MONDAY SEPTEMBER 8, 1980

Q. and A.

Father Heppen

Director discusses housing

Fr. Michael Heppen is the Director of Housing for on-campus students. Last week, he was interviewed by staff reporter John Higgins. *Q: How overcrowded are the dorms this year?*

A: We're doing pretty well with male housing. We've placed 26 men so far and we have space for 40 more. I wish you would make a strong point that we do have space available for the men. We just haven't been able to get in touch with those on the waiting list.

We do have an overcrowding problem with the freshman women. Lewis has been taken care of, but we still have people living in the study lounges of Badin, Lyons and 10 in the basement of Walsh.

Q: Why?

A: It happens because people who don't want their rooms on campus don't bother to tell us. We also had quite a number of no-shows this year.

Q: I don't quite understand.

A: There are always a certain number of students who either don't want to live in the dormitories after they've reserved space or simply don't show up. We don't want to have those spaces go unfilled.

My main concern after we lost St. Edward's was accommodating those people in a group. This is the reason I put 32 in St. Vincent Hall and I believe 66 in the study lounges of Flanner and Grace. I let Fr. Mario Pedi, the rector of St. Ed's, make all rooming assignments.

Q: What are the plans for the reconstruction of St. Ed's?

A: We're still talking with the architects. I've seen some sketches, but no final plans have been made.

Q: How aesthetically accurate will the reconstruction be?

A: It will be a historic restoration.

Q: Let's talk about the new dorms. Can you give me some background?

A: They were given by Frank Pasquerilla. He is an industrial developer from Johnstown, Pennsylvania. I think he has a great deal of respect for the University and a close friendship with Fr. Hesburgh, so he decided to provide for their construction.

Q: When will they be ready?

A: I'm told the first one will be ready in January.

[continued on page 4]

The Irish spirit catches on among all age groups. Some of us saw our first game at a young age, but for many students, Saturday's game was their first taste of the excitement. [photo by Chris Salvino]

Brown plans Social Concerns program

By Sue Kelleher

Therese Brown, this year's Social Concerns Commissioner, has announced the implementation of a new program designed to raise the social consciousness among students, in addition to the traditional film series.

Alumni groups in various cities have been made aware of the commission's desire to instill a sense of justice, and have agreed to hold sessions between students and alumni of the same vocational interest. Hopefully, this will enable students to perceive and learn more of their future professions from a social consciousness viewpoint. Social justice as an integral part of life will be emphasized and the specialization of the program will be geared towards dealing with specific questions students may have.

The program will take place in the pilot cities of Cincinnati and Washington, D.C. in the near future.

The Social Concerns Film Series begins with tonight's showing of "The China Syndrome" and will continue through September 16. Seven different films will be shown;

four this week and three the next. Each of the films were chosen by the commission to increase awareness of certain social concerns, such as poverty and discrimination, within the Notre Dame community. The films raise questions of justice and equality on the domestic and international levels. A brief description of this week's films follows.

The China Syndrome. An accident in a nuclear power plant is the basis for this gripping, chilling film of the uses and abuses of power versus conscience. Vincent Canby of *The New York Times* gave this accolade: "The film is as topical as this morning's weather report, as full of threat of hellfire as an old-fashioned Sunday sermon and as bright and shiny and newlooking as the fanciest science fiction film. There is suspense almost from the film's start in a television newsroom and it builds without much letup till the finale." The film stars Jane Fonda, Jack Lemmon and Michael Douglas.

Black and White in Color. Awarded the Oscar for best foreign film of 1977, this movie tells the story of a mini-war between the French and German colonials in the West African conflicts of 1917. As expounded by Judith Christ of *Saturday Review*: "it is a moral tale about civilians in wartime, (about) the military colonialism, racism, exploitation and imperialism. The satire is barbed as it touches on patriotism, the Christian conscience, the manipulation of self-interest and men under stress."

Harlan County, U.S.A. Portraying a classic 20th century conflict between labor and management, the movie chronicles the efforts of 180 coal mining families to win a United Mine Workers contract at Brookside Mine in Harlan County, Kentucky. The strike began in 1974 after miners voted to join UMW of America and the Duke Power Company, the parent company of the Brookside mine refused to sign a standard UMW contract. Produced and directed by Barbara Kopple, this film won the Academy Award for best documentary.

Controlling Interests. "The world of the multinational corporation", will be shown at 12:15 P.M. in the Engineering Auditorium. This 45 minute primer depicts the inexorable conscience of the world's wealthiest resources in the hands of a small number of multinationals. These corporations have no loyalty to any country and corporate decisions are based upon making profits.

With the exception of "The China Syndrome," which will cost \$1, admittance to all of this week's movies will be free.

N.D. Radiation Lab "unique"

*by Tom Koegel
Senior Staff Reporter*

If campus rumors are to be believed, the Notre Dame Radiation Laboratory, located between O'Shaughnessy Hall and the Memorial Library is (A) a massive underground complex with 34 levels, (B) the site of a small thermonuclear reactor, (C) producing giant mutant frogs which are served in the dining halls.

