## ND reaches goal, plans new dorm

#### by Mike Shields News Editor

Committments to the Campaign for Notre Dame have pushed the University's fund raising drive over its \$130 million target and paved the way for the construction of a new undergraduate dorm. The drive benefitted greatly by an anonymous donor's \$7 million committment, which will finance the new dorm, and by a \$10 million grant from the John and Helen Kellogg Foundation of Chicago. The latter will endow the University's Institute for international Studies. Vice-President for Public Re-

W. Frinkwould not release any information about the donor, but said he is not an alumnus.

The new dorm will allow the University to admit 500 more women, but it has not yet been decided whether the new dorm will house women or men. The new admissions will boost the undergraduate student body from 6.800 to 7.300. The balance of the endowment, which will be paid over a three-year period, will be earmarked according to these priorities: research and publications, \$1.5 million; visiting scholars, fellows, and student assistance, \$1.5 million; library and resources,\$1 million, and institute operating expenses, \$1 million. The Institute's faculty will

include three existing chairsthe C.R. Smith Professorship in Business Administration, the Joseph and Elizabeth Robbie Professorship in Government and International Studies, and the William and Dorothy

O'Niell Professorship in Education for Justice. The five new chairs have not yet been filled, Francis said. "Recruiting is a several year process. We won't speed it up and sacrifice quality." He said a governing board composed of the eight endowed

## State Department suggests Hesburgh

Notre Dame President Fr. Theodore M. Hesburgh is one of five candidates the State Department has recommended to replace U.N. Ambassador Andrew Young, according to a report by *The New York Times*.

The article quoted administration officials who said that they expect President Carter to quickly name Young's successor. The officials said that, since the U.N. General Assembly reconvenes next month, it is important to name a replacement so Senate confirmation could take place soon after Labor Day.

Hesburgh has previously turned down permanent posts in the administration. He has turned down similar appointments in other administrations including the directorship of NASA under President Lyndon Johnson and head of the Office of Economic Opportunity under President Richard Nixon.

The Times said that the State Department sent its reccomendations to the White House. Included with Hesburgh were: Donald F. McHenry, the number two man in the U.S. delegation to the U.N.; Dick Clark, former Iowa senator who now coordinates refugee affairs for the White House; Barbara Jordan, former Texas congresswoman and now a professor in the University of Texas Law School; and Sol Linowitz, one of the negotiators of the Panama Canal treaties.

Hesburgh is in Vienna as co-chairman of the U.S. delegation to the U.N. Conference on Science and Technology for Development. He was out of his hotel room last night, and could not be reached for comment. He is the first Catholic priest to hold the rank of American ambassador.

The goal of the 12-day conference is to find practical ways to transfer scientific and technical know-how from developed to lesser developed countries.

Specifically, the delegates will examine ways to strengthen the scientific and technological capacities of the developing nations, restructure access to scientific knowledge and technical expertise and improve financial support for and coordination of current scientific and technological activities within the United Nations.

By John McGrath Senior Staff Reporter

Fr. Michael Heppen, current director of Student Accounts, will replace Edmund Price as

head of the University Housing Office, it was announced Monday. Heppen said he plans to assume full control of the office Sept. 7. Price has accepted a position with the University of

#### Texas at Austin.

Heppen's appointment follows a decision made by the administration this spring to return the Office of Housing to jurisdiction of the Office of Student Affairs. During Price's one-year term of office, the Housing Office had been placed under the Office of Business Affairs.

Price had been the object of considerable controversy earlier this year after the possibility of a housing lottery to ease the overcrowding situation on campus existed.

Although he termed his new assignment very challenging, Heppen said he anticipates no major problems with the housing situation. He pointed to less crowded conditions this year and the proposed construction of additional dorm space as evidence of his optimistic outlook. 'I'm open to any system they (students) want," Heppen said, "but I really think the system that Housing came up with last year was good." Although he explained that he had not been fully briefed on the housing situation yet, Heppen credited the Housing Office under Price with easing some of the difficulties the University experienced last year in regards to housing. "I think things are better this year because of the improved procedures the Housing Office developed last year, particularly the way they went through the reservation lists early," Heppen said. "At any rate, last year at this time, I remember people were lined up down the

### To economize University cuts maid services

by Mark Rust News Editor

A cutback in University housekeeping services results from an Administrative decision made last January to save money and increase the Many housekeepers, according to Daley, did not understand why the services were being curtailed. "At first they thought they were getting more work to do. I've had two or three meetings with them to explain that they were actually going to do less work."

Notre Dame now has 1,585 women undergraduate students.

The \$10 million Kellogg grant, the largest single grant ever made to the University, will help the newly-named Helen Kellogg Institute for International Studies examine the role of non-governmental forces in international relations. according to Michael Francis, director of the Institute. He stressed the growing role of economic developments, technology and such agencies as the Catholic Church and multinational corporations in international relations. Francis said that half the grant will endow the five professorships in the fields of developmental economics; the philisophical and theological aspects of government and international relation; science or technology and society; sociology-anthropology; and international law and human rights.

wages of housekeepers. That decision reflects what could become a growing trend in departments across campus, according to Donald Dedrick, director of Physical Plant.

Maids who once cleaned a student's room every day will now provide the same service twice a week. The service consists of basin cleaning and trash can emptying.

No housekeepers will be layed off as a result of the decision, according to Junior Daley, Interior Mainenance supervisor. The University decided last January to forgo the replacement of those housekeeping employees who die or retire, thereby saving wages which can later be added to the paychecks of the other employees.

"We want our worker's wages to be commensurate with those of other workers in the area," Dedirck said yesterday. He added that although he did not have the figures readily available, he believes that the wages will now be commensurate.

Dedrick observed that inflation is creating havoc within administrative budgets all across the country, and most institutions are seeking to avoid raising already high room and board costs.

"Cutbacks in services are bound to be the trend and it is either that or increase fees. That is something we want to avoid at Notre Dame," Dedrick said. The maids will, in fact, have 20 percent less work under their new cleaning schedule. Using Flanner Hall as an example, Daley explained that the maids, each of whom previously had cleaned one and a half floors five days a week, will now clean three floors twice a week. This represents a decrease of one and a half floors cleaned per week per maid.

Attrition among the housekeeping staff has proceeded so rapidly since the administrative decision in January that the Interior Maintenance Department has already reached its target of 58 employees, down from 80 in January. Although talk about unionization among the

Although talk about unionization among the housekeeping staff was rampant last semester, both Dedrick and Daley agreed that the move to decrease services and increase wages had nothing to do with the unionization issue. Four south quad housekeepers, interviewed yesterday and prefferring to remain anonymous, share this view.

