## Paul Hoffman, ERP Director, To Speak at Commencement

Paul G. Hoffman, newly-appointed Director of the European Recovery Program, will deliver the principal address at commencement exercises at the University of Notre Dame on Sunday, June 6, it was announced on May 5 by the Rev. John J. Cavanaugh, C.S.C., president.

Father Cavanaugh announced simultaneously that the Most Reverend Richard J. Cushing, D.D., L.L.D., Archbishop of Boston, Mass., will deliver the Baccalaureate address on Commencement Sunday. The Most Reverend John F. Noll, Bishop of Fort Wayne, Ind., will celebrate the Baccalaureate Mass.

Mr. Hoffman and Archbishop Cushing will receive LL.D.'s at the Commencement. Roy J. Deferrari, secretary general at Catholic University of America; William J. Corbett, president of C. W. Marks Shoe Co. and member of the Board of Lay Trustees; and Vincent J. Shaefer, General Electric research chemist widely known for his successful experiments with "artificial weather," will also be awarded LL.D.'s.

### Resigns as Studebaker President

Mr. Hoffman, who resigned his post as President of the Studebaker Corporation in South Bend to accept his new duties, holds one of the most important positions in the nation as he is charged with the responsibility of supervising the distribution of aid from the United States to rebuild the war-stricken countries of Europe.

Mr. Hoffman began his spectacular climb to become one of the nation's most prominent industrial leaders in 1911, when he became an automobile salesman for the Studebaker Corporation in Los Angeles. After four years in that capacity, he was named Sales Manager of the Los Angeles Branch of the Studebaker Corporation in 1915, and two years later had advanced to the position of Distributing Branch Manager. He purchased the Los Angeles retail branch in 1919.

It took only fourteen years for Mr. Hoffman to rise from automobile salesman to an administrative position in the Studebaker Corporation. In 1925 he was appointed

Vice-President of the organization and ten years later was elevated to the presidency.

Even before his appointment as Director of the European Recovery Program, Mr. Hoffman for many years had been active in the nation's affairs. He has served as Chairman of the Board of Trustees of the Committee for Economic Development, Chairman of the Automotive Safety Foundation, Honorary Chairman of the United China Relief, a member of President Truman's Commission on Foreign Aid and a member of the Business Advisory Council of the United States Department of Commerce.

### Held Many Positions

Author of "The Seven Roads to Safety" in 1939, the prominent automobile manufacturer also has served as Director and Vice-President of the Automobile Manufacturers Association and is a member of the Visitors Committee of the Department of Government at Harvard University. He is a Director of the Federal Reserve Bank of Chicago, the New York Life Insurance Company, the United Air Lines, the Encyclopedia Britannica and Encyclopedia Britannica Films, and the Chicago Corporation.

Archbishop Cushing, after receiving his early education at Boston College high school and Boston College, entered St. John's Seminary at Brighton, Mass., for his religious training leading to the priesthood. He was ordained into the Catholic priesthood on May 26, 1921.

After his ordination, the present Archbishop was active in parish work in the Boston area and at one time during his career gained considerable prominence as Director of the Society for Propagation of the Faith in the Archdiocese of Boston. He was consecrated Auxiliary Bishop of Boston and Titular Bishop of Mela in 1939, and was elevated to his post as Archbishop of Boston in 1944.

Archbishop Cushing, former pastor of Sacred Heart Church in Newton Centre, Mass., is a prominent writer on the missions and on religious, social and moral problems. He is a Grand Knight of the Cross and a Knight of St. Hubert of Lorraine.

# The UNIVERSITY TODAY

By Edward A. Fischer, '37

SPRING FEVER didn't have much of a chance as a rash of dances, speakers' programs, and assorted activities broke out on the campus during the past month. Everyone was hurrying to complete one more project before the end of the school year.

A NEW MAGAZINE, entitled *Notre Dame*, is being edited here. First copies of the 24-page quarterly will roll from the press in about a month. The magazine, free to alumni and friends of the university, will be filled with human interest stories and feature articles on the little-publicized phases of University life.

THE LAYMEN'S RETREAT will be held from 8:30 p.m., Aug. 19, until the end of the Communion breakfast Aug. 22, according to the Rev. Michael A. Foran, C.S.C., director of retreats at Notre Dame. The practice of an annual week-end retreat on the campus was started here in 1918.

THE SIXTIETH ANNIVERSARY of his final profession in the Congregation of Holy Cross was celebrated by Brother Angelus Dolan, C.S.C., here, March 19. At 86 he is the oldest Brother in the United States Province of Brothers. For 40 years he canvassed for *The Ave Maria* magazine, covering the United States, Australia, and Canada. Alumni will remember him as "Brother Dome," a title he acquired when guestmaster of the University for many years.

WAGNERIAN SOPRANO Helen Traubel was guest artist of the South Bend Symphony orchestra during a concert May 7 at Notre Dame.

THIRTEENTH ANNUAL conference of the Indiana College English Association was held here April 30 and May 1.

RAPID EXPANSION of the University library has made necessary the creation of an Acquisition Department headed by Assistant Librarian Louis A. Kenney, former assistant librarian at the University of Illinois. The library, which lists nearly 300,000 volumes, is growing at a rate of more than 1,000 volumes a month.

THE NEXT GENERATION of scientists may be of inferior quality because of a scarcity of competent scientific instructors, the Rev. Philip S. Moore, C.S.C., dean of the Graduate School, told the Advisory Council for Science and Engineering during a meeting here April 24 and 25. While student rosters have increased 80 per cent, faculties have increased only 20 per cent, Father Moore pointed out. In addition to this lack in quantity there is a lack in quality because government and industry are drawing some of the best men away from the universities.

The Rev. John Cavanaugh, C.S.C., president of Notre Dame, told the council that "just now it almost seems that the government is deliberately undermining the one institution—the privately controlled religious school—that is the staunchest defender of the principles that give it vitality and insure its future."

After stressing that the very roots of democracy are based on religion, Father Cavanaugh pointed out that the effects of government subsidy of education eventually will

mean the virtual disappearance of many of the nation's private schools which are producing morally responsible leaders embodied with the training to preserve this democracy.

During the meeting, members of the Advisory Council inspected the laboratories in the Department of Metallurgy at Notre Dame and heard Dr. Edward G. Mahin, head of the department, review research being conducted in the laboratories. Prof. James A. Reyniers, Director of the Laboratories of Bacteriology at Notre Dame (LO-BUND) reported on the latest bills introduced in Congress for the establishment of a National Science Foundation and the importance of such a foundation for Notre Dame. The Rev. John J. Burke, C.S.C., business manager of Notre Dame, discussed the various problems of business management of research.

The Advisory Council, which meets semi-annually to discuss expansion of research at Notre Dame, has as its chairman Edgar Kobak, president of the Mutual Broadcasting System. The vice-chairman is Bradley Dewey, president of Dewey and Almy Chemical Co., Cambridge, Mass.

Other members are: Britton I. Budd, president of the Public Service Co. of Northern Illinois, Chicago; W. S. Calcott, assistant chemical director of the E. I. Du Pont de Nemours & Co., Inc., Wilmington, Del.; M. E. Coyle, executive vice-president, General Motors Corp., Detroit; James C. Daley, president of the Jefferson Electric Co., Bellwood, Ill.; William Feeley, president of the Great Lakes Dredge & Dock Co., Chicago; William H. Harrison, vice-president of the American Telephone and Telegraph Co., New York; Thomas Pangborn, president of

Rev. Philip S. Moore, C.S.C., dean of the graduate school, shown with Rev. Gerald B. Phelan, Ph.D., director of the Mediaeval Institute, received an honorary Doctor of Laws degree from St. Mary's College, Oakland, Calif., at a special convocation on April 3. He also spoke at the Los Angeles Club's UND Night observance while in California.

the Pangborn Corp., Hagerstown, Md.; Peter C. Reilly, president of the Reilly Tar and Chemical Corp., Indianapolis; Arthur J. Schmitt, president of the American Phenolic Corp., Cicero, Ill.; Oliver Smalley, president, Mechanite Metal Corp., Cleveland, O.; Leland Standford, vice-president of the Sinclair Refining Co., New York; Harold S. Vance, president and chairman of the board of the Studebaker Corp., South Bend, and Dr. Albert F. Zahm, occupant of the Guggenheim Chair of Aviation, Washington, D. C.

A TRIBUTE to the work of Catholic missionaries in China was given by Hallett Abend, for 16 years Chief Far Eastern Correspondent for the NEW YORK TIMES, in an interview following a lecture in South Bend. Mr. Abend, a Protestant, said that more than 2,500,000 Chinese Catholics testify to the fine work of several thousand Catholic missionaries.

Chinese Communists have always been controlled by Moscow. Mr. Abend said. He added that although the majority of the Chinese people do not want Communism, neither do they want the present Chiang Kai-shek government which he labeled as corrupt and inefficient.

AMERICA has lost the peace. That was the theme of an address given here by Dr. Max Jordan, Central European representative of the National Broadcasting Company and author of the book, *Beyond All Fronts*. He found little to praise in the Allied occupation of Germany. He accused the victors of an unworkable and inhuman partition of Germany which deprived that country of its eastern agricultural regions.

A NATION-WIDE BROADCAST from Washington Hall at 6:30 p.m. Monday, April 26, when Henry J. Taylor, author, journalist, and commentator, gave his twice weekly talk, "Your Land and Mine," over Mutual.

BIGGEST TROUBLE with the theater today is that serious dramatists want to use the stage for a soapbox, said Father Gilbert V. Hartke, O.P., in a talk that closed the Aquinas Lecture Series. The priest, who is the head of the very successful speech and drama department at Catholic University, said that the theater will regain its popularity when writers quit using it to carry on political, sociological, and economic crusades, and return to the belief that the prime purpose of the stage is to amuse, please, delight, and entertain.

THE FORTY THOUSAND priests in the United States need the help of Catholic laymen to bring the teachings of Christ to eighty million Americans who are not affiliated with any church, the Rev. John A. O'Brien told the Catholic Laymen's First Friday Club of Chicago. The Notre Dame professor of Religion told the story of George M. Reichle, former instructor of speech at Notre Dame, who while in the army instructed 41 officers

and enlisted men and saw each of them baptized into the Catholic Faith. Father O'Brien also told of Frank Estis who, with the help of a few assistants, made 332 converts and won back 104 fallen-away Catholics during 1947.

STUDENTS will be able to matriculate at an American-type university in Mexico this summer when the Department of Modern Languages at Notre Dame sponsors the second annual Notre Dame summer session at Mexico City College from June 22 to August 27. The session will provide a three-fold opportunity: to develop a fluency in the Spanish language in the real-life atmosphere of that language; broaden education by residence in a foreign land, and better inter-American understanding. Though primarily for Notre Dame students, the special summer session is open to other interested persons, both men and women, provided they indicate a certain background in Spanish studies or a desire to pursue such studies.

DEAN JAMES E. MCCARTHY, of the College of Commerce, has been named chairman of the Jury of Awards for a national high school essay contest of the Advertising Federation of America.

ANY SYSTEM of education that does not teach the difference between right and wrong is morally sick, said the Rev. Robert H. Sweeney, C.S.C., executive assistant to the president of the university, in a St. Patrick's Day speech at Scranton, Pa.

Referring to the Supreme Court decision that release-time religious instruction in the public schools of Champaign, Ill., was unconstitutional because it violated the traditional separation of Church and State, Father Sweeney pointed out that some "very disturbing consequences could come out of the Supreme Court's new ruling."

"Does it mean that the public schools are now forbidden to teach the principles underlying the Declaration of Independence?" Father Sweeney asked. "These principles are principles of the Christian religion. They are not principles of Hinduism, Buddhism, Shintoism, or Mohammedanism; there are thousands of tax-paying adherents of these religions in the United States—many times more of them than there are avowed atheists like Mrs. Vashti McCollum.

"For example, has it become unconstitutional to teach in the public schools that men are endowed by their Creator with certain inalienable rights? Is it unconstitutional to teach the children that stealing is wrong? Is it unconstitutional to teach children that there is a God who is our Creator? Every one of these principles is denied by one or another religion other than the Christian and the Jewish."

The Notre Dame executive pointed out that if the principle of divorce of the State and Religion is carried out to its final conclusion, the public schools cannot teach a child that anything is wrong—or right—because that is morality, and is religious teaching. He observed that the most they could do would be to assert that stealing and ly-

ing and infant-murder are against the law of the land as presently written on the statute books.

POTENT QUESTIONS were asked in a poll sponsored by TIME and conducted on the campus by students majoring in journalism.

Of the 153 Notre Dame students who answered the questionnaire, 121 were favorable to the Marshall Plan, 18 were against it, and 14 confessed that they didn't know, or hadn't made up their minds.

The United Nations has only a poor or fair chance of being able to maintain peace, according to Notre Dame opinion. If there were no United Nations and we relied solely on ourselves backed by our atomic bomb, 121 of the 153 agreed that we would not have a better chance for peace.

The majority of the students polled agreed that it would be "a bad idea for the democratic countries of Western Europe to form a United States of Europe with a plan of government something like what we have in the United States of America," and most were against a United States of the World.

"In the conflict between Russia and America, which side is gaining and which is losing?" The poll showed that 112 thought Russia was gaining, 13 thought America was gaining, and 28 didn't know, or answered "neither." Who will be ahead 20 years from now? America drew 98, Russia 15.

The SPRING ISSUE of *Notre-Dame Lawyer* features an article by the Honorable Warren R. Austin, United States Senator from Vermont from 1931 to 1946 and currently representative of the United States to the United Nations, and an article by the Honorable Pat McCarran, United States Senator from Nevada.

THE COVER of NFSE NEWS, magazine of the National Federation of Sales Executives, features the picture of Professor Brooks Smeeton, of the College of Commerce. The Notre Dame professor heads NFSE's Educational Survey Committee.

THE MILLION DOLLAR visual merchandising education program developed by Goodyear was explained to students of marketing in the College of Commerce during a full-day session April 28.

NOBEL PRIZE WINNER Dr. Arthur H. Compton, Chancellor of Washington University, of St. Louis, and one of the nation's leading scientists, delivered an address "Paths to Peace" in Washington hall, April 28.

TWO NEW EDITIONS of books by Rev. Raymond W. Murray, C.S.C., head of the Department of Sociology, have just been announced. The Bruce Publishing Com-

# ATHLETICS

## Football

The annual Varsity-Old Timers game, held each year in the Notre Dame Stadium between the current Irish varsity eleven and past Notre Dame stars, will assume added significance on Saturday, May 15, when the two teams clash before a crowd that may reach 20,000.

First, it will mark the final appearance in Notre Dame Stadium of a number of Irish stars who will receive degrees in June—and included in this array will be a trio of all-time greats in quarterback Johnny Lujack and tackles George Connor and Ziggy Czarobski.

And in direct connection with the appearance for the last time of Lujack, Connor and Czarobski, a lead will be offered to the answer to the question of just how Coach Frank Leahy's national champions will fare during the 1948 season without these three vital cogs in the 1947 title aggregation.

Other former stars who will perform with the Old Timers include left halfback Bob Livingstone, defensive quarterback Pete Ashbaugh, fullbacks Floyd Simmons and Corvin Clatt, right halfback Bill Gompers, tackle George Sullivan, guard Joe Signaigo and place-kicking expert Fred Earley.

From last year's national championship eleven and still in school performing for the Varsity will be ends Jim Martin and Leon Hart, guards Marty Wendell and Capt. Bill Fischer, center Bill Walsh, right halfback Emil Sitko and fullback John Panelli. Frank Tripucka will do the quarterbacking for the Varsity, taking over the duties vacated by Lujack.

Proceeds of the game will go to the academic scholarship fund of the Notre Dame Alumni Club of St. Joseph Valley. Frank Miles, of South Bend, is chairman of the game committee. The annual game marks the end of spring practice for the Varsity.

Coach Leahy's chief problem during the Spring drills has been the consistent threat of injuries. Among the outstanding candi-

dates for the 1948 Irish who have been shelved by injuries are left halfbacks Terry Brennan and Ernie Zalejski, and tackles Jack Fallon and Dean Thomas. None of the quartet is expected to be able to participate in the annual game and with especially the two tackle spots conspicuous by a scarcity of seasoned performers, the task of moulding the 1948 team in the Spring session has been even more difficult for Coach Leahy.

## Baseball

Still searching for a semblance of much needed power at the plate, Coach Clarence J. (Jake) Kline's Notre Dame baseball team swings into the second stage of a rugged 24-game schedule seeking to improve on a bad start which saw the Irish drop five out of their first seven contests.

The Irish diamond crew, definitely missing the slugging ability of last season's hard-hitting trio of Jack Mayo, Tom Sheehan and Bobby Klein, proved in its first seven games of the season that plenty of class is available in the pitching and fielding de-

partments, but that extra punch necessary to win close ball games is lacking.

Although victorious in only two out of seven games at the outset of the season, the Klinemen's record actually is not as bad as it appears on paper. For example, all five of the losses by the Irish baseballers were dropped by one-run margins.

Notre Dame opened the season with a four-game series in Cincinnati, emerging victorious in only one of the quartet. The Irish dropped a pair of tilts to the University of Cincinnati by scores of 4 to 3 and 2 to 1, and lost to Xavier University by a 4 to 3 count before salvaging the second game against Xavier by a 5 to 2 margin.

Still hitting the road, the Blue and Gold stopped off at Peoria, Ill., to meet Bradley and after big John Creevey had tossed three-hit ball for seven innings he was tagged for a home run with one on to drop a 2 to 1 decision. And in two more contests decided by a single run, Notre Dame edged past Iowa, 8 to 7, with a ninth-inning rally and lost a 4 to 3 tilt to the Hawkeyes at Iowa City.

Coach Kline is juggling his lineup in an effort to get more punch into the starting nine. At third base, where Gene Lavery started the season, Tom Martin also is being given an opportunity. Shortstop is well set with Pete Koblosch, who with a .384 average in the first seven games is the only Irish

Tom Cocchitti, Dick Rattay and Jim Presley all have alternated behind the plate, while Walt Mahanna, Jack Campbell, Dick Kluck, John Creevey and Dick Smullen provides a strong pitching staff. ## Track

After only mediocre performances in the Kansas Relays and Drake Relays to open the outdoor season, Coach Elvin R. (Doc) Handy's Notre Dame outdoor track and field squad looks ahead to a triangular meet and a pair of dual affairs as features of the outdoor campaign.

In the Kansas Relays, the Irish tracksters copped a trio of third places in the three-mile relay, the four-mile relay and the two-mile relay events. Only a bad spill over the last hurdle, injuring his leg, kept ace hurdler John Smith from copping second place in the 120-yard hurdles in which the famed Harrison Dillard of Baldwin-Wallace turned in a record performance of 13.6 seconds. Smith's leg injury also kept him out of the Drake Relays.

The only Notre Dame team which placed in the crack field at the Drake Relays in Des Moines, Ia., was the sprint medley aggregation. The Irish held down the second place spot in the event until the final five yards when a sudden burst of speed by Wisconsin's Don Gehrmann overtook Notre Dame's Bill Leonard.

Expected to provide most of the power for the Irish during the outdoor campaign are hurdlers John Smith and Bill Fleming, dashman Bob Smith, two-miler Jim Murphy, miler Leonard and Capt. Ernie McCullough in the 440-yard dash.

The remaining schedule follows:

May 1—Triangular Meet with Bradley and Drake at Peoria, Ill.  
 May 8—Marquette at Milwaukee  
 May 15—Michigan State at Notre Dame  
 May 22—State Meet at Bloomington, Ind.  
 June 12—Central Collegiate at Milwaukee

## Tennis

Coach Walter Langford's Notre Dame tennis team, undefeated since 1946, got off to a good start in quest of its second consecutive undefeated season by trouncing Wisconsin's Badgers, 9 to 0, in the opening match of the season.

So complete was Notre Dame's mastery over a good Wisconsin team in the initial

# Alumni to Gather on Campus June 4-6 for Annual Reunion

The Golden Anniversary of the class of 1898 and the Silver Anniversary of the class of 1923 take over top billing as the campus prepares to welcome back once more, on June 4, 5 and 6, the Notre Dame men of other years. As before, the annual Alumni Reunion will be joined with the activities of Commencement.

Alumni will register, as they did last year, at a booth at the main entrance to the campus and from this point will be directed to residence halls. In the traditional reunion way, halls will be assigned by classes so that friends of the same Notre Dame era will be together again.

