Campuses welcome 2,400 incoming freshman

Irish receive wide variety of students

By SARAH DORAN
News Editor

Distinguished as Notre Dame's 22nd co-educational class, this year's incoming freshman class keeps the University on target with the goal set in the Colloquy for the Year 2000, according to Director of Admissions Kevin Rooney.

■ see TRANSFERS, page 4

Rooney estimates that 1,800 students will make up the class of 1998—a decrease from last year's 1,900 and from the 1,882 of the previous year. This class size will put the total undergraduate population at the Colloquy's target figure of about 7,600 students, he said.

This also marks the third year that the University has implemented a gender-blind admissions process that gives women equal consideration in the admissions process, said Rooney.

The result is a 55 to 45 male to female ratio—which is also characteristic of the sophomore and junior classes. The senior class has a 63 to 37 male to female ratio.

Of 9,300 applicants, 3,900 highly qualified students were accepted to attend the University, said Rooney. The mean high school class rank shows students in the top seven percent of their high school class, with an average Scholastic Aptitude Test score of 1,215.

Minorities make up 17 percent of the class—an increase over last year's 14 percent. In recent years, the Hispanic population has been the largest among incoming freshmen. According to Rooney, the class of 1998 is comprised of:

- seven percent Hispanic;

Expectations already set for Belles'

By ELIZABETH REGAN
Saint Mary's Editor

The Admissions office at Saint Mary's holds high expectations for the College's 399 incoming freshmen, according to Director of Admissions Mary Pat Nolan.

"I feel strongly that this year's freshman class will complement the returning body of students very nicely," Nolan said.

"They are very strong students with a variety of interests including athletics, service and leadership."

The academic standards for admission has continued to rise this year. The average high school grade point average for the class of 1998 is a 3.47.

Students have traveled from 34 different states, and seven foreign countries, in order to attend Saint Mary's this year. The regional breakdown of incoming students is similar to that of the College's upperclassmen:

- 76 percent from the Midwest;
- eight percent from the South;
- six percent from the Middle States;
- five percent from the West;
- two percent from the South West;
- one percent from New England;
- two percent from other countries including Bulgaria, Bangedesh, Ecuador, Japan, Panama, Spain and Thailand.

Orientation 1994

Schedule of Events

Saturday

- 1 p.m. Official Welcome and Introductory Ceremony, JACC
- 2 p.m. The Freshman Year of Studies and Student Affairs, JACC
- 3 p.m. Parent Orientation and General Session for all first-year students with their academic advisors, JACC
- 4-6 p.m. DeBartolo Classroom Building Information Fair on University programs and services, DeBartolo Hall.
- 7 p.m. Movie "Rudy" for parents followed by reception, 101 Debartolo Hall
- 8:00 p.m. Students meet with hall rectors and staff, assigned hall
- 9:30 p.m. Graffiti Dance with Other Dorms, Stepan Center.

Sunday

- 8:30a.m. Continental Breakfast for Parents, Concourse of JACC
- 10 a.m. Eucharistic Liturgy for students and their families, JACC
- 11:30 a.m. Picnic lunch for students and their families, JACC
- 12:15-1 p.m. Introduction to Student Activities, JACC
- 1:30 p.m. Program and reception for Hispanic, African-American, Asian-American and American Indian students and their parents, JACC
- 1:30 p.m., 2:30 p.m. Campus tours, steps of Main Building
- 2 p.m., 2:45 p.m., 3:30 p.m., 4:15 p.m. Student conducted programs on the Code of Honor, 101 Debartolo Hall

Cavanaugh gets change of scenery as dorm population changes sexes

By SARAH DORAN
News Editor

Speaking even before Cavanaugh's first official night as a women's dorm, Rector Sister Joanne Bauer, C.S.C., said that the hall's new residents are anticipating their new year "with tremendous spirit" as it opens its doors following conversion to a women's dorm during the summer.

Among the 239 women moving into the hall this week are 54 freshmen, two transfer students and 163 students moving in from other halls.

As the residents and hall staff are taking the opportunity to establish themselves, they will continue to overcome the difficulties of beginning a new tradition as a female dorm, said Bauer.

But early returns on fostering dorm spirit are encouraging, she added.

"I was caught up in the Cavanaugh women's spirit as soon as I talked to and met with different leadership groups like the acting hall council, R.A.'s and some students," said Bauer, who moved into the dorm August 1.

At the same time, the dorm is trying to remain sensitive to its former residents, she said.

"We can never understand the loss that Cavanaugh is to men who were here—we feel compassion for them and continue to pioneer the contemporary

traditions of Notre Dame," said Bauer.

Some former residents have trickled through the dorm recently "kind of looking around, a bit in awe as they can't believe its changed," said Michelle Trager, a resident assistant.

"They are not upset, but supportive of us and happy that the dorm is renovated and just curious to see what its like," she added.

Bauer said that she has found other rectors extremely supportive of her and has also received offers to put together joint projects with other dorms. Bauer is beginning her first year as a rector as a Saint Mary's graduate who also holds a masters in American Literature from Notre Dame.

The physical changes to the dorm were "minimal" she said. Although students rooms were left unchanged, several additions make the dorm similar to other female dorms on campus.

Among the new features:

- An exercise room was converted to a laundry room;
- Bathrooms and showers were redone;
- All hall carpets were replaced;
- Bathrooms were upgraded to Handicapped facilities.

The decision was made to convert Cavanaugh into a female residence hall by University officials.

INSIDE COLUMN

WORLD AT A GLANCE

What du Lac won't tell you

You finally made it here. After a year of agonizing over the results of applications, acceptance letters, waiting lists, dorm assignments and roommates, you can sit back and relish the fact that you are now a student at the finest national Catholic research university known primarily for its football team.

Jake Peters
Editor-in-Chief

But the first days of college never prove to be easy. There are the tearful good-byes, arguments with parents over nothing and a body that can no longer tolerate shopping at Meijer's, Wal-Mart or K-Mart. But you persevered and made the trip to the hallowed grounds of Notre Dame and Saint Mary's ready to face the challenges of college life.

The anticipation that builds over the summer reaches a crescendo as thoughts float in and out of your mind of those wild college parties where parents never come home early and free beer flows from an eternal spring deep beneath the university. The idea of really studying and getting straight A's is still an appealing (and attainable) thought to you and not just to your parents. The hope of meeting that perfect partner of the opposite sex has not yet been foiled by the evils of parietals.

As your first night on campus has probably already informed you, there are certain things about being a freshman that you will just have to deal with. Your room is small, the building is hot, and your parents won't let anyone forget how much they are paying for that small, hot room. But take heart—you will soon be finished with social mixer's (I'll always remember them as purgatory for the socially inept).

While most come to school seeking independence from those overbearing people called parents, it is also important to recognize that Notre Dame has more rules than most small nations. There are section rules, dorm rules, du Lac (get used to it, it's everywhere) and if the university missed anything, all Indiana penal codes and statutes will still apply. Of course, realize that this will bring a wide smile to those overbearing parents of yours.

In the spirit of these fine institutions, I wish to lay one more set of rules down for you. They are pretty simple and some may just prevent two or three thousand upperclassmen from pointing at you and chanting "freshmen, freshmen, . . ."

- *Stay up late.* Sleep wastes valuable bonding time.
- *Study only when you have to.* Trick question. That means all the time.
- *Eat out often.* No tricks here. Sure, the pasta bar tastes good now, but wait three years from now.
- *Introduce yourself to the person next to you in class.* Something I've never done effectively and always regretted.
- *Get involved.* The century club is not an acceptable activity.
- *Never attempt the wave at a football game.* Just trust me on this one.

As I recall my own orientation weekend, there was this person who avoided meaningless conversation by pretending to be looking for someone the whole night. Use this only in an emergency.

New University Trustees elected

University of Notre Dame alumni Diana Lewis and Terrence McGlenn have been elected to the University's Board of Trustees. Lewis, a partner in the West Palm Beach, Fla., law firm of Gay, Ramsey & Lewis, P.A., was graduated from Notre Dame in 1974 with a bachelor's degree in sociology. After receiving a master's in education degree from Florida Atlantic University in 1976, she returned to Notre Dame and earned her law degree in 1982. A member of the Guild of Catholic Lawyers, Lewis also is active in professional societies including the American Academy of Hospital Attorneys and the National Health Lawyers Association. Prior to her election as a Trustee, she was a member of the Notre Dame Law School Advisory Council for five years. McGlenn is the founder, president and principal stockholder of McGlenn Capital Management, Inc., based in Reading, Penn., with total assets of more than \$2.8 billion under discretionary management. He also is co-owner of Lily's of Beverly Hills, a California-based sportswear design and manufacturing company. McGlenn was graduated from Notre Dame in 1962 with a bachelor's of business administration in accounting and earned his MBA in 1964 from the University of Pennsylvania's Wharton School of Business. With his wife, Barbara, he is among the five principal benefactors underwriting the University's new \$23-million College of Business Administration complex, scheduled for completion for the fall 1995 semester. An 11-year member of the College of Business Administration Advisory Council before his election as a Trustee, McGlenn also serves on the University's President's Development Committee. McGlenn is director of Narrow Fabric Corporation, a Reading-based textile manufacturing firm; a member of the board and executive committee of The Reading Hospital and Medical Center; and chairman of Colonial Oaks Foundation, a Reading-based charitable organization. He has been active in fund-raising for numerous charitable and religious organizations including Alvernia College, the Boy Scouts, St. Ignatius Loyola Church, the March of Dimes and the United Way. The McGlenns are the parents of three Notre Dame graduates, Meg '87, John '90, and Christine '91. Their fourth child, Terry, Jr., recently completed his sophomore year at the University. Notre Dame's board, established in 1967, currently is chaired by Andrew McKenna, chairman, president and chief executive officer of the Schwarz Paper Company of Morton Grove, Ill. The elections of Lewis and McGlenn raised the board's membership to 53.

