## jerusalem committee to meet

The North American members of the Jerusalem Committee, an international advisory group created in 1969 to consult on the revitalization of a unified Holy City, will meet Jan. 28-29 in the University's Center for Continuing Education. Under discussion will be the political future of Jerusalem. Father Hesburgh, a member of the Committee, and Jerusalem Mayor Teddy Kollek are hosts for the meeting.

## three masterpieces loaned to snite

Paintings by Renoir, Picasso and van Gogh have been loaned to the University of Notre Dame's new Snite Museum of Art from the collection of Norton Simon.

Simon, who received an honorary degree of fine arts from the University during dedicatory events in November, was founder and principal owner of Norton Simon, Inc., a multibillion dollar corporation. In 1969 he started to devote more time to his cultural and personal business interests -- the Los Angeles Museum of Art and the Norton Simon Museum in Pasadena.

Dean A. Porter, director of the Snite Museum, commented, "I never expected works of this quality and importance. The paintings will be the highlights of our 19th and 20th century galleries."

## campus ministry director named

Rev. David E. Schlaver, C.S.C., has been named director of campus ministry at the University of Notre Dame, effective at the beginning of the next academic year, announced Prof. Timothy O'Meara, provost.

"Father Schlaver's training and experience in pastoral theology, his service as rector, his background in campus ministry and student affairs, his doctoral work in educational administration all recommended him for the position," O'Meara said.

The appointment was made by the provost after consultation with the search committee for the position and with Rev. John Van Wolvlear, C.S.C., vice president for student affairs, and with the approval of the University's president, Rev. Theodore M. Hesburgh, C.S.C.

The director is in charge of ministry to undergraduate and postbaccalaureate students on- and off-campus and reports to the vice president for student affairs and the provost.

## university receives bequest

A \$4 million bequest from the estate of a Chicago woman, Dagmar Concannon, will endow the University of Notre Dame's programs in international law, according to Rev. Theodore M. Hesburgh, C.S.C., president.

The Concannon Program of International Law, named after the donor's late husband, Matthias, will include Notre Dame's current legal education endeavors in England and Japan as well as research and scholarship on the Notre Dame campus. A search for a distinguished scholar to hold the newly established Concannon visiting professorship in international law has already begun.

"The gift also enabled the long-term lease of property in London's Mayfair district to house the London program", Father Hesburgh said.

"Notre Dame's full-year London Law program dates from 1968 and is the only opportunity available to American students to study law abroad on an academic year basis", he said.

Each year between 35 and 40 students spend their second year at the London center under the instruction of U.S. and British faculty.

Dagmar Concannon died Dec. 23, 1979. Her husband, a lawyer, was the founder of Concannon, Dillon, Snook & Morton.

## liturgical music directorship established

A new position of director of liturgical music at Sacred Heart Church has been established at the University. The director will function under the rector of Sacred Heart Church but hold a concurrent appointment in the Department of Music with part-time teaching responsibilities.

The principal activities of the director will include training and leading performances of the Chapel Choir during the fall and spring semesters, of the University's Summer Choir during summer session, and of to-be-formed year-around Sacred Heart Church choirs. The person will supervise the various liturgical groups that serve the church as well as offer assistance to the campus hall liturgy programs. The position also holds responsibility for providing organ music for weekday masses, weddings and funerals at the church.

The Department of Music will hire a full-time University organist who will play for major liturgical functions and other events and whose students may serve as assistant organists by arrangements with the director of liturgical music.

The director is expected to promote and expand the Department of Music's participation in the University's liturgical life through cooperation with its faculty, principally with the University organist and with directors of other choral groups.

The Provost's Office will provide funds for the hiring of a composer-in-residence as a visiting professor in the Department of Music with an expertise in liturgical music.

## honors

Linda S. Beard, assistant professor of English, was elected for a five-year term (1981-85) to the Executive Committee of the Division on African Literatures of the Modern Language Association.

James P. Dougherty, associate professor of English, received the "Book of the Year" award from the Conference on Christianity and Literature for his book, The Fivesquare City: The City in the Religious Imagination. The Notre Dame Press, as the book's publisher, also received a citation.

Astriik L. Gabriel, director emeritus of the Medieval Institute, was re-elected President of the International Commission for the History of Universities during the Fifteenth International Congress of Historical Sciences held in Bucharest, Rumania, Aug. 12. Gabriel was charged with the organization of the next meeting of the Commission in preparation for the 1985 Congress which will be held in the Federal Republic of Germany.

Nathan O. Hatch, assistant professor of history, was elected for a three-year term to the Council of the American Society of Church History.

A. Murty Kanury, associate professor of aerospace and mechanical engineering, has been appointed as chairman of the K-19 Committee on Environmental Heat Transfer Division of the American Society of Mechanical Engineers.

Donald P. Kommers, director of the Center for Civil Rights and professor of law, has been appointed a special adviser to Elie Wiesel, head of the United States Holocaust Memorial Council. The council is concerned with establishment of an appropriate memorial museum, an educational and research foundation, and a Citizens Committee on Conscience to commemorate the Holocaust. These goals arise from recommendations of an earlier President's Commission on the Holocaust on which Rev. Theodore M. Hesburgh, C.S.C., served and to which Kommers was a consultant.

Thomas V. Merluzzi, assistant professor of psychology, has been appointed consulting editor of the Journal of Counseling Psychology, a publication of the American Psychological Association.

Donald E. Sporleder, professor of architecture, has been reappointed to the State of Indiana Board of Registration for Architects to serve through December 1983.

## activities

Gene M. Bernstein, assistant professor of English, participated in a session on Wordsworth's "Immortality Ode" convened by the Wordsworth-Coleridge Association, meeting in conjunction with the Modern Language Association Convention in Houston, Tex. on Dec. 29. His paper, "Erasmus Darwin and Wordsworth's Immortality Ode" was among a dozen being discussed at the session.