As interesting as these campus rumors may be, the Radiation Lab contains only three floors with a single basement, it has no reactor, and in the words of Laboratory Director Dr. Robert Schuler, "We haven't seen any giant frogs yet."

The Radiation Laboratory still is, however, "a laboratory unique in the country, and in the world. The only related facility would be the Argonne National Laboratory, but the Notre Dame Radiation Laboratory is unique in having a university setting," Schuler said.

The Laboratory, which is run by the University for the U. S. Department of Energy, was built in 1963 at a cost of \$2.2 million by the Atomic Energy Commission (AEC) on land leased from the University.

At the Laboratory's dedication, then AEC chairman Glenn T. Seaborg hailed Notre Dame as "the first university to provide formal training in this new chemistry (radiation chemistry)."

The Radiation Laboratory is funded today by the Department of Energy, which "sponsors all research in the building with a blanket grant," according to Schuler.

This blanket grant, which will be approximately \$2 million next year, is listed in un-

iversity publications as being for the rather broad category of "the investigation of the effects of radiation on matter."

Most of the research is chemically oriented, studying fundamental reaction mechanisms and the properties of intermediates in chemical reactions," Schuler said. "The Department of Energy is interested in our research because of the chemical bases of the storage of energy."

"It may not be very interesting to the general public, but to us it is extremely exciting," Schuler said. "The lab is developing new techniques to measure the progress of reactions."

The Radiation Laboratory has approximately 45 Ph.D. researchers in addition to the 15 graduate students and 6 undergrads, and a support staff of about 30. The lab boasts of a research staff drawn from around the world.

"In the past, we have had researchers from 45 different countries," Schuler said. A number of the researchers have faculty appointments, but most are pure researchers.

Focus

The radiation involved with the research is produced by various generators and is used to initiate chemical reactions which are studied in the hope of better understanding the processes by which chemical reactions proceed.

In addition to the equipment the laboratory was endowed with in 1963, which includes a 2 million volt Van de Graaff generator and a 50 thousand volt X-ray tube, the lab has acquired two accelerators in recent years.

The lab's most recent acquisition is an accelerator called a Febetron which can produce a current of 3000 amperes at 2 million volts. The Febetron will be used to initiate chemical reactions on very short time scales.

Inside Monday

Chinese Premier Hua Guofeng formally told Parliament that he is resigning his government post in favor of the innovative economist, Zhao Ziyang. He announced a new 10-year economic plan to begin next year. The resignation plans of Hua and seven elderly vice premiers were first announced this spring. Parliament is expected to approve the resignations. Zhao is a protege of Vice Premier Deng Xiaoping who, despite his title, wields the greatest political influence. The resignation is the latest evidence of the political and economic ascendancy of Deng's pragmatic policies of flexible, decentralized economics and collective leadership. — AP

John Anderson campaign workers were trying to beat the clock in a state petition drive yesterday. Volunteers were trying to line up at least 6,982 signatures by Monday to get Anderson's running mate, former Wisconsin governor Patrick Lucey, on the ballot in Indiana. Ballots were scheduled to be printed Monday at noon about the same time Republican presidential nominee Ronald Reagan is scheduled to arrive at Kokomo Municipal Airport.

The New Miss America, Susan Powell of Oklahoma, described herself as a deeply religious person who has never used drugs, has no boyfriends, and considers premarital sex "not right" for her. The 21-year-old brunette from Elk City, Okla., meeting with reporters the morning after being crowned the 54th Miss America likened her victory to "a wild black stallion coming off the plains into the big city." Miss Powell, a senior vocal performance major at Oklahoma City University, defeated 49 pageant rivals partly on the strength of her expressive and amusing rendition of "Lucy's Aria" with a antique telephone. "I feel my greatest asset is my singing. . . My voice is a gift from God," said Miss Powell, who hopes to earn a master's degree in voice and become an opera star.

Tough and ruthless is how former president Richard M. Nixon describes President Carter's aides. Nixon also contends that Republican candidate Ronald Reagan had better "shape up his staff". But in the first part of a five part interview to be aired this week on NBC News' Today show, Nixon predicted that Reagan will win the presidential election in November. "Carter's weakness is his record, his deeds," Nixon said. "Reagan's weaknesses are his words; and when you run against words, I think the one that is weak on deeds is going to lose." Nixon also said commented, "You know those Georgia boys are a tough bunch. They may play softball down in Plains, but they play hardball in the country."

"Taxi" was the surprise winner for outstanding comedy series of the 1979-1980 television season last night at the 32nd Emmy Awards, a strangely glamourless affair because of a performer boycott prompted by the actors' strike. The ABC series about shenanigans in a New York City hack garage scored over the favorite "Mash", as well as "Barney Miller" and "WKRP." The Emmy show got off to a subdued beginning with explanations by last minute emcees Dick Clark and Steve Allen that the show would be lacking star presenters and nominees because of a 50-day-old sympathy strike against film studios and TV networks.

