# 800 N.D. Alumni Attend Class Reunion Program

Approximately 800 alumni were "checked in" at the general registration desk during class reunion weekend on June 8, 9 and 10. 1906, celebrating their 50th year of graduation, was the largest Golden Jubilee group that has returned to the campus in recent years. They met for a buffet dinner in the Morris Inn on Friday night and then joined in the general program during the remaining part of the weekend. Celebrating their Silver Jubilee, the men of 1931 were headquartered in Lyons Hall and had a turnout of approximately 200. Some of the special features on their class weekend program included a dinner on Friday night which was highlighted by a door prize drawing of about 50 gifts contributed by class members and a luncheon on Saturday at which they were guests of Father Hesburgh in the Dining Hall. Other 5-year classes back for reunion included 1911, 1916, 1921, 1926, 1936, 1941, 1946 and 1951.

The Notre Dame national Monogram Club held their annual election meeting on Saturday in the Morris Inn Golfers Lounge (story in sports section of this issue). The engineering alumni met in the Engineering Auditorium while the Law Alumni Association held their usual board of directors meeting in the Law Building. An innovation of the weekend was the band alumni get-together in Washington Hall which is a forerunner to the establishing of a permanent organization of the band alumni group. Old grads of the College of Commerce assembled there to greet the new dean,

Dr. James Culliton. Professor Robert Ervin gave a special lecture with slides and a motion picture on the work being done in Lobund Institute. The O'Shaughnessy Hall Gallery was the scene of a fine arts exhibit.

Alumni attended Memorial Masses on Saturday morning for deceased members of the various classes. Father Hesburgh and Joseph I. O'Neill, Jr., Midland, Texas, president of the Notre Dame Alumni Association, were the featured speakers at the alumni ban quet on Saturday night. The banquet also included the presentation of golf awards by Rev. George Holderith, C.S.C., to alumni who had participated in the weekend tournament. On the program were the introductions of class groups and the award of a Gilbert's Campus Shop hat to Ed Figel, Chicago. of the 1911 Class.

Reunion festivities were brought to a close on Sunday morning when an overflow crowd attended a Low Mass celebrated in Sacred Heart Church and listened to a sermon preached by the Rev. Joseph Barry, C.S.C.

# Degrees Awarded Graduates At 111th Commencement

Admiral Arleigh A. Burke, chief of naval operations, delivered the commencement address and the Most Rev. Thomas K. Gorman, Bishop of Dallas-Fort Worth, preached the baccalaureate sermon at the University of Notre Dame's 111th annual commencement on June 3rd. Approximately 1,122 graduate, professional and undergraduate degrees were conferred by Rev. Theodore M. Hesburgh, C.S.C., at exercises in the Stadium.

#### Give Honorary Degrees

Honorary degrees were awarded to the two speakers as well as to Secretary of the Treasury George M. Humphrey, Washington, D. C.; Frank M. Folsom, president of the Radio Corporation of America, New York City; Dr. Marston Morse, a noted mathematician at the Institute for Advanced Study, Princeton, N. J.; William K. Warren, chairman of the board, Warren Petroleum Corp., Tulsa, Okla.; Dr. Philip E. Mosely, professor of international relations at Columbia University's Russian Institute, New York City; Walter Duncan, '12, La-Salle, Ill., oil executive; and John A. Coleman, of Adler, Coleman and Co., New York brokerage firm.

Duncan is an alumni member of Notre Dame's Associate Board of Lay Trustees. Folsom, Coleman and Warren are members of the University's advisory councils. Warren's son, William Warren, Jr., is president of the 1956 senior class, while Coleman's son, Thomas A., is a member of the class.

A Solemn Pontifical Mass was celebrated in the Stadium by the Most Rev. Leo A. Pursley, Apostolic Administrator of the Diocese of Fort Wayne, Ind. Following the Mass Father Hesburgh blessed an American flag which

the seniors presented to the University on Washington's Birthday. Traditionally, the flag is blessed and flown for the first time on graduation day and then throughout the following year.