Alumnus named new service director

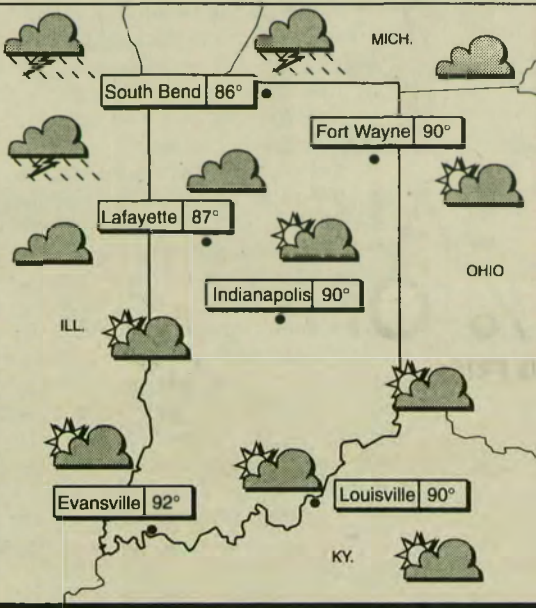

Edward Trifone, a 1988 University of Notre Dame graduate, has been appointed director of alumni community service for the Notre Dame Alumni Association. Trifone's appointment was announced by the association's executive director, Charles Lennon, Jr. A native of Oak Park, Ill., where he was graduated from Fenwick High School in 1983, Trifone worked for a year as a graphic art photographer in a Chicago advertising firm before attending Holy Cross College in South Bend. Following his graduation from Holy Cross in 1986, he transferred to Notre Dame, where he majored in American Studies and was graduated in 1986. A Grace Hall resident, he was active in numerous extracurricular activities including the Notre Dame Encounter, the Student Tutorial Education Program and the Community for the International Lay Apostolate. He also was named first executive director of Grace Hall's unique intramural television station. He spent his summer vacations while at Notre Dame as a camp counselor at St. Theresa's Camp in Soldotna, Alaska, and as a counselor at Maryville Academy in Des Plaines, Ill. Following his graduation from Notre Dame, and with assistance from the University's Center for Social Concerns, Trifone served a director of PRIDE Saskatoon, an alcohol and drug awareness program sponsored by the Mennonite Voluntary Service in Saskatchewan. He later worked in Salzburg, Austria, as a resident counselor and teacher at an international high school. For the last three years, Trifone has worked in the funeral service business, most recently as a funeral director in St. Joseph, Mich. Trifone's appointment became effective August 12.

Associate Provost Charles to retire

Isabel Charles, associate provost and director of international study programs at the University of Notre Dame since 1982, will retire from that role to emerita status effective June 30, 1996, according to the University's provost, Timothy O'Meara. Effective July 1, 1995, she will begin a year's leave of absence, recapturing a leave she relinquished on assuming her present duties. The first woman to hold the position of Dean at Notre Dame, Charles directed the University's College of Arts and Letters, its largest academic unit, from 1976-1982. Previously, from 1973-76, she had served as an assistant dean of the college. "During Isabel's 21 years in Notre Dame's administration, the University has been enriched in many ways by her efforts, but most of all by the high academic standards she invariably has maintained," O'Meara said in making the announcement.

Library mosaic gets facelift ND campus receives summer touch-ups

By JASON WILLIAMS
Associate News Editor

Now that it has scored a facelift, 'Touchdown Jesus' will be shining a little brighter.

The 7,000 tiles and stones which make-up the mosaic, officially named "The Word of Life," are being scoured and repaired piecemeal. Weather has worn away some caulk, paint, stone, and the University decided now was the time to restore some of the brilliance to the world's most famous football referee.

"A small percentage of the mosaic tile has fallen off and all those pieces are being replaced with identical tiles," Mike Smith, director of facilities en-

gineering said. "A consolidate and waterproofing will be applied to worn and cracked stones to retard further deterioration."

The entire mosaic is being recaulked, Smith said, a process which involves grinding and then peeling out the defunct adhesive before replacing it with new caulk.

"They have to make sure the old caulk is completely removed so the stones are adhered to the building and not the old caulk," he said. "There's something like 12,000 linear feet of new caulk that they're putting in."

Conrad Shmitt Studios, a company based in New Berlin, Wisconsin, is doing the job.

They are the same firm who have cleaned the stained glass and renovated the ceiling in the Basilica of the Sacred Heart and regilded the top of the Administration Building's golden dome. Total project cost for the mosaic renovation is \$280,000.

A major reason for the mosaic's deterioration is inadequate maintenance, according to a study done by Conrad Shmitt prior to the renovation.

Smith said the University will now take steps to maintain the mural after the renovation is complete.

"We're going to have a thorough inspection of the mural every two or three years," he said.

By JASON WILLIAMS
Associate News Editor

Notre Dame's maintenance and landscape departments spent a large portion of the summer giving the campus a tune-up.

One of the biggest overhauls was the renovation of Pasquerilla East and Pasquerilla West residences halls, according to Director of Maintenance Chuck Thomas. All walls and hallways were painted, new carpet was laid and new security systems were installed.

"We installed an electronic card access system—it has a magnetic strip like a credit card," Thomas said. "It's an advanced system which will allow access to be monitored and controlled."

This new card-swipe access system was installed in six of the twelve all-female dorms this summer. Thomas said Maintenance will be developing plans and specifications this winter for implementing this

new system in the remainder of the female dorms with next summer set as a tentative installation date.

Operations personnel also landscaped the area surrounding the new on-campus child-care center for faculty children.

"One thing that was kind of neat that we did was the bushes," Bill Thistlethwaite, landscape services superintendent, said. "It's the kind of bushes that were in Edward Scissorhands. There's a dog, a cat, a goose, a turtle and some others."

The center opens Aug. 29 at capacity enrollment of 170.

Upgrading campus laundry facilities was another major summer project, Thomas said.

"We installed new washers and driers and worked on improving the air space in the laundry rooms so the driers won't eat the quarters as bad," Thomas said.

Maintenance crews also placed new windows in O'Shaughnessy, Riley and Cushing Halls.

Promotions given to more than 50 profs

Special to The Observer

Fourteen members of the University of Notre Dame faculty have been advanced to emeritus rank, and promotions have been announced for 44 others, including the appointment of three faculty members to endowed chairs.

The new endowed professors are Xavier Creary, Huisking professor of chemistry and biochemistry; William Dwyer, Hank professor of mathematics; and Andrew Sommese, Duncan professor of mathematics.

The new faculty emeriti are Charles Benjamin Alcock, Freimann professor of electrical engineering and director of the Center for Sensor Materials; Cornelius Browne, professor of physics; Sperry Darden, professor of physics; Bernard Doering, professor of romance languages and literatures; Emerson Funk Jr., professor of physics; V. Paul Kenney, professor of physics; Chau Le, associate dean of the Graduate

School; Capt. William McLean, associate dean and professor of law; Rev. Ernan McMullin, O'Hara professor of philosophy; Edward Murphy, Matthews professor of law; Wilhelm Stoll, Duncan professor of mathematics; C. William Tageson, associate professor of psychology; Kenyon Tweedell, professor of biological sciences; and Donald Vogl, associate professor of art, art history and design.

Advanced to the rank of professor from associate professor are Rev. Thomas Blantz, history; Maureen Barry McCann Boulton, romance languages and literatures; Bruce Bunker, physics; Norman Crowe, architecture; Jeanne Day, psychology; Umesh Garg, physics; Marc Jarsulic, economics; Juan Migliore, mathematics; Dian Murray, history; Kathie Newman, physics; William O'Rourke, English; Jaime Bosch Ros, economics; and Mihir Sen, aerospace and mechanical engineering.

Receiving tenure are Carolyn Callahan, associate professor of accountancy; Robert Fishman, associate professor of sociology; Joan Godmilow, associate professor of communication and theatre; Michael Lykoudis, associate professor of architecture; and H. Fred Mittelstaedt, associate professor of accountancy.

New associate professors with tenure, promoted from assistant professor, are Ani Aprahamian, physics; Peter Bauer, electrical engineering; Sunny Boyd, biological sciences; Joan Brennecke, chemical engineering; Mark Chaves, sociology; Rev. William Dohar, history; Leonid Faybusovich, mathematics; Gregory Gundlach, marketing; Bei Hu, mathematics; Hilary Radner, communication and theatre; and Joseph Wawrykow, theology.

Other promotions include Peter Difley to associate dean of the Graduate School; Joachim Goerres, physics, to associate faculty fellow; Sophia Jordan and Rafael Tarrago to associate librarians; and Ross Shanley-Roberts to assistant librarian.

Saint Mary's celebrates its birthday with style

By ELIZABETH REGAN
Saint Mary's Editor

Saint Mary's kicked off the second semester of the Sesquicentennial year Wednesday night with a community wide birthday party featuring a cake in the shape of Le Mans Hall and a fireworks finale.

The event, chaired by Director of Building Services Marilyn Rajski, involved a community wide effort by the College, according to Maureen Manier, Director of Communications.

"The party was organized and staffed by employees not usually involved in the planning of this type of event," Manier said. "They have worked for months and knocked themselves out in addition to their regular jobs.

"The involvement of everyone has made the Sesquicentennial year so successful," she said, "the birthday party is just another example of this."

The faculty and staff of Saint

Mary's extended their welcome to the South Bend community by giving tours of the campus and providing games and face painting for children.

College President William Hickey and President of Holy Cross congregation Catherine O'Brien did the honors of cutting the cake, donated by the Marriot Food Services.

Although students were not in session for the birthday party, there will be many more opportunities for them to participate in the on-going sesquicentennial celebration, according to Manier.

All students will be given the opportunity to see Maya Angelou in October, as well as many other women who are at the forefront of their fields, Manier said.

Saint Mary's will continue to celebrate their Sesquicentennial year with speakers and activities for students and faculty throughout the fall semester.

Welcome

continued from page 1

- five percent Asian-American;
- four percent African-American;
- one percent American Indian.

Geographically, the University traditionally attracts a broader distribution of students than most other schools, explained Rooney. This year was no different, as Rooney estimated that:

- 42 percent come from the Midwest;
- 24 percent from the Northeast;
- 13 percent from the West;

- 10 percent from the Southeast;
 - 9 percent from the Southwest; and
 - two percent from foreign countries.
- An estimated 22 percent of this year's incoming freshmen are children of alumni— a figure that is in keeping with recent trends.

Be a Volunteer sponsor for RCIA or Confirmation!

This year, some of your peers, maybe even a friend or someone you know from down the hall will decide to become Catholic through RCIA. The way it works is, we all learn together from each other... you, as a sponsor, would answer questions, but you'd probably discover that you had some questions too.

Which would be a good thing.

Sponsors serve as friends, companions, and guides to other students as they prepare to take new steps in their lives of faith.

Sponsor Information Sessions

RCIA: for students who wish to become Catholic Christians
Monday, September 5, 6:30 p.m., Notre Dame Room, LaFortune Student Center

Confirmation: for baptized Catholics who wish to receive the Sacrament of Confirmation
Monday, September 12 at 6:30 p.m., Faculty Dining Room, South Dining Hall

Student football tickets go on sale Wednesday

By JASON WILLIAMS
Associate News Editor

The distribution of student football tickets will be compressed into three days, beginning Wednesday, August 31.

All Notre Dame and Saint Mary's students are guaranteed

tickets to this season's six home games. Ticket booklets cost \$84 to be paid in the form of cash or check.

In addition to payment, students must also present their valid student ID. Each student in line can hold up to four ID's.

Seniors can obtain booklets beginning Wednesday morning

from 8 a.m. until 5 p.m. Juniors can obtain booklets on Thursday from 7 a.m. until 2 p.m., while law students can receive theirs from 2 p.m. until 7 p.m.

On Friday, sophomores can obtain booklets from 7 a.m. until 2 p.m., and freshmen can receive their tickets from 2 p.m.

until 7 p.m.