The housekeepers all mentioned that they had heard "grumbling" among the students after the services cutback announcement. According to Daley, this is "natural." "I'm quite sure the students are not going to be

"I'm quite sure the students are not going to be happy about it, but I understand that we are one of the few universities left that still have maid services," he said

## News in brief

## 'Mein Kampf' sells slowly in Germany

BONN WEST GERMANY (AP)- West Germans can buy "Mein Kampf" for the first time in 34 years, but they have shown little interest in the book in which Adolf Hitler outlined his Nazi philosophy. Sales of copies of Hitler's book printed bepore 1945 are legal under a recent Supreme Court ruling, but no new editions may be printed or sold in West Germany with the exception of stores operated exclusively for U.S. and other foriegn armed forces. Acting on an appeal the Supreme Court in Karlbrue reversed a lower court that had sentenced a second hand book dealer to a \$656 fine for selling two volumes of the book, which was written by Hitler during imprisonment after the failure in 1923 of his Beer Hall Putsch attempt to take over the Bavarian government, outlines his anti-Semitic views and plans to conquer Eastern Europe and the Soviet Union.

## Priest cleared of charges in 'gentleman bandit' case

PHILIDELPHIA (AP)- The Rev. Bernard Pagano, besieged with television, movie and book offers to portray his arrest and later vindication as the so called Gentleman Bandit said yesterday he is still "cool calm and collected. I'm awestruck by the notoriety," said the 53-year old Roman Catholic priest of the armed robberies which another man has confessed committing. Pagano was cleared of the Delaware crimes last week, right in the middle of his trial in Wilmington, even though seven victims positively identified him as the gun-toting robber. "No matter wat you do in life there are some people who won't believe what you claim you are," he said about those who "question and doubt and still think I'm guilty."

## White House refutes Jordan cocaine allegations

WASHINGTON (AP)- An affidavid intended to buttress an allegation that Hamiliton Jordan sniffed cocaine at a New York City discotheque last year came under sharp White House attack yeaterday. Presidential press secretary Jody Powell denounced the affidavit from a patron of Studio 54 as a 'concoction'' designed to correct factual inaccuracies in earlier versions of the allegation against the White House chief of staff. According to allegations made last week by attorneys for the two Studio 54 owners, Jordan went off with a companion to a secluded room during his visit to the disco, obtained cocaine from a drug dealer and inhaled it.

## Indiana hits Sororities Fraternities with state tax

INDIANAPOLIS (AP)- Social fraternities and sororities in Indiana must collect sales taxes on the meals they serve and must pay state gross income taxes on the money they collect for room and board, the State Court ruled yesterday. The ruling may have made Indiana the only state in the nation to require fraternities and sororities to collect sales taxes on

#### Wednesday, August 29, 1979 - page 2

meals, attorneys and fraternity officials said.

two ND students' lives

Funeral services for Joseph W. Evans, philosophy professor and founder and former director of Notre Dame's 'Jacques Maritain Center, were held Monday in Sacred Heart Church.

Evans, 57, was found dead in his apartment Friday evening. Dr. Louis Grwinski, deputy coroner, estimated that Evans had been dead for about 10 days. He added that the professor, a diabetic, had died of natural causes.

Evans joined the Notre Dame faculty in 1950. He founded the Maritain Center in 1958 to encourage study and research on manuscripts of Maritain, a French neo-Thomist who was considered by many to be the Church's foremost thinker at the time of his death in 1973. Over the years Evans edited and translated a number of Maritain's works, and in 1969 he edited and contributed to

"Jacques Maritain, The Man and His Achievement," an evaluation by thirteen scholars published by Sheed and Ward. 969 Evans was the first

end of the Charles E. ward for excellence in at Notre Dame. He his academic career at the University except for a year in 1953-54, when he held a Ford Foundation Faculty Fellowship

at Yale University

In July Ralph McInerny, Grace professor of medieval studies and director of the University's Medieval Institute, was named to succeed Evans as director of the Maritain Center. Evans was to remain on the faculty and do research on Maritain. McInerny will retain director-

Defector's wife returns to Soviet Union

MOSCOW (AP) - Bolshoi bal-lerina Luomilla Vlasova stepped from a long-overdue jet into the arms of her weeping mother yesterday, then told interviewers her 73<sup>1</sup>/<sub>2</sub>-hour delay at Kennedy Airport was "mad-ness." Meanwhile, her government accused the United States

of "anti-Soviet" plotting. Crowded by reporters and security men, the 36-year-old brunette walked from the plane at Sherenettevo Airport, embraced her mother and said: "Please, mama, don't cry, I'm back.'

Later, Miss Vlasova said in an interview broadcast on Moscow Radio: "I consider (the Americans') actions to be arbitrariness because they occupied our plane by force. They got inside with guns and handcuffs to guard me. It was just madness. "I am very happy that I set foot back on native soil," said the dancer, who convinced U.S. authorities at a meeting Mon-

day night she was returning to Moscow of her own free will.

Concvinced of that, U.S. authorities allowed the aircraft to leave three days late.

A statement published by the Soviet news agency Tass quoted Miss Vlasova as saying her ordeal was "an act of brutality" organized by people wanting "to worsen Sovietamerican relations.

The Soviet media failed to report that her husband, Bolshoi star dancer Alexander Godunov, had defected last Wednesday, setting off the chain of events that ended wih her arrival home.

Tass' only reference to her husband was a statement that Miss Vlasova "did not want to find herself in a situation similar to that of her husband . . who had disappeared shortly before that under circum-stances which are not yet

clear.'

Miss Vlasova refused to comment about her husband, but she did praise the Soviet gover-nment, saying that "I felt all the support I needed" from her relatives and countrymen.

Tass accused U.S. authorities of lacking "responsibility and common sense" throughout their dealings at Kennedy Air-port and of planning an international incident between the two nations.

"It would seem that if the U.S. authorities had any questions for anyone of the passengers or the crew of the plane, these questions could have been asked during the usual formali-ties before the flight," Tass declared.

"But the script of the provocation was planned in a different way. Its authors sought a scandal. They hoped for a noisy anti-Soviet sensation," the

statement said.

"I am very tired of course," Miss Vlasova told a Western reporter after her nine-hour flight here. She was driven off in a sedan without custorns formalities.

At the airport, the 52 other passengers aboard the Beroflot Ilyushin-62 jetliner said the atmosphere inside the craft at Kennedy Airport was warm but tense while negotiations dragged on outside.

Passengers said they held a chess tournament and put on "very jolly" amateur entertain-ments while Miss Vlasova roamed the aisles freely, joining in their songs and even signing autographs.

The passengers said they all were aware of Godunov's defection because they read about it in New York newspapers.

## Melloh to direct Center for Pastoral Liturgy

been named director of the Notre Dame Center for Pastoral Liturgy.

Father Melloh, the Center's associate director and director of training programs since 1977, succeeds Fr. John J. Gallen. Staff member Dr. Mark Searle will become associate director. Both appointments were effective July 1.

After completing undergrad-uate work at the University of Dayton, Father Melloh received a master's degree in liturgical studies from Notre Dame in 1972 and a doctorate in historical theology with a concentration in liturgy from St. Louis University in 1974.

He has worked with liturgical celebration over the past 10 years, serving as parish music director and member of Miami's Liturgical Commission, and lecturing throughout the country. He came to Notre Dame from St. John's University (Collegeville, Minn.) where he taught liturgy and was liturgy director for the seminary.

