## Five commissioners investigating murder of Aquino resign

Associated Press

MANILA, Philippines — President Ferdinand E. Marcos suffered another political setback yesterday when all five panelists investigating the murder of opposition leader Benigno Aquino resigned because their impartiality had been questioned.

"It appears that the image of the commission for impartiality and capacity of its members to do justice to every man are being questioned," four of the five resigning commissioners said in a letter to Marcos.

Opposition leaders and Aquino's family charged the panel was biased and under Marcos' control.

The presidential palace said in a news release that Marcos "remains receptive to suggestions in order to allow a full, impartial and unrestricted inquiry ... and to punish whoever might be guilty."

Aquino was gunned down at the Manila airport Aug. 21 as he returned from voluntary exile in the United States. The government says the assassination was a communist plot carried out by a gunman who was shot and killed at the scene by guards. The opposition claims it can produce witnesses who saw government soldiers kill Aquino and

Rolando Galman, the man the government says shot Aquino.

Aquino's death sparked demonstrations by opponents calling for Marcos' resignation. Two protests ended in riots killing 12 people.

The commission's collapse was the latest in a series of blows to Marcos. President Reagan has canceled a November visit to Manila, and a day later a 21.4 percent currency devaluation was ordered.

Yesterday's resignations came after a refusal by veteran lawmaker Arturo Tolentino, a loyal Marcos party man, to head the commission. He said his presence would be solely "cosmetic" and he proposed that a new panel be created independently, not by the president.

Marcos said he was considering forming a new panel and would "take into account" Tolentino's suggestions.

The commission's original chairman, Supreme Court Chief Justice Enrique Fernando, resigned last month after opposition charges that he was subservient to Marcos.

The five commission members touched off a one-minute standing

see MARCOS, page 5

Acting chairman Felix Antonio (third from left) of the presidential commission investigating opposition leader Benigno Aquino's assassination rises after announcing the resignation of the commission mem-

bers yesterday. The commissioner said they are quitting to give way to a more credible panel. See the AP story at right for more information.

## Sen. Quayle tells ND law students 'War Powers Act unnecessary'

By KAREN McCLOSKEY and PAUL MCGINN  
Staff Reporters

Sen. Dan Quayle, R-Ind., told Notre Dame Law School students yesterday the War Powers Act is unnecessary because "Congress can impose its will anytime it gets the guts to do it."

The War Powers Act, adopted in 1973, created a procedure to check the constitutional tug-of-war between the president and Congress about the deployment of troops to hostile areas, Quayle said.

Congress invoked the act last month after two U.S. Marines in Lebanon were killed Aug. 29.

President Reagan and Congress agreed to invoke the War Powers Act for 18 months.

Quayle, a member of the Armed Services Committee, termed the War Powers Act a "clumsy piece of legislation" whose purpose is to control "the very jealous jurisdictional framework that the Congress and the executive branch share."

The president, as commander in chief of the armed forces, claims the right to deploy forces; Congress, because of its "power of the purse strings," could block any such presidential action by cutting defense funds, he said.

Quayle noted that in the latest Congressional debates President Reagan's reasons for sending troops to Lebanon were overshadowed by "procedural arguments" about the length of time the Marines should remain there.

The 18-month limit was adopted to avoid conflicts with the 1984 presidential election and to allow Lebanon to stabilize its government, according to Quayle.

Reagan administration officials want to establish a strong central government and remove all foreign troops from Lebanon while securing Israel's northern border, he said.

Quayle said the recent deployment of Soviet SS-21 medium range missiles in Syria destabilizes the entire Middle East, and has made administration officials nervous about

Soviet intentions in the Lebanese conflict.

Sen. Dan Quayle

During a question and answer session, Quayle commented on the stationing of the presidential "doomsday" plane at Strategic Air Command's Grissom Air Force Base near Kokomo, Indiana.

## Changes planned for Jr. Parents Weekend

By SUSAN SAKER

News Staff

Plans are under way for the 1984 Junior Parents' Weekend, scheduled for Feb. 17-19, and its organizers have made several changes from last year's event in order to accommodate large numbers of family members who would attend.

Mike Schmutz, chairman of this year's JPW committee, said major events will be re-located for both financial and logistical reasons.

The cocktail dance on Feb. 17 will be held in the arena of the ACC instead of the Century Center. This change would allow Notre Dame Food Services to cater the meal and thus cut down on the cost of the weekend, Schmutz said.

Mass on Saturday afternoon, nor-

mally held in Sacred Heart Church, will also be held in the arena of the ACC so as to alleviate overcrowding in recent years. University President Father Theodore Hesburgh has been asked to celebrate the Mass but he has not yet given an answer, said Schmutz.

Other events will be scheduled similar to last year's proceedings. Saturday morning, all four academic colleges will present informational workshops for parents and students, and faculty members will speak concerning their respective fields. Saturday evening, dinner will be served in the fieldhouse of the ACC after which parents and students are invited to attend receptions within the dorms.

The Observer/Mike May

The Knights of Columbus Building has been the center of a great deal of controversy the past few weeks.

See Elizabeth Flor's story at right for the latest.

## K of C Grand Knight says no to rentals

By ELIZABETH FLOR

News Staff

Joe Anthony, grand knight of the Knights of Columbus, said their building is for their use only and they are not interested in renting out their building as party space, at last night's Student Senate meeting.

The Senate's resolution, which proposed making the Knights of Columbus building open for party rentals, caused a "misunderstanding among all ends," Peggy Prevoznik, student body vice-president, said. "We are sorry for the misconception and appreciate your help," she told

Anthony.

Student Body President Brian Callaghan agreed, saying, "This is a really good lesson for us, of all the things that do need to be looked at and the people that do need to be talked to."

The resolution should not have been passed, Prevoznik said, because of an initial agreement made in 1969 between the University and the Knights of Columbus. The agreement says that the building can only be used to host non-alcoholic events sponsored by a Knights of Columbus member.

see STUDENT SENATE, page 5

## In Brief

**Sister Kathleen Reilly**, administrative assistant for special projects at Saint John's Medical Center in Anderson, Indiana, will join the Saint Mary's College Board of Regents Oct. 20 when the College's governing body convenes for its first meeting of 1983-84. A 1965 graduate of Saint Mary's, Sister Kathleen received her master's degree in business and managerial accounting from George Washington University in 1973. Sister Kathleen served as principal of St. Cecelia's Academy in Washington, D.C. from 1976-81 and spent two years as an administrative assistant for finance for the Catholic schools office of the Archdiocese of Washington, D.C. — *The Observer*

**A funeral mass** will be held at 3:30 today for Brother Damien Daele, 82, in the Chapel of St. Joseph's at Holy Cross Brothers Center. Daele died unexpectedly early Sunday morning in St. Joseph Medical Center. He had been living at Duquarie House for the past year. Damien received his nickname of the "Rosary Brother" from his vast collection of rosaries, some of which are quite rare. He received two bachelor of arts degrees, in English and history, and two masters of arts degrees, in history and biology from Notre Dame. He also held an honorary doctorate degree. Burial will be in St. Joseph Cemetery. — *The Observer*

**Cardinal Terence Cooke** was eulogized yesterday as a "priest's priest" at a funeral designed as a "celebration of joy" and attended by 1,000 white-robed priests, government officials, celebrities and a former president. "It is not within our power to offer adequate thanks to God for the life of Terence Cooke," said Cardinal William Baum, the top-ranking American in the Vatican, who said he brought a special message from the pope. In his prepared homily, Baum said Pope John Paul II "realizes fully that a close and trusted friend has departed from this world." Cooke, said Baum, "opened his heart to all," loved his native New York, "gave himself completely to his Lord and to his people" and was especially sensitive to the needs of priests. "Terence Cooke was, in the best sense, a priest's priest," Baum said. Crowds were four and five deep behind wooden police barriers across Fifth Avenue and spilled over onto side streets as a procession of priests, from cardinals to curates, filed into St. Patrick's Cathedral. Tickets for places in the cathedral, the symbol of Cooke's authority in life and the resting place of his remains in death, were held by about 2,500 people, including former President Nixon, comedian Bob Hope, Gov. Mario Cuomo, United Nations Secretary General Javier Perez de Cuellar and former New York governors Hugh Carey and Malcolm Wilson. — *AP*