In his address Admiral Burke declared that the United States "will never wage a war of aggression." He warned, however, that we will not be "pushed around by any tyrant or groups of tyrants that threaten the cause of freedom in this world."

#### Adm. Burke Cited

Burke was the principal speaker and was cited as "the highest type of military leader." Secretary of the Treas ury George M. Humphrey was commended for his "quiet yet forceful statesmanship" in dealing with the economic complexities of these times.

Admiral Burke asserted that "the strength of our moral principles" in America is even greater than our military might and industrial resources. He described our American concept as "brilliant" compared to Communism "which is presently engaged in repudiating its own founders." The World War II naval hero told the Notre

Honorary degrees were presented by Rev. Theodore M. Hesburgh, C.S.C., president (center, front row), to the following distinguished recipients: front row, left to right—Hon. George M. Humphrey, Secretary of the Treasury; Admiral Arleigh A. Burke, USN, Chief of Naval Operations and the Commencement speaker; Most Rev. Thomas K. Gorman, Bishop of Dallas-Fort Worth, who delivered the baccalaureate sermon; and Frank M. Folsom, president of the Radio Corporation of America. Also, back row, left to right, are: Dr. Philip E. Mosely, of the Columbia U. faculty; William K. Warren, chairman of the board, Warren Petroleum Corp.; Dr. Marston Morse, of the Institute for Advanced Study; Walter Duncan, oil executive; and John A. Coleman, of Adler, Coleman and Co.

Dame graduates "your fitting-out period has ended. You are headed for an open sea," he said, that is "more challenging, more capricious, and as a consequence, more demanding than it has ever been in our nation's history."

Bishop Gorman, in the baccalaureate sermon, contended "there is probably more know-how about our world coupled with less know-what-it-is-allabout than ever before in history." He attributed this to "two voluntarily self-imposed blind spots in large and growing sections of the learned and scientific world."

#### Reason and Free Will

He said that in their rejection of reason and free will a vast group of the world's scholars and scientists have discarded "as working instruments the two human tools that distinguish men from beasts." To reject reason, he said, or "even seriously question its validity as the sceptics of various stripes do, is to remove moral certitude from the whole field of learning and life." Those who deny free will in the area of morality and moral responsibility, Bishop Gorman said, "surrender to the blind irresistible forces of nature pushing men on helplessly toward goals they know not or of no goals at all."

The annual \$500 Lay Faculty Award of the Notre Dame Alumni Association was presented at the commencement exercises to Professor James Dincolo, head of the accounting department in Notre Dame's College of Commerce. A native of Medford, Mass., Dincolo has been a member of the Notre Dame faculty since 1937.

Most Rev. Thomas K. Gorman, Bishop of Dallas-Fort Worth, preached the baccalaureate sermon at Notre Dame's 111th annual commencement.

William K. Warren, chairman of the board, Warren Petroleum Corp., Tulsa, Okla., who was an honorary degree recipient, congratulates his son, William K. Jr., president of the Senior Class, after the latter had received a bachelor's degree from Notre Dame's College of Commerce.

Admiral Arleigh A. Burke, USN, Chief of Naval Operations, delivered the Commencement address at Notre Dame's June graduation exercises. To his right is Rev. Theodore J. Mehling, C.S.C., Provincial, Indiana Province of the priests of the Congregation of Holy Cross.

# Editorial Comments from your Alumni Secretary

Will your son come to Notre Dame? From a number of comments during the recent Alumni Board meeting,

Jim Armstrong

the Council of Local Alumni Club Presidents, and the Reunions, (it was a full week), you might think that the above question was something new, something frighten-

Actually, it has always been a reasonable and real question. Plus others that follow.

Does your son want to come to Notre Dame? Some don't.

Can you afford to send your son to Notre Dame? Some can't.

Is your son prepared to come to Notre Dame? Some aren't.

Under the partial interpretation of the wide publicity given Father Theodore Hesburgh's aspirations for Notre Dame, there has been a corresponding misinterpretation of Notre Dame's admission policy in the years ahead.

