the university

notre dame australia planned

University of Notre Dame officials are helping to plan a Catholic university in Western Australia at the invitation of its Australian founders.

The proposed institution, which will be Australia's first Catholic university and will be located in Perth or Fremantle, will be called the University of Notre Dame Australia. It will, however, be an autonomous institution with its own sources of financial support. Rev. Edward A. Malloy, C.S.C., president, Timothy O'Meara, provost, Rev. E. William Beauchamp, C.S.C., executive vice president, and Rev. David T. Tyson, C.S.C., vice president for student affairs, travelled to Western Australia in August to meet with local planners of the new university.

Australian backers of the project will be looking to Notre Dame for advice and example, both in the larger issues of relating an academic institution to a religious heritage and in the more pragmatic matters of student and faculty interchanges and joint research programs. While a decision to establish the university has been made in principle, the final determination will be made by a planning board by March 1989. The institution could open in temporary premises as early as 1991. It would start with around 300 students, with plans to expand gradually to 6,500. While the school would be independent, it has the support of the state government which has promised legislative backing and from which the founders hope to obtain low interest loans to defray some start-up costs. Income for the new university will come from fees, fund-raising, endowments, investment and business undertakings.

lecturers visited campus

The University was host to more than 450 visiting lecturers during the academic year which ended August 1988. The public lecturers included scholars and researchers from 119 American colleges and universities and 24 foreign educational institutions, as well as artists, authors, commerce and industry figures, foreign and domestic government officials, religious scholars, and researchers from public and private institutes and laboratories.

Vol. 18, No. 8

ecological study evaluated

A recent landmark ecological study on lakes at the University of Notre Dame Environmental Research Center may revolutionize methods in cleaning up murky lakes and keeping clean the clear ones.

Central to the study--headed by Stephen R. Carpenter, associate professor of biological sciences, and James F. Kitchell, zoology professor at the University of Wisconsin--is a very simple idea: Big fish eat little fish; little fish eat small animals, called zooplankton; zooplankton eat algae, or phytoplankton.

Carpenter's study involved three lakes and spanned the years 1984 and 1985. By manipulating the fish populations in the lakes, he showed that organisms on higher levels in the food web regulate the zooplankton and algae community structure, biomass and primary productivity. That is, when he introduced large game fish into a lake heavily populated with small forage fish, he was able to reduce the number of smaller fish and ultimately create a cleaner, less algae-ridden body of water.

In Paul Lake, the reference lake, productivity varied from year to year due to climatic factors and the natural dynamics of unmanipulated food web interactions. In Tuesday Lake, full-grown game fish were added that fed on the forage fish. The smaller fish rapidly decreased in numbers and, as a result, zooplankton became more abundant. In the end, the amount of algae in the lake was reduced about tenfold. In Peter Lake, game fish were removed and small minnows added. The results here were less zooplankton and more algae.

In short, Carpenter says, whereas it has long been thought that clean, sparkling lakes produce good fisheries, it appears that this works the other way around. Controlling forage fish by stocking game fish will clean up a lake dominated by algae. He calls this process the trophic cascade.

Carpenter believes that the next step in trophic cascade research will be to bridge the gap between the basic scientific advance and traditional management practice. His research now has shifted to developing stocking technologies that will initiate the trophic cascade in the cheapest possible way. Most management agencies aren't in a position to move around adult fish, he explains, and they're going to have to stock fry or fingerlings. His research team next summer will begin an experiment with bass fingerlings.

correction to phone directory: suvon instructions

The instructions for the new simplified SUVON telephone system on page 5 of the University of Notre Dame/Saint Mary's College 1988-89 Directory are correct and complete. The information on page 6 for dialing off-network is obsolete. Please disregard it and see page 5. SUVON is a free telephone system for placing business calls within Indiana.

university plans task force action

The University will undertake new initiatives to address five major academic and institutional concerns--family and other life commitments of University students, faculty and staff; the personal health of University community members, particularly with regard to the use of alcohol; the quality of teaching in the context of a research university; the residential life of the University; and the ethical dimensions of the University's R.O.T.C. programs.