**A British journalist** who recently spent six weeks in Afghanistan reported yesterday that anti-Communist Moslem guerrillas cannot cope with the "enormous" modern firepower of the Soviet troops. "I would estimate the rebels can only last a couple more years," wrote Ross Benson, chief foreign correspondent for London's conservative *Daily Express* newspaper. He said Soviet helicopter gunships and new Soviet units from Eastern Europe were waging a campaign of "genocide" against poorly equipped resistance fighters. "Judged solely from a military standpoint, the Soviets' policy is proving remarkably effective," Benson wrote. "The destruction wrought by this modern firepower is enormous and the rebels do not have the weapons with which to fight back." The London-based journalist said he and photographer John Downing entered Afghanistan from neighboring Pakistan with false identification papers and disguised as Afghans. Western analysts estimate some 100,000 Soviet troops have been in Afghanistan since 1979 helping the government fight a guerrilla insurrection. — *AP*

## Of Interest

**The film "Killing us Softly"** will be shown tonight at 9 and 10 in the Center for Social Concerns. The film maintains that most advertising campaigns are underlined by psychological and sexual themes. The film says the \$50 billion ad business profits from fears and insecurities of consumers. The half-hour presentation is sponsored by the Notre Dame Women's Caucus. — *The Observer*

## Weather

**A 60 percent chance** today of thundershowers. Mostly cloudy and mild with high in mid 60s. An 80 percent likelihood of thundershowers tonight and tomorrow. Warmer tonight with low in mid 50s and cooler tomorrow with high in mid to upper 50s. — *AP*

## Cap'n Crunch and complacency

As you sit in the dining hall these days, you may notice something in the air. Or the lack of something in the air.

As goes the conversation in the dining hall, so goes the campus. But what is being discussed over the chicken sandwiches at lunch this semester?

Not much, beyond Cap'n Crunch, sidewalk construction and a mediocre football season.

When a children's junk food cereal and artistic methods of displaying concrete becoming the burning issues of our time, you know problems are on their way.

Yet vast strides in terms of campus improvement have been made since May.

The renovations of LaFortune, the Engineering Auditorium and Washington Hall top the list. The dedication of Saint Mary's Haggar College Center is now history. Recently-paved D-6 is a lot anyone would be proud to park their vehicle on. The lighted Stepan courts are an answer to the prayers of late-night basketball worshippers. And the final rolls of sod were being placed on the Fieldhouse mall just as Dean Roemer was preparing his first "save the lawns" directive of the year.

Then what happened?

After many long months of rapid progress, things have hit a screeching halt. For a time, Notre Dame and Saint Mary's administrators and students were really listening to each other. These improvements are evidence of that.

Suddenly, nothing is going on. Conditions are stagnating and no one is listening.

This year's United Way campaign is an example. It was decided that dorm competition was perhaps not the best way to encourage students to contribute. This decision is fine, but another approach should have been developed with the help of students who had the time and desire to promote the campaign. Because this wasn't done, the 1983 campaign will probably be the least successful in years. It could have worked, though.

The situation hit a low point last week with Student Senate's failed Knights of Columbus proposal. In the end, Student Senate, the Knights and Dean Roemer all came out looking bad.

That situation stands unresolved. The three sides haven't sat down together to discuss it. The conflict is drawing more attention than it would have merited in the past, because so little else is going on.

This isn't apathy we are dealing with. It's worse. It's complacency. People are settling for too little because they are afraid of the consequences if they do too much.

### Margaret Fosmoe

Managing Editor

Inside Tuesday

When the K. of C. proposal was first turned down, Student Senate decided not to risk a confrontation because it would lead to a "breakdown in communication" which could mean nothing else getting accomplished the rest of the year.

The sad thing is that they were right. It probably would mean just that. But, obviously, there was a breakdown in communication long ago, or this would never have happened.

We've gotten a little lazy this year. We've gotten a little complacent. We have to get things moving again or the dining hall conversation is going to become more redundant.

There is a point where the options have to be weighed. It has to be decided whether settling for complacency is worth it.

If nothing else, by the time you leave Notre Dame or Saint Mary's, you have to know what you believe in and what you're willing to stand up for. You have to know if there is anything you are willing to risk everything for.

Sometimes it's not so much what you do (within

reason), but just the fact that you do something at all. Right now, a whole lot of people are settling for not doing anything at all.

Besides, stirring up the fire keeps things interesting. There are some real benefits to keeping everyone on their toes. Then, when something really important needs to be accomplished, you find all the small insurrections along the way have made it a little easier. It also increases the spectrum of lunchtime conversation.

Next time Cap'n Crunch leads off the list of noontime topics, maybe you should start to worry.

The News Department will be accepting applications for a Sunday Day Editor. This is a paid position. Anyone interested should contact Dave Grote at 239-5303 or 283-1165.

Previous experience not necessary.

# EVERYONE IS PICKING UP ON PILOT PENS

## WATCH OUT FOR THE STUDY HALL SNATCHERS

They know that the 89¢ extra fine Pilot Razor Point marker pen writes as smooth as silk. And the custom-fit metal collar helps keep that point extra fine page after page. That's why when it comes to a Razor Point, it's love at first write.

# Mechanics offer maintenance tips for South Bend winter driving

By KEVIN BINGER  
Staff Reporter

There are three simple steps you can take to protect your car from the upcoming South Bend winter: drive it home, put it in your garage, and leave it there.

If you can't part with your car, however, you can increase your chances of getting through winter with some preventative maintenance. Here is a list of things to check before the snow starts falling:

**The radiator:** David Dudeck of Mike's Maple Lane Standard, 1706 South Bend Ave., recommends the radiator be flushed every other year. Flushing a radiator cleans dirt and foreign materials out of the cooling system.

Flushing solution can be found in any auto parts store, and the procedure may be performed by anyone. Drain the radiator, add flushing solution, reseal the radiator, and run the car at idle for 10 to 15 minutes. Then drain the solution and put in fresh

anti-freeze. The correct ratio of anti-freeze to water is 50-50.

Mike's currently charges \$19.99 for flushing radiators, and this includes checking all the hoses for leaks. Insufficient anti-freeze could cause the engine to freeze and crack.

"If you have a cracked engine block, that's the end of it," says Al Veldman, owner of Al Veldman's Standard, Highway 31 and Dixie Way South. "It's very expensive (to repair)."

**The battery:** If you don't have a sealed battery, remove the caps and make sure the solution covers the metal plates inside. If it doesn't, just add water.

"If you have a weak battery in the summer, it's sure not going to start in the winter," says Dudeck.

**The oil and filters:** The oil, oil filter and air filter should be changed every 2,500 to 3,000 miles, no matter what the season. Most service stations use 10W-40 all-season motor oil.

The air filter should be changed

only if dirty. If you can't see light through it, change it.

**Plugs and points:** Both Dudeck and Veldman recommend a tune-up to check the plugs and points and adjust the carburetor.

The points are located in the distributor cap, through which the current passes from the battery to the plugs. All but very late model cars have points in the distributor cap.

When starting the car, 12 volts of electricity run through the points. This is when the points can burn out. When the car is running, only 6 volts run through the points.

If the plugs are fouled, the car will not start without grinding, risking burnt out points and a run-down battery.

An owner with a spark plug wrench can change spark plugs. Unscrew the plugs, being careful not to chip the ceramic casing, and remove them. If the tips are black, replace them.

