## Provost addresses discrimination case

*Editor's note: Provost Timothy O'Meara released the following statement to the faculty in the December 11 issue of the Notre Dame Report commenting on two sex discrimination lawsuits recently settled by the University.*

Two lawsuits have been pending in the United States District Court in South Bend since 1978 claiming sex discrimination by the University with respect to tenure, promotions, and other decisions involving our faculty. Although the University entered into an out-of-court settlement of these lawsuits several months ago, it was prohibited, along with other parties, from commenting upon the case until final judicial approval. This approval has now come. I am therefore writing to advise you of what we did and why we did it so we may finally bring this matter to a close.

The settlement agreement acknowledges that there has been no determination that the University has violated any law or regulation on discrimination, and the University denies any such violation of the law.

Then why did the University choose to settle? *First*, because of the uncertain outcome of any class action lawsuit, particularly one of this magnitude involving decisions made in an academic context and based on prudential judgements. *Second*, because of the nature of precedents at Brown University and the University of Minnesota. The consent decree at Minnesota was initiated after eleven weeks of trial. It is fifty-one pages long. In it a quota for women faculty is established for the Chemistry Department; an automatic preference for women is established across the University; a

special Master of the Court has jurisdiction over past and future discrimination claims, at least until 1989, and so on. *Third*, because of a conviction that the disruption of academic life and divisiveness associated with this litigation had gone on long enough. A trial, with all the complexities hidden in approximately 100,000 pages of evidence, would have continued for weeks and perhaps months. Win or lose, the toll would have been enormous. *Fourth*, because confidential letters and evaluations would have been made public, resulting in immeasurable erosion to the integrity of the system of peer review. *Finally*, because heightened attention in a court of law would have set us back in the very thing we are trying to accomplish — attracting more women to the University. The time had come to bring this litigation to an end. We arrived at two separate agreements. As a part of these agreements:

Dolores Frese has been promoted to associate professor with tenure, Josephine Ford to professor;

The University will make a good faith effort, consistent with its standards of excellence, to renew, promote, and tenure women faculty at the same rate as men;

A committee consisting of David Leege and Charles Wilber on our faculty, and Ann Ida Gannon of Mundelein College, has been established to consider appeals of class members desiring a review of denials of contract renewals or tenure between January 1, 1977 and December 1, 1980; the committee is empowered to determine whether there exists evidence of sex dis-

## Federal employment

### Reagan lifts ban on controllers

WASHINGTON (AP) — President Reagan, citing a "Tradition that individuals deserve to be treated with compassion," opened the door yesterday for 11,500 fired air traffic controllers to again seek federal jobs — but not in the flight towers.

"I do not believe that those who forfeited their jobs as controllers should be foreclosed from other federal employment," Reagan said as he lifted a three-year federal hiring ban against the controllers who launched an illegal strike last August.

Transportation Secretary Drew Lewis told reporters that none of the dismissed 11,500 individuals would be accepted at the Federal Aviation Administration, where they previously worked.

He acknowledged, ironically, that some of the fired workers eventually

might work as military controllers. The FAA has picked up some of the slack in its depleted workforce by borrowing from the military.

Federal personnel officers said the former controllers' job applications would receive the same treatment as those of any other person, but pension and other benefits would be carried over from the time they went on strike.

Because of employee reductions across much of the federal government, there was a question, however, as to how many jobs would be available especially at anywhere near the pay levels — \$22,500 to \$49,800 a year — the controllers once commanded at the FAA.

Donald Devine, director of the Office of Personnel Management, indicated many of the former control-

lers might be hired by the Defense Department where, he said, 20,000 additional civilian jobs are expected to open.

But there are few federal jobs available elsewhere. The normal government attrition rate of about 10 percent outside the Defense Department and Postal Service has been largely countered by Reagan's budget cuts, acknowledged John Scholzen, a spokesman at the Office of Personnel Management.

## Fulbright scholarship

### Alumni defend program

By JIM ADAMS  
Associated Press

WASHINGTON (AP) — Past recipients of Fulbright scholarships are riding to the rescue of the prestigious award and other cultural exchange programs facing President Reagan's budget ax. So far, they have made some progress in convincing Congress.

Fulbright alumni and other scholars argue that the exchange programs are a good way to educate future foreign leaders about America.

An appropriation bill now before the Senate would not only restore all the cuts, but also would add an extra \$9 million for the Fulbright scholarships and direct the administration to spend the money. A bill restoring the cuts has already passed the House.

Reagan, however, has vowed to make his cuts stick. Congressional sources say they're getting no signals on whether the administration is willing to exempt the exchange program from the cuts.

In response to Reagan's fall directive for every federal agency to chop 12 percent from its budget, the International Communications Agency wants to cut its cultural exchange program and not the Voice of America and other ICA broadcast operations.

ICA spokesman Henry Ryan said his agency hopes Congress and the administration will prevent the cuts from being made. But should ICA reductions occur, he said, the agency has decided they must come in ex-

change programs.

ICA has proposed cutting \$25.6 million from the \$48 million planned for scholarship programs and \$11.5 million from the \$19.8 million for visitor exchange programs.

The biggest single cut would slash \$19.8 million from the \$41.9 million now ticketed for the Fulbrights.

Named for former Sen. J. William Fulbright, the scholarships have brought about 85,000 students from other countries to the United States since World War II and have sent about 45,000 Americans abroad to study.

The Arkansas Democrat, who was chairman of the Senate Foreign Relations Committee for many years, says the program gives foreign students, many of whom become leaders, an understanding of America. And he once testified that he doubts the late President Lyndon Johnson would have escalated the Vietnam War had Johnson been a Fulbright alumni and known more about Asia.

"If he had lived in Asia for a year under this program, he would not have engaged in that conflict, I believe," Fulbright told a House committee three years ago. "This can apply to anybody in a powerful position. I think it's one of the reasons there is so much sympathy and understanding abroad for this country."

Rep. Howard Wolpe, D-Mich., chairman of the House Africa subcommittee, said during a House debate that the cuts will close down virtually all Fulbright programs in Africa that have "paid off with the creation of a moderate pro-Western government in Zimbabwe."

Wolpe said five of Zimbabwe's 15 Cabinet members are Fulbright alumni, as are 25 other Zimbabwe officials.

## Campus Life Council passes keg proposal

By KELLI FLINT  
Executive News Editor

A resolution allowing the use of kegs in hall party rooms was passed by the Campus Life Council (CLC) yesterday.

The resolution would allow kegs in party rooms for an experimental period during which hall rectors and staffs will monitor the feasibility of kegs on campus.

If Fr. Van Wolvlear (Vice-President for Student Affairs) accepts the resolution, the experiment will take place during the first half of the spring semester, according to CLC secretary Paul Callahan. Callahan added that the resolution has been amended since passage by the HPC and the Student Senate, at the request of the rectors. "The rectors were basically for the proposal, but wanted stricter control over kegs in the party room," Callahan said. "They recommended seven amend-

ments to the resolution, all of which were acceptable to the authors of the keg proposal."

Some actions the amendments stipulate include: confinement of beer to kegs, with no additional bottle or cans; the hall rector shall confer with the group hosting a party to determine the number of kegs allowable; refrigeration in hall party rooms to preserve and secure kegs after a party for future use; beer must be served in glasses or cups.

Lloyd Burke, Flanner Hall President, noted at the meeting that kegs could improve socialization on campus, emphasizing that ultimate responsibility for the success of kegs on campus depends upon each student.