A six pack of beer and \$1 million dollars was the ransom offered for the return of Handsome Dan who had been held captive for 20 months. Handsome Dan, for those unfamiliar with Yale University history was the first in a long line of bulldog mascots at the university. Prior to his kidnapping, the stuffed remains of Handsome Dan were on display in a 3-by-3-foot glass and bronze case in the Yale Trophy room at Payne Whitney gymnasium. An ad demanding the ransom for the stuffed dog's return ran in the school newspaper but the demands were never met and Dan's captivity did not end until last week.

Prescription drugs are finding their way into the illegal drug market in Indiana, says State Police Superintendent John T. Shettle, so the state has created a new agency to deal with the problem. The unit, which will be based in Indianapolis, will crack down on health care professionals and others who seek to divert legal controlled substances into the illegal drug market, Shettle said. Most of the illegal traffic in legal controlled substances was done at the retail level, through forged prescriptions, theft, or illegal transfers by health professionals and their employees, according to Shettle.

Warm and humid today with a possibility of thundershowers tonight. Highs today and Tuesday in the mid-80s. Lows tonight in the mid-60s.

Discovering the 'Real World'

Margie Brassil

A great deal of talking both serious and joking goes on in college about the "Real World" on the outside. Especially when a student reaches his/her senior year, a lot of thinking goes on about what the world after graduation will be like. College students spend 9 months of the year in that protected almost sheltered utopia of ideals and lack of major decision-making. However, there are 3 summer months which, for most students, must be spent in the "Real World" in order to pay the tuition bills for the next year. Since my sophomore year of high school, I have worked in many summer jobs, but none of them gave me any insight into the "Real World" as my past summer with the Bell Telephone Co.

When I started my job as a craftsman for the Toll Dept. of the phone company, I was asked by everyone what were my future life plans. I related my dreams of finding a job where I could "do my own thing" and live on my own etc. etc., all positive and hopeful as every college student tends to be. I even laughed when Jack, a professional tollman of many years, said to me "Woman, you have no idea what you'll be getting into. You live in a very idealistic situation, but just you wait." 'Just you wait,' a prediction that came true as I became a part of the work; nearly took part in a strike; saw fellow craftsmen having to cope with incompetent, unfeeling and unthinking supervisors; and learned what its like to become a part of the lives of my co-workers, as they became a part of my life.

My college degree is not in preparation for craftsmen work. I always wondered how a person could stay at that seemingly low level and never rise higher, unless of course they were incompetent. Bubble burst ¶ 1. The three men I worked with were the best in their trade, at the highest pay scale possible as craftsmen in the phone company. To make more money and have a higher position, they would have to be promoted to supervisors. Out of curiosity I asked Nick and Rick why they did not go for a promotion — their answer momentarily surprised me, they were happy and proud of their job. Throughout the summer I learned why.

These men took pride in thier work, in being able to say they had the largest Toll Department in the state, and could run it themselves, when smaller offices needed 9 men to handle the work. As Rick said, pointing to our supervisor, "Why should I give this up to do what that jerk does?"

Everyone has heard the principle, "In any hierarchy one rises to the level of one's incompetancy." that is nowhere more true than the phone company. I saw bosses, particularly my own, whose sole function was to make sure the work ran smoothly, despite the fact that they rarely knew a thing about the job. They sat in their offices drawing up charts that meant nothing, or pretended to give advice to the craftsmen who knew more than they did. Yet, as a craftsmen you answered to them. Fact of Life #2: you do your job to please yourself, because if

you do it to please a supervisor, chances are they are to dumb to notice.

Few summer jobs require you to join a union, and even more rarely, do they involve going on strike. Several weeks into my job I learned that the contract between the International Brotherhood of Electrical Workers (my union) and the phone company, was coming up for renewal, and because of disagreements, all union

members were preparing for a strike in August. Luckily, at the last moment we were saved from having to strike, but I learned how important it was to be concerned with the welfare of your coworkers as well as your own. When you work with people every day they become a part of your life. You are happy or unhappy with your job, depending on the people you work with. In my case this past summer—and Jack warned me that it was probably a rare case—each person was respected for the job they did, even when they were not experts. The key to gaining respect was to show respect in return.

Well, in nine months the real world awaits. Jack warned me, and then I received a good taste of what it will be like. Quite a number of bubbles burst last summer, and now the only thing I expect will be the unexpected. But, I guess I'm luckier than most, because as I left, Nick, Jack and Rick said to me, "Good luck, but if you find it's not what you like, you just come back here."

The Observer is an independent newspaper published by the students of the University of Notre Dame du Lac and Saint Mary's College. It does not necessarily reflect the policies of the administration of either institution. The news is reported as accurately and as objectively as possible. Editorials represent the opinion of a majority of the Editorial Board. Commentaries, opinions, and letters are the views of their authors. Column space is available to all members of the community, and the free expression of varying opinions on campus, through letters, is encouraged.

Democrats

The ND-SMC Young Democrats were organized to pursue the goals of the Democratic party, to assist in campaigns for Democratic candidates, to bring politically oriented speakers into the Notre Dame community and to offer members of the Notre Dame community the opportunity to take part in the political process.

