# Operating Instructions for Centrex

**ON CAMPUS** - Dial the desired four-digit number as indicated in this directory.

**FROM OFF CAMPUS** - Dial 284 plus the desired extension as listed in this directory.

**LOCAL** - Dial "9" for outside line, then dial number as listed in the South Bend-Mishawaka directory.

**LONG DISTANCE** - On all long-distance calls, when the operator asks for your number, give her 284 and the number assigned to you. Do not give 284-6011.

**Station-to-Station** - Dial "9" for outside line, then dial "1" for direct distance dialing equipment then dial the area code and identification number of the distant party.

**Person-to-person** - Dial "9" for outside line, then dial "0" for Indiana Bell operator, give her the area code, telephone number and the person you wish to contact.

**INFORMATION** - For University numbers not listed in your Notre Dame directory dial "0" for your information operator. For numbers not listed in the South Bend directory, dial "9" then "113" for an Indiana Bell operator.

**REPAIR SERVICE** - If your phone is not working properly, go to another nearby telephone, dial "0" for your Notre Dame switchboard operator and report it to her.

**CONFERENCE CALLS** can be placed from any station on campus by dialing "5" for the conference operator. It is possible to have 5 conferees on one conference call.

**TRANSFERRING INCOMING** calls to another station on the campus can be accomplished by depressing the plunger completely down. Hold in this position for about 2 seconds - release and you will receive a ring. Wait for the op-

erator to answer and give her the station number or party where the call should be transferred. The above procedure must be done on the line that the incoming call originates. Do not go to another line and dial "0" for the operator. Transfer and incoming calls are answered in the sequence that they are received. Do not hang up if the operator does not answer immediately.

**DIRECTORY CHANGES** should be reported as they occur to the Personnel Department. Changes include additions, deletions, number changes, etc.

**TO REPORT AN EMERGENCY** - Dial "0" operator and give location of accident, name of injured person, if known, and extension of calling party. Calling party should stay on the line until the operator has made arrangements for the ambulance.

Individuals in need of ambulance service for reason of illness should contact a private ambulance. Suggested ambulances are:

Hickey	234-4155
Walsh-Bilancio	232-5853

**TO CALL YOU** - Those off campus will need the entire seven-figure number of your phone. Please send it to them. Cards are provided without charge. If you need more, they can be obtained from the Personnel Office.

**TO SPEED YOUR CALLS** - Long-distance calls will go through twice as fast if you give the Indiana Bell operator the area code for the city and the number of the phone you are calling. Personal long-distance calls are to be made from campus phones only in an emergency and such calls must be charged to your home telephone.

# Academic Honor Code

## for the University of Notre Dame

### Recognition of Responsibility

The Honor Code adopted by the University of Notre Dame sets high standards of conduct for the members of the student body. It is a formal recognition of the ability of students to take responsibility and as such is based on two simple principles: 1) That as a member of the academic community, a student will be responsible for his own work, and 2) He will expect the same academic honesty of his fellow students. A further purpose is to create a greater awareness in each student of this responsibility both to himself and to his fellow students. The fact that a young man is a student at the University of Notre Dame is enough to expect that he is honest and will abide by the Honor Code and no written pledge as such is demanded at any time.

### Execution of Responsibility

The student body, with the approval of the Academic Council of the University, has accepted this responsibility of maintaining integrity in the classroom. As an official recognition of this acceptance, the Student Honor Council of twenty-five members selected by the student representatives has been formed to maintain the provisions of the Honor Code. The Council handles all reported violations of the Honor Code and conducts trials whenever necessary. It is also their responsibility to investigate and propose to the Student Senate any changes to be made in the provisions of the Honor Code and to coordinate and consult with the faculty and administration concerning its operation.

### Academic

The Honor Code has been written to cover all academic work submitted by students for credit. Distinct moral standards are often difficult to determine especially among a large group of young men with varied interests. Standards of conduct in the classroom, on the other hand, are universally accepted; one either does his own work or he does not. This fact is basic. Each student is attending the University to learn and to meet the requirements for a degree. If a student is not honest in his classwork, which undeniably determines a great deal of his future, it makes little difference that he should be honest elsewhere. The spirit of integrity should not be limited only to the classroom, however, but should pervade all that a student does both during and after his days at Notre Dame.

### Faculty

All important to the success of the Honor Code is the cooperation between faculty and students. As a guiding member of the academic community, each instructor plays a major role by placing his trust in his students and by encouraging similar trust among the students themselves. Such a mutual trust leads to closer understanding between instructor and student and creates a classroom atmosphere more conducive to fellowship and learning. An atmosphere pervaded by such trust cannot help but contribute to the greatness of Notre Dame as an academic institution.

### Christian Spirit

The Honor Code is not proposed as a cure-all for every academic problem. Nor is it simply the replacing of one "proctor" system with another. It is not a spy system where students are encouraged to tell on one another. Rather, the Honor Code depends on the good will and Christian spirit of each student to care enough for a friend or a fellow student, even though a stranger, to warn him to quit cheating for his own sake and that of the community. By encouraging good will and pride among the Student Body, the Honor Code reflects the responsibility to be assumed by each student, a responsibility which is vital to its success.