The new initiatives are the result of detailed reports prepared on each subject at the request of Rev. Edward A. Malloy, C.S.C., president. A special faculty committee compiled the report on R.O.T.C. programs. The remaining four reports were prepared by task forces composed of students, faculty, and staff members.

With specific regard to family and other life commitments, the University has endorsed the following actions: development of a flexible work scheduling policy, where departmental requirements permit, to allow University employees to strike a better balance between job and family responsibilities; establishment of a flexible benefits program allowing faculty and staff members to redirect benefit dollars according to their individual family needs, including child and elder care; establishment of a dependent care spending account to allow payment of child care and elder care costs with before-tax dollars; development of a University child care information and referral service; presentation of seminars on marriage, parenting, balancing work and family life, child care concerns and other family-related topics.

To ensure an ongoing dialogue on family concerns, the University has designated 1989-1990 as the Year of the Family. Roland B. Smith, Jr., executive assistant to the president, will serve as coordinator of the various academic and cultural events to be presented throughout the year.

The University's specific initiatives with regard to health and alcohol concerns include: introduction, beginning in the 1989-90 academic year, of a required substance abuse study program for all freshmen; elimination of advertising promoting the use of alcohol from all publications funded or sponsored by the University; expansion of substance abuse education and counselling programs through all appropriate campus agencies including the Office of Alcohol and Drug Education established in 1987; coordination of ongoing campus health programs through the University Health Center.

In addition to these initiatives, the University has revised its policy governing parties in student residence halls. In effect since the beginning of the current academic year, the new policy permits each residence hall to sponsor one party per se-

mester, provided that at least 70 percent of the hall's residents purchase tickets for the event. Halls may not supply alcohol for these parties, but must provide food and nonalcoholic beverages.

With regard to the issue of teaching, the Report of the Task Force on the Quality of Teaching in a Research University states in part, "(Notre Dame's) identity as a place that treasures teaching excellence is its most important resource, and...it is possible for Notre Dame to keep this identity while aggressively upgrading its research." Its initiatives on teaching quality are as follows: continued expansion of faculty consistent with the University's overall needs and priorities; improved salaries and more frequent status reviews for adjunct faculty in recognition of their contributions to professional training and basic skills instruction; integration of a teaching component into the doctoral program, enabling graduate students to provide quality undergraduate instruction when appropriate and encouraging graduate students to pursue teaching careers; designation, in each of the University's colleges, of a faculty member who will assume broad responsibilities for monitoring, supporting and stimulating teaching excellence within the college; construction of a state-of-the-art classroom building, funding for which is being sought through the University's "Strategic Moment" campaign.

The University's initiatives on residential life include: encouragement of increased opportunities for student-faculty interaction in the residence halls; increased minority presence on hall staffs to reflect the growing minority student population of Notre Dame; collaboration of men and women in hall ministry roles; establishment of a new salary structure to help attract and retain highly qualified hall rectors; construction of a new graduate student residence, funding for which is being sought through the University's "Strategic Moment" campaign.

Specific initiatives to support the ethical and moral dimensions of the R.O.T.C. program are as follows: expansion of courses examining the Catholic tradition with respect to war and peace, and encouragement of R.O.T.C. students to select these courses; cooperation between the R.O.T.C. command and the staff of the University's Institute for International Peace Studies in enrolling R.O.T.C. students in courses examining the moral questions of war and peace; development by the Institute of extracurricular workshops open to all seniors and designed to aid in the formation of a clear personal conscience with regard to the laws and realities of war; inclusion of the U.S. Bishops' pastoral letters on the American economy and war and peace in the reading required for the University's freshman year seminar courses.

In addition to these steps, the University will make every effort--as it does for any student--to provide need-based financial aid to students leaving the R.O.T.C. program for reasons of conscience.

faculty notes

honors

William B. Berry, acting chairman and professor of electrical and computer engineering, has been nominated for the position Vice-President for Public Affairs of the American Society for Engineering Education.

Katharina J. Blackstead, associate librarian, has been selected to serve on the Research Forum Committee for the Association of College and Research Libraries Bi-Annual Post Conference Program to be held in Cincinnati, Ohio, April 8-9, 1989.