# Laundromat dirty students claim

By BARBARA STEVENS  
News Staff

If you want to see a clean Badin Hall laundromat, your best bet is to wash your clothes early in the day, according to a supervisor of janitorial services here.

Students who use the washers and dryers at night or during the afternoon often find leaves, old

newspapers, debris, and lint scattered on the floor.

Frank Johnson, one of four supervisors of a janitorial staff of 250, said the room is cleaned in the morning. "But the room is small," said Johnson, "and with hundreds of people going in and out it's not going to stay clean all day. Also, the front door is left open, so debris gets trapped in there."

Johnson said the cleaning staff can't afford to devote too much time to any one area. The staff is responsible for cleaning all the dorms and academic buildings. Badin's laundry is thoroughly cleaned over the breaks when the staff has more time, and when there are fewer people using it.

He also said that he has not heard any complaints about the condition of the laundry. "We need feedback from the students. If something isn't brought to our attention, it becomes an oversight. We want to respond to the students, so we appreciate their comments."

Not all students are unhappy with the condition of the laundry facility. "Generally it's clean," says Jim Brown, a junior from Grace. "It's clean at the beginning of the day. When there are a lot of people in it at night, it's pretty dirty, but they can't help that. What they need to do is build one (a laundry facility) on north quad."

## College celebrates birthday

By JOE MERCHANT  
News Staff

Celebrations commemorating Saint Mary's College's 139th Founder's Day began last night and will continue today with a full schedule of activities.

To portray this year's theme, "A Walk Through Time," Saint Mary's students will wear authentic uniforms which were required apparel for SMC students from 1860 to 1962. At 4 p.m. today, teams of four from each hall will compete in a trivia Scavenger Hunt, with the winning hall receiving a pizza party.

After a 7 p.m. candlelight dinner for visiting alumnae, there will be a short slide presentation on the history of the College. Sister Maria McDermott will speak after the lecture. To cap off the day's festivities, students will be treated with a surprise double feature at Haggard College Center.

Saint Mary's was founded 139 years ago by Father Edward Sorin and his colleagues Mother Angela and Father Moreau.

Since then, Saint Mary's students have annually celebrated the school's beginning. The Founder's Day festivities serve to increase student awareness of the school's past.

## Tentative settlement reached in Canal case

Associated Press

LOS ANGELES — A proposed multimillion-dollar settlement in the Love Canal toxic contamination case was reached between Occidental Petroleum and 1,345 residents whose homes were built on a chemical dump site, the company and attorneys for the residents said yesterday.

The tentative accord would resolve 94 percent of the claims against Occidental Petroleum, Occidental Chemical Corp., the city of Niagara Falls, N.Y., the county of Niagara and the Niagara Falls School District, said Gordon Reece, spokesman for the Los Angeles-based Occidental Petroleum.

The Love Canal Homeowners Association was notified of the tentative agreement by mail over the weekend, and residents, although pleased, had some reservations, said Joanne Hale, a spokeswoman for the group.

"There's been false hope in Love

Canal before," she said. "How can you get excited about knowing we can pay for our kids' leukemia down the line?"

Hooker Chemical and Plastics Corp., a subsidiary of Occidental, dumped more than 20,000 tons of chemical wastes into Love Canal for a decade before abandoning the dump in 1953, when it was sold to the Niagara Falls Board of Education. A school and a housing development were built on the clay-capped dump.

Love Canal became a toxic-waste disaster in August 1978 when state health officials ordered the evacuation of pregnant women and children because of possible contamination of the community by leaking chemicals from a dumpsite.

Hooker said it had no responsibility after selling the property to the Niagara Falls Board of Education in 1952. Hooker also said chemicals did not leak from the dump until after the city of Niagara Falls broke the clay seal that had been placed on top of the dump.

## Outraged citizens mourn Burma bombing; North Korea accused

Associated Press

SEOUL, South Korea — Thousands of outraged mourners rallied yesterday to denounce the Burma bombing that killed 16 members of a South Korean presidential delegation. President Chun Doo-hwan said the blast was aimed at him and accused communist North Korea of instigating it.

Chun, who avoided the Sunday explosion by minutes because his motorcade was delayed in traffic, announced nationwide mourning when he returned home early yesterday. He decried the attack that

killed his senior advisers, including four key Cabinet ministers and his closest friends.

"We will not be the only ones who point to the North Korean communists, the most inhumane group of people on earth, as the perpetrators of the brutal crime to harm me as head of state of the republic," Chun said.

No group has claimed responsibility for the bombing, which wrecked a ceremonial site in the Burma capital of Rangoon, killing 19 people and wounding 48 on the first day of a scheduled 18-day Asian goodwill tour by Chun.

He canceled the tour immediately and flew home. The government declared a state of alert for the armed forces immediately after the attack.

Most of the dead were high-ranking South Koreans, including four senior Cabinet members, the ambassador to Burma and Chun's press secretary.

Long lines of mourners were seen yesterday at an altar for the dead at the National Cemetery on the edge of Seoul, bowing and burning incense. Similar altars were erected nationwide.

## ... Quayle

continued from page 1

In the event of a nuclear attack on the U.S., the doomsday plane would serve as a communications center from which the president could direct the country.

Persons living in the area surrounding Grissom "always knew they were a Soviet target" and the decision to move the plane from its Washington base "is not going to change that one bit," he said.

Quayle said persons living in the Kokomo area "have been supportive of keeping the Air Force base open" to promote growth in the economi-

cally troubled region, Quayle said.

Asked about Secretary of Interior James Watt's resignation, Quayle remarked Watt was "one of few people who can go around periodically offending 20 to 30 million Americans."

While in South Bend, Quayle also spoke to the Region 4 convention of the American University Continuing Education Association and endorsed Republican mayoral candidates from Mishawaka and South Bend.

The lecture was sponsored by the White Center, the department in the law school which studies public

policy questions. Quayle was the second speaker in a lecture series sponsored by the center to give students the opportunity to talk with policy makers.

John Gilligan, former governor of Ohio and the White Center director, said Quayle was chosen because, as a member of the Armed Services Committee, he is qualified to speak on the War Powers Act. The issue is not only important because of its timeliness but because its profound constitutional questions have all law students looking at it," Gilligan said.

# Search on for Watt's successor; no favorites

Associated Press

WASHINGTON — The Reagan administration put its search for James Watt's successor on a fast track yesterday, looking first for a conservative Westerner as interior secretary.

While no single name emerged as a clear-cut favorite, Reagan aides said the president hoped to announce his choice in a week to 14 days.

Presidential counselor Edwin Meese III insisted that no list of names was drawn up before Watt resigned, but he said the selection process would now begin in earnest.

For the time being, Watt will remain as interior secretary, agreeing to stay on the job until a successor is confirmed by the Senate. Meese said the administration hoped to have its nominee cleared by the time Congress adjourns next month.

While Meese refused to speculate about possible successors, other administration and Capitol Hill sources said names in the running included former Sen. Clifford Hansen, who was Reagan's first choice for the job back in 1980; Rep. Manuel Lujan, R-N.M.; Energy Secretary Donald Hodel, who served as Watt's top aide for two years; former House Minority Leader John Rhodes, R-Ariz.; former Sen. James

Buckley, R-N.Y., and J.J. Simmons III, Watt's current top deputy.

Hansen, of Wyoming, turned Reagan down before, mainly because he did not want to be subjected to the stiff financial disclosures required of nominees. But Hansen said after Watt's resignation that those requirements have been relaxed somewhat.

"I am sure the president has a lot of good people to consider and I am complimented if I am one of them," Hansen said, adding that he had not yet been contacted by anyone from the administration.

Watt, meanwhile, remained on vacation at the California ranch where he read his resignation to reporters in a cow pasture. As Watt's press secretary briefed reporters yesterday, Watt could be seen playing tennis in the background with ranch owner Thomas Barrack.