In the past they have campaigned for candidates running for local and state offices as well as those running for national office. Last year's activities were highlighted by a speech by Bill Bradley, former New York Knick's star and candidate for the U.S. Senate from New Jersey. Meetings are held once a month.

Judo Club

"The Notre Dame Judo Club is moving ahead this year and expanding their course offerings to better meet the needs and wants of the Notre Dame community," Head Coach Curt Hench stated. Three levels of instruction will be offered. The first level of instruction will consist of conditioning and self defense techniques alone.

The second level, the core of the Judo Club's program, will be an introduction to all aspects of

judo. The student will be introduced to judo throws and mat techniques; some of the background and philosophy of judo; and will be involved in some Judo Club activities, including: hosting several judo tournaments and operating a concession stand at one of the home football games.

The third level is for the avid judo competitor. Emphasis will be on conditioning and tournament techniques. Beginners are welcome.

Men's Volleyball

Men's Volleyball Club is a new organization which will allow for a regular schedule of play with clubs in the South Bend area. Tournaments are held on weekends within driving distance. There are team entrance fees to participate in the area tournaments.

In addition, court time will be scheduled for practice in the Rock and the Angela Facility. The organization is an effort to allow men at Notre Dame the chance to play organized volleyball, and will hopefully develop into a growing sport at ND in the near future.

AIIESEC

The International Association of Business and Economics Students (AIIESEC) is a dynamic or-

ganization which operates an international exchange of internships in 56 countries worldwide. Through this exchange of students who participate in internships at the management level in a foreign country, AIIESEC seeks to aid in the social and economic development of the world, and to promote international understanding and cooperation.

To the student, AIIESEC is a challenge to develop his or her leadership and management skills, both through participation in an internship overseas, and in the operation of the local committee here on campus.

Through AIIESEC the student can participate in the business world, develop high level contacts, travel to regional and national AIIESEC conferences, and meet top students from campuses across the country. AIIESEC wants students who are interested in their careers, who will take the initiative and challenge themselves.

CILA

The Community for the International Lay Apostolate (CILA) offers its members a combination of South Bend community service work, education in justice and Third World concerns, and a challenge for mature Christian growth.

Marketing

The Notre Dame Marketing Club is an organization designed to bring together interested faculty, students, and business persons in an informal atmosphere.

Among the club's major activities are the Paul D. Gilbert Lecture Series; several smokers each semester; one field trip per semester; and participation in the Michiana Area Marketing Day.

Dues are \$5.00 per year and entitle members — who need not be marketing majors — to all the benefits and privileges of the club.

Interested Students should sign up at Activities Night.

Right To Life

Right to Life
Notre Dame-Saint Mary's Right to Life is interested in the protection of the lives of the unborn. This student group works in four areas: education, politics, publicity, and liturgics.

The group attempts to educate the ND-SMC community about abortion by stimulating their interest in abortion and its legal status. Right to Life keeps abreast of changes in the political scene regarding abortion and makes its views known to political leaders.

By publicizing Right to Life activities here as well as across the nation, Right to Life hopes to gain support and assistance in its efforts to restore the unborn child's right to live. Right to Life sponsors special liturgical services offered for the restoration of the sanctity of life.

This year efforts will continue in opposition to the abortion clinic opened recently in South Bend. Attempts will be made through legal channels as well as picketing. ND-SMC Right to Life welcomes members concerned about those less able to help themselves — the unborn.

Republicans

The Notre Dame College Republicans are a group of students who identify with the Republican Party and seek constructive involvement in the political process. Through their activities they strive to stimulate interest and encourage participation in the numerous campaign events at all levels of government. They also invite speakers, publish a monthly newsletter and hold issue debates and training seminars in grassroots organization. They balance their year round schedule with community service projects and social gatherings.

SWE

The Society of Women Engineers (SWE) is a organization offering exposure to the opportunities and problems today's women encounter when entering this traditionally male profession.

SWE sponsors a variety of activities including brunches, wine and cheese parties, speakers, and an annual banquet, in addition to regular meetings, which enable members to meet with students and professors of all the engineering fields.

The Notre Dame chapter, which acquired its national charter only three years ago, boasts a growing membership which includes some Saint Mary's students and also some male Notre Dame students.

Logan

The Council for the Retarded (Logan) is now celebrating its twelfth year working with the mentally handicapped children and adults of the South Bend community. Volunteers help the kids enjoy and develop skills in activities such as swimming, arts and crafts, basketball, music and softball. The core of the Council lies in the Saturday recreation period, which runs from 9 to 11:30 a.m., beginning in mid-September. Many opportunities for volunteering are also available during the week.

BCAC

The Black Cultural Arts Center (BCAC) is the black student

organization on campus devoted to assisting all minority students deal with the changes which occur in the transition to college life. In addition to constant surveillance of minority status on all levels, and the question of human rights, the BCAC strives to aid the academic, communal, and personal growth of its members.

NSHP

The various commissions open to new members include the social, service, cultural arts, and academic commissions. NSHP

The Neighborhood Study Help Program (NSHP) is involved with tutoring the school children of South Bend, primarily those in the elementary grades. NSHP is the largest volunteer service organization on campus, with about 300 Notre Dame and St. Mary's students working as tutors in 17 schools and neighborhood centers throughout the South Bend area.