One of four centers officially designated by the American bishops to assist in the work of liturgical renewal, the Center for Pastoral Liturgy is also one

Fr. John Allyn Melloh has of several Notre Dame programs serving Christian ministry, under the direction of the Center for Pastoral and Social Ministry.

## Castellino receives

## Akron Award

Dr. Francis J. Castellino, dean-graduate of the Univer-sity of Notre Dame College of Science, has received the Akron Section Award of the American Chemical Society for his explanation of the way the human body's blood-clot dissolving system is activated.

The Akron Award recognizes young scientists who show exceptional promise for making significant contributions to chemical science. A biochemist who joined the Notre Dame faculty in 1970, Castellino was recently named dean of the College of Science. His appointment is effective Sept. 1.

#### Wednesday, August 29, 1979 - page 6

## Notre Dame director of security resigns

Joseph W. Wall, director of sciency at Notic Dame since last October, will be leaving that post, according to James A. Roemer, dean of students

"We have accepted Joe Wall's resignation with regret," Rocmer said. "He performed his duties with the highest professionalism."

Roemer explained that Wall, who has been living in a South Bend apartment and commuting on weekends to his home in Richton Park, Illinois, to see his wife and child, was unable to move his family to the South Bend area because his, wife could not find comparable employment Wall was formerly chief of police for Richton Park and held an associate of arts degree in law enforcement from Thornton Community College, a bachelor of arts in social justice from Lewis University, and has completed preliminary work on a master's degree in public administration at Roosevelt University, Chicago.

The date his resignation will take effect is indefinite, but the University has advertised the opening and Roemer, assisted by Student Body President William Roche and Vice President William Vita, has already interviewed three candidates.

## THE FIRST CALCULATOR SMART ENOUGH TO SPEAK YOUR LANGUAGE.

ABHC-DD-EHKEDXCXCC-D The 5100 speaks to chemistry majors.

# The 5100 speaks to mathematics majors.

The 5100 speaks to physics majors,

## THE SHARP 5100

The amazing new Sharp 5100 is quite possibly the most important thing that's happened to calculators since calculators happened to math.

Here, at last, is a scientific calculator with direct formula entry, in algebraic terms. Even the most complex formulas can be entered and displayed just as they are written. Furthermore, your original entries can be visually edited, corrected, or tested. Which means there's no need for machine-language encoding or decoding. Result: you save valuable time, and " avoid the frustrating errors that might have slipped by you before.

And the incredible 5100 offers you a 24-character dot-matrix display that rolls right or left to accommodate one or more formulas totaling up to 80 steps. Store the formulas; when you need any segment, instant playback is at your fingertips. Incidentally, Sharp's own Safe Guard<sup>™</sup> feature protects all entered formulas and

quickly and precisely when and where you want, at any point in the calculation.

The 5100 makes the job of assimilating, studying, and problem-solving a lot easier for you. You skip past the drudgery of wasted time. You enjoy the convenience of a classroom tool that operates as fast as a professor can talk. And the 1,000-hour battery life could very well take you all the way through college.

Most importantly, the Sharp 5100 is smart enough to talk to you directly, and on your own terms.

And in your case, that's a major advantage.

Ask for a demonstration today at your college store.

## President Carter to visit China

Carter and Chinese leader Hua Guofeng will exchange visits to China and the United States next year, Vice President Walter Mondale announced yesterday after arranging talks with the Peking leadership about the future of Chinese-American relations.

Mondale said Hua, Chinese premier and Communist Barty chairman, accepted Carter's invitation "with delight." Dates for the 1980 trips are not set.

Hua told Mondale he was aware it was the vice president's first visit to China and the first by such a high-ranking American since diplomatic relations were established Jan. 1.

"So I extend you a special welcome because of these two firsts. It is a beginning, not an end," Hua said.

They met at a ceremony for the signing of a broad range of agreements covering cultural exchanges and U.S. assistance for China in developing its hydroelectric power resources.

The cultural pact for 1980-81 covers education, art, broadcasting, sports and other areas. The energy plan calls for U.S. funds for some of China's 20

PEKING (AP) - President pending hydroelectric pro-Carter and Chinese leader Hua grams, and will involve help Guofeng will exchange visits to from the U.S. Army Corps of Engineers, the Department of Energy and the Tennessee Valley Authority.

Mondale also announced he would open a U.S. consulate in Canton, "the first consulate we've had in China in over 30 years." When he visits southern China's biggest city during his current tour. He siad China will open consulates in Houston and San Francsico in the near future

Asked how he was adjusting to China, Mondale smiled and told reporters, "I'm now part-Chinese. I am an expert on Chinese food.

The vice presdient delivered a speech Monday at Peking University, and he said Tuesday he was pleased the talk had been covered in such detail by the Chinese media, which broadcast it on radio and television nationwide.

In it he said a strong China is in America's interests and offered the Chinese economic partnership in the 1980's along with a \$2 billion line of credit from the Export-Import Bank. Senior Deputy Premier Deng Kiorping met with Mondale prior to his meeting with Hua and told the vice president, "I heard your speech was warmly welcomed."

In the speech, Mondale promised the Carter administration would submit theamerican trade agreement for congressional approval before the end of the year. The fact contains a most-favored-nation provision that would reduce tariffs on Chinese goods entering the United States. The Chinese are annoyed a the Carter administration's failure to present the 'agreement to Congress, despite Mondale's explanation that it has been held up by the Senate leadership.

In reference to the Housing Office's jurisdiction shift in the Administration, Heppen re-''Student Affairs marked, seems to be the proper locus for the office. Since we will deal with social and extracurricular activities, I think it is much more sensible to have it that way (under the jurisdiction of the Office of Student Affairs). Heppen is no stranger to the Notre Dame campus. A native of Anderson, Ind., Heppen is a Notre Dame graduate and served as rector of Keenan Hall during the 1964-65 school year, and Zahm during the 1965-66 term. In addition to serving as director of student accounts, Heppen was an assistant rector at Alumni Hall.

'I've always lived in a residence hall,"'Heppen observed. "Within the first month of taking office, I plan on getting around to every hall on campus and meeting with all the rectors

and any students who are willing to speak.'

. Heppen

Heppen received his graduate degree in business administration at Noure Dame in 1964 and has done graduate work at the Wharton School of Finance in Philadelphia and at the Graduate Theological Union of Berkeley. He also attended Holy Cross College, where he received a master's degree in theology.

In 1966, he was appointed direcotr of admissions at the University of Portland. From 1970 to 1975, Heppen served as vice-president for development at the Oregon school. He has been honored as Huebner Fellow and a Joseph Wharton Scholar at the University of Pennsylvania, and has participated in summer research projects at Case Institute of Technology, the Federal Reserve Bank of St. Louis, and the Lincoln School of Economics.

"I've seen a lot and gone through a lot myself," Heppen commented, "and I can assure the students that we'll do everything in a humane way."

Not bothering with the Dining Hall, these art students cooked hotdogs yesterday, using hot bricks from the Field House Kiln - pho by Mike Bigley].

