Anderson speaks on Gulf crisis Pulitzer Prize winning journalist comes to ND

By MICHAEL SCHOLL News Writer

Iraqi leader Saddam Hussein believes the U.S. does not have the stomach for a protracted conflict with his nation, according to intelligence sources of syndicated columnist Jack Anderson.

•Press conference/ page 6

Sources of Anderson, whose syndicated column appears in almost 1,000 newspapers worldwide, say Hussein does not fear a U.S. invasion. Hussein thinks American public opinion would quickly turn against such an invasion as U.S. casualties mounted, according to sources quoted by Anderson.

Hussein's strategy, according to Anderson's sources, is to wait until Americans lose patience with the tension in the Persian Gulf and demand that the U.S. pull its troops out if the region.

Anderson criticized the Bush Administration for maintaining

Jack Anderson

close relations with Iraq prior to its Aug. 2 invasion of Kuwait. He said that the U.S. knew of Hussein's brutality and hostile intentions before the invasion, but did nothing to stop him.

"We knew from intelligence reports that Hussein was a street thug," Anderson said, "and that he was preparing to seize the oil fields of Kuwait and Saudi Arabia."

Anderson believes Hussein was unnerved by President

Bush's organization of the coalition of nations in opposition to Iraq's invasion of Kuwait. Hussein regained his confidence, according to Anderson, due to Bush's inability to clearly articulate to Americans the reasons behind the U.S. military presence in Saudi Arabia.

"Bush must explain to the American people that Iraqi control of the Persian Gulf oil fields would mean economic calamity for the U.S." Anderson said. "Hussein would raise oil prices indiscriminately, creating an inflationary spiral that would plunge the American economy into a depression."

Anderson believes the U.S. can prevail in this crisis without resorting to war by maintaining economic sanctions against Iraq until they really take effect. "We can wait him out," Anderson said.

Anderson's talk was sponsored by Notre Dame's Student Government.

ND Security arrests man trespassing in Zahm

By MEGAN JUNIUS News Writer

A South Bend resident was arrested for trespassing inside Zahm Hall late Saturday evening, according to Chuck Hurley, assistant director of Security.

A few Zahm residents, seeing the man wandering their halls, realized that he did not belong in their dorm. They called Security and had the suspicious man detained by a Zahm resident assistant, Hurley said.

Some Zahm residents later realized that various items were missing from their rooms.

While being detained in the R.A.'s room, the man was seated in a cushion chair. Rings and a watch with the names of people living in Zahm were found by Security underneath the cushion.

The case is being referred to

the St. Joseph County Prosecutor's office for possible theft charges, Hurley said.

The suspect claimed to be looking for a priest that he was friends with. The priest said he knew the man, but did not know why the man would be looking for him in Zahm Hall, Hurley said.

Also, memos were distributed Sunday night to residents of Siegfried Hall stating that two men were opening unlocked doors and had harassed at least two Siegfried women.

According to Hurley, the men claimed to have met a resident of Siegfreid at an off campus party over the weekend. The girl admitted to recognizing the men, but said that she did not invite them to Siegfreid.

Security strongly recommends that non-residents not be allowed to enter a dorm unless escorted by a resident of that dorm.

By CHRIS WILKINSON News Writer

Juniors receiving letters about Junior Parents' Weekend (JPW) will find one difference in this year's program: no wine will be served with the Saturday dinner.

The decision to stop serving wine was made by the JPW committee to comply with the Indiana state drinking age of 21, assistant director of Student Activities Charlie Francis said. In the past, wine has been served with the Saturday night formal dinner.

"We recognized that there are students under the age of 21 who would be at the dinner," said Francis. To accommodate those students who are 21 and over, a cash bar will be available at the Friday night gala, but not at the Saturday night dinner.

The issue arose when the office of student affairs suggested that the JPW committee reconsider serving wine, he said.

This year's JPW is scheduled for the weekend of Feb. 15-17.

Gulf Crisis Action Group sends out petition to Bush

By PETER LOFTUS Assistant News Editor

The newly formed Gulf Crisis Action Group sent a petition with over 1,800 signatures to ration stating that the United States will not make an offensive strike against lraq," the petition concluded.

The petition was signed by 1,819 ND and Saint Mary's

students, staff and faculty members over the past week.

"We hope (President Bush) will respond to our expression of concern as well as the concern expressed by other (groups nationwide)," Meissner said.

The group hopes to develop a network with similar groups on other college campuses. Presently, their main objective is urging Bush not to take offensive military action, or to provoke an Iraqi attack.

Iraq, under President Saddam Hussein, invaded Kuwait on Aug. 2, and presently there are 400,000 Iraqi troops in Kuwait. The U.S. has over 200,000 troops in Saudi Arabia, and Bush announced last week that he would send an additional 200,000 in order to give the U.S. offensive capabilities. United Nation sanctions should be continued, said Meissner. Also, "conflict resolution experts" should be called in to try to reach a "negotiated settlement."

President George Bush Monday demanding that he not take offensive military action against Iraq.

"We... are extremely concerned about the United States' mobilization for war in the Middle East," said ND peace studies graduate student Janet Meissner, reading from the petition at a press conference Monday.

"While we condemn Iraq's invasion of Kuwait and support United Nations' sanctions, we strongly oppose any offensive action on the part of the United States. We also condemn any ploys to provoke an Iraqi attack. Military action would cause the loss of thousands of lives, including the lives of the hostages held by Iraq.

"War in the Middle East is not in the best interests of the people of the United States.

"Therefore, we demand that you make an immediate decla-

The Observer/Elisa Klosterman

At a press conference Tuesday, (from left) David Cartwright, Kurt Mills, Janet Meissner and Tara Verdonk, members of the Gulf Crisis Action Group, announced the sending of a petition with over 1,800 signatures to President Bush. The petition asks that no offensive military action be taken against Iraq. The group does support a military presence in the Persian Gulf, but only under the guise of a UN peacekeeping force.

"A UN peacekeeping force would be very effective," said Meissner.

And 1f economic sanctions don't succeed in forcing Iraqi president Saddam Hussein out of Kuwait?

"The group will respond to events as they develop," said Meissner. The group is in the

An aspiring artist makes poetry easy

Lo, offtimes have I yearned to surrender to the artist in my soul. I have this fantasy where one day, upon close scrutiny of my cuticles, I discover the meaning of life

and decide to forsake my previous, superfi-

come a poet.

cial existence and be- Asst. Accent Editor

I will relinquish my hot rollers and wander around barefoot with leaves in my hair. I will wear black turtlenecks and not even care if I look sallow. I will work the word "alas" into dinner conversation whenever possible.

In high school I took this creative writing course so that I would have a solid literary base when the time came. Sadly, there was only one selection I was particularly fond of, and although the allusions are pretty obscure, I aspire to someday be anthologized thusly:

Crayola 64

Burnt Sienna, Maize and Henna

Melon, Peach and Teal;

When my crayons become too dull

Their paper I must peel.

Of course, great poetry needs no explanation, but that piece is just darn deep, devestating in its simplicity, yet a profound commentary on the fast-paced thrill-seekers that saturate society. Plus it has a really

snappy meter. Oddly, Crayola 64's timelessness was confirmed recently in the controversial color renovation. Not unlike so many unfortunate species, such as the dodo birds (were they a species?), "maize" is now extinct, a sad reflection on the state of the environment. In an even more bizarre turn, only this year "teal" has been added. If I had bothered to check one of those boxes with the built-in sharpeners, I would have known that, but ironically, my apathy has resulted in sheer

visionary genius. I will leave any further interpretation to my esteemed colleagues. Its message is universal, yet its imagery will arrest each reader in a personal way.

I'll admit that the idea of being immortalized in verse is alluring. One guy in my class, we'll call him Tim, had such a fear of death that he created his own form of poetry that will doubtless live on for centuries. After we learned about the "cinquain," Tim came up with the "Timquain," a sample of which follows:

Pen (A noun. Any noun.)

thro Ob

rigl

Hen (Word that rhymes with noun.)

Red, Feather, Lady (Three adjectives describing second noun.)

Eathery-Fay (Middle adjective translated into Pig-Latin.)

Thank you, Tim. (Last line is always, "Thank you, Tim.")