Students residing in the dorms will receive ticket applications in their mailboxes while Off-Campus students are encouraged to pick up their applications Monday or Tuesday on the second floor ticket window of the JACC. They may also pick them up at

the same time they are receiving their tickets.

Also, The Shirt '94 is now available for \$14 to the University community and general public at the Bookstore, Irish Express, the LaFortune Information Desk and the Varsity Shop in the JACC.

Saint Mary's gets clean-up

By PATTI CARSON
Saint Mary's Accent Editor

A new feature at Saint Mary's College is the statue display in front of Madeleva Hall.

But before the statue could be erected and the plaque mounted, there was much work to do in preparation.

The flower bed around the statue is one of 15 beds that must be maintained on the campus grounds, according to Lamar Grady, assistant supervisor of college grounds.

"We grow a majority of our flowers in the greenhouse from seed," he said. "We sew the seeds prior to Christmas. The flowers are transplanted from 3 to 4 pots in the greenhouse before we actually plant them outside in the beds."

Sometimes there are as many as 250 tulip bulbs displayed in one garden, according to Grady.

Aside from plowing and shoveling snow in the winter, the grounds crew also has thousands of plants to grow and

care for in the greenhouse, Grady said.

"There is always work to be done," he said. "We have 5 people working from 7 a.m. to 3 p.m. each day to keep the place looking like this."

Wild geese are nuisance the grounds crew also has to watch.

"We contacted the DNR (Department of Natural Resources) to take the geese to another lake, but somehow they just keep coming back," Grady said.

Transfer's welcomed to campus

By SARAH DORAN
News Editor

Notre Dame admitted 175 transfer students and re-admitted 30 students this year, while Saint Mary's admitted 51 transfer students, according to Kevin Rooney, director of Notre Dame admissions and Mary Pat Nolan, director of Saint Mary's admissions.

With 511 applicants for transfer into Notre Dame, it was a "typical year, with only a slight increase in those seeking transfer admission," said Rooney. Last year the University saw 450 applicants, admitting 150.

For the second year in a row, the College of Arts and Letters admitted the largest number of transfer students, followed closely by the College of Business Administration.

Although final numbers are not yet available, Rooney said that two-thirds of all Notre Dame transfer students have been admitted to either the College of Arts and Letters or the College of Business Administration. The rest of the students are evenly divided among the College of Architecture, College of Engineering, and the College of Science.

The male/female ratio for transfer students is similar to that of the freshman class, which stands at 55/45.

The 30 students re-admitted to the University is a ten student decrease from last year. Whether or not a student is re-admitted varies from situation to situation, he said.

At Saint Mary's, the number of transfer students is down only one from last year's figure of 52 students, according to Nolan. They have been admitted from 11 states and follow the same geographic distribution as the freshman class.

Saint Mary's Editor Beth Regan contributed to this story.

The Observer/Scott Mendenhall

**Presidents dinner
awards faculty, staff**

Special to The Observer

Fifteen University of Notre Dame faculty member and three staff members were awarded special recognition at the annual presidents' dinner for their contributions to the Notre Dame community.

Sonia Gernes, professor of English, this year was the first woman recipient of the Faculty Award, given in recognition of her creativity and "uncommon generosity" in service and administration. Gernes, a faculty member since 1975, is an award-winning poet and novelist.

Two 1994 Graduate School Awards were presented. Joan Aldous, Kenan professor of sociology and a prominent figure in the field of family sociology, was cited as "living proof that great scholarship and great teaching go hand in hand." Francis Castellino, dean of the College of Science and Kleiderer-Pezold professor of chemistry and biochemistry, was recognized as a "marvel of multiple talents"—a prolific scholar, a gifted lecturer, a successful administrator and an efficient laboratory director.

The annual Rev. Paul Foik Award was given to Rafael Tarrago, assistant librarian, who "has used his skill not only to build a better Latin American collection, but also to find resources for its support."

Irwin Press, professor of anthropology, was named the recipient of the 1994 Thomas Madden Award for outstanding teaching of freshmen. Cited as a "tough taskmaster," Press was recognized for possessing a contagious enthusiasm and provoking curiosity about the world.

Bernard Doering, professor of romance languages and literatures, received the 1994 Reinhold Niebuhr award for demonstrating a "lifelong commitment to social justice through active involvement here with the Catholic Worker

House and the Center for the Homeless."

The Grenville Clark Award, honoring members of the community "whose voluntary activities and public service advance the cause of peace and human rights," was presented to Brother Bonaventure Scully, Keenan Hall rector and adjunct instructor in the Freshman Writing Program.

Sister Joris Binder, Pasquerilla East rector, received the 1994 John "Pop" Farley Award, named for the one-time rector of Sorin Hall and presented for exceptional service in student affairs.

Rev. H. Thomas McDermott, director of special projects in campus ministry, received the 1994 Rev. William Toohy Award, which is given annually to one whose preaching, writing and example embody the social dimension of the Gospel in a remarkable way.

Special Presidential Awards, honoring those who have given dedicated service over the years, were presented to William Berry, professor of electrical engineering; Michael Etzel, acting chair and professor of marketing; Edward Kline, professor of English and O'Malley director of the Freshman Writing Program; Edward Murphy, Matthews professor of law; and Erskine Peters, professor of English. Also receiving Presidential Awards were two couples—Paul Bosco, associate professor emeritus of romance languages and literatures, and Vittoria Bosco, adjunct assistant professor of romance languages and literatures; and Ronald Hellenthal, professor of biological sciences and director of the Environmental Research Center, and Barbara Hellenthal, curator of the Greene-Nieuwland Herbarium. Barbara Hellenthal is the author of "Trees, Shrubs and Vines on the Notre Dame Campus," recently published by Notre Dame Press.

ND gets nearly \$2 million in grants during May

Special to The Observer

The University of Notre Dame received \$1,851,582 in grants during May for the support of

research and various programs. Research funds totaled \$1,385,471, including:

- \$302,949 from the U.S. Navy for research on quantum

cellular automata by Wolfgang Porod, professor of electrical engineering; Craig Lent, associate professor of electrical engineering; and others.

- \$112,800 from the National Science Foundation for research by algebraic and geometric topology by Laurence Taylor, chair and professor of mathematics, and William Dwyer, professor mathematics.
- \$94,968 from the National Science Foundation for research by Laura Pyrak-Nolte, assistant professor of civil engineering and geological sciences, on computer-aided visualization of crack and fracture geometry.

- \$70,000 from the National Science Foundation for research on seismic protection of structure by Nicos Makris and Davide Hill, assistant professors of civil engineering and geological sciences.
- \$60,000 from the National Science Foundation for research on algebraic methods in systems theory by Joachim Rosenthal, assistant professor of mathematics.
- \$59,774 from the U.S. Department of Energy for research for Hsueh-Chia Chang, chair and professor of chemical engineering, on wave dynamics on failing films.
- \$50,000 from Research Corp. for research on artificial metal cation and saccharide co-transporters by Bradley Smith, assistant professor of chemistry and biochemistry.

- \$47,804 from the National Science Foundation for analysis and visualization of stochastic systems by Billie Spencer Jr., associate professor of civil engineering and geological sciences.
- \$45,000 from the National Science Foundation for research by Steven Ruggiero, associate professor of physics, on single electron tunneling and spectroscopy.
- \$39,599 from the National Aeronautics and Space Administration Ames Research Center for research by Robert Nelson, professor of aerospace and mechanical engineering on tail buffeting due to vortex breakdown.
- \$37,037 from the National Institute of Standards and Technology for research by A. Eugene Livingston, professor of physics, on highly charged ions in an electron beam ion trap.
- \$33,853 from the National Science Foundation for research on the fate of trace metals in freshwater sediments by Jean-Francois Gaillard, assistant professor of civil engineering and geological sciences.
- \$30,000 from the National Science Foundation for research by John Renaud, Clark assistant professor of aerospace and mechanical engineering, on multidisciplinary design optimization development.
- \$19,150 from the National Science Foundation for research on geophysical equipment for archaeology by Mark Schurr, visiting assistant professor of anthropology, and James Bellis, associate professor of anthropology.
- \$18,600 from the American Heart Association Indiana chapter for research on properties of synthetic peptide analogs of protein C domains by Francis Castellino, dean of the College of Science and Kleiderer-Pezold professor of chemistry and biochemistry, and Mary Frances Prorok, postdoctoral research associate.
- \$15,000 from the National Aeronautics and Space Administration Lune Planetary Institute for research by Stephen Tegler, visiting faculty fellow in physics, and Terrance Rettig, professional specialist and concurrent associate professor of physics.
- \$10,000 from the American Heart Association Indiana chapter for research on structure-function relationships of protein C by Francis Castellino, dean of the College of Science and Kleiderer-Pezold professor of chemistry and biochemistry, and William Christiansen, graduate.

- \$90,000 from the National Science Foundation for optical studies of heterostructures by Malgorzata Dobrowolska-Furdyna, associate professor of physics; Jacek Furdyna, Marquez professor of physics; and others.
- \$89,659 from the National Institutes of Health for research on training in mental retardation by John Borkowski, McKenna professor of psychology, and Thomas Whitman, professor of psychology.
- \$88,000 from the National Science Foundation for research by Xavier Creary, Huisking professor of chemistry and biochemistry, on carbanion, carbocation, carbenic and electron transfer.

The Observer is the independent newspaper published by the students of the University of Notre Dame du Lac and Saint Mary's College. It does not necessarily reflect the policies of the administration of either institution. The news is reported as accurately and objectively as possible. Unsigned editorials represent the opinion of the majority of the Editor-in-Chief, Managing Editor, News Editor, Viewpoint Editor, Accent Editor, Photo Editor, Sports Editor, and Saint Mary's Editor. Commentaries, letters and Inside Columns present the views of the authors, and not necessarily those of The Observer. Viewpoint space is available to all members of the Notre Dame/Saint Mary's community and to all readers. The free expression of varying opinions through letters is encouraged.

VIEWPOINT

We're looking for a few good freshmen

Well now that you are finally here and having perhaps the best weekend of your life—funny how college applications and SATs suddenly seem so worthwhile—welcome to The Observer and Viewpoint.

Don't let all those apathetic upperclassmen fool you, Viewpoint hosts the most heated, intense debates in the entire Michiana regional area. You'll find everything and anything in our letters, columns and editorials. Some of the pieces may offend or please you, and some of them may even trigger such deep, dark impassioned emotions—you know the ones that no one ever admits to experiencing—that you will make it your sole duty in life to respond.

Regardless of what compels you, Viewpoint is dependent upon your involvement. So if you become too terribly nauseated by reading the incessant abortion and football commentaries—all time favorites for Notre Dame and Saint Mary's—don't be afraid to introduce something new. Trust me, you will be as popular as the Leperchaun, maybe even Lou.