So far as I know—and the Club Presidents and those attending the 1956 Alumni Banquet should bear me out in this-there is little change in policy except the recognition of the same factors that are accompanying the other competitive factors in your

The world is demanding different things for success, in some respects, than it formerly demanded. To succeed in business, in literature, in law, in medicine, and in many other fields of endeavor, it is necessary to be better because channels of communication have improved the perceptive powers of those measuring success.

Therefore it is only logical that your son, to meet the new world, should be prepared for the new standards.

And the old questions remain just as applicable.

In thirty years on the campus since graduation, it has been my observation that some boys who have come here to please an alumnus father have not been happy, and often not successful because of it. To make your son want to come to Notre Dame is a job for . you, requiring information, participation and inspiration.

Can you afford to send your son to Notre Dame? The same long period

of observation has convinced me that much heroic sacrifice has been put into sending some alumni sons to Notre Dame. Aside from sentiment, and loyalty, which are beyond price, I am not sure that much of this sacrifice has been repaid, either in the education derived, or in the institutional ties, often much weaker than those which motivated the sacrifice.

Is your son prepared to come to Notre Dame? This is the question which does have a bearing in an era of intensive selection, and of rising standards of admission. These conditions are not peculiar to Notre Dame. Any boy heading for higher education in the years ahead will have to intensify his preparation, whether for Notre Dame or any other private college or university-and State schools are rapidly moving to effect the same standards, to conserve their limited plant and personnel resources.

Your move in this area is to interest yourself in your son's preparation long before he files his application for college.

See that the sound basic fundamentals of reading, writing and arithmetic of his elementary school years find more than a glancing impact on his young mind.

When he enters high school, see that the boy and the school are aware that he intends to go on to college. You can easily determine that he has a course of studies to match the requirements of Notre Dame, for example, which are not unique. And you should, for the boy's sake and the sake of his high school, insist on enough work to pass these courses with high enough grades to keep him in the upper section of his class. This is not the work of a genius that is asked-regular study habits, and a reasonable amount of work will attain it, with adequate time left for the broadening activities that will bring out the leadership qualities and the spiritual and cultural contributions to character that will enter into his college entrance screening.

You aren't driving a 1920 car. Your wife isn't wearing a 1930 dress. You don't depend for your entertainment on a crystal set or a phonograph. And you don't really and truly expect Notre Dame, or any other college or university, to turn out the same graduate to meet this new world that it turned out

to meet the world of one or two or four decades ago.

It would be just as reasonable-and I fully anticipate the attack-to resent the improvement of Washington Hall because it has resulted in the assassination (by paint-brush) of three of the greatest men in the history of oratory and patriotism - George Washington, Cicero, and Demosthenes, whose benign and inspiring faces have for decades looked down on increasingly inadequate facilities.

Your sons will not regret the steps Notre Dame is taking. They would be far more likely to regret their not being

# McCarthy Leaves ND; Will Enter Business

Dean Emeritus James E. McCarthy, of the College of Commerce, has resigned to enter private business, effective June 1, according to a recent announcement. Dean McCarthy was head of the College of Commerce for 32 years prior to his succession last fall by Dr. James W. Culliton.

McCarthy will establish his own management consultant office and also be vice-president in charge of education and public service programs for the Gerity Broadcasting System of Michigan.

### Father Lauck Judges Drawings

The Rev. Anthony Lauck, C.S.C., of Notre Dame's Fine Arts Department, served as chairman for the art jury recently in Cincinnati, O., where he judged drawings of the Sacred Heart. These drawings were by artists from every part of the United States, and were entered in a contest sponsored by Xavier University and the Apostleship of Prayer. The best drawings were placed on exhibition at the Annual Sacred Heart Conference to commemorate the 100th Anniversary of the Feast and later they will be shown in various places around the nation. Other members of the Art Jury appointed to judge the nationally represented collection of drawings were Louis Bouche and Alfred D. Crimi, both renowned American artists, living in the State of New York.