I don't feel I'm artistically ripe enough to tempt anything that innovative, but I have been working lately on a new poem to round out my collection. It's about mimes. The rhyme potential is mind-boggling.

The Middle Eastern reflection group will hold the first of its weekly meetings discussing issues in the Gulf tonight at 6 p.m. in the chapel at the Center for Social Concerns.

The Psychology Club will present the movie "Clockwork Orange" tonight at 7 p.m. in Room 117 Haggar Hall.

President Bush is seeking a tougher stand against Iraq in summit diplomacy, but Soviet leader Mikhail Gorbachev is avoiding endorsement of a proposed United Nations resolution to authorize military force as Iraq announces a huge troop buildup. The Persian Gulf crisis was the chief topic in 2 1/2 hours of talks between Bush

and Gorbachev during Monday's opening day of a 34-nation summit on the future of Europe in the post-Cold War era. Bush and Gorbachev canceled a joint news conference that was supposed to have concluded their meeting Monday. There was no indication that Gorbachev was ready to endorse intense U.S. lobbying for a United Nations resolution authorizing military action to force Iraq out of Kuwait.

WORLD

Feng Xiaolin was clearly embarrassed in preparing for her debut on "Tonight We Meet," Beijing's newest, most popular television show. Despite her discomfort, the 37-year-old divorcee went through the shot several times, spurred by thoughts of the hoped-for reward: a husband. Her video was to be shown on the matchmaking show, which features two-minute spots of four to five single men and women each week and invites viewers to contact the station for dates. "Tonight We Meet," the idea of the Beijing city government, may seem modern and Western, but it also harks back to the Chinese tradition of marriages arranged by go-betweens. The difference in this case is that the decision to date or marry is made by the couple rather than their parents.

Many people cook an elaborate feast just once a year, on Thanksgiving. Anthony Dias Blue and his wife, Kathryn Blue, think about that dinner all year long, and they have written a book, "Thanksgiving Dinner," about it. "This is 20 years of fine-tuning our techniques and dealing with what our children will eat," Blue, a widely syndicated wine columnist, said in a recent interview. Thanksgiving is not a potluck dinner; it is a complex

Students form group to deal with the dangers of AIDS

By BECKY RITZERT News Writer

According to the Center for Disease Control, 2-3 of every 1000 college students are infected by the AIDS virus.

It is statistics like these that have caused a group of concerned Notre Dame students to form Students with AIDS Training (SWAT) in order to alert other students to the dangers of AIDS and to educate them in methods of prevention.

Diana Bradley and Karen DaCosta Fernandes, two members of SWAT, and Carol Seager, director of Student Health Services, gave their first presentation at Knott Hall Monday.

Bradley stressed the importance of college students realizing what a serious problem AIDS is on campuses today. "In order for us to give you information about AIDS, you have to acknowledge the danger of AIDS," she said.

"We think we're not at risk. We get this false sense of security because of the media," Bradley said.

She emphasized that, despite rumors that only drug addicts and homosexual men contract AIDS, they are far from being the only people at risk. The number of women testing positive for HIV, the virus that causes AIDS, is increasing, said Bradley.

There is an increased focus on the spread of AIDS among college students because college is a time of experimentation and students have a sense of immortality, Bradley said.

"Our sense of future is very short-term. You have to really think of what you're going to do in 10 years," said Bradley. She explained that it may take 10 years for an AIDS carrier to discover an infection.

DaCosta Fernandes also stressed the long-term effects of unsafe sex by saying, "Whatever decision you make will affect your life and the lives of others."

"There are certain skills which are important in stopping the spread of AIDS," said DaCosta Fernandes. These skills, she said, include communicating with a sexual partner and knowing the facts about AIDS.

"It's your right to say no," she said. "If you say no, stand by your decision. If you say yes, use protection."

Seager, who serves as SWAT's advisor, explained that the virus cannot be spread through casual contact because, even if the virus is present, it becomes

approximately five percent as potent as it originally was as soon as it is exposed to air.

The transfer of AIDS must be "fluid-to-fluid," she said. However, she added that saliva is not a fluid in which the transfer could take place because it does not contain the type of cell to which the virus attaches itself.

Seager also said that AIDS can be difficult to detect since a person can test positive for the virus and have no symptoms or can test negative while actually carrying the virus.

Seager said any student wishing to be tested for AIDS can do so through the Health Department or University Health Services. All tests remain confidential.

process of drawing up an outline of further recommendations to Bush.

"Well over half of the students asked to sign the petition have agreed to sign it," Meissner said.

The group plans to start a letter writing campaign to members of Congress. Copies of the petition were also sent to Secretary of State James Baker, Secretary of Defense Dick Cheney, the U.S. House of Representatives Armed Service Committee, U.S. Senators from Indiana and Indiana Representatives in the House.

The group will send more petitions within the next month for those who were not able to sign the petition sent Monday.

The group presently consists of 50 members. In addition to Meissner, the group is headed by Kurt Mills, a graduate student in peace studies; Tara Verdonk, a senior government major; and David Cortright, a visiting faculty fellow in the Institute for International Peace Studies.

The Gulf Crisis Action group will meet today at 12:30 p.m. in the Center for Social Concerns.

Historic signing

A U.S. delegation headed by President Bush and major European leaders sign a historic arms reduction treaty to slash non-nuclear weapons in Europe Monday at Elysee Palace in Paris.

Weather raises concerns for 'last secret mission'

CAPE CANAVERAL, Fla. (AP) Thick clouds and high winds at a California landing site raised concerns as NASA guided Atlantis' astronauts home Monday to end what's been billed as the last secret spying mission for the Pentagon.

Landing was scheduled for 4:48 p.m. EST at Edwards Air Force Base, Calif., and the weather forecast there was about as dismal as it had been in Florida on launch day. Conditions at the desert base were expected to worsen Tuesday.

If the weather appeared bad enough to endanger the safety of a landing, NASA could decide to keep the shuttle aloft an extra day and try again Tuesday.

During the Defense Department mission, the crew released a satellite that reportedly is to spy on Iraq and sent a holiday message to American troops stationed in the Persian Gulf

"During the last few days, we aboard Atlantis have circled the Earth many times," said Air Force Col. Richard Covey, mission commander. "Whenever we pass close to Saudi Arabia we cannot help but think of our soldiers, sailors, airmen and Marines deployed there for Desert Shield.

"As the holiday season approaches, the multi-service crew of Atlantis wishes those brave warriors peace and a speedy return home. Our prayers are for them and their families."

The message was sent to Earth on Sunday evening, and NASA provided transcripts.

WE GIVE THANKS

Campus Ministry and You

We Give thanks to our God for all the earth and all creation.

That we are wonderfully made and held dear in the heart of our God

We give thanks for our friends and for our families. For those we love, those who love us and for those without love, because we can love them

M.D. talks of changes in medicine

By DAVID KINNEY News Writer

The medical field is changing from individual control to institutional control, but the oldfashioned desire to help patients hasn't been lost, according to John Larossa, M.D.

Larossa, a physician in internal medicine from Boston, discussed the drawbacks of modern medicine during a Monday night lecture titled "Changes in Medicine: Are You Still Interested?

During the course of the lecture, which was sponsored by the Pre-Professional Club and Alpha Epsilon Delta, Larossa emphasized the fact that insurance companies have gradually placed physicians in a financial stranglehold that has affected their ability to diagnose and help their patients.

"If insurance companies force physicians to be an advocate of an [insurance] plan rather than an advocate of the patient,' said Larossa, "that's when the problems begin.

Physicians have found that they are losing control of their practice, he continued, because of insurance restraints. "Changes have come about because of a change in parties (in control)," said Larossa. Because a physician must consider how much an insurance company will reimburse him for a certain service, he must be judicious in delivering care, he continued.

These concerns lead to ethics problems and even malpractice suits, he said, if a physician cannot offer necessary care due

The Observer/Elisa Klosterman

Doctor John Larossa gave a lecture Tuesday titled "Changes in Medicine: Are You Interested?"

to constraints.

Nonetheless, "we're not losing as much control as we think we are," he said, "primarily because of the relationship between patient and physician.

Other problems in the medical field include:

• the great disparity between the financial gains of those who diagnose patients and those who actually help the patients physically.