In other business, the CLC endorsed the recent proposal extending registration to two days in the fall semester. Student Body

THURSDAY  
FOCUS

**The House approved** 233 to 173 yesterday a bill which hands industry the authority to start billing consumers for a yet unbuilt \$43-billion pipeline to bring Alaska natural gas to the lower 48 states, the largest private construction project in history. But the measure, already passed by the Senate, still faced an obstacle before going to the White House. A senate opponent threatened to filibuster the usual formality of putting the House measure under the Senate bill's title, even though both bills are identical. The legislative package waives existing antitrust and pricing laws to allow consumers to be billed for the pipeline before it is completed, a step which industry says is critical to attracting the massive capital needed for construction. The line would virtually dwarf the existing trans-Alaska oil pipeline. Consumer advocate Ralph Nader charged after the vote that the Democratic Party had "sold its soul" to the oil companies by approving the proposal. And Sen. Howard Metzenbaum, D-Ohio, who led Senate opposition on consumer grounds, said he has notified the leadership he would attempt to block the bill from going to the White House. Should the obstacle posed by Metzenbaum be overcome, President Reagan is expected to sign the measure. The House passed the legislation 233-177 to grant pricing concessions to companies building the pipeline, which would be the largest private construction project in world history. — AP

**Moslem zealots** who commandeered a Libyan jetliner freed their 35 hostages and surrendered early yesterday after a 7,500-mile hijack ordeal that had taken the plane to Beirut for the third time in as many days, airport officials said. Officials said some of the passengers left the plane after the hijackers got off. Lebanon's state radio reported that the Libyan Arab Airlines Boeing 727 would fly to Larnaca, Cyprus, with the rest of the former hostages, who included 27 passengers and eight crew members. The surrender came after more than five hours of negotiations punctuated by bursts of machinegun fire from the airplane as the hijack team fired warning shots to keep back security forces surrounding the airplane. Officials said there were five heavily armed hijackers on the plane, and they surrendered at 5:30 p.m. yesterday. The officials said the hijackers gave themselves up to troops of Syria's peacekeeping force, sent to enforce a truce after Lebanon's 1975-76 civil war, which had ringed the aircraft along with units of the Lebanese army when it touched down and taxied to the end of the runway. The radio said two buses were sent to the plane for the passengers who decided to remain in Beirut. The hijackers seized the aircraft to demand for an investigation of the disappearance of their Shiite Moslem leader at the end of a trip to Libya three years ago. — AP

**A class action suit** seeking a permanent court order against illegal strip searches at the Indiana State Prison was filed yesterday at U.S. District Court in South Bend. The suit, filed by two South Bend attorneys on behalf of four individual plaintiffs, alleges that as many as 144 people may have been illegally strip searched at the prison in December 1979. Attorneys John Hamilton and Timothy Hartzler said the Indiana Department of Correction violated several constitutional rights of four plaintiffs who were then either members or affiliated with volunteer organizations and who were visiting prisoners. Hamilton said the plaintiffs have provided information indicating that dozens of other persons were illegally searched, first sniffed by dogs and then checked by prison personnel. The strip searches were conducted during a period when prison security guards suspected visitors of smuggling drugs to prisoners, the attorney said. — AP

**Tokyo police** said more than 7,000 demonstrators waving red banners yesterday protested plans to construct a nuclear power plant in northern Japan. According to published reports, most villagers favor the construction of the plant because of the revenues it would bring to the the poor and isolated fishing community of Tomari. Taxes and compensations would reach about \$46 million, according to reports. — AP

**Analysts predicted** yesterday that inflation at the wholesale level would close out the year at around 7 percent, the slowest clip since 1977, after the government reported November's increase at a moderate 6.3 percent annual pace. That marked the eighth consecutive month that inflation at the wholesale level held beneath double digits. One independent economist called it "very good news" which signals that "we're on a new plateau." The Labor Department's official barometer, the Producer Price Index for finished goods — went up a seasonally adjusted 0.5 percent in November, compared with the 0.6 percent advance in October. Barring any unforeseen shocks, the rate for all of 1981 should come in well under the 11.8 percent for 1980 and not far off the 6.9 percent for 1977, analysts said. It was 12.8 percent in 1979 and 9.2 percent in 1978. — AP

**Israel's army** this week held its last military exercises in the Sinai Desert before the area is turned over to Egypt in April, the military command said yesterday. The maneuvers involved armored units, infantry, engineers, artillery and air force planes and attack helicopters, a spokesman said. He refused to say how many troops were involved in the exercise, which also included portions of Israel's southern Negev Desert. Israel has agreed in the Camp David accords to withdraw from the land it captured from Egypt in the 1967 Middle East war. — AP

**A few flurries** this morning, then partly sunny. High in the low 30s. Partly cloudy and cold tonight. Low in the low 20s. Mostly sunny and a bit warmer tomorrow High in the mid and upper 30s. Chance of measurable snow dropping to less than 20 percent this morning. — The Observer

**BODIES RETRIEVED:**  
Emergency crews carry to an ambulance the remains of one of the eight miners who were killed Monday when an explosion tore through a coal mine near Topmast, Kentucky.

**RESCUERS AT WORK:**  
Workers congregate at the entrance of the Adkins Coal Co. mine no. 18 in Kentucky which earlier this week was the sight of an explosion. The explosion, which was 2500 feet deep within the mine, killed eight men.

**MINERS KILLED:**  
The bodies of thirteen miners who were killed in another mine explosion, this one near Whitwell, Tennessee, arrive at Hoopers' Funeral Home in Whitwell. The explosion took place Tuesday.

**RELATIVES MOURN:**  
Relatives of some of the thirteen coal miners who were killed in the underground explosion near Whitwell, Tennessee, gather around at the funeral home there, where the bodies of the men had just been brought from the mine. See related story on page 5.

## Committee proposes social space

By MARK BOENNIGHAUSEN  
Staff Reporter

With the opening of a new library next year at Saint Mary's, an ad hoc committee was formed earlier this year to formulate a program of goals for the soon to be vacated library building.

The main concern of the committee, according to Dr. Kathleen Rice, Dean of Student Affairs and Chairperson of the committee, is to develop a plan that will increase social space at Saint Mary's.

Noting the lack of space available for Saint Mary's students to entertain on their own campus, Rice said, it

was decided that a college center should be developed. The committee is formulating goals for the building by processing input from the students, faculty, and administrators of the college, she added.

At the present time the committee is ranking goals received through various surveys, Rice noted. The committee should have a report ready to present to the Board of Regents by late January or early February, observed Rice.

Rice added that any construction costs would be covered by a \$500,000 donation received by the college.

The committee is composed of four faculty members, four students,

and two administrators other than herself, Rice said. The committee will be expanded to include members of the Board of Regents, Alumnae, and Parents Council during the next semester, she noted.

The committee has also received input from the Notre Dame community through the efforts of a group of Saint Mary's students enrolled in a communications workshop, Rice commented. This group surveyed approximately 300 Notre Dame men to see what they would like in a college center at St. Mary's, she said, adding that a Notre Dame architectural student also drew up plans for the proposed center.

## ND-SMC Theater presents one-acts

Tonight and Saturday night, the ND SMC Theatre will be presenting a series of one-act plays in the Underground Theatre. Tonight's offerings are two plays by student-playwright Sue Begley: *His Just Desserts*, a play about men who dine each other to death, and *Girl's Room*, which deals with the behavior of adolescent girls in a high school bathroom. Julie Jensen directs the first show, while the second is directed by the author.

