

Want A Job?

"Wanted; A Job!" is a pamphlet prepared by a group of business and industrial personnel and employment officers of several large corporations. It contains a statement of personal characteristics which they judge necessary for job success.

Written especially for college men, it has value not only for seniors but for all classes. Here are the qualities which their combined wisdom dictates as necessary.

- | | |
|----------------------|---|
| 1. Character | 6. Getting along with people |
| 2. Enjoyment of work | 7. Health |
| 3. Initiative | 8. Appearance and manner |
| 4. Mental alertness | 9. Ambition and objective |
| 5. Judgment | 10. Social and Community responsibility |

Reading the pamphlet, one sees that several of these qualities can be developed by a virile Catholic life. Whole-hearted cooperation with N.D.'s program, scholastic, spiritual and physical, can and will produce a graduate with most of the qualities stressed as necessary by these employment experts.

As parts are quoted in later Bulletins, you will see these job-getting and job-holding qualities can't be developed by loafing and cheating, by seeing how much effort can be avoided or by cultivating a cynical, whining or rebellious attitude.

Check yourself on these qualities now. How will you rate at your graduation?

Important For Your Health.

In view of the fact that an influenza epidemic seems to be in progress, the Notre Dame Board of Health suggests the following precautions to the student body:

1. Avoid crowds (especially theatres) as much as possible.
2. Report to the infirmary immediately when you feel a cold or cold symptoms starting.
3. Dress warmly. Keep the body temperature at a level and do not become chilled.
4. When coughing or sneezing hold a handkerchief over your mouth and nose.
5. Drink plenty of liquids.
6. If you have a pain in the abdomen, do not take a laxative.
7. Get plenty of rest. Do not become excessively fatigued.
8. Get some outdoor exercise everyday.
9. Remain on campus as much as possible.