• the disadvantages of both institutional service and private practice. While some physicians may opt for the security of

hospital employment, they face the problems of balancing structured lives and the raising of a family. If a physician does not devote his life entirely to the hospital, he or she might be poorly treated by the administration, Larossa said.

However, he continued, one must be wary of attempting to set up a private practice, since a person must face enormous financial debt and business problems on which he has no formal background.

Private practice is a gamble, according to Larossa, yet the decision between private or public depends on personal orientation. "There are different ideas about what the practice of medicine should be.

· long work weeks. While past physicians have held the belief that continuous work keeps that practice fresh in one's mind, people are now questioning the value of long work weeks, said Larossa. Fatigue and pressure may lead to errors and poor practice, he continued.

Even now, however, "there are changes that will make it easier for physicians to have more time;" it's up to the physicians, he continued.

The medical profession does, however, have great benefits, concluded Larossa. "What keeps you in medicine is the pleasure you get in taking care of patients and. . .the relationship between patient and physician. Money has little to do with

"There's a level of reward that goes beyond the money," he said

Conference to discuss costs of war

By MEREDITH McCULLOUGH News Writer

The economics of war and peace will be the focus of a conference of internationally prominent economists to be held at Notre Dame Nov. 30-Dec. 1.

The conference, titled "Economic Issues of Disarmament," will be held in the Center for Continuing Education (CCE). It marks the first time such a prestigious group has met to discuss this subject in detail.

The conference is a chance for renown economists to put their knowledge of expertise to use, according to Jurgen Brauer, the conference organizer and visiting assistant professor of Business Administration and Economics at Saint Mary's.

This opportunity was made possible by Economists Against the Arms Race (ECAAR). Brauer, who joined the organization at its start in Dec. 1988, explains that the group of economists formed when "the arms race got so out of hand" in order to "make a more public stance and a more detailed expression of the cost involved."

Until the time of the founding of ECAAR there was "never any attempt to join together to make public statements."

Brauer hopes that during this conference "policy makers will take note of what we have to say."

Among those speaking at the conference will be: Kenneth Arrow, professor of economics at Stanford University; Robert Eisner, professor of economics at Northwestern University; Lawrence Klein, professor of economics and finance at the University of Pennsylvania; Amartya Sen, professor at Harvard University; and Victor Sidel, professor of social medicine at the Albert Einstein College of Medicine and president emeritus of the Physicians for Social Responsibility.

The conference will consist of eight sessions, each covering different areas of interest. Some topics to be included:

•economics of the military sector and its conversion;

•mutual disarmament in NATO and WTO countries;

•effects of disarmament on international trade flows;

•disarmament and third world development.

For a complete listing of the

sessions and their times, interested parties can pick up a brochure at the information desk of the CCE.

The conference is free of charge for all Notre Dame and Saint Mary's students, faculty and staff, but those who wish to attend must register before the conference at the CCE to gain access to lecture materials.

Although the conference will be aimed primarily towards "fellow scholars" and policy makers, Brauer said that "everyone at Notre Dame and Saint Mary's is encouraged to attend."

He pointed out that each participant will profit from the conference depending upon each one's level of preparation, but that everyone can at least benefit by seeing "how these famous economists behave, act and are."

The keynote address will be given on Nov. 30 at 8 p.m. and is open to the public.

The conference is co-sponsored by Notre Dame's Center for the Study of Contemporary Society, the Helen Kellogg Institute for International Studies, the College of Business Administration and the Department of Economics.

Anderson says a war in Gulf won't be 'a Panama'

By MARK CAWLEY News Writer

Americans must be prepared to face large casualties in an extended war with Iraq if peaceful solutions do not end the current stalemate in the Persian Gulf, according to Jack Anderson.

Anderson, a Pulitzer Prizewinning journalist, held a news conference at the Center for Continuing Education yesterday to discuss the Persian Gulf crisis. "This crisis is a real one," he said, and if war erupts, "it won't be like Grenada or Panama."

He quoted Pentagon figures which estimate the U.S. would suffer 15,000 casualties in the first twenty days of a war. "This is more casualties in so short a time since the Civil War," Anderson said.

"Hussein knows that Americans don't have the stomach for this," he said. Anderson added that Saddam Hussein will try to "out-wait us" in the Persian Gulf. "If he thought that we would strike all the way to Baghdad and pin his hide to the wall, he would be acting differently."

Anderson said he believes that the United States has three options to resolve the Gulf crisis. "We must either choose to attack, wait, or withdraw," he said. "Withdrawal would mean \$100 a barrel oil prices which would slam the brakes on the American economy," he said.

Even though attacking Iraq might end the crisis swiftly, Anderson said, "we [the United States] should camp out in the desert and wait. The sanctions will take effect in about eighteen months."

He added, "the President has done a poor job of explaining why we are over there." The American presence in the Gulf region is justifiable, Anderson said, but "the American people will not be patient if they are not told exactly why we are there."

Open to alumni, current students and staff, and present and former faculty members

A prize of \$500 dollars is offered for the chosen poem selected by the judges. The winner will be brought to the campus for SY celebration and a reading of the poem. The prize-winning poem will be selected from entries from the four aforementioned categories, with runners-up from each category possible.

The poem need not be directly concerned with Notre Dame, or the Sesquicentennial, though submissions which touch upon the themes of the Sesquicentennial (Belief, Inquiry, Community) will be looked at with special interest.

falls almost a penny a gallon

Average price of gasoline

LOS ANGELES (AP) — The average price of gasoline fell almost a penny a gallon over the past two weeks — the biggest drop nationwide since the Persian Gulf crisis began according to a survey released Sunday.

Prices dropped for all grades except leaded regular at full service pumps, the Lundberg Survey of 13,500 stations found. The survey compared prices Nov. 16 with those of Nov. 2, when the survey was last conducted.

The national average for all grades of gasoline was 145.98 cents, a drop of about .94 cent a gallon since Nov. 2.

Trilby Lundberg, who directs

the survey, attributed the drop to recent declines in wholesale prices.

The survey found average prices at self-service pumps were 135.10 cents for regular unleaded, 151.19 cents for premium unleaded and 131.61 cents for regular leaded.

Averages at full-service stations were 157.76 cents for regular unleaded, 171.41 cents for premium unleaded and 154.90 cents for regular leaded.

Lundberg said that while the Nov. 2 survey showed drops in some parts of the nation, the latest survey reflected drops nationwide. It was the first significant drop in price since Iraq invaded Kuwait Aug. 2, she said. Previously published poems are not eligible. Send entries (no more than 3 poems) in triplicate, with no name on the poems themselves, but on a removable coversheet, by April 15th, 1991, to SY Poetry Contest in care of The Department of English, University of Notre Dame, IN, 46556.

LETTERS Damaging trends in higher education explain its decline

Dear Editor:

s encouraģeo

There has been much talk of late about the condition of American liberal arts universities. Major magazines and newspapers, as well as countless journals, have dedicated entire issues to praising or, more commonly, criticizing America's colleges and universities. Even The Observer has been filled with criticisms concerning the well-being of Notre Dame

Higher education in America has been on the decline for the past twenty years. I approach this conclusion not from the fact that 25 percent of the college seniors polled in a 1989 Gallup Survey were neither able to locate Columbus' voyage within the correct half century nor differentiate between the words of Joseph Stalin and Winston Churchill; but, instead, from the fundamental changes now occurring on America's campuses. Some of these changes include revised core courses, trendy new tracts of study and the dropping of entire departments.

The general trend at many American institutions is in two directions-away from the arts and letters (toward science and research) and away from the traditional core course of study (toward a non-Western culture based curriculum). The former movement is, perhaps, the most evident. On many campuses, social science and liberal arts departmental staffs are being depleted and undermanned in order to free up money for new scientific research facilities and laboratories. Class sizes in all fields of study are growing at a tremendous rate as more and more professors teach fewer and fewer classes per academic term in order to concentrate on research and publication

These changes have a effect on marked the undergraduates. A student at today's university is receiving a more specialized, careeroriented education instead of a general one. This is a marked change from the traditional purpose of a college.

John Henry Newman argues correctly in his preface to The Idea of a University that the function of a university is the formation of the mind, not the incurrence of vocational skills. Unfortunately, many American colleges are deviating from the original intent of a university education as put forth by Cardinal Newman.

The second noticeable movement in higher education today is away from traditional tracts and methods of study and toward trendy new ones.