Saturday another three shows will be offered: Lanford Wilson's *Ludlow Fair* will be directed by Mark Pizzato as a directing final; Reginald Bain will direct Sam Shepard's *Cowboys 2* as a final for his production class; and Raul Aportela will direct a new play by Adri Trigliani, *Shafouse*.

The shows tonight will be performed twice, at 8 and 10 p.m. Saturday's production will begin at 8 p.m. Both programs will be held in The Underground, in the basement of Washington Hall, and both are free of charge.

## ... Kegs

continued from page 1

President Don Murday will present the endorsement to the Academic Council in the hopes of changing the existing format. "Knowing that the University calendar is difficult to change, I asked for the CLC's support in favor of the resolution passed by the Student Senate earlier this year," Murday said. "The backing of the CLC gives us the endorsement of faculty, rectors, and Student Affairs administrators, which can be of great influence."

# Mass celebrates Human Rights Day

By CINDY COLDIRON  
News Staff

Fr. Hesburgh will celebrate a mass at 5:15 p.m. in Sacred Heart Church and the film "Politics of Torture" will be shown at noon in the LaFortune Little Theatre today by Amnesty International, in recognition of Human Rights Day.

The coordinator of Amnesty International at Notre Dame, Professor of International Relations Gil Loescher, said that today is the 33rd Anniversary of the signing of the Universal Declaration of Human Rights signed at the United Nations. Human Rights Day is celebrated in honor of that document.

"This document has a great symbolic value," Prof. Loescher remarked. "It speaks to the fundamental human rights that all people can agree on despite their political, religious, and social beliefs."

Amnesty International, founded in 1961, is a worldwide movement of people working for the release of prisoners of conscience, for fair trials for political prisoners, and for an

end to torture and the death penalty. Its mandate, which is based on the United Nations Universal Declaration of Human Rights, reflects the belief that there are fundamental rights which transcend the boundaries of nation, culture, and belief.

Locally, Amnesty International is composed of approximately 50 students, faculty, and residents of the South Bend area. Lynn Van Housen, a member of Amnesty International, stated that one of the purposes of Human Rights Day at Notre Dame is to make people aware of the issue of human rights. "Most Americans who are safe and secure in their own homes tend to reflect little on this issue," she noted. Since Amnesty International's founding in 1961, it has intervened on behalf of more than 20,000 prisoners in over a hundred countries. In the United States, 13,000 people do volunteer work ranging from becoming members of adoption groups to organizing medical services for tortured victims. This organization, which is worldwide, has 250,000 volunteers in more than 130 countries.

## ... Reagan

continued from page 1

Reagan's decision to waive the regulations that bar federal employment for up to three years to anyone who engages in an illegal strike against the government came a week after labor leaders urged him to show compassion toward the fired controllers.

At the meeting Reagan said he would review the matter, but wanted to wait until Lewis returned

from Japan. But most labor unions had sought to get the fired controllers back to directing air traffic.

"We are clearly disappointed," AFL-CIO spokesman Rex Hardesty said of decision. "It is not what the AFL-CIO executive council had in mind last week when it asked the president to show compassion ... make the nation's airways safe again and help PATCO families."

## Walesa meets with Church primate

WARSAW, Poland (AP) — Solidarity chief Lech Walesa and six top union officials met Tuesday with Roman Catholic primate Jozef Glemp, who has appealed for an end to tension between the independent union and Poland's Communist rulers.

Sources close to Walesa said he and Glemp might hold private meetings with premier and Communist Party chief Gen. Wojciech Jaruzelski.

Polish news media, meanwhile, gave new evidence of the shattered state of the economy yesterday. They said children's winter vacations would be extended this year because of heating problems at schools, and reported a 5,000-car waiting line for gasoline in Wroclaw, southern Poland.

The newspaper Zolnierz Wolnosci claimed that Poles should blame Walesa and the independent union he leads for such problems.

Despite new press attacks on Walesa there were signs the feuding sides want to prevent further deterioration of relations between the labor reform movement and the government.

The unionists went to Archbishop Glemp's residence after he wrote privately to Walesa and Jaruzelski, urging both sides to resume stalled talks and to avoid confrontation.

Yesterday's meeting of Walesa, the other union leaders, and Glemp may have been a strategy session aimed at preparing some form of union response to the attacks — a response that would be conciliatory enough to get union-government talks moving again, some observers said.

Glemp sent a letter to Parliament urging the legislature not to pass a law requested by the Communist Party granting the government extraordinary powers. He said that

"passing anti-strike legislation right now would bring about a wave of strikes whose range, scope and consequences (are) impossible to anticipate."

The archbishop warned "the Sejm (parliament) against a decision which would weigh tragically on the fate of the country," and expressed "profound concern and anxiety lest the Sejm law will breach internal peace."

Glemp, Walesa and Jaruzelski all have expressed concern that a confrontation now could have serious consequences at a time of worsening economic situation during a harsh winter.

But a top union official, Miroslaw

Krupinski, said talks with the government have failed in the past because of what he called the government's contemptuous manner, but that Solidarity did not seek a clash.

"We have hit rock bottom on the eve of winter," Krupinski was quoted as saying in the Warsaw Daily Zycie Warszawy. "People are suffering hardship and expecting a shade of chance. Nobody wants this confrontation, including us."

Krupinski said, however, that passing a law attacking gains won by Solidarity during August 1980 strikes could spark a reaction the union "leadership would be unable to rein in."

## ... O'Meara

continued from page 1

crimination of such a magnitude as to have effected the original decision and, if this is so, to reconsider the University's original decision and reaffirm it or reverse it; the committee's decision will be final, except that Fr. Hesburgh, at my request, may review such a decision and reverse it if he finds it clearly erroneous; the faculty member may then initiate an individual court action if she remains unsatisfied;

Future appeals on grounds of discrimination will follow a procedure similar to one that is already in force on an experimental basis at the University;

The University will pay reasonable fees to attorneys for the plaintiffs.

All members of the faculty should

rest assured that the confidentiality of depositions and files taken in the discovery stage of the litigation will remain protected by the order of the court.

Personally, I am convinced that settling this litigation was the right thing to do. Unlike Minnesota and Brown, ours is a private settlement with no continuing intervention of the court. Academic decisions at our University will continue to be made by academicians. The principles and procedures under which we operate are not unscarred, but they do remain intact.

We must now set our differences aside and move forward with the kind of collegial spirit that we are accustomed to at Notre Dame.

I look forward to the cooperation of all parties involved in furthering the University's dedication to equal opportunity for all people.

'public outcry'

## KGB grants Aleteyeva leave

MOSCOW (AP) — The Soviet KGB secret police told the daughter-in-law of Andrei Sakharov yesterday the Nobel laureate had ended his 17-day hunger strike in exile and that she would be allowed to go to the United States to join her husband.

Liza Alexeyeva, 26, said she was summoned to KGB headquarters yesterday afternoon and was told that Sakharov and his wife, Yelena Bonner, halted their hunger strike when informed that permission had been granted.

The Sakharovs began the hunger strike in Gorky to protest Soviet refusal to allow Miss Alexeyeva to leave Russia. Soviets announced Friday that the Sakharovs had been hospitalized to guard their health. The Soviet government apparently decided to allow Miss Alexeyeva to leave and resolve the confrontation

with Sakharov, which had generated a public outcry in the West.

Miss Alexeyeva said, however, the KGB warned that her departure date could be altered if she didn't limit her contact with foreigners, especially Western correspondents, whose reports could "provoke anti-Soviet sentiment."