(In answer to several inquiries, the ALUMNUS is happy to stress the point that there will be residence accommodations on the campus for all returning alumni, and for these accommodations only a small fee, to cover the cost of service and laundry, will be asked. The campus unfortunately cannot provide accommodations for wives, and the hotels in South Bend and nearby cities have long since been sold out for the Commencement and Reunion weekend).

On page 3 of this issue, readers will find a tentative program of Commencement activities. And in the news of their respective class, also in this issue, most reunioners will find in detail the news of what has been

contest that the Badgers managed to win only one set during the entire meet, and although the Irish will miss last year's powerhouse, Charles Samson, they gave indication that they will be among the nation's best once again during the 1948 campaign.

The "old reliables" on the Notre Dame court squad again this year are the Evert brothers, Captain Jerry and Jimmy. The Everts, winners of the doubles title in the western indoor meet this Spring while Jimmy also beat his brother for the singles championship, are backed up by such capable veterans as Bob David, Joe Brown, Gene Biittner and Phil Lyons.

The remaining schedule is:

May 1—Michigan at Notre Dame  
 May 5—Marquette at Milwaukee  
 May 8—DePauw at Notre Dame  
 May 12—Michigan State at East Lansing  
 May 15—Kentucky at Lexington  
 May 18—Western Michigan at Kalamazoo  
 May 21—Northwestern at Evanston  
 May 22—Purdue at Notre Dame  
 June 3, 4 and 5—C.C.C. Tennis Meet at Detroit Tennis Club (sponsored by U. of Detroit)

## Golf

Notre Dame's golf squad, coached by the Rev. George L. Holderith, c.s.c., gave every indication of bright things to come during the 1948 season by a pair of outstanding performances in the first two matches of the season.

Father Holderith's linksmen came through

planned for them by their class secretaries and reunion chairmen.

Both the class of 1898 and the class of 1923 will have dinners on Friday evening, June 4, the former in the Dining Hall at Notre Dame and the latter in the LaSalle Hotel, South Bend. And the 20-year class of 1928 will have a fish fry the same evening, starting at 7 p.m. in the Izaak Walton League club house, north of South Bend.

The wartime class of 1918, 30 years out, is gathering its small but potent forces under the direction of John Lemmer, class secretary, and Father George Holderith, c.s.c., local reunion chairman, and before this issue of the ALUMNUS is in the mail class members will probably have word of what Father Holderith has planned by way of a Friday night gathering.

The class of 1933, sparked by Joe McCabe, secretary, and Al Artz and Paul Boehm, the local chairman and vice-chairman, respectively, have lined up the Vets Recreation Hall on the campus for their Friday evening party. The boys of 1938 will have a similar party at Mannerchor Hall in South Bend and the latest five-year class, 1943, will congregate at the Indiana Club, South Bend.

The class of 1923, with the class of 1898 attending, will be guests Saturday noon at a luncheon in the University Dining Hall. All reunion classes will have memorial Masses on Saturday morning or Sunday morning or both. And the classes will, of course, be seated together at the annual Alumni Banquet on Saturday evening.

It looks like a full weekend.

### REUNION OF N.D. LAWYERS

A meeting at 9:30 on Saturday morning, June 5, in the Law Building auditorium will feature the general reunion of Notre Dame lawyers to be held during the Commencement weekend, June 4, 5 and 6.

At this meeting, according to present plans, the Notre Dame Legal Association will be formed. Committees, working with Dean Clarence Manion of the Law School, have been framing a proposed constitution and set of by-laws for the new organization. Officers will be elected.

All Notre Dame men who are lawyers are particularly invited and urged to be present for the weekend and especially for the Saturday morning meeting. Those who were law students at other schools are equally welcome with those who were graduated from the Notre Dame College of Law.

# The 25th U. N. D. Night Observance

The 25th annual Universal Notre Dame Night was celebrated on April 5, 1948. And in all ways it was a Night befitting a Silver Anniversary.

Written reports from all over the country, printed in the club section of this issue of the ALUMNUS, as well as many letters and much word-of-mouth comment, indicate clearly that this world-wide tribute to Notre Dame, initiated by the late John H. Neeson, '03, of Philadelphia, in 1924, reached its climax in the year 1948.

In the number and caliber of club meetings, in the extent of radio coverage, both nationally and locally (through the courtesy of the Mutual Broadcasting System and the cooperation of many local Mutual outlets), in constructive newspaper publicity, in the number of speakers who went out from the campus, this year's Universal Notre Dame Night advanced even beyond the remarkable records of other years.

And there were some notable "firsts." This year for the first time, with the aid of Dan D. Halpin, '31, the main observance of U. N. D. Night, in Philadelphia, was in part televised. Through the courtesy of the National Broadcasting Company, a half-hour of the program from the Bellevue-Stratford Hotel went out to the Eastern television chain.

### Prof. Reyniers Receives Award

And in Chicago, at the Chicago Club's observance in the Drake Hotel, Prof. James A. Reyniers, '30, head of the Laboratories of Bacteriology at Notre Dame, received the club's first annual award for outstanding accomplishment by a Notre Dame faculty

member. This was another notable "first," and gave merited recognition to a man who is devoting his years to studies in germ-free life.

Several clubs began this year the laudable practice of recognizing by an award an outstanding member who has contributed in a special way both to the activities of the club and to the life of the community. And the Triple Cities Club in Binghamton, N. Y., directed by James H. Hogan, president, built its Universal Night around a tribute to one of its native sons who this year is president of the National Conference of Catholic Charities, Rev. Joseph B. Toomey, '26, director of charities in the diocese of Syracuse.

### Philadelphia Meeting a Sellout

Eleven hundred attended the central observance of Universal Night in Philadelphia, and the ticket sale had to be stopped a week ahead of the event. Principal speakers were Rev. John J. Cavanaugh, c.s.c., president of the University, Dr. Clarence "Pat" Manion, dean of the Law School, and Frank Leahy, director of athletics, all of whom were heard on the half-hour national broadcast of the Mutual Broadcasting System, and Harry G. Hogan, president of the Alumni Association. Jack Lavelle, '28, New York City, was toastmaster.

The dinner, following a reception, was opened with the invocation by Most Rev. J. Carroll McCormick, auxiliary bishop of the archdiocese of Philadelphia. Charles A. Conley, retiring club president, welcomed the guests and presented the gavel of office to John H. Neeson, Jr., '35, new club president, who is the son of the founder

of Universal Notre Dame Night. Other new club officers for the year are: Charles M. Dougherty, vice-president; Robert E. Burns, Jr., secretary; William G. Burns, assistant secretary; and Charles McKinney, assistant treasurer.

Mr. Neeson then introduced the distinguished guests who included, in addition to Bishop McCormick and the speakers, Vice Admiral James L. Kauffman, U.S.N., commandant, Fourth Naval District; Hon. Francis J. Myers, United States senator; George William McClelland, president, University of Pennsylvania; Rev. John J. Long, s.j., president, St. Joseph's College; Robert L. Johnson, president, Temple University; Rev. Francis X. N. McGuire, o.s.a., president, Villanova College; Brother G. Paul, f.s.c., president, LaSalle College; Rev. James W. Connerton, c.s.c., president, King's College, Wilkes Barre, Pa.; Rev. James W. Gibbons, rector, St. Joseph's-in-the-Hills, Malvern, Pa.; Hon. Joseph M. Byrne, Jr., '15, trustee, University of Notre Dame; George A. Munger, football coach, University of Pennsylvania; Hon. Vincent A. Carroll, judge, Court of Common Pleas No. 2, Philadelphia; Frank M. Folsom, executive vice-president, Radio Corporation of America; Hon. Eugene C. Bonniwell, judge, Municipal Court, Philadelphia; Hon. James P. McGranery, judge, U. S. District Court.

### Harold Duke Outstanding Alumnus

Rev. Charles Mahoney, c.s.c., chaplain of the Philadelphia Club, offered the benediction at the end of the dinner. Johnny McGee and his orchestra supplied music for the dancing which followed. The Rhythmairs, a quartette, furnished dinner music.

The local award of the year's outstanding alumnus in the Philadelphia area this year went to Harold E. Duke, '30, a director of the Alumni Association, who was presented with a scroll in recognition of his efforts concerned with promoting good will toward Notre Dame. Dan Young, '22, received the same award a year ago.

James A. Nolen, Jr., was general chairman of the club committee which arranged the central observance of Universal Notre Dame Night in Philadelphia. Committee chairmen were: Charles McKinney, reception; Daniel Halpin, television-radio; Thomas Lewis, publicity; Harold Duke, relations; John Neeson, Jr., program; William Bodo, entertainment; Daniel Young, arrangements; Clifford Prodehl, decorations; Walter Ridley, tickets; A. F. Dudley, patrons; Arthur Coughlin, parents; and Charles Conley, alumni clubs.

Delegations came from nearby Notre

The coast-to-coast Mutual broadcast originated with Station WIP in Philadelphia, and the telecast was handled locally by station WPTZ. Station WIBG, Philadelphia, carried a regional broadcast of the dinner.

Private schools conducted according to religious principles are the "greatest single force today for the preservation of a sound America," Father Cavanaugh said in his widely acclaimed address.

In vigorously defending the private school, the existence of which, he said, is being threatened by "competitive state-sponsored forces," Father Cavanaugh declared, in part:

"It seems to me that the American private school, founded on the religious principles that are woven into the pattern of American democracy, and still teaching on the sound foundation of those principles, is our greatest single force today for the preservation of a sound America.

## For Additional UND Night Pictures See Pages 20-21 and the Club Section

"Church and home can and must, of course, contribute immeasurably, and are by nature more fundamental, but only as the home is implemented in the principles of the church through the medium of the schools can we hope for organized strength sufficient to offset the increasing forces of a society no longer acquainted with the fundamental principles upon which it rests.

"And here we come to the greatest paradox of our time: The very private school, with its religious roots, that seems to be the salvation of our democracy, is becoming increasingly the victim of competitive state-sponsored forces which threaten its very being. It does not take an educator or an administrator to read in the report of President Truman's Commission on Higher Education the potential death knell of many of our private schools."

Father Cavanaugh pointed out that if the government "continues increasingly to pour into the tax-supported public schools the money which will enable them to build

the classrooms, the laboratories, the libraries, the residence facilities, conducive to the program of modern education; if its largess permits them to outbid all other schools for the best faculties in the fields of learning; and if, on top of that, they can offer these advantages to young men and women free of charge, the fate of the private school becomes largely a matter of time rather than of speculation."

The Notre Dame president continued, in part:

"And remember, in these highly modern and thoroughly equipped buildings, brilliantly staffed, and filled with all of the young leaders of tomorrow, God must not be mentioned. I am sure then that you will understand why we are concerned, not just for Notre Dame, but for all private education.

"From the campuses and classrooms and laboratories of private schools have come many of the men, many of the advances in knowledge that have made America great. They have been the reservoirs of progress, the fountains of youth for American leadership. They should be the intellectual Fort Knoxes, where the gold of independence is stored against the day

### SCENES FROM THE "KEY" CELEBRATION IN PHILADELPHIA

# New Fields Open as Foundation Long-Range Program Progresses

The importance of special forms of giving in supplementing the annual unrestricted gifts of alumni and friends has been growing and contributing constructive thinking to the long-range program to solve Notre Dame's needs.

To reach the tentative and estimated \$25,000,000 figure which represents only the progress which Notre Dame should enjoy within the next 10 years, it is the consensus of opinion that all of the programs of fund-raising which are being used successfully by various agencies must be combined under the program of the Notre Dame Foundation.

The Annual Alumni Fund is of course being maintained and developed as one of the most basic programs, on the success of which will depend to a large extent the success of other programs.

The program by which all alumni are asked to enlist similar annual support from non-alumni friends should lead to an annual giving program which will parallel and which should ultimately outnumber and outgive the limited alumni program itself.

## Corporation Giving

Henry C. Wurzer, Foundation Governor for Iowa, is the newly appointed chairman of a Foundation committee to study the application of corporation giving as it might affect Notre Dame. His committee consists of Foundation Governors John E. Cassidy (Illinois), Hugh O'Neill (Ohio), John E. Moore (Michigan) and Galvin Hudson (Tennessee).

Some implications of this field are contained in excerpts from an article by Laird Bell in the May *Atlantic Monthly*:

"Some reasons for corporate interest in education, not too obvious at first glance, lie in certain trends of education which should give corporations increasing concern. Two of these are outstanding, both involving the heightening of governmental control of education.

"The first is the very bulk of the institutions directly supported by the state. Whole cities of students have moved in upon the state universities, California, Minnesota, Illinois, Wisconsin, to name only a few, have populations in the neighborhood of 25,000 each. Annual budgets of more than 25 million dollars are accepted as a matter of course by the legislatures. To date, the legislatures have usually kept their hands off what the educators do with the money, and the freedom of the state universities in their educational endeavors has, on the whole, been respected. One won-

ders, however, how long legislators will restrain themselves as they pour out these colossal sums.

"Frontal attack upon such freedom is probably not so threatening as that from the flank. The happy sport of legislative investigating committees and the witch hunt for 'reds' in faculties contain hints of control that don't have to be spelled out for teachers. And we might as well face the fact that to the average man, and particularly the businessman, academic freedom is not an appealing concept. The businessman is accustomed to giving orders and to firing people whose actions don't meet with his approval. He doesn't like to have his own economic and political views questioned by persons who never met a payroll, or to have 'impressionable young people' subjected to acquaintance with 'wild theories'; he would get rid of those disturbing professors. And legislators think in these respects much as businessmen do. It is a fair assumption that the prospect is for more governmental control rather than less.

HENRY C. WURZER  
Iowa Foundation Governor

"Well as the state institutions have defended their academic integrity so far, there can be little doubt that the privately endowed institutions are more secure in their freedom from political pressure. . . . At least relatively, the endowed institutions may be regarded as citadels of freedom from political domination.

"There is no need to expand on the plight of the endowed institutions. Teachers must eat, like the rest of us, and their salaries will have to follow the cost-of-living curves. State pride can be counted on to enlarge university appropriations to meet growing costs. But endowment funds are not so elastic; rather, their yield has been drastically cut down. Tuitions cannot be raised indefinitely in competition with the

state-supported schools, even if the colleges were prepared to disregard the bad social effect of excluding students of slender means. At best, mounting costs and falling income may well snuff out the endowed lamps of learning in the fairly near future unless substantial help is forthcoming from sources which can afford such help. . . .

## Endowed Institutions Freer

"There are also subtler results to be feared. Our own state institutions are not so free as the endowed to experiment and to pioneer in untried lines, or in lines which may in the first instance be looked at askance by the voters. Or it may be necessary, in order to get funds for serious projects, to submit to logrolling and set up courses demanded by pressure groups, such as the ology of beauticians in California, thereby at one stroke debasing higher education and dissipating the energies of administration over trivialities. . . . A brilliant project like the Nieman Fellowships at Harvard would be almost unthinkable but for private generosity; a state university would probably have had to set up one more school of journalism to grind out mediocre reporters for whom there are no jobs.

"The possibility of dry rot and mediocrity settling down upon state-supported schools without the stimulus of competition from the freer schools must also be recognized. The effect of all these factors can be tested by imagining what it would be like if we had forty-eight state universities and no Harvard or Chicago or similar institution to set the pace; or by contemplating the extinction of the liberal arts colleges.

"A more immediate concern of corporate business is research. Evidently business considers research worth while. No business feels itself up to date unless it spends some money on research, and reports to stockholders are full of pictures of handsome young men in white coats, looking at test tubes. The idea of research has, it is true, been debased somewhat as it has functioned in commerce. There is a tendency to feel that you put a nickel into the machine and take out a bottle of research. It covers everything from cooking up a new plastic to counting the people that go past the corner drugstore. There is, however, enough serious research going on in business to make it clear that managements believe the genuine article to be worth paying for.

"Much excellent scientific work has been done in corporate laboratories, but it is necessarily somewhat cramped because it must be pointed directly at developing a product or a process that will create profits in the near future. Yet nature doesn't have her secrets departmentalized; a botanist may

develop an anesthetic, as has in fact been done. Yet few corporations can justify staffs in all branches of learning, while the investigator in a university can call upon specialists in nearly every field. Forward-looking managements are therefore turning more and more to the widespread facilities of universities for light on their problems, and the field has been but scratched."

### Wills and Bequests

The possibilities of additional income to Notre Dame from wills and bequests has been under study for some months. President Hogan has referred the national study to a Committee of the Governors and City Chairmen consisting of James P. Swift (Texas), Leo B. Ward (Los Angeles) and E. A. Berkery (New York).

**JOHN E. CASSIDY**  
Illinois Foundation Governor

City Committees have already set up, in major centers, fourteen special sub-committees to work in this special field.

A campus conference with Archie Palmer, nationally known authority in educational fund raising, revealed the significant information that one major university raised six million dollars in twelve years under such a stimulated program. Many universities operate a special and very active program in this one field.

The opportunities will also be presented to the proposed organization of Notre Dame law alumni.

### Insurance Giving

The many ramifications of possible gifts to Notre Dame through the medium of insurance were discussed at a campus conference of alumni in the insurance business.

To continue the study of the many phases of this major field President Hogan appointed an Educational Committee consisting of Frank Howland, Memphis, chairman; Joseph Stewart, Kansas City, vice-chairman, and Joseph Casasanta, South Bend, secretary, and a sub-committee on insurance research consisting of Paul Hoefler, Providence, chairman, Jerome Arnold, Davenport, and James H. Brennan, Chicago.

The conclusions of the first insurance conference are of general interest:

- I. The University of Notre Dame Foundation is primarily concerned with the raising of money for the University. It is not properly confined to any channel, such as an annual fund, wills and bequests, insurance, annuities, etc., but should open its efforts to any proper form of gift.
- II. Notre Dame insurance men, it was unanimously agreed upon by the Committee, do not want to appear to be utilizing this field for any personal advancement. This produced two suggestions:
  - A. The impetus for insurance giving should come from some other person (City Chairman, Will and Trust Committee Chairman, etc.) than an insurance alumnus.
  - B. In all instances, givers interested in insurance giving should be advised to see their own insurance counselor, and not directed to a Notre Dame agent.
- III. There will, it was suggested, probably be more potentials in the field of paid-up insurance, without sales incentive, than in new sales.
  - A. Persons with paid-up insurance, whose obligations have terminated with the death or maturity of dependents, etc.
  - B. An exception, which offers a rich field of attention, is the conversion of capital investment in other low-interest brackets, into insurance annuities.
- IV. Whatever the application of effort to call attention to a field of giving which all agreed has tremendous possibilities, it was again unanimously agreed that insurance was not to be indicated as a substitute for other forms of giving, but was to be emphasized only as a supplement to or a perpetuation of annual giving, or a guarantee of project or capital giving for endowment (in effect, insuring the custom or the intention of donors in all fields).

N.B. The above basic considerations gave rise to the suggestion of the Committee that instead of organizing separate Insurance Committees in each community, the City Chairman be given the option of simply making a member of the City Committee a sub-chairman in the field of insurance giving, or that the Committee on Wills and Living Trusts be set up to include insurance forms of giving as an added objective, with possibly an insurance man included in its membership for expert counsel.

### Special Gifts

Any program of the scope of the Foundation program must always keep in mind the special gifts necessary to finance the major projects planned. The University Department of Public Relations provides the nucleus for such a program. Studies are

under way for the expansion of the objectives, procedures and personnel of such a program on the larger scale it must reach in order to provide adequate implementing of the University's progress.

Benjamin Fine, in his book, "Our Children Are Cheated," expresses several thoughts pertinent to the Foundation program:

"Through the schools our future voters learn how to be intelligent citizens in a com-

**GALVIN HUDSON**

plicated society; they discover that responsibilities and duties are as important as privileges and rights.

"American colleges and universities, jammed beyond capacity, are facing very serious problems. During the war the colleges were in trouble because the student body had dwindled to a mere trickle. Selective service had taken most of the eligible young men from the campuses; in many institutions only a skeleton force of students and faculty members remained.

"With this tremendous enrollment have come problems of readjustment. Many of the situations are facing a financial breakdown; a student's tuition fees do not pay for the cost of his education; the college suffers a substantial loss on every student that it admits. With the onrush of veterans after the war, the colleges found themselves going deeper and deeper into debt. Many turned to the federal government for help in maintaining their institutions. Others conducted fund-raising campaigns to secure revenues. Still others were forced to borrow on their endowment or from the banks in order to continue.