"This is a period of decompression for him," said Doug Baldwin, Watt's chief spokesman. Baldwin said Watt would probably stay at the ranch until the end of the week.

Baldwin said Watt had come to the conclusion at the end of last week that it would be best for him to resign after the furor over his wisecrack about "a black, ... a woman, two Jews and a cripple" on a coal-leasing advisory panel.

AP Photo

With the resignation of Interior Secretary James Watt, these are some of the leading candidates who have been mentioned as successors: J. J. Simmons III, Interior Department Undersecretary; former Sen. James Buckley, R-N.Y.; former House Minority Leader

John Rhodes, R-Ariz.; and Rep. Manuel Lujan, R-N.M. Also in the running are former Sen. Clifford Hansen, R-Wyo. and Energy Secretary Donald Hodel. See the AP story at left for the latest details.

## ... Student Senate

continued from page 1

However, Anthony said, "We are more than willing to work with the student senate. We would like to provide the community with a place to go for activities such as dances." Anthony stressed the fraternity's willingness to support the student

community by hosting some non-alcoholic events.

The Knights will be talking with Dean Roemer to discuss their options.

The Knights of Columbus Building Corporation, the organization which leased the building for 50 years in 1969, does not like the idea of the building being used by non-members, Anthony said. "We come and go, as students, but they keep it going," Anthony said.

Callaghan is optimistic, hoping that among the senate, the administration and the knights, an agreement still may be reached. "Right now," Callaghan said, "there is a need for non-alcoholic events." He pointed out last Saturday's undergraduate night at Senior Bar which was attended by 200 to 250 students.

Senior Bar, which holds 800 to 900 people, supports the undergraduate nights "as long as we do not have them too often," Callaghan said. He thought that the publicity could be improved as no posters went up at Saint Mary's. Callaghan also suggested having class nights for the freshmen, sophomores and juniors.

Callaghan expressed the need to eliminate the misconceptions about off-campus life, saying that many people worry needlessly about the additional costs and the safety of off-campus life. In either November or January, an off-campus week will be held so that information can be made available as early as possible to off-campus candidates.

"Off-campus life has got to be

pushed as much as possible," Callaghan said. "One of our main duties this year is to let people know how enjoyable off-campus life is."

Rich Spolzino, off-campus senator, introduced a resolution to help parking problems of off-campus students. His suggestion is to reserve spaces for off-campus students in the stadium parking lot.

Spolzino said, "Right now, it's for both on and off-campus students, and on-campus students are hogging the spaces. I don't think it's too much of an inconvenience to make them (on-campus students) walk a little farther . . . ."

Spolzino argued that off-campus students often come to campus twice a day and have to park by Senior Bar, while on-campus students, who use their cars less frequently, occupy the prime spots. Spolzino plans to study off-campus use of the lot before he suggests a number of spaces to reserve.

Callaghan discussed the idea of giving off-campus students preference at registration so that they would get first choice of required classes. This would help off-campus students plan their traveling to and from school. However, he wants to check the number of off-campus people and the percentage per major to see if some students might get ousted from needed classes.

Callaghan also wishes to raise other issues at the meeting, namely the prospect of senior townhouses, financial aid and classroom renovations.

Sunday morning breakfast will be served in the fieldhouse. Guest speaker Father Don McNeill will give closing remarks recapping the weekend before family members and students say their goodbyes, he said.

All necessary information concerning the weekend will be sent to parents before Thanksgiving. Ticket prices for a student and two parents should not change con-

siderably from last year's cost of \$96, but prices have not been finalized.

Special hotel rates are being arranged for parents and the committee is asking major hotels to reserve certain sections so parents coming in for the weekend can have the opportunity to get better acquainted. As in the case of all family events at the University, parents are encouraged to make hotel arrangements as soon as possible.

## ... Marcos

continued from page 1

Four members, all former Supreme Court Justices, read a letter to Marcos saying it was a "painful" decision to step down. They suggested the formation of a new panel whose members would be "acceptable to all sectors of society."

## GROUP PROGRAMS

Sponsored by the  
COUNSELING AND PSYCHOLOGICAL SERVICES CENTER  
UNIVERSITY OF NOTRE DAME

**BUILDING SELF-ESTEEM:** A program designed to help students identify thoughts, feelings, and behaviors that affect self-esteem, and to explore and practice new ways of increasing positive feelings.

BEGINNING DATE: Wednesday, October 19, 1983 TIME: 6:30-8:30 p.m.  
NO. OF SESSIONS: 5

**RELATIONSHIP ENRICHMENT:** A program designed to teach partners to communicate effectively and enhance their relationship by learning about exploring and practicing new skills to express their feelings in constructive ways. Both partners are required to attend.

BEGINNING DATE: Tuesday, October 18, 1983 TIME: 6:30-9:00 p.m.  
NO. OF SESSIONS: 4

**DEVELOPING ASSERTIVE BEHAVIOR:** A program designed to help students to realize the importance of assertiveness, recognize and increase assertive behaviors, and distinguish assertive responses from other behaviors. Each student will have the opportunity to practice assertive behaviors through the use of role play techniques.

BEGINNING DATE: Monday, October 31, 1983 TIME: 6:00-8:00 p.m.  
NO. OF SESSIONS: 5

**STRESS MANAGEMENT:** This program will focus on skills to successfully deal with stress. The purpose of the group will be to help students better understand the nature of stress, how it affects them, and how they can effectively cope with stressful factors in their daily lives. Each student will be assisted in designing his/her own stress management program to meet his/her own individual needs.

BEGINNING DATE: Tuesday, November 1, 1983 TIME: 3:00-5:00 p.m.  
NO. OF SESSIONS: 4

**MEN'S AWARENESS GROUP:** The purpose of this group is to bring men together to examine the effects of being born male, the sex role expectations men have, the responsibilities of being male, explore new ways of dealing with the demands made on males, to help students understand and clarify their own personal needs as males, and discover new ways of relating with others. Membership is restricted to males.

BEGINNING DATE: Wednesday, October 19, 1983 TIME: 7:00-8:30 p.m.  
NO. OF SESSIONS: All semester

**TO ENROLL:** Call the Counseling and Psychological Services Center at 239-7338 between 9:00 a.m. and 5:00 p.m., Monday - Friday. To participate in some of the groups, you may first need to make an appointment to see the leader. All groups have limited enrollment, so call or come by soon if you are interested.

The Counseling and Psychological Services Center is located on the 3rd floor of the Student Health Center.

## Jesse Jackson's bid for the presidency

It was early in the morning and I was walking to work when out of a building came Jesse Jackson. The civil-rights leader was dressed in a business suit and accompanied by only one aide instead of his usual claque. I

**Richard Cohen**

**Richard Cohen Column**

considered saying hello, reminding him that we had met, and then go on my way. Then I spied the kid.

He was black, about 16 years old, and walking fast. But when he saw Jackson he stopped dead in his tracks and his mouth fell open. Even when he started to walk again, he did so slowly and deliberately, looking over his shoulder at Jackson all the time.

Now it could be that the kid would have reacted the same way to Walter Mondale or John Glenn, but I doubt it. I doubt he would even have recognized them. But he did not

recognize Jackson. Only when Jackson was driven away did the kid resume his brisk walk.

It was a small incident, but it made an impression. I know nothing of the kid and for all I know he is a political junkie and has a scrapbook filled with pictures of Democratic candidates. But if he is a typical Washington teen-ager, he knows almost nothing about politics, cares nothing about politics and feels — no, knows — that it has nothing to do with him.

Now Jackson is considering whether to run for President, ostensibly as a way to get more blacks registered and involved in the political process. It is a risky proposition. Many blacks are against the idea for policy as well as personal reasons. Jackson may be popular among blacks in general, but some black leaders consider him nothing but a grandstander — a silver-tongued orator who's all talk and no action.