Raymond M. Brach, associate professor of aerospace and mechanical engineering, presented a paper entitled "Noise Control of Corrugated Metal Skid Boxes," at INTER-NOISE 80, Miami, Fla., Dec. 7-10.

Elizabeth Christman, associate professor emeritus of American studies, was on the faculty of the Sixth Annual Metro St. Louis Writers Conference, at the Busch Memorial Center of St. Louis University, St. Louis, Mo., Nov. 7-8.

Nancy L. D'Antuono, assistant professor of Spanish, delivered a paper entitled "Theatrical Cross Influences: *La Commedia dell'arte* and Spain's Golden Age Theatre," at the annual meeting of the American Association of University Professors of Italian which was held at the University of Illinois, Urbana, Nov. 20-22.

Garabet J. Gabriel, associate professor of electrical engineering, was an invited participant in the Structural Design Workshop, for a discussion of standards and codes for super-conducting magnets, held at the National Magnet Laboratory of the Massachusetts Institute of Technology, Cambridge, Mass., on Oct. 27-28.

Philip Gleason, professor of history, served as chairman of a panel devoted to "The United States and the Vatican between the Councils," at the annual convention of the American Catholic Historical Association, Dec. 29, in Washington D.C.

N.C. Huang, associate professor of aerospace and mechanical engineering, presented a paper entitled "Elastic Stability in Ice Lifting Process from the Road Surface by a Tool with Sharp Edge," at the 17th Annual Meeting of the Society of Engineering Science, Atlanta, Ga., Dec. 14-17.

Lawrence H. N. Lee, professor of aerospace and mechanical engineering, presented a paper entitled "Growth of Flexural Waves in Rods Within an Axial Plastic Compressive Wave," at the 17th Annual Meeting of the Society of Engineering Science, Atlanta, Ga., Dec. 14-17.

Thomas G. Marullo, assistant professor of modern and classical languages, delivered a lecture, "Consumerism in Russia" to the Industrial Council of the South Bend-Mishawaka Area Chamber of Commerce on Dec. 11. He presented a paper, "Yearning for the Afterlife: Ivan Bunin's *The Elagin Affair*", at the annual conference of the American Association of Teachers of Slavic and East European Languages in Houston on Dec. 28. He was also elected secretary to the panel on Russian Emigré Literature for next year.

Jerome L. McElroy, visiting associate professor of economics, coordinated a workshop with Island Resources Foundation on island modelling and resource management, a project sponsored by the UNESCO Man and the Biosphere (MAB) Program, in St. Thomas, U.S. Virgin Islands on Nov. 8-9.

Pedatsur Neta, associate faculty fellow in the radiation laboratory, presented a seminar entitled "Redox Properties of Free Radicals" at the Catholic University of Puerto Rico, Ponce, Puerto Rico, on Dec. 22.

Ruth Neta, a postdoctoral research associate in microbiology, presented an invited seminar on "Interferon and Cell Mediated Immunity" at Ponce School of Medicine, Ponce, Puerto Rico, Dec. 18.

Stephen J. Rogers, professor in the general program of liberal studies, gave an address on "Happiness and Some Purposes of Education" at the National Honor Society induction at St. Joseph High School, South Bend, Ind., on Dec. 3.

Randal C. Ruchti, associate professor of physics, and Ronald L. Erichsen, staff professional specialist in physics, presented an invited talk on "Manufacture & Use of Targets & Detectors for High Energy Physics", to the St. Joseph Valley Association of Manufacturing Engineers, South Bend, Ind., on Dec. 16.

Gregory A. Schirmer, associate professor of English, delivered a paper entitled "Seamus Heaney, Parochial Poet" at the Modern Language Association Annual Convention in Houston, Tex., Dec. 29. The paper was part of a session entitled "Problems in Anglo-Irish Writing", arranged by the MLA Discussion Group on Anglo-Irish Literature.

Maurice E. Schwartz, associate professor of chemistry, gave a lecture entitled "Theoretical Studies of Small Metal Clusters and Related Systems" at University College of Dublin, Dublin, Ireland, on Oct. 10. Schwartz presented a lecture on "Contemporary Quantum Chemistry" at St. Patrick's College, Maynooth, County Kildare, Ireland, on Nov. 18.

J. Eric Smithburn, associate professor of law, taught on faculty of the National Institute for Trial Advocacy, Advocacy Skills Seminar, at the Notre Dame Law School, Dec. 10-13.

J. K. Thomas, professor of chemistry, presented an invited talk, "Effect of Surface Type on Photo-Separation of Ions," at the Solar Energy Research Institute, Golden, Colo., Dec. 6. He also gave an invited seminar, "The Diode Effect in Photo-chemistry," at the University of Western Ontario, London, Canada, on Jan. 7.

M. Katherine Tillman, assistant provost and associate professor in the general program of liberal studies, chaired two sessions on "The Impact of Professional Education on the Liberal Arts" at the meeting of the American Council on Education National Identification Program for the Advancement of Women in Higher Education Administration, Indianapolis, Dec. 12.

## faculty senate journal november 10, 1980

At 7:34 p.m. the chairman, Prof. Robert Vacca, called the meeting to order in Room 202 of the Center for Continuing Education. James Deffenbaugh offered the prayer. The journals for October 13 and October 15, 1980 were approved.

Vacca reported that the self-imposed senate deadline for preparing a faculty attitude survey had arrived. The Faculty Affairs Committee had prepared a questionnaire on fringe benefits, which seemed to satisfy recognized needs for a survey.

Vacca also reported on the meeting with the Academic and Faculty Affairs Committee of the Board of Trustees on the day following the previous senate meeting. The promotion and tenure appeals procedure presented by the Academic Council was favorably received. No details on the review of the procedure were set, but some report on its workings may be expected by the next fall meeting of the Board. The administration proposal on emeriti benefits differs from the senate proposal, but in discussion some favorable clarifications emerged on periodic review and notification of retirees and widows.

Insufficient funding of library acquisitions was discussed, but the probability remains that the budget will do no more than cover increased costs due to inflation. Early retirement was little discussed as the Budget Priorities Committee was just starting its study.