Soon enough you'll be looking for Josh Ozersky's satire or Gary Caruso's Washington beat. Our Inside Column on page 2 offers unique student perspectives every day. Last year's editorials covered everything from AIDS awareness to investment in South Africa to the Grateful Dead. Viewpoint and The Observer provide too many interesting and diverse things for you to just sit back and follow the slothful ways of your predecessors.

The Observer is also a great place to work, especially Viewpoint, with some of the most interesting people Notre Dame and Saint Mary's have to offer. So if you like to write or draw, shoot photos or work on computers, or even sell a few ads, don't let the third floor of LaFortune scare you off.

Remember next week when the monotonous life of classes finally starts and the dining hall food begins to take its effects, that Viewpoint will always be here to interest and intrigue you. The Observer, Notre Dame and Saint Mary's need your enthusiasm, so please don't be afraid to share it with us.

Suzy Fry
 Viewpoint Editor

QUOTE OF THE DAY

“May the Force be with you!”

—George Lucas
Star Wars, 1977

Viewpoint department policy

Rules of the road and other stuff...

I All members of the Notre Dame and Saint Mary's community may submit columns, letters to the editor, quotes, poems or cartoons to the Viewpoint department of The Observer. Individuals not associated with the Notre Dame and Saint Mary's community are also welcome to submit, but preference is given to members of the University communities.

II All material submitted to the Viewpoint department becomes the property of The Observer. Any further use of these commentaries without the written consent of The Observer is prohibited. Not-for-profit organizations, those organizations which have a reciprocal-usage agreement and those organizations of which The Observer is a member may be granted permission to publish commentaries with the permission of the editor-in-chief or the permission of the managing editor and the Viewpoint editor.

III The Viewpoint department reserves the right to edit all commentaries submitted to the Viewpoint department. The Observer has no obligation to print commentaries submitted. Commentaries will not be printed if they are libelous or unintelligible or irrelevant as applied to interest of a particular issue on a local, national, or world interest on a particular issue, its extension of existing issues on the Viewpoint pages, and/or its role in fostering spirited and intelligent discussion. A disclaimer will appear with any letter deemed highly graphic, profane or discriminatory, yet nonetheless relevant. The disclaimer will appear at the beginning of the letter and will alert readers to the serious nature of the piece in question.

IV All commentaries submitted to The Observer must bear the signature of the author.

V Commentaries submitted as letters to the editor may not exceed three in number from

the same individual or organization within the same academic semester. There is no limit to the number of times an individual or organization may have their commentaries appear in print as columnists.

VI All commentaries printed in the Viewpoint section must be verified before being printed. Authors of all columns, letters to the editor, quotes, poems and cartoons must be notified before being published in The Observer.

VII Only those individuals authorized to speak as representatives for a group will be allowed to use the organization's name. In such cases, the primary author of the commentary is the individual(s), and the commentary is, in effect, only being co-signed by the organization.

VIII Commentaries which appear in the Viewpoint section may not have been printed previously in other newspapers, magazines or publications. In exceptions, the author of the previously printed material must give legal consent. Exceptions to this procedure are those organizations of which The Observer is a member, quotations used for commentaries and "Quote of the day." Syndicated columns also are excluded from this procedure.

IX The opinions expressed in the Viewpoint section are not necessarily those of the editorial board. House editorials appear in the Viewpoint section of The Observer. Regular columnists, those whose columns appear on a regular basis; guest columnists, those whose columns do not appear on a regular basis; letters to the editor; poems, quotes and cartoons are commentaries. Such status is determined by the Viewpoint editor in all incidences except house editorials. The House Editorial Guidelines and the Insta House Guidelines are included in the House Editorial Policy.

X Paid employees of The Observer are not permitted to have their commentaries ap-

pear in the Viewpoint section as letters to the editor. Regular columnists and members of the Viewpoint staff also are not eligible to have their commentaries appear in the Viewpoint section as letters to the editor. The status of such individuals is determined by the Viewpoint editor.

XI This policy must be approved by the editorial board and can be amended by a majority vote of the editorial board. All procedures not covered in this policy statement are left to the discretion of the Viewpoint editor. The procedures outlined in this policy apply only to the Viewpoint department of The Observer.

XII No commentaries of any kind will be printed in the Viewpoint section concerning any candidate for student government or hall office once the official campaign period has begun for that office. This ban on commentaries is to continue until the election for this position has been completed. The Observer reserves the right to comment on any candidate or issue it wishes throughout the campaign period. At any time, the editor-in-chief and the Viewpoint editor may suspend this article.

XIII This policy is available to the public during normal business hours and must be prominently displayed in the Viewpoint department of The Observer.

XIV The Viewpoint editor is responsible for editing all Inside Columns. The Inside Column contains views expressed by the author and are those of the author and not necessarily those of The Observer. The Inside Column is not to be used for self or activity promotion.

XV Letters to the editor may not exceed 350 words. The Viewpoint editor may shorten any letter regardless of length or deem it worthy of print in its entirety as an Opinion commentary, though the length of the Opinion commentary may not exceed 550 words.

“Letters to the editor may not exceed 350 words. The Viewpoint editor may shorten any letter regardless of length...”

ORIENTATION WEEKEND '94

NOTRE DAME

Guide to

TOBACCO POLICY

In accordance with an administrative directive issued before last school year, all buildings on the Notre Dame campus are smoke-free in their entirety. This ban extends to the seating area of Notre Dame Stadium. Chewing-tobacco is not expressly included among the substances prohibited indoors. Ash cans are provided outside most buildings for the convenience of smokers. Your cooperation is appreciated.

SAINT MARY'S COLLEGE

Notre Dame's sister school is located directly across South Bend's major north-south highway, U.S. 33/Business 31 (directly behind this panel on map). The schools offer an **exchange program** via which students from both institutions may take advantage of the opportunity to study on the neighboring institution's campus. Also, the schools cosponsor the crew, downhill skiing, golf, gymnastics, and sailing programs.

LAUNDRY SERVICE

Formerly available only to males and at the campus laundry service is now available to all students for a fee. A contract for \$92.00 services can be purchased for \$75.00 per semester without the contract, transaction amount charged to your student account. Identification complete with your account number, **Bundled laundry** is collected at your dormitory for you to pick up at the Laundry Distribution Center (directly below on map); the schedule of service is posted in your dorm. Other services include dry cleaning, tailoring/alterations, and

CAMPUS SECURITY

For your protection Notre Dame employs a staff of uniformed police officers who provide 24-hour foot and vehicular patrols on the campus property. Additionally, eighteen emergency call boxes are spread across campus. To contact the Security Building (directly below on map) from any campus phone, dial **x4444**. From 8:00 p.m. to 2:00 a.m. the SafeWalk program provides a free campus escort service; call **634-BLUE**.

Welcome and congratulations on choosing Notre Dame! While the orientation could be entirely comprehensive, this guide will highlight frequent questions, highlight some things you may want to know, and help you get your bearings on this rather large campus. Good luck!

DINING HALLS

Students who live in residence halls are automatically charged for 21 meals per week, regardless of how many of these meals are actually eaten. South Dining Hall (directly above on map) and North Dining Hall feature identical menus and the same hours of operation, which vary during finals and vacation weeks but otherwise are:

Breakfast.....	7:00 a.m. - 9:00 a.m.
Continental.....	9:00 a.m. - 10:00 a.m.
Lunch.....	11:00 a.m. - 1:30 p.m.
Dinner.....	4:45 p.m. - 6:45 p.m.

COMPUTER-USER CLUSTERS

To help complete homework Notre Dame features over 500 computers distributed among several locations. These clusters, which support **Macintosh and PC** platforms, are networked to several laser printers at each location which output work at no charge. Clusters can be found in the following buildings: Architecture, Computer/Math, DeBartolo, Fitzpatrick, Hayes-Healy, Hesburgh Library, LaFortune, Nieuwland Science, O'Shaughnessy, Pasquerilla Center, and Security.

POST OFFICE

Notre Dame has its own campus Post Office (directly above on map), which features a special mail slot for letters to be postmarked "Notre Dame, IN." All mail not dropped in this slot will be postmarked "South Bend, IN." Be forewarned: the usual long lines often prevent being helped at the counter in the 15 minutes between back-to-back classes.

Research: **BRENDAN REGAN**
Graphic Design: **BRENDAN REGAN**

STUDENT REGISTER

For those of you who are unfamiliar with the above term (upperclassmen included), it is the official name for what is more routinely and infamously known on campus as the **Dogbook**. This thin, bound black-and-white volume contains the photograph and brief biographical information each incoming freshman was requested to provide shortly after being admitted. Its reputation is for frequently being the sole basis for selecting one's date to dormitory-sponsored theme dances (also known as "SYR"s, for which one is "set-up") and formals.

ALCOHOL POLICY

According to **du Lac: Student Life Policies and Procedures**, "students are responsible for compliance with Indiana Criminal Law regarding alcohol consumption. The University will enter a private residence room for the purpose of enforcing Indiana laws if drinking in such a room becomes public in any way." Public is defined as that which extends beyond the privacy of the room. It clarifies: "No alcoholic beverages may be carried in open containers in the corridors or any other public area of the residence halls such as lounges or lobbies." So keep it in your room.

PARIETALS RULES

As a feature of its *in loco parentis* policy, Notre Dame enforces restrictions upon the dormitory hours of guests of the opposite gender. Beginning at 11:00 a.m. daily (except on football Saturdays, in which case it is 10:00 a.m.) and ending at midnight on Sunday through Thursday and 2:00 a.m. on Friday and Saturday, students enjoy unlimited visitation. Violations of these rules are considered serious, and can result in suspension or dismissal of the offender. Male dorms are marked on this map in blue text, female in red.

RE DAME

no charge, available to all 100 worth of per semester; counts will be location labels, are required. form and avail- tribution Center designated days available include summer storage.

PUBLIC TRANSPORTATION
Providing direct service to the U.P. Mall in Mishawaka and transfer service to most areas of South Bend, the city bus stops outside the **Library** (below on map) every half hour Monday-Friday from 5:31 a.m. until 6:31 p.m. and hourly from 7:20 to 9:20 p.m., and stops hourly on Saturday from 6:31 a.m. to 5:31 p.m. Service in this area, Route 7, is not provided on home football Saturdays. The fare is 60¢.

PROFESSIONAL BASEBALL
For seven years the **South Bend White Sox**—now Silver Hawks—have made downtown's Coveleski Stadium their home. The Class-A affiliate of the Chicago club, the local White Sox have featured the likes of Jason Bere and Carlton Fisk in their lineup. When the desire for seeing major-league action hits, Comiskey Park is a quick 88-mile jaunt on Interstate 90 (behind this panel on map). The exit for the friendly confines of Wrigley Field, home of the Cubs, is 12 miles further.

While no intro- answer some know, and help k!

ACTIVITIES NIGHT
A thorough opportunity to explore the wide range of campus organizations occurs **Sept. 7 from 7:00-10:00 p.m.** in the Joyce Athletic & Convocation Center. Student representatives from the various academic, athletic, media, musical, and political clubs will be stationed at booths arranged for your perusal to answer questions and register prospective members.