Today, many colleges are beginning to supplement or even replace traditional course seminars with computer-generated and computer-based lessons. Perhaps more information can be retained from clicking buttons on the screen of an impersonal computer, but this is not the purpose of a university. The role of the university is to "teach universal knowledge" which can only be accomplished by the tried-andtrue, traditional methods of teaching.

Another disturbing trend on American campuses is a move away from the traditional Western civilization-based curriculum. At many universities, including Notre Dame, it is possible to graduate without taking a single Western history or Western civilization class.

some liberal educators and politicians as being biased and For example, at racial. Stanford University recently, Jesse Jackson led 500 students in a rally chanting "Hey, hey, hey, ho! Western culture's got to go." The administration reacted to this dangerous ultimatum by cutting down its courses in Western civilization.

Claims that Western civilization and culture are too narrow in their views and too biased in their teachings are unfounded. John Silber wrote in The Intercollegiate Review that "the culture of the West, as long as we have records of it, has been penetrated by the culture of the East." The fact is that Western culture is all-encompassing and never has been ethnocentric. It offers the best foundation for a good liberal arts education and should remain the cornerstone of America's colleges

A final concern is the current administrative actions on many campuses intended to violate students' right to free speech. One case of this infringement can be found at Dartmouth College, where a conservative publication, the Dartmouth Review, has consistently been penalized for publishing opinions contrary to the official views of the college.

There is little or no evidence to support the claims made by the college officials and that the impediment of free speech is not in direct contrast to the United States Constitution.

In the midst of all this seeming chaos and confusion, I believe that, for starters, Notre Dame should resist the rising temptation to move toward becoming a research-based university. The administration should retain the requirements it has so as to provide a traditional liberal arts education with its foundation of Western Civilization.

I also encourage the academic leaders of Notre Dame to refrain from the temptation to initiate or even continue unproven, fad-prompted concentrations such as gender or peace studies. Instead, let the time-proven ideals of these courses find their way into the established core curriculum.

page 7

Finally, I charge the University to pass measures ensuring the freedoms of speech, assembly and press for all students and student groups, right-wing as well as left-wing, and to resist the temptation of enacting a speech code.

In this age of perpetual progressivism and sometimes mindless "advancements," the words of Lynne Cheney hold a great deal of credence: "Not everything shifts and changes. Not everything is relative. Some things do endure-and college should be a time to explore history and thought for values that have stood the test of time.

John Barry KeenanHall Nov. 15, 1990

Student submits alternative Bill of Rights

Dear Editor:

I would like to submit for public review the following alternative version of the Student **Bill of Rights:**

Article I: The University shall make no rule respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech or of the press; or the right of the people peaceably to assemble, and to petition the University for a redress of grievances.

fects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched and the persons or things to be seized.

be taken for public use without just compensation.

Article IV: Excessive fines shall not be imposed, nor cruel or unusual punishment inflicted.

Article V: The enumeration of certain rights shall not be construed to deny or disparage

These traditionally core type courses are being attacked by

Article II: The right of the people to be secure in their persons, houses, papers and ef-

Article III: No person shall be subject for the same offense to be twice put in jeopardy of life or limb; nor shall be compelled in any case to be a witness against himself, nor be deprived of life, liberty or property, without due process of law; nor shall private property

other retained by the people.

Article VI: The powers not delegated to the University, nor prohibited to the people, are reserved to the people.

LETTERS Charges of football illiteracy unjustly implicate female fans

Dear Editor:

page 8

Cheer, cheer for old Notre Dame. It is great to feel I am a part of this spirited family that revels in coming together on Saturday afternoons to hail a team that no matter what the A.P. poll says, is number one. (Yes, Mr. Snyder, I do understand what football rankings mean.) It really pained me to see that all of those days I spent cheering for a team that I thought represented both the men and the women of Notre Dame were wasted because I obviously cannot understand the game as well as my male counterparts.

Apparently, the Notre Dame administration neglected to mention in Du Lac that womenare incapable of achieving that state of near frenzy when players such as Rod Smith pull off yet another Fighting Irish miracle. We poor, ignorant womenfolk should only be present to caress the bruised egos of the menfolk when our offensive or defensive plays go amok, or to fetch them a beer when their palates so desire. Ah, the joys of being a woman.

My daddy didn't raise a fool, and he most certainly didn't raise a football illiterate. Maybe Mr. Snyder had partaken of a bit too many "brew-has" when

he foolishly composed his poignant piece of male chauvinist garbage. My experience of football at Notre Dame has been just as rewarding as his beer-bellied, belching buffoons. Yes, I too participate in section pile-ons, hysterical shouting and the general Irish euphoria that can be found in the stadium and dorm rooms alike. And no, it really isn't necessary to provide women a room for watching animated fairy tales, powdering noses, or as an outlet to gossip about how lucky we are to be cheering for "their" team.

The only fairy tale that I would like to see is for some of the men of Notre Dame to get off of their butts, open their minds and leave their ugly jokes about women behind them. While we are in the process of eliminating problems, why don't we start with that insipid, sexist quiz.

All I can say to Mr. Snyder's "humorous" description of male/female football interaction is that he is going to find it really difficult to invite over any woman for future football games

> Kellene Johnson Pasquerilla East Nov. 14, 1990

Women participating in sports refute columnist's sexist slant

By Chris Cooney

"Women and Football: Do They Mix?" A better question might be "Freshmen and Newspaper Columns: Should They Be Allowed?" The answer, exhibited by at least one Observer article (Nov. 14), is a resounding "no."

Not only does Michael Snyder insult every sports-loving woman on this campus, he also perpetuates the stereotypes and prejudices that exist at Notre Dame. Love of football does not depend on the presence of a Y chromosome in one's genes. Replace the word "girls" with "blacks" or "homosexuals" and what type of reaction do you think you will receive? This type of sexism should never be tolerated at a university in the 1990's.

I hope that most of Synder's comments are based on what I see as extreme ignorance and immaturity. I, too, sat in a room of both men and women (all seniors) to watch the Notre Dame-Tennessee game.

However, any "yapping" was done by everyone, and both genders had insightful and interesting comments to make on the game. The men did not turn into "heathen animals." The women did not "gossip." We were more worried about the officiating and the lousy commentators than the "powder room." In fact, I'd bet that a couple of us "girls" could teach Snyder a thing or two about the sport of football.

I hope as Snyder goes through his four years at Notre Dame he will realize that people do not always fall into easy gender stereotypes. Although he calls himself a journalist and insists that he listened to all sides of the issue, I'm sure that most of his quotes were fabricated - revealing his own attitudes at the expense of a number of people. Although he tries to lighten the tone by suggesting that both men and women take his tongue-and-cheek quiz, the damage was already done

Women on this campus play

interhall football. Women on this campus work for the sports department of The Observer (the sports editor last year, in fact, was a woman). Women on this campus work as managers and trainers for the football team (and not because they enjoy looking at 300- pound players).

I'm sure the writer intended his column to be humorous. He'll probably be amused at the amount of angry mail he receives. But chauvinism is not a laughing matter, especially in what is supposed to be the "Year of Women."

I hope the next time someone with only three months experience on this campus decides to write a column he will not resort to tired, overused subjects in his quest for an easy laugh. We'female football fans would rather read something by someone who knows what he is talking about.

Chris Cooney is an assistant sports editor for The Observer.

LETTERS Article stifles relations between sexes

I am writing in response to Michael Snyder's article (The Observer, Nov. 14). Mr. Snyder's views are his own and he has the right to hold them regardless of how sexist and illinformed they are. I do not, however, feel that the Observer was right in printing the article. If this article were about blacks, Hispanics, or any other minority group, there is very little doubt in my mind that no editor would allow its publication. I also would like to speak for many of the women on this campus who were equally offended. I know that others were angered by this article, because, walking across campus today, I repeatedly heard complaints about it. First of all, why is knowledge of football a requirement for acceptance into society? Most men learn from being encouraged to play the game and from interaction with peers of the same sex. Women often do not have these football learning experiences. How many "knowledgeable" men offer or even attempt to honestly explain football to women? Some of us know enough to fully un-

derstand and enjoy the game, and some of us want to learn enough to do so. Maybe some women don't want to learn about football, but I still have tremendous difficulty with the logic used in this article.