"Inflated building costs, likewise, add to college headaches. Many college officials are prepared to expand their facilities. They have allocated substantial sums for the construction of new buildings; but the construction will have to wait until men and materials are available. In the meantime, the pressure on the college continues to grow apace. With each passing year the difficulties colleges encounter will increase. We are

## The Role of the Notre Dame Man in the Present Critical Era

# "For God, for Country, and for Notre Dame"

The Foundation windows on the South look out on the Memorial Door of Sacred Heart Church which commemorates 56 Notre Dame men who gave their lives in World War I for God, for country and for Notre Dame. In the vestibule of that same Church there are presently 327 memorial plates of the names of Notre Dame men who made the same sacrifice in World War II.

In analyzing the program for alumni in the critical period in which we now find ourselves, the inevitable conclusion is that all of us must be as steadfast in our principles, as valiant in our effort, and as effective in our example, if this is to be the peace to end war.

The boys whose names are on those plates are familiar to all of us. They ask no more for their heroism than do the living heroes who have melted into the halls and classrooms of today's campus.

But we and our world would be ungrateful indeed if we did not recognize that against the backdrop of their graves we have a vital part to play. Unless the actors take the stage, the value of the setting may be lost.

Our parts are written clearly in the script of Notre Dame. They can be outlined under the beautiful trilogy that has too long been identified only with our dead.

### "For God —"

In the example of his personal life, instructed and inspired by the great Christian tradition that brought Notre Dame into being, every Notre Dame man is armed with the greatest weapon in the conquest of the modern world.

The atom bomb or biological warfare become secondary forces in the face of the apostolate that made twelve humble men greater conquerors than any of the military leaders in the history of the Christian world.

This, then, is Act 1 for all of us, the consciousness that the spiritual integrity of our own lives reaches beyond the goal of personal salvation and becomes by example a power of aggression that makes us truly the most hopeful of the soldiers of civilization.

Trained by Notre Dame, we have advantages in this phase of our mission that make us all in effect officers. And as our opportunities have been great, our obligations are great.

It is not my province to preach. But I know that you all share with me the rich tradition of placing first things first, and we would fail indeed if we did not base our present program on the immovable rock of religion.

By JAMES E. ARMSTRONG, '25,

*Alumni Secretary and Executive Vice-Chairman of the University of Notre Dame Foundation*

### "For Country —"

We come now to a phase of our mission that has suffered from neglect. All over America, there is a restlessness in higher education which stems from a conscience that feels our leadership has failed. And the feeling of failure is aggravated by the knowledge that this leadership should have been derived in much larger measure than it has from the enrichment of our national mind by the advantages of the greatest system of higher education a country has ever enjoyed.

And if the broad poverty of leadership is attributable to higher education generally, how much more conscience-stricken ought we be of the religious colleges to be in the presence of the spiritual bankruptcy of our leadership.

For even as we have reflected technological progress we have seen the failure to exert responsible moral control over the forces thus created. And our very revered standard of living has been wasted because we have forgotten our standards of life.

We have been blessed with the opportunity now to restore the fundamental principles of family and of country. There is almost a hunger in our country to know why our victories seem empty and our high production potentials seem futile.

#### A Force for Reconstruction

In Philadelphia, on Universal Notre Dame Night, Notre Dame men pointed out conclusively that in the training of Notre Dame there is the vitalizing force to reconstruct the sound patterns of our past.

It is not a complex problem. It resolves itself largely into bringing to the civic, the professional, the fraternal groups in which we move the things that so many of them have lost, many through no fault of their own.

It consists of knowing and saying out loud that unless God builds the house he labors in vain who builds it.

We do not need to quote papal encyclicals or councils of bishops, Thomas Aquinas or Monsignor Sheen, to make these points, where prejudice might reject them. We have found that we can quote George Washington, Benjamin Franklin, Thomas Jefferson, James Wilson, and older Supreme Courts, who knew well, and who wrote for posterity the famous documents that for

more than a century were the fully accepted doctrines of a government that grew great.

We know these things. They are a part of our heritage as Americans, and more important a part of our heritage as Notre Dame men who have been trained to be leaders.

So we must be articulate. We have underestimated the speed with which secular influence has widened the breach between religion and education, and between religion and government.

The recent graphic examples of the dominance of secular thinking in our courts and in our schools is only a logical product of our negligence. But they are also the immediate call to a duty that is peculiarly ours to restore by our power of articulation and our clarity of thought the fundamental principles that must motivate government and education if democracy as we have created it in America is to live. And it must be interpreted in these same fundamental aspects of its integration with religious principles if it is to be effective in the creation of world peace.

This is our call to battle for our country, a call that should be as stirring as any war cry in our history. Victory will be more permanent, more satisfying, than any that America has ever won. Sacrifice will be as richly regarded as those of the saints or soldiers of other times.

### "For Notre Dame —"

And we come inevitably to the third great objective of our program, Notre Dame.

Whatever you may do for God or for Country will of course reflect in generous measure for Notre Dame.

There is already at Notre Dame a rich sense of satisfaction in the record of the Notre Dame men over the years in all of the fields for which they have been trained, in all of the challenges they have been called upon to meet.

There is the unequalled satisfaction of knowing that what Notre Dame has stood for during the 106 years of its existence, what has been the unchanging basis of her educational processes, is not only unshaken by the shifting of the century in which it has flourished, but comes now to the forefront of American education as being more sound in its religious roots, more patriotic in its preparation of citizens for leadership in our democracy, and more integrated in its academic progress to the proper balances of the changing and the unchanging than any other system of education.

And there is as a result of this feeling of rightness a sort of exaltation in accepting the challenge to progress that, paradoxical-

ally, Notre Dame is meeting at the very moment of its institutional vindication.

We are not basking in the security of our own University conscience and missing the implications of legislation and philanthropy that can undo much of the work we have done, and which can turn our long years of slow progress into short years of rapid decline.

So we have organized the spirit of Notre Dame, which is peculiarly ours, and at the same time peculiarly contagious to hosts of friends.

We must meet the challenge of existence largely on three fronts.

#### Must Build Facilities

The first is enrollment. It is important to Notre Dame and, we believe, to all of the things for which Notre Dame stands including country, family and Church, that the maximum number of deserving and able young men be given the advantages of the education which has now been proved, beyond all doubt, to create a responsible leadership no longer a matter of option if our world is to live. As you know, we are now in a period of oversupply of these young men. We are doing all that we can, with their considerate cooperation, to give the greatest number of them a Notre Dame education without sacrificing its essential standards. We must, however, if we are to hold to the present enrollment—and we believe that it is destined to persist for a number of years to come—build substantially to create the facilities necessary for proper and normal realization of our objectives. And we must have the added financial resources to create and to hold the proper facilities for these young men, and to attract and assist such young men from all geographical areas, and in all fields of training, to secure their training for leadership at Notre Dame.

The second great field of challenge is prestige. Here we are face to face with needs that can only be interpreted in terms of financial assistance. We must have the buildings and the equipment to train the scientists, the lawyers, the business leaders, the journalists, the architects, the engineers, to compete with the modern young men from the richly endowed classrooms and laboratories of the greatest private schools and the increasingly subsidized facilities of the tax-supported institutions. We must not lose our faculties to the schools that can offer them higher salaries. And we must not expect to ask deserving students, with all the evidences of ability, to pay fully for education which they may obtain without cost in other schools, or to persist in the expensive levels of graduate work without help after they have exhausted frequently modest means in the undergraduate processes. We are going ahead within our limits on the theory that we will enlist the necessary support to do what we have to do as well as it can be done anywhere. Our faculties and our students have demonstrated that they can produce competitively to the degree to which they are equipped and financed. Our prestige presently is sound. But we are encountering intensive development in the colleges and universities of this country that indicates we must progress rapidly ourselves, or see this prestige wane rapidly and dangerously in the years ahead.

The third challenge is endowment. Adequate endowment of course permits the exercise of the functions referred to under the above classifications. It allows better facilities, better salary scales, better scholarship and fellowship incentives. Notre Dame occupies a high place in the academic respect of America. Its endowment of under \$5,000,000 is one of the lowest of any major institution.

And so we have, in the organization of the University of Notre Dame Foundation, sought to create the army that must provide the front lines in this battle for God, for country, and for Notre Dame.

We are not trying to build our Rome in a day. We have recognized the youth and the economic and wartime upheavals that have affected our most fruitful generations of alumni.

There are short cuts to meeting our challenges. The increasing annual giving from increasing numbers of alumni and friends can offset greatly the lack of a large capital endowment.

From the stimulus of this interest and understanding there will be bound to come the occasional alumnus or friend who can make a capital gift to building or endowment that will represent a major battle in our long war.

We are erecting a pyramid of support. Our alumni and our friends are the broad base. We know that with the loyalty and the enthusiasm that has been shown, we will build to the topmost point.

Without this pyramid of support, from the modest annual gifts as a base to the high pinnacle of ultimate endowment and building, Notre Dame, like all private education, may find itself losing a battle that neither church nor state can afford to lose.

## Cincinnati Leader Named Lay Trustee

Charles F. Williams, of Cincinnati, president of the Western and Southern Life Insurance Co., has been named a member of the Associate Board of Lay Trustees of the University.

Mr. Williams, one of Cincinnati's most successful business leaders, replaces the late John J. O'Brien, South Bend manufacturer, who died in 1946, as a member of the Board.

CHARLES F. WILLIAMS

An 1897 graduate of the University of Cincinnati, Mr. Williams in 1935 assisted Most Rev. John T. McNicholas, archbishop of Cincinnati, in the founding of the *Instituto Divi Thomae* and gave the fund necessary for it to start operations. Purposes of this Institute include the investigation of fundamental problems in various fields of science and the establishment and cooperative assistance of research laboratories at affiliated colleges, hospitals and other institutions. Under the leadership of Mr. Williams, who also is President of the Cancer Research Foundation at the University of Cincinnati, the Institute has developed a special section for cancer research projects.

Mr. Williams was elected vice-president and general counsel of the Western and Southern Life Insurance Co. in 1910, at which time he and his brother, W. J. Williams, who founded the Company, acquired control of the entire capital stock of the corporation. He was elected president of the company in 1931, succeeding his brother who died in 1930.

Mr. Williams has been twice honored by the Vatican. In 1934 he was made Knight Commander of the Order of St. Gregory by Pope Pius XI, and in 1941 he was appointed as Master Knight of the Sovereign Military Order of Malta.

facing a new era—an era in which higher education for all will become the accepted doctrine. As a result, it is extremely unlikely that the pressures will be removed in the foreseeable future. *College expansion will become an increasingly important issue.*

"Many significant questions come to mind. How large shall the colleges be? At what point is expansion undesirable? Shall the universities be divided into smaller campuses? Will it be more advisable to add new colleges than to expand the existing ones? It is obvious that a point is ultimately reached beyond which the expansion of an institution is undesirable. At the same time, unless the colleges are expanded, or new ones added, millions of American youths will be denied the privilege of a higher education.

#### Federal Aid

"Sooner or later the American colleges and universities will have to face the issue of federal aid. They receive it now in various forms—through the G.I. tuition fees, the money for veterans' housing, and the Army and Navy training programs. But the next step, it would appear, is that of aid to the colleges and universities.

"This aid might be given in two forms: either through scholarship grants to the students or as subsidies to the colleges themselves. Probably a combination of both will be needed. It has been suggested—and the proposal has met with widespread approval among prominent educational leaders—that the federal government establish a system of national scholarships. \* \* \* \*

"The scholarship program would not be a radical departure from existing educational policies. Through the G.I. bill the government has already set the pattern. Actually, the money provided to veterans is scholarship money. I believe that the government should establish a minimum of 500,000 scholarships and fellowships for the youth of America. When our college population reaches 3,000,000, that would mean that the government would be helping one out of every six students to earn a college education. At present it is helping one out of two under the G.I. bill. It would also mean, if properly administered, that this country would place a premium upon ability and worth.

"\* \* \* On the average, the tuition rates have gone up 20 per cent in five years. Still further rates are contemplated. However, the point has already been reached where the tuition is too high for the average student. In some instances tuition has jumped from \$350 to \$500 and then to \$650.

"Then again, raising tuition will destroy the very purpose of our higher institutions—that of providing an education for all who are worthy and qualified, regardless of their station in life. The colleges themselves point to four possible solutions: they can raise tuition further; they can seek more annual gifts; they can hold financial campaigns; or they can work for federal scholarships. Actually, no one of these methods will be sufficient; the colleges will have to work out a program that will cover all four.

"The rising costs of services and materials affect colleges and universities as they affect every other kind of business enterprise. We cannot pass on these costs by continually raising tuition without putting college education beyond the reach of middle-class families. The large fortunes that sustained colleges have been depleted by taxation or divided by inheritance. New donors on the grand scale are hard to locate and to interest. The outlook ahead for the small college is not good, but America would not be America without these colleges. *New friends must be found.*"

"\* \* \* The consensus among educators was that the enrollment would level off at about 3,000,000. \* \* \* (Now about 1½ million—our figures). \* \* \* Acting on that assumption, many are laying long-range plans. Although several sigh for the "good old days," on the whole the college presidents are convinced that the new era ahead will be one of *scholarship* rather than *extracurricular* emphasis. They recognize that the *goldfish-swallowing, rah-rah spirit* has gone, to be replaced by one *more serious, more alert, more in tune with the issues that the world faces today.*"

#### Catholic Education

And in an article in the May *Catholic Digest*, Adam Drayer, for some time a veteran's counselor at Harvard University, sums up a powerful argument for Catholic education in these words:

"\* \* \* Picture your son, if you will, carefully nurtured in the Catholic faith, leaving his family unit to undertake higher learning at a secular college. Up to this point his life has been well ordered. \* \* \*

"Then he arrives at X college. Whether he elects to take an arts or a science course, he will find required courses in some branch of philosophy. He will discover immediately that his professors believe in a system of philosophy which is incompatible with his Catholic principles. \* \* \* Now many questions come to his mind, but you are not there to answer them.

"Unfamiliar with scholastic philosophy and unable to reconcile his faith with a materialistic philosophy, your son's structure of faith will start to crumble. \* \* \* He will begin to doubt the things you told him.

"Conflict mounts upon conflict, doubt upon doubt. If it is not lost, his faith at least will be weakened. Day after day he will sit in class, hearing statements which are contrary to his faith. He wishes to protest but he cannot, for he is poorly equipped to support his statements on a philosophical basis. \* \* \*

"If you are planning to send your son to college and wish to foster and strengthen his faith at the same time, the only way to do it is to send him to a Catholic college. If you send him elsewhere you risk the loss of his faith and expose him to psychological conflicts which may affect his entire personality and future life."

All of the above programs are long-range, in keeping with the purposes of the Foundation in furthering the permanent progress of Notre Dame.

All of them depend upon the full mobilization of the interest, the knowledge and the special talents of Notre Dame men.

## Meeting — THE FACULTY

Elsewhere in this issue will be found a story on the reunion of Notre Dame lawyers, to be held on June 4, 5 and 6. This is only the latest activity of the widely known educator and orator, Dr. Clarence E. Manion, dean of the College of Law at Notre Dame. A former president of the Alumni Association, he has been a member of the Notre Dame faculty since 1924 and dean of the College of Law since 1941.

DEAN CLARENCE E. MANION

In addition to his outstanding reputation in the legal profession, Dean Manion has also achieved fame as an author in educational fields. His latest text, *Lessons in Liberty*, has been adopted widely for class use in high schools throughout the United States. He also wrote *Americanism*, which will be published soon.

A native of Henderson, Ky., Dr. Manion received a bachelor of arts degree from St. Mary's College in Kentucky in 1915. In 1916 he received a Master of Arts degree from the Catholic University of America, and a Master of Philosophy degree from the same institution in 1917. He took his J.D. degree from Notre Dame in 1922, after military service in World War I.

During his legal career, Dean Manion has been a strong advocate of observance of the Natural Law and Natural Rights in his profession. He is a founder of the Natural Law Institute at Notre Dame inaugurated last December through a gift of the Notre Dame Club of New York. This Institute, to be held annually, is designed to emphasize through nationally-known educators, jurists, lawyers, and other authorities the Natural Law as the basis of democracy.

In addition to his work at Notre Dame, Dean Manion has engaged in the practice of law as a member of the firm of Doran, Manion and Dempsey in South Bend.

Dr. Manion was married in 1936 to the former Virginia O'Brien of South Bend. They are the parents of five children.

Mr. Harry G. Hogan, Chairman  
The University of Notre Dame Foundation  
Notre Dame, Indiana

Dear Harry:

It is almost a year ago, at Commencement time, that we actually embarked upon the work of the Foundation.

As we prepare for the 1948 Commencement I'd like to tell you that the work accomplished in the interim by the alumni and by the Foundation organization under your leadership has been even greater and more effective than we dreamed last June that it would be.

The loyalty and the enthusiasm are not surprising to us, who know Notre Dame alumni and friends too well for that. But the national acceptance of a serious, hard-working demand upon time and effort, with a realization of the permanent nature of the Foundation, by such a large number of outstanding Notre Dame men and friends of Notre Dame has been encouraging indeed.

We know that the Foundation workers have been handicapped by their very enthusiasm, because their work has carried them ahead, in the early months, of the information, the literature, the instructions, which we were preparing for them.

And we are happy to know that the Foundation Office is catching up with this tempo, and correlating the invaluable manpower of our volunteer field force.

We were pleased with the 1948 Manual, which told the very creditable story of 1947 to Governors, to the City Chairmen and their Committees, and to alumni everywhere. It would have taken for more manpower, and far more expense, to begin to paint this picture in any other way. The need for not only contributors but for salesmen has made this first year's presentation to our alumni and friends one of more detail and more expense than will be necessary after the Foundation is thoroughly established in its methods and its personnel. Creation of the Geller as well as the Giver has intensified the simpler problem of Cultivating Our Own Garden.

The reward will be in the multiplication of results, and the old proverb that many hands make lighter work. There is a challenge that can include all of us. The acceptance of that challenge is one of the most encouraging factors in this school year.

Sincerely yours,

ROBERT H. SWEENEY, C.S.C.

Executive Assistant to the President

## N.D. Band Presents Concerts in Nine Cities

The nationally-famous Notre Dame band appeared in concert in nine Eastern cities on an annual Easter tour from March 29 to April 6. The band was conducted by H. Lee Hope.

## Publish New Book by Sister Miriam Joseph

In *Shakespeare's Use of the Arts of Language*, published by Columbia University Press, Sister Miriam Joseph, C.S.C., M.A. '27, presents for the first time the theory of composition current in Renaissance England which enters into the form and texture of all Shakespeare's plays.

The book shows Shakespeare's use of the

theory by ample illustrations from his plays and poems. The volume is addressed to the wide audience of teachers, philologists, and Shakespearean scholars.

Another book that Sister Miriam Joseph, who teaches English at St. Mary's, has written is *The Trivium in College Composition and Reading*, which is closely related to the other book. A third edition was published in March. It combines a full course in logic with freshman rhetoric, composition and literature, and has been used at many colleges for 13 years. An abridged form, entitled *Everyday Logic*, is used as a textbook in logic classes.

## Fr. John Cavanaugh In Panel Discussion

The Rev. John J. Cavanaugh, C.S.C., president, participated in a panel discussion on "The Broad Objectives of Engineering Education" at the annual meeting of the Indiana-Illinois Section of the American Society of Engineering Educators on May 7 and 8 in Chicago.

Participating with Father Cavanaugh in the discussion at the meeting, which was held at the Illinois Institute of Technology, were Dr. Frederick L. Hovde, President of Purdue University; Dr. Ronald B. Prentice, President of Rose Polytechnic Institute; and Dr. Henry T. Heald, President of the Illinois Institute of Technology.

The panel was broadcast over radio station WIND in Chicago.

## Vandenberg Nominated At Mock Convention

The "nomination" of Senator Arthur H. Vandenberg for president of the United States highlighted a three-day mock Republican political convention held April 26 to 28 by Notre Dame students.

The mock convention, sponsored by the Department of Political Science at Notre Dame, was conducted to give practical political experience to the Notre Dame students. Similar conventions are normally held at Notre Dame in each election year, but since the one scheduled for 1944 was cancelled due to the war, the last such convention was a Democratic meet staged in 1940.

Senator Vandenberg, as represented at the convention by Daniel Norander, Notre Dame student from Detroit, Mich., was "nominated" unanimously on the sixth ballot. Governor Earl Warren, of California, in the person of James Cassidy, of Peoria, Ill., was nominated by the Notre Dame students for vice-president on the second ballot.

The mock convention at Notre Dame, which followed exactly the procedures of regular political conventions, was under the faculty supervision of Dr. Paul C. Bartholomew, Professor of Political Science at Notre Dame. Students in the Department of Political Science, however, were in charge of staging the rally.