Miss Alexeyeva said that after leaving the KGB she telephoned OVIR, the Soviet agency that issues foreign travel visas, and asked if a visa was ready. She said officials said they knew nothing about a visa for her.

Speaking with reporters in Sakharov's Moscow apartment, Miss Alexeyeva quoted KGB agent Alexander Baranov as saying, "As a member of the KGB, I can tell you permission was granted yesterday (Tuesday) for you to leave."

She said she had no information on the Sakharovs' exact whereabouts or health other than what she learned in a letter Tuesday, which said they were in "poor condition."

"The first thing in my mind is their health," she said, adding that Baranov told her she might be able to visit them in Gorky, "but that would be up to the doctors treating them."

Sakharov, who helped develop the Soviet hydrogen bomb, was awarded the Nobel Peace Prize in 1975 for his efforts on behalf of human rights.

In Washington, White House Secretary Larry Speakes said President Reagan was "gratified" Miss Alexeyeva was granted permission to leave and "pleased" that the hunger strike ended. The State Department hailed the Soviet decision.

"For all of us who have been involved in this drama this is a most welcome and happy outcome," said Alan Romberg, the department's deputy spokesman. "We would hope that this would mean that the Sakharovs, once they fully recover from the effects of their hunger strike, will be allowed to return to a normal life," he said.

Sakharov, 60, was banished to Gorky, a Volga River city 250 miles east of Moscow in January of last year.

## Families plan funerals for 13 dead miners

WHITWELL, Tenn. (AP) — An explosion that killed 13 Tennessee coal miners probably was caused by methane gas, officials said yesterday. In Kentucky, meanwhile, investigators entered a mine where 11 men died of smoke inhalation in an unexplained blast one day earlier.

In this tiny town in southeastern Tennessee, relatives identified the bodies of the 13 men who died Tuesday three miles inside a mountain.

"They've been mining coal in this area for 100 years and this is the first fatal explosion they've ever had," said Harry Joe Hooper, father of a miner and owner of a funeral parlor used as a makeshift morgue for the bodies. "What makes it tough is that I knew all of them."

"I've got one back there I used to play guitar with. There's one I went to school with. I got home at 4:30 this morning and lay down but I couldn't go to sleep. It's tough."

Tuesday's blast was the third fatal mine accident in Appalachia in five days — and the worst in Tennessee since 184 miners were killed in the collapse of a mine at Coal Creek, Tenn., in 1911.

Eight miners were killed in an explosion in a mine at Topmost, Ky., on Monday. Last Thursday, three miners were killed in a rock and slate fall in a mine in Bergoo, W. Va.

Before that, the last major coal mine accident was last April, when 15 men died near Redstone, Colo.

The latest explosion ripped through a section of the No. 21 mine owned by Tennessee Consolidated Coal Co., and operated by its subsidiary, Grundy Mining Co. Investigators suspect methane gas, a common problem in deep coal mines, but federal mine officials said it may be several months before the cause is determined.

"I think there's strong evidence that's (methane) what it was," said John Parish, Gov. Lamar Alexander's

press secretary. "But I don't think anybody is saying that officially."

Officials said about 30 miners were in the Whitwell Mountain mine at the time of the explosion, with 13 in the blast area. The others got out safely.

## As simple as black and white

I read a short article in the newspaper about a month ago which has been on my mind ever since. I can't recall the exact details, nor can I find the copy I made, but basically, here's what it said:

A young woman, about 25 to 30 years old, had just discovered that she was white and not black, as she had previously believed. It seems that shortly after her birth she was placed in an adoption agency where she was classified as black because of blotchy discolorations on her skin. She was adopted by a black family and, I presume, considered herself to be black. Some set of circumstances, which I cannot recall, led to the discovery that, indeed, she was *not* black, that her natural father and mother were white.

"I was so excited when I found out that I ran downtown and had my driver's license changed."

According to the newspaper article, this was her first, gleeful reaction. No surrounding context was given in which to place the quote (that is, there was no mention that perhaps she always felt out of place, or that she always wondered about her racial heritage, etc.) so I felt free to assign to it my own interpretation. The way I read it, it was as if the young woman were saying, "Thank God I'm not black after all."

I was amazed. Racial identity seems to me to be something that is taken for granted, whether one is white, black or some combination of both. If someone were to come up to me and show proof to document that I was something other than I thought myself to be, I would have a hard time thinking of myself as this "new person." This woman, however, seemed delighted with the news.

It was as if the weight of the world had been lifted off her shoulders.

I embarrassingly admit that this

thought only recently occurred to me providing the contextual material omitted by the newspaper. I guess I *can* understand why this woman was glad at her news. If not the weight of the world, then perhaps the weight of a prejudiced society had been unburdened, freeing those tired shoulders to be massaged by the promising hands of opportunity and acceptance.

It's naive (safe is perhaps a better word) to assume that the civil rights legislation of the 1960s went a long way to eliminate racial discrimination in the United States. Sure, there have been the perfunctory changes — no more segregated public facilities, no more scenes of Southern sheriffs "controlling" blacks with firehoses and police dogs — but the other side of the scale is so weighted that it all but nullifies these gestures. The Klan is on the rise as never before since its inception. Affirmative action and school desegregation are disgraceful displays of "going through the motions."

"You can legislate all you want, but you can't change people's attitudes overnight." So goes the standard reply of those unwilling to admit that there is still a long way to go in the area of civil rights.

No, you can't change people's attitudes overnight. But, from where I sit, overnight was a long time ago. Attitudes aren't changing because social conditions are perpetuating old prejudices, if not encouraging them. In addition to the Klan, busing and affirmative action (which are actual, not attitudinal problems) there are other blatant facts. Unemployment is highest among young black males. Housing projects, for example Chicago's Cabrini Green and Robert Taylor Homes, are populated almost entirely by blacks. Looking at

a "project child" it's hard not to think that had he been born white he probably would not be living there. It's as hard to stomach that thought as it is easy to think it.

Television is an embarrassing example of the perpetuation of racial stereotyping. From the acclaimed mini-series "Roots", programming has devolved to such mindless, offensive shows as "Diff'rent Strokes" (note the 'cute' spelling?) with Gary "look at the cute black kid with the chubby cheeks" Coleman and "Gimme a Break" featuring a

modern-day, jive-talking Aunt Jemima.

Even here on campus — at a university, the place where people supposedly come to broaden their experiences and learn tolerance — one hears expressions worthy of Lester Maddox on a good day. I'm sure more than one parent wondered if *their* child would have a black roommate.

Perhaps I judged the young woman in the article too rashly. Perhaps she won't think of herself differently. Perhaps, only now, will

**Jenny Pitts**

other people think of her differently. It makes me wonder what my reaction would be if someone were to come up to me and tell me I were really black. I wonder if I would run downtown and have my driver's license changed.

## Ideology costs more in the long run

When Monsignor Thomas J. McCormack announced that, inflation being what it was, he would most regretfully need to charge a tuition of \$90 per month, nearly 10 percent of the parents of the 1,250 students who attend Cardinal Hayes High School wrote in to complain. Complain may not exactly reflect the emotions of parents who had, after all, been paying \$85 per month. Everyone knows the impartial ravages of inflation, and any parents who desired to look into the matter at Cardinal Hayes would see that it was running at an annual deficit of \$200,000. Moreover, the school's budget is only \$1.5 million.