If "men did not want any women to be in the same room with them during the game," then why was the solution "to not invite members of the opposite sex" outvoted? "Grown, cultured, and civilized men" do not write and publish sexist and demeaning articles And why should anyone imply that "all they're doing is looking at the players' butts?" What is attractive about a 300 pound man's butt? Mr. Synder should take the time out to listen to a few male comments about groups such as the Dallas Cowboy Cheerleaders. "Wow. what an incredible gran jete into a fabulous stag leap!" is not one of the comments one often hears. If only women are jumping up to get drinks, then how do the men get those "brew-has" in their hands? And how many "powder rooms " are there in Morrissey? How many women use the words "freshen up" and

then proceed to carry hair spray, powder, perfume, deodorant, lipstick, hairbrush, curling iron, nail polish, and other amenities with them to these "powder rooms?" These women must also lift weights, a "manly" sport, in order to carry

Observer exhibits poor judgement

The Observer retains the right to edit all

department. Please note that the more concise

the piece, the less we will have to edit it to fill

our space. Write down your thoughts and send

them to Viewpoint, P.O. Box Q, Notre Dame,

Dear Editor:

I should hope this is one of many letters The Observer receives concerning Michael Snyder's article "Women and Football: Do They Mix?" (Nov. 14) Just to be concise, allow me to name a few adjectives that come to mind: immature, offensive, creatively and stylistically lacking, and magnificently unfunny. What really sickens me is that The Observer would print such an intellectually void and unhumorous article. Time and space, not to mention that I must "jump up to 'freshen up' in the powder room," do not permit me to completely rehash the offensive phrases and innuendos in the article. I would not want to insult anyone's in-

Indiana 46556.

telligence by pointing out the obvious. I certainly would not want to print the key lines from the article more than once; that might be a little too much humor for the campus to take. I understand The Observer may print articles not necessarily acceptable to everyone, but I should hope there could be a more entertaining, or even intellectually stimulating, use found for three-quarters of a page of journalism. I'm just so glad I'm one of the "girls" who knows the game of football, so I'm "not that bad". Thanks so much for opening my eyes; now I need to go look at videotapes

of football players' butts.

Meg Taylor

Pasquerilla West

Dear Editor:

a bag that would probably weigh twenty pounds.

Lastly, I would like to thank Mr. Snyder from those of us who understand football and passed the quiz. We swear, yell, drink beer, and, when so inclined, belch right along with the rest of you. It's nice to know that we are "not that bad," even though being female appears to be an inherent evil.

We are, however, taking votes on that Heisman Trophy winner. Remember girls, keep on watching those buns! And don't forget how to "give the Heisman" to all those so-called "grown, cultured, civilized men" out there who help perpetuate the sexist attitude that so often stifles openness and communication between the sexes.

Accent

Intriguing images and a personal touch add to art exhibits

By SARAH HARKER Accent Writer

Bart Kasten, Lisa Lockhart and Warren Seelig are the artists whose works are currently on exhibit at Saint Mary's. Bart Kasten's work consists of color photography with a few photo-silkscreens in Moreau Gallery, Lisa Lockhart has Little Theatre Gallery filled with abstract oil paints, graphite drawings, and mixedmedia sculpture, and Warren Seelig's fibers constructions are hanging in Hammes Gallery.

Bart Kasten, a 1988 MFA graduate of the University of Florida, is currently an artist in residence at the Penland School in North Carolina. His work on display includes mainly color photography and a few photosilkscreens.

The artist intends "to capture the imaginary life hidden within a place." He does this with multiple exposure imagery that integrates the evidence of man and nature. The compositions have deep, rich color with one of the images exposed being a landscape

These images are intriguing. and draw the viewer in for closer inspection and at the same time, each image remains close within the confines of the frame

The artists attempts to show 'the intertwining of ambiguous layers that defy reality, space and time." An example of this is an image titled "Rick's Chair." This is a Type-C print that shows an empty room in the middle of a forest. The room, obviously old by the torn blinds and the peeling paint behind a rusty heater, shows a view of what lies outside the windows. Inside the room are the trees, leaves, and small hills with a rust colored chair in the middle of it, exposed onto the the room, therefore achieving the artist's goal of defying reality and space.

The exhibit will remain on display until December 14, in Moreau Gallery.

One of the many works by Lisa H. Lockhart, 'Locks,' consists of oil and graphite on canvas.

The work of Lisa Lockhart, oil paintings, graphite drawings and mixed media sculpture, are 'personal abstract narratives..." and "fragments" of her past. The paintings range in size from 16x20" to 5x6' with each containing a multitude of information achieved by lines both narrow and wide, straight and curved with the thickly painted surface both hiding and revealing abstract shapes and forms. Each color, in all of the paintings has an intensity of its own-from the fiery reds to the midnight blues-that work to emphasize the abstract quality of each painting.

The drawings are mainly graphite that relies on the repetitive motion of the line that moves around in an organic motion to create an image.

The sculptures are equally as intriguing as the rest of the exhibit, partly due to the small size in comparison to the overwhelming amount of twodimensional work. The size attracts the viewer's attention,

and draws them in to further inspect the surface quality as well as the content of each piece that can be viewed from all sides.

This exhibit will remain on display in Little Theatre Gallery un

The third exhibit, by Warren Seelig, is titled, "Columns, Wings, and Up the Wall." These sculptures are constructed of thin metal rods and different colored meshed fibers that are suspended from the ceiling and hanging on the wall. The color of the fiber is individual to each piece that is stretched tightly over an entire section and creates a protective layer over the intricate inner structure of each piece. The forms have a stable look to them, yet because they are suspended from the ceiling they become precarious. This forces the viewer to become intensely aware of the space he or she is entering.

This exhibit will also remain on display in Hammes Gallery until December 14.

A self-portrait by Bart Kasten is an example of a Type-C print with a photo silkscreen.

The hours of each of the galleries are Tuesday through Saturday 10 am.- 12 noon, and Sunday 1-3 p.m.

This exhibit by Warren Seelig represents his work with suspended columns.

The Observer

Flames break away from Canucks in third period

VANCOUVER, British Columbia (AP) - Tim Sweeney scored on a breakaway in the third period to trigger the Calgary Flames to a 6-4 victory over the Vancouver Canucks on Monday night.

Sweeney broke a 4-4 tie with his third goal of the season at 6:28 on a pass from Mark Hunter, helping Calgary (13-8-2) end a four-game winless streak

Sergei Makarov clinched it when he added his second goal of the game at 11:10 and the Flames pulled within one point of the leading Los Angeles Kings in the Smythe Division.

Sweeney's first NHL goal came on opening night when he scored in overtime to beat Vancouver 3-2.

Robert Reichel, Joe Nieuwendyk and Theoren Fleury scored the other Calgary against Canuck goals goaltender Kirk McLean.

The Canucks (10-11) got goals from Igor Larionov, Robert Kron, Jyrke Lumme and Garth Butcher on goaltender Mike Vernon.

Calgary's power play clicked times three in four opportunities as special teams proved to be the difference. Vancouver was 2-5 with the man advantage.

The Canucks the opened

scoring after McLean's brilliant save on Fleury's rebound following a point shot by Al MacInnis. Larionov beat Vernon with a 25-footer from the left circle at 2:24 of the first period after a drop pass by Greg Adams on the rush.

Calgary tied the score with rookie Reichel's fourth goal of the season. He fired into an open net at 17 minutes after McLean accidentally poked the puck away from Lumme.

The teams split six goals in the hectic second period dominated by power plays. Each team scored twice with the man advantage.

Nieuwendyk got his 14th of the season and seventh on the power play before Kron tied the score at 2-2. Kron broke in on the short side to beat Vernon between the legs at 4:42.

The Flames went ahead 4-2 on goals by Fleury and Makarov, the first on a power play and the second on a rebound after a poor clearance by Canuck winger Steve Bozek.

Vancouver rallied on powerplay goals by Lumme and Butcher from the point as Vernon was beat on the stick side both times. Butcher's came with 18 seconds left in the second after he intercepted a clearing attempt by Doug Gilmour.

Bussey shines in first Bengals start

CINCINNATI (AP) — Barney Bussey finally got his first start as a Cincinnati Bengal, stepping in for injured safety David Fulcher, and what did he do?