Francis J. Keenan, graduate student from Dover, N. H., served as the Chairman of the Republican National Committee, Leonard C. Boykin, of Camden, S. C., delivered the keynote address at the opening session, and John R. O'Connor, of Indianapolis, Ind., was named the permanent chairman of the convention.

with an 18 to 9 victory over the University of Kentucky in the season opener and forced a veteran-studded Purdue team to the limit before dropping a 14½ to 12½ decision on the Boilermaker course. Only by virtue of the two lowest scores ever carded on the Purdue fairways were the Boilermakers able to edge past the Irish.

The early matches pointed to George Stuhr, two-time monogram winner for the Irish, as the most consistent golfer on the squad, but Stuhr is followed closely by Jack Fitzpatrick, Capt. Dick Seidel, Tom Dore, Jack Quinn and Tom Conley, all capable of turning in sparkling exhibitions on the greens.

During the remainder of the 1948 card, the Irish golfers must face the following opponents:

May 3—Wisconsin at Madison  
May 6—Detroit at Detroit  
May 8—Minnesota at Notre Dame  
May 10—Northwestern at Notre Dame  
May 15—Louisville at Notre Dame  
May 17—Michigan at Notre Dame  
May 22—Ind. Intercollegiate Tournament at N.D.  
May 24—Michigan State at East Lansing

## Akron

The club met at Semler's Tavern Hotel for dinner on UND Night. FATHER LOUIS J. THORNTON, C.S.C., Registrar, was our speaker. Fifty-three members were present.

After the meeting a good number of the men retired to JOE KRAKER's and listened to the program from Philadelphia.

The officers elected for the coming year are: PAUL A. BERTSCH, president; WILLIAM AHERN, vice president; CLAUDE H. HORNING, secretary; ROBERT KOLB, treasurer.

The club has been getting a great deal of publicity on its establishment of a \$2,000 scholarship at the University. Prominent Akron civic and business leaders have been appointed to the committee which will select the scholarship student, who will receive \$500 annually for four years. The club's scholarship committee includes JOHN KELLY, WILLIAM BURKHARDT, MURRAY POWERS, and THOMAS MARKEY.

## Boston

"Sports Night" was the theme of our February meeting held on the 26th at the Harvard Club. In addition to the "Highlights of the N.D. 1947 Football Season" for which we owe appreciation to the Alumni Office, President MOHRAN arranged for another sports film which gave us a well rounded program. He invited comment on the subject of Cans Conferences.

Chairman JOHN HERBERT supervised the big event, a drawing for the benefit of the Campus Club. The grand prize, an all-expense trip for two to the Notre Dame-New York University basketball game, was appropriately won by one of our most loyal alumni, DAN QUINLAN. The table model radio prize drawn for early returns went to one of the fathers, ED HICKEY.

AL BIRMINGHAM had a big job when he stepped in at the last minute as chairman of UND

Night. A dinner was held at the University Club for members, friends and their ladies. Father McNamara one of our honored guests, head of the Boston Catholic Boys Guidance Centre, invited Notre Dame men to participate in work at the Centre for the rehabilitation of young boys. Through the courtesy of WNAC an enjoyable part of the evening was spent hearing the program from Philadelphia so clearly.

The headline event was an address by Congressman John F. Kennedy. Mr. Kennedy gave an enlightening talk outlining the problems connected with our foreign affairs. It was encouraging to note that we had an increase of approximately 50 per cent over last year's event. Serving on the committee with Al were JAMES McLAUGHLIN, TOM ATKINSON, and JOHN VAUGHAN.

JACK NYE DUFFEY

## Blue Water District

The year of 1947 was merely an organizational year for this club. Our aim was chiefly to find out how many prospective members were in this area.

We held a membership meeting the first Wednesday of every month and the majority of the meetings were well attended. We attended Mass and communion in a body every First Friday.

The club's achievement award was presented to Jerry Mugan, basketball player of St. Stephen High School in Port Huron. The presentation was made by President BILL WILSON at a dinner in the Wilson home. Jerry's team reached the finals in the Michigan State Regional Class C. tournament.

The following officers were elected for 1948: president, WILLIAM L. WILSON; vice president, FRANK COMINS; secretary-treasurer, WILLIAM L. WEIL.

Plans for 1948 are as follows: Presentation of an Annual Achievement Award to the athletic team at St. Stephen's High School establishing the best record for the year; a monthly get-together of the members and their wives for the summer months; communion every First Friday; extensive campaign for the Notre Dame Foundation.

## Buffalo

Buffalo alumni, their families and friends celebrated UND Night at the Wanakah Country Club Thursday evening, April 8. The celebration of the event was postponed to that date in order that the speakers, REV. ROBERT H. SWEENEY C.S.C., and HARRY HOGAN, could be present. Father Sweeney's message as to the University's need for alumni cooperation was supplemented by Mr. Hogan's explanation of the functioning of the Notre Dame Foundation. Guest of honor was BISHOP JOHN F. O'HARA. Co-chairmen of the affair were DANIEL SHEEDY and DONALD JACOBI, with ALFRED RYAN as toastmaster.

The club held its annual elections Jan. 30. The four members elected to the Board of Directors are: RICHARD A. BATT, GEORGE FERRICK, JAMES SEYMOUR, and DANIEL SHEEDY.

The Board of Directors then met in private session and elected the following officers: president, JOHN HOELSCHER; vice president, DANIEL SHEEDY; treasurer, GEORGE FERRICK; secretary, RICHARD A. BATT.

The club honored the basketball team with a luncheon prior to its game with Canisius College on Feb. 28. More than 100 attended the luncheon, which was under the chairmanship of CLEM CROWE. CHARLIE HANNAH was the toastmaster, and the honored guests were A. T. O'NEILL and Coach MOOSE KRAUSE. The oldest alumnus attending was PETE WOZNIAK, '02.

A \$4,000 scholarship, which will cover tuition, room, laundry, books and laboratory fees, will be awarded to a high school graduate of the Buffalo area in July. Bishop JOHN F. O'HARA is the honorary chairman of the scholarship committee.

## Capital District

Close to 100 alumni, wives, and guests observed UND Night at a banquet held at Duncan's Inn, near Albany.

Co-chairmen of the event were JOHN HOLLAND, '41, of Schenectady, and J. J. DRISLANE, '38, of Albany. The Schenectady and Capital District clubs were co-sponsors, and the good time had by all indicated that more cooperative functions will be held by the two clubs in the future.

The main speaker was a Fordham man, Rev. Lawrence Atherton, S.J., former moderator of athletics at Fordham and presently director of a Jesuit Retreat House near Albany. FATHER McCAFFERTY, C.S.C., BROTHER ERIC, C.S.C., and DAN CUNHA also spoke.

## Central Ohio

Thirty-two members of the club observed UND Night at a combination party and business meeting held at the Virginia Hotel in Columbus. The inspiring addresses made by FATHER CAVANAUGH, FRANK LEAHY and DEAN MANION, which were broadcast from Philadelphia, added a great deal to the success of the gathering. It made us all proud to be a part of Notre Dame.

The following new officers were installed for the coming twelve months: DR. THOMAS M. HUGHES, '38, president; CHARLES O. WEILBACHER, '41, vice president; DONALD R. HAVERICK, '35, secretary; LEO J. KLETZLY, '31, treasurer.

It is our intention to schedule several different forms of activities during the remainder of the year, each of which will be designed to contribute in some way to the successful functioning of the Central Ohio Club.

Visiting alumni in Columbus are invited to attend the weekly luncheon of the Club which is held every Monday noon at the University Club.

DONALD R. HAVERICK

## Chicago

A capacity house attended the club's UND Night celebration in the grand ballroom of the Drake Hotel.

JAMES R. CRONIN, president of the club, presented Prof. JAMES A. REYNERS, '30, the inaugural Faculty Award. Prof. Reyners, director of the Laboratories of Bacteriology (LOBUND), expressed his appreciation to the club for conferring the honor on him and explained that only the full cooperation of the University made possible the extensive research carried on by his staff.

ALFRED C. STEPHAN, Jr., '31, chairman of UND Night, introduced Dr. Mortimer J. Adler, professor of the philosophy of law at Chicago University and a noted writer and humanist. In his address, "What Every College Graduate Knows," Prof. Adler pointed out that since college education was merely a scratching of the surface, educational growth should never cease. He felt that with education, we should become aware that world government is the only solution to present day problems.

The ever popular Rev. EUGENE BURKE, C.S.C., representing the University, told many interesting anecdotes on Notre Dame's latest addition, "Vetville."

The Honorable Martin H. Kennelly, mayor of Chicago, told of the need for an ever-increasing number of college graduates who are instructed both how to live as well as how to make a living. He explained that an increase of well rounded, educated men would make government administering both simpler and more efficient.

Rev. JAMES MOSCOW, '34, gave the invocation and final blessing, and THOMAS H. BEACON, Jr., '20, was the toastmaster. Entertainment was provided by the octette from the Notre Dame Glee Club and Jack Owens, singer and song writer.

John Lujack was the principal speaker at the banquet the Decatur Club held for St. Theresa High School on March 18. Shown left to right are Steve Graliker, '42, Bernard Marty, '37, Bernard Livergood, '25, Diane Livergood, John Lujack, '48, Mrs. Marty, Mrs. Livergood, Mrs. S. Rapier, Sy Rapier, '33, Jim McGrath, '41, and Mrs. McGrath.

Much of the credit for the success of the function, one of the finest put on by the club, goes to the following for the painstaking work they put in: ANTON STEPHAN, '04, JAMES R. CRONIN, '35, Chairman ALFRED C. STEPHAN, Jr., '31, THOMAS H. BEACON, Jr., '20, FRED BECKLENBERG, '33, FRANK O'DOWD, '43, THOMAS S. McCABE, '22, and JOHN LACEY, '38.

On the Bowman Musical Milkwagon, broadcast over WMAQ at 12:15 p. m. on April 5, part of the program was devoted to Notre Dame and the observance of UND Night.

## Central New York

Memorable among our events of the past few months was a meeting of our club on March 15. This one was held at the Haberle Brewing Company in Syracuse, and featured the 1947 N.D. football movies. JACK TERRY did a fine job of planning and putting on this event.

The big night was UND Night. A large crowd gathered at the University Club to hear the program from Philadelphia. Dinner was at 7 p. m., followed by installation of new officers.

LEO KELLEY gave us the substance of the Foundation aims for 1948. Previous to the dinner, Leo was interviewed on local station WNDR and gave a fine account of UND Night, the University, and what it stands for.

New officers installed were: president, JOHN E. McAULIFFE; vice president, H. JUSTIN CORCORAN; vice president and chaplain, REV. JOHN G. HARRISON; secretary-treasurer, DANIEL A. KELLEY.

Directors include: H. JUSTIN CORCORAN, FREDERICK T. DeLANY, MARK E. MOONEY, JOHN H. TERRY, REV. JOSEPH B. TOOMEY.

The City Chairman of the Foundation is LEO D. KELLEY.

The highlight of the evening was an address by our principal speaker, REV. ROBERT G. SULLIVAN, '40, assistant chancellor of the Catholic Diocese of Syracuse. Father Bob gave a very inspiring and informative talk on "The Heritage That is Ours" as Catholics and Notre Dame men.

The broadcast from Philadelphia was carried on WNDR, the local Mutual outlet.

ED MOORE will head the committee in charge of our next event, an outdoor day and buffet supper at the Cavalry Club.

BOB COX, of Solvay Process Co., has finally found the house he wants in Albany and will soon be packing Betty and the three kids eastward. JACK

O'NEILL is back in town as quality control engineer with Easy Washer.

WALTER NIENABER, President, University of Notre Dame Alumni Association of Greater Cincinnati."

The 65 members and guests who attended the celebration here heard a broadcast of the Philadelphia program over the Mutual Broadcasting System and carried into the Cincinnati area by WCPO.

Sports writers and radio commentators who attended the club's football smoker on Feb. 15 at the Hotel Alms, spoke highly of the affair. HUGH BURNS was the speaker, and films of the Army and Southern Cal games were shown.

The annual Knute Rockne Memorial Mass was held Palm Sunday at St. John's Cathedral. Breakfast followed at the Hollenden Hotel with approximately 100 Notre Dame men, including fathers and sons, in attendance. Co-chairmen JACK REIDY and

DAN DUFFY, the latter acting as toastmaster, presented a program of speakers, chief of whom was JIM CROWLEY, of Four Horsemen fame, who recalled for everyone's enjoyment his memorable associations with the Rock.

BILL GRIFFEY was chairman of the Notre Dame Spring Dance Easter Monday at the Lake Shore Hotel. Through Bill's efforts and those of his committee men, JOE MULLIGAN, TOM C. BYRNES, BILL MULLIGAN, GEORGE GORDON and JACK COLEMAN, the members of the club enjoyed an evening of dancing, with a turnout of over 180 couples.

April 30 was the date for our Bingo Party at the East Side Turners, E. 55th St. CHUCK ROHR was chairman with TOM F. BYRNE, TOM MULLIGAN, BOB STOCK, TOM C. BYRNE, SARG RA-LEIGH, and JACK COLLINS acting as committee men. A television set was given away.

The new club membership roster is now in the hands of club members. It is a complete listing of all Notre Dame alumni of Cleveland and vicinity, together with student listings. CLAYTON LEROUX is indeed due all our praise and congratulations for an extraordinarily difficult job very well done.

The club observed UND Night with a smorgasbord supper at the Highland Hotel in Springfield, Mass. A good number of alumni turned out for the affair, which was strictly informal, and provided an opportunity for the renewal of many old friendships and the inevitable "bull sessions." In the latter part of the evening, the members gathered round a radio to hear the ceremonies from Philadelphia. BILL HURLEY was in charge of arrangements.

The club sponsored a most successful entertainment on Feb. 1 for the benefit of the Notre Dame Foundation. We presented the Notre Dame Football Highlights of '47 on the screen, together with the movies of the Notre Dame-Southern Cal game. Assistant Coach JOE McARDLE was on hand to give the commentary. An audience of about 2,500 sat in on the show. A great deal of credit is due Chairman MATTY MESKILL, '29, and his staff for

putting this one over for the Foundation.

The club took advantage recently of a chance to help two fine mission priests, both Notre Dame men. FATHER PAT QUINLAN, of the Home Missioners of America, a former priest of the diocese of Hartford who studied at Notre Dame prior to entering the secular priesthood, received a check from us to help his work in the mission fields of South Carolina. We also sent a contribution to aid FATHER EDWIN C. BAUER, C.S.C., with his work among the Negroes in Texas.

The broadcast was carried by local radio station KCBC, through the arrangements of GEORGE PFLANZ, III. Needless to say, the broadcast was enjoyed very much and the club would like to take this opportunity to express its appreciation to FATHER CAVANAUGH, PROFESSOR MANION and FRANK LEAHY for their very fine and forthright addresses. We indeed were proud.

After the broadcast we were served a buffet lunch and were entertained by a male quartet.

He announced that in Detroit the Foundation drive would be identified with the club and that the local committee would consist of the club's directors.

Plaques were presented to the club's presidents of the past two years, Joe Bach, and GEORGE MORRIS, as well as to RAY KELLY, president in 1921, who was absent in the service when the other past presidents of the club were similarly honored in 1943.

The club held its annual UND Night meeting at St. Andrew's Country Club. Thirty-five members were present.

The evening was taken up with organization business and the following new officers were in charge: BILL CHAWGO, president; VERN KNOX, vice president; ROL SCHLAGER, treasurer; and JOHN MCNERNEY, secretary. These men are to hold office until the end of the year.

The constitution of the organization was discussed. President Chawgo appointed the standing committees as required by the constitution and they took steps to organize for the coming year.

It was determined that because of the small membership, about forty out of a potential of about a hundred, and the large area we cover, the Events Committee would have full authority to arrange for future meetings. In general, plans were made for the annual Golf Day and a winter dance. As soon as these dates are set definitely we shall extend an invitation to all Notre Dame men to attend.

He also stressed the need of all of the alumni in backing the Foundation to the utmost.

The Rt. Rev. Henry F. Dugan, Chancellor of the Archdiocese, emphasized the need for Catholic men—Notre Dame men—to assume their places as civic and religious leaders in their communities today more than ever before. Msgr. Dugan spoke on behalf of the Archbishop, who was unable to attend.

Our new club officers for 1948 are: FRED McNEILL, president; JACK GRIFFIN, vice president; VINCE FEHLIG, treasurer; WALTER GEORGE, secretary. We also elected the following men to the Board of Directors: Four Year Term, Dr. BERT COUGHLIN, BOB HELLRUNG, AL RAVARINO, FRED WEBER; Three Year Term: JACK GRIFFIN, JIM O'NEAL, Dr. MATT WEIS, DUTCH WRAPE; Two Year Term: ROLAND DAMES, VINCENT FEHLIG, JOE McGLYNN, FRED McNEILL; One Year Term: LOU FEHLIG, PAUL FEHLIG, WALTER GEORGE, CHARLES GIOMI.

FRED WEBER, retiring president, really deserves a vote of appreciation for the wonderful job he turned in the past year.

Our scholarship committee is in high gear and this fall should see a deserving student enter Notre Dame. ROLAND DAMES is the scholarship chairman.

On Sunday, March 22, we held our first Family Communion Breakfast with an attendance of about 100 people. FATHER SWEENEY, C.S.C., made a special trip to celebrate the Mass; as usual he delivered an excellent talk after breakfast, adding further to our belief that he makes a truly fine representative from our University.

## Sons of N. D. Grads Organize on Campus

A committee of Notre Dame men whose fathers or grandfathers attended the University is working on plans for a permanent organization of the more than 150 eligible men in this category on the campus.

Plans include a survey of membership, a reception by the University administration, a meeting of fathers and sons during a football weekend in the fall, holding of regional or metropolitan meetings of fathers and sons during the holidays, a newsletter to fathers, and other programs to emphasize the fine tradition embodied in the presence on the campus of so many second and third generation students.

The committee, a temporary group appointed by the Alumni Office to make simply the preliminary plans, consists of George Witteried, Lyons Hall, chairman; Leo Voge, Sorin; Ray Miller, Breen-Phillips; Eric Rey de Castro, Dillon; George Patterson, Cavanaugh; Harold Plamondon, Dillon, and Ed McCarthy, Off-Campus.

## Quarterly Report Mailed to Alumni

The First Quarterly Progress Report for 1948 has just been mailed to all the alumni and many friends of the University. The report is similar to the list of 1947 contributions in the 1948 Manual and Guide.

Special attention is directed to the Pertinent Facts about the 6th Annual Alumni Fund for the First Quarter, 1948. Forty-two per cent of the alumni have either indicated that they would supplement their original gifts later in 1948, that they would secure from non-alumni friends an amount which, with their own gifts, would total \$200, or have sent names of non-alumni friends to be added to the mailing list of likely contributors to the University.

## Deaths

BERT G. MARIS, track and basketball coach at Notre Dame from 1907 to 1912, died in St. Petersburg, Fla., on April 17.

After leaving Notre Dame Mr. Maris served as athletic director of Northwestern High School in Detroit until his retirement. Prior to taking up coaching at Notre Dame he coached at the University of Michigan. While there he introduced basketball, boxing, and wrestling.

Mr. Maris served in Puerto Rico during the Spanish-American War and entered athletics following the war.

Surviving are his wife and two sisters.

THOMAS BUONO, Jr., a senior from Sauger-ties, N. Y., was found dead in the Calumet River, Chicago, 11 days after he disappeared from his residence hall at Notre Dame on April 2.

When last seen he was going to South Bend to make room reservations for his parents for June Commencement. His father, who said that a letter written by his son on the day of his disappearance was very cheerful, expressed the opinion that his son was robbed and his body later thrown into the river.

At the inquest held in Chicago the coroner said that he apparently drowned but that the body was so badly decomposed that it was impossible to determine any evidence of violence.

WALTER VINCENT BARRY, ex. '44, was killed on March 8 while on a routine training flight at Pensacola, Fla., Naval training base.

Ensign Barry spent two years at Notre Dame before entering the Naval Academy at Annapolis in 1942. At Notre Dame he won monograms in cross-country and track, and at Annapolis was one of the finest runners to represent the Academy. At the time he was killed he had orders to report to the Academy to train for the Olympic trials.

Commissioned in June, 1945, he served on various ships until last fall, when he started flight training at Pensacola. He was married in December, 1945, and is survived by his wife and a daughter.

Dr. WILBUR S. EATON, '25, died of a heart attack in Skiff Hospital, Newton, Ia., on March 13.

Wilbur played end in 1923-24, and served as freshman coach at Notre Dame. He also served as head coach at St. Thomas (Minn.) College, and was assistant to Marchie Schwartz at Creighton. He was practicing medicine in Colfax, Ia. at the time of his death.