Douglas W. Kmiec, professor of law, director of the White Center on Law and Government, and Assistant Attorney General of the United States, has been named by the Attorney General to be chairman of the government-wide working group on federalism. The group is evaluating the relationship among federal, state, and local governments in terms of the President's Executive Order on Federalism.

David C. Leege, professor of government and international studies and director of the Hesburgh Program in Public Service, has been appointed co-chair of the 1990 annual convention of the Midwest Political Science Association. He has also been appointed liaison to the Committee on Religion and Politics of the International Political Science Association by the Section on Religion and Politics of the American Political Science Association.

Carl L. Stam, associate professional specialist, director of choral music, and concurrent assistant professor of music, has been named the National Chairperson for the Male Chorus Committee on Repertoire and Standards by the American Choral Directors Association. He already serves on the board of directors of the Intercollegiate Men's Choruses, a national association of collegiate and secondary school male choruses.

Dennis J. Stark, director of aquatics and assistant professor of physical education, has been selected to serve on the board of directors of Corvillia. Corvillia is a private corporation funded by the State of Indiana to develop and maintain residence homes for the physically and mentally handicapped.

Erhard M. Winkler, professor of earth sciences, was bestowed with a medal in recognition of materials protection of historic moments by LeComité International Permanent pour l'Organisation des Congrès on Deterioration and Conservation of Stone.

activities

Peri E. Arnold, chairman and professor of government and international studies, delivered the keynote address "Presidential Leadership and Public Policy: The Case of Civil Rights" to Purdue-Calumet's annual Conference on Social Studies and History, Hammond, Ind., Nov. 12.

Charlene S. Avallone, assistant professor of English, presented the paper "Regenerating the 'Renaissance,' Revising 'Realism': Materials and Methods for What We Study and How We Study in the Nineteenth-Century American Literature Survey" at North Central Women's Studies Association annual conference, Northern Kentucky University, Highland Heights, Ky., Nov. 5.

Bruce A. Bunker, associate professor of physics, presented "The Ferroelectric Transition in IV-VI Semiconductor Alloys at XAFS V: The Fifth International Conference on X-Ray Absorption Spectroscopy, Seattle, Wash., Aug. 22-26. He also presented "The Atomic-Scale Structure of Semiconductor Alloys: Diluted Magnetic Semiconductors and Ferroelectric" at the Turner Hall Colloquium, Goshen College, Goshen, Ind., Nov. 15.

Kevin J. Christiano, assistant professor of sociology, served as discussant for the Notre Dame Seminar in American Religion sponsored by the Charles and Margaret Hall Cushwa Center for the Study of American Catholicism at the Center for Continuing Education, University of Notre Dame, Notre Dame, Ind., Nov. 12.

John J. Collins, professor of theology, participated in the conference on The Hebrew Bible, Canon and Literature at the University of Michigan at Ann Arbor, Mich., Oct. 30-31. He attended the annual meeting of the Society of Biblical Literature in Chicago, Ill., Nov. 17-21. He also delivered the response to L. Hurtado, One God, One Lord, Nov. 18, and the response to J.D. Levenson, God and the Persistence of Evil at that meeting, Nov. 20.

Michael J. Crowe, professor in the Program of Liberal Studies, delivered "The Enlightenment and Extraterrestrials: The Celestial Cities of Eighteenth-Century Scientists and Philosophers" at the annual meeting of the Midwest American Society for Eighteenth-Century studies at the University of Notre Dame, Notre Dame, Ind., Oct. 7.

Lawrence Cunningham, professor of theology, attended the board of directors meeting of the American Academy of Religion at its annual convention in Chicago, Ill., Nov. 18.

Roberto DaMatta, Joyce professor of anthropology and faculty fellow in the Kellogg Institute, chaired a discussion on the social aspects of Fernando Pessoa's poetry and work at the international colloquium on the work of the Portuguese poet Fernando Pessoa organized by the Department of Spanish and Portuguese of Tulane University in New Orleans, La., Nov. 17.

John F. Gaski, associate professor of marketing, presented the paper "A Causal Modeling Analysis of Intrachannel Conflict and Satisfaction" at the annual meeting of the Decision Sciences Institute, Las Vegas, Nev., Nov. 21-23.