Well, he accounted for a twotouchdown swing in Sunday's 27-3 victory over the Pittsburgh Steelers.

"Me and David play basically the same game," said Bussey. "We're both physical players."

Late in the first half, Bussey single-handedly stopped a Steeler touchdown on a fake punt, upending Dan Stryzinski so close to the goal line that Stryzinski's helmet crossed the line — but the ball didn't.

"I knew it was a fake all the way. I new the guy was going to run, but I was kind of caught between a rock and a hard place. I had to stay with the coverage guy, but I saw him (Stryzinski) when he started to run," Bussey said.

"At some point, you have to let go of the guy you're covering. I knew it was going to be close. I zeroed in on his numbers, but he dove on me. That's why it was so close."

Then, in the third quarter, Bussey scooped up a Pittsburgh fumble and ran 70 yards for a touchdown.

"I didn't have to do anything but pick it up and take off," Bussey said. "All I had to do was beat a lineman, and if I couldn't do that I'd have never heard the end of it."

Bussey was the Bengals' fifthround draft pick in 1984, but he signed with the Memphis Showboats of the USFL. He finally joined the Bengals in 1986, and has spent his NFL time backing up Fulcher, a twotime Pro-Bowl selection.

"I wasn't trying to fill his shoes. You can't fill David's shoes. He's a great player," said Bussey. "I was just trying to do the things I can do.

"David told me just keep my head in the game and react to what they do. That's what I did."

Bussey said he was a little surprised that the Steelers didn't try to take advantage of him in his first start.

"I kind of thought they would run my way, but they didn't," he said. "They stayed with their game plan, and we stayed with ours. And you saw what happened."

The Bengals' defense, which entered the game ranked the NFL's second-worst statistically, played a more inspired game Sunday night despite the absence of Fulcher. Linebacker Carl Zander said it was just a matter of consistency.

"I think it's been a matter of we've been playing hard one play and not as hard the next," he said. "We just kept coming after them — good, solid defense."

Members of the Cincinnati Bengals defense, including safety Barney Bussey (27), celebrate after stopping Pittsburgh Steeler running back Tim Worley during the Bengals' 27-3 win on Sunday.

Artificial turf claims first Bear in Stinson

LAKE FOREST, Ill. (AP) — Coach Mike Ditka of the Chicago Bears doesn't like artificial turf, and until cornerback Lemuel Stinson went down with a season-ending knee injury Sunday, the Bears were free of serious injuries this season.

"That's the main reason," said Ditka when asked if the Bears have been relatively free of serious injuries because they have yet to play on artificial turf.

The Bears have played all 10 of their games on real grass in compiling a 9-1 record that has them close to clinching their sixth divisional title in seven years. They can clinch this week with a victory at Minnesota if the Green Bay Packers lose to Tampa Bay.

They'll have to do it without Stinson, the colorful cornerback who injured his right knee in the first series of the 16-13 overtime victory at Denver.

"The injury report isn't good

in his third year.

Stinson had been making predictions and backing them with his interceptions. The previous week he was involved in a war of words with Deion Sanders and Andre Rison of the Atlanta Falcons. He intercepted two passes in that game to lead the Bears to a 30-24 victory.

Ditka then took Stinson aside and told him to refrain from all the talk.

Stinson cooled the trash talk but in the first series of Sunday's game, Stinson injured his knee and will be out for the season, said trainer Fred Caito

"We will have to reconstruct the knee," said Caito. "Last year he tore part of the anterior cruciate. This time he tore the rest of it."

Ditka said the Bears will have cornerbacks Donnell Woolford and Maurice Douglass back this week for the game at Minnesota on Sunday.

Woolford has missed the last three games with a groin injury and Douglass has been out five games with an ankle injury.

Caito said Woolford could have played last week but "We had everybody else healthy and we had the luxury of waiting another week. Woolford and Douglass will start practicing this week."

When the Bears start practicing Wednesday, they will use their new indoor facility in nearby Waukegan for the first time. That's to prepare the team for its first game on artificial turf this season. Their only other game on artificial turf will be at Detroit on Dec. 16.

"I like to stay off that stuff," Ditka said. "I hate it and I don't care who knows it. The players don't like it. It should be outlawed."

Back in 1985 when the Bears went all the way and won the Super Bowl in the New Orleans Superdome, Ditka said "We were a good AstroTurf team. I don't know if this is a good AstroTurf team." **Special Olympics St. Joseph County** is in need of a volunteer men's basketball coach. If interested, call 259-5207 and ask for Sue.

SPORTS BRIEFS

NVA is sponsoring a three-part shooting contest, a one-onone basketball tournament (games to 11, men's 6' and over, under 6'; women open) and a free-throw competition (best of 50) Sunday, Dec. 2 from 7-10 p.m. in the JACC arena. Sign up by 5 p.m. Nov. 28 in the NVA office.

What a night on WVFI SportsTalk! Does Notre Dame deserve a higher ranking than eighth? Does Miami warrant the No. 2 spot? What are Rocket's chances for the Heisman Trophy? Hosts Vic Lombardi and Hugh McGowan will talk live with ABC play-byplay man Keith Jackson, CBS college football expert Mike Francesca and Chairman of the Orange Bowl Committee, Arthur Hertz. SportsTalk will also talk live with Greg Guffey and members of the Notre Dame basketball team live from New York City as they prepare for the semifinals of the Dodge NIT. Make sure you tune in from 8-9 p.m. on your 640 AM dial. Please call at 239-6400.

but it isn't unbearable," said Ditka Monday. "The worst thing that happened is we lose Lemuel. It's the same knee he hurt last year. Someone will have to pick up the slack. He was leading the team in interceptions and was among the league leaders."

The injury brought to an end what has been an interesting season for Stinson, a 5-9, 160pound defensive back who was

Bonds wins MVP

PITTSBURGH (AP) — Finally, Barry Bonds isn't just Bobby Bonds' son

You might want to refer to him by his new title: National League Most Valuable Player. He was a near unanimous choice, receiving 23 of a possible 24 first-place votes from the Baseball Writers of America Association after his career year led the Pittsburgh Pirates to their first NL East Division title in 11 years.

"I knew I was capable of this, but there are so many great ballplayers out there, I didn't know if it would be this year," Bonds said Monday. "I just put it together in the right year."

In his first four major league seasons, Bonds tried unsuccessfully to reach the standards of excellence his famous father achieved while hitting 30 homers and stealing 30 bases in five different seasons.

Now, after enjoying the kind of season Bonds himself wasn't sure he had in him, he's making others guess how much better he can get. According to Pirates manager Jim Leyland, even an MVP can get better.

"Barry's maturing and coming of age," Leyland said. "He's a hungry player and his concentration is better than it's ever been. People say he's finally playing up to his potential, but, hey, he was a pretty good player before this season.

"Sometimes he goes off the deep end and wastes an at-bat here or there, and if he didn't do that, he could hit 40 homers.

That would put the 26-yearold Bonds in the 40-40 category with Jose Canseco, a class not reached even by Bonds' father. For now, Barry Bonds will have to be content being the majors' first 30-50-100 player.

Bonds, who had never hit higher than .283, batted .301 this past season. He'd never hit more than 25 homers, but he

a 3-3 deadlock with the visiting

Beacons. Michael Curry, Dan

Marvin and Matt Osiecki

notched goals in the Irish rally,

while Greg Louder, Pat Arendt,

and Osiecki added assists.

David Bankoske, who led Notre

Dame in scoring last season,

continued from page 16

hit 33. He'd never driven in more than 59 runs, but he did that by July 8 and finished with 114. He'd never stolen more than 36 bases, but he stole 52 for the NL East champions.

He hit .377 with runners in scoring position - an incredible figure for any player, much less a player whose .103 career average with runners in scoring position in late-inning situations was the lowest in baseball, according to the Elias Sports Bureau.

"He had a monster year," said Bobby Bonilla, Bonds' teammate and the MVP runnerup.

The 1-2 finish by Bonds and Bonilla completed the Pirates' domination of the postseason awards. Leyland was voted the Manager of the Year and Doug Drabek (22-6) won the Cy Young Award. Dave Justice of Atlanta prevented a Pirates' sweep by winning the Rookie of the Year.