FOOTBALL TICKETS
All students are guaranteed the opportunity to purchase one season ticket apiece. The procedure is as follows: application cards will be in student mailslots the week before tickets go on sale. Bring this card with your student ID and cash or check for \$81.00 to the Joyce Athletic & Convocation Center. Be prepared to wait in a lengthy line; many students camp out overnight. Any person may submit up to four applications provided he or she also furnishes a matching student ID and payment for each of the applications. For freshmen, season tickets will be available on **Sept. 2 from 2:00-7:00.**

IDENTIFICATION CARD
Your **Student ID** is your ticket to the privileges and immunities granted to "Domers"; carry it with you at all times. Among the many instances it is required: eating at the dining halls, library services, registration, football and basketball games.

Notre Dame visiting der. ne D y y - d- n or denti- pink.

HOME FOOTBALL WEEKENDS
As you may have noticed by reading these panels, home football Saturdays are a slight departure from status quo in this area. Festivities and activities abound all weekend. This year's home games are: September 10 vs. Michigan; September 24 vs. Purdue; October 1 vs. Stanford; October 15 vs. Brigham Young; October 29 vs. Navy; November 19 vs. Air Force.

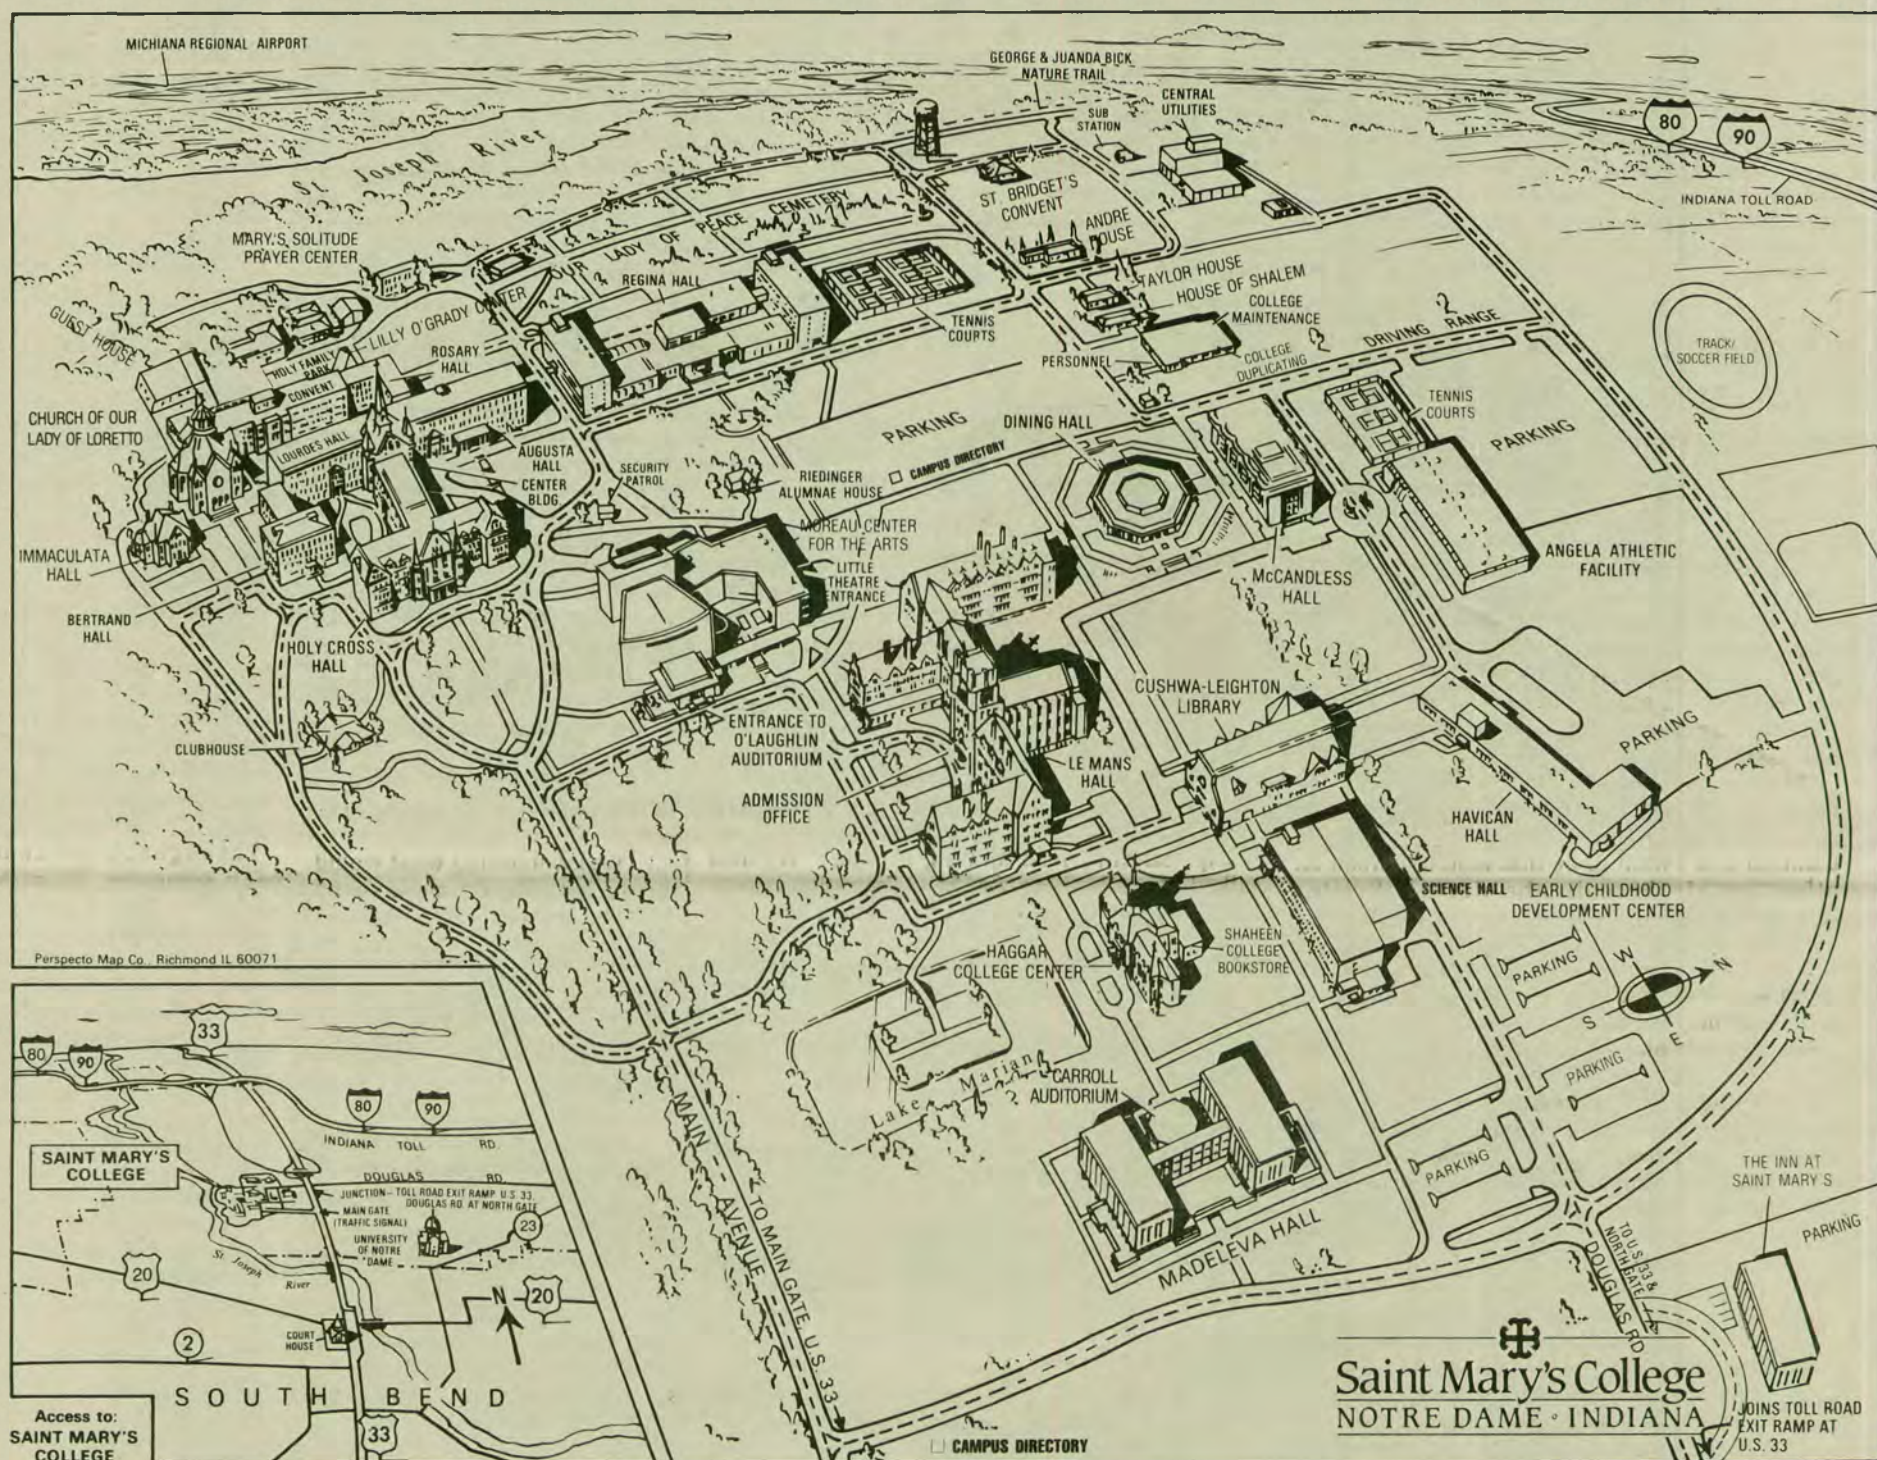

TIME ZONE
Twice annually, when America adjusts its clocks for Daylight Savings, Arizona, Hawaii, and regions of Indiana do not change; Notre Dame is located in such a region. South Bend keeps its clocks set to **Eastern Standard Time** year-round. Therefore, from spring through fall it is the same hour of the day here as in Chicago, whereas from fall through spring it is the same hour of the day here as in Detroit.

Guide to Saint Mary's College

NOTRE DAME • INDIANA

TOBACCO POLICY. The smoking policy at Saint Mary's permits smoking in student rooms with doors and transits closed as agreed upon by roommates. Students may also smoke in the vending areas of the residence halls. Smoking is prohibited in all other public areas in the residence halls as well as in the library, science hall, Haggar College Center and the administrative areas in LeMans Hall and Madaleva Hall.