Surviving are his wife, five children, his mother, and a brother.

Word has been received that WILLIAM E. PERCE, '06, of Elgin, Ill., died in Hines Hospital, Chicago, on April 25. No other information is available as the ALUMNUS goes to press.

PAUL J. DONOVAN, '10, well-known Chicago attorney, died at his home in Oak Park, Ill., on March 31.

From KID ASHE:

Congratulations to TOM McCABE outgoing president of the Notre Dame Club of Chicago. Tom was instrumental in reviving things by starting innovations, and injecting plenty of new fire and interest into the club which is the largest of the Notre Dame alumni groups. Very well done, Tom.

A letter received from JERRY JONES informs us that he was confined to hospital and home for nine weeks after his automobile accident while returning to his home town of Dixon, Ill., from the N.D.-Northwestern football game. When Jerry wrote, he said he was limping a bit, and needed support of a cane, but expected to be completely recovered within a short time.

We are more than pleased to have news of promotion of JOSEPH E. DUFFEY to vice president of the Diamond Match Co. ## 25-Year Reunion June 4-6

As you probably will have heard before this magazine reaches you, the main events of the Silver Anniversary Reunion, June 4, 5 and 6, have been worked out by the committee in charge.

The first big class gathering will be held in the Bronzewood Room of the La Salle Hotel, South Bend, on Friday evening, June 4. The official class Mass, to be offered by Rev. JOHN J. CAVANAUGH, C.S.C., president of the University, will be on Saturday morning, at an hour—not too early—to be announced later.

Saturday noon, in the Dining Hall on the campus, the C.S.C. priests who are members of the '23 class, will be hosts to the class at a luncheon. And Saturday evening at the traditional Alumni Banquet the members of the Silver Anniversary Class will sit together.

Golf and swimming at your convenience, a baseball game on Friday afternoon and another one Saturday afternoon—these, plus many a "session," will fill in all too quickly the comparatively few hours of the weekend. Men of '23 will of course be housed in one hall on the campus. Registration will take place at a special booth at the entrance to the campus.

Elsewhere in this issue you'll find a general story on the Commencement and Reunion weekend. Read this and shoot along questions, if any, to the Alumni Office or to PAUL CASTNER.

You'll recall that the alumni recently cooperated with the Population Reference Bureau in a survey of the '23 and '38 classes regarding births. Maybe you'd like to know the results up to March 31 when the official compilation was made, with regard to '23. For a comparison with '38, see the '38 column in this issue.

One hundred eleven, or 60 per cent, of the cards mailed were returned. Of the 111 there were 100 who had married, and these 100 reported 235 births, for an average of 2.35. Eighty-four of the 100 had had at least one birth in the family. The average number of births for the married '23 men reporting at least one birth was 2.80.

According to the survey, the leaders in the class, each reporting eight births, are LOUIS A. DESMET, Chicago, and ANTHONY M. JACKSON, Assumption, Ill. (Remember, we're writing only about the men who returned cards.) JIM MARTIN, Chicago, had a long talk with BERNARD VOLL. He is with seven, is in the next spot, followed by ROG KILEY, Chicago, HERB VALKER, Oak Park, Ill., and GEOFFREY BURKE, Albany, N. Y., all with six. TOM LEAHY, Scranton, Pa., CLIFF DOLL, Louisville, and MERLIN ROLWING, Cairo, Ill., all reporting five births, are next in line.

Special Leap Year note—The following answered "no" to the question, "Have you ever married?": ALBERT M. HODLER, HENRY F. BARNHART, Dr. KEVIN E. CURRAN, HAROLD F. HAYNES, DANIEL O'SULLIVAN, Jr., W. E. SHEA, J. GERALD CUDDIHY, JAMES X. BELL, EDWIN S. RYAN, GEORGE B. STOCK, and JOHN C. NORTON.

W. F. RAUBER has been appointed assistant manager of sales, Switchgear Divisions of the Apparatus Department, General Electric Co., 6901 Elmwood Ave., Philadelphia 42. GEORGE A. UHLMAYER is the manager of the industrial sales department of the Iowa-Illinois Gas & Electric Co.

St. Mary's Cathedral in Austin, Texas, of which Father JOSEPH McALLISTER, C.S.C., is the pastor, sustained \$3,000 damages in a fire which was confined to the sacristy. LOUIS F. MOORE is superintendent of Columbia Steel Co., Provo, Utah.

JIM MARTIN, president of the Oleny J. Dean Steel Co., has been elected president of the Chicago Serra Club.

## SPOTLIGHT ALUMNUS

Thomas H. King, '18, an educator with an active and varied career, has recently been appointed director of alumni relations at Michigan State College, East Lansing, Mich.

Tom joined the faculty of Michigan State College in 1933, as an assistant professor in physical education and served as end coach for the football team. In 1941, he was appointed head of the Department of Police Administration, in which capacity he served until November, 1947. In 1943, he organized the central placement office at Michigan State College, which opened in September of that year. He was appointed as counselor for men in October, 1945, and two months later became director of the Office of Veterans Affairs. With the opening of the personnel office in July, 1946, Tom took over the combined office as director of the Placement and Personnel Service, serving in that capacity until his latest appointment.

THOMAS H. KING

A native of Boone county, Indiana, Tom received a Ph.B. from Notre Dame and his law degree from the University of Louisville in 1928. He served in the U. S. Army from 1917 to 1919 as a first lieutenant in the field artillery, was coach and athletic director at the University of Louisville from 1925 to 1932, and was field representative and assistant manager of the Travelers Insurance Company in 1931-33.

Tom is married to the former Lula VanDyke, and the Kings have one son, Tom, Jr., a nationally known basketball player, who is at present director of public relations for the Chicago Stadium.

## 1925 John P. Hurley, The Toledo Parlor Furniture Co., Toledo, O.

WALTER J. CYR has been appointed manager of door closer sales of the Stamford, Conn., division of Yale & Towne Manufacturing Co.

## 1926 Victor F. Lemmer, Box 661, Ironwood, Mich.

From VIC LEMMER:

On the afternoon of "Universal Notre Dame Night" three of us—N. D. alumni—had an informal meeting in the office of the Michigan Attorney General, at Lansing, Mich.

Present were: Attorney MEREDITH DOYLE (Menominee, Mich.) who is an assistant attorney general of Michigan at Lansing; WILLIAM F. WITTENBURG (New Buffalo, Mich.) supervising auditor of the Michigan Auditor General, in the State Capitol, Lansing; and myself.

On April 3, at Detroit, I had a visit with JOHN FREDERICK, '28, of Muskegon. Tried to see ED CROWE, but he was not in his office.

GORDON BETHUNE, accountant for the Oliver Iron Mining Company, Ironwood, has been promoted to the Duluth general office. I think he came from Coleraine, Minn. He was the secretary of our N. D. Club. He is the father of the "first" son, born about a month ago.

JOHN ROACH, law enforcement officer of Wisconsin, in the liquor and gambling traffic, comes up this way often, but only gets as far as Hurley, Wis.

JOHN Q. ADAMS spoke at the Boston meeting of the Catholic Conference on Industrial Problems on March 2 and 3. The title of his talk was "Management Looks to the Future."

GEORGE FARAGE was elected president of the St. Joseph county (South Bend) election board.

## 1927 Joseph M. Boland, Radio Station WSBT, South Bend, Ind.

From JOE BOLAND:

That call for help in the last issue got one (1) reply, for which a low bow to PAT HENEY, 1618 E. Aloha, Seattle 2, Washington. Pat was in the Signal Corps during the recent unpleasantness. Married, he has five beautiful children . . . one, a fullback-potentiality for about '68 at Notre Dame. Pat tells of BYRIL K. GROSECLOSE, his pal from Seattle, who is now assistant traffic manager for Quinn, White and Prince, wholesale fruit distributors, located in the Skinner Bldg., there. Both are awaiting Notre Dame's first football call on the Northwest—in '49, when the Irish meet Washington at Seattle.

During Ye Sec's Universal Notre Dame Night visit to Indianapolis. BILL HOLLAND, JIM SHEERIN, and BOB GAVIN renewed old times with a few touches. CHARLEY RILEY didn't show at the meeting . . . previous commitments. Chazz is married; working at the Arsenal in Indianapolis, I'm informed.

That's about the size of it, this trip: that "Help! Help!" still goes. And, if there are any monogram men of '27 who are NOT enrolled as dues-paying members of the National Monogram Club (revitalized alumni club) be sure to write me, at WSBT, sending—if you please—two dollars as dues, for which you'll get the new Monogram Club paper three times yearly—the "Monogram News," as well as other advantages it will describe.

ELMER F. MARCHINO is judge in the Indiana State Department of Revenue. His home address is 125 East 51st St., Indianapolis 5.

ALLEN R. THURN is a scrap iron buyer for Bethlehem Steel Co., Bethlehem, Penna. His home address is 1820 Sycamore St.

## 20-Year Reunion June 4-6

From LOU BUCKLEY:

As TURK MEINERT very effectively stated in a recent letter, "interest and enthusiasm in our 20-year reunion in June is certainly running high all over the country." As of April 8, 218 classmates have indicated they expect to attend the reunion. Distance does not seem to interfere, as we have five men coming from California and a large number from New England. The fact that all of our medical men intend to be present indicates that pressing business will not keep many away.

If possible, plan to arrive before 6 p. m. Friday, June 4. As you arrive at the entrance to the campus, register at the alumni booth where you will be given a name badge and directed to the '28 residence hall which will be Morrissey Hall. The WAGNER-SEARER local committee will greet you at the Friday night party and give you the '28 novelty identification.

At 7 p. m. transportation will be arranged from the Hall to the Izaak Walton League Lodge located off Dixie Highway across from Healthwin Hospital. Those driving will be given a map showing how to get to the party. There will be signs up along the way to direct you to it. It is absolutely essential that you drop a card to WILLARD WAGNER at once, if you have not done so, reserving a ticket to the fish fry and get-together. Wagner's address is 1437 East McKinley Ave., South Bend. Wag is doing his usual fine job, so let's show our appreciation.

JOHN IGEO has arranged for FATHER MATTHEW WALSH, C.S.C., to offer the Mass for the living '28 men on Saturday morning, June 5, at 9:30 a. m. in the Morrissey Hall chapel. We are fortunate in having the man who was president during our years at Notre Dame as celebrant.

The '28 men will be seated together at the annual Alumni banquet Saturday night in the University Dining Hall.

Sunday morning the Mass for the deceased '28 men will be said by FATHER GALLAGAN, C.S.C., in the Morrissey Hall chapel. Father Gallagan, as you know, was chosen by class vote to be celebrant of this Mass. Frank and Jim O'Toole, sons of our deceased classmate FRANK O'TOOLE and the first sons of a '28 man to attend Notre Dame, will serve this Mass. FRANK CREADON reports that the reaction of the fellows in Chicago is very enthusiastic to his plan to have the '28 Glee Club sing the Mass. Frank intends to have the '28 Glee Clubbers who reside in the vicinity of Chicago get together for a few rehearsals prior to June 6, so that they might get into the same shape they were in twenty years ago.

BILL KEARNEY is making arrangements for the '28 class golf tournament for Sunday. A tournament sheet will be placed at the starting point so that all '28 players can post their names and their scores. Bill advises there will be a trophy for the winner. Judge MAURICE CONLEY will arrange for a softball game.

I am sure you will agree with me that BERNIE GARBER and his Publicity Committee are doing an excellent job. LEO MCINTYRE and DAVE GIBSON have been added to the men previously announced as members of that outstanding committee. If you haven't completed Bernie's questionnaire for a class history, please do so at once and send it to him at 8th Floor, 33 West 60th St., New York 23, N. Y. Bernie and some of the members of his committee, including JOHN McMAHON and LEO MCINTYRE, are not only preparing publicity material, but are actually taking care of the printing and mailing. Since this involved addressing and mailing some 500 letters for each mailing, it is a huge job and a very costly one. We are deeply indebted to these men for their great contribution to our reunion.

The other men assigned to committees to promote attendance are doing a fine job. To date, I have heard of the following work by this group: TURK MEINERT, HOWIE PHALIN, GEORGE BEAM-

## SPOTLIGHT ALUMNUS

Back of the harmony between management and labor that kept war plants of Portland, Ore., humming and free of labor unrest were the efforts of a hard-working, persuasive priest, the Very Rev. Thomas J. Tobin, '20, S.T.D., J.C.D., LL.D.

Father Tobin, pastor of All Saints Church

VERY REV. THOMAS J. TOBIN

and Vicar General of the Archdiocese of Portland, managed to find enough time, despite numerous parish and diocesan duties, to take over as chairman of the Portland Labor Stabilization Joint Board of Appeal.

When the board was set up in October, 1942, labor and management were unanimous in their choice of a neutral public chairman. The three-man board was given complete authority over movements of workers from one plant to another and over labor-management disputes. The Oregon director of the U. S. Employment Service went to the WMC chairman in Washington to convince him that Portland didn't need a federal board since it was doing its own job.

Father Tobin maintained a deep interest in labor problems after the war. On Jan. 17, 1948, he was appointed to the Wage and Hour Commission.

After being graduated from Notre Dame, Father Tobin studied at North American College in Rome until 1925, when he was ordained. From 1933 to 1936 he attended Gregorian University in Rome, where he received his doctorate in Canon Law.

One of the West's foremost authorities on canon law, he was appointed chancellor of the Archdiocese of Portland in 1936, and Vicar General in 1940. An ardent advocate of the Liturgical Movement, he has in this field alone done work that is described by a fellow priest as "simply stupendous."

ER, JOHN LARSEN have written to the A.B., Commerce, '29 Lawyers and Engineers respectively who were not listed on the '28 roster as attending the reunion. JACK CANIZARO also wrote to 30 classmates and JOE LANGTON has written two letters to the Missouri '28 men. I am sure that many more of you have also written to classmates regarding attendance.

LEO MCINTYRE has been appointed chairman of a committee to locate addresses of those listed as unclaimed on our '28 roster. JOHN LARSEN and BERNIE GARBER have already helped Leo on this work. Leo is of the opinion that JAMES T. MORRISSEY, JOSEPH D. MURPHY and JOHN J. HOWARD are deceased. Please send Leo at 121 N. Ninth St., Allentown, Pa., any information you have on these men, as well as the others listed as unclaimed on the '28 roster. FRANK CONNORS also wrote that JOSEPH D. MURPHY died several years ago.

A total of \$170.50 has been contributed to date by 113 classmates to help pay the expenses involved in the promotional work of the reunion. I have not acknowledged these contributions individually, but wish to thank the 113 men who have contributed.

I wish to extend our sympathy to our local chairman, WILLARD WAGNER, on the tragic death of his father and aunt by accidental asphyxiation in their home in Greenfield, Mass.

Last month I had the opportunity of visiting JOHN HERBERT while in Boston where I spoke at the Catholic Conference on Industrial Problems. John is manager for the New England area for Will & Baumer Candle Co. John has two children. I was sorry to hear that John's mother died in November.

I also had a fine session with TOM QUALTERS while in Boston. I hope he writes a book on his experiences as bodyguard to F.D.R., as he has some very interesting impressions to relate on this subject. Tom, as you know, was also in the armed services during the war.

RAY MULLIGAN wrote from Chicago on the occasion of the birth of his second child recently. Ray was married in 1942 while in the Navy. He arrived home from the Pacific for Christmas 1945 and is back with the Chicago Title & Trust Co.

FATHER JAMES McSHANE, S.J., had an excellent article in the June, 1947, issue of *Social Order* on credit unions. Father Jim, as you know, is located at S.S. Peter and Paul Rectory, 130 N. Sixth St., Mankato, Minn.

I had a fine letter from ART PARISIEN from 548 E. 7th St., Upland, Calif. Art is married and has two children. Art inquired about JIM SEXTON, ED ABEL, JOHN ROBINSON, TOM BYRNE, and JOHN CONSIDINE.

HENRY DAVIS, who is with the Sterling Oil Division, St. Mary's, W. Va., tells me that my old roommate, JIM SEXTON, is with a drilling company in Texas. Jim's address is General Delivery, Robert Lee, Texas.

GERALD SHIBLEY, who lives in Fostoria, O., is with the Grider Machine Tool Co. in Bowling Green, O. Gerald has three children.

BERNARD BIRD wrote of the note of deep tragedy in the '28 roster as he observed that the only college roommates he ever had, FRANK O'TOOLE and AL THOMAS, were listed as deceased. Bernie is still deputy city treasurer of Buffalo, N. Y., and is teaching criminology and general sociology at Canisius College. FRANK CONNORS sent me a clipping from the Buffalo "Courier-Express" carrying a picture of Bernie and a statement by him on how he is observing Lent in the inquiring reporter column.

FATHER ANDY MULREANY, C.S.C., whose address is St. Mary's Church, 209 E. 10th St., Austin, Texas, hopes to be with us at the reunion in June.

CYP SPORL advised that he is making a business trip to the Scandinavian countries, so will be unable to attend the reunion. At Cyp's suggestion, STEVE WOZNAK has been appointed to take his place as chairman of the committee to promote attendance of '28 lawyers.

ART DENCHFIELD wrote from Caixa Postal 21, Recife, Pernambuco, Brazil, that since he was in U. S. A. and over to Scandinavia last summer he will not be able to attend our reunion this year.

**BILL O'HARA** is chief accountant of the Manchester Division of the Connecticut Power Co., Manchester, Conn. **J. HARVEY DALY** is personnel and public relations director, Giant Food Department Stores, Washington, D. C.

**PAT VARRAVETO** is with the Lockheed Aircraft in Los Angeles. **FRANK DAVID** is at the New Orleans District, Corps of Engineers, major Engineer Reserve. My old roommate and best man, **JOHN L. BRANNON**, after being in the Navy during the war, returned as manager, Sears Roebuck Co., Sacramento, Calif. Joe, as an extra-curricular activity, is head of a campaign to raise funds for a new church, school, sisters' home and rectory in his new parish. Joe is married and has two children.

**JOE KINNEARY** is now located at 908 Union Central Bldg., Cincinnati 2, O. **JOE McNAMARA** is legal counsel for the Bridgeport Brass Co., with offices at 30 Grand St., Bridgeport 2, Conn. Joe sees **JOHN MALLOY** and Judge **JOHN CULLINAN** in Bridgeport.

**JIM BERRY** writes from R.D. No. 2, Stanley, N. Y., that he has four children.

**JOHN FORGE** is still with Goodyear in Des Moines, Ia. Doc holds the distinction of being the first grandfather in the class. Please advise me if there are any other men who are grandfathers.

**BOB NICKELLS** writes from Los Angeles that contemplation of the memorable event (the 20-year reunion) without participation will take a lot of "grin-and-bear-it philosophy."

I visited **VINCE CARNEY** recently in Rochelle, Ill. Vince has four daughters and one son. He promised to see that **PAUL FREY** and **RED LAHEY** of Dixon attend our reunion. Vince also wrote to **CONNIE OCHOA** urging him to attend. Vince makes annual trips to Mexico.

**GEORGE A. SCHEUER** has joined the staff of the South Bend *Tribune* and thereby becomes a member of the Local Arrangements Committee, as well as the Publicity Committee.

**MIKE LAWLER** is doing some ring announcing for the Illinois State Athletic Commission, occasionally on television. **JACK ELDER** is secretary of the Commission.

**JOE BAIRLEY** writes from Saginaw, Mich., that he has four boys and three girls. This ties the record mentioned in the February ALUMNUS of **FRANK KELLY**. Let me know if there are any '28 men who can break this record on number of children.

**MIKE HOGAN** of Fort Wayne called my attention to listing **ROSS E. PETTIT** on our '28 roster as a deceased classmate.

As of April 8, the following men have advised me that they hope to attend our 20-year reunion:

## 1932 James K. Collins, 17 Triangle Ave., Dayton 9, O.

From JIM COLLINS:

A recent letter from WEE HARRINGTON points out that he is bothered with a common malady—trying to keep up with the addresses and other members of the class.

"Each month," Wee says, "I hungrily grab for the ALUMNUS only to be sadly disappointed in the lack of news concerning the last class of '32. As I recall most of them could read and write. Could it be that it didn't take?"

"I think it would be a very good idea if some attempt was made to set up a complete list of the class, the present occupations, size of the families, present addresses, etc. How about putting out a feeler in the next issue of the ALUMNUS?"

"I went to the Army game and was a complete stranger. CHARLIE HITZELBERGER was to have gone along, but in the last minute was forced to continue the struggle to pile up the surtax net income. In three days on the campus I ran into one lone member of the class of '32—BUFFALO BILL HALL. In one hour in a local pub I met the only other member of said class—ED KELLY, who was very down in the mouth as he had just learned that GENE CONNOLLY had more children than he has.