The only previous time Pittsburgh had the MVP and Cy Young winner in the same season was 1960, when Dick Groat and Vern Law did it. The Pirates' last MVP was Willie Stargell, who shared the 1979 award with Keith Hernandez of St. Louis.

Bonds received 331 of a possible 336 points. Bonilla got the other first-place vote and 212 points. Darryl Strawberry, formerly of the New York Mets who has since signed as a free agent with the Los Angeles Dodgers, was third with 167 points.

No player has ever been so productive in so many categories in one season - he also scored 104 runs - but the 26year-old Bonds won't guess how much higher he can take his numbers.

"I hit .500 in high school and people thought I should hit .600," he said. "I hit .350, .390 in college and people weren't satisfied. I've been in the ma-

added two assists.

At the final buzzer, the Irish comeback was etched in the record books as the Irish scored three third-period goals to come away with a 6-3 victory.

"I wasn't worried when we were behind," observed Notre Dame head coach Ric Schafer. "I knew that we are an equal or better team, so I was not worried. I'm not satisfied, but I -Notre Dame Communication and Theatre-

He's also lived with a famous last name. He doesn't rank up there with Mays or McCovey in Giants' folklore, but Bobby friend.' Bonds was one of the forerunners of the player of the '90s the Cansecos, the Rickey Hendersons, the Eric Davises who generate runs by the home run and the way they run.

sure needed it. Tonight was a fight, a hard-earned victory. Last night I thought we should have held them when we had a decisive advantage in the score.

'We're getting a little better. Still, I would like to give them credit - they worked hard on the ice, and they worked hard to raise the money to come out here. They worked hard at everything. This team gave us what we wanted - they played their hearts out, and they even had some good chances against us. I'm not just making things up. I am very critical of our performance. They had lots of breakaways and two-on-one's against the goalie on us."

Barry Bonds once considered his last name a curse, a cross to bear.

"I always got tired of hearing the same questions about my father, or being called Bobby, Barry Bonds said. "I didn't want to be known just because my dad was a major leaguer. I wanted to be known for what Barry Bonds could do.

'My father was my own worst enemy just because of the name. Now, he's my best

When Barry hit his 30th homer to join the exclusive 30-30 club that is captained by his father, the Three Rivers Stadium scoreboard carried a

"Greg Louder had a solid game," admitted Schafer. "He started off shaky, but he made some big saves thereafter."

In fact, Louder made 23 saves on 26 shots, including three spectacular saves which came during a UMass five-on-three power play (which the Irish killed) in the pivotal third period.

The Irish seized a 4-3 lead with 14:29 left in the contest as Tim Litchard drilled a slap shot from just inside the blue line on the left side of the goal and into the lower right corner of the net.

Only 15 seconds later, Irish defender Dan Sawyer was slapped with a two-minute roughing penalty, giving the Beacons a power play and a chance to tie the game. A delay of game penalty was called on Jason Konesco just 17 seconds congratulatory message from Barry's father and mother.

"I can talk to him better than I ever could before," Barry Bonds said. "Now I want to put all those father-son hitting records so far out of sight nobody will ever be able to touch them.

And you thought the Griffeys were baseball's only famous father-son combination.

"My ultimate goal is to make the Hall of Fame," Bonds said. "I don't want to do this just for one season or two seasons. I don't know if I can do that, but I do know that I can tell my kids and my grandkids someday that for six months, I was up there with the best of them."

after the Sawyer penalty, providing UMass-Boston with a truly gift-wrapped five-on-three scoring opportunity.

The scoring chance would have been gift-wrapped were it not for Greg Louder.

During the five-on-three, which lasted 1:53, Louder made save after spectacular save. His first outstanding save came in a crowd of defenders and attackers, as he snared the puck from the net on a pointblank shot. Louder's next save was a picture-perfect glove save on a slap shot from nearly 20 feet in front of the net. Louder made the final save of the heroic Notre Dame stand, deflecting a slap shot wide of

tential

Although Schafer eyes every Irish performance with a critical mind, he was not reticent to give credit to his players where credit was due.

the net with his leg pad.

"I'm glad we held off that five-on-three," noted Schafer, loosening his tie after the victory. "If we hadn't, that sure would have changed the complexion of the game."

Schafer also made mention of the efforts of junior left wing Michael Curry.

"Michael Curry has been playing well," remarked Schafer. "I can say that he has been playing well with consistency.

Curry had two goals in the two games against UMass-Boston, raising his teamleading point total to nine points (six goals, three assists).

The Irish next face Alabama-Huntsville at Notre Dame over Thanksgiving. Game times are 7:30 p.m. on Friday, November 23 and 3 p.m. on Saturday, November 24.

page 14 Interhall coaches select first-ever All-League teams

Men's Interhall champion Off-Campus and runner-up Alumni dominate league squads

(Top) From left to right: Parseghian Co-Coaches of the Year Kevin Rice of Flanner and Chris Sullivan of Grace, Leahy Player of the Year Jim Passinault, and Leahy Coach of the Year Paul Szyperski, both of Alumni (Bottom) Blue Division Coach of the Year Dennis Lynch of Lewis and Gold Division Player of the Year Becky Miller of Howard.

By RENE FERRAN Sports Writer

Men's Interhall football champion Off-Campus and runner-up Alumni dominated the rosters of their respective leagues in the 1990 Observer All-League teams, as selected by league coaches.

The Crime placed 11 members on the Parseghian League first team and five on the second team. The Dogs, meanwhile, had 13 first-team Leahy players and four secondteamers.

The Rockne League first-team was more balanced, with league champion Sorin placing nine members and runner-up Fisher six.

Player of the Year honors in the Rockne League were divided between Tom Sullivan of Carroll and Vic Lombardi of Sorin. Sullivan, a first-team selection at linebacker and punter, was regarded as one of the hardest hitters in the league.

"He was a force on our defense at the middle linebacker position," said Carroll coach Mike Baumer.

Lombardi is a first-team wide receiver and honorable mention placekicker. According to Pangborn quarterback/safety John Jacobs, Lombardi was one of the more explosive offensive threats in the talented Sorin attack.

"He was the deciding factor of our game," said Jacobs. "We held him in check for most of the game, but he made one catch against us to win the game. He seemed to make the big play all year for them."

Sorin coach Kevin Kramer earned Rockne Coach of the Year honors for leading the Otters to a first-place finish in their division.

"Their team was well-organized, well-prepared," said Jacobs. "His coaching showed in their performance. They had a great season."

In the Leahy League, Alumni

Phil Couri (O.C.)

swept the two major individual awards, as quarterback Jim Passinault was named Player of the Year and Paul Szyperski, Coach of the Year.

"He was the leader of their [Alumni's] offense," said Zahm captain Dan Stopar. "He kept the continuity in their offense going and they were pretty much unstoppable during the regular season." He also be-lieved Szyperski kept Alumni focused during the season, helping them dominate the league.

The Parseghian Player of the Year was running back Phil Couri of Off-Campus. A strong inside runner, he impressed Grace coach Chris Sullivan by his ability to stimulate the Crime offense.

"He's run well all year because he's such a hard-nosed runner," said Sullivan. "He makes things happen for Off-Campus.'

Sullivan and Flanner coach Kevin Rice were named Co-Coaches of the Year in the Parseghian League. Each had nothing but praise for the other's efforts throughout the season

"Chris is a good coach," said Rice. "They went 4-0 during the regular season, and it's hard to argue with that. Grace was a good, disciplined team that worked very hard and was in good shape physically. He definitely deserves to get this award."

Surprises, upsets prominent in women's IH selections

By RENE FERRAN Sports Writer

The votes are in and the results tabulated, and many surprises abound among the coaches' choices for the women's Interhall football 1990 **Observer** All-Star teams.

The voting was split among many candidates, which gave this reporter and Jon Miki, the head referee for women's Interhall football, lots of difficult tie-breaking decisions. One of the major upsets was quarterback Amy Farabaugh of Walsh being named to the Gold Division first team over betterknown players such as Kim Smith of Breen-Phillips, Jill Bodensteiner of Off-Campus, and Liz Holtz of Lyons. Another surprise was safety Carrie Goles, one of B.P.'s defensive stalwarts, only making honorable mention. Although

there was heavy competition at this position, it was expected that she would be named to one

of the first two teams. The Blue Division also had its share of surprises, such as

freshman Jenny Ford of Siegfried beating out junior Mary Hogan of Farley and senior Danica Petroshius of division champ Pasquerilla West.