For other blacks, Jackson's potential candidacy looms as a no-win proposition. They

know he can't win the nomination and fear he can only hurt the black cause. They think his candidacy could siphon off enough black votes to ensure the nomination of a conservative Democrat — no big deal when it comes to civil rights, where all the candidates are in agreement. But there is no such agreement on the economic issues that are paramount to blacks. For this reason, some blacks think a Jackson candidacy could be a debacle.

But on the day the kid spied Jackson, the newspapers reported on the number of Merit Scholarship semi-finalists from Washington. There were 52 — all but three of them students at private schools. It could be, of course, that some of the private school semi-finalists were black and maybe the ones from the one public school as well. But that does not change the fact that the entire Washington public school system, 94 per cent black, could only come up with three semi-finalists.

What we have here in raw figures is the

outline of a national tragedy. There are many causes for it and probably many solutions to it, but one of them has got to be simple involvement — getting black youths involved in what is often called The System. They have to be made to understand that despite all the rhetoric to the contrary, it is their system, too, and it will respond to them if only they know how to push the right buttons.

Voting is one such button. If Jackson can get that kid to respond, if he can get him to understand that his future is in his own hands, then his candidacy will not only have accomplished more than any of the others who fail to get the nomination, but may be worth the problem it creates.

For Jesse Jackson, the ultimate challenge is not the chance to broker the convention or flatter his own ego. It is, instead, a kid in sneakers. If he can interest him in voting, then Jackson is a winner no matter what. In fact, we all are.

(c) 1983, The Washington Post Company

## P. O. Box Q

### Crunch contest

Dear Editor:

In response to a letter on Monday, October 3 by Jerry Powers, the Sophomore Class Officers wish to expound their position concerning the Cap'n Crunch Fest.

Mr. Powers objects mainly to two features of the eating contest. First, he states that the contest will "further prove the depths of (Notre Dame's) insulation from the real world of double-digit unemployment in South Bend and other 'realities' of our times." Using this logic *any* fun on the part of the University can prove this insulation. Perhaps An Tostal, Homecoming, and even football games, where thousands of people come to have a (gasp!) good time, can prove this insulation. Maybe instead we should all stay home and sulk over the faltering economy. The Sophomore Class for one does not think so. Our job is to hold events for the benefit of the class. The Cap'n Crunch Fest not only benefits the class but the whole University.

The second objection Mr. Powers gives is that the Fest "is a prime example of the giving of the excesses of your excesses rather than of

your substance." The fact remains: At least we are giving. Incidentally the \$1000 Quaker Oats is donating in addition to \$1500 that the eating contest will earn in entry fees. Thus, directly because of the Cap'n Crunch Fest, \$2500 will be given to the needy. Without this event they would be \$2500 more in need. We ask, is Mr. Powers requesting that we, the University, or Quaker Oats take this money away from them?

We have stated two parties, the University and the needy, that will directly benefit from the Cap'n Crunch Fest. We wish to know if Mr. Powers can tell us anyone that doesn't!

*The Sophomore Class Officers*

### Laundry stolen

Dear Editor:

As a freshman, I'm very impressionable these first few months as to the character of this university. I hope to God the following episode is not indicative. A few weeks ago I had a load of laundry to do at Badin Hall. Later, I put my clothes in the dryer (two loads) and returned to my room, as I had much studying to do. Who would take somebody else's clothes, especially at a place like Notre Dame?

Right ... wrong. I guess experience really is the great teacher.

Well, all I can say is that the person with five new shirts, two new pairs of pants, and two pairs of running shorts better be pleased. You, sir (God help me) obviously don't care at all about the reputation of your soon-to-be alma mater. You have just taken one-half of my frugal wardrobe. If you read this letter, please consider returning these clothes to 367 Dillon. If not, I hope they don't fit.

If it appears I've tried to appeal to your conscience, you're right. On the other hand, it appears you have no conscience.

Classmates, please bear with me until Christmas as I'll be wearing the same clothes every other day.

*Frank Pimentel*

### Degree for Yaz

Dear Editor:

Some twenty years ago a freshman at Notre Dame decided to forego the remainder of his education to pursue a career in professional baseball. This freshman went on to distinguish himself in the game as very few others have.

As you know, Carl Yastrzemski has retired after 23 seasons with the Boston Red Sox. He

accomplished much during his career and will be inducted into the Hall of Fame one day. Mr. Yastrzemski will be remembered for how he played the game. His pride and determination to succeed, coupled with a true sense of sportsmanship are qualities which sustained his achievements. In a time of diminishing expectations and tarnished heroes he has been committed to honest endeavor and ambition.

I feel it would be appropriate to honor Mr. Yastrzemski with an honorary degree from the University. Though still not officially a Notre Dame man, Mr. Yastrzemski exemplifies the personal values Notre Dame has always embodied.

*F. W. Dow, Jr.

## Nebraska no longer unanimous choice

By **HERSCHEL NISSESON**  
Associated Press

For the first time in three weeks, Nebraska is not a unanimous choice as the nation's No. 1 college football team.

The Cornhuskers' 14-10 squeaker over unranked Oklahoma State cost them five first-place votes in this week's Associated Press poll and also left them five points short of being a unanimous pick again.

Nebraska received 55 of 60 first-place votes and 1,195 of a possible 1,200 points from a nationwide panel of sports writers and sportscasters. The Cornhuskers have been ranked No. 1 all season, starting with the preseason poll.

The other five first-place ballots went to Texas, runner-up for the fourth week in a row. The Longhorns, who defeated Oklahoma 28-16 and dropped the Sooners from eighth place to 15th, totaled 1,144 points.

Although this week's Top Twenty consists of the same 20 teams as last week, there was considerable shuffling, with Alabama falling from third to 11th after losing to Penn State 34-28. North Carolina, a 30-10 winner over Wake Forest, rose from fourth to third with 1,014 points and West Virginia, which was idle, climbed from fifth to fourth with 983 points.

Auburn, seventh a week ago, jumped to fifth with 866 points following a 49-21 rout of previously unbeaten Kentucky. Ohio State downed Purdue 33-22 and remained in sixth place with 861 points.

Florida moved up from ninth to seventh with 836 points by whipping Vanderbilt 29-10. Georgia cracked the Top Ten for the first time this season, trouncing Mississippi 36-11 and vaulting from 11th to eighth with 725 points.

Arizona went up from 10th to ninth with 702 points by crushing Colorado State 52-21 and Miami of

**AP Top Twenty**  
The Top Twenty college football teams in The Associated Press poll, with first-place votes in parentheses, this season's records and total points. Points based on 20-19-18-17 etc. Notre Dame opponents are italicized.

1. Nebraska (55)	6-0-0	1,195
2. Texas (5)	4-0-0	1,144
3. North Carolina	6-0-0	1,014
4. West Virginia	5-0-0	983
5. Auburn	4-1-0	866
6. Ohio State	4-1-0	861
7. Florida	5-0-1	836
8. Georgia	4-0-1	725
9. Arizona	5-0-1	702
10. Miami	5-1-0	600
11. Alabama	4-1-0	588
12. So. Methodist	5-0-0	583
13. Michigan	4-1-0	515
14. Iowa	4-1-0	416
15. Oklahoma	3-2-0	314
16. Maryland	4-1-0	277
17. Washington	4-1-0	246
18. Arizona State	3-0-1	245
19. Illinois	4-1-0	209
20. Brigham Young	4-1-0	96

Florida jumped from 12th to 10th with a 42-14 rout of Louisville, good for 600 points.

The Second Ten consists of Alabama, Southern Methodist, Michigan, Iowa, Oklahoma, Maryland,

Washington, Arizona State, Illinois and Brigham Young.

Last week, it was Georgia, Miami, SMU, Michigan, Iowa, Maryland and

Washington tied for 16th, Arizona State, Illinois and BYU.