Just two years ago, a total of 14 teachers approached the monsignor and said, in effect, look, I love this school, and the job it is doing for inner-city students is remarkable, but I can't get along with a salary differential as exaggerated as that paid me by Cardinal Hayes, compared with that available to me in the public

high schools. In other words, the parents recognized that nobody was getting any richer from the five extra dollars per month being asked of them. So that their representations to the authorities were more in the way of an invitation to consider the pain that an extra \$5 per month causes the very poor in New York, many of them one-parent households supporting four, five, six children.

So what does Cardinal Hayes do? Well, it does everything. There is an Inner City Scholarship Fund (its chairman is Jewish). There is the annual money-raising dinner for the benefit of the 35 schools run by the archdiocese of New York, which last year raised \$1 million. The rest has to be got from the archdiocese, which comes up with the money to the extent it can. To the extent it can't, the boys at Cardinal Hayes whose parents can't make it are detached: and go to the public schools, which are free. And which cost the New York taxpayers not \$90 per month,

but three to four times that figure.

Those who oppose the notion of tuition tax credits are enemies of education. The idea of public education is first to promote education. The word public is an adjective, adorning the word education, which being public, is advertised as free. Inasmuch as we should all by now know that there is no such thing as a free lunch, we acknowledge that even the very poor in the inner city in New York, as elsewhere in inner cities, are paying for their public schools, through taxation direct and indirect. But many of them are not getting an education, certainly not of the sort that causes parents to sacrifice to send their children to Cardinal Hayes.

The students are there promptly — at the entrance is one of the 36 laymen (there are also 16 priests and six brothers), clapping his hands, urging them to run in to be punctual. They come dressed in tie and coat. There is no such creature as a security

guard. The 14-year-old freshmen often need a little decompression, and five percent of them will flunk out for failure to meet behavioral standards. After making it through sophomore year, there are few disciplinary problems, none at all of the kind one reads of as regularly tormenting the life of children in many of the public schools. It is hardly a matter of race — at Cardinal Hayes 53 percent are Hispanics, 35 percent blacks, zero percent are troublemakers. Eighty-five percent of the seniors go on to higher education.

Not surprising. Father Walsh teaches a history class for advanced placement students and today he is talking about the rough syllogism attempted by Alexander Hamilton when he said: a) good government is in the national interest, b) the rich and wellborn serve the national interest; therefore c) the rich and wellborn (by such terms, Hamilton meant the 18th century squirearchy) serve good government. That isn't necessarily

**William F. Buckley**

**On the Right**

true, said Father Walsh. But that was Hamilton's position. Later he told the visitor that he teaches only historical episodes in which controversy figures.

Much of what goes by the name of social tragedy it is not easy to do anything about: for instance, drug abuse, illegitimacy, crime. When one comes upon such an institution as Cardinal Hayes, serving the cause of education, of racial integration, of good manners, and reflects that a few adamant ideologues pleading a construction of the First Amendment that would have baffled the men who wrote that amendment, threaten its survival by blocking tuition tax credits, one despairs over the noxious lengths to which ideology taxes us.

## The Observer

Founded November 3, 1966

*The Observer* is an independent newspaper published by the students of the University of Notre Dame du Lac and Saint Mary's College. It does not necessarily reflect the policies of the administration of either institution. The news is reported as accurately and as objectively as possible. Editorials represent the opinion of a majority of the Editorial Board. Commentaries, opinions and letters are the views of their authors. Column space is available to all members of the community, and the free expression of varying opinions on campus, through letters, is encouraged.

By The Observer and The Associated Press

**Interhall basketball games** listed in Wednesday's edition of *The Observer* for tonight were incorrectly scheduled for the ACC. All interhall games scheduled for this evening will be played at the published times, but in the Stepan Center. — *The Observer*

**A ski trip** is being organized by the Student Union open to all Notre Dame students. Although the trip is scheduled for March 13-19 (Spring Break), an organizational meeting is scheduled for tonight at 7 p.m. in a room off the LaFortune Ballroom. A short film on the Summit County ski areas will be shown. Because of space limitations an initial deposit of \$25 is required by Wednesday, Dec. 16. — *The Observer*

**The women's golf team** of Notre Dame and Saint Mary's will meet tonight at 6:30 p.m. in the Breen-Phillips 24-hour lounge (in the basement). All interested in competing in the spring should attend. For more information, contact Mary Beth Heslin (1279) or Jim Rogers (3234) — *The Observer*

**Strength development** and conditioning and its relation to all sports will be the subject of the first Notre Dame Strength and Conditioning Clinic scheduled for Friday and Saturday, December 11 and 12 at the University of Notre Dame. Registration begins at 4 p.m. tomorrow in the auxiliary gymnasium of the Athletic and Convocation Center. For further information call Bill Allerheiligen or Gary Weil at 7784. — *The Observer*

**A clutch pin by Mike Smith** enabled the Notre Dame wrestling team to up its record to 3-0 last night in the ACC Pit. Smith's pin clinched a 27-16 victory over Olivet after the Irish had finished a 29-18 dumping of Ohio Northern in a triangular meet. Joe Andreotti's pin helped the team's cause against Olivet, while Brian Erard was the lone pin winner in the Ohio Northern match. — *The Observer*

**Bill Gleason**, sports columnist for the *Chicago Sun-Times*, will be the master of ceremonies tonight at Notre Dame's annual football banquet honoring Coach Gerry Faust and his players. Reservations (at \$18) for the 7 p.m. dinner in the ACC may be made by calling Rich Sherman at either 282-2392 or 272-5887. — *The Observer*

**MIKE FAVORITE:** Good Luck on your finals, and have a MERRY CHRISTMAS! LISA GALLOWAY

Monica, You look like hell.

Shorty, As in height, you are low in age, also (finally) 19! Anyway, Happy Birthday - even though you do sound like a Puerto Rican when we're alone. Friends P.S. Good luck with both of your friends' next semester.

One good ramble deserves another, and so, The Restless Shade of Moose Control (with or without his glasses, which some woman keeps trying to take from him while playing games) strolls the dominion, wishing only an end to the emptiness of a page, seeking only to turn blank to black. At moments such as these, one must forsake the dribble and put up the shot, despite the zone blocking the way. The Restless Shade of course has had dealings with Digger.

But none of this would be noteworthy except for the fact that even down is up these days (check the stock market and think of ducks) and old jokes never die, it's just that no one 0 laughs at them any more.

Doors have been broken down for lesser reasons, but that's another story. The real issue is whether all the things we're missing are really waitin' at the end of the ride. And now that Maverick is back, can **Rawhide** be far away?

If religion is the opiate of the masses, TV is their LSD, and religion on TV is really a trip.

Relevance tends to be a problem in this space.

**K OF C CHRISTMAS PARTY FRIDAY NIGHT AT 9...BREAK THE FINALS TENSION xx**

# Michael in '83

## Yanks name another manager

HOLLYWOOD, Fla. (AP) — The New York Yankees' managerial merry-go-round took another sudden turn yesterday when the American League champions announced at baseball's winter meetings that Gene Michael would return as the club's pilot for three years, beginning in 1983.

The Yankees held center stage at the meetings, announcing that Michael would succeed Bob Lemon, who will handle the club for 1982 before moving on to other duties in the organization.

The Yankees' shuffle was settled after owner George Steinbrenner granted Lemon's wish to manage the team for one more year.

Lemon has twice served as a relief manager for Steinbrenner, taking over in July 1978 and leading the club to the world championship, then relieving Michael last Sept. 6 and taking the club to the World Series again.