"I see AL WATERS and DICK BOHNSACK regularly. Al is with the Middlesex County Probation Dept., and Dick is coaching a basketball team. (No names can be mentioned as he is very sensitive about their record.)

"A couple of weeks back I ran into JIM O'CONNOR—he is now with the FBI. BILL MURPHY is connected with the U. S. Marshal's office in Newark, and evidently leading a very interesting life. I have written SOL BONTEMPO but cannot get any response. TONY GUIFFRE has become a board and splinter man with the Ira Crouse Lumber Company in Perth Amboy. By the way, Hitzelberger has given up shoe laces and is now selling buffing pads—I think it is from door to door as you cannot sell wholesale at night."

Thanks, Wee, for a fine letter. Does anyone else feel the need of such a directory of the class? If so, drop me a note and I'll see what can be done about it.

BILL CONATON was in Dayton for a day recently and we had an evening. He is still in the dairy equipment business and covers the eastern half of the country.

STAN CZAPALSKI wrote that he would be in Dayton for the Knights of Columbus bowling tournament, but I missed seeing him. He mentioned that he sees THAD ZELOWSKI occasionally. Thad is practicing medicine in Chicago.

From JOE McCABE:

Hope everyone is set for the trek to South Bend—we've got very active men lining things up for us there for the June Reune. Details will probably have reached you, via U. S. mail, before this magazine arrives.

We know that FATHER "CHICK" SHEEDY, C.S.C., will be celebrant of the Class Mass on Reunion Sunday. For the undersigned, at least, it's always a pleasurable thrill to see a former "civilian" and classmate in priestly garb . . . he might be the one who'll sneak us past that Golden Gate! We saw a bit of Father "Chick" in Washington, when we were in darkish garb ourselves (Navy blue), and we found his droll wit undimmed . . . a fine priest, and a great guy.

Those are all the details we can supply as we go to press. Right here is about time for the usual pep-talk promotion to get all hands drooling with anticipation for the arrival of Reunion. But shucks . . . you're probably as tired of reading that big build-up as I am of writing it. You all know what Reunion means—how much solid, unforgettable satisfaction there is, mixed with the gayer highlights of Auld Gang Myne. The fun, the memories, the quiet satisfaction will be there, waiting for everyone who can get there . . . the trip is really worth it . . . and it will be five unpredictable years until the next Reunion. So . . . try to make it, won't you?

Here in Rochester, PETE CONNELLY is definitely planning on going, and is trying to enlist all

classmates within shouting and phoning distance to make up a caravan. Fete's a lawyer, and draws up a nice summons. JACK MURRAY, formerly of Chicagoland, now here with Kodak, is going to try to go if he can swing it. The 'vine has it that JACK TRAVERS is booming the big drum up Buffalo way, and expects a substantial convoy of '33's to rally round for R-Day.

MIKE KOKEN, out in South Bend, is now chairman of the board, Indiana Motor Trucking Association, Northern Indiana chapter, following a year as president of the group. Mike will have to attend the association's annual meeting at Lake Wawasee, Ind., on June 4-5, but hopes to get back for a bit of the reunion on June 6.

NICK LUKATS was in South Bend with JACK CARBERRY in April trying to sign FRANK LEAHY to a juicy movie contract. Leahy refused to become an actor.

### 1935 Franklyn C. Hochreiter, 1327 Pentwood Rd., Baltimore 12, Md.

From HOCH:

We have been away from the office for the better part of two weeks, carrying on at home in place of the "little woman." Our third daughter arrived on April 5 and has assumed her position in the female-dominated castle as Mary Christine.

A card came in during March from ED KILMURRAY telling us of the relocation of his law office in Racine, Wis., to 1927 Charles St.

FRED BROOKMEYER has been in to see us frequently during the past year and during the month of March he has sent us numerous cards from his swing through the South. A stopoff in Florida made the trip worthwhile.

One letter arrived and it was from FRANK SINNOTT. We give it to you as it came to us.

"Every time I receive an issue of the ALUMNUS I determine to write to you and get you up-to-date on what I have been doing and the little bit I know about some of our classmates. As you well know, my resolution to write rarely materializes—I believe that this is my second letter to you in the dozen plus years we have been away from Notre Dame.

"After separation from the Navy in 1945, I returned to my old teaching job at Farragut Academy in Toms River, N. J. Along about a year ago I joined the Contract Field Service Division of Philco Corporation in Philadelphia. So far I have been doing all right in Philco and have no cause for complaint at all. Incidentally, whenever you get up to Philly give me a growl at Livingston 9-6000, or call my home number, Ogontz 3283-W (Home address: 431 E. Wharton Road, Glenside, Pa.).

"In all my travels in the Navy and in my occasional jaunts in civilian life I rarely run into any of the '35 gang. However, my wife (Lorraine) and I did call on JIM and BILL DILLON out in Pittsburgh in the summer of '46. Both of the Dillon brothers spent almost five years in the Army and both had fine records. Bill was in the class after ours in case you are wondering. On the same trip we visited N.D. briefly and we spent some time with BOB SIMMONS in Rochester, N. Y. Bob was back in business with his father, settling down after a very lively time as a glider infantryman (with a splendid record). We had a good reunion in Rochester with CHUCK BRAGG, who is doing well in the building supply business.

"We learned from the Dillon brothers that our old side kick, BOB MAHER, was doing very well as an M.D. somewhere in the Northwest.

## SPOTLIGHT ALUMNUS

MATTHEW H. ROTHERT

Matthew H. Rothert, '24, president of the Camden Furniture Co., Camden, Ark., has been made director for the state of Arkansas of the National Association of Manufacturers.

The announcement of Matt's appointment was made by Arthur G. Drefs, regional vice-president of the N.A.M. and president of the McQuay-Norris Manufacturing Co., St. Louis.

Born in Huntingburg, Ind., Matt began his career with the Huntingburg Furniture Co. and in 1926 moved to Camden. He is chairman of the industrial committee of the Arkansas Economic Council of the State Chamber of Commerce and a director of the Arkansas Public Expenditure Council.

"About a week or two ago I saw an article in the New York Times announcing BOB SIMMONS' engagement to Miss Mary Catherine Simpson of Rochester. We met Mary Catherine during our visit; she is a very fine girl.

"That's about all I can think of now, Hoch, except that the Sinnotts have a daughter, also named Lorraine (age 9 months). I certainly enjoy your notes in the ALUMNUS, and I sincerely hope that you will continue to have every success."

Congratulations on the daughter, Frank. Looks like we are producing plenty of candidates for St. Mary's in the class of '35. How about a trip to Baltimore one day—you're not far away!

That's it this time gang! Let's have a few letters!

ROBERT M. SLACK, who is personnel manager of H. J. Heinz Co., Medina, N. Y., reports that the local K. of C. Council accommodated the N. D. concert band members overnight in its dormitory when the band played in Medina on April 6.

JOHN W. CARBERRY, who is associated with Bing Crosby, visited in South Bend with NICK LUKATS, '34, on April 10.

FRANCIS J. KELLY is postmaster at Mansfield, Pa.

### 1937 Frank J. Reilly, MacNair-Dorland Co., 254 W. 31st St., N. Y. C.

From FRANK J. REILLY:

One of the first and certainly the most ambitious piece of mail to arrive after the February issue of the ALUMNUS had been received was a four page tome from PHIL HOSTERMAN, now a travelling man for Eastman Tag & Label Co., Seattle. Phil makes his home in Seattle, living at 4807 Hudson St. He writes: "You will probably have to turn back the pages of history a few years in order to identify the writer and a few of the names mentioned herein. . . . It happens that I'm on the road for the above concern covering most of Washington, western Idaho and northwestern Oregon. This offers an explanation—just in case you're wondering—how I happen to see these lads in various locations.

"Just left Aberdeen (Wash.) yesterday (Mar. 5) and while there had lunch with MAURICE SCHAFER, '38. Being a lumberman, Morrie's biggest problem has been trying to fill the demands of the public. . . . 'public' included a certain Miss Marie McHugh. . . . Apr. 10. . . . the wedding will take place at St. Joseph's Church, Seattle.

"Over on the other side of the state, I frequently see WALT SMYTHE, formerly of Salt Lake City, who is now with General Electric's atomic energy project in Richland and Hanford, Wash. I usually take advantage of the hospitality offered by the Smythes' and stay over long enough to enjoy some of Helen's good dishes and a pleasant evening. Their three healthy youngsters add their share to the evening and make it seem more like home. (We have two boys; and do I miss those kids when I'm on the road!)

"Walt is in the personnel division and has to do some travelling himself on occasions when he attends hearings in Olympia and Seattle.

"While in Spokane recently, I ran into JOE McGRATH, '36, at the Quarterback Club. He is now taking his masters at Gonzaga U., while doing some teaching there. He also coaches track. He boasts of a few things, principal among them being Mrs. McGrath, four youngsters and the fact that he once weighed 155 pounds.

"Also in Spokane I enjoyed frequent visits at the home of JIM DURBIN, '47, of the Indianapolis area. Jim is learning the clock works of the hotel business at the Davenport and making grand progress.

"Our club in western Washington has also been making good progress. We have a membership of close to 100 of which 60 per cent is active. In the Seattle-Tacoma area, I often see DICK CAMP, ex. '36; GENE BICHON, '40; JOE HERRIGAN, PAT GOGGIN, JOHNNY ENGLISH, CHARLIE OSBORN, JERRY KANE and others.

"Say, I'd sure be interested in knowing a little about such boys as JACK GILLESPIE, BUD BONFIELD, JACK MCGURL and FRANK BARBUSH."

Thanks, Phil, for the wonderful letter. We hope those fellows mentioned will get in touch with you directly and drop us a note for inclusion in the column. Incidentally, Phil Hosterman is one fellow whom I think I could recognize anywhere, any time and under almost any circumstances.

Another piece of mail from the West Coast, this time a birth announcement post marked Los Angeles, went a long way toward solving the riddle of "what ever became of MART HUSUNG?" The

card announced the birth of Karen Elizabeth to Martin and Grace Husung, who have two other children, Brian and Kathleen. Mart received his law degree from N.D. in 1939. Wish he'd write us a nice long letter, which when stripped of its legal verbiage, might throw some further light on his recent activities. The Husung's address is 1637 Hiltz Ave., Los Angeles 24.

Coming further east, we received a card about a month or six weeks ago from Dr. HERBERT E. LANDES, M.D., who announced his association with EDWARD T. WILSON, M.D., '37, with offices at 30 N. Michigan Ave., Chicago 2. The doctors are limiting their practice to urology, according to the announcement.

BEN SCHERER, violin virtuoso of the class, sent us a clipping from the Bridgeport (Conn.) Post of the announcement of the engagement of Dr. MICHAEL R. SCULLY to Miss Mary Louise McQueeney. Perhaps by the time this item sees print the couple will have been married, since May 15 was the date set for the wedding, the clipping states. It also points out that Mike was graduated from Columbia Medical School following his graduation from Notre Dame. His address is given as 3265 Main St., Bridgeport. Ben, who is living at 12 Orchard Ave., in Port Chester, N. Y., unfortunately omits any details as to his own activities.

Moving east again with a report on the mail, this time it's a letter from our very wonderful, priestly classmate FATHER CRONAN (BOB) KELLY O.F.M., in Rome. The big news about Cronan is that he expects to return to the United States around June 12 for a visit. He'll probably go back to Rome, unless this puts the whammy on him, where he's been stationed with the Procurator General for about the past year.

The mail having been dispensed with, I'll try to recollect all the news of any members of the class whom I've met or heard from over the telephone lately. First, there's JOE QUINN of Newton, N. J., and the limestone business. I met Joe in New York along about the end of January at a luncheon of the Circus of Saints & Sinners. There, too, I met GREG RICE and GEORGE KEENAN, '38, fellow Jerseyite of Joe's and mine. Joe seems to be doing very well for himself in the gravel business, but so far has avoided any entangling marital alliances. I think it was Joe who told about WILFRED KIRK receiving a fellowship or scholarship to study at the Harvard Business School for a year or so. Will had been Grand Street branch manager for National City Bank, I believe. The scholarship award, it seems to me, was given on a competitive basis, which is darn good for an old Phy. Ed. man, what. Then, on the other horn of the dilemma you have HARRY MARR, A.B. and all that sort of thing, who is doing extremely well as a football coach.

Speaking of doing well, did you know that MARK LONERGAN is probably the class leader in the stork derby with four kiddies, and that VINCE HARTNETT, when last heard from, was negotiating with one of the large producers to write a well-known radio show, one script for which had already been accepted?

JOE SCHILLING recently became associated with Robinson Brothers-Buffalo Ammonia Works, Brooklyn, as plant manager. Formerly with E. F. Drew Co., Joe lives in East Orange with his wife and three children. Joe tells me he has bought a house in Livingston, N. J., where he will move shortly.

I sat with ED HUISKING at one of the luncheons during a recent soap convention in New York, but missed Ed, and saw brother DICK instead at the big dinner of the Drug, Chemical and Allied Trades Section of the New York Board of Trade at the Waldorf in March.

While in Baltimore during January, I had a sort of farewell luncheon with CY STROKER. My duties at the office have been shifted somewhat so that I don't expect to be going to Baltimore once a month to close a magazine. Cy said at that time he had hopes of a possible transfer eventually to New York, but I have heard nothing further on it from him.

I would have spent a weekend with JOHN WAL-LACH if I had been able to join my regular retreat group for three days at Mt. Manresa, but events prevented my going, so I'll have to adopt the Brooklyn motto and "Wait 'til Next Year."

FATHER VICTOR J. BOISVERT, C.S.C., who had been doing such fine work at St. Joseph's Holy Cross Home Mission of Mississippi in Pearlinton, Hancock County, Miss., returned to N.D. recently

## SPOTLIGHT ALUMNUS

The appointment of James O. Cole, ex-'34, as secretary of the Reconstruction Finance Corp. effective March 1 was announced by John D. Goodloe, chairman, in February.

Jim's service with the RFC extends back to August, 1933, when he started in the Drainage and Irrigation Division. Born in Peru, Ind., he is 36 years of age. He was educated in the public schools of Peru, and attended Notre Dame for three years. He completed his undergraduate work in 1935 through evening studies at George Washington University. Studying law in the

evening classes of the Georgetown Law School, he was graduated in 1939 and is a member of the Bar of the District of Columbia and the State of Indiana.

Jim and his wife have four children, and make their home at Silver Spring, Md. During the war he served two years as lieutenant in the Navy, attached to the Office of the Secretary of the Navy.

because of ill health. Father Victor, who was graduated at about our time, has been assigned to light summer work in the cooler Michigan climate, after having had a throat infection cleared up and undergoing a major operation.

How about sending me a flock of letters with lots of names to help build a really impressive column that would be in keeping with the wonderful "new look" of the ALUMNUS.

CLARENCE C. MOORE is a consultant radio engineer in Elkhart, Ind. GLENN W. RICHARDSON is personnel branch manager of the Kroger Co. in Charleston, W. Va. His address is 3 Estill Drive.

CLOYD D. SMITH, 2119 S. Setuloeda Blvd., is a consulting mechanical engineer in Los Angeles. WILLIAM E. GIBSON is investment manager of the peoples National Bank, Grand Rapids, Mich. JEROME M. DAVEY is the owner of the Bowl-Mor Grill, 306 N. Michigan St., South Bend.

## 10-Year Reunion June 4-6

From HAL WILLIAMS:

The top spot this issue goes to PAUL HUGHES (310 Paterson Building, Flint 3, Mich.) for this letter which was folded around his contribution for the 10-year reunion fund. He writes,

"Here's a brief history of myself: I married a little Irish girl from Flint in 1940. We now have two girls and a boy—2, 4 and 6. Beginning in 1943, Uncle Sam had a mortgage on my life for 23 months, nine days, four hours, ten minutes and thirty seconds. I spent most of my time in the hills of Idaho at Farragut. I spent five years with my brother in the collection business and on Nov. 1, 1947, was appointed trustee for the Charles H. Mann estate in Flint. Our job is to mortgage property, collect and buy land contracts, invest in bonds, etc.

"See GEORGE McDERMOTT quite often and he says he is going to write you, but guess he is too busy. He is married, has three children and lives in Flushing, Mich., about ten miles from Flint. He travels for the Hickok Belt Co.; I also saw TEX HAGGAR and JACK MAHONEY at one of the N.D. football games last fall. Oh yes, also bumped into GEORGE HOWARD. I see BUD SHERWOOD occasionally; the Sherwoods have a beautiful baby boy. . . . I would like to know DENNY EMANUEL's address or would appreciate hearing from him." [Secretary's note: See below.]

BOB LEONARD, writing from Nanticoke Acres, Seaford, Del., says, "Just a few words to let you know that I'm planning on attending the reunion. I'm driving out from Wilmington and I'll have room for four others besides myself. I'm writing to ED WRAPE and FRANK BRIGHT to ask if they want to go along. . . . Frank is practicing law in Franklin, N. J. He left the FBI about two years ago, you know. He and Joan now have two children (a boy and a girl). BILL BRANNIGAN is in San Francisco, I hear. ED WRAPE will graduate from Harvard in June and I hear he plans to teach at Notre Dame. I am still with duPont, manufacturing nylon. We have three children—two boys and a girl, Beverly Teresa, who was born in August."

And then came this note from JOE MOORE, "Just got back from Florida last night and the ALUMNUS was on my desk this morning. I note your appealing last paragraph so I'm enclosing a check. P.S. I got a letter from JOHN PINAS. He can be reached care of TEX Bearing Co., Bridgeport, Conn. Quite a few of the boys have lost touch with him." Joe's address is Detroit Ball Bearing Co. of Michigan, 48-50 West Fulton St., Grand Rapids 2, Mich.

The following day this post card arrived from JOSEPH G. ALLI (3340 Baltimore, Indianapolis 18, Ind.), "I would like to say hello to JOE CALLAHAN, JOE DeFRANCO and ALEC SHELOGO through your column."

RAY E. LONGSTRETH (928 Laurel Avenue, Zanesville, O.) writes, "In an effort to make your latest vocation, the promotion of greenbacks, a bit easier, enclosed please find the equivalent of fifty beers (Milwaukee price quotation). Assuming that your pleading is founded on the basis of charity and further believing that charity is repaid a hundred-fold, I'd like to warn you that I expect to see about five thousand beers lined up at SWEDE BAUER's farm—this should be a fair start for the '38 gang."

JOHNNY Di MATTEO (509 Montgomery St., Miamisburg, O.) writes the following: "At present I'm associated with my brothers in the wholesale produce business. Last January my brother CHARLIE, '34, and I opened the Di Matteo Spaghetti House here. Only periodically do I don the chef's cap and make with the spaghetti and meat balls while Charlie manages out front.

"REX WEAVER, who was my roommate in Walsh Hall, is serving his first term as judge of the municipal court here, and he is doing a fine job.

Rex was elected last November after having served as city solicitor prior to his army service with the counter-intelligence corps. McCARTY and ARBOIT are three up on me. All I have to offer are two candidates for St. Mary's, class of '61 and '66. Hope to see all the boys at the reunion."

Now to render a public accounting of the money that I have received for the 10 year reunion funds (some of this was accounted for in the April issue):

Tom Mulligan .....	\$1.00	Ray Longstreth .....	5.00
Joe Moore .....	2.00	Tom Hutchinson .....	1.00
Paul Hughes .....	1.00	Johnny Di Matteo .....	5.00

This \$15, along with my own two dollar contribution, has been forwarded to JOHNNY PLOUFF.

On April 10, DON HICKEY, chairman of the South Bend reunion committee, wrote that Plouff has received about \$85 so far for expenses. Don also passed along this information: "Dr. 'GOMER JONES' HUGHES dropped in the other day. He stopped by school to see the fifth pre-med Hughes, and then was going on to see another brother at St. Louis Medical School. OWEN KANE reports that he, 'BABE' KELLY and GARTLAND have their wives 'sold' on the reunion weekend. MIKE 'DUTCH' ZELLER called in April. He is traveling for the Civic Music Company and raises and races horses during the summer." And then, with characteristic modesty, Hick tacks this P.S. on his letter, "I'm marrying Anne Jo Mullen in Los Angeles on June 19." Congratulations, Hick. There goes one of the last of the confirmed bachelors..