## Lakers sign Jabbar; trade Norm Nixon

Associated Press

INGLEWOOD, Calif. — The Los Angeles Lakers signed veteran center Kareem Abdul-Jabbar, the second-leading scorer in National Basketball Association history, to a multiyear contract and acquired a back-up for him in a trade yesterday.

The Lakers traded guards Norm Nixon and Eddie Jordan to the San Diego Clippers in exchange for center Swen Nater and the rights to unsigned guard Byron Scott.

Nater will be used to back up the 36-year-old Abdul-Jabbar, who has been a free agent since the completion of the 1982-83 NBA season.

As part of the trade, the Clippers also will receive at least one, and possibly two, future second-round draft choices.

Abdul-Jabbar, a six-time NBA Most Valuable Player, has been suffering from a mild case of hepatitis and will not be ready to play for two weeks, Lakers Coach Pat Riley said over the weekend.

The 6-foot-4 Scott, the fourth pick in this year's NBA draft, and Nixon, a

six-year starter for the Lakers, were the key players in the trade.

Scott, 22, established a single-season scoring mark of 713 points while scoring in double figures in 31 of 33 games last season at Arizona State and was a first-team All Pacific-10 Conference selection.

Nixon was teamed with Earvin "Magic" Johnson in the Lakers' backcourt when Los Angeles won NBA championships in 1980 and 1982. The 6-2 Nixon, who turns 28 today, averaged 16.4 points per game as a Laker.

Nater, 33, underwent surgery to repair a cracked kneecap in January, 1982. The 6-11, 250-pounder has played only seven games since then.

The NBA's second-best rebounder in the 1980-81 season with an average of 12.4 per game, Nater established numerous club rebounding records while playing for the Clippers.

Jordan, 28, a reserve guard for the Lakers, had played for New Jersey and Cleveland before he was traded by the Nets to Los Angeles in 1980 for a first-round draft choice.

## ... Invite

continued from page 12

that was tailored to race conditions. We began the workout when all of us were already tired.

"Although most of the guys had an off race today, we're still a team of potential," continued Courtney. "We're going to keep getting better throughout the season."

The disappointing part of Friday's race for Notre Dame was that their final four men ran the last two miles in over 10:15, much slower than their first two miles.

The best strategy to win in cross country is to get in front of the pack and stay there. At this time, some of the Notre Dame runners are having problems with the latter part of that simple strategy.

For Bill Courtney, however, Coach Joe Piane's training methods have begun to pay dividends. One can only hope that the rest of the Notre Dame team will follow suit, because the Irish participate in the Indiana Big State meet this Friday at Purdue.

## ... Tourney

continued from page 12

The loss brings Notre Dame's record to eleven wins against three losses. This was the first game of the season for the Irish that did not end in a shutout for one team.

Three Notre Dame players were named to the Panther All-Tournament team. Forward Rich Herdegen, fullback Dom Driano, and goalkeeper Mark Steranka each received this honor.

**IRISH ITEMS** ... Junior Rich Herdegen leads the team in scoring, with 29 points this season. He has moved into a tie for third place on the all-time Irish scoring list, with 90 career points.

Senior Rob Snyder is sixth on that list, with 70 points, and senior Ken Harkenrider is seventh, with 64 points.

The Irish will play host Friday night to Marquette. The match begins at 8:00 under the lights at Cartier Field. On Sunday, Notre Dame will play Chicago on Alumni Field at 2:00.

### Thursday Night Buffet

*is back.....*

## Saint Mary's goes 0-2-2

## ND tennis team takes second

By JOHN MENNELL  
Sports Writer

The Notre Dame's women's tennis team defeated all but Western Michigan in the seventh annual Irish Invitational to earn second place. The Irish did win their other three matches in the tourney, against Central Michigan, Toledo, and Saint Mary's.

Saint Mary's, meanwhile, besides losing to Notre Dame, also lost to Western Michigan and tied with both Toledo and Central Michigan.

Irish coach Sharon Petro was pleased with her team's overall performance. The Irish lost only five of 24 matches during the tourney, with four of those being to Western Michigan.

But Petro was not totally satisfied with the showing of her team.

"Inconsistency was a problem," said Petro afterward. "In some cases we would get ahead and then let down. That's how we lost some key matches."

The strongest performance in the tournament for the Irish was by the second doubles team of Greta Roemer and Cathy Schnell.

"They played good tennis," Petro

remarked. "They were sharp all weekend."

Roemer and Schnell won against Western Michigan 6-4, 6-3; Central Michigan 6-0, 6-0; Saint Mary's 6-0, 6-1; and Toledo by default.

Notre Dame's first doubles team of Mary Colligan and Pam Fischette also had an undefeated weekend. They beat Western Michigan 6-3, 6-4; Central Michigan 6-0, 6-0; Saint Mary's 3-6, 6-2, 6-0; and Toledo 6-0, 6-1.

Notre Dame's singles players all suffered at least one loss.

First singles player Susie Panther lost to Western Michigan, 3-6, 6-4, 2-6, but won against Central Michigan, 6-0, 6-0; Saint Mary's 6-3, 6-3; and Toledo 6-1, 4-6, 6-2.

Second singles player Lisa LaFratta "played much better against Sue Weigand (of Western Michigan) than last year," said Petro. "Lisa also had a nice win against Toledo."

LaFratta lost to Western Michigan but won her other three matches.

Laura Lee, Notre Dame's third singles player, "is playing much smarter tennis than ever before," said Petro. "She is much more controlled."

Lee's only loss of the weekend was

also to Western Michigan.

Petro said that fourth singles player, freshman JoAnne Biafore, "had some problems," but yet the coach is not worried. She attributes Biafore's problems to being a freshman and having to adjust to the academic load, as well as to being an athlete.

Biafore lost to Western Michigan and Toledo but won against Saint Mary's and Central Michigan.

"She'll come along real well," said Petro.

"We've a lot to learn from this weekend," Petro says. "If we can learn from this and apply it to something more important it is for the best."

Petro wishes that the team could get more tough competition in the fall, but many teams play few matches then. Petro said she likes the Irish Invitational because it brings in a lot of competition.

## Belles win despite errors

By KATHY MURPHY  
Sports Writer

The Saint Mary's volleyball team played their last home game of the season Friday night at the Angela Athletic Facility. Although the Belles won the match, they did not exactly go out in style. Despite inconsistent and mediocre play, the Belles managed to defeat the University of Michigan — Dearborn, 15-2, 13-15, 5-15, 15-9, and 15-7.

In the first game, Saint Mary's came out strong and quickly disposed of their opponent in a 10-minute game.

In games two and three, Saint Mary's looked like a different team. They committed numerous errors on both offense and defense.

The defense did not cover their positions, as the ball frequently hit the floor, while the offense could not set up any good scoring opportunities.

"The girls were tentative," said Saint Mary's coach Brian Goralski. "They were all waiting for someone else to make the play."

"We had a lack of mental concentration," said Goralski. "I think that the girls were trying too hard."

However, the Belles bounced back to win the final two games of the match. The difference was a more solid defense and a more aggressive offense.

Although the Belles were victorious, Goralski was not very happy with his team's effort.

"We played very well in practice (last) week," said Goralski, "but we just didn't play well tonight."

This season the Belles have a relatively young and experienced team.

"The freshmen are not real aggressive," said Goralski. "I've been working with them after practice to make them more aggressive."

The Belles will need to play with more aggressiveness as well as consistency when they face two tough opponents this week. Today, Saint Mary's plays Goshen and on Friday they face Marion.

Saint Mary's will also meet these two teams in the NAIA pre-tournament in late October to compete for a bid to the state tournament.

Goralski feels that it is very important for the team to do entering pre-tournament play.

"Our team attitude is much better and the girls are really getting into playing volleyball," said Goralski. "As we continue to gain experience we will be a stronger team."

