THE BENGAL MISSIONS NEED  
YOUR DIME  
COME ONE, COME ALL  
DEAR GENTS  
TEN CENTS.

## DEAR FATHER FRANK:

An old adage has it that bad pennies come home to roset. Naturally, then, when a couple of Notre Dame men find themselves in a real jam, they turn instinctively home-ward. . . . A squad of Holy Cross men has been detailed, as you know, to take care of the apostolate among the aborigines of Banca diocese. The work progresses year by year and at present there are eight established missions exclusively devoted to the conversion of the aboriginal tribes of Mynensingh district. So far twelve thousand Garos have been received into the Church. . . . This "parish" dedicated to Saint Theresà comprises 150 square miles of Garo jungle, bristling with Garo souls, washed and unwashed. To date 2400 have been lured away from paganism and formally adopted by the Little Flower. . . . But recently the mission plant, our pride and joy, went down for the short count. A howling cyclone jumped the fence, completely wrecked the school and decapitated the Sisters' dispensary. . . . (to be continued later).

## FR. WENNINGER MASS TOMORROW

Father Charles Miltner, Dean of the A. B. School, and closest personal friend of the late Dean of Science will sing a Month's Mini Requiem Mass tomorrow at 6:30 in Sacred Heart Church for Father Wenninger's soul. . . . The Mass was requested by the faculty and students of the Science College and they will assist in a body. . . . Let the members of the Academy of Science and every science student leave his own hall tomorrow in ample time for the beginning of the High Mass. There will, of course, be ample facilities for confession and Holy Communion.