Philip Gleason, professor of history, served as an invited commentator at the "Conference for Presidents" sponsored by the Association of Catholic Colleges and Universities and the Pontifical Council for Culture held at the College of St. Catherine, St. Paul, Minn., May 23-26. He served on a panel of consultants reviewing research on American Catholicism sponsored by the Lilly Endowment held in Indianapolis, Ind., May 31-June 1. He also delivered a paper titled "Staving Off Secularization: The Role of Neoscholasticism in Catholic Higher Education," at a conference sponsored by the Institute for the Study of American Evangelicals held in Philadelphia, Pa., Nov. 17-19.

Denis Goulet, O'Neill professor of education for justice, department of economics, and in the Kellogg Institute for International Studies, delivered a keynote address "Development Ethics, Ecological Wisdom, and the Futures of Development" to the 10th world conference of the World Futures Studies Federation at the Great Hall of the People, Beijing, China, Sept. 3.

David S. Hachen, Jr., assistant professor of sociology, presented "Industrial Characteristics and Job Mobility Rates" at the annual meeting of the American Sociological Association held in Atlanta, Ga., Aug. 26.

Yih-Fang Huang, associate professor of electrical and computer engineering, presented a paper titled "ARMA Parameter Estimation Using a Novel Recursive Estimation Algorithm With Selective Updating" at the 1988 international symposium on Information Theory, Kobe, Japan, June 19-24. He presented an invited seminar titled "Discerning Update in Recursive Parameter Estimation" at Princeton University Department of Electrical Engineering, Princeton, N.J., Nov. 3.

Rev. Charles Kannengiesser, S.J., Huisking, professor of theology, attended the annual CCICA meeting, Georgetown University, Washington, D.C., Nov. 11. He presented "The African Reaction" at the AAR in Chicago, Ill., Nov. 20-21. He gave a seminar on "Biblical Hermeneutics in Roman Africa" at University of Laval, in Quebec City, Canada, Nov. 23. He gave the public lecture "Bible and Culture in Early Christianity" at the University of Ottawa, Ottawa, Canada, Nov. 24. Kannengiesser gave "Tyconius Book of Rules" at the University of Ottawa, Ottawa, Canada, Nov. 25. He also presented the faculty seminar "Current Debate on Arianism" at the University of St. Paul, Canada, Nov. 25.

Douglas W. Kmiec, professor of law, director of the White Center on Law and Government, and Assistant Attorney General of the United States, made a presentation titled "The Separation of Powers after Morrison v. Olson" to the Administrative Conference of the United States, Washington, D.C., Sept. 28.

Rev. John A. Melloh, S.M., associate professional specialist in theology and coordinator of the Marten Program in Homiletics and Liturgics, taught the course "Music in Catholic Worship: Ritual and Music" at St. Mary's University, San Antonio, Tex., June. By invitation he participated in the third symposium for Liturgists and Composers sponsored by the Archdiocese of Milwaukee, Wis., July. He also presented the paper "Virgil Michel's Legacy: Religious Education and Liturgy" at the Virgil Michel Symposium, held at St. John's University, Collegeville, Minn., July. He gave a workshop "The RCIA: Theology and Praxis" for the Center for Continuing Formation in Ministry, University of Notre Dame, Notre Dame, Ind., Sept. Melloh gave another workshop "Preaching" for the Center, Oct. He lectured on "Elements of Ritual" for the Liturgy Formation Program, Archdiocese of Indianapolis, Indianapolis, Ind., Oct. He gave the lecture "Lay Participation in Worship at Hilltop Lutheran Church of the Ascension in South Bend, Ind., Oct.

Walter J. Nicgorski, associate professor in the Program of Liberal Studies, gave the keynote address "Nurturing Liberal Education in Higher Education" to the faculty retreat of the Freshman Seminar Faculty held at Valparaiso University, Valparaiso, Ind., Nov. 12.

Rev. Edward D. O'Connor, C.S.C., associate professor of theology, gave a day of recollection for South Bend area women at Sacred Heart Crypt, Notre Dame, Ind., Dec. 3. He also lectured on "The Church" at Holy Family Parish, South Bend, Ind., Dec. 6.

