the university

year of cultural diversity

The 1988-89 Notre Dame academic year has been designated "The Year of Cultural Diversity." In November 1986 Provost Timothy O'Meara appointed a special Committee on Minority Students to advise on strategies for enhancing all aspects of the presence of minority undergraduate and graduate students at the University. The Year of Cultural Diversity is an idea conceived as a part of the University's response to the committee's report. A wide variety of programs are planned for the year to raise the level of consciousness of members of the Notre Dame community to the importance of minorities in American life and culture.

Over 25 programs, including lectures, exhibits and concerts have been scheduled. Under the leadership of Rev. Oliver Williams, C.S.C., associate provost, the committee on the Year of Cultural Diversity includes Howard Adams, Kenneth B. Durgans, Nathan B. Hatch, Francis M. Kobayashi, Adele Lanan, Sr. Jean Lenz, O.S.F., Rev. Andre Leveille, C.S.C., Jean A. Pec, Rosemary Phelps, Juan Rivera, Richard A. Rosenthal, Kathleen M. Weigert, and Frederick D. Wright. Students on the committee include Rob Bartolo, Ramzi Bualuan, Antonio Chavez, Thomas Doyle, Mary E. Feliz, Mari Fuentes, Victor J. Krebs, Patience A. Mason, Angela McRae, and Roderick K. West.

Students on the committee have assembled an Activities Handbook for the year. For a copy of the handbook, call Adele Lanan, Student Activities, 239-7308. To include an event in the calendar of lectures and other events, call the office of Rev. Oliver Williams, C.S.C., 239-6858.

class of 1992 sesquicentennial class

The Class of 1992, some 1,800 University of Notre Dame entering freshmen, has been designated the Sesquicentennial Class by University officials. Its members will be involved in planning events celebrating the 150th anniversary of the founding of Notre Dame. Established in 1842, the University is 13th oldest among existing American Catholic institutions of higher learning.

The idea came from the History of the University Committee, which has been involved in some of the early discussion of the sesquicentennial. The committee has suggested that the observance take place between November 1991 and November 1992. That proposal and others will be taken up by a formal sesquicentennial committee to be appointed by University Provost Timothy O'Meara.

early english books research center at hesburgh library

The Theodore M. Hesburgh Library has been designated an "Early English Books Research Center" by University Microfilms International (UMI), a Bell & Howell Information Company, Ann Arbor, Mich.

The designation recognizes Notre Dame's support of UMI's Early English Books Series, a project which began 50 years ago. The project, undertaken on two continents and involving several cooperating libraries, has microfilmed the 26,500 titles in Pollard and Redgrave's Short-Title Catalogue, which includes nearly every book printed in Great Britain or in the English language from 1475 to 1640. It has also microfilmed the 50,000 titles in Donald Wing's Short-Title Catalogue, which includes English-language books published in Great Britain and North America from 1641 to 1700. The Theodore M. Hesburgh Library owns the entire resulting collection, placing it among the 144 American institutions in possession of this resource.

publications and graphic services

The Publications and Graphic Services department offers publications assistance to all departments, colleges, centers, and institutes at Notre Dame. The staff provides editorial, design, and production services to its customers with no charge other than the cost of design materials and the cost of printing. The office coordinates relations with the printer from initial contact through delivery.

Questions about the department and its services may be directed to Carl Magel, Director, 415 Main Building (239-5337).