"I want to know if I can go nine," joked Lemon. "And George wants to know if I can go nine. I have very few complete games. I'm the Goose Gossage of the managers."

Once Steinbrenner agreed to give Lemon the Yankees for 1982, the owner turned to Michael, who still had two years left on his contract. The two agreed to a two-year exten-

sion of that deal and Michael will spend 1982 as a scout before returning to the dugout in 1983 and for two more years.

Michael was asked why he thought he could get along with Steinbrenner now after being fired by the Yankees' boss only three months ago.

"I'm smarter now," he said. "I've learned you can't say some of the things I've said and not have problems."

Michael had positioned himself for the axe last summer when he complained publicly about Steinbrenner's repeated threats to fire him and refused to apologize to the owner for the outburst. After reports that he was on the hot seat, Michael held a news conference in Chicago to blast the boss, saying, "Quit meddling. Stop threatening to fire me. If you want to fire me, fire me."

Steinbrenner obliged, taking away his job but continuing to honor his contract, which would have run through 1983.

"I was wrong," Michael said at the news conference yesterday.

"I know we've got some problems, but I think that's over and I don't see any major problems again except winning," he said.

Michael said he had not discussed a return to managing with Steinbrenner until Tuesday, after the decision had been made on Lemon.

He said he knew he was back in baseball when Steinbrenner called him early yesterday morning and started yelling at him.

"George has a pretty strong mind, and he told me what he had on his mind," he added.

Michael said he believed Steinbrenner was probably rougher on him than on other of his managers because of their close relationship in the past.

"George can be very critical, very tough," the future Yankee skipper said. "But he doesn't always mean it. He cools down. He can be very considerate."

The Yankees have had six managers in the nine years since Steinbrenner bought the club in 1973, three of them — Billy Martin, Lemon and Michael — twice. There have been nine changes during the period.

A humorous note was injected into the news conference. As Michael began talking about how tough Steinbrenner could be, the telephone in the room began ringing.

"That's George," a newsman said loudly. "He's changed his mind."

Even Bob Lemon doesn't know the next move in the New York Yankees revolving manager game. (AP Photo)

# L.A. gets Orta

## Trades mark Baseball talks

HOLLYWOOD, Fla. (AP) — Action continued at the major league baseball winter meetings today, with a number of players moving to new teams.

The Cleveland Indians sent outfielder Jorge Orta and two minor leaguers to Los Angeles for pitcher Rick Sutcliffe and second baseman Jack Perconte.

The Indians sent Orta, who batted .272 last season, along with minor leaguers Jack Fimple, a catcher, and pitcher Larry White, to the Dodgers for Sutcliffe, the 1979 National League Rookie of the Year, and Perconte, a promising second baseman.

Fimple batted .288 at Waterloo and White was 10-12 with a 3.51 earned run average at Chattanooga

last season. Perconte batted .346 with Albuquerque and Sutcliffe, a 17-game winner in 1979, struggled to a 2-2 record in 14 games with the Dodgers last season.

When the Dodgers dropped Sutcliffe, a 6-foot-6, 225-pound right-hander, from their list of eligible players for the playoffs and World Series, he got into an bitter argument with Manager Tom Lasorda and reportedly broke some furniture in the clubhouse.

Dave Garcia, manager of the Indians, took note of that, saying, "I don't know him, but I know I'm not gonna talk back to him."

Preliminary major league joint meetings got under way after the closing session of the minor league meetings. On the agenda were discussions of three division play and revenue sharing, among other items. No votes were taken yesterday.

In another trade, Oakland swapped pitcher Rich Bordi to the Seattle Mariners for third baseman-outfielder Dan Meyer. Bordi spent 1981 at Tacoma where he was 9-11 with a 3.68 ERA. Meyer batted .252 with three home runs and 22 runs batted in for the Mariners.

The Chicago Cubs designated for assignment outfielders Mike Lum and Jim Tracy and second baseman Steve Dillard. The Cubs were three players over the 40-man limit after completing a five-player trade with Philadelphia and signing free agent pitchers Bill Campbell and Ferguson Jenkins on Tuesday.

St. Louis acquired two veteran pitchers with major league experience from the Mexican League. Eric Rasmussen and Vicente Romo were both assigned to the Cardinals' Class AAA affiliate at Louisville.

# S Cubed wins i-ball co-rec volleyball

**Jim Kinney**  
Sports Writer

## Inside Interhall

In an exciting match last night at the fieldhouse, S Cubed captured the interhall Co-Rec Volleyball championship, 15-5, 17-15. S Cubed commanded the first game with great individual effort by Rich Cordova. As captain Pam Gorski stated, "Rich is our star player and he really came through for us. That is the best we've ever played." The intensity exhibited in the second game was exactly what it took to win. Dion's Dinkers were down in that game by a score of 14-8 at one time, but with remarkable hustle reeled off six unanswered points to tie the score 14-14. In the end, though, S Cubed took the finale with good team work and execution, 17-15. Jill Stenzel, playing for Dion, and a 14-year veteran of the sport said, "We never really played our game". As teammate Barb Walker put it, "the reaction of the players and the teamwork just weren't there for us." The two teams finished out of a field of about 24 and are both deserving of congratulations.

The office of Non-Varsity Athletics reminds all intramural basketball players that the date of first games is rapidly approaching. All players must have their insurance forms filed in the Non-Varsity Athletics Office in Room C-2 of the Athletic and Convocation Center by 5 p.m. on the day of their first game. All players must provide proof of insurance. There will be no exceptions. Players must also remember to bring their ID cards to the first-round games.

# Beat Devils, Boilers

## Cavs, Cards both win again

CHARLOTTESVILLE, Va. (AP) — Freshman Jimmy Miller and sophomore Othell Wilson, with a little help from All-American Ralph Sampson, keyed a late Virginia surge as the fifth-ranked Cavaliers overcame Duke's Blue Devils 92-83 in college basketball last night.

The conquest enabled Virginia to remain unbeaten at 6-0 and dropped Duke to 1-3. It was the Atlantic Coast Conference opener for both teams.

Miller, a 6-foot-8 forward, scored 26 points — 18 in the second half — while Wilson tallied 18 — 14 after intermission.

Miller and Wilson combined for 17 straight Cavalier points late in the game as Virginia overcame an eight-point deficit to beat Duke for the fifth straight time.

A pair of free throws by Duke's Vince Taylor, who led all scorers with 31 points, with 13:28 to play gave Duke a six-point lead at 59-53. At that point, Virginia Coach Terry Holland inserted Sampson, a 7-4 center, into the lineup for the first time in the game. The junior has been sidelined with a broken finger on his right hand.

Sampson, Wilson and Miller teamed up to rally the Cavaliers and spoiled the Blue Devils' upset bid.

Meanwhile, in West Lafayette, Ind., Louisville Coach Denny Crum says he learned something in Purdue's Mackey Arena.

"This is not an easy place to beat anybody," said Crum after his third-ranked Cardinals ecked out a 73-71 college basketball victory over Purdue.

With two minutes left in the game Purdue's Russel Cross tied the score at 71-71 on two free throws.

The Cardinals then went into a stall, trying to force Purdue out of its zone defense. Louisville called a time out with 21 seconds to go, then

Smith was sent to the free throw line when he was fouled by Mike Secaree as he drove the baseline with seven seconds to go.

"We had a play set up for the last shot," said Crum. "We couldn't get it to the man we wanted and Derek ended up with the ball."