Maria Rosa Olivera-Williams, assistant professor of modern and classical languages, presented a paper titled "Citas y Comentarios: La Re-creacion Amorosa de la Patria en el Exilio" at the Mid-America Conference on Hispanic Literature at Washington University, Saint Louis, Mo., Oct. 27-29. She presided over the session on New Latin American Writing at that conference. She organized and chaired the permanent session on Latin American Literature titled "Vanguardismo en Latinoamerica" at the 13th annual meeting of the Midwest Modern Language Association in Saint Louis, Mo., Nov. 3-5. She co-chaired the permanent session on Literary Theory and Hispanic Criticism titled "Creativity and Dependence in Hispanic Literature and Theory" at that meeting. She also presented an invited paper titled "Los Cuneos de Azul... en la Coyuntura del Modernismo y la Modernidad Hispano-americanos" during the conference in honor of Professor Fernando Alegria titled "El Modernismo a Cien Años de Azul..." at Stanford University, Stanford, Calif., Nov. 11-12.

Morris Pollard, Coleman director of the Lobund Laboratory and professor emeritus of biological sciences, delivered an invited lecture "Prevention of Tumors in Lobund-Wistar Rats by Moderate Dietary Restriction: Prostate Cancer and Hepatoma" sponsored by the Johnson & Johnson Company at the Focused Giving Scientific Symposium, New Brunswick, N.J., Nov. 22.

Michael J. Radzicki, assistant professor of management and faculty fellow in the Institute for International Peace Studies, and Michael G. Bowen, assistant professor of management, presented an invited lecture titled "The Dynamics of Escalated Commitment" to the faculty and students of the Graduate School of Management at Michigan State University, East Lansing, Mich., Nov. 14.

Phillip R. Sloan, chairman and associate professor in the Program of Liberal Studies, gave the paper "Matter, Life and Vitality: Buffon's Organic Molecule, Revisited" at the Midwestern 18th Century Society meeting at the University of Notre Dame, Notre Dame, Ind., Oct. 7. He presented "Workshop on 18th Century Microscopy" at that same meeting, Oct. 8. He presented the paper "Archetypes and Evolution: New Light on the Owen-Darwin Relationship" to the faculty seminar in History and Philosophy of Science, Northwestern University, Evanston, Ill., Nov. 11.

David L. Snyder, assistant faculty fellow in the Lobund Laboratory, gave an overview and recommendations from the 1988 NIA Conferences on Nutrition and Aging: Overview of the Symposium on the Effects of Dietary Restriction on Aging and Disease in Germfree and Conventional Lobund-Wistar Rats at the 41st annual Scientific Meeting of the Gerontological Society of America in San Francisco, Calif., Nov. 20.

Andrew J. Somnese, chairman and professor of mathematics and co-director of the Center for Applied Mathematics, gave the colloquium talk "On the Projective Classification of Varieties" and the seminar talk "On the Numerical Solution of Systems of Polynomials arising in the Design of Mechanisms" at the University of Albuquerque, Albuquerque, N.M., Nov. 10.

J. Kerry Thomas, Nieuwland professor of chemistry and visiting professor at Bristol University, England, presented "Tripping the Light Fantastic" at Bristol University, England, Oct. 1. He presented "Photophysics in Polymer Films" at Bristol University, Nov. 2. He gave the seminar "Photophysics and Photochemistry in Polymer Systems" to the Chemistry Department at Sheffield University, England, Oct. 19. He presented "Diffusion in Polymer Systems" to the Chemistry Department at Oxford University, England, Nov. 7. Thomas also gave the seminar "Photochemistry in Microemulsions and Colloidal Semiconductors" at the University of East Anglia, England, Nov. 11.

Eugene Ulrich, professor of theology, as president of the International Organization for Septuagint and Cognate Studies, presided over a special session of the Society of Biblical Literature titled "The Septuagint and the DJD Scrolls" celebrating the publication of Discoveries in the Judean Desert, volume 8. He also presided over the regular program of the IOSCS and its executive committee meeting at the Society of Biblical Literature annual meeting, Chicago, Ill., Nov. 21.

Andrzej Walicki, O'Neill professor of history, delivered the paper "Catholicism in Russian Religious and Philosophical Thought" at AAASS National Convention in Honolulu, Hawaii, Nov. 18-21.