There are a variety of times available for anyone interested in being a tutor: from a single class period twice a week to two hours in the late afternoon or early evening once a week. All transportation is provided by the program.

Karate Club

The ND Karate Club is a student run organization with the purpose of teaching practical self-defense techniques along with martial arts training, for beginners to advanced students. The club has a sixth degree black-belt master instructor as well as several student black-belt instructors.

The major emphasis of the training program is given to those who have had little or no self-defense training. However, for the more advanced student there is an intercollegiate fighting team available.

Women's Track

The Notre Dame Women's Track/Cross Country Team is a club sport and its members compete in intercollegiate cross country in the fall and track in the spring. All undergraduate women are welcome to join. Most meets are on weekends and they are almost exclusively "away" at colleges and universities throughout Indiana, Michigan, and Ohio.

... Q & A

[continued from page 1]

Q: How many students will be moved in immediately?

A: I believe we'll be able to handle 175. We'll move the 34 from Villa Angela and then anyone on the waiting list. I will take any and every woman who wants to move in.

Q: What will the rooms be like?

A: The configuration will be singles, doubles, and quads. They'll pretty much be standard rooms. Q: When was the decision made to house women in Villa Angela?

A: During the summer, in June.

Q: Why was that decision made?

A: Because it became possible to accommodate 34 additional freshman women. This would mean that we would already

have a base in Pasquerilla Hall for the spring semester.

Q: Is there a possibility that the Villa will be used again next year?

A: It won't be necessary. We'll have 250 dormitory beds.

We're taking in 125 additional freshmen women. I really don't think that the situation next year will be the same as this year.

Q: What kind of long-range plans are in the works?

A: The renovations in Badin, Walsh, Sorin, and to a certain extent Carroll, are planned to take place over the next several summers. Beyond that I really couldn't say. New dormitories aren't being planned, but if several years down the road the need arises, we'll take care of it then.

Campus

6, 8:30 and 11 p.m., film, "the china syndrome," social concerns film series, engineering aud., \$1.

7 p.m., lecture, "natural sex: an introduction to natural family planning," carroll hall (smc).

Today in History

Today's highlight in history: On Sept. 8, 1974, President Gerald Ford granted former President Richard Nixon an unconditional pardon for any crimes he may have committed during his term in office.

On this date:

In 1565, a Spanish expedition landed at what is now St. Augustine, Fla., and founded a European settlement in North America.

In 1664, Peter Stuyvesant surrendered New Amsterdam to the British.

In 1855, the Crimean War Ended

In 1935, Sen. Huey Long was shot in Baton Rouge, La. He died two days later.

Ten years ago: The Red Cross was named to negotiate with guerrillas holding hostages on board two hijacked airliners in Jordan.

Five years ago: Federal marshals and National Guardsmen in Boston protected students riding buses in a court-ordered integration plan.

One year ago: Former President Ford assailed President Carter for implying that a Soviet combat unit recently discovered in Cuba may have been there during the Ford administration.

Today's Birthdays: Comedian Sid Caesar is 58. Sen. Sam Nunn of Georgia is 42. Songwriter Howard Dietz is 84.

Thought for today: There is nothing so powerful as the truth, and often nothing so strange. — Daniel Webster (1782 - 1852)

Stepan hosts Activities Night

The Freshman Orientation Activity will again be sponsoring Activities Night tonight in the Stepan Center. Over 100 clubs and organizations will be represented there.

Set up will begin at 6:30 and Activities Night will run from 7:00 to 10:00 PM. All students, particularly Freshman, are urged to attend since this provides a unequalled opportunity to become involved in campus activities.

ATTENTION!

Students applying to professional schools

Prof. Thomas Marullo will give a three day workshop on professional statement writing.

Sept. 9, 10, 11 from 7 to 9 pm
 Nieuwland Science Hall
 Room 127
 note date change

CREATIVITY, IDEAS & ENTHUSIASM

(for writing and production)

Bring any or all of the above to the Scholastic table at Activities Night tonight in Stepan Center!!!

Sports Briefs

Soccer team rallies to win opener 2-1

Meetings

Ski

The Notre Dame ski team will hold an organizational meeting Tuesday, September 9 at 7:30 p.m. in room 1-C, LaFortune. This is a mandatory meeting for anyone wishing to race this year. All returning competitors, as well as any new skiers interested (especially Notre Dame and Saint Mary's women) must attend. If there are any questions, see team representatives Monday at Activities Night or call Mike Case at 288-0416.

Water Polo

The Notre Dame-Saint Mary's intramural co-rec inertube water polo entry deadline is approaching rapidly. Any teams interested in participating should contact Mike Corbiero at 8987 or Matt Stolwyk at 8891 or 8906 with the entry rosters. The entry deadline is this today and the first games will be played tomorrow. Rosters should have between 10 and 15 players and must list a minimum of four women.