### Characteristic of Notre Dame

The Honor Code draws special strength from the fact that Notre Dame is unique as a university. Every year students from all parts of the country who share in approximately the same social, if not religious, backgrounds come to Notre Dame. These are the young men who determine the characteristics of the Honor Code which are the same as those of the University itself; the spirit of fellowship, fierce personal pride, and the general Christian atmosphere. These characteristics in turn reflect the high standards in every University activity.

### Challenge

To maintain honesty of the highest standards under the pressures of modern society is admittedly difficult but as long as those students who participate in the Code are prepared to face the difficulties and commit themselves to the idea of honesty, complete success of the Honor Code is assured.

### Article I

#### PLEDGE:

The undergraduate student body of the University of Notre Dame, united in a spirit of mutual trust and fellowship, mindful of

the values of a true education and the challenge posed by the modern world to the integrity of Christian gentlemen, do hereby pledge ourselves to accept the responsibilities for honorable conduct in all academic activities, to assist one another in maintaining and promoting personal integrity, and to abide by the principles and procedures set forth in this Honor Code.

### Article II

#### PRINCIPLES:

- B. Each student shall be responsible not only for maintaining his own honor, but also for demanding honor among his fellow students. He shall consider himself a part of the community of honor, and, if that honor is violated, it is his responsibility to restore that community through the means of the Honor Code.
- C. In the spirit of mutual cooperation, understanding, and respect among students, faculty, and administration, students shall have authority to govern themselves under this Honor Code.

### Article III

#### JURISDICTION:

    - Be responsible for publicity to the Student Body.

### Article V

#### PROCEDURES:

#### A. The Instructor

In cooperation with the spirit of the Honor Code, the instructor shall assume the honesty of his students and shall not act as a proctor during an examination.

1. After an initial ten-minute period, it is requested that the instructor be absent from the examination room.
2. The instructor is requested to make himself available in a manner convenient to himself and to his students, in order to answer any questions that may arise during the remainder of the examination.

**B. Warning**

A warning shall be given when an honor violation is observed. It is strongly urged that, during an examination, a general warning be given to the class that a violation has taken place; however, if warranted, a private warning may be given to the violator. It shall not be incumbent upon the observer to report the violation if the violator has heeded the warning.

**C. Safeguards**

In case that a warning is not heeded, the observer shall report the violator to the Honor Council.

1. He may consult the violator after the violation has occurred and request him to acknowledge his guilt to the Honor Council.
2. He may report the violation directly to the Honor Council in a written statement.
3. A violator is encouraged to acknowledge his guilt to the Honor Council by his own volition, whether he has been warned or not.
4. In the case that the instructor detects an honor violation, he shall report the violator in a written statement to the Honor Council.

**D. Investigation**

Upon receipt of a written accusation, the chairman of the Honor Council shall appoint one member to investigate the case.

1. The investigator shall confront the accused. He shall inform him that he has been accused of an honor violation and ask him to plead guilty or not guilty.
2. If the accused would plead not guilty, the investigator shall decide whether there is sufficient evidence to warrant a trial.
3. The signatures of more than one witness shall be considered as sufficient evidence to warrant a trial.
4. A signed statement by the instructor of the course in which a violation is alleged to have occurred shall be considered as sufficient evidence to warrant a trial.
5. The investigator in a particular case shall not sit on the court assigned to judge that case.
6. The accused shall not be denied the right to know his accuser's identity.

**E. Trial**

1. The Court shall be composed of six members of the Honor Council and the Honor Council chairman. The chairman shall preside over the trial without a vote. There shall be at least one member on the Court who represents the college of the accused and at least one member who represents his class, if he is an upperclassman.
2. The accused shall have the right to object to the presence of any member on the court which is to try him, if there is suffi-

cient reason. The chairman shall determine whether there is sufficient reason for dismissal.

3. The accused shall have the right to choose a defense counsel from the undergraduate student body.
4. The proceedings of the trial shall be kept strictly confidential.
5. Five out of the six members of the Court must agree to convict the accused of an honor violation.
6. If a trial should end in a conviction, the Court shall notify the Office of the Dean of Students, so that the appropriate action may be taken.

**F. Penalties**

1. A student who reports himself to the Honor Council shall be referred to his instructor, who shall determine a penalty.
2. A student who pleads guilty when confronted by an investigator from the Honor Council shall fail the course in which the violation has occurred.
3. A student who pleads not guilty and is subsequently found guilty in a trial shall be suspended from the University for a semester.
4. A student who is tried and found guilty for a second time shall be expelled from the University.

**G. Appeal**

1. The Appeal Board shall consist of five students, each having one vote:
  - a) The Student Body President.
  - b) The Senator from the appropriate college.
  - c) The President of the appropriate class if the student making the appeal is an upperclassman. If he is a freshman, then this position should be filled by a representative of the Freshman Class Council.
  - d) Two members of the Honor Council who have not previously participated in the case.

**Article VI****AMENDMENT:****A. Amendments may be proposed by:**