In discussion of the Academic and Faculty Affairs Committee meeting, Prof. Paul Conway emphasized the point that the cost of Medicare Supplement insurance would still be paid by the retirees, although the minimum income base had been adjusted upward to include this cost. The senate had earlier recommended that the University absorb this cost for all retirees.

Vacca further reported that before sending to the administration the senate request for extending the Faculty Childrens Tuition Grant, supporting quantitative data would be obtained by polling the affected faculty.

Vacca also reported receipt of a letter from Prof. Serge Lang of Yale, recommending protest of the Office of Management and Budget Circular A-21. Circular A-21 requires universities with federal research contracts to account for all time spent by the faculty, teaching as well as research, as part of the overhead charge justification. The circular has other requirements, but it was felt that time accounting might be an excessive and ineffective intrusion. An ad hoc committee was formed to examine this question, chaired by Prof. Alexander Hahn, and including Profs. Mario Borelli, Philip Devenish and Abraham Goetz. The committee will report its recommendations to the senate.

The meeting was recessed at 8:15 p.m. to allow the standing committees to hold meetings. The meeting was reconvened at 8:45 p.m.

Vacca noted that the December meeting was scheduled for the same night as a basketball game and may be rescheduled.

Prof. William Burke reported that the Committee on Student Affairs had met with John Goldrick, Director of Admissions. The meeting had been quite informative as to statistics, policies and plans for increasing contact with prospective applicants. Burke also reported on the progress of the Teacher/Course Evaluation Committee, which has formed two groups to separately consider new questions for the form and general policy and application of the evaluations.

Prof. Joseph Tihen reported that the Committee on Administration had met with several minority and women members of the faculty to identify issues which the senate should pursue. Of the ideas developed, the most appropriate for senate consideration was the need for a full-time University affirmative action officer. The officer would work with the departments to locate qualified minority candidates for faculty openings. This is not a new proposal, so negative arguments raised in the past must be examined. Also mentioned was the special implication for good minority and female faculty of the late notice of appointment and tenure decisions.

Prof. Vaughn McKim reported that the Committee on Faculty Affairs had three matters under study: the library, the Tuition Grant Questionnaire, and the faculty compensation survey. The questionnaire was being examined by the Social Sciences Training Lab for compatibility with computer analysis. The document will be sent to members of the senate for examination and comment prior to mailing to members of the Teaching and Research Faculty.

Vacca then opened discussion of new business with the question of three discrepancies noted between the Academic Code and Academic Guide sections of the Faculty Handbook. There being: 1) Is a (written) statement of grading policy--independent of attendance policy--required? 2) Are "pink slips" mandatory? 3) Who can change grades? An active discussion followed on the desirability of discussing one or more particular cases, questioning why the Academic Guide should exist, some details of a specific case and what principles should apply.

Prof. Philip Devenish moved that the senate recommend to the Academic Council that the word "ordinarily" be struck from section 17.2 of the Academic Code. The motion was seconded by Prof. Vincent DeSantis. Concern was expressed that this would box in the University in conceivably extenuating circumstances or preclude appeals by students.

Due to the late hour Phillip Helman moved to table the motion until the next meeting. Prof. Dino Cervigni seconded the motion. The motion was approved and the meeting was adjourned at 9:50 p.m.

Those absent but not excused: Harald Esch, biology; Robert G. Hayes, chemistry; James E. Houghton, aerospace and mechanical engineering; Steven Hurtt, architecture; Norman Crowe, architecture; Jay Labinger, chemistry; Eugene Marshalek, physics; Barbara McGowan, American studies; Thomas Merluzzi, psychology; Rufus Rauch, emeritus; James P. Sterba, philosophy; F. Ellen Weaver, theology; J. Robert Wegs, history.

Respectfully submitted,

W. Phillip Helman  
Secretary

# minutes of the 195th graduate council meeting october 14, 1980

Approved at the 196th Meeting of the Graduate Council on Dec. 9, 1980.

The 195th meeting began at 3:30 p.m. All members were present except: Rev. Robert J. Austgen, C.S.C., Dean Joseph C. Hogan, Robert C. Miller and Prof. David L. Cohn, all excused. Dean Hogan and Mr. Miller were represented by Prof. Edward W. Jerger and Dr. George E. Sereiko, respectively.

## I. MINUTES OF THE 194th MEETING

The minutes of the 194th meeting were approved with one revision (Section II: "list of applicants" instead of "list of applications").

## II. APPOINTMENT OF NEW GRADUATE FACULTY

It was agreed that the practice of communicating curricula vitae of graduate faculty nominees to council members - - in abbreviated form if necessary - - should be continued. The chairman, next, enumerated three main functions reserved to members of the Graduate Faculty: to serve on and vote for members of the Graduate Council, to direct Ph.D. dissertations, and to chair Ph.D. examinations. New faculty members should normally wait one year before nomination to the Graduate Faculty. While in this status, they can teach graduate courses, advise master's level students and serve on graduate committees at both master's and doctoral levels. Dean Castellino agreed with the one-year period of waiting, especially, he said, for faculty members who have just completed their Ph.D.'s. He added, however, that there would be some repercussions if his college were to hire faculty who would not be allowed to direct dissertations for as long as three years. Dean Charles concurred that this one-year rule was reasonable. The chairman said that exceptions to this rule had been made in the case of people with experience. Referring to the problem of young faculty members leaving the University before their students complete their dissertations, Dean Charles stressed that it should be the department chairman's responsibility to find a replacement. The chairman added that the interest of the Ph.D. student in completing his or her dissertation should be a major concern of the department in the assignment of a dissertation director. A department which appoints an untenured faculty member as dissertation director should add a more senior faculty member to the same committee as a back-up. The chairman promised to circulate a draft memorandum on the admission and functions of the graduate faculty among council members for comment before it is published.