## **a** Remembrance: Joe Evans

R. haynes

Dr. Joseph Evans passed away two weeks ago. He was a professor of philosophy at Notre Dame and has been at the University since 1950. This piece is offered in respect and admiration for the man and his work.

It had been one month since I met Dr. Joseph Evans, but when I saw him again, he remembered my name. For many and many a friend and acquaintance this was one of the joyful suprises that Joe shared with us. To ask him how he was would be to receive an occasional quick response, but always a quick "No, no, how are you!" He had a great concern for the person as the person was. His recollection of people he encountered, friends and their family and friends, was his heart-felt testimony as to how important that person was to him.

To greet him with "It's good to see you" would be met with a hearty "It's good to see you!" in a manner of emphasis that cultures such as tradi-tional Ireland and Japan have preserved in their etiquette of greetings. His salutation was marked by a sincere opening and reaching out with the heart which sometimes may have seemed like a battle of politeness but was more a bonding in friendship.

Joe said that he really had to work at remembering names (he once remembered over 150 members in a class by name and face, and many people he met only once he remembered a month or more after first being introduced). Joe, I believe, truly recognized the Christ in us all, making everyone most memorable!

That recognition involved a keen and attentive way of looking at people and at the world. He delighted in what he saw because he saw God in all. Antoine de Saint Exupery -- author of The Little Prince --- one of Joe's favorite works -- capsulized this "God-seeing" in the familiar saying: "It is only with the heart that one sees rightly.

Another of his favorite quotes is taken from Pascal's Pensees (I hope to do it justice): "The mind knows things that the eyes may never see, and the heart sees things that the mind may never know." I include these quotes in my remembrance of him because they were so important to him, because he lived them and practiced them in his life.

Yet many people I talked with about Joe say they didn't know him in a private or intimate manner. He was not one to spend much time speaking of himself and he seemed to value his privacy -- but that is misleading because I don't think he hid himself. He shared himself quite wholly. His wholeness as a person was his gift to his friends. When friends went to see him he made them feel important and that they were doing him a favor by visiting him.

> The poet can only EXPRESS his own substance in a work if things Resound in him ...

Dr. Evan's mentor Jacques Maritain wrote of what Joe lived in Education at the Crossroads: "Man is a person who holds himself in hand by his intelligence and his will. He does not merely exist as a physical being. There is in him a richer existence; he has spiritual super-existence through knowledge and love. He is thus, in some way, a whole, not merely a part.'

Concerning education, Maritain also says: "With regard to the human mind, neither the richest material facilities not the richest equipment in methods, information and erudition are the main point. The great thing is the awakening of the inner resources and creativity.

The Crossroads--the subject of many of the late Joseph Evans' essays. [photo by Mike Bigley]

The following are excerpts from articles written by Joseph Evans The excerpts from Walk Through Campus I and II were provided courtesy of the Scholastic. Excerpts from Winter Wonderland are reprinted from The Observer.

#### On fences:

I don't like those steel posts there and the restraining wire--'Don't fence me in'; I don't want to be cribbed, cabined and confined. Grass is beautiful, but persons are beautiful-er.

On Coeducation: On autos, ethics and patriotism: the heart that What a boon to Notre Dame that it one sees rightly. went coed five years ago. How right I was to damn as 'excrable' the couplet: 'You can lead a horse to water, but Before moving, I often thank God and my lucky stars that I long ago decided to 'take the bus and leave the driving His personal work was of greatest to us', and to have nothing at all to do you can't make him drink, importance to him for this was his way You can lead a girl to Vassar, but with cars except to collect dividends of searching for Truth. Joe was deeply every hree months from a few vou can't make her think." religious and was a student of Maripiddling automobile stocks that I tain. Both men, in turn, admired St. bought many years ago in a moment of Thomas Aquinas. This Aquin common weakness (weakness of *myself*, not the stock) and that I can't bring my Milque On perspective: ground between their philosophies was not accidental and helps account toastian self to dispose of (is this 'of for the great dedication both men had dangling?) lest someone accuse me of to the furthering of the teachings of Did you not know--did it never dawn not being interested in 'what's good Aquinas. Such was the fervor of Dr. (or twilight) on you that autumn (as is for the country.' Evans that he founded and directed indeed everything in this world) is the Maritain Institute at Notre Dame. ambivalent-i.e. 'glad/sad'? In *The Range of Reason*, Maritain explains the importance of work to a man like Joe: "The substance of man On survival in South Bend: On The Crossroads Park between classes: is obscure to himself; it is only by receiving and suffering things, by awakening to the world, that our substance awakens to itself. The poet I pick my way slowly through the flow-no jostling, no competing with call that a Wonderland? Well, It's a anyone-and choose my direction. can only express his own substance in a work if things resound in him, and if, in him, at the same awakening, they and he merge together from sleep.

students in and out of class made him it is significant to recognize that live constantly as a whole person. Maritain's last book showed that at the There was no sharp divide between end of his life he was bitter and body and spirit, teaching and listen. frustrated. He felt that he was not ing, studying and resting. He took his being taken seriously, while younger, work with him as he conversed, more 'modern' philosophers surwalked. ate.

It is only with

This approach to people and to With the joy Joe showed for his work, passed him in recognition. He believed that his colleagues viewed him as a peasant.

Ironically, not long before his death, Joe was asked to step down from the lirectorship of the Maritain Institute and the Institute was transferred to the Medieval Institute. This was a tragic event for him and hurt him deeply. But he was still able to find good in this event.He was hurt, but I don't believe he was bitter. In this way, perhaps, he truly learned from his mentor, in that he more fully lived what they both taught. He intended to keep working and did. He regretted not being able to visit his family and attend a number of weddings, but he had a great sense of dedication to his work. The love of living that Dr. Joe Evans felt was also felt by all sho knew him. Those who came to share their love at his funeral included his family from Canada, friends from the University, from town, from New Jersey, Florida, Illinois and Nebraska. I too loved him. My hope is that his work is remembered. Most of all, I hope that his love is remembered for it was the force behind his work. Joe Evans was human, and his was the gift of grace in the realization of this fact and in living fully his humanity. Adieu, mon ami. Requiem in pacem.

Enjoy-dear reader-our Winter Wonderlands. But I hear you asking: What about the big snow--the Big Blizzard--of January 25-29, 1978? How can you wonder we survived it, -isn't it?

## Hurricane threatens Caribbean

## Rabbi joins faculty

Rabbi Pincus Peli, chairman of the department of Jewish Thought at Ben Gurion University and director of Abraham Joshua Heschel Institute of Jerusalem, will join the Theology Department at the University of Notre Dame during the fall semester. He will conduct Prayer in Judaism and Religious Language and Liturgy courses.

Rabbi Peli appeared in Judaism segments of the highly acclaimed BBC and PBS television series, "The Long Search." He is the author of "On Repentance" and "Oral Discourses of Rav Joseph Soloveitchik," as well as numerous articles on contemporary theological issues in journals and scholarly publications.

