EASTER DUTY

Baby Needs Prayers

"Dear Father: Guess you just must be wondering what happened to us. We are still here, but there are four of us now. The young man was born April 24.

"Our little girl is becoming quite a lady, She is now thirteen months. She has really given us a lot of worry you see she suffered a brain injury at birth. She is not able to sit up by herself yet, nor crawl around. She had very poor control of her arms. Needless to say, it concerns us terrifically.

"So would you please ask the fellows at school to offer up some prayers for her, that she will be all right. Please offer some prayers at the Grotto". (A Grad of '47)