Following the discussion, the council approved these appointments to the Graduate Faculty:

Dr. Nancy Esteb	(Sociology and Anthropology)
Dr. James Bellis	(Sociology and Anthropology)
Dr. William G. Dwyer	(Mathematics)

## III. A NATIONAL PROGRAM ON THE ASSESSMENT OF QUALITY IN RESEARCH-DOCTORATE PROGRAMS IN THE UNITED STATES

The chairman briefed the council on the background of attempts in the past to evaluate doctoral programs, with particular reference to the Cartter (1966) and Roose-Andersen (1970) reports and the ratings received by various Notre Dame departments in the latter report. More recently, the Conference Board of Associated Research Councils met at Woods Hole to consider the desirability of undertaking a new study of research-doctorate programs. Following the Conference, a planning committee was appointed, and this committee now recommends the inclusion in this study of more than 2,300 doctoral programs producing a total of about 90 percent of the nation's Ph.D. recipients in 31 selected fields.

The chairman informed the council that he had been appointed institutional coordinator for Notre Dame. In this capacity, his responsibility will be to make arrangements for data collection and verification, and to supply the names and ranks of the faculty involved in the program under survey. Evaluators will be selected from these and similar faculty listings supplied by institutional coordinators. Each of the 2,300 programs under study will receive no fewer than 100 evaluations. From the fields listed in the preliminary document, probably 16 departments at Notre Dame offering some 19 doctoral programs will be evaluated, namely: Chemistry (including Biochemistry), Mathematics, Physics, Biology (including Physiology and Zoology), Microbiology, Chemical, Civil, Electrical and Mechanical Engineering, Economics, Government, Psychology and Sociology; English, History and Philosophy.

The chairman observed that the proposed study seeks to be a "multi-dimensional assessment" based on several "objective measures" in addition to peer evaluations: e.g. the number of doctoral awards both in absolute numbers and in relation to the number of faculty members involved, the average time lapse from enrollment to award of the degree, the place of employment of graduates, publications and citations, and the winning of research grants in national competition. The chairman noted that these measures had also been stressed by the University and the Graduate School in the past six or seven years. He concluded his introductory remarks by confirming that this study would not replace our external reviews which are based on self-study, and that these reviews would continue. He then opened the floor for discussion.

Prof. Walter Davis commented on the quantitative emphasis of the proposed study, which would not take into consideration such questions as program structure and requirements. Given the emphasis on peer evaluation, several council members stressed the importance of seminar and lecture series in enhancing the visibility of a department, and cited the Nieuwland Lectures in Chemistry and the Perspectives in Philosophy series as examples. The chairman agreed with this view, adding that presenting a paper, chairing a session at meetings, holding national offices in professional organizations, and similar activities would also help. Prof. Karamjit Rai further recommended increased graduate support to other aspects of the graduate program, such as graduate stipend and summer support. The chairman observed that our graduate stipend had become sufficiently competitive with this year's increase and that we would make it less so if support funds were to cover the summer as well as the academic year. He noted that for the experimental sciences, it was still the tradition in most good places that the faculty supported their graduate students in the summer on research grants. He saw no compelling reason to change the arrangement.

#### IV. CHAIRMAN'S REMARKS

The chairman reported that total Graduate School enrollment this fall, including the NSF programs, was 1193 (down 44 from last fall). Without the NSF programs, the enrollment was 1168 (up 35 from last fall). First-year enrollment this fall, including the NSF programs was 479 (up 9). Without these programs, it was 454 (up 61). First-year enrollment in the Humanities and Science was down 17 and 2 respectively. In the Social Sciences, Engineering and non-divisional programs, it went up by 15, 21 and 44 respectively. The situation for the 1980s calls for a close review of recruiting procedures by each graduate department.

Using combined GRE and GPA scores on both undergraduate and graduate levels as indicators of student quality, the graduate student body in 1979-80 appeared to be the best since 1975 when such records first became available. This group of students had the highest undergraduate and graduate GPA, quantitative GRE scores and combined GRE scores of any graduate student group since 1975.

From July 1, 1979 to June 30, 1980, we awarded 75 Ph.D.'s (the annual average for the decade was 114) and 325 master's degrees (the annual average was 408).

This year's basic graduate stipend is \$3,800. The University Budget Committee is in the process of formulating the 1981-82 budget. A significant increase in the graduate stipend will be sought.

The chairman congratulated the departments on their obvious effort to maintain (and enhance) quality even when the number of applications for graduate study was declining.

There being no further business, the meeting was adjourned at 4:45 p.m.

Chau T. M. Le, Secretary

# advanced studies

## information circulars

Additional information on all circulars listed below may be obtained by calling the following extensions:

Extension 4487, for information on federal government programs  
Extension 7433, for information on private foundations, corporations and state agencies.

### **Advisory Commission on Intergovernmental Relations Fellowships in Intergovernmental Relations**

No. FY81-393

#### Program:

Three fellowships of \$17,000 each will be offered to enable qualified individuals to work for a year on the staff of the commission. Applicants must have at least a baccalaureate degree and preferably an advanced degree or work experience in their chosen field. Special preference will be given to applicants whose backgrounds and interests indicate they can make a contribution to the commission's current work. The commission, which was established by Congress to give continuing study to relationships among the state, local and national levels of government and to devise ways of easing tensions and resolving conflicts between these levels, has three main divisions in which fellows will work. The policy implementation section translates commission recommendations into model legislation, legislative testimony and issue papers for use by policymakers at all levels of government. An important part of the work of this section is public information; the staff assists in drafting the commission's annual report, the quarterly publication *Intergovernmental Perspective* and information bulletins. The taxation and finance section deals with taxes, public expenditures and debt policies. In the past, emphasis has been placed on strengthening the fiscal position of the states and reducing the fiscal tensions of central cities. The government structure and functions division focuses on programmatic, institutional and jurisdictional topics that cause intergovernmental tension or controversy. The emphasis in recent years has been on federal and state aid systems; transportation systems and structural and functional shifts between various levels of government.

Deadline:  
March 20, 1981.