SECURITY POLICE. The Saint Mary's security department provides 24-hour services to its students, faculty, and staff. In addition to vehicular and foot patrol, the officers also provide many other services to the College. Security offers an escort during the hours of darkness. For any student stranded off campus the security office also provides a service which will either send an officer or a cab to bring the student back to campus (students must reimburse security for cab fare). Call boxes are identifiable by blue emergency lights around the campus provide a direct line to security when students need assistance or help. To reach security call 284-5000, for emergencies dial 911 and for information dial 284-4000.

DINING HALL. All resident students are allowed unlimited access to the dining hall from 7:00 a.m. to 7:00 p.m. Monday through Friday. On weekends food service provides a continental breakfast, available from 9:00 a.m. to 10:30 a.m., brunch from 10:30 a.m. to 12:30 p.m., grill and salad bar entrees from 12:30 p.m. to 2:30

p.m., and dinner from 4:45 p.m. to 6:00 p.m. Special hours for football Saturdays will be posted in the dining hall.

ALCOHOL POLICY. Saint Mary's complies with Indiana State law and, therefore, students under the age of 21 are not permitted to possess or consume alcohol on campus. Students over the age of 21 are the only students permitted to consume alcohol on campus. Social gatherings with alcohol are permitted in student rooms as long as all the guests present are 21 years of age or older, alcoholic beverages remain in the room, and the event does not infringe upon the rights of others.

ACTIVITIES NIGHT. Want to become a member of a campus club or organization? Representatives from both Saint Mary's and Notre Dame organizations will be available to answer questions and sign up new members at the College's Activities Night. Angela Athletic Facility will host the annual event.

COMPUTER-USER CLUSTERS. Facing your first college term paper? Want to send e-mail to your friends on another campus? Saint Mary's computer lab provides these services and more in each of its main labs and six computer clusters on campus. The main Macintosh lab and IBM-compatible lab in the basement of LeMans Hall is open 24-hours with lab assistance and laser printers available from 7:30 a.m. to midnight, with extended operating hours during the latter half of the semester.

Computers are also located in the writing center, basement, and mezzanine of the library, room 232 of Madeleva, basement of Regina North, and in the science hall. Every student will receive an e-mail account and password at registration which she may access from any computer on campus, with special computers in the writing center being set aside specifically for e-mail.

SHUTTLE. United Limo provides shuttle services between the campus of Saint Mary's and Notre Dame beginning August 30. The shuttle stops at various points on both campuses approximately every 15 minutes Monday through Friday during daytime hours and every 30 minutes on evenings and weekends. The service is free during the day and costs 25 cents on evenings and weekends.

MALE VISITATION POLICY. Male visitors to Saint Mary's must be escorted at all times in the residence halls. Visitation hours are from 10:00 a.m. to midnight Monday through Thursday and 10:00 a.m. to 2:00 a.m. Friday and Saturday. Male guests are never permitted the College's tunnel system.

ANGELA ATHLETIC FACILITY. This recreational facility provides courts for tennis, basketball, volleyball and racquetball, as well as a nautilus and track. The facility is open from 8:00 a.m. to 11:00 p.m. Monday through Friday, from 9:00 a.m. to 11:00 p.m. on Saturday, and from noon to 11:00 p.m. on Sunday.

Helping Hands

The Notre Dame 'R.A.' is more than just a title on the door

By MARY GOOD

Accent Editor

When you arrived on campus you probably thought that you were trading your mother, big brother and buddies in for roommates and study groups. Not so. Just around the corner, down the hall or maybe right next door you will find a surrogate support group right behind the sign that reads, "Resident Assistant."

Your resident assistant, affectionately referred to as your "R.A.," is a senior who lives in your section and had committed himself or herself to being a counselor, friend and general resource for you and the other students in your dorm.

"For me, being an R.A. is a way to pay back my dorm for the three great years I have had in it and a way to gain another great year of experience while I am at it," Tyler Farmer of Morrissey Hall said.

"My sophomore year my R.A. was someone I really admired and I want to be that kind of person for other people here in the dorm," Kristen Rossigno, a fifth year senior and returning resident assistant in Pasquerilla East explained.

This initial interest in influencing life in the dorm was followed by a careful application and screening process that included numerous interviews and role-playing sessions.

For Rossigno, the process began with an application distributed by Residence Life that required a personal essay and three written recommendations from employers and professors. The next step was a series of ten interviews.

Rossigno first had an interview with her dorm rectress and then with the assistant rectress. She then interviewed individually with six different students that were acting resident assistants at the time after which she met with the entire hall staff. The final interview was with three acting resident assistants in which Rossigno was asked to do some role play to determine how she would handle certain situation ranging from roommate problems to intoxication to parietals violations. In the end, Rossigno was chosen as one of six out of approximately seventeen women who had applied for a resident assistant position.

Farmer went through a similar interviewing process before being selected as one of nine out of approximately twenty applicants for resident assistant in Morrissey. After the positions were filled and room selections were complete, resident assistants were strategically assigned to their sections, according to Farmer.

"They tried to match the personality of the R.A. to the personality of the section," Farmer said. The freshman personality of each section is yet to be shaped which Farmer looks forward to as an exciting challenge.

"The more time we [resident assistants] spend with the freshmen, the more we can help them learn about themselves and what we want Morrissey to be while we learn about ourselves as well," Farmer said. "The freshmen will help us shape what Notre Dame, or Morrissey in my case, will look like in the future."

For many resident assistants, being on the hall staff is a good opportunity for meeting new people and building strong relationships.

"Being an R.A. helps build leadership skills. It teaches you how to work together as a team with the hall staff and it is an opportunity for more interaction," Rossigno said. "It is a boost to get to know everyone."

Another person that resident assistants build a special relationship with is their hall rector or rectress.

"I have a great relationship with my rectress now, one you don't realize is possible when you see her just as an authority figure," Rossigno said.

Even though Farmer was very active in hall council in previous years, he has also noticed a new intensity in his relationship with his rector since he has taken a position.

Since resident assistants work together with rectors and rectresses to teach responsible living, there is a great deal of training involved.

The Observer/Scott Mendenhall
Elizabeth Reres, a Pasquerilla West resident assistant, helps freshmen Courtney Hynes and Julie Brubaker move into their dorm rooms.

The resident assistants for the 1994-95 academic year returned to campus on August 19 to begin training.

"The Morrissey Hall staff spent two days in the mellow, quiet, serene atmosphere of Moreau Seminary during our training," Farmer said.

"The nine R.A.s and our rector took turns leading conversations about the multifaceted nature of being a resident assistant. We talked about our roles as

disciplinarian, friend and big brother. We also talked about how we can be a figurative mirror for students, to help them learn about how others see them."

The Morrissey Hall staff also spent a considerable amount of time going over "Life in the Manor," a student written document that outlines the rules of Morrissey Hall. Farmer was a member of the three student committee that developed the book in 1993.

"In training we shared a lot about ourselves, talked about goal setting and team building, and we did a lot of bonding," Rossigno said.

Throughout the year, the Office of Residence Life schedules in-services once every month or two as part of their ongoing training, according to Rossigno. These sessions focus on a number of issues that both Residence Life and the resident assistants feel are important such as male-female relationships, AIDS and grief.

"Our orientation with Residence Life really put them on a down-to-earth level as people we can actually work with, not just those people way up in the Administration Building that get us in trouble," Rossigno said.

Discipline is indeed not only the job of those up in the Administration Building. It begins with the resident assistants which is where friendships can get sticky.

Although it seems backward, Farmer feels fortunate that most of his friends have graduated or moved off campus, however he knows from experience that friendships will survive his job as disciplinarian.

"An R.A. busted a group of us last year for parietals violation," Farmer explained. "At first we were all upset but he explained that if he gave us a break he would not be doing his job. We all gained respect for his dedication to the dorm."

"True friends will recognize that as an R.A. I have responsibilities that at times will come in conflict with their activities," Farmer said. "The disciplinary part of being an R.A. is not personal. Those that can separate this are true friends."

Good friendships are also developed among members of the hall staffs in addition to among student who live in each section.

"R.A.s develop strong relationships," Rossigno said. "We rely on each other for support and strength."

Students will find that drawing some of this support and strength will prove very satisfying for all. So feel confident that when the door labeled, "Resident Assistant," opens, a friendly, helpful, supportive face will be there to greet you.

Saint Mary's resident advisors serve as friends and role models

By MARY GOOD

Accent Editor

At Saint Mary's College, relationships between students and their resident advisors are great ways to fulfill the needs of both parties. While dorm residents are often looking for someone to give advice, friendship and answers to their general questions, resident advisors are looking to exercise their leadership skills and meet new people while they are at it.

"At the end of my sophomore year I felt that I wanted and needed to be more involved with the students and the school as a whole and I thought being an R.A. would be a good opportunity to do so," returning resident advisor Elizabeth Kernan of LeMans Hall said.

At the end of last year when many positions for campus involvement began to open up, senior Deb Sheedy of Augusta Hall began looking for her niche.

"I was wondering what would be the best way for me to spend my last year at Saint Mary's and I decided that being an

"I am used to just being me, but now I am the R.A."

-Deb Sheedy

R.A. would encompass everything from meeting new people to getting involved in campus activities," Sheedy said. "I was on LeMans Hall council and had worked with a lot of R.A.s and I really respected them."

These women both went through an in-depth screening process that began with a written application that asked why they were interested in becoming a resident advisor and what their qualifications were. They were required to submit three letters of recommendation, one from an acting resident advisor, one from a professor and one from another student. The next step was interviewing with resident advisors and role play.

"They put you in different situations to see how you would react and interact," Sheedy said.

Out of approximately 70 applicant, 45 were selected and returned to campus early to begin training.

Throughout the training process, the resident advisors woke up early and attended meetings all day on issues as involved as community development and as simple and necessary as fire safety, according to Sheedy. There was even a session on plumbing. Sheedy felt that the highlight of the week was an overnight camping trip that the hall staff took to Camp Millhouse that turned out to be a real bonding experience for those involved.

For Kernan who is a second-year resident advisor, the training was helpful but she also has the benefit of a year of first-hand experience to help her out.

"Now I know what to expect and I know how to work my schedule around the job," Kernan said. "Last year I never expected so many people to knock on my door."

Resident advisors answer their doors at all hours to help students who need something fixed in their room, need advice about which classes to register for, are having roommate problems, need to know how to get somewhere or are having personal crises.

"Being a resident advisor is a lot more responsibility than people think," Kernan said.

"As an R.A. you have the responsibility to watch and see if people are breaking the rules and that includes your friends too," Sheedy said. "I am used to just being me, but now I am The R.A."

Throughout the course of each semester, Saint Mary's resident advisors are required to plan five programs for their section, one a multi-cultural event, another educational, another an athletic activity, a social activity and a religious event, according to Kernan. The purpose of this is to help build community within each section.

To help carry the load and serve as a support group for the resident advisors are the residence hall directors and the Office of Residence Life.