Hockey

Coach Lefty Smith will hold a meeting for all students interested in trying out for this year's hockey team today at 3:30 p.m. in the ACC auditorium. All candidates are requested to be sure to bring a pen.

O-C Soccer

The off-campus interhall men's soccer team will practice tomorrow afternoon south of Cartier Field at 4 p.m. For more information, contact Tim Scherer or Jim Reynolds at 233-6731.

Bengal Bouts

Any novice interested in participating in the 1980-81 Bengal Bouts program must attend at 4:30 p.m. meeting today in the boxing room of the ACC.

Track

There will be a meeting Wednesday, September 10 at 4 p.m. in the ACC auditorium for anyone interested in joining the track-cross country team.

Tanner qualifies in Martial Arts

The Notre Dame Marshal Arts Club competed in the Circle 500 Karate Championships this weekend in Indianapolis and fared quite well. Mike Tanner qualified for the national pro-ams (to be held in April of 1981) by finishing second in Kata competition. Bob Kurtske, finished fourth in the free fighting.

Prep squad wins 27-7

The Irish prep football squad rolled to a 27-7 win yesterday over the Pu-due Boilermakers at West Lafayette. It was the first game for the Irish in two seasons as last year's schedule was cancelled.

CINCINNATI Despite sloppy field conditions, courtesy of a torrential rainstorm that forced a 45-minute halftime delay, the Notre Dame soccer team rallied for two second half goals to defeat Cincinnati 2-1.

Ray Bueter opened the scoring for the Bearcats by converting a penalty kick with ten minutes left in the first half.

After the rain delay, Irish forward Sami Kahale headed in a crossing feed from Kevin Lovejoy to tie the score five minutes into the second session. Lovejoy, the senior All-America candidate, scored the game-winner fifteen minutes later as he headed home Mike Sullivan's corner kick.

"It proved the kind of team we have," said Irish head coach Rich Hunter. "We're a very good team and we don't give up."

Notre Dame avenged last year's season opening loss to the Bearcats without the services of four key injured performers. Forwards Mike Mai and Mario Manta as well as halfback Bill Murphy and fullback Jim Stein were all sidelined by various ailments.

HOMEWORKERS WANTED!

GUARANTEED 45¢ PER ENVELOPE STUFFED

Presently looking for a select number of people to take part in our mailing program.

This is a direct marketing program for American Productions of Beverly Hills, California.

As a Homeworker, your work will consist of obtaining envelopes that are already stamped and addressed to people interested in obtaining "Astral Sounds" Casette advertising material

YOUR EARNINGS GUARANTEED

You simply stuff each envelope with the sales letter for American Productions.

When the envelopes are done you ship them to us for prompt payment of 45¢ each.

We even pay the shipping costs on them. We strictly guarantee to pay

45¢ for every envelope stuffed and returned to us.	100 envelopes	\$45
	300 envelopes	\$135
	500 envelopes	\$225

We also give the opportunity of receiving a guaranteed 65¢ per envelope stuffed...details in starting kit.

There is also a bonus of 25¢ for every order American Productions receives from your mailings.

HOW TO GET STARTED

There is a \$20 refundable deposit required to get your starting kit.

This will be added to your check after completing 300 envelopes

There is also a bonus of \$25 for completing 500 envelopes.

Fill out and mail this handy registration form today.

Downs Borg

McEnroe takes U.S. Open

NEW YORK (AP)—Defending champion John McEnroe picked apart Bjorn Borg's game with slicing serves, hard returns and punching volleys and outlasted the brilliant Swede 7-6, 6-1, 6-7, 5-7, 6-4 yesterday to retain his U.S. Open tennis title.

Borg's serve, generally reliable if not overwhelming, deserted him early in the match. Six times in a row—from late in the first set through the end of the second—Borg was unable to hold his serve. That turned out to be too much of an edge to give to the 21-year-old left-hander from nearby Douglaston, N.Y.

Borg was able to fight back and win the third and fourth

sets, but in the fifth McEnroe got the break he needed in the seventh game to go up 4-3, then held his final two service games to win. It was the first time since 1976 that Borg has lost a five-set match, ending a string of 13 victories.

The four-hour, 10-minute victory was a sweet one for the feisty McEnroe, coming less than 24 hours after his emotional and exhausting 4-hour, 15-minute semifinal triumph over American archrival Jimmy Connors and avenging in part his five-set loss at the hands of Borg in their classic Wimbledon final just two months ago.

The Wimbledon match proved McEnroe could compete with Borg, acknowledged to be

the number one player in the world. Yesterday's victory proved he could beat him in the final of one of the sport's showcase events.

For Borg, on the other hand, the defeat was a bitter one. The five-time Wimbledon and French Open champion has tried to win the U.S. championship eight times, and failed eight times.

This is the third year in a row he has come to the National Tennis Center with the Wimbledon and French titles in hand, eneding the U.S. Open to maintain his hopes of joining Don Budge and Rod Laver as the only men to win tennis's Grand Slam, which concludes with the Australian Open in December.

... Defense

[continued from page 8]

"We've been working a lot on the pass rush this year. The concentration on the team has been much better than last season," he noted.