#### For Further Information, Contact:

Advisory Commission on Intergovernmental Relations  
Esther Fried, Personnel Officer  
ACIR Fellowship Program

111 20th St., N.W.  
Washington, D.C. 20575

(From 1981 ARIS)

### **General Services Administration Fellowships in Historical Editing**

No. FY81-394

#### Program:

Several awards of \$13,000 each to enable scholars interested in the editing profession to receive a year's experience with one of the commission's editorial projects. Applicants must have the Ph.D. or its equivalent in American history or a related field or must have completed all requirements for the doctorate except the dissertation.

Deadline:  
March 1, 1981.

#### For Further Information, Contact:

General Services Administration  
Executive Director  
National Archives Building  
Washington, D.C. 20408  
(202) 724-1083

(From 1981 ARIS)

### **Inter-Arts Program Interdisciplinary Arts Projects**

No. FY81-395

#### Program:

The endowment has changed the name of the special projects program, a program designed to support projects and organizations which cross artistic disciplines, to the inter-arts program. Categories for funding under this program are (1) Presenting Organizations (2) Artist's Colonies; (3) Interdisciplinary Arts Projects and (4) Services to the Field. The March deadline is for applications under the interdisciplinary arts projects heading. Matching grants of up to \$50,000 will be awarded, as before, for unique projects that can serve as models for future projects and also for collaborations between professional artists in different disciplines; special events or festivals involving more than one art form; and carry entry projects designed to help bridge the gap between professional training and careers in the arts.

Deadline:  
March 31, 1981.

(From 1981 ARIS)

## Literature Program Residencies for Writers

No. FY81-396

### Program:

Matching grants of up to \$10,000 but usually substantially less to nonprofit, tax-exempt organizations (such as state arts agencies, colleges, universities, libraries, museums, art centers, prisons, hospitals and professional organizations of writers or teachers) for projects to present published writers of fiction or poetry in long and short-term residencies. Preference will be given to projects that provide extended residencies and readings outside large urban centers. Projects may include the commissioning of new works or the translation of works (including open libretti) into English; but proposals for the production of such newly-commissioned works should be made to the appropriate endowment program (theater, media arts or opera-musical theater). Organizations proposing a residency must pay professional-level fees to writers and should provide at least a portion of these writers' fees from funds other than those granted by the endowment. Generally, the amount awarded for a residency project will not exceed the writers' fees, cost of travel and per diem expenses.

### Deadline:

March 16, 1981.

### For Further Information, Contact:

Literature Program  
(202) 634-6044

(From 1981 ARIS)

## Museum Program Special Exhibitions

No. FY81-397

### Program:

Matching grants of varying amounts to help museums and other organizations develop and participate in exhibitions of works of art. Grants for organizing an exhibition have no upper limit; grants to support the borrowing of exhibitions will not exceed \$20,000. Grants may be used to pay for the cost of planning and organizing an exhibition; the services of an outside specialist; shipping, insurance and related costs; installation; catalogues; documentation; related events such as performing arts activities and film and lecture series (but not opening receptions) and publicity.

### Deadline:

March 30, 1981.

### For Further Information, Contact:

Museum Program  
(202) 634-6164

## National Endowment for the Humanities Fellowships for Journalists

No. FY81-398

### Program:

Twenty-four fellowships of about \$18,000 each will be awarded for full-time practicing journalists to spend a year studying the humanistic aspects of their profession at either the University of Michigan or Stanford University. Individuals should apply directly to the fellowship institutions.

### Deadline:

March 2, 1981.

### For Further Information, Contact:

National Endowment for the Humanities  
806 15th Street  
Washington, D.C. 20506  
Division of Fellowships and Seminars  
James Blessing, Director  
(202) 724-0238

(From 1981 ARIS)

## National Endowment for the Humanities Seminars for Law and Medical School Teachers

No. FY81-399

### Program:

A program of summer seminars of four to six weeks offers professional school teachers the opportunity to work with distinguished scholars with the goal of sharpening their understanding of the humanistic foundations of their fields and improving their ability to convey these to their students and other scholars. The program consists of two types of seminars:

- Law Teacher Seminars: three seminars are available to full-time teachers who hold full or joint appointments at law schools.
- Medical and Health-care Teacher Seminars: Five seminars are intended for full-time clinical and basic science teachers and academic administrators at American health service centers and in programs such as schools of medicine, nursing, allied health, pharmacy, dentistry and osteopathy.

### Deadline:

March 2, 1981.

### For Further Information, Contact:

National Endowment for the Humanities  
806 15th Street  
Washington, D.C. 20506

(From 1981 ARIS)

## Division of Special Programs Challenge Grants

No. FY81-400

### Program:

Matching grants to (1) assist institutions in carrying out their basic functions, (2) stimulate nonfederal sources to offer support to institutions for their humanities programs and (3) improve financial stability of humanities institutions. Any nonprofit humanities organization is eligible to apply for general or specific institutional purposes, including the costs of specific humanities programs, components of activities or the portion of total institutional costs that can be identified with these. The basic requirement is that the matching funds must be from new sources or in addition to the support normally provided by traditional sources. The NEH has recently announced a change in the deadline for applications for Challenge Grants as well as a slight change in procedure. Applicants must now submit a notice of intent to apply for a challenge grant; the deadline for formal application for a Challenge Grant is May 1.

### Deadline:

March 15, 1981.

## American Historical Association J. Franklin Jameson Fellowship

No. FY81-401

### Program:

One award of about \$7,000 offered jointly by the AHA and the Library of Congress to support research in American history in the library's collections by a young historian. Applicants must have received the Ph.D. or the equivalent within the past five years and must not have published or had accepted for publication a book-length historical manuscript. The award will not be given for the completion of the doctoral dissertation.

### Deadline:

March 1, 1981.