Born in Jerusalem, he was educated at Yeshivot and Hebrew University, and received his doctorate at Jewish Theological Seminary in New York City. He is a specialist in the Talmud, Modern Jewish

Professor receives grant

Rodolpho Sandoval, associate professor of law at Notre Dame, is one of 17 Chicano faculty members at U.S. colleges and universities to receive research grants totaling \$150,000 from the National Chicano Council on Higher Education (NCCHE).

Sandoval, a member of the law faculty since 1976, is the recipient of a \$7,500 grant for research on law and economics to be done this fall.

In March, he was awarded a post-doctoral fellowship from

BRIDGETOWN Barbados (AP) - Hurricane David, one of the most dangerous storms ever to threaten the Caribbean, gained strength yesterday and sent residents and tourists in the Lesser Antilles island chain scrambling for shelter.

U.S. forecasters clocked sustained winds in the storm at 150 miles an hour and predicted gale-force winds would reach Barbados, the easternmost island of the Caribbean, by last night. Officials here said an unusually high number of American and other off-season tourists were on the island, many in luxury beach hotels that could be hit with the full brunt of the storm.

"Hurricane David is at this moment comparable to the great hurricanes in the history of the Antilles, like the 1831 hurricane of Barbados and the 1831 hurricane of Martinique," said a spokesman for the U.S. National Weather Service in San Juan, Puerto Rico. David is the second tropical strom of the season in the Atlantic, and forecasters said it was the "strongest to threaten the lesser Antilles since Hurricane Donna," which followed a similar path 20 years ago, killing 150 people in Puerto Rico and Florida.

The storm was coming off the Atlantic Ocean, and at noon yesterday was about 200 miles east of Barbados, moving westward at 15 miles an hour, Weather Service officials said. Hurricane warnings have been issued for the islands of St. Vincent, St. Lucia and Martinique, and a hurricane watch was in effect in Trinidad and Tobago to the south.

"Residents of the islands from Barbados and the Grenadines northward to Martinique are urged to carry out maximum preparatory measures immediatley," forecasters said. Those islands are all in the Lesser Antilles chain, which separates the Caribbean Sea from the Atlantic between 1,500 and 2,000 miles southeast of Miami.

# Choose the Texas Instruments calculator that's right for your major.

When you're working in a specialized field, you need a specialized calculator. That's why Texas Instruments designed the *Slimline* Business Analyst-II<sup>110</sup> for business and finance... and the *Slimline* TI-50<sup>110</sup> for science and math. Each provides the tailored power and the reliability you'll need as you learn to solve the problems you'll face as a professional. And each has a price you'll appreciate as a student.

#### *Slimline* Business Analyst-II. Sleek LCD calculator with versatile business capabilities.

Solving financial problems with the *Slimline* Business Analyst-II can make working with your old calculator seem like pencil-and-paper arithmetic. The functions required to perform many common business, financial and statistical calculations are built in to help you make quick, accurate evaluations of many complex business situations.

Special financial keys are used to handle time and money problems such as com-

Statistical and linear regression capabilities provide the power you'll need to boil down data and automatically handle problems such as sales and earnings forecasts.

Profit margin calculations concerning cost, selling price and margin can be performed rapidly when any two of the variables are known. Other features include a four-function data register with Constant Memory<sup>™</sup> feature that retains its contents even when the calculator is turned off. Two miniature batteries provide up to two years of operation in normal use. And TI's APD<sup>™</sup> automatic power down feature helps prevent accidental battery drain.

The Business Analyst-II, with detailed owner's manual and suede-look vinyl wallet with pockets for notes, \$45.00\*.

#### The *Slimline* TI-50 packs 60 powerful functions into a handsome, compact package.

The pocket-portable *Slimline* TI-50 is a remarkably powerful LCD slide-rule calculator. Yet it's as thin as a pencil and weighs only three ounces! natural logarithms. Six trigonometric operations that can be performed in three angular modes (degrees, radians or grads). Two constant memories that retain their contents even when the calculator is turned off. And more.

Seven built-in statistical functions simplify the task of boiling down large sets of data points so you can perform accurate analyses and draw reliable conclusions.

The power of the *Slimline* TI-50 is made easy to use by TI's AOS <sup>™</sup> algebraic operating system, which provides 15 sets of parentheses and accepts up to four pending operations. That means you can enter most problems just as they're written, left to right.

Two miniature batteries provide up to two years of normal operation. And TI's APD<sup>TH</sup> automatic power down feature helps prevent accidental battery drain.

The *Slimline* TI-50 includes a detailed owner's manual and a durable vinyl wallet, \$40.00\*.

Make sure your next calculator has the specialized power to handle the problems

#### NCCHE.

He is a specialist on Consumer Law and was selected last year from more than 2,000 applicants as one of 33 finalists for a White House Fellowship.

The awards are made through NCCHE's Post-Doctral Fellowship Program, sponsored by Educational Testing Service funded by the Ford Foundation. The Program is designed to increase the number of Chicano faculty members holding tenured positions in American Research institutions. pound interest, annuity payments, mortgage loans, investment yields, amortization schedules and more.

\*U.S. suggested retail price © 1979 Texas Instruments Incorporated

Its 60 versatile functions can help you handle a wide range of college math problems. Capabilities include common and unique to your major. See the Business Analyst-II and the *Slimline* TI-50 at your college bookstore or other TI dealer today.

Texas Instruments technology—bringing affordable electronics to your fingertips.

Historian receives St. Cecilia Award

The University's St. Cecilia Award will be presented this year to Robert Hoe, Jr., of Poughkeepsie, N.Y., a nationally recognized historian and author of several articles on early march music. The award includes honorary membership in the Notre Dame Band.

Named after the patroness of music, the St. Cecilia Award is presented annually to an outstanding contributor to the Catholic band movement through his or her career as a musician, conductor, writer or member of the music industry. A performer on the euphonium and the owner of several recreation centers in upstate New York, Hoe spends spare time documenting the heritage of hundreds of musical pioneers whose careers and compositions form the foundation for the music of the bands today.

He has preserved much of the musical group's early literature on recordings and has distributed more than 150,000 longplay recordings to libraries, music schools and to conservatories.

An open air concert provided the entertainment last night. It was one of several events scheduled for the Student Union sponsored Welcome Week. [Photo by Mike Bigley].

### Trouble continues in Iran

## Delegates seek cease-fire

TEHRAN, Iran (AP) - Kurdish forces remained poised tor an peace delegates met with government representatives seeking a negotiated cease-fire and the recall of Ayatollah Sadeo Khalkali, who Kurds say has ordered dozens of rebels executed.

despite the peace overture, Ayatollah Ruhollah Khomeini dispatched Moslem cleric Hosseini Kermani to Kurdistan on a fact-finding mission yesterday with instructions to "crush the outlaws if need be," the state radio reported.

The announced executions in Kurdistan of 11 rebels and nine army deserters appeared to jeopardize chances of a lasting cease-fire between Kurds and forces loyal to the Khomeini.