"I didn't object to Derek taking the shot. It was just I didn't want him to take it with 7 seconds left. That gave Purdue time to get down and score if he missed," Crum said.

Smith missed the foul shot, but Wiley Brown rebounded it and, with four seconds remaining, went back up with a short jumper to seal the game for the Cardinals.

The winning shot was the only basket of the night for Brown, a 6-foot-8 senior.

The Cardinals, raising their record to 3-0 for the season, rallied from a seven-point deficit in the first half and a five-point hole in the final period.

"We made a lot of mistakes early in the game and we gave up a lot of back door layups and things like that. We thought we played a lot better defense in the second half," Crum said.

Three straight baskets by Lancaster Gordon and two straight by Milt Wagner helped Louisville to a 69-65 lead with four minutes to go, but two free throws by Kevin Stallings and a basket by Secaree tied the game for the Boilermakers.

A stuff shot by Smith put Louisville ahead again before Cross hit his two foul shots to tie the game

## ... Test

continued from page 12

keep them off the boards. We won't play a zone, though. I'm looking for more than throwing the obvious up to beat the opposition right now. I want our team to be able to play good, hard-nosed man-to-man defense, so we're going to have to live and die with that for a while."

"We'll have to box out, too, sure," she says, "and maybe you can draw

some over-the-back calls on them, but when you're on the road, you have to do that more to keep from getting reaching fouls yourself than anything else."

Tonight's contest, which will be played in 15,000 seat Hinkle Fieldhouse, is slated to get underway at 7 p.m.

Last year's game, the second of DiStanislao's Notre Dame coaching career, was the only previous meeting between the two schools.

## Lombardi banquet Crabbe will stay at home

Bob Crabbe is one of four finalists for the Lombardi Award for college football's outstanding lineman or linebacker, which will be awarded tonight.

But Crabbe will be the first finalist in the 12-year history of the Lombardi trophy to miss the \$125-plate benefit dinner. The Fighting Irish team captain elected to remain in South Bend to attend the team's football banquet.

The other finalists are defensive end Billy Ray Smith of Arkansas, guard Sean Farrell of Penn State and tackle Kenneth Sims of Texas.

Sims suffered a broken ankle against Texas Christian and won't be able to play in the Cotton Bowl when the Longhorns take on Alabama's Crimson Tide.

Smith, the only junior among the finalists, is completing a round of

banquets before returning to Razorback workouts in preparation for a Gator Bowl appearance against North Carolina.

"I'll miss four practices. I hope I get to start," Smith joked.

Farrell, 6-3, 265, is the first player in 20 years to start three seasons for the Nittany Lions. A native of Westhampton Beach, N.Y., Farrell was a

second team AP All-America pick last season and earned first team honors this season.

The Lombardi Award is named in honor of the former Green Bay and Washington coach who died of cancer in 1970.

Pittsburgh's Hugh Green won the 1980 Lombardi Award.

## Tickets available

**A limited number** of individual game tickets remain available for four games on the 1981-'82 Notre Dame home basketball schedule. Tickets are on sale at Gate 10 of the ACC for the Valparaiso (Dec. 21), Davidson (Jan. 16), Maine (Jan. 27) and Northern Iowa (Mar. 2) contests. There is no limit to the number of tickets an individual may purchase. All tickets are bleacher seats at \$4.50 each.

Associate Sports Editor

Former Notre Dame basketball stars Orlando Woolridge and Tracy Jackson have been reunited. The Chicago Bulls of the NBA acquired Jackson last night from the Boston Celtics for an undisclosed amount of cash.

Jackson became expendable when Celtic guard M. L. Carr returned to action after an injury and Boston signed rookie forward Danny Ainge to a multi-year contract.

"My concern is that I don't know how he'll ever get into a game with us the way Ray Blume has been playing," said Bulls' General Manager Rod Thorn.

But the situation in Chicago is not that bleak for Jackson. The 6-5 guard will be a good hedge against the possible departure of the Bulls' Rickey Sobers.

Sobers is a free agent, and could sign with another team in the spring. Bulls' Coach Jerry Sloan is known to

be partial to the former Irish tri-captain.

"Most of our people really liked him when they saw him in college," Sloan said yesterday when asked about the possibility of Jackson joining the squad.

Celtic President Red Aurbach said he hated to part with Jackson, but NBA regulations require that players on the active roster as of Dec. 21 remain on the roster throughout the season.

Jackson had not played in the Celtics' last two games, and had appeared in only one of their last six contests. On the season, the Silver Springs, Md. native had scored 26 points in 11 games.

For a time last week, it seemed that the Celtics would keep Jackson and release or deal another guard. Jackson had played far better than Ainge in practice sessions prior to the former Toronto Blue Jays' second baseman officially joined the team. However, in the end, Boston decided to keep Terry Duerod and trade Jackson to Chicago.

### BARCLAY'S FRESH APPROACH:

Dig into the menu that won't sink your budget.

Talk about a fresh approach, we think you'll find more on our menu for the money than anywhere in town. And there's enough variety to enjoy a different selection every night for two weeks!

For instance, try a tender one-half BBQ Chicken in our own tangy barbecue sauce, just \$4.95. Or, our Hearty Prime Rib bones, slowly

broiled in our special barbecue sauce, for \$6.65. Or, a beefy Rib Eye Steak, cut from the prime rib and charcoal broiled to capture all the outdoor flavor. Just \$6.75. And all our dinners come with all the home-made soup you want, special garlic bread, and your choice of our rice, home fries or baked potato.

So drop by and eat up on some low prices.

## Tall order

# Icers face Northern tonight

By MICHAEL OLENIK  
Sports Writer

Notre Dame's hockey team will make a rare Thursday-Friday night stop on conference ice tonight when they visit Northern Michigan's Lakeview Arena on the Michigan peninsula to battle the second-place Wildcats.

The series will feature the second meeting of the year between the two teams, as Northern Michigan has already handed the Irish two defeats on ACC ice. In that series, the Wildcats nipped Notre Dame by scores of 3-2 and 4-3, the first losses of the year for Lefty Smith's crew.

While Northern has continued its relatively consistent winning ways since, the Irish have battled back and forth in league competition and now find themselves with a 6-7-1 league record, good for sole possession of seventh place in the CCHA. They are, however, in prime position for advancement, as only three games separate them from a fourth-place standing.

Prospects for upward movement

are not entirely good against the Wildcats, especially considering their long list of heralded personnel. For instance, in only 14 games this year, sophomore winger Dave Mogush has recorded 21 goals — easily best in the league. Three of those goals came in the October series with the Irish, and it is likely that Smith will have his team on the lookout for an encore performance.

Unfortunately, Mogush is not a one man show, evidenced by the fact that junior captain Eric Ponath has 36 total points, also the best output in the CCHA. From there, the Wildcat offensive output slows down somewhat, but there is little doubt that some top talent exists on this defending league champion team.

Another reason behind Northern's 9-3-1 record is its goaltending staff. With the likes of Jeff Poeschl and Bruno Campese, Coach Rick Comley has two of the best netminders in the business. Poeschl was CCHA rookie-of-the-year last season, and has been more than steady thus far for the Wildcats. The freshman Campese, meanwhile, has literally set the league afire. He has compiled a 7-0 record while posting a goals against average well below three. He proved himself worthy of praise already to the Irish when he stopped 44 shots on the way to a 3-2 win in the ACC on October 30.