Hick enclosed all the letters Johnny Plouff has received. I'll merely note the names and addresses of these unless the writer has some definite news to pass along. Here goes:

PAUL J. LEAHY (National Drug Company service representative, 527 North Sandusky St., Tiffin, O.) . . . "CHUCK" TERRY and I'll be there. Oh Boy!" . . . Dr. TOM HUGHES (481 East Town St., Columbus 15, O.) . . . WALT DUNCAN (914½ Main St., Mt. Vernon, Ill.) . . . J. B. MAGEE (Wolverine Tube Division, 416 Jackson Bldg., Buffalo, N. Y.) . . . BOB HOLTZ (Elkhart, Ind.) . . . ART MULHERN . . . BOB LeMIRE (attorney, Escanaba National Bank Bldg., Escanaba, Mich.) "My brother Dr. DON and I are making plans to attend . . ." . . . GEORGE W. JOHNSON (107 West Vine, Taylorville, Ill.) . . . JOHN O'CONNOR (attorney, 108 East Washington Bldg., Indianapolis 4, Ind.) . . . Dr. JOHN C. LUNGREN (Walker Medical Group, 430 West 14th St., Long Beach 13, Calif.) . . . TED TREFZER . . . JIM CARSON (Anderson, Ind.) . . . Dr. DENNY EMANUEL (203-204 McNett Bldg., Ottumwa, Ia.) . . . CAS VANCE . . . ANDY PULPIS . . . DON CURRIER (Currier Lumber Co., Detroit) "I'll get in touch with TED TUFZER, TIM CRUISE, BILL ROBINSON, and a few others in Detroit and try to get them down for the reunion."

JOHN N. POORE (4520 Gaston Ave., Dallas, Texas) PHIL BAYER (Quaker State Oil Refining Corp., St. Mary's, W. Va.) . . . PAT CAREY (601 North Main St., Kokomo, Ind.) . . . MIKE CROWE (2352 Adams, Indianapolis 18, Ind.) "Right now my fingers are crossed because I don't know yet if the Indianapolis News can do without my services from June 4 to the 6. Also my son and two daughters no doubt will find it hard to be fatherless for three days. Of course, they thrived without me for 14 months during the war." . . . LAWRENCE G. HESS (894 Sherwood Road, Charleston 4, W. Va.) "I don't believe I'll be able to make it, but just in case I might I am enclosing my contributions. FRANCIS A. KROEGER is now living at 2221 Galeta Ave., Youngstown 4, O. He is married and has a boy about 16 months old."

Well, that's it, boys. The committee is working hard and the reunion plans are well laid. A great many of you have made plans to attend the reunion but haven't come across with that initial two dollars yet. Let's get the money in right away to the reunion treasurer, Johnny Plouff, assistant business manager of the University. We need that money for mailing and down payments on refreshments.

Make plans to attend, send in that two bucks, convince your wife that it will do you good—spiritually and physically—to attend—and then travel out to Notre Dame to see all your old friends and classmates.

See you at the reunion!

P.S.—When TOM HUTCHINSON sent his contribution along he wrote, "Hey, let's have a \$100

## SPOTLIGHT ALUMNUS

LOUIS F. BUCKLEY

Louis F. Buckley, '28, associate regional representative of the Social Security Board in Cleveland, lecturer on labor economics at Western Reserve University, and president last year of the Catholic Economic Association, is the current president of the Catholic Conference on Industrial Problems.

Louie, as secretary of his class since 1928, is preparing plans for the class' 20-year reunion on June 4, 5 and 6. He has for the past 15 years been vitally interested in the Catholic Conference on Industrial Problems, which endeavors to bring about a better understanding of labor and management problems. He said:

"Although we are not able directly to solve problems of labor and management, we have been able to promote study of labor and management abuses and foster a better understanding of industrial problems . . . We will try to present the solution in the light of the Papal Encyclicals."

Convinced that unions eventually will attain to the dignity of the old-time guilds, he believes that radicals in labor are losing ground, although he says that they present a serious threat.

"Management and labor must learn to have mutual respect and confidence. . . . The way to a solution is through reviewing labor difficulties in the light of the Papal Encyclicals, which point out to labor and management the rights and duties of each."

Louie taught economics at Notre Dame for 10 years and at Catholic University for three years, and was a guest professor at American University in Biarritz, France. He is a director of the Alumni Association and a member of the American Economic Association and the American Association for Labor Research. He and his wife and two children live in Euclid, near Cleveland.

Not long ago, you'll recall, the Alumni Office cooperated with the Population Reference Bureau in a survey of the '23 and '38 classes regarding births. You'll be interested in the results. (For a comparison with '23, see the '23 column in this issue.)

Three hundred twenty-eight, or 68 per cent, of the cards mailed were returned up to March 31, when the official compilation was made. Of the 328, there were 278 who had married, and these 278 reported a total of 525 births, or an average of 1.89. Two hundred and forty-one of the 278 had had at least one birth in the family. The average number of births for the '38 men reporting at least one birth was 2.18.

According to the survey, the leaders in the class, each reporting five births, were JOHN BUCKLEY, Oak Park, Ill.; CHUCK SWEENEY, Pontiac, Mich.; PAT McCARTY, Toledo, O.; ENNIO ARBOIT, Peoria, Ill.; MARC BALL, South Bend; PAUL LEAHY, Tiffin, O.; and JOHN O'DONNELL, Pittsburgh. Remember we're writing only about the men who returned cards.

(It of course ought to be reported here that early in April after the survey was completed, Paul Leahy went out in front in the '38 derby, according to Alumni Office scouting reports. Paul and his wife now have three boys and three girls.)

The '38 men reporting four births are numerous and include: RAY MEYER, Chicago; TOM ATKINSON, Cambridge, Mass.; CHUCK TERRY, Findlay, O.; BERNIE PETERSON, Middle River, Md.; JOE MOSHER, Genoa, N. Y.; DICK HENNESSY, Indianapolis; TOM HUTCHINSON, Bend, Ore.; CHUCK BOROWSKI, South Bend; JOHN

## 1940 Robert G. Sanford, 4218 N. 17th St., Milwaukee 9, Wis.

From BOB SANFORD:

The postman was keeping our spirits up for a while, but during the last month the letters stopped. We hope these letters which we are passing on to you at this time will inspire you to decide to "GET THAT NEWS OF CLASS OF '40 ON TO SHORTY."

HARRY STEVENSON sends us the first news for this issue, written under the following letterhead: "Sporting Goods, Stevenson and Troy, 17 S. Warren St., Dover, N. J." and he says: "The letterhead will save a long-winded explanation and at the same time spare you some very gruesome details. Let it suffice to say that my present field of endeavor stems from a natural aversion to hard work. It is only fair to add that this 'natural' aversion was nurtured, polished and developed to a very high lustre after three years with Uncle Sam.

"Since '40 my personal fortunes include a very lovely wife, an astute young daughter of four years (getting so I can't even fool her any longer) and last but not least, one poor, miserable Oldsmobile.

"I see some of the guys every now and then—JOE McKEON drops in on us here at the store, at which time I nail him for a soda. GEORGE PLAIN and HANK BORDA usually make the monthly meeting in Newark. Both George and Hank appear very prosperous.

"I haven't been back to South Bend since '40, except for a brief glimpse from the windows of a troop train 'way back in 1942. I hope to make it for one of the games next fall."

A great letter, Harry, please keep them coming. We all enjoy hearing from you and are looking forward to the next one.

Next we have news from PHIL DONOHUE who writes: "In the service, I visited with many Notre Dame fellows, too numerous to mention.

"Enjoyed a happy reunion with some golfing teammates at Des Moines during the 1947 Western Amateur. BILL CASTLEMAN, TOMMY SHEEHAN, and SAM NIELD were there. Missed 'SHORTY' SCHALLER, my freshman year roommate. Had the pleasure of losing in the third round to Bud Ward, National-Western title holder.

"Am in the cattle business, having spent many months in Montana, Wyoming, Colorado, Texas, and other western states during the past two years. Now I am permanently located in Sioux Falls, S. D., heading Rice Brothers Live Stock Commission.

"Incidentally, if any pheasant or duck hunters venture out here, tell them to drop in because I never pass up a shooting party. Wonder where all the Alumni Hall second floor gang went to !!! Some of them are BUD KOTTE, JACK HACKETT, ROY PINELLI, BILL FAY, JOE RYAN and JACK PINDAR.

"Always glad to read your column, 'Shorty' and I hope everyone responds to your call for news." I certainly do hope that other members of our class respond as well as you did Phil. Thank you very much for that fine letter.

By the way, Bill Fay, as sports editor, is now writing a sports column for the weekly magazine, *Collier's*. He is certainly doing a very good job and I have enjoyed all of his articles which I have seen.

JIM DONOHUE started a letter on stationery of A. G. Becker & Co., 120 South La Salle St., Chicago, Ill. He promises to continue it soon, but for

now he says: "I see TOM LLOYD quite regularly. He is paymaster at Marshall Field & Co., and is doing a good job of it. He is married and living in Evanston. Another member of the class in the department store field is TOM LISTON. He is with Mandel Brothers, and is responsible for the proper functioning of the store on State Street. The next nearest thing to the department store field includes TAD HARVEY, who is with Simmons Mattress Company. We saw him at lunch one day, and I almost fell over at the size of him—he has taken off a lot of weight, but still looks like he could handle himself in any situation.

"JOHN HENEBRY, of whom I have been very proud, due to his splendid military record, is functioning at Chicago Douglas Airport in his own business, called Synotive. I am not sure of the technical details, but they play nursemaid to airplanes of all sizes, especially the large ones owned by the larger corporations. John is also active in the Air Reserve, and has a responsible command.

"TOM BARRY, ex-40, and one of your fellow townsmen, promised me several times that he would call you when he got up to Milwaukee, and that was one reason why I postponed this writing. He is with McGraw-Hill Publishing Co., and sells advertising space for their electrical trade magazines. We are associated in the Marine Corps Organized Reserve in Chicago. Tom is C.O. of 'A' Co., and I hold down the battalion operations job.

"I see one group of fellows that are as close now as they were when in school. They gather every Wednesday at noon and include TOM DUFFY, a practicing attorney, JACK HUSSEY, also a lawyer, but working with Foote, Cone, & Belding, an advertising firm, DICK DILLON, JACK HENNESSY and BILL GEDDES."

Good work, Jim, I'm looking for the rest of that letter, because the part received certainly was interesting. That's two Donoghues heard from, we are waiting for the rest of you now.

BOB SULLIVAN uses the stationery of the College of Law at the University of Notre Dame to give us the following message: "As you can see, I am a member of the law faculty here at Notre Dame. In September of 1947 I forsook the practice of law in Lima, O., and returned here. Apparently I was not alone as our classmate GEORGE WALLACE is gracing the halls of the Commerce School as an associate professor of Finance. JOE MILLER, a combination student with a degree in Commerce in 1941 and Law in 1942, although actually one of us, is also teaching in the Commerce School and at the same time working towards his C.P.A. in South Bend. Others in the combination course, who are actually men of '40, save for the official record, put in an appearance at the Army game and gave a running account of their activities since graduation.

"ED KELLY is in Chicago doing legal work for the Meister Brau Brewery Corporation. JOHN SPECA, is a professor of law at Kansas City College of Law, Kansas City, Mo. JOHN KELLY, after five years in the navy and finally receiving his law degree from Notre Dame in 1946, is practicing in Akron, O. HENRY SCHRENKER is practicing with his brother, Paul, in Anderson, Ind. BUD BERNARD is running his father's lumber business in Youngstown, O.

"Now for some news of the official men of '40. LOU ZONTINI, the father of two girls, is working for Thompson Products Corporation in Cleveland. BOB GRISANTI, who went to Western Reserve for his law degree is married, an expectant father, as this is written, and practicing with his brother AL, Cleveland city councilman, in Cleveland. AL MOONEY is coaching football at a boys' school in Hartford, Conn. CHUCK RIFFLE has just completed his second year with the New York Yankees of the All America Conference and is living in New Jersey. CEC JORDAN is a South Bend sales representative for I.B.M.

"JOE McKEON, father of a boy, lives in Caldwell, N. J., but works for a business systems concern in Jersey City. DON FOSKETT is with the diocesan paper in Hartford, Conn. GENE FEHLIG is in the construction business with his father-in-law in Helena, Mont.

"PAUL GLASS is vice president in charge of personnel for a mortuary chain in Los Angeles, Calif. BILL COLEMAN, who had to leave school in September of 1939 due to the death of his father, is the father of three fine children and the president and dynamo of the Colman Petersen Corporation in Cleveland. He is well on his way to being one of

the first self-made men of the class of 1940. LEO SANTINI is with his father in the moving and storage business in New York City. WAYNE WAHL is a sales representative for I.B.M. in South Bend. JOE THESING is doing personnel work for Chevrolet in their plant south of Chicago. BUD KERR is football coach at the University of Denver, Denver, Colo.

"I am here at Notre Dame specializing in Corporation Law and taxation. The work here is keeping me busy, but with three children and living in Niles, Mich., it's a merry-go-round."

Sully, let me tell you that it is men like you who make my duties as class secretary an easy job. We certainly appreciate your exceptional letter and are looking forward to your next one. Thanks a million, Bob, you certainly have contributed well to this column.

Out east to 62 Lewis Road, Merrick, L. I., N. Y., where RED MARTIN of track fame is now living. Red has this to say: "To bring you up to date on myself I started out at Fordham Law School after I left Notre Dame. Got through a year and two thirds before I was called to active duty with the Navy. Went to indoctrination school in the first class at Notre Dame, came back to New York and was commissioned in August of 1942. Spent another four years here and there in the Pacific and ended up as a lieutenant commander in Washington, D. C. After being separated I returned to Law School and was graduated last June, have been admitted and am now practicing in the legal department of the Preferred Accident Insurance Co. of New York.

"After separation from the Navy I was married to Rita E. Cordts of Jamaica, N. Y., and we spent our honeymoon—my eighty-five days terminal leave—touring the U. S. and Canada. Have now settled down in our own home in Merrick, L. I. and dreaming of ways to make enough money to send my son—a ten-month-old red head—to Notre Dame.

"Get around to the New York Alumni Club meetings and have picked up the following information: ED BADDOUR, a southerner, has come north and is now working here in the city; JIM ROGERS is still with the FBI and doing swell; TOM FORD recently finished Harvard Law School and is now with some large N. Y. law firm; JOE MANGANO is getting slimmer every day; JIM CAWLEY is working on the editorial staff of *Haire Publications* and supporting a family; ED FULHAM recently arrived in N. Y. to work for Chase National Bank, has given up newspaper work for this advertising job; PETE REILLY was in my class when I started back in 1940, but he came home a little sooner and therefore was able to get practicing law with a firm here in the city.

"My roommate DOUG BANGERT—Major Bangert—is still in the Marines. As you probably read he did a fine job during the war. Helped sink a battleship, was awarded the Distinguished Flying Cross, and ended up with command of his own TBF squadron at Okinawa. He has since commanded a fighter squadron and only recently finished a special training course at Quantico. He is now assigned to the Amphibious Force of the Atlantic Fleet as aircraft support officer. He's married, has two children, a girl and a boy.

"CURT HESTER was back east last summer and came up to New York for a couple of rushed visits. He was in training at the FBI school at Quantico. He finished training in August and has since been assigned to Butte, Mont., and reports he is getting along in great style. GREG RICE, '39, was televised last Saturday night at the New York A. C. track meet. In fact he broadcast the two-mile run in which my kid brother FRANK, ex '46, ran third. Greg is still with the Marx Toy Co. and enjoys his work. Frank tells me that CHARLIE PATERNO is a resident at the hospital where he trains.

"What ever happened to TED JOCHEMS? I suppose ED McLAUGHLIN is around these parts now, although I haven't seen him."

Thanks very much Red, a marvelous job, we are pleased, make us pleased again real soon.

The last letter for this issue—sorry there aren't more, but I am looking for a big response to this plea—comes from JOE LARKIN. Joe has this to say: "My story since that memorable graduation day in June of 1940 reads as many others. Into service in 1940 (U.S.N.), out in 1945. I found time to journey to the chapel at Notre Dame in 1942 where FATHER BRENNAN married us. In August 1943 I acquired a son, J. W., Jr."

Joe continues: "Now for the part where your eyes pop. On March 1, 1946 my wife, Elizabeth, gave birth to twin boys, named Frankie and Teddy after my two brothers. On March 4, 1947 we duplicated the above performance with another set of twins, this time a boy, James Arthur, and a girl, Jane Ann. Thus, Notre Dame is assured of fine backfield material about 1960, plus one contribution to St. Mary's.

"I am engaged with my father in the sale of heavy construction machinery in central Pennsylvania area, with headquarters in Harrisburg. Later we hope to manufacture machinery.

"You mentioned CLIF LECHTER (Washington office FBI) in the ALUMNUS column. Cliff is now associated with our outfit. He has a charming wife and two husky boys.

"Saw BILL SYRING in Washington a couple of times. He is planning to practice law on his own. Often wonder about my old roommate BUD GENTNER and TONY MALLECK and JOE MANNIX, don't these fellows ever send any news?"

I hope these fellows take example from you, Joe, and let the rest of us know about themselves. You certainly rate a good nod, and I'm sure you are very happy with your fine family. Please send any more news along as soon as you hear about it. Thanks for a great letter, Joe.

No more letters to pass on at this time, but I expect the rest of you to furnish me with some material for this column. Saw TED BRUSH the other day, but he was so busy with his own engineering consultant business that he didn't have time to tell me what to say about him. I have recently acquired the title of Certified Public Accountant and have managed to keep very busy this past income tax time.

Let me leave each and every one of you with this one inspiring thought:

**1942 William E. Scanlan, Pullman Savings Trust & Savings Bank, 400 E. 111th St., Chicago, 28.**

From BILL SCANLAN:

It's great to see some of the '42-ers taking a vital role in heading Notre Dame clubs around the country. No less than five presidents of clubs were in our class. Take a bow: FLOYD (SLUSH) RICHARDS, radio station WTIC's gift to Hartford, Conn. JOHN HOELSCHER, Buffalo, N. Y.; BILL WILSON, Blue Water District around Port Huron, Mich.; BILL HOYNE, Dayton, O.; and JOHN MALONE, Toledo.

From STEVE GRALIKER of Decatur, Ill., comes this: "What's happened to the Class of '42? No news is good news is consoling, but very DULL. The latest I've got is the engagement of Mary Ellen O'Connor of Winnetka, Ill., to JAMES F. McNULTY, Jr., of Chicago. They plan to be married in the fall. The 'Barrell' contends he had the situation well in hand, but no matter how you hear it, it's still Leap Year.

"While in Chicago not long ago JIM McNULTY, JOE HARTGES, '39, and I saw BILL STURBITS ascending an escalator. He waved hesitantly and made the next one down to see who it was. Also visited WALLY KELLY, '43, and his family. Understand BYRON KANALEY, Jr., "broke in" a new Cadillac sedan en route to Florida this winter. I was mildly surprised to receive word of NEIL McCARTY's marriage in February. I was confident I had a comrade in arms for at least a year.

"While driving to the N.D.-Navy game last October I was detoured into a hospital for about 10 days in Bellevue, O. My only regret is that I can't remember listening to the game the next day. Mr. and Mrs. WALTER P. McCOURT, Jr., and "MAMA" CLARK drove over from Akron one evening. Next day the hospital authorities asked the medicos if I weren't able to travel. En route to the Army game, Mr. and Mrs. EDWARD DUNLAWY stepped for a visit. The 'Big E' is still the 'Biggest.' I see JIM McGRATH, '41, JIM McROBERTS, '40, and JOE PEDAUCCI, '39, quit often. Otherwise I have little news from Notre Damers except LAWRENCE F. HICKEY, LARRY and BUDDY CONCANNON rounded out the Army weekend with a tip to Decatur. After talking to the 'Biggest' they expected to find me just this side of Calvary Cemetery.

"I'm still wondering what happened to ED MANGELSDORF, LARRY KELLY and HARRY BEAL. They must be trying to write those letters underwater."

Nice going, Steve.

While dashing for an I. C. at the Randolph St. station in Chicago recently, I ran into ANDY GORKA. He's with Kraft Foods, as an electrical engineer. He's married and that night he came over to Pullman Bank—that's where I'm holding forth now in the advertising dept. Andy had with him Andy III. Andy's Navy career sent him to Cornell for a spell and there he ran into LARRY KELLY, PAUL LILLIS and TRUK SHUREK. He also hears from BOB HEIL occasionally. Bob heads a Coca Cola firm in the big town of Urichville, O. It's near Denison.