Khomeini apparently views the Kurdish rebellion, led by the banned Kurdish Democratic party, as a threat to the revolutionary Islamic regime he established with the ouster of Shah Mohammad Reza Pahlavi in February

Kurdish rebels raided fuel depots and armories for supplies yesterday, the third day of a cease-fire, and government philosophy and was awarded

attack 19 miles from the Kurdish stronghold of Mahabad, the official Pars news agency reported.

Pars said 20 people were executed in the Kurdish town of Saqqez yesterday, including 11 rebels and nine government soldiers accused of "desertion.

More than 50 Kurdish rebels have been put to death since the latest struggle for Kurdish autonomy began two weeks ago. Nearly 1,000 people have died in fighting in Kurdistan, northwest Iran, since March.

## Asst. provost chosen

Dr. Mary Katherine Tillman, associate professor in General Program of Liberal Studies at Notre Dame, has been appointed an assistant provost of the University.

She succeeds Dr. William Burke, professor emeritus of English, who is retiring after eight years in the administrative position.

A native of St. Louis, Tillman attended St. Louis University and Clark College, Dubuque, Iowa, before receiving her B.A. in 1964 from Mundelein College in Chicago. She returned to St. Louis University for her M.A. in

another M.A. in Philosophy, as well as a 1974 doctorate in that field, from the New School of socialSocial Research, New York City.

She taught at Clark, Mundelein and Rutgers University before joining the Notre Dame faculty in 1973. Her academic specialities include phenome-nology, metaphysics, history\_of philosophy, and the history and theory of the liberal arts.

Tillman joins a provost staff composed of Fr. Ferdinand L. Brown, associate provost; and Sister John Miriam Jones, assistant provost.

## ND receives grant from Lilly foundation

The Lilly Endowment, Inc., of Indianapolis has announced a \$100,000 award to Notre Dame to assist in the continued operation of the Center for Constitutional Studies in the Law School Primary purposes of the center, directed by Philip R.Moots, are to provide basic legal scholarship and selected advocacy activities in support of independent, church-related institutions. An advisory board of nationally noted leaders in the fields of law, government and education establishes policy and selects issues of concentration.

Earlier this year, the Center was asked by the Sloan Comission on Government and Higher Education to analyze and prepare a report about unique problems of religiously affliated colleges and universities. Arequest trom Senators Daniel Moynihan and Robert Packwood to assess the constitutionality of tuition tax credits resulted in another study that established apparent legality for higher education, but concluded there were serious questions in regard to a credit for primary and secondary institutions

## Chem dept. names head

Dr. Roger K. Brethauer, professor of chemistry at Notre Dame, has been named chairman of the Department of Chemistry by University Provost Timothy O'Meara.

Effective Sep. 1, Bretthauer will succeed Dr. Jeremiah P. Freeman, who will return to full time teaching and research.

Bretthauer has done extensive research on glycoproteins, large lolecules containing proteins and sugars whose function in the body includes controlling the interaction of cells and recognition of other substances by the cells.

He received the bachelor's and master's degrees from the University of Illinois, Urbana, and a PhD degree from Michigan State University. He joined the Notre Dame faculty in 1964 after two and a half years of post-doctoral work at the University of Wisconsin, Madison.

Docked temporarily, this rowboat serves at the University's official cruise ship, making daily excursions for nominal fees [Photo by Mike Bigley].

Local authorities are growing continually concerned about the recent weather situation in the Michiana area. With the recent accumulation of heavy rains, back-up and flooding loom as definite possibilities for the near tuture.

**IRA** stages

## Belgian

## bombing

BRUSSELS\* Belgium (AP) - In another blow of a widening IRA terror war, a bomb blast tore through an open-air stage yesterday where a British army band was preparing to give a concert for tourists in Brussels' historic Grand Place. Eleven spectators and four bandsmen

were injured, police said. Mayor Pierre vanHalteren said the Irish Republican Army claimed responsibility for the bombing in a telephone call to city hall. Irish guerrillas have attacked other British targets in Belgium and the Netherlands in recent months.

The bombing in the Belgian capital came just a day after IRA bombs killed Britain's Earl Mountbatten of Burna and three other people in the Irish Republic and 18 British soldiers in Northern Ireland.

## Shuttle reschedules

ND Library

The present shuttle schedule posted in the dorms and listed here is only temporary until any problems can be worked out, according to MaryEllen Maccio, Saint Mary's Co-Ex Commissioner. Any changes will be posted on the permanent schedule which is due in two weeks. Transpo is also printing wallet-

ND Grotto

Saint Mary's

students. The schedule consists of three separate schedules for days, evenings and weekends. If students have any complaints about the schedule they should contact Maccio or Notre Dame Commissioner Mike Co-Ex Flynn.

Ireland's Roman Catholic minority, has been waging a terror campaign aimed at ending British rule in Northern Ireland and uniting it with the predominantly Catholic Irish Republic.

Authrities in both Britain and the Irish Republic expressed outrage at Monday's carnage --as did President Carter and Pope John Paul II. Yesterday, British Prime Minister Margaret Thatcher held urgent security talks in London and sources at Scotland Yard, center of the British police network, said security chiefs were trying to

persuade more prominent British personalities to accept bodyguards.

The band that came to Brussels was the Duke of Edinburgh's Royal Regiment Band, stationed in Ossendorf, West Germany.

In a few minutes, it was to have begun an 11/2-hour concert in the broad plaza, a major tourist site surrounded by centuries old buildings.

But by chance, only six of the 24 members of the band were

## Former governor named to Law School Chair

John J. Gilligan, former administrator of the Agency for International Development and governor of Ohio, has been named to the Thomas White Chair of Law at Notre Dame.

The appointment was for a three year period. The endowed professorship is part of the Thomas and Alberta White Center for Law, Government and Human Rights within Notre Dame's Law School.

The Center was established two years ago by Mr. and Mrs. Thomas J. White. White is president of a St. Louis, MO commercial and industrial real estate firm. It was set up to focus scholarly activity on the ethical implications of federal policy and to train lawyers for government service who possess a Christian commitment.

Gilligan, who received an undergraduate degree from Notre Dame in 1943 and an honorary doctor of laws degree this year, will teach, work with the Center's extern-intern students, do writing and research.

A native of Cincinnati, Gilligan entered the Navy after being graduated from Notre Dame and served in both the Atlantic and Pacific theaters. Following his discharge as a lieutenant, he received a master's degree in literature from the University of Cincinnati and taught that subject at Xavier University from 1947 to 1953, when he was elected to the first of six terms on the Cincinnati City Council.

In 1964 he was elected to the U.S. House of Representitives and served one term. He was elected governor of Ohio in 1970 and served until 1975, when he became a fellow at the Woodrow Wilson International Center for Scholars in Washington DC. He had held a similar fellowship at the John F. Kennedy Institute of Politics at Harvard in 1969.

He was chairman of the Committee on National Priorities and Resources and chairman of the National Democratic forum, a member of the Mikulski Commission for the reform of delegate selection in the Democratic Party in 1973, and Secretary of the Platform Committee of the 1976 Democratic National Convention.