The Irish are counting on a revitalized state of mind to propel them to success against Northern, as last weekend's sweep of Miami is still fresh in their memory. That series showed some marked progress in Notre Dame's powerplay unit, a missing link in the team up to that point. By converting on four of

nine opportunities, the Irish improved their proficiency in the man-advantage situation to a respectable 31 percent.

A major factor in that development was the pleasant surprise provided by Smith's new line of Rex Bellomy, John Higgins, and Brent Chapman. The three combined for four goals and six assists in the series, and Smith was visibly pleased with their performance.

The play of Notre Dame's first line also put a smile on Smith's face, as Dave Poulin, Jeff Perry and Bill Rothstein dented the nets with seven goals between them. Undoubtedly, the play of this line will directly affect the outcome of the series.

Whether Smith will split goaltending chores as he did last week is unknown at this point, but in either Dave Laurion and Bob McNamara, he will get a steady performer.

Once again, the Irish have a tough task before them, and it will take one of their better efforts to tackle it successfully. The possibility will definitely be there if they can exhibit the more physical and heads-up play that was shown against Miami.

# Irish women face yet another test

By MARK HANNUKSELA  
Sports Writer

As if finals aren't soon enough, Mary DiStanislao's women's basketball team should have a test awaiting them tonight when they travel to Indianapolis for a date with Butler University.

The Lady Bulldogs, a 60-51 winner over the Irish last season, return 11 letter winners from last year's Division II state champion.

Coach Linda Mason's club, 26-2 a year ago, will enter tonight's contest with a perfect 3-0 mark after registering wins over Valparaiso, Indianapolis Central and Indiana-Purdue at Indianapolis (IUPUI).

"They've played together before, says DiStanislao, "and experience is always a factor when you have upperclassmen playing against freshmen. Plus, it's always tough to win on the road, because everybody always psyches to beat Notre Dame."

"I just hope we're not riding the crest of any overconfidence that may have resulted from Tuesday's game."

Overconfidence probably would be a natural reaction for a team coming off a 63-point win. But this team has something to prove. It wants to become a national Division I power.

Already, DiStanislao's club has begun the transition. Five freshmen have made significant contributions in Notre Dame's first three games, led by Tempe, Az., native Ruth Kaiser, the leading Irish scorer.

Kaiser has scored 42 points in the three games, which averages to 14 per game. Right behind her is junior center Shari Matvey, who has tallied 40 points, while freshman Carrie Bates, Notre Dame's third double-figure scorer, averages 12.0.

Another freshman, Mary Beth Schueth, is Notre Dame's rebound leader, having hauled down nearly 10 rebounds per game.

Two players have averaged double figures for a Butler team that has averaged nearly 81 points per game.

Sophomore Elza Purvlicis leads the Lady Bulldogs with a 15.7 scoring mean. Beth Pipenbrink, a junior, is scoring at a 13.3 clip.

Pipenbrink is the leading Butler rebounder, averaging 10.3 rebounds per game. Purvlicis (9.0) and senior Cheryl Kovalow (7.5) follow in that department.

"Their big people get a lot of offensive rebounds," says DiStanislao, "so obviously we're going to have to

See TEST, page 9

For UCLA, Miami

# Don't bother with tears

Shed a tear for Larry Farmer. While you're at it, cry a little for Howard Schnellenberger, too.

In the past three weeks, Notre Dame fans have been subjected to the snivelings of these two men. They were not whining about bad officiating, nor about the manner in which their teams played — for in each case they won big.

No, the coaches were bemoaning the fact that their teams are facing NCAA probation for cheating.

"It's an unfortunate situation," says Farmer, who yesterday called the NCAA investigation nit-picking. "But, it's something we are going to have to live with. We will just have to pull together, play like a team, and overcome this adversity."

Schnellenberger voiced many of the same thoughts two weeks ago in Miami. "It's a damn shame this team can't go to a bowl game. We are one of the best teams in the country, and we deserve a chance to prove that. But this is as close as we'll get. That's too bad."

That's not too bad, buddy. That's life.

When you cheat, you run the risk of getting caught.

To be fair, many of the 66 violations that the NCAA cited in its case against the University of Miami took place before Schnellenberger came on the scene. But at least some of the success that the Hurricanes are enjoying can be directly attributed to players that were part of those irregular practices.

As for UCLA, take Farmer's comments with a grain of salt. He doesn't have the alibi that Schnellenberger has. He's been at UCLA for years, and it's hard to believe he was absolutely unaware of what was going on.

If he knew UCLA was cheating, he deserves all the heat he and the program are getting. If he was blind to the rule-bending, he's too ignorant to be a major college coach.

"We're going to have to make the best of a bad situation," Farmer told reporters Saturday. "I can't do anything about the NCAA's decision, so I'll have to live with it."

"I'm just trying to be positive about the whole thing. I've told the players everything I know about what's going on. Now we have to pull together, play like a team, and forget about the outside world."

Fear not, Larry. This "unfortunate situation" is not all that bad.

As punishment for illegally recruiting several players, UCLA has been placed on a two-year probation. They

Skip Desjardin  
Associate Sports Editor

will not be allowed to participate in the NCAA tournament this coming spring.

Big deal. The Bruins will still be allowed to go to the NIT and clean house on the Toledos and Austin Peays of the world. Then, what about the second year of the probation? For all intents and purposes, it doesn't exist. The Bruins will be allowed to be on TV and they'll go to the NCAA tourney. There's no real punishment here at all.

Oh, I almost forgot. UCLA's second-place finish in the NCAA's two years ago will be nullified.

Who is the NCAA kidding? I remember the game between UCLA and Louisville, the school has probably spent the money it made on the game and the players have the personal satisfaction of having gotten to the finals. Does the NCAA really think making the school give back the trophy — as if the game never happened — is a deterrent to other schools?

"I really can't have my head down or be ashamed, because there's nothing for me to be ashamed about," said Farmer. "If they'll penalize UCLA, I guess nobody's immune."

Therein lies the problem. Major colleges always think they are too good to be disciplined. Well, UCLA's lucky, they got less than they deserved. But at least they got something.

UCLA and Miami are prime examples of what's wrong with college athletics today. They are role models for schools to look up to when they want to cheat and get away with it. These are two of the very few schools that actually get caught, and all they get is a slap on the wrist.

Farmer and Schnellenberger should shut up and take what's coming to them — meager as it is. They got off easy. We don't feel sorry for them. They brought these problems upon themselves and their schools. The very least they could do is stop crying about how unfair the world is and look for ways to solve the problems at hand.

Legally.

In an effort to reduce the number of students disguised as empty seats at Notre Dame basketball and hockey games, the University's ticket office is working with representatives of the 23 dorms on campus in a voluntary student ticket exchange program.

"No-shows are never a problem for the UCLAs and the San Franciscos," says ticket manager Steve Orsini. "But for the not-so-big-name opponents, like Murray State and St. Joe's, there are students sitting home wishing they had a ticket, while others aren't using the tickets they paid for."

The ticket exchange program, overwhelmingly supported by the Hall Presidents Council earlier this year, is an effort by the

ticket office and the HPC to get tickets to those who want to use them. "This system allows a student who owns a basketball or hockey student season ticket, and elects not to attend a game, to give up the individual game coupon," Orsini explains, "so a fellow-student or an outside charity group may attend."

Among the charities that could take advantage of available tickets include the Logan Center, the Big Brothers/Big Sisters program and the South Bend YMCA.

Students interested in taking part in this exchange program should understand the following procedure:

The original student season ticket holder takes the whole coupon booklet to their hall representative, preferably before noon on game day. The hall rep-