The concentration on the part of the defense was obvious from the game's initial moments, as Irish kicker Steve Cichy raced down the field to make a bone-shattering opening tackle. The momentum had swung in Notre Dame's direction, and although missing for a short period in the second quarter, was quickly regained in the third.

"The third quarter last year we knew was our worst," said Cichy, "so we were going to come out after halftime and not give up a point in the third quarter and we didn't".

One year later, the Notre Dame defense has responded to the challenge of erasing last season's 28-22 defeat by Purdue from their minds, and have demonstrated a maturity to be reckoned with by their opponents.

[continued from page 8]

field really can help the team," said senior Scott Zettek. "When it's boisterous that helps keeps us pumped-up. . . today's win was especially crowd motivated."

But, the Irish did suffer a slight let down during the second quarter, and headed into the lockerroom a half with just a seven point edge.

"We had memories of last year when we went in at half," said Zettek, a 6-5, 245-pound native of Elk Grove Village, Ill. "At half we really got bawled out. Coach Devine said we weren't playing like a Notre Dame team."

Steve Cichy, a junior strong safety from Fargo, N.D., emphasized that the Irish had no desire to stage a repeat of last year's fatal comeback by Purdue in the third period.

"The turning point was when we came out in the second half," said Cichy. "Last year the third quarter was the worst of the game. But when we came out this time we knew we had to get new life."

The Irish did, indeed, become rejuvenated in the early min-

utes of the second half as they marched to a touchdown under the direction of Courey and leg work of halfback Phil Carter. Carter led all rushers for the day with 142 yards gained on 29 carries.

"The opening drive in the third quarter I think was the key to the whole game," said

Courey. "If we had come out and had to punt it it really could have turned into a dogfight."

The game did not turn out to be near the expected "dogfight" as the Irish eventually did away with the Boilers, nudging the Notre Dame-Purdue series record to 32-18-4 in favor of the Irish.

Phil Carter filled the big shoes of Vegas Ferguson on Saturday as he collected 142 yards rushing on 29 carries. [photo by John Macor].

TD PASS!

Mike Courey's nine-yard pass to Tony Hunter for a touchdown in the third quarter helped the energized Irish to a 31-10 win over Purdue on Saturday. [photo by John Macor].

Courey directs Irish over Boilers, 31-10

by Beth Huffman
Sports Editor

Not too long into Saturday's Purdue-Notre Dame classic it became apparent as to why Mike Courey was chosen the number-one Irish quarterback. Simply, Courey directed the offense like it was the most natural thing in the world and led his team to an eventual 31-10 romp over the Boilermakers.

"We decided on Courey because he is the best guy," said Dan Devine, the Irish head coach, after the contest. Devine also assured the herd of journalists in his post-game interview that Courey would hold the starting berth for the Notre Dame-Michigan game on September 20.

"Mike (Courey) needed a big game, like this. He's really got his confidence this year," said wide-receiver Tony Hunter, who was on the receiving end of three Courey passes for a total of 75 yards and one touchdown. "I've always had confidence in Mike and knew in time he'd play with confidence."

The confident and poised Courey not only passed for one touchdown, his first in a collegiate game, but scored one himself late in the fourth quarter, his first score as well. The 6-1, 202-pound field general went 10-13 in the aerial attack for a

total of 151 yards with one interception and scampered for 63 yards on the ground in nine carries.

Not too long into the game it also became apparent that the Irish squad had arrived at Notre Dame Stadium ready to play football, and ready to win. "We're an emotional team on the field," said Mark Zavagnin, who led the Irish denial squad with 14 tackles. "Bob Crable shows a lot of emotion on every play — he's got a way about himself, he's a heck of a leader."

That emotional factor gave the Irish an added-plus, even after Purdue's loss of quarterback Mark Herrmann was finalized the home squad did not let down. And the usually excitable Notre Dame crowd was quick to join the spirit parade, headed by the Irish tri-captains — John Scully, Tom Gibbons and Crable.

"The crowd at Notre Dame's [continued on page 7]

In Campbell

Boilers find heir to Herrmann

by Michael Ortman
Associate Sports Editor

Had Saturday's Notre Dame-Purdue clash been a somewhat closer contest, the critics could always ask, "What would have happened if Mark Herrmann had been able to play?"

Yet from a statistical and even a practical standpoint, there will be no cloud of doubt hanging over Notre Dame's 31-10 thrashing of the Boilermakers. The Heisman-hopeful was replaced by a very able-bodied freshman, Scott Campbell, who has seemingly emerged as the next in line for the fabled Purdue quarterback slot.

Besides, Mark Herrmann is a quarterback. He does not play defense. He also does not play on the offensive line, the unit which was so overwhelmed Saturday as the Irish defensive front reached the young Campbell eight times.

Herrmann's absence was, of course, injury related. Last Tuesday, while practicing in West Lafayette, Herrmann's right hand met with the helmet of an on-rushing teammate on his follow-through. The result: a badly sprained thumb.