The individual honors in the

last-minute touchdowns."

Lewis first-team running back Colleen Hogan, pleasantly taken aback by Lynch's selection, still had lots of praise for the Chicken offensive coordinator.

"He was very encouraging, and involved everyone in the game," said Hogan.

Player of the Year honors in the Gold Division went to Howard running back Becky Miller over fellow running back Kristi Alkidas of B.P. in a close

her play."

Coach of the Year in the Gold Division is second-year coach Mike Hortatsos, who led B.P. through an undefeated regular season and to the Interhall title.

"I'd say Mike's coaching expertise comes not only from his knowledge of football, but because of the time and effort he put into making us into champions," said Alkidas.

back Heidi Hansan of P.W. for Player of the Year and Lewis' Dennis Lynch for Coach of the Year. Miki remembers Hansan for her heady play, especially in pressure situations.

"She made everything go for P.W.," said Miki. "She had the best arm in the league, and also showed excellent leadership skills. She was very cool under pressure. In two different games, she drove the team for

contest.

"The thing about Becky is that she was able to get the tough yards up the middle for Howard," said Miki.

'For four years, she's consistently been a great player," said teammate Marianne Haggarty, herself a second-team running back. "She gets the tough yards for us, but also breaks free often for long gains. She gives it her all, and it shows in

World

continued from page 16

sports coverage would be a better use of that time. Tonight, for example, Hugh McGowan and Vic Lombardi will have Mike Francesa from CBS Sports, Keith Jackson of ABC Sports and Arthur Hertz, President of the Orange Bowl

Committee, on the air from 8 to 9. They will also have a live report on Irish basketball from New York.

Shows such as this provide students interested in sports broadcasting with fantastic experience. They also give students on campus a chance to speak live with national sports figures via telephone lines, and give a very sports-oriented campus an open forum.

In short, the possibilities for WVFI as a resource are limitless, and it is a shame that the station has chosen such a narrow focus for itself. Although I'm not suggesting that the whole format should be strictly sports, I do think that more opportunities should be allocated to sports. Both aspiring journalists and campus sports fans would benefit if WVFI expanded its sports coverage.

Cross country finishes third

Special to the Observer

The Notre Dame men's cross country team ran anoutstanding race yesterday in the NCAA Championships in Knoxville, Tenn., finishing third in the nation behind Arkansas and Iowa State.

The Irish, who came into the meet ranked fourth in the country, broke into the top three for the first time since 1963. It was the highest NCAA finish ever for a Joe Piane-coached team.

Leading Notre Dame was the same tandem that brought the team to the championships. Sophomore John Coyle and freshman Mike McWilliams finished 14th and 21st respectively en route to All-America honors.

Coyle crossed the line in 30:00, with McWilliams finishing at 30:16. Rounding out the Notre Dame scoring were seniors Pat Kearns, (38th, 30:37), Ryan Cahill (50th, 30:45), and Mike O'Connor (62nd, 30:45). Jonah Koech of Iowa State won the race.

O'Connor and Cahill, who led the Irish runners all season, were battling the flu prior to the District IV qualifying meet Nov. 10, and had not totally recovered prior to the NCAA race.

"This was a great meet for us," Piane said. "The outcome was terrific, but we can run better."

More details will appear in tomorrow's Observer.

The Observer / David Lee The men's cross country team placed third in the NCAA championship tournament over the weekend.

Campus radio station lacks sports coverage

The men's basketball game between Notre Dame and Iowa Saturday night at the Joyce ACC offered a tremendous opportunity for campus broadcasters. The game was not telecast across campus on television (ESPN had exclusive coverage), and Notre Dame Sports Information was willing to provide WVFI a hookup.

But WVFI Station Manager Mark Bintinger decided not to broadcast the game and instead aired some of the station's regular music coverage. His reasons for doing so are quite valid.

Ken Tysiac World of Sports

"Our mission is to be an alternative music station for the Notre Dame campus," Bintinger says. "And we decided to air music based on that. After I heard that only a couple hundred people (actually 3,303) showed up for the Fordham game (last Thursday night), 1 figured the interest in basketball was minimal."

Bintinger probably made the right decision in not broadcasting the game. Sports coverage is secondary—very secondary—in WVFI's programming scheme. The station's sports staff is allowed its weekly show from 8 to 9 p.m. every Tuesday night, and broadcasts all of the home football games as well as some other contests when Bintinger and his staff decide the games are important enough.

It may be none of my business, but I really think that a campus radio station should do more than provide progressive music programming that few students actually listen to. WVFI is a priceless resource at Notre Dame; it could be used to provide people who are interested in a broadcasting career with valuable experience. Instead, the station limits students' experiences to disc jockeying, which may be fun, but is a relatively unproductive use of air time.

Now that might be a lot of fun, but it seems to me that more

Volleyball places 4th in MCC Notre Dame defeats Loyola; falls to Butler, Saint Louis

Special to the Observer

The Notre Dame volleyball team battled to a fourth-place finish in the Midwestern Collegiate Conference championship tournament Sunday at Xavier University.

The Irish, ranked fifth in the MCC going into the tournament, opened with a hard-fought 12-15, 15-8, 17-15, 11-15, 17-15 victory over fourth-ranked Loyola. But they lost in three sets to top-ranked Butler, 8-15, 7-15, 9-15 and closed out the tournament with a 15-13, 11-15, 15-13, 14-16, 12-15 defeat at the hands of Saint Louis in their final match of the tourney to end up in fourth place.

Third-ranked Dayton won the tournament, defeating Butler in the finals 15-8, 15-9, 15-9.

Sophomore Alicia Turner was the sparkplug for the Irish throughout the tournament. She recorded 59 kills and 43 digs in the three games for Notre Dame en route to being the only Irish player chosen to the All-MCC team.

The Observer / Scott McCann

The Notre Dame hockey team swept the University of Massachusetts-Boston, winning 6-4 on Thursday and 6-3 on Friday.

The Notre Dame hockey team (3-5-1) swept the University of Massachusetts-Boston (3-2) in a two-game series as it came from behind to best the Beacons 6-3 in front of 1,262 fans at the J.A.C.C. on Friday night.

The Irish, who had beaten UMass-Boston 6-4 on Thursday night, quickly fell behind 2-0 on Friday before beginning their comeback.

Notre Dame came out shooting, but the Beacons rattled back with vigor, as UMass defender Bill Innocent beat Irish goalie Greg Louder for the first score of the night. Innocent had been parked in front of the Notre Dame net when teammate Michael Gillis noticed him and fed him the puck, taking Louder by surprise.

The next UMass goal came on a power play with 5:58 remaining in the first period. Boston's power play was courtesy of a two-minute holding penalty on Curtis Janicke of Notre Dame.

Yet by the end of the first period, the Irish had skated, shot and scored their way to

Turner started out the tournament strong, recording 25 kills and 23 digs in the victory over the Ramblers. Freshman setter Janelle Karlan also was outstanding in the match, recording 63 assists in the fivegame triumph. Karlan finished with a team-leading 145 assists for the tournament.

Things fell apart for the Irish in the semifinal match against Butler. The Bulldogs disposed of Notre Dame fairly quickly, taking just 80 minutes to record the three-game win. Jessica Taylor did most of the damage for Butler, recording 13 kills and 19 digs as the Bulldogs finished with a hitting percentage of .312, compared The Irish women's volleyball team, pictured here against Oklahoma, placed fourth in the MCC championship tournament over the weekend, defeating Loyola and losing to Butler and Saint Louis.

to just .106 for the Irish.

Notre Dame lost a heartbreaker in its final game of the tournament against Saint Louis. The Irish were ahead two games to one, but lost the fourth game 14-16 and the fifth game 12-15. Marilyn Cragin led Notre Dame inside in that one, recording three solo blocks and 14 kills. Christine Choquette and Turner paced the Irish with 22 kills apiece.

Sunday's action brought Notre Dame's record to 9-25 on the season. The Irish will close out their season in the fourteam Whataburger Classic in Austin, Tex. Nov. 23 and 24. The other participating teams will be the University of Texas, USC and San Diego State.