Michael C.F. Wiescher, assistant professor of physics, was an invited visiting professor at Kernforschungszentrum, Karlsruhe, W. Germany, June-Aug. 1988. He presented "Bottlenecks and Waiting Points in the RP-Process" at the symposium on Questions in Nuclear Astrophysics and Experimental Approaches held in Crete, Greece, June 12-18. He gave the invited talk "New Experimental Results for Nuclear Reactions in Explosive Hydrogen Burning" at the symposium on Origin and Distribution of the Elements, New Orleans, La., Aug. 31-Sept. 4.

Edward C. Zaragoza, associate director for research at the Center for Pastoral Liturgy and assistant professional specialist in the Institute for Pastoral and Social Ministry, delivered the paper on "Saints, Devils, Old Men, and Crazy Women: The Festival Masks of Loiza, Puerto Rico" at the annual meeting of the American Academy of Religion in Chicago, Ill., Nov. 19.

deaths

Gertrude LaFortune, benefactor, Nov. 2.

Edward R. Quinn, associate professor emeritus of education, Oct. 28.

documen- tation

faculty senate journal may 2, 1988

Dr. F. Ellen Weaver, chair of the Faculty Senate, called the meeting to order at 7:30 p.m. and Prof. Eugene F. Gorski, C.S.C., offered a prayer.

Weaver asked if there were additions or corrections to the Journal for the January 20 meeting of the senate. Prof. Jean A. Pec suggested that the Journal be corrected as follows: on page three, the second line of paragraph three should read: "Borelli also inquired about faculty salaries, specifically library faculty salaries for next year." The Journal of January 20 was approved as corrected. Weaver then asked for a motion to approve the Journals of February 4 and March 2. These Journals were approved.

Weaver next introduced the following new members of the senate: Arts and Letters: Kathleen A. Biddick, Frank J. Bonello, Leo A. Despres, Mark C. Pilkinton, Louis A. MacKenzie, Jr., William L. Peterson; Science: Harvey Bender, Mario Borelli, Bruce A. Bunker; Business Administration: Robert E. Miller, Michael J. Etzel; Library: Margaret Porter; Special Professionalist: Peter Lombardo; Emeritus: Charles E. Parnell. Engineering elections not as yet conducted. Weaver reminded the new senators that they would become voting members when the last item of New Business was reached, namely the election of officers for 1988-89. She reminded the senators whose term was expiring that they had the vote until the business of the year, up to the election of officers was concluded.

Weaver went on to make the following report from the chair: 1) In the name of the senate she sent flowers to Harriet Flowers on her birthday, and she received a note of thanks from her. 2) She sent a note to the Provost calling his attention to the motion passed at the meeting of March 2 relative to uniformity in implementation of the Review Procedures. 3) She wrote a note to Fr. Bartell, chair of the C.S.C. Committee to Draft the Statement on Higher Education, thanking the Committee for sharing the statement with the senate and advising that a report would be forthcoming. 4) She extended personal thanks to the members of the Executive Committee for their work and support during the year. She also extended thanks on behalf of the Executive Committee to all the senators for their contributions.

Weaver turned to the report of the Committees. Prof. Mario Borelli, chair of the Committee on Benefits, stated that the responses made to the survey on the faculty's perception of the status of benefits were being tabulated, and that the results would be communicated in a future report. Borelli then reported on the report of the Ad-Hoc Committee on University Boards and Committees. He suggested that if any senators were interested in a further analysis of the report, they should concentrate on those items where the responses were contradictory. Borelli also commented on the report concerning "Future Prospectives for Health Benefits and Other Benefits at the University." This report was compiled from remarks made by Mr. Roger Mullins, director of the Human Resources Department. Borelli moved that the senate go on record as appreciating Mullin's openness and his sharing information with the senate. The motion was seconded, and it was carried unanimously.

Weaver then called on Prof. John Yoder to report for both the Committee on Academic Affairs and the Committee on Administration. Yoder in turn asked Prof. Phil Quinn to make the following motion which he had proposed and written:

RESOLVED: 1) It is the sense of the senate that the recommendation of the Task Force on Teaching (Notre Dame Report, Special Issue of April 8, 1988, "Report of Task Force on Teaching," p. 10) that several senior faculty be added to the Provost's Advisory Committee should be promptly implemented; 2) Upon adoption by the senate, a copy of this resolution shall be transmitted to the Provost.