# YOU'VE GOT TO PLAY HARDBALL

## WHEN IT COMES TO YOUR CAREER

THAT'S WHY  
NSA OFFERS  
YOU THESE  
EXCITING  
CAREER  
OPPORTUNITIES

### ELECTRONIC ENGINEERING

There are opportunities in a variety of research and development projects ranging from individual equipments to very complex interactive systems involving large numbers of microprocessors, mini-computers and computer graphics. Professional growth is enhanced through interaction with highly experienced NSA professionals and through contacts in the industrial and academic worlds. Facilities for engineering analysis and design automation are among the best available.

### MATHEMATICS

You'll work on diverse agency problems applying a variety of mathematical disciplines. Specific assignments might include solving communications-related problems, performing long-range mathematical research or evaluating new techniques for communications security.

### COMPUTER SCIENCE

At NSA you'll discover one of the largest computer installations in the world with almost every major vendor of computer equipment represented. NSA careers provide mixtures of such disciplines as systems analysis and design, scientific applications programming, data base management systems, operating systems, computer networking/security, and graphics.

### LINGUISTS

NSA offers a wide range of challenging assignments for Slavic, Near Eastern and Asian language majors involving translation, transcription and analysis/reporting. Newly-hired linguists can count on receiving advanced training in their primary language(s) and can plan on many years of continued professional growth.

### THE REWARDS AT NSA

NSA offers a salary and benefit program that's truly competitive with private industry. There are assignments for those who wish to travel and abundant good living in the Baltimore-Washington area for those who wish to stay close to home. Countless cultural, historical, recreational and educational opportunities are just minutes away from NSA's convenient suburban location.

# Managers announce lineups

## Series opens tonight in Baltimore

Associated Press

BALTIMORE — Baltimore Orioles' Manager Joe Altobelli announced a lineup yesterday for the first game of the 1983 World Series that did not include designated hitter Ken Singleton.

"Believe me," Altobelli said, "I did some soul searching, even before we got this far, even while we were playing Chicago."

While the Orioles were beating Chicago in four games in the American League Championship Series there was no problem. The designated hitter is a fixture in that league, including the playoff.

The World Series, which begins here tonight, is another story. This year, being an odd numbered year,

the designated hitter is not used in the World Series, and Altobelli had a decision to make.

"The biggest thing is I didn't want to put Kenny in the outfield and have him do something that would damage his career," Altobelli said. "He hasn't played out there for two years, and that would be a tall order."

So, Altobelli announced a starting line-up, in batting order, of: Al Bumbry, center field; Jim Dwyer, right field; Cal Ripken Jr., shortstop; Eddie Murray, first base; John Lowenstein, left field; Rich Dauer, second base; Todd Cruz, third base, and Rick Dempsey, catcher.

Left-hander Scott McGregor, 18-7 and loser of Game One of the AL

playoffs, will be the starter for Baltimore. Right-hander John Denny, 19-6 and the losing pitcher in Game Two of Philadelphia's four-game National League pennant playoff victory over Los Angeles, will start for the Phillies.

Philadelphia Manager Paul Owens announced the starting lineup of Joe Morgan, second base; Pete Rose, first base; Mike Schmidt, third base; Sixto Lezcano, right field; Gary Matthews, left field; Garry Maddox, center field; Bo Diaz, catcher, and Ivan DeJesus, shortstop.

After McGregor, Altobelli said he would go with Mike Boddicker, then probably Mike Flanagan, a left-hander.

## ... Youth

continued from page 12

Oh., where he earned many high school accolades as well.

He was an honorable mention pick on both the Adidas/Scholastic Coach and Coach and Athlete/National High School Athletic Coaches Association prep All-America teams as a senior, despite being hampered with an ankle injury much of the season.

Doerger missed the entire 1981 season due to knee surgery and was red-shirted, but did see limited action at center last season when Mark Fischer was injured.

Doerger has lived up to his "utility man" designation.

"I don't mind having to switch positions on the line," Doerger says. "The more positions I know, the more I play, and the more I help the team."

"Next year, it'll help me to have played all of the spots because Neil (Maune) is the only starter who graduates."

The fact that only one starter graduates is a thought that appeals to Higgins.

"It's not that we're trying to get young players the experience," Higgins says, "but that the whole line is young."

"We are not trying to start a youth movement," Higgins states, "only trying to get the players in positions where they will do the best job."

The team has not experienced difficulty making the adjustments that accompany the changes of positions.

"All of the linemen have done a

pretty good job adjusting, including Larry Williams changing to quick tackle," says Selmer.

"After we have had these injuries, we now have tested our depth to about eight players," continued Selmer. "Now, we can play more people on the line."

Higgins was especially pleased with the line's performance at South Carolina.

"Carolina's defense held USC to 48 rushing yards, but we had 199 yards on the ground," Higgins points out. "We made some particularly good adjustments against a couple of their stunts during the game."

A good performance, granted, but the question of consistency continues to surface.

The same line that marched up and down the field against Purdue,

and failed to do so against Miami, has apparently worked out the consistency problem.

"We have shown some consistency over the last two games," Doerger says. "If we can go out in the first half against Army and hit people hard and keep the pressure on, maybe we can continue to do it for the rest of the season."

"I really think that we can do it," Doerger says, "partly because we are pretty close as a group, and work that way. All us guys hang around together."

The unity of this group should last at least one more year, for essentially this will be the same line that returns for next season.

Maybe there is a youth movement happening on the Notre Dame offensive unit.

## ARTS AND LETTERS BUSINESS SOCIETY

---Important Meeting---

Tonight, Tuesday Oct. 11  
7 pm, 124 Hayes-Healy

## NVA Pairings

All matches must be played and reported to the NVA office by TODAY.

### MEN'S OPEN TENNIS NO. 1

Coleman (4645) v. Mischke (4521)  
K. O'Brien (1692) v. B. McGowan (1069)

## Enjoy Octoberfest!

Say 'auf wiedersehn' to dull Wednesday night meals and enjoy Marriott's all-you-can-eat Octoberfest Buffet. You'll delight to all the exciting "old country" cooking like smoked pork loin with apple stuffing, hot German slaw, steamship round, bratwurst with horseradish, and many, many more entrees.

For dessert, there's mouth-

watering apple strudel, German chocolate cake, gingerbread with honey, and the list of Octoberfest delights goes on and on.

Of course, we'll be serving your favorite cocktails along with imported light and dark beer, and you'll be entertained by a strolling musician.

The Marriott Octoberfest Buffet is every Wednesday from 5 p.m. until 10 p.m. in the Looking Glass Restaurant. Adults \$8.95 and children under 12, \$4.95.

Reservations are appreciated.

(219) 234-2000

## Soccer team wins two but loses in Milwaukee tournament finals

By PHIL WOLF  
Sports Writer

The Notre Dame soccer team was busy this past weekend, playing three games in as many days.

The Irish kicked off the weekend last Friday night at Cartier Field by trouncing a relatively weak team from Findlay, 6-0.

The game was no contest from the first whistle, as the Irish constantly kept control of the ball in the Oilers' territory. Notre Dame executed hundreds of perfect passes and had several good offensive drives, while the Findlay players had trouble completing a single pass.

Eighteen minutes into the game, forward Pat Szanto took a pass from Chris Telk on the left side of the goal and shot it past the Oiler goalkeeper. Five minutes later, Telk set up forward Rich Herdegen, who headed the ball into the left side of the net.

Herdegen concluded the first half scoring 36 seconds before the halftime whistle. Forward Rob Snyder set up the play with a high cross from the right side of the field. Again, Herdegen's forehead greeted the ball on the left of the goal and rammed it home.

The second half also belonged to the Irish, although most of their

starting players had already left the game.

Three Notre Dame players scored goals in the second period: Tom McFarland scored his first goal of the year, Steve Ryan got his third, and Bill Beasley chalked up his fifth of the season. Eric Watkins was credited with the assist on Beasley's goal.