In 1977 President Carter appointed him to head AID and serve as chairman of the Development Coordination Committee, an interagency coordination group for all American foreign assistance programs. A year later, he was designated the principal advisor to the President and chief spokesman to Congress on all matters affecting foreign economic development. He resigned his AID and other government positions last March.

This student appears to be either getting an early start on summer or enjoying the lake view [photo by Mike Bigley].

## National Consortium increases stipend

The National Consortium for Graduate Degrees for Minorities in Engineering (GEM) has increased its stipend to student participants from \$3,000 to \$4,000 per academic year.

The action was taken at the recent annual meeting of the board of directors, where the Executive Director, Howard G. Adams, reported that the first seven students have received their master's degrees in engineering through the program, more than 100 summer interns have been placed in laboratories, and 60 students will be enrolled in graduate school next September. The GEM Program is the only

The GEM Program is the only concerted national effort to increase the pool of minorities with advanced degrees in engineering. Established in 1976, the Consortium of 22 major engineering colleges and 17 industrial and governmental laboratories maintains its central office at the University of Notre Dame.

It offers financial support and practical engineering experience to American Indians, Black Americans, Mexican Americans and Puerto Ricans who want to pursue graduate studies in engineering.

Each participant receives a stipend of \$4,000 each academic year as well as summer employment at a participating research laboratory.

The board also voted to increase university membership in the consortium to 27, and it reelected Joseph C. Hogan, dean of the College of Engineering at Notre Dame, president and chairman of the board, and Theodore J. Harbarth, affirmative action officer for the applied physics laboratory at the John Hopkins University, vice president.

## NBC selects network games clinics to be licit in inter-

NEW YORK (AP) - A 13-game NBC-TVS television schedule for the 1979-80 college basketball season was announced Tuesday by Arthur Watson. president of NBC Sports, and Phil Lombardo, president of Corinthian Broadcasting.

For the first time in the five-year partnership between NBC and the independent TVS, the schedule will feature three nationally-televised games in December.

The season's first network telecast will feature UCLA hosting DePaul on Saturday, Dec.

15. On Saturday, Dec. 22, the North Carolina at Indiana game will be aired, and on Saturday, Dec. 29, the traditional clash at Louisville between Notre Dame and Kentucky will be shown via tape delay.

The rest of the nationallytelevised schedule: Sunday, Jan. 13, Syracuse at Purdue; Saturday, Jan. 19, Notre Dame at UCLA; Sunday, Jan. 20, Louisiana State at DePaul; Saturday, Jan. 26, Maryland at Notre Dame; Sunday, Jan. 27, Virginia at Ohio State; Sunday, Feb. 3, Louisville at St. John's; Sunday, Feb. 10, Duke at Marquette; Sunday, Feb. 17, Kentucky at Nevada-LasVegas; Sunday, Feb. 24, Marquette at Notre Dame or Kentucky at Louisiana State; Sunday, March 2, Ohio State at Indiana.

## Irish women hold tryouts

Wednesday, August 29, 1979 - page 15

by Carolyn Carson Sports Writer

Every year women's athletics at Notre Dame have grown, and this year wil be no exception. Tennis, field hockey, fencing and basketball are presently the only women's varsity sports, but Astrid Hotvedt, Director of Women's Athletics, has visions of volleyball, swimming and track-cross country petitioning for varsity status.

Tryouts for fall sports seasons will begin immediately. Tennis coach Jorey Segal will hold practice from 4 to 6 p.m.on the courts behind the Athletic and Convocation Center.

After an initial year of varisty status, the field hockey team will start tryouts from 4 to 6 p.m. on the field behind Jake Kline field. Hotvedt, who will coach the team, anticipates another successful season, which

will include a trip to the Great

Lakes area during fall break. The women's fencing team at

Notre Dame will be coached by Dr. Michael DeCicco. Returning varsity fencers will begin conditioning September 20 and

will be announced. Women's varsity basketball tryouts will begin October 1. Head coach Sharon Petro will again be assisted by Bob Scott. They have an ambitious schedule planned which will include several Division I schools.

Rich O'Leary, Notre Dame's Assistant Director of Non-Varsity sports and graduate assistant Jeanne Collopy hope to expand the club and intramural sports available to women. Their staff will be happy to answer any questions concerning non-varsity athletics.

## Borg, Lloyd win at Open

NEW YORK (AP) - Bjorn Borg and Chris Evert Lloyd, the top seeds, scored easy victories in the opening round of the U.S. Open Tennis Championships Tuesday.

Borg, the four-time Wimbledon champion who never has won the U.S. title, turned back 1977 NCAA singles champion Matt Mitchell 6-1, 6-1, 6-2

Lloyd, the defending champion, clobbered Iris Riedel of West Germany, 6-0, 6-0.

All Saint Mary's students are encouraged to try-out for the teams.

## Rugby club organizes Thursday

There will be an organizational meeting for all those interested in playing Rugby, Thursday August 30 at 7:00 p.m. in room 2D of LaFortune. If unable to attend the meeting, call Jim Bowers at 232-5121.

## Football tickets available at A.C.C.

"Sportsline" with Brian Beglane and Paul Mullaney, 11 p.m., WSND-AM 640

GENERAL

Soccer

[continued from page 16]

sence of injury to the mainstays of the team -- the captains. With the difficult schedule, the team will not be expecting an undefeated year. When the season winds down, though, the Irish hope to find themselves in the thick of the race for an NCAA bid -- while the winning tradition of Notre Dame soccer should live on.

- sity rsity ry's Tourney
- is

Football tickets will be distributed to all juniors, graduate and law students today until 5 p.m. at the ticket sales window at Gate 3 (north dome) of the Athletic and Convocation Center. Sophomores may pick up tickets tomorrow from 8 a.m. to 5 p.m. Freshmen tickets will be available Friday from 8 a.m. to 5 p.m.

The three-man announcing team of Dick Enberg, Billy Packer and Al McGuire will return for their third season on the national telecasts.

Later Tuesday, former champion Billie Jean King was to play fellow American Zenda Liess. King returns to the Open singles competition after a year's absence due to injury. Defending champion Jimmy Connors was to open his bid Tuesday night against India's Awand Amritrag.

Class	ifieds	to the issue in which th classifieds Monday thr	st be received by 5:00 p.m two days prior e ad is run. <b>The Observer</b> office will accept ough Friday, 10:00 a.m. to 5:00 p.m. All -paid, either in person or through the mail.

## Veterans fall under Pardee axe as Haines catches on with 'Skins

#### by Michael Ortman Sports Writer

Carlisle, Pa.- Once upon a time, not too long ago, it was all but impossible for a rookie to find a spot on the roster of the Washington Redskins. George Allen's band of merry old men, commonly known as the Over the Hill Gang, returned year after year to sneak into the playoffs as the NFC's wild card team.