"We weren't sure that Mark wouldn't be able to play until warmups today," said Boiler head coach Jim Young after the game. "On Thursday, we told our team that he might not; on Friday we told them to assume he wouldn't. But it still was a little bit of a shock when he couldn't play."

Reports on Friday were that if the game were played that day, Herrmann would be watching.

Herrmann came out of the locker room before the game, fully dressed and ready to test his tender thumb for the first time in four days.

"The coaches left it up to me," he said later, "but the way I was throwing before the game made the decision easier. Taking snaps from center was very painful and my passes just had no zip. There was never any chance of me coming off the bench in an emergency."

Early arrivers at the stadium saw a dejected number nine sitting on the Purdue bench, head-in hands.

Young later made the profound comment, "I never realized before how important a thumb is to a quarterback."

With his big chance for television exposure in his quest for the Heisman Trophy down the drain, the Carmel, Ind., native sat in front of his locker afterwards with his head hung low. He was one of the last Boilermakers to peel off the pads. Just 10 feet away stood the diminutive freshman facing an army of reporters.

Listed in Purdue's press guide at 6-0, 188 pounds, Campbell looked more in the 5-9, 160 range. He looked up to almost every writer in the room.

"Of course I was nervous," he squirmed, "but I wasn't scared at all. I wasn't any more nervous than I was for any game in high school."

But then who is to draw a clear line between nervous and scared. Campbell must have been moved by the idea of starting in Purdue's opener in Notre Dame Stadium. He certainly performed like a seasoned veteran, however, completing 17 of 24 passing attempts for 178 yards against an inspired Irish defense without a single interception, fumble or penalty called on his team.

Young admitted that Herrmann's absence did alter his thinking somewhat. "Mark was going to call most of the plays," he said. "But Notre Dame dominated too many areas of the game for one player to make the difference."

"He (Herrmann) was disappointed he couldn't play," explained Campbell, "but he was 100 percent behind me. He just encouraged me, and told me that I was doing a good job and to keep it up."

Dating all the way back to the mid-50's, Purdue consistently has had quarterbacks ranked among the nation's best — Len Dawson, Bob Griese, Mike Phipps, Gary Danielson and

now, Mark Herrmann. Based on his lone performance as a Boilermaker, Scott Campbell won't take over for Herrmann tomorrow, but he just may add his name to that list in the not-too-distant future.

Irish defense comes of age

by Kelly Sullivan
Women's Sports Editor

The one thing needed most to improve Notre Dame's youth-filled defense was age. One year appears to have given the Irish unit enough time to mature into one of the most tenacious squads in college football.

Saturday's clash with Purdue found all eyes focusing on the game's key match-up, which pitted an ambitious Notre Dame defense against Mark Herrmann and his Boiler offense. Purdue suffered some last minute cast changes, but the game nevertheless proved to be a strength vs. strength contest whose outcome was determined in the trenches.

"Notre Dame just dominated the line of scrimmage on both offense and defense, and that's usually the key in any ballgame," said Purdue coach Jim Young. "I had hoped to establish the run early in the game but they wouldn't let us."

The Irish had good reason to be stingy, remembering the third quarter generosity in last year's battle that allowed the Purdue ground game to do as much damage as their aerial attack, as the Boilers rushed for 185 yards and passed for 159 in 1979. An aroused Notre Dame defense staged quite a turnaround on Saturday, however, holding Purdue's offense to 37 net yards rushing.

"We didn't want a repeat of last year," offered linebacker Mark Zavagnin, who led his teammates with 14 tackles. "We just decided to put our minds to it from the very beginning. For

me, the key to the game came on the second play," he noted, referring to his crunching tackle on Purdue running back Wally Jones in the backfield for a three yard loss. Junior tri-captain Bob Crable enhanced the attack with 10 tackles, and four others from the linebacking corp dropped a Boiler for negative turf, including an eight yard loss directed by freshman sensation Tim Marshall.

"Our freshman are a great bunch of guys," added Zavagnin. "There's no doubt they're every bit as good as they've been described."

Veteran seniors Scott Zettek and John Hankerd, the bookends of the defensive line, did a superb job with the pass rush,

badgering young Scott Campbell all afternoon. Zettek had three sacks for a total loss of 21 yards, while Hankerd broke up three passing strikes.

"A lot of the game is experience," Hankerd explained, "and the defensive line is one year older now." Hankerd was the mainstay of a constantly rearranged defense last season that continued to fall prey to injury. The same players were so seldom available from week to week, that it was difficult for the unit maintain any sort of consistency on the line, but Hankerd expressed confidence in the way the squad has jelled this fall.

[continued on page 7]

Mike Courey

by The Observer

Scott Zettek

Offensive Player of the Game MIKE COUREY completed 10 of 13 passing attempts for 151 yards and one touchdown while leading the Irish to a 31-10 win over Purdue. **Defensive Player of the Game** SCOTT ZETTEK collected six of 13 passing attempts for 151 tackles, sacking Purdue players yards and one touchdown while leading the Irish to a 31-10 win over Purdue. **Honorable Mention:** and scoring a second TD. Mark Zavagnin with a game Honorable mention: Phil Carter leading 14 tackles.
