FOR:

Sales and Sales Management Training Program

This Program is designed to develop young college graduates for careers in life insurance sales and sales management. It provides an initial training period of 3 months (including 2 weeks at a Home Office School) before moving into full sales work.

Those trainees who are interested in and who are found qualified for management responsibility are assured of ample opportunity to move on to such work in either our field offices or in the Home Office after an initial period in sales.

Aggressive expansion plans provide unusual opportunities for those accepted.

Arrange with the placement office for an interview with:

ART GALLERY UNIVERSITY OF NOTRE DAME

69-70 CALENDAR

August 31 to November 2, 1969

All The Sculpture From The Permanent Collection: For the first time the Art Gallery will exhibit its entire collection of sculpture. With over 500 pieces in the Permanent Collection, nearly every sculptural tradition will be represented in this exhibition of plastic form. (East Gallery)

September 14 to October 26, 1969

Thomas S. Fern: An exhibition of recent works by the Chairman of the Department of Art, Dr. Thomas S Fern. It will be a group of experimental works done with acrylic and styrofoam that explore the order of symmetry and three dimensional form. A group of drawings by Fern will also be shown. (East Gallery)

October 5 to November 30, 1969

The Joseph H. Hazen Collection: The Advisory Council arranged for the loan of this widely known collection which is presently housed in the Fogg Art Museum at Harvard University. Dating from the early 20th century to 1969, the collection features works by Metzinger, De Kooning, Hartung, Soulages, Motherwell, Hofmann, and Jackson Pollack. (West Gallery)

October 12 to November 8, 1969

The Lithographs of Sam Francis: Spontaneous patterns and bright colors characterize this selection of lithographs by the contemporary Californian, Sam Francis. The artist has exhibited widely, his works appearing in major exhibitions in England, France, Belgium, Switzerland, Japan, South America and the United States. The Pasadena Art Museum has made this exhibition possible. (East Gallery)

November 2, 1969 to February 8, 1970

The Sense of Form in Art: Many artists through the centuries have wished to create in paintings the illusion of a third dimension, the suggestion of space, depth and volume on the flat surface. Such writers as Bernard Berenson referred to this illusion simply as "form." This exhibition will bring out the development of this illusion as it was achieved by Flemish, Italian and French painters. Examples of so called "flat paintings" will be shown to point up the contrast. (East Gallery)

November 23, 1969 to February 8, 1970

Conservation at Notre Dame: An active program for the proper care of the paintings and sculpture in our Permanent Collection has been maintained during the past 12 years. To bring out the meaning of this program and some of the results, this exhibition is being put together with the help and advice of our Conservator, Mr. Alfred Jakstas, and his associates. (East Gallery)

December 7, 1969 to February 15, 1970

The German Expressionists and Their Contemporaries: Selected from many private and public collections, these paintings, graphics and sculpture will offer a broad view of the art of the early 20th century in Germany. A variety of styles will be noted from Beckmann to Schmidt-Rottluff, from Klee to Kandinsky. (West Gallery)

February 22 to April 12, 1970

The Age of Vasari: Over 60 museums and collectors from the United States and Europe will contribute to this exhibition of sixteenth century Italian Art. Works by Giorgio Vasari, artist-biographer, and his contemporaries will enable the viewer to investigate the unique stylistic characteristics of the Mannerist phenomenon. The exhibition has been organized with the State University of New York at Binghamton and will occupy all five galleries. (West Gallery)

April 14 to May 11, 1970

Folk Art In America: Folk art in America starts with the earliest colonies People wanted to add something to their lives beyond bare necessities Folk art would be the work of a limner, or someone with very little academic training. The limner might be a traveling artist or a village artist. The distinction between art and craft meant little to the folk artist. (East Gallery)

April 19 to May 7, 1970

Contemporary Arts Festival: Student interest in the Contemporary world will be demonstrated in this exhibition arranged and sponsored by the Contemporary Arts Festival. Creativity dominates in this collaborative effort of student and artist. (East Gallery)

April 25 to July 1, 1970

Stanley S. Sessler in Retrospect: The creative work of Stanley Sessler at Notre Dame will be featured in this exhibition of paintings, pastels and drawings. Chairman of the Art Department from 1937 to 1960, Mr. Sessler has taught several thousand students. This exhibition will commemorate 40 years of devoted service to the University and inspiration to his students. (West Gallery)

May 10 to June 7, 1970

Student Exhibition: This year's best examples of work by undergraduate and graduate students in the Department of Art at the University. The show reveals a good cross section of the experiment and style factors in contemporary art as they influence the students in the studios. (East Gallery)