That has all changed now. First and second-year men are beating out seasoned veterans for spots on both sides of the line of scrimmage. Allen is now criticizing his successor, Jack Pardee, from the broadcast booth. And the Redskins have not seen post-season action since 1976

So with a much depleted stock of draft choices, the 'Skins have set out to rebuild. The 1979 draft was made up of a paultry five picks, three in the first ten rounds and their first being number 103 overall. In the ninth round the Red-

skins chose a well-known name in Notre Dame circles. He was wide receiver Kris Haines, best remembered for his diving touchdown grab with just two seconds left in the 1979 Cotton Bowl to give the Irish a stunning 35-34 victory.

With four veteran receivers on the roster and three pass catchers among the five men drafted, Haines' chances seemed slim. So Haines set out with just one

goal in mind-playing for the Washington Redskins. The roster was cut to 60 and Haines was still around. But the rookie receiver tried to keep all of that out of his mind.

"I'm not even thinking about getting cut," he said confident-ly. "Bobby (Betthard, General Manager) told me that they had had their eye on me for a while. Getting cut would be a big disappointment, but I know I can play ball in the NFL, if not here someplace else. But I

really want to stay in Washington.

The next day the roster was cut to 50. Haines was still around. By now the receiving corps had been trimmed to four. Veteran starters Danny Buggs and Ricky Thompson and rookie back-ups Haines and Willie McGee remained. Five more players were still to be cut.

In the pre-season games, Haines had looked unimpressive. He caught just one pass for nine yards, curling back a yard short of a first down. But he was doing great things in practice, continually impressing the coaching staff.

I've been playing against the best secondary in football," he claimed. "Joe Lavender is fantastic, and Ken Houston and Lamar Parrish are great too. These are the guys I go up against in practice and they are the best.

On Tuesday, the roster was trimmed for the final time. The biggest name to go was All-Pro kick returner Tony Green, a talented tailback as well. Kris Haines was not among the final five cuts.

Pardee may take criticism tor some of his decisions, and the Redskins may not return to the playoff scene, but one goal was reached during the grueling summer camp in Carlisle, Pa. Rookie Kris Haines is playing for the Washington Redskins.

Split end Kris Haines may not be wearing Green and Gold, but he is still performing as if he were at Notre Dame. Haines survived the final NFL cut. [photo by Paul Broring]

## Soccer team begins a tradition

#### by Gary Grassey Sports Writer

At Notre Dame, winning is seen to be the only acceptable tradition. Any press clipping about athletics at the Golden Dome is sure to mention the laurels of Irish football and basketball teams.

Unnoticed, but nonetheless successful, has been another winning tradition -- that of Dr.

Rich Hunter's Notre Dame Dame soccer team finds depth soccer team. With only a twoyear history of varsity experience, Hunter and his players will be searching for their third consecutive winning season and an NCAA playoff bid in 1979.

The Irish soccer team has lost only three games in its two years of existence -- one of hands of last year's Division I playoff runner-up Indiana -and figures to play an improved brand of ball this fall.

Hunter has had a remarkably successful program considering that he is "trying to compete on a national level against the tools (scholarships) of the major powers

and experience in the front lines. Last year's top goal scorer, Kevin Lovejoy, returns at one forward slot with twotime monogram winner Bill Wetterer. Mai and talented sophomore Sami Kahale will also see much duty at forward Sabitus will be asked to anchor around game. Hunter sees Sabitus as his "strength" at midfield and senior co-captain Tim Nauman as his "steady field leader.'

Another senior co-captain, Dan McCurrie will join Nauman and Sabitus at halfback. Monogram winners Joe Ciuni and Bill lurphy and two-letter man Paul Devereux will surely see plenty of action near the midfield stripe. The fullback corps is Hunter's worry. He and assistant coach Tom Van Meter are no closer to choosing their starters now than they were a week ago. Except for co-captain Tom Crotty and Tom Luetkehans, the remaining fullback spots are up for grabs (Crotty will also see action at halfback). Oliver Franklin, Steve Burgoon and Jim Stein are battling for starting jobs while the coaches wait for someone to stand out above the others. Senior Brian Cullather will begin the year as goaltender while sophomore John Milligan rests an injured ankle. The two should be sharing time all year long.

those losses coming at the the midfield area with his all-

against the Los Angeles Lakers reached after only one day of \$900,000 in punitive damages. by the Houston Rockets was settled out of court Tuesday for an amount not even disclosed to the presiding judge.

Attorneys for both sides said a part of the settlement was the agreement to withhold all information on the money to be paid the Rockets by California Sports Inc., owners of the Lakers.

The Rockets' suit against the Lakers was for the loss of star Rudy Tomjanovich for most of the 1977-78 National Basketball Association season.

Tomjanovich, team captain and then top scorer, was injured the night of Dec. 9, 1977, when hit in the face by Lakers' forward Kermit Washington.

Tomjanovich suffered a fractured skull, fractured jaw, broken nose, numerous other facial injuries, and leakage of spinal fluid.

Earlier, a five-man, one-woman federal court jury awarded Tomjanovich \$3.3 million in damages. The same jury was testimony.

Tomjanovich settlement resolved

HOUSTON (AP) The \$1.8 hearing the second phase of the The Houston team wanted million-dollar damage suit filed trial when the settlement was \$900,000 in actual damages and

The award to Tomjanovich stands, although defense attorney robert Dunn said, "We will appeal. We believe this jury overreacted and we believe the appellant court will agree. And there would have been quite a bit of difference if the case had been tried somewhere besides Houston.

Washington, now a member of the San Diego Clippers, was not named a defendant in either legal action.

Dunn sidestepped all questions as to the amount of money to be paid the Rockets' organization and declined to say whether the defense or the plaintiffs re <sup>1</sup> the gagclause in th

Ray Patterson, Rockets' general manager, said, "All I can tell you is that it is a fair settlement.

L.S. Casey, Rockets' attorney, said, "All settlements are good or they wouldn't be made. And the reason for not disclosing the amount is this is a unique case, the first of its kind. A case that established a principle -- there is no need for violence in sports and the law will not ignore any longer intentional injuries or intentional violence.

U.S. District Judge John V. Singleton, in dismissing the jury, said a settlement had been reached "and the amount will not be disclosed to anyone, not even to this court.'

Carsey said such an action has happened before, but not often. Several jurors interviewed after the unexpected ending of the trial said the violence of the blow that hit Tomjanovich flush in the face had promoted their action to award \$600,000 more than even the plaintiffs had asked.

Now, though, he feels that he has the nucleus of a squad that can be ''optimistic'' about playing a schedule that includes two nationally-ranked teams (Indiana and Loyola-Baltimore) as well as an assortment of perennial midwest and northeast powerhouses.

Hunter's returning veterans have developed noticeable improvements in the area of individual skills since the conclusion of last year's 20-1 season. Footwork in the passing and shooting departments figures to be much finer than in past years.

Senior co-captain Jim Sabitus remarked about the overall gain of "personal skills" for the team, despite the loss of key performers to graduation.

Junior forward Mike Mai conceded, however, that "the first few games could really tell the story about how well we play as a team.'

The 1979 edition of the Notre

The success of the season will depend on the progress of the team-play concept and the ab-