"My relationship with Shea Powell who is the Residence Hall Director of McCandless where I worked last year, is great," Kernan explained. "She is young, was once an R.A. herself and is really supportive."

Regina Hall is the sister dorm to Augusta. Consequently they share a residence hall director, Colette Shaw, according to Sheedy.

The expectation for the Augusta resident advisors is that they would be self directed, but it is nice for them to know that Shaw is available when they need her, Sheedy said.

Living in a single may get lonely at times, according to Kernan, but it comes in handy at test time and the students in the section make up for the lack of a roommate.

"By being an R.A. I was always one of the first people notified about upcoming events and activities, so I really became aware of what was going on on the Saint Mary's campus," Kernan said.

"Being an R.A. has really helped me meet a lot of people and find out more about my school," Kernan added.

Although some students regard resident advisors solely as disciplinarians, most find them to also be friends and counselors.

FROSH - FORECAST

A look at how the freshman have fared this far during fall drills.

Kurt Bellisle (LB, 6-3, 220)
A little more speed than expected and solid play at linebacker at least postponed a move to the defensive line.

Corey Bennett (LB, 6-2, 225)
Great potential, but needs a little tinkering before he can be a big contributor.

Leon Blunt (WR, 5-10, 185)
An explosive and versatile athlete, could even be an emergency fill-in at quarterback.

Ivory Covington (DB, 5-11, 160)
Talented pass defender, but there probably won't be room this year in the secondary.

Jarvis Edlson (DB, 6-5, 210)
His lanky look reminds some of Irish All-American Bobby Taylor. If only he can play that way.

Ty Goode (WR, 6-1, 173)
With a depleted receiver corps, Goode was expected to challenge for playing time. So far, he hasn't.

Malcom Johnson (WR, 6-5, 193)
Just turned 17 years old today, but has shown some impressive skills in preseason.

Jeff Kramer (LB, 6-3, 215)
Arguably most impressive freshman in early workouts.

John McLaughlin (DB, 6-4, 225)
Moved around in preseason, playing outside linebacker, tight end and split end.

Paul Mickelbart (OL, 6-4, 265)
Looked solid so far, but will probably watch the season from the sidelines.

Bill Mitoulas (LB, 6-0, 210)
All attitude. Played on a primitive high school defense in Canada, but full of ambition to make the transition to Notre Dame's complex scheme.

Gus Ornstein (QB, 6-5, 210)
Challenging Tom Krug for the backup quarterback spot, but still getting feet wet.

Luke Petitgout (TE, 6-7, 260)
Not exactly the softest hands in the world, Petitgout will likely move to offensive tackle.

Corey Redder (LB, 6-2, 215)
Full of potential, but not full of playing time. At least for now.

Allen Rossum (DB, 5-9, 175)
Rhymes with 'awesome.' We'll see.

Jon Spickelmier (OL, 6-4, 250)
Looks like a lineman but still has a long way to go, also been working as No. 2 long snapper.

Clement Stokes (TB, 6-0, 200)
Brother of Irish cornerback Sim Stokes probably won't seem much time this year because of a deep backfield.

Larry Wright (ATH, 5-11, 190)
Played free safety, strong safety and tailback, looked strong running and catching the ball.

- JASON KELLY

The Observer/Eric Reuthling
Coach Chris Petrucelli likes what he has seen from during fall practice.

Frosh

continued from page 24

a versatile athlete who took some emergency snaps at quarterback, is the only freshman within reach of significant playing time.

"With the low numbers and the high injury rate, this would have been a year for them to play," Holtz said. "I just don't see that right now. It may change as the season goes on."

Playing time may be absent, but potential isn't.

Edison and Goode have proven to be worthy of their honors.

And quarterback Gus Ornstein and linebacker Bill

Mitoulas, among others, have been pleasant surprises.

Malcom Johnson, at 17 the baby of the bunch, has also been steady at wide receiver.

"He's the only guy who will go through Notre Dame, graduate and not be able to get a drink," Holtz joked.

But freshmen development is no laughing matter to Holtz.

Though many likely won't play important roles this season, he needs them to be ready when it's their turn.

"Don't be an impostor. Don't impersonate a football player," Holtz advised his young men.

"With the limited number of scholarships, there's nobody here who won't get an opportunity to play."

Eventually.

Page

continued from page 24

But right now soccer is not the only concern for Page. Getting accustomed to life on campus and living away from home has not been easy.

"It's been a difficult adjustment, moving from home and having to play soccer right away," she said.

"But it's a little different

Alan Page

because I have a lot of players around to help me adjust."

Cammie, who also considered Minnesota, Clemson, and the University of Washington, was convinced to attend Notre Dame after her recruiting visit.

"It was like one big family," she said.

Her father, however, was not a major factor in her decision.

"He's happy that I'm here," she said, "but I don't think he would have been angry or disappointed if I went anywhere else."

Alan Page will be on campus for the season opener next Saturday against Rutgers.

■ THE PLACES OF NOTRE DAME SPORTS

The Rock, Joyce ACC are Domer favorites

By the time you've read this you've probably already heard the word "tradition" fifty times since arriving at Notre Dame. Nowhere is Fighting Irish tradition more storied than in the university's athletic facilities. But knowing the legend of the four horseman well enough to recite backwards won't do you any good if you're tromping across campus to find the women's soccer match, a spot to shoot late night hoops.

Some practical information about various campus athletic facilities:

NOTRE DAME STADIUM

The student section is located in the northwest section of the stadium, with freshmen in the section nearest the endzone thanks to their last selection slot among the student body. Plans for expansion will allow twenty thousand more people to enjoy Notre Dame Saturdays in the stadium by the 1996 season.

JOYCE ATHLETIC AND CONVOCATION CENTER

The north dome of the 27-

year-old "JACC" is home to the Irish men's and women's basketball squads, as well as the Monogram Club and Notre Dame's trophy collection. The south dome serves as the hockey rink with a capacity of 4,000. It also has a weight room open to students and an indoor track which is often transformed into volleyball and basketball courts. Rolfs Aquatic Center is located just behind the JACC.

LOFTUS SPORTS COMPLEX

Arguably the most impressive of the university's newest athletic facilities, Loftus is open to students by primarily used by varsity athletes. Loftus holds the 8,000-square foot Haggar Fitness Complex as well as Meyo field, a full-size Astro Turf football field, and the one-fifth mile Meyo Track.

THE ROCKNE MEMORIAL

This building on the end of South Quad offers the majority of fitness opportunities for students and faculty. The facilities included in "the Rock" include a swimming pool, basketball

courts, racquetball courts, a weight room, and dance and aerobic rooms.

The Rock is also home to many of the freshman physical

education classes.

STEPAN FIELDS

Marking the northeast corner of campus behind the domed Stepan Center, these large plots

of land serve as playing fields for many of Notre Dame's interhall sports as well as frequent pick-up games of touch football and soccer.

ATTENTION ALL STUDENTS!!!

DO YOU WANT TO IMPRESS YOUR FRIENDS AND FAMILY BY TELLING THEM YOU VOLUNTEER IN THE ADMISSIONS OFFICE AT NOTRE DAME? HERE'S YOUR CHANCE TO HAVE FUN AND ASSIST ADMISSIONS AT THE SAME TIME. THIS VOLUNTEER PROGRAM IS RESPONSIBLE FOR SEVERAL MAJOR RECRUITMENT PROJECTS, AND WE NEED STUDENT VOLUNTEERS FOR THE UPCOMING YEAR. CAMPUS MINISTRY...

...CONSIDERATIONS

**HEY FIRST YEAR STUDENTS AND TRANSFERS!
WELCOME TO THE CONSTRUCTION PROJECT**
We Need Your Help

As you walk around campus, especially near the football stadium, you might notice construction in process. During the past few decades, the number of buildings constructed on campus has increased dramatically. Now, there are plans for expanding the football stadium and plans for building a few more residence halls.

It might seem that the University of Notre Dame is like one big construction project.

Notre Dame is under construction. But, the most important and long lasting construction which is taking place is not with bricks and mortar, as important as buildings and facilities are. There is a "construction process" of sorts which Notre Dame was meant to be a part of since it was founded by the Holy Cross priests and brothers in 1842. It is a construction process that has been going on since Jesus walked this earth. The blue-print for this construction process is, "Love one another as I have loved you." Its about building a world which promotes the dignity of each human being. But, in order for this to take place, we need to keep building a Notre Dame based on the love lived by Jesus.

A large amount of construction has taken place. We can be thankful that we, in 1994, are not building this Notre Dame from scratch. There is the wisdom and generosity of many people tied up in this place, people who have spent their lives trying to serve others. There is a foundation on which to build.

There is a large amount of construction that is taking place. There are people who are here now, students, teachers, rectors and others who pray together, in their halls or in the Basilica. There are groups of students who reflect together, in small groups, on what God is calling them to in "Communities N.D." all over campus. There are people who have chosen to be with those who suffer in order to serve them and learn from them at the Center for the Homeless and other places. There are people who gather together to support and challenge each other in matters of faith through retreats like the Notre Dame Encounter and weekly meetings in the Stanford-Keenan Chapel. There are people who have chosen to love each other and to be honest with each other. There are people who help us see that the world is bigger than Notre Dame

and that Notre Dame is called to be in that world, serving its people.

A large amount of construction needs to take place. Notre Dame is not a finished product. The construction process will continue, God willing.

We need you all. You do not have to lay bricks or pour cement (unless you really really want to). You do not even have to be the smartest person in the world. You do not have to be great looking. You do not have to be perfect, whatever that is. Come as your are.

Ultimately, this construction project is in the hands of God.

We do not know exactly what it will look like when it's finished, but we believe that it will be something very good.

Fr. Bob Dowd, C.S.C.

P.S.- All are welcome to stop in at the Campus Ministry Office at 103 Hesburgh Library or at Badin Hall to talk or just to grab some M & Ms.

■ THE PEOPLE OF NOTRE DAME SPORTS

Rosenthal, Beauchamp are leaders of the club

The student athletes are not the only people involved with sports on the campus at the University of Notre Dame. Behind the scenes stand the men and women who organize events, control television contracts, and even run interhall sports.

Here's a look at some of the people that keep Notre Dame athletics running smoothly.

Rev. E. William Beauchamp, C.S.C.—Executive Vice President: A member of the NCAA's Olympic Sports Liaison Committee, Beauchamp has been a constant push for reform in intercollegiate athletics.

He oversees every sports decision made at the University of Notre Dame, and he handles the press when the university deals with the hiring and firing of coaches.

Beauchamp has been a part of the Notre Dame family since 1977.

Dick Rosenthal—Athletic Director: After working for 25 years as a very successful banker, Rosenthal came to Notre Dame in 1987 with the intentions of making the school competitive on a national level in all sports.

Since taking over as athletic director, Rosenthal has seen drastic improvements in the caliber of play of many Irish Olympic sport teams. For instance, the baseball team has competed in the NCAA tournament in each of the last three years, the women's basketball team has made the NCAA tournament in two of its last three seasons, and the men's tennis team was runner-up for the national championship in 1992.