### For Further Information, Contact:

American Historical Association  
400 A Street, S.E.  
Washington, D.C. 20003  
(202) 544-2422

(From 1981 ARIS)

## The American Institute of Architects William H. Scheick Research Fellowship

No. FY81-402

### Program:

\$2,500 for one year awarded to a graduate student in architecture to pursue original investigation into the subject of human needs and requirements in low-income housing of the multi-family type. Applicants may be students currently enrolled in their final undergraduate year in an architecture program, students enrolled in graduate-level architectural programs, students with non-environmental design backgrounds who will be enrolled in a graduate-level program in architecture during the year of the fellowship or graduates of an accredited architecture school who are in an intern-architect or professional architect status. One award is granted each year.

### Deadline:

March 15, 1981.

(From 1981 ARIS)

## The American Institute of Architects AIA-AHA Fellowship in Health Facilities Design

No. FY81-403

### Program:

One or more graduate fellowships in a total amount not to exceed \$6,000 to individuals who have either earned and received a professional degree from an accredited school of architecture or who are in the final year of undergraduate work leading to such a degree, for the study in one of three optional settings: (1) graduate study for one academic year in any accredited school of architecture linked with a school of hospital administration and/or adequate area hospital resources to supplement prescribed graduate architectural courses in health facilities design; (2) independent graduate level study, research or design in the health facilities field, to be completed within one calendar year; (3) travel with in-residence research in selected hospitals at a predetermined area, to be completed within one calendar year. Applicants must be U.S. or Canadian citizens. For further details and application materials, write: The American Hospital Association, Department of Health Facilities and Standards, 840 North Lake Shore Drive, Chicago, IL. 60611.

### Deadline:

March 15, 1981.

### **The American Institute of Architects AIA-AIA Foundation Scholarship Program**

No. FY81-404

Program:

Scholarship awards ranging from \$200 to \$2,000 are provided through this program to students in one of the last two years in a first professional degree program and to interns, educators and practitioners for advanced study or research. One application to the program places an individual in competition for an award from any of the AIA or AIA foundation funds. Eligible are first professional degree candidates who are currently either third or fourth-year students in a five year program which results in a B.Arch. or fourth or fifth-year students in a six-year program which results in a M.Arch. Also eligible are students in the final year of a first professional degree program resulting in a B.Arch., or M.Arch. or equivalent and practitioners, interns, educators or others who have received the first professional degree. All candidates must be students in or applicants to schools accredited by the Royal Architectural Institute of Canada.

Deadline:  
March 1, 1981.

**British Universities Summer Schools  
Summer Scholarships**

**No. FY81-410**

**Program:**

Scholarships to cover part of program costs but not travel to enable students to attend summer programs in English literature, history, medieval and Shakespeare studies at various British universities. Scholarships are usually awarded to graduate students and holders of graduate degrees, aged 20-35; but undergraduates and those outside the age bracket may apply. U.S. applicants should write to the Division of Study Abroad Programs, Institute of International Education, 809 United Nations Plaza, New York, N.Y. 10017.

**Deadline:**  
March 15, 1981.

(From 1981 ARIS)

**Center for Reformation Research  
Reformation Research Fellowships**

**No. FY81-411**

**Program:**

Six to eight annual fellowships of \$650 plus travel expenses to enable graduate students in the history of the sixteenth century to receive training in paleography and bibliography. Applicants must have received or be currently working on a graduate degree in the history of the sixteenth century. Preference will be given to those with a knowledge of sixteenth-century language.

**Deadline:**  
March 1, 1981.

(From 1981 ARIS)

### **Institute of International Education British Archaeology**

No. FY81-424

Program:

Part scholarships of \$100 to \$400 to enable needy college seniors to attend a summer seminar and excavation. The seminar is held at Theological College, Chichester and deals with British pre-history; Roman and medieval Britain; and archaeological techniques. Work on an excavation follows the academic program. Applications for both program and scholarships are due March 1.

Deadline:

March 1, 1981.

For Further Information, Contact:

Institute of International Education  
809 United Nations Plaza  
New York, N.Y. 10017  
(212) 883-8454

(From 1981 ARIS)

### **Institute of International Education Cintas Fellowship Program**

No. FY81-425

Program:

A number of fellowships of \$5,000 each are awarded yearly to professionals in the fields of architecture, painting, sculpture, print making, music composition and literature to people of Cuban citizenship or lineage. The purpose of the fellowships is to foster professional development and recognition rather than academic or professional study or research. Applicants must have completed their academic and technical training.

Deadline:

March 1, 1981.

For Further Information, Contact:

Institute of International Education  
809 United Nations Plaza  
New York, N.Y. 10017  
(212) 883-8454

(From 1981 ARIS)

### **Japan-U.S. Friendship Commission Programs**

No. FY81-426

Program:

The Japan-U.S. Friendship Commission grants funds for support in four major project areas: Japanese studies (for Americans), American studies (for Japanese), the Arts (for both) and cultural communication and public affairs (for the U.S.).

- Japanese studies: The commission's major effort under this category will be to develop American professional education on Japan in the areas of law, business, journalism, architecture and urban planning. Funds for graduate fellowship, faculty expansion and research will be committed to these areas rather than to the traditionally humanistic areas in Japanese studies at the university level. The commission will also fund projects in library support, language training and general education which promise large regional or national return in the level of American awareness of Japanese society and culture. All funds under this category will go to institutions for the development of programs; individuals interested in support for scholarly work should apply directly to the appropriate institution or research council.

- The Arts: The commission will fund various types of projects in the arts, including fellowships for individual artists of both countries, performing arts tours of Japan by professional American theater and dance companies and American professional and university performance and study of traditional Japanese theater and music. Emphasis will be placed on funding arts forms or artists not well known in the other country and on arts which are characteristic either of the contemporary arts scene or of the earlier traditions of either country.

- Cultural Communication and Public Affairs: Support under this category will go to projects designed to broaden the understanding of Japanese history, society and culture among the American public at large. Areas of support include exhibitions and related activities, public television programs, public affairs programming on Japan at the community level and counterpart exchanges in the fields of journalism, education economics and public affairs.

