Take your bar exam next summer

It's the Marine Corps' test for the man who wants responsibility and leadership from the start, not at some obscure point in his future. And there isn't a tougher test you could take—for the Marines don't choose their new officers lightly. Two six week sessions at Quantico—or one ten week session—will tell them *and you* if you've got all it takes to lead some of the world's best fighting men. If you do, you'll pin on your lieutenant's bars after college graduation, and carry new weight on your shoulders from that moment on.

Can you shoulder it?

Command a platoon of 46 Marines? Or pilot a four million dollar, 1400 mile-per-hour Phantom? At the age of 22 or 23, that's a lot of weight on any pair of shoulders. Face it—it's more responsibility than most men will know in their whole lives.

If you want to go for it, you can begin leadership training at Quantico, Virginia, next summer. And if the Corps thinks you can handle the job, you'll be a lieutenant of Marines the day you graduate from college.

Talk it over with the Marine officer who visits your campus.