In addition to Cornell, Andy also spent some time at M.I.T. and Harvard. He also sees JOHN GILBERT, Caterpillar Tractor Co., Peoria, once in a while, and DON FIEGEL. While stationed at Mare Island, Calif., where he was married, Andy bumped into TOM GESELBRACHT, a ship designer. Tom was best man at Andy's wedding.

It's a bit late but last fall I was best man at GEORGE UHL's wedding. It was a fine example of the value of direct mail advertising. George is now one of Sinclair Oil's engineers and found a home in East Chicago for the new Mrs. in short order. PAUL DERRY came over for the wedding, in Chicago. He was with the Eli Lilly Co., pharmaceuticals.

JACK DINGES is currently with the Swift Co., advertising dept., in Chicago. He reports that BILL BAADER has an art studio on Chicago's north side, that JOE PALMER was last heard from in California, that JOHN GRIFFIN works in Kansas City, that TOM KAUFMAN and NORM VAN SICKLE are also Californians, that BILL KIRBY was an Army MP, Dinges recently left the Hinsdale Doings,

a weekly newspaper, for the Windy City and Swifts.

TOM POWERS is currently one of ARCH WARD's aides on the Chicago Tribune's sports staff but he found time to round up a nifty New York Daily News item on Detective JIM BURKE. It was all about the stories of several New York policemen and their sons following in their footsteps. Here's the News' comment on the Burkes:

"James Burke fooled his dad, Capt. Patrick Burke, attached to Traffic C. Jim went to Notre Dame, was graduated—and then came back to enter the force. He now is a third-grade detective, but he also is waiting to see that sergeants' list.

"Young Burke is a newcomer, having been on the force for only three years. But for a time he was wearing another uniform—Uncle Sam's. As a waist gunner on a B-29 he earned the DSC and an Air Medal with three clusters."

So there you have it, and let's get back into a corresponding state of affairs. Remember,

**IF IT'S NEWS, WRITE SCOP.**

From Mrs. LORA LASHBROOK:

This is a "command performance" ordered by Mr. SCANLAN from his office in the Pullman Trust and Savings Bank in Chicago. My compliance is not so much a tribute to his executive ability as it is an excuse for me to indulge in my favorite occupation—talking about the Notre Dame lawyers.

JIM MCGOLDRICK recently passed the New York bar examinations and is engaged in practice in New York City. ROC MONTEGNA is practicing in Chicago. Occasionally he got some current news from him through his brother, JOE, who is a Junior in the law school now. BILL MOONEY has left the FBI and opened an office for practice in Iowa. JERRY O'DOWD is practicing in Ft. Wayne, Ind. BOB RICHARDSON has also left the FBI and recently applied for admission to the North Carolina bar. He expects to practice in Lumberton, N. C. where he was stationed for a time with the FBI.

AL CHOLIS is attorney for the OPA in South Bend and was on the campus last week escorting a very lovely young lady. JOHN VERDONK was elected prosecuting attorney for his home county in Michigan last election.

LOUIE ANDERSON is practicing in South Bend in the office of which Congressman GRANT is a partner. JOE BARR recently made headlines when he was appointed assistant state's attorney for his district in Illinois. The Barr's added a baby daughter to the family not too long ago, making three for Joe. JIM DANER is practicing in Mt. Clemens, Mich. JIM DIVER is connected with the Federal Court in Indianapolis, according to a front page story in the Indianapolis papers. TED FERRICKS is practicing in Marion, O. Ted's brother, AL, is in law school now. BILL HOSINSKI is a familiar figure around the court house these days, and is apparently doing a good practice.

JOE LAVERY is in Quincy, Ill. TIM MAHER is living and practicing in Pittsburgh, Pa. The Maher's recently became parents of a baby girl. LEO LINCK is in practice at Muskegon, Mich. TOM CAIN's activities in Niles, Mich., make the newspapers every day or two. Among other things he is Justice of the Peace there.

JIM NEU has an important job as attorney for the Columbia Broadcasting System with offices in the Earle Building in Washington. You will remember that Jim went to New York as attorney for the CBS and left to enter the Army. Upon his return he was assigned to the Washington office.

Among those of the class of 1942 who have recently graduated from the law school or who are presently in law school are GERRY SHEA, JACK FINNIGAN, LOU CARUSO, GRAHAM MCGOWAN, FRED McMAHON, HERB MELTON, SAM MOLTER, TONY GIRALOMI, MIKE and JIM GODFREY, NICK PAPPAS, VAIL PISCHEK, JACK RYAN, NICK VILLAROSA, JACK BARRY, JOHN WUERTZ, and TOM MITCHELL.

MALCOLM V. T. WALLACE is in the graduate school of Harvard University. His address is 25 Harvard Way Extension, Cambridge 63, Mass. DAVID C. BAGLEY is in law school at Catholic University. His address is 3960 Tunlaw Rd., N.W., Washington 7, D. C.

JOHN C. GROEGER is teaching English, German and Spanish at the University of Portland. His address is 2534 S.E. 35th Ave., Portland 2, Ore.

CHARLES H. DEGER, who died on Feb. 20, 1944, while in naval service and was buried in Ipswich, Australia, is now at rest in Dayton, O.

The body arrived in the United States on the "Cardinal O'Donnell," which docked on Feb. 11. The funeral services in Dayton were in charge of the Naval Reserves, which provided an honor guard of 20 men at the funeral home, ten of whom were on guard all of the time. A firing squad of 10 men and a representative of the admiral flew from Columbus to be present at the funeral.

Feast of S. P. Canisius

#### DEAR SCOOP:

I'm Matty Byrne's brother. I know you could not forget Matt. I am 5 years older than Matt. With the grace of God I am to be ordained this June 19th at Weston. Matt will be in Heaven exactly 5 and a half years that day. He made the supreme sacrifice Dec. 19th. I shall sing my first Solemn Mass Sunday, June 27th, at Our Lady of Mercy Church, Bronx, N. Y., at 11 a. m. I invited JOE POWERS, C.S.C., to act as sub-deacon but he couldn't make it or at least he couldn't say yes when I asked him. My Reception is at Bishop Hall, Fordham University. Matt's mother, dad, and sis and I would be thrilled to greet Matty's friends that day. I shall be eternally gratefully to you, Scoop, if you mentioned these facts in your column. I correspond with the families of Cy Miller, Jack Whelan, Tom Banigan, Charlie Tobin and I have gotten together. Saw Vince Daigler and ? Fallon while I was teaching at Canisius High School, Buffalo. Have attempted in vain to contact McCarty at Harvard and Grady of Holyoke. Although my alma mater is Fordham I am notorious among my religious brothers for my love of ND.

God bless you, Scoop. Write, please, if you have time. Keep me in your prayers during this last 1-8th mile.

Sincerely in the Sacred Heart of Jesus,

TOMMY B.

## 5-Year Reunion June 4-6

From ED RONEY:

SY/ATR SY/ATR. Yes, nine out of ten men who have made a Notre Dame reunion say, "See you/at the Reunion!"

The big news this issue is our Five-Year Jubilee Reunion from June 4 to 6. Plans are about completed to make it the biggest and best ever. You've all received a letter from President JACK TALLEY and you either have received or will soon receive reservation cards from PETE MORITZ. Even at this comparatively early date in mid-April, it looks like a big majority of the class will be there.

This issue of the ALUMNUS will contain the overall program. Any of the fellows that were there the last two years can tell you how good that really is. But, as for '43's particular plans, PETE and HERB MELTON have been working hard and the schedule reads something like this:

A big party, get-together, bull-session, etc. at the Indiana Club Friday night will officially open our own portion of the fun. Herb and his committee have spent a good deal of time making arrangements for this and promise a real blow-out at low cost. Saturday night is the occasion of the general Alumni Association banquet but after that another, more informal, party is planned.

Sunday, and in a more serious vein, the class will be privileged to attend a Mass said by one of our own classmates for the deceased of our class and the next one of us to die. This should be a popular activity as many have requested it, and '43 has lost over 10 per cent of its men since graduation.

We'll of course all be housed in one spot on the campus.

Other things popping up are an answer to a challenge from one of the other classes to a softball game Saturday afternoon; swimming in St. Joe's for the more hardy; plenty of reminiscing with old pros and deans; and looking at the gang's pictures of the one-and-only and junior.

One thing can be guaranteed—everyone will have plenty of fun and will never forget those three days. So make your reservation now, if you haven't already, and plan on getting there as early as possible. If you must miss Friday, don't count yourself out; there'll still be two days left.

Other news this month that would ordinarily take top billing but is pushed to the second page by the reunion is the arrival of a new member of the class of '69, BLAIR JUDE MCGOWAN. Jean and Blair now have a girl and boy and, Blair, Sr., promises to have pictures of both to show BOB MORRILL and the rest of us at the reunion.

Pallbearers were from the Charles "Buddy" Lewis Post No. 5343, Veterans of Foreign Wars, Villars, N. J., which was named for him. Members of the Philadelphia Notre Dame Club, of which Charlie was a member, attended the funeral Mass in a body.

**1944 John A. Lynch, 15724 Granville Rd., Detroit 23, Mich.**

From JOHN LYNCH:

Dr. DANIEL J. ROURKE is at St. Peter's Hospital, Albany, N. Y., and not practicing in Greenwich N. Y., his home town, as the February column reported.

Dan wrote on Feb. 28:

"Graduated from Georgetown Med. in June, 1947. BILL RABBETT and VINCE MURPHY, both of '43, were in my class. Rabbett is married and interning in St. Vincent's, New York City, and Murphy is at Georgetown Hospital in Washington. I am still in my internship at St. Peter's and expect to go on from here for more training.

"Was back this past fall for the Army game, but stayed in Chicago. Was only at school long enough to see the game and get back to Chi. Saw a lot of familiar faces around the Stevens. . . . Expect to go to New York this Monday afternoon for the N.Y.U. game at the Garden."

BILL SCHEUCH has come up with a new address. This time it's 2064 Hermosa Avenue, Hermosa Beach, Calif. Bill was married last May 3 to Betty Hows of Cleveland.

March 14 he wrote:

"Just received the latest ALUMNUS and noted that the class of '44 has become pretty skimpy in their correspondence. Hope this helps. Of course I have been lax myself—have been meaning to write people like KEN BROWN, MIKE MALLOY and JOE FIEWEGER, but somehow the weeks fall into months.

"Took in the Southern Cal game here last December and what a happy day it was. Really a good bunch, but I still like BERTELLI, C. MILLER & Co. of '43. It was the only time I have seen the Irish since graduation.

"See very few Notre Dame men out here—but I have not been active in the club as yet. Hope to one of these days."

"BLACK JOHN" MURPHY has gone East again, after a position in Hammond, Ind. He is now with the Charles Pfizer and Co., Manufacturing Chemists, Brooklyn, N. Y., as a personnel assistant. Ag and Johnnie, III, of course, are with him.

The news from Murph on April 6:

"Big Universal Notre Dame Night at Jake Rupert's famous brewery here in New York: ED DOWLING was there, along with many friends I haven't seen for years. JERRY GAFFNEY, BILL ROGERS, JACK SULLIVAN, BILL 'PEEKSKILL' O'CONNOR, BILL TALBOT, JERRY BROWN, JACK FALLON, BERNIE RUTLEDGE and scores more were on tap.

"The defeat of N.Y.U. was enjoyed by all true and subway alumni. O'SHEA and company were brilliant. The spirit? It was there all the way!

"Announcements from the JAMES LLOYDS of Chicago, and AL YOUNGHAUS' of Fort Wayne, tell of early March arrivals in their homes."

Murph adds a note that he would like to hear from ERNIE SEDLMAYR, 'RED JOHN' MURPHY, MICKEY FINN, BILL O'BRIEN, 'RED BILL' MURPHY and the other classmates who owe him mail. Murph can be reached at 585 Isham St., New York 34, N. Y.

Mr. Douglas Grant has informed the ALUMNUS that the body of his son DICK GRANT, who was killed in action in France on Nov. 23, 1944, arrived in New York on April 1. The body was interred in St. Joseph's cemetery, Freeport, Ill. ## 1947 J. D. USINA, 219 S. Scott St., South Bend, Ind.

From J. D. USINA:

After ten months of class reporting it is real encouragement to receive TWO letters the same day from members of our class who break their silence with some swell reports. JIM SHERIDAN, 172 Mill Spring Road, Manhasset, L. I., had this to say:

"Thought you might be interested in knowing that we New Yorkers manage to get together more than just for N.D. club meetings . . . weekend of Feb. 28 found several of us huddled in a trail lodge in Peekskill, N. Y., waiting for the weather to break . . . fireplace burned eight-foot logs like toothpicks . . . among those present were JIM ATKINSON, LEN HART, KEVIN CARLEY, GEORGE BARSA, ED BUDDOW, '40, JOE MALONO. . . After the N.Y.U. game we had another get-together at Joe King's—the old German-American Club . . . ART MURPHY, JOE DEITRICH, JACK DILLON and CHARLEY KEOGLER. . . Everything is going along pretty well. Majoring in English is great groundwork for selling of real estate."

Thanks very much, Jim, and good luck pushing that real estate. The other letter was from JIM MURPHY, Evanston, Ill., who is working in the ABC newsroom in Chicago while working towards a master's degree in journalism at Northwestern. Murph passes along:

"DAVE KORTY is with the Lafayette Loan and Trust Co., Lafayette, Ind. . . studying in the graduate school of economics at Yale is CHUCK MONTRE. . . JIM KELLY is attached to the United Nations Affairs division of the State Department in Washington, D. C."

We won't mind a regular letter-a-month Jim. See if you can keep it up.

And from HARRY GILLIGAN, Jr., Cincinnati, we get some news about the marriage of his brother FRANK GILLIGAN to Patricia Frances Hamer in early January. Ushers and guests included JOHN GILLIGAN, DAVE CHAMPION, JOHN DERRICK, ED BALL, JOHN CARON, HENRY SLAMIN, GENE GILES, BOB SNEE and Harry. Seems it was quite an affair with the "Ye Delicate Fellows" in their usual glory.

Last night I saw JIM GRIFFIN who was in town from Chicago where he is with Kenyon and Eckhart, advertising.

We had a "pathetic plea" in last issue for news from the silent members of the class of 1947. PLEASE speak up with some contribution!

EMIL SLOVAK, who was coaching at Punahou School in Hawaii, has resigned to accept a position with Lewers and Cook, Ltd., in Honolulu. His address is 2390 Koa Ave., Honolulu, Territory of Hawaii.

ANGELO BERTELLI is completely recovered from the knee injury which kept him sidelined all last season. Bert, whose knee was operated on last fall, strengthened the knee by ice skating every day during the winter and will be ready to go when ED McKEEVER calls his Chicago Rockets pro football team together next summer. Bertelli opened a pretentious sports good store in his home town, West Springfield, Mass., during the winter.

FRANK C. VENNEN, whose studies were interrupted by service in the Army, has returned to Notre Dame and is residing in Cavanaugh Hall.

When two National League professional basketball teams met in South Bend on March 4, two Notre Dame men were pitted against each other. JOHN R. NIEMEIRA, playing for the world champion Fort Wayne, Ind., Zollner Pistons, met EDDIE RISK, '41, of the Oshkosh, Wis., All-Stars.

PAUL BROTEN is employed as a mechanical engineer in Lockport, N. Y. His home address is 279 Caledonia St.

JOHNNY DEE has signed a three-year contract to coach football and basketball at St. Mel High School in Chicago. ED STELMASZEK, '46, will be his assistant.

JOHN F. MAHER, who is with the Foreign Service in Germany, reports that there are quite a few N.D. men serving in Germany, most of whom will remain in Germany for at least two more years. He mentions THOMAS McMAHON, FRANK WILSON and ROBERT GSCHWEND. At present they are discussing the possibility of forming a Notre Dame club in Germany. John's address is O.M.G. Hesse, APO 633, c/o Postmaster, New York, N. Y.

Lt. JOHN MINICLIER is serving with the Marine Corps on Guam. His address is: HAA Group, 1st AAA Bn., FMF Pac, Guam, Navy No. 926, FPO, San Francisco, Calif.

LAWRENCE J. LYNCH is in the truck transportation business at 5132 Forest Ave., Kansas City, Mo.

GEORGE H. TAYLOR is assistant plant manager of Fox-Vleet Drug Co., in Wichita, Kans. His address is 416 Mathewson Court.

ROBERT C. TRAINOR is a senior at the University of South Dakota, Vermillion, S. D.

## 1948

HERMAN ZITT, working in the Foundation office at Notre Dame, generously gets the class news under way with the following:

With this, the May issue of the ALUMNUS, the class of '48 is getting off to a flying start by getting some class news in print before Commencement. This issue is being distributed to the June grads so that they can drop in their suggestions to me before leaving for the four corners of the U. S.

The purpose of this writing is to elect a class secretary who can report all of the class news to BILL DOOLEY, '26, managing editor of the ALUMNUS. The sooner your nomination is received the sooner we will have a permanent class secretary. Also any suggestions as to the length of the secretary's term of office, etc., would be welcomed.

Meanwhile fire in to me by pony express, telegraph, long distance telephone, or just plain mail all the news about yourself and your particular pals—jobs, new jobs, marriages, births, new addresses, etc. In other words, send any kind of stuff that you'd like to read about somebody else. Our class being the largest graduating class to date should furnish me with a wealth of choice material to insert in this column.

Anyway, for better or for worse, here's the collected data on the gentlemen of '48: JOHN ALVAREZ is working as a salesman for the George A. Miel Co. in New Jersey. DON STOCKING is a patent examiner for the Patent Office of the Commerce Dept. in Washington. JAMES DUTOIT is a junior accountant with Haskins & Sells in Detroit. TOM JACKSON is a partner in the Bruner Picture Service in Hamilton, O.

EVERHART SCHLECK is training with an X-ray equipment company in Milwaukee. JOHN HORRI-

GAN is a junior analyst with the City National Bank in Chicago. DICK STACK (being married in June) is a sales manager with Remington Rand in Wausau, Wis. JIM WEBB is a salesman with the Underwood Corp. in Philadelphia. FRANK WOLF is production manager for the Coca Cola Bottling Co. in Mt. Carmel, Ill.

BOB FELTES is taking graduate work at UCLA. TOM HERBERT is a store manager for the Herbert Bros. Furniture Co. in Auburn, N. Y. MURRAY McNAMARA is a salesman for the Rhineland Paper Co., in Rhineland, Wis.

BILLY VOLL is assistant to the general manager, Sibley Machine & Foundry Corp., South Bend, Ind. CLETUS F. DIRKSEN, C.P.P.S., is an assistant professor of economics at St. Joseph's College, Collegeville, Ind. JOHN DEEGAN is in a training position for Schuster's in Milwaukee. BERNARD DUCLOS is a research engineer for the New York Air Brake Co., in Watertown, N. Y. JOHN MADSEN is a salesman for the Peerless-Tulsa Co. in Tulsa, Okla. TOM HARDMAN is co-owner of the Hardman Hardware Co. in LaFontaine, Ind. AL KAISER is a management trainee for the Kendall Co. in South Bend.

FRED KLEIN is practicing law in Perth Amboy, N. J. BILL GRIFFY is a salesman for the Champion Rivet Co. in Cleveland, O. JOHN BREHL is a reporter for the *Toronto Star* in Toronto, Ont. TOM KILDUFF is an electrical draftsman in Chicago. ED O'HARA is a social and welfare worker in Niagara Falls, N. Y. WALLY ANDREWS is with Better Brushes in South Bend. JOHN CRADDOCK is working for the Elgin Watch Co., Elgin, Ill., and JOE DeMURO is working for the Notre Dame Foundation here at Notre Dame.

## N.D. Men Attend Meeting

Fifty-four faculty members and alumni attended a social hour for Notre Dame chemistry alumni at the Stevens Hotel in Chicago on April 20 in connection with the American Chemical Society convention. Dr. J. P. Danchy of the Corn Products Refining Co., Argo, Ill., acted as local representative of the department in making the arrangements.

when there must be a voice other than the state's if the state should yield to error.

"We are convinced that at the moment there is a great good will in America toward all education. American people are convinced of the merits of education. The American government is on record as desiring to subsidize education to a degree unprecedented in our history, and we have long led the world.

"But we feel that the proponents of private education rooted in the principles of religion possess the deposit of faith of the great political experiment that is the hope of the world, American democracy.

"We feel that just as science has created forces which threaten to destroy all progress that man has made through the centuries, so the American government, all unwittingly, may create an educational system that, divorced from its integration with the religious roots that made it great, may be its actual undoing.

"We urge that our friends remain clear on the discussion of the separation of church and state. And this point should be foremost. The church, separated from all governments, has lived. All governments, except to date the American, separated from religion, have died. But if we remember our origins, and remain steadfast to those