Three Irish goalkeepers played in the game, although there was little for them to do but watch the action at the Findlay goal. Starter Mark Steranka and back-ups Hugh Breslin and Carl Gebo shared the shutout as the Oilers barely crossed midfield, much less took a shot.

Meanwhile, Notre Dame drilled 30 shots at their opponents' goal.

The competition was a little bit stiffer on Saturday when Notre Dame met St. John's (Minn.) at the Panther Tournament in Milwaukee. The Irish emerged from that game with their eleventh shutout victory of the year, 2-0.

Herdegen and fellow-captain Ken Harkenrider scored the goals in what Irish Head Coach Rich Hunter called "a tough game."

"We did pretty well," Hunter said. "We controlled the whole game."

Sunday's opponent was the tournament's host team, the Pan-

thers of Wisconsin-Milwaukee.

Things initially looked good for the Irish, as Pat Szanto gunned home a free kick inside the penalty box to put his team on the scoreboard first.

The Panthers, however, tied the game with six minutes remaining in the first half, as they intercepted a pass from Chris Telk intended for goalkeeper Steranka.

The score remained fixed through the rest of regulation time; and one overtime period also failed to produce a winner.

Then with only one minute left in the second overtime period, the Panthers got a shot past Steranka to win their own tournament.

Hunter attributes the loss to errors in execution.

"We made some critical mistakes on defense," he said. "That's what cost us. We also missed four real good chances to score."

"The sign of a good team is the ability to punish you when you make a critical mistake," Hunter says. "That's what we do to most of our opponents."

Things didn't work out that way for the Irish last Sunday, but Hunter feels that the team is ready to "bounce back pretty quickly."

see **TOURNEY**, page 8

The Observer/File Photo

Chris Telk, shown here in earlier action, set up a Pat Szanto goal last Friday, as the Notre Dame soccer team started a full weekend of soccer with a 6-0 win over Findlay. For more on the weekend's action, see Phil Wolf's story at left.

## Irish lack desire

## Bowling Green wins ND Invite

By DAVID ROOP  
Sports Writer

After an enthusiastic Bowling Green cross country team won last Friday's Notre Dame Invitational, one of the captains suggested that the team be photographed with the Golden Dome shining behind the team.

A somewhat depressed Notre Dame fan remarked, "You guys ought to. Think of the symbolism — that will be the second time today that you left Notre Dame behind you."

In cross country it seems that desire and determination tend to outshine greater talent.

On Friday September 30, a hungry Notre Dame team upset an extremely talented and favored Marquette team, 42-47, to win the National Catholic Meet.

Last Friday, a more inspired Bowling Green squad handed the more talented Notre Dame contingent its first loss of the season, winning 68-77, amongst a field of thirteen teams.

Eastern Michigan finished third with 92 points to round out the top of the field.

Despite the Notre Dame loss, the meet itself was exceptional.

Central Michigan's Jeff Drenth ran away from the 90-man pack, leading by about 50 yards at the three-mile mark. He then went on to finish in 24:03, some eight seconds ahead of Eastern Michigan's Eric Smith, whose strong kick at the end nearly caught Drenth.

Notre Dame's co-captains Andy Dillon and Tim Cannon finished third and fourth, with Cannon running about five yards behind the senior Dillon. The two crossed the three-mile mark in 14:39, before finishing in 24:25.7 and 24:27, respectively.

An extremely fast start exhausted the early leaders. Dillon and Cannon both ran fine races, enabling them to surge past many of these early leaders and jump from sixth and seventh places to third and fourth.

The problems this Notre Dame team seemed to have last Friday did not lie with its leadership. Cannon, despite nursing a sore ankle that it was thought would make him incapable of running his usual race, showed his mental toughness by seeming to forget about the injury once he got into the heat of competition.

Unlike last week, however, the supporting cast did not run up to par, with only one exception.

Ralph Caron and Ed Juba, runners that are usually capable of staying with Cannon and Dillon, finished their last home cross country races in 12th and 28th places, respectively.

The overall poor team effort of Notre Dame perplexed Caron, who had been somewhat psyched up for the race.

"The team just didn't concentrate," said Caron. "We just let things slip. If everyone had run the same times as last week, we would have won by a big margin."

"I think this loss will help us, give us a little humility," continued Caron. "I wish we would have won, but we may have learned a valuable lesson today."

"Now Ed (Juba), Jim Tyler, Mike Collins, and myself know that we've got to be mentally tough, running from the start with everything we've got," said Caron.

The talented Juba, who ran 24:51 in the National Catholic Meet, was 17 seconds off that pace Friday, running the final two miles in 10:19.

Friday's best effort probably belonged to junior Bill Courtney, who ran 20 seconds faster in the Invite than he did in National Catholic.

Courtney's time of 25:10 claimed for him Notre Dame fifth spot, and pushed Mike Collins out of the top five for the first time this season.

Courtney explained his success afterward.

"Cross country racing is a process that continues throughout the year. The practice sessions have gotten crisper, which enables us to go fas-

ter. (Last) week we had a workout see **INVITE**, page 8

## Make major contributions

## Perrino, Doerger crack lineup

By THERON ROBERTS  
Sports Writer

There is nary a Fighting Irish fan who hasn't noticed freshman quarterback Steve Beuerlein's entry into the starting lineup.

Maybe a little less known is the fact that two other relatively new faces have also drawn starting assignments in the Colorado and South Carolina games.

Sophomores Mike Perrino and Tom Doerger have been making major contributions on the offensive line during the last two weeks at the strong tackle and quick guard spots.

Everyone knows that the Notre Dame offensive line packs a wealth of talent. The interesting thing about this talent is that it is so young — only one starter graduates at the end of the season.

Mike Perrino

However, the depth of that line has been given the test over the past couple of weeks due to injuries to quick guard Tim Scannell and quick tackle Mike Shiner.

Along with the insertion of Perrino and Doerger, junior Larry Wil-

liams has been moved from strong tackle to quick tackle.

"We've tried to put the best person in his best position," says offensive line coach Jim Higgins, as he explains the reason for the changes.

Perrino has surfaced as the best man to fill in during Shiner's absence, seeing action in the second half at Miami, and has since done a fine job starting in each of the past two games.

"I see my role as being a replacement for Mike (Shiner)," says the 6-5, 271-pound Illinois native. "I planned to contribute a lot as a sophomore, so I don't feel surprised that I am getting the chance, but I am really happy to be starting."

"It's been a challenge, as well as a thrill," continues Perrino. "I think the toughest part about going out there is the preparation you have to do during the week."

Perrino came to Notre Dame in Head Coach Gerry Faust's second sweeping year of getting many of the top college prospects out of high school.

He was named to the Adidas/Scholastic Coach prep All-America team, as well as being named to several Illinois all-state teams. He primarily played defensive end in high school, but figured to be utilized as an offensive lineman in the college ranks.

"I have put on about fifty pounds since football season senior year," Perrino says. "I guess you could say that was the big adjustment between high school and college."

"Mike is a strong, improving football player, but he still needs a little bit more playing time to be as good as he can be," says Head Offensive Line Coach Carl Selmer. "He has played well against the teams that

our whole line has done a good job against."

Tom Doerger's name seems to surface whenever a replacement is needed in the offensive line due to an injury. He is now filling in for injured quick guard Tim Scannell.

Doerger started out his career under the Golden Dome at the tackle position. After that, he had been slated as the substitute for either center Mike Kelley or Scannell.

Tom Doerger

However, Ron Plantz, another sophomore, has emerged as Kelley's backup, and Doerger has been working on both the strong and quick guard positions.

"Tom has the mental and physical agility needed to do well at both positions," says Higgins, who works with the centers and guards. "With the injuries that we have experienced, Tom is a good replacement at either guard slot."

"He's like having two players in one."

The 6-5, 272-pound Doerger went to LaSalle High in Cincinnati,

see **YOUTH**, page 10