After Quinn spoke in favor of the motion, it was seconded, and accepted unanimously by the senate.

Yoder then made the following motion:

Whereas President Malloy, in his conversation with the Senate Executive Committee on January 26, 1988, expressed openness to the possibility of direct faculty representation on the University Board of Trustees, and

Whereas a polling of the faculty indicated strong support for the motion,

The Senate

- a) resolves that it would be desirable that there be on the Board of Trustees members of the faculty, tenured or of equivalent rank, elected at large by the faculty;
- b) requests that President Edward Malloy, C.S.C. forward this request to the Board of Trustees;
- c) authorizes its Executive Committee to negotiate further the details of implementation.

The motion was seconded, and then accepted unanimously by the senate.

Prof. Patrick Murphy, chair of the Committee on Student Affairs, reported that four separate subcommittees were working on issues like: continuation of the Hall Fellows Program; classroom space; social space for interaction of faculty and students; faculty involvement in the Freshman Orientation Program. Reports from these subcommittees are forthcoming.

Under New Business, Prof. Paul Conway made the following motion in order to reinforce and implement a parallel motion made and accepted during the meeting of March 2:

Moved further. It is the sense of the senate that a date one month prior to the end of the academic term, be established and recorded in the University Calendar for the announcement of decisions on reappointment, promotion and tenure.

Yoder seconded the motion, and it was adopted unanimously by the senate.

Weaver then asked Borelli to conduct the elections of Faculty Senate Officers for 1988-89. Before proceeding to the elections, Borelli made a motion that the senate

express gratitude to Weaver for her work as Chair. The motion was seconded and it was accepted unanimously by the senate.

The results of the elections are as follows:

Chair: F. Ellen Weaver
Vice-Chair: Dennis Moran
Co-Secretaries: Eugene F. Gorski, C.S.C. and Peter Lombardo
Treasurer: Paul F. Conway
Chair, Committee on Academic Affairs: Kathleen Biddick
Chair, Committee on Administration: Philip Quinn
Chair, Committee on Benefits: JoAnn Della Neva
Chair, Committee on Student Affairs: Mario Borelli

Adjournment was moved by Borelli and seconded by Yoder. The meeting adjourned at 8:40 p.m.

Members present: Steven M. Bell, modern/classical languages; Kathleen A. Biddick, history; Frank J. Bonello, economics; Mario Borelli, mathematics; Paul F. Bosco, emeritus; Jacqueline L. Brogan, English; Bruce A. Bunker, physics; Rev. Austin I. Collins, C.S.C., art; Paul F. Conway, finance/business economics; JoAnn Della Neva, modern/classical languages; Leo A. Despres, anthropology; Kent Emery, program of liberal studies; Michael J. Etzel, marketing; Pamela R. Falkenberg, communication/theatre; Stephen M. Fallon, program of liberal studies; Thomas P. Flint, philosophy; Mohamed Gad-el-Hak, aerospace/mechanical engineering; Andre Goddu, program of liberal studies; Edward A. Goerner, government/international studies; Rev. Eugene F. Gorski, C.S.C., theology; Sandra J. Harmatiuk, freshman year of studies; Robert G. Hayes, chemistry; Douglas R. Hemphill, ROTC; Suzanne Kelly, Institute for Pastoral and Social Ministry; Robert L. Kerby, history; Alan Krieger, library; Peter J. Lombardo, Center for Continuing Education; Louis A. MacKenzie, Jr., modern/classical languages; Robert E. Miller, management; Dennis Moran, "Review of Politics"; Michael H. Morris, accountancy; Charles E. Parnell, emeritus; Jean A. Pec, library; William L. Petersen, theology; Mark C. Pilkinton, communication/theatre; G. Margaret Porter, library; F. Clark Power, program of liberal studies; Walter Pratt, law; Philip Quinn, philosophy; William D. Shephard, physics; Donald E. Sporleder, architecture; F. Ellen Weaver, theology; John H. Yoder, theology.

Members on Leave: Jay P. Dolan, history.

Respectfully submitted,

Eugene F. Gorski, C.S.C.
