Mass for P. Viviano's
mother, Tuesday, in Dil-
lon Hall.

For The Spanish "Rebels."

Under the auspices of the La Raza Club, Father O'Hara will offer Mass Tuesday morning at 6:25 in the main church for all those who have sacrificed their lives for just government in Spain. Members of the Club and friends of Spain and of true liberty should attend the Mass.

October For Mary.

In your religious survey, soon to be published, you handled this question: "Have you developed a personal love of Our Lady?" Here are some typical answers:

"Yes, for she is the symbol of the University and is the universal mother. My own mother died when I was about 9."

"Yes, I have. I feel that she is a personal protector of all the students here."

"She is my chief intercessor in Heaven."

"That has been the biggest improvement since I entered Notre Dame."

"If Mary asks Our Lord, He will not refuse. If it is for our good, Our Mother will help us."

"Who wouldn't at Notre Dame?"

"I never said the Rosary before I came here. I mean to continue a resolution of daily Rosary and daily visits to the Grotto."

"No Notre Dame man could feel apart from her, I'm sure."

"I say a Hail Mary every time I look at the statue on the Dome."

"Through the Rosary and the Memorare."

"I turn to her in moments of despair."

"She is a listening friend in need, and a friend in success."

"She is the ideal woman, the best for young men to follow."

"I've developed a deep-rooted love for her by these four years of daily visits to the Grotto."

"She is the mother of the Notre Dame family, and I try to love her as any son should love his mother."

"I wouldn't be a true Notre Dame man if I failed to possess this."

"Notre Dame has made me realize how wonderful 'Notre Dame' really is."

"The mention of her means love, chastity, and a true wife and mother."

"I try to be her child and ask her to be my mother."

"It's the finest, noblest thing in my life. Notre Dame fostered that love."

"Yes, the daily Rosary is a family affair whether we're at home or separated."

"Practically all my prayers are directed to God in honor of Our Lady."

"I surely have. I can speak to the Blessed Virgin just as I would to my mother."

October and May are Our Lady's two special months of the year. Happily, one of the months comes at the opening of the schoolyear, the other, at its close. October is dedicated to honoring Our Lady through her holy rosary. Do you know any other instrument of prayer that has brought more graces upon mankind?

This month deepen your personal love for Our Lady by saying the beads daily, by offering your Holy Communions, and by making many periods of adoration to please her. Don't be afraid! If you please her, you cannot help but please her Son!

Try this: go to the Grotto or to Rosary devotions at 5:10 in the evening and say the beads, not only with your lips, but straight from your heart. Then see if you won't repeat this ten-minute devotion every day of the month.