In addition, Rosenthal has been instrumental in bringing the national spotlight upon the Golden Dome. He consummated the \$35 million deal to give NBC the rights to televise every Irish home football game. He recently showcased Notre Dame as the host of the 1994 Division I men's tennis championships.

Despite all the positive hype that he attempts to place on the university's shoulders, sometimes Rosenthal's decisions do not go over so well. For example, his motion to cancel the wrestling program in 1992 has been seen as very controversial. But that is to be expected when you are in charge of one of the nation's most highly touted athletic programs.

Missy Conboy—Associate Athletic Director: Probably one of the most important positions with the Irish staff, Conboy plays the role of legal liaison to the NCAA. She is a member of the executive committee of the National Association of Athletic Compliance Coordinators and has recently joined the NCAA's Interpretation Committee.

Conboy was a 1982 graduate of Notre Dame and has worked with the university since 1987.

Fencing's DeCicco is the dean of Irish coaches

Here's a little trivia for you. Can you name the two Irish coaches who have won national championships in the past six years?

Well, okay, Lou Holtz is the easy one. But who would have guessed that the other would be Mike DeCicco, Notre Dame's fencing coach, who led his team to a national championship this past spring.

Mike DeCicco

The dean of Notre Dame coaches, DeCicco holds a career winning percentage of nearly .950 since taking the reins in 1962. He will enter his 33rd season this year.

Besides last year's triumph as Irish head coach, DeCicco has captured national championships in 1977, 1978, and 1986, and has produced over 30 All-Americans.

Although she has only been at Notre Dame for seven seasons, Muffet McGraw has established

a reputation for being one of the nation's most respected women's basketball coaches.

She will enter her eighth season as head coach after leading the Irish to two NCAA berths in the past three years.

In her seven seasons, McGraw has had only one season where her team did not post a .500 record.

"This is someplace where I think we can have everything," McGraw says. "We have been ranked in the top 20. I think we can go to the Final Four. I think we can be national champions. And that's my goal."

A national championship is every coach's goal, and men's tennis coach Bob Bayliss is no different. In 1992, he led his team to a second place finish in the nation, succeeding in placing Notre Dame on the map of tennis greatness.

Bayliss joined the Irish coaching staff in 1988, and has consistently raised his winning percentage over the past six years.

Largely because of Bayliss, Notre Dame has become a genuine contender for the national

championship for some time to come. This past year, Notre Dame once again proved its highly regarded tennis reputation by hosting the Division I Championships.

The latest addition to the

Irish coaching family is Paul Mainieri. Hewill replace Pat Murphy as head baseball coach. He has been head coach at the Air Force Academy previous to his move to Notre Dame.

Powlus' elbow injury is nothing new

Tendonitis will force soph QB to miss today's scrimmage

Observer Staff Report

Notre Dame quarterback Ron Powlus—he of the twice broken collarbone and dozens of rumored ailments—is injured. For real, this time.

He has tendonitis in his elbow, serious enough to sideline the sophomore for today's scrimmage, the final one before next week's season opener against Northwestern.

And maybe all season. At least that's what head coach Lou Holtz told a luncheon

audience this week, noting that Powlus had only thrown twice in the last ten days because of the injury.

But a team of National Football League physicians examined Powlus on Thursday and proclaimed him able to play this season.

His high school coach, George Curry, said Powlus played through similar problems during his prep career.

"He's throwing a little differently," Holtz said. "Coach Curry said this is not abnormal for

him. He always fights through it. He thinks that Ron will be OK."

Reassuring words for Irish fans who have waited more than a year for the debut of the phenom, who missed his entire freshman season because of a broken collarbone.

Sophomore Tom Krug, freshman Gus Ornstein and possibly freshman Leon Blunt—listed as

a wide receiver—are the understudies.

Krug would likely get the first chance to start in Powlus' absence, though Holtz expressed displeasure about the backup quarterbacks, hinting that nobody had solidified the situation.

One thing is certain: Next week against Northwestern, Notre Dame will start a quarterback who has never played a college game.

Photo courtesy of Notre Dame Sports info Lou Holtz had given two sides to Powlus' injury.

Classifieds will begin running Tuesday, August 30, 1994.

■ SAINT MARY'S

Belles in early stage of fall drills

Transfer of Prosser key for volleyball

By JENNIFER LEWIS
Saint Mary's Sports Editor

It's the beginning of another encouraging season for the Saint Mary's soccer and volleyball teams.

Today is officially the third day of tryouts. Both teams are young this year and are hoping for new talent, with volleyball coach Julie Schroeder-Biek, and soccer coach Larry Patterson viewing a number of per-

spective starters.

There are fifteen freshman and one junior transfer student, Kelly Prosser, trying out for twelve positions on the Belles volleyball team which returned only one starter from last year.

Prosser previously played for South Western College. She decided to come to Saint Mary's after scrimmaging against the Belle's last year and has worked volleyball camps this summer with Schroeder-Biek.

"Prosser is very skilled," Schroeder-Biek said. "She will help our program a great deal."

The practices consist of skill testing, conditioning, agility runs, and basic volleyball drills. "I thought the practice would

be more difficult, but it was a fun time," freshman Melissa Lange said.

"Practice is tough enough so that you can't slack off," freshman Meg Winkler said.

The soccer team is struggling through hour and a half double sessions.

Last year the Belles soccer team consisted of eighteen women. While no one was cut, many women drop out during the tryout process. Currently there are nine freshman trying out this week and no transfer students. There are only two seniors on the squad.

"We are going to try and put the best team on the field that we can," Patterson said.

■ SPORTS BRIEFS

RecSports will be sponsoring a Biathlon on Saturday, September 3 at 10:30 p.m. It will consist of a 1/2 mile swim plus a 2 mile run. The event takes place at St. Joe Beach. Register in advance at RecSports. There will be individual or team competition in both varsity and non-varsity divisions. No fee. Call RecSports 1-6100.

The information meeting for a Scuba Diving course will be Wednesday, September 7 at 6:30 p.m. in Rockne Rm 218. There will be seven classrooms and pool sessions beginning Sept. 11. Completion of course results in YMCA certification. Info call RecSports.

You can root at Notre Dame if you. . .

DuLac, that being the official handbook of Notre Dame students, will offer numerous helpful hints for freshman as they begin their experiences under the dome.

It does offer such insights as the prohibition against carrying stun guns or a complete description of the Honor Code, (huh).

But what it can't tell you is the intricacies of being a Notre Dame sports fan. Here is an abbreviated version. (A complete list can be purchased in The Bookstore for the tidy sum of \$53.79.)

Be a Poor Winner. . . Irish fans have demonstrated numerous times over the course of history a fine attitude towards losing. If, say, a football game is lost, most students show good coping skills. Player bashing is voiced only in private, post-game tailgaters run short, and studying becomes top priority on Saturday night.

But a football win seems to follow a different trend. Take, for example, a typical conversation between a Notre Dame and a Michigan fan after last year's Irish upset in Ann Arbor.

Michigan student: "Ya, you guys just out-played us."

Notre Dame student: "No, we didn't out-play you, we killed you! Gary Moeller is a loser, Tyrone Wheatley sucks. And your school is second rate. I'm laughing right, now. But not just at you, but your whole stupid school, your stupid state and that sorry attempt at a football team you field."

Punches are soon thrown, sometimes sirens follow, and an occasional arrest report is filled out. Gracious winners all the way to the cell.

Laugh at the heirarchy. . . The big wigs that run the athletic department must be looked in a certain light. You have to love them for their dedication but hate them because they're evil.

It helps to look at the biggest names as characters from The Simpsons.

Lou Holtz is Mr. Burns and Athletic Director Dick Rosenthal and Executive Vice-President Bill Beauchamp are both Smithers. Once you stop listening to what they say, the whole group is rather humorous.

Take yourself too seriously. . . In-interhall sports are friendly competition. That's the way DuLac sees it but that's far from the truth. Even a sport like women's interhall soccer is life or death. Ask girls from Badin Hall, the Buffalo Bills of interhall athletics.

Speak the lingo. . . If you're going to fit in you have to know the terminology. The Joyce Center is "The JACC." There's also "The Rock." And unless your hoping for a job with public relations, do not call the basketball arena "The Thunderdome"

Know it all. . . It seems everyone at Notre Dame does, so why shouldn't you?

George Dohrmann
Sports Editor

■ FOOTBALL

Frosh struggle to make impact

By JASON KELLY
Associate Sports Editor

Got some Goode news. But first, let's be Blunt. Notre Dame's freshman football players weren't exactly overwhelmed with praise when they signed last February, even from the man who hired them.

But when they arrived in early August to begin their initiation, they impressed even their hard-to-please boss.

With attitude, not necessarily ability.

"This team has more personality than any team I've had as freshmen," head coach Lou Holtz said after his first session with his new group. "All of them say what's on their mind. They're not intimidated by me."

They are an eclectic, if not exceptional, bunch.

There's a Jewish quarterback and a linebacker from Canada. There's even a baby-faced wide receiver who just turned 17 years old—today.

Notre Dame's freshmen

lead the nation in oddities.

But not in accolades. Only two of the 19 newcomers were named to high school All-America teams.

Wide receiver Ty Goode and defensive back Jarvis Edison were part of the prestigious Parade All-American squad.

Everyone else arrived without fanfare.

Immediate impact players are few, but most have been impressive.

Wide receiver Leon Blunt,

see FROSH / page 16

The Observer/Kyle Kusek
WR Ty Goode was the most highly touted freshman.

■ WOMEN'S SOCCER

The Next Page

Cammie Page handles the ball during a scrimmage last Thursday.

The Observer/Eric Reuthling

Famous father will be tough act to follow

By BRYAN CONNOLLY
Sports Writer

Freshman orientation weekend will introduce many things to Cammie Page, but an introduction to Notre Dame it is not.

The 5' 11" member of the women's soccer team has been engulfed by the Notre Dame family since birth. Her father, Minnesota State Supreme Court Justice Alan Page, is a 1967 graduate of Notre Dame and a 1966 consensus All-American defensive end.

The senior Page, who was inducted into the Notre Dame Hall of Fame in 1993, was the first defensive player in National Football League history to be named Most Valuable Player and he is a member of the Professional Football Hall of Fame.

Cammie's accomplishments, too, are certainly not unimpressive. She was an All-State soccer player for three years at Minnehaha Academy in Minneapolis. She was also All-Conference in track and basketball and a member of the Minnesota State Select Soccer Team.

However, she has a big challenge ahead of her if she hopes to make a significant impact on the team. Last season's squad lost only three games, two of which came at the hands of the top two teams in the nation. This year's team, which is currently ranked seventh by Soccer America, lost only two starters from last year's team.

"Cammie's been doing quite well," said Irish head coach Chris Petrucelli. "With her we see a great deal of potential and a great deal of athletic ability."
