were not graduating to transfer schools without losing a year of eligibility.

Then, two years ago, the program was brought back to the varsity level, but with no scholarships. None.

"Let's face it," Smith said. "It's a challenge to say the least. Now we've got to go after a kid who is a good student, with good SAT scores, who can afford to go here and who is a good athlete. Instead of competing with the Minnesotas, North Dakotas and Michigan States, we're recruiting with the Ivy League schools."

And so far, the Ivies are winning.

Harvard made an appearance in the Final Four last year, Princeton has had some impressive seasons, and Smith thinks Harvard is one of the favorites again this season.

Meanwhile, Notre Dame sports an 8-15-1 record in a division feared by none of the nation's powers. The difference?

Scholarships based on need. The Ivy League schools distribute a good deal of financial aid to their players based on financial need, and set up programs so that their players can work their way

see HOCKEY, page 9