Deadline:

March 1, 1981.

For Further Information, Contact:

Japan-U.S. Friendship Commission  
Executive Director  
Suite 709  
1875 Connecticut Avenue, N.W.  
Washington, D.C. 20009

(From 1981 ARIS)

### **Manhattan School of Music Music Scholarships**

No. FY81-427

Program:

Approximately 210 scholarships of from \$400 to full tuition for one year's study at the school. Scholarships are renewable. Applicants, who may be of any nationality, must demonstrate their musical competence in audition.

Deadline:  
March 1, 1981.

For Further Information, Contact:

**The Newberry Library  
Newberry-British Academy Fellowship for Study  
in Great Britain**

No. FY81-430

Program:

Stipends of 12 pounds per day for a three-month study in Great Britain in any field of the humanities in which the Newberry's collection is strong and

which the British Academy will accept. Preference is given to established scholars on the staffs of universities, museums or libraries. The fellow's home institution is expected to continue to pay his salary during his fellowship period.

Deadline:  
March 1, 1981.

For Further Information, Contact:

The Newberry Library  
Richard Brown, Director of Research  
and Education  
Committee on Awards  
60 West Walton St.  
Chicago, Ill. 60610

(From 1981 ARIS)

**The Newberry Library  
Monticello College Foundation Fellowship  
for Women**

No. FY81-431

Program:

Stipend of \$7,550 for a six-month period of work in residence at the Newberry for a woman scholar with the Ph.D. The award is designed primarily for women at an early stage of their professional careers whose work gives clear promise of scholarly productivity and whose career would be significantly enhanced by six months of research and writing. Preference will be given to applicants whose scholarship is particularly concerned with the study of women; but study may be proposed in any field appropriate to the Newberry's collections.

Deadline:  
March 1, 1981.

For Further Information, Contact:

The Newberry Library  
Richard Brown, Director of Research  
and Education  
Committee on Awards  
60 West Walton St.  
Chicago, Ill. 60610

(From 1981 ARIS)

**The Newberry Library  
Resident Fellowships for Unaffiliated Scholars**

No. FY81-432

Program:

For scholars who are not employed professionally as such, who have the Ph.D. and who propose to use the Newberry as a scholarly base, stipends of \$250 or \$500 per calendar quarter depending on need. Applicants must be working on a specific research project in a field appropriate to the Newberry's collections and must anticipate spending at least six to eight hours a week in residence and participate fully in the intellectual life of the Newberry. Stipends

may be renewed quarterly up to one year; after the first year fellowship status may be renewed annually but without stipend.

Deadline:  
March 1, 1981.

For Further Information, Contact:

## Rotary Foundation of Rotary International Educational Awards for International Understanding

No. FY81-437

### Program:

Awards to enable study abroad, not necessarily toward a degree, in any country which has a Rotary club. Candidates must have outstanding academic (and, where required, professional) backgrounds and must also be potential "ambassadors of good will" of high quality. Applicants should have a good working knowledge of the language of the country to which they want to travel. Awards cover round-trip air fare, incidental travel books, living expenses, tuition and a one to three-month language course, if necessary. Application should be made through the Rotary club nearest to the place where the applicant lives or studies. Rotarians and their relatives by blood or marriage are ineligible. Awards include:

- Undergraduate Scholarships: Scholarships for study in any field. Applicants must have completed two or more years of study toward the BA; be between the ages of 18 to 24, unless an applicant has done military service in which case the upper age limit is waived; and be unmarried.
- Graduate Scholarships: Scholarships for study in any field. Applicants must be between the ages of 20 and 28 unless the military service waiver applies and must hold a BA. Candidates may be married.
- Journalism Scholarships: Scholarships for study in the fields of print or broadcast journalism. Applicants must be between the ages of 21 and 28 unless the military waiver applies; must be at least secondary school graduates and must have been employed for at least two years as professional journalists or have completed at least two years of post-secondary training in journalism. Applicants may be married.
- Teachers of the Handicapped Scholarships: Scholarships for study of improved instructional techniques for teaching the mentally, physically or educationally handicapped. Applicants must be between the ages of 25 through 50, have at least a secondary education and have been employed full-time teaching the handicapped for at least two years. Candidates may be married.
- Vocational Scholarships: Scholarships for the acquisition or improvement of vocational or professional knowledge, skills, processes and techniques. Candidates may be married and must be between the ages of 21 through 50, have completed at least a secondary education and have been engaged or employed in the proposed vocation or profession for at least two years.

### Deadline:

March 1, 1981.

(From 1981 ARIS)

## Sinfonia Foundation Research Assistance Grants

No. FY81-438

### Program:

Grants of up to \$1,000 to support research or other work in American music or music education. Applicants must hold a Master's degree or its equivalent and show evidence of previous writing and research or of unusual competence in the field.

### Deadline:

March 1, 1981.

### For Further Information, Contact:

Sinfonia Foundation  
Daniel Beeman  
10600 Old State Road  
Evansville, IN 47711  
(812) 867-2433

(From 1981 ARIS)

## Skowhegan School of Painting and Sculpture Scholarships

No. FY81-439

### Program:

Approximately 45 awards toward tuition, room and board at the school's nine-week summer residency program in Skowhegan, ME. Applicants should be well-trained artists, at least 18 years old and interested in the school's specialties: painting, sculpture and fresco. Applicants must submit a portfolio and recommendations. The total enrollment at the school's summer program is 65 people; total aid awarded comes to \$70,000.

### Deadline:

Feb. 28, 1981.

### For Further Information, Contact:

Skowhegan School of Painting and Sculpture  
329 East 86th Street  
New York, N.Y. 10021  
(212) 861-9270

(From 1981 ARIS)

## Special Libraries Association Positive Action Program for Minority Groups

No. FY81-440

### Program:

Up to three awards of \$2,000 each to support minority students for one quarter or one semester of graduate study in library science at a recognized school. Preference will be given to those interested in pursuing a career in special librarianship. Applicants must be U.S. citizens, members of a minority group or submit evidence of becoming naturalized at the beginning of the award period, and must show financial need.

Deadline:  
March 1, 1981.

For Further Information, Contact:

Special Libraries Association  
235 Park Avenue South  
New York, N.Y. 10003  
(212) 477-9250

(From 1981 ARIS)

**University of Michigan  
Graduate Fellowships**

No. FY81-441

Program:

Fellowships of up to \$2,500 for graduate study in the program, which features the history of geographic discovery from the fifteenth through the nineteenth centuries, exploration, European expansion and scientific instrumentation.

Deadline:  
March 1, 1981.

For Further Information, Contact:

University of Michigan  
Douglas W. Marshall, Coordinator  
Program in the History of Discovery  
Clements Library  
Ann Arbor, Mich. 47109  
(313) 764-2347

(From 1981 ARIS)

**University of Michigan  
Research Fellowships**

No. FY81-442

Program:

Fellowships of \$600 per month for independent study are awarded to junior scholars for advanced research on projects relating to geographic discoveries. Applications may be submitted at any time.

Deadline:  
None.

For Further Information, Contact:

University of Michigan  
Douglas W. Marshall, Coordinator  
Program in the History of Discovery  
Clements Library  
Ann Arbor, Mich. 47109  
(313) 764-2347

(From 1981 ARIS)

**University of Pennsylvania  
Mellon Fellowships in the Humanities**

No. FY81-443

Program:

Four fellowships of \$16,000 each will be awarded for a year's research and residency at the University. Applicants must have held the Ph.D. for no fewer than three and no more than eight years. The primary purpose of the fellowship program is to enable scholars to explore areas outside the established boundaries of disciplines and departments; applicants in one field should therefore make clear the implications of their proposed subject of research for various fields in the humanities. Preference will be given to proposals which indicate a concern with a variety of theoretical perspectives. Applications from scholars whose work would enable them to participate in one of the ongoing faculty seminars at the university will also receive preference. Faculty seminars currently in progress at the university represent the following topics: African studies, archaeology and the history of materials, comparisons in the humanities and in science, the eighteenth century, ethnohistory, the Far East, French studies, Iranian studies, Israel, medieval studies, non-western literatures, the origins of Christianity, renaissance studies, Russian and Eastern Europe and Semiotics. Mellon fellows are expected to be in residence at the university during the period of the grant. Fellows who are so inclined may explore the possibility of team teaching a course with a regular member of the faculty during the spring semester.

Deadline:  
Feb. 15, 1981.

For Further Information, Contact:

University of Pennsylvania  
Prof. Frank P. Bowman  
Chairman, Humanities Coordinating Committee  
16 College Hall/CO  
University of Pennsylvania  
Philadelphia, Penn. 19104

(From 1981 ARIS)

**Luso-American Education Foundation  
Educational Grants for the Study of Portuguese**

No. FY81-444

Program:

Grants for six weeks of summer study at the University of Coimbra or the University of Lisbon; summer study of Portuguese at the University of California, Santa Barbara and the financial assistance for the study of Portuguese in California at the university level.

Deadline:  
March 1, 1981.

For Further Information, Contact:

Luso-American Education Foundation  
Educational Programs  
P.O. Box 1768  
Oakland, Calif. 94604  
(415) 452-4465

(From 1981 ARIS)

## **Woods Hole Oceanographic Institution Research Fellowships in Marine Policy & Ocean Management**

No. FY81-445

### Program:

Woods Hole Oceanographic Institution offers fellowships to professionals in social sciences, law or natural sciences to apply their training to investigations of problems which involve the use of oceans and which may require the application of marine science.

### Eligibility:

Applicants must have completed a doctoral level degree. The program also welcomes experienced professionals who can arrange a year's leave or sabbatical. Recent doctorates will receive a stipend of \$18,500.

### Application Procedure:

For detailed guidelines and application forms contact:

Dean of Graduate Studies  
Education Office, Clark Laboratory  
Woods Hole Oceanographic Institution  
Woods Hole, Mass. 02543  
(617) 548-1400

## **American Heart Association Indiana Affiliate, Inc. Research Applications for 1981-1982 Projects**

No. FY81-446

### Program:

The American Heart Association, Indiana Affiliate, is now accepting orders for applications for grants-in-aid and fellowship awards for the 1981-1982 fiscal year.

### Deadline:

March 16, 1981.

### Applications:

Because of the costs of the applications, the association asks that only those interested in applying for support request the kits. All investigators currently being supported by the association will receive this information directly. Those eligible for renewal will receive simplified renewal applications. New applicants should contact the following:

Miss Claudia Sterling  
Research Coordinator  
American Heart Association  
Indiana Affiliate, Inc.  
Suite 222 - Missions Building  
222 South Downey Avenue  
Indianapolis, Ind. 46219  
(317) 357-8622

## **National Science Foundation United States-India Exchange of Scholars**

No. FY81-447

### Program:

The governments of India and the U.S. have established a program for increasing the exchange of scientists and engineers between the two countries. The opportunities for scientific exchange are supported by a well-developed academic establishment and a system of industrially-oriented, national laboratories.

The national agencies responsible for administering the exchange program are the National Science Foundation (NSF) in Washington and the Council of Scientific and Industrial Research (CSIR) in New Delhi. The role of each national agency includes selecting its country's participants in the exchange program, acting as host to the visitors from the other country and corresponding with its counterpart agency in the other country.

This program offers opportunities to work in new environments with unique research materials and to make long range plans for collaboration with Indian research centers.

American scientists contemplating participation in the program are invited to discuss their plans by letter or telephone with the staff of the Division of International Programs at NSF. Application forms may be requested from the same office.

For further information write: U.S. - India Exchange of Scientists, Division of International Programs, National Science Foundation, Washington, D.C. 20550 -- or call: (202) 632-5796.

There are two deadlines annually for submission of proposals: March 15 for visits between November 15 and May 15; September 15 for visits during the following year between May 15 and November 15.