During the Conference, Father Lauck conducted a gallery tour and a discussion of the art works. Notre Dame has already arranged to bring the exhibition to its own galleries at a later date, where the work will receive further study.

#### Borden Freshman Prize

Establishment of an annual Borden Freshman Prize at Notre Dame has been announced by the University's Committee on Scholarships and Prizes.

An award of \$200 will be given by the Borden Company Foundation, Inc. of New York City "to the student who has achieved the highest average grade among the members of his class for all college work taken during the freshman year." Students enrolling as freshmen next September will be eligible for the presentation which will be made early in their sophomore year.

According to H. A. Ross, president of the Borden Foundation, the Borden Freshman Prize is being established at a limited number of colleges and universities "to emphasize the importance of scholarly work at the very beginning of the student's college career." The Foundation has provided a number of annual scholarship awards to college seniors for several years.

# Fr. Cavanaugh Talks at New Hampshire U.

Delivering the baccalaureate sermon at commencement exercises of the University of New Hampshire, Father John J. Cavanaugh, C.S.C., told the graduates that they must "never be contented with mediocrity. If you want peace of soul," he said, "you must strike out for a certain leadership in your civic community, in your business or professional life, in the cultural environment which you enter, in the alertness that you develop towards the affairs of this beloved country, and in its relations to the other peoples of the world."

Now director of the Notre Dame Foundation, Father Cavanaugh stressed that freedom of the thinking power, great as it is, is only one phase of freedom of the spirit of man. "Freedom of the moral side of the human personality is equally, if not more, important," he said.

Sr. Cambra.

Most of the crises of our day, whether they affect the family, the nation or the world at large, "are spiritual and moral crises even more than they are intellectual," Father Cavanaugh contended. "Their solution," he said, "will be found by persons of trained and enlightened minds only if in the spirit of mercy and love and God's invisible help, they will have achieved freedom in their own hearts."

#### N. D. Receives CBS Grant

Notre Dame is one of sixteen privately-supported colleges and universities from which twenty-five key CBS executives were graduated who will receive a grant of \$2,000. The money can be used where most needed, according to an announcement recently by CBS Foundation, Inc., the agency for making educational and charitable contributions on behalf of CBS, Inc., and its divisions. The grants for all 16 schools total \$50,000.

The figure of \$2,000 approximates the "cost of education" which is paid from an institution's endowment or other accumulated funds and is over and above the costs actually charged to the student. Like other college graduates, the CBS executives were not asked to pay this additional part of their college costs at the time they were students. CBS Foundation Inc. began in 1954 its plan of "repayment" on behalf of a limited number of CBS executives meeting certain qualifications.

Mrs. Bonnie Rockne

# Complications Cause Death of Mrs. Rockne

Mrs. Bonnie Skiles Rockne, 64, widow of Notre Dame's immortal football coach, Knute Rockne, died at 4:42 p.m. June 2, in St. Joseph Hospital, South Bend, Ind.

Hospital authorities attributed Mrs. Rockne's death to complications. She had been a patient for several weeks.

Mrs. Rockne lived quietly in the brick home that she and her husband built after he became the most famous coach of his era. Rockne died in a plane crash in 1931 at the height of his career.

The widow of the man who made Notre Dame and football nationally synonymous as a player and a coach never sought the glare of publicity, though former players and friends of her husband often visited her in the years after his death.

Her activities centered largely around her family and St. Joseph's Catholic Church, her influence being a major factor in her husband's conversion in 1925.

In the days when "Rock" was in his prime as coach of the Notre Dame football teams, Mrs. Rockne was much more than the wife of the coach. She won her place in the hearts of her husband's players as a "mom" to the boys, and many a night her home would be filled with Rockne's boys, many of them now remembered as football greats.

The Rockne home in those days was not far off campus and the players (Continued on page 15)

# Father Hesburgh Speaks At Alumni Convention

BY TRUDY ERNST

The second annual Alumni State Convention of the combined Notre Dame Clubs of Florida, held the weekend of April 20 at the Sea Ranch Hotel in Ft. Lauderdale, was highlighted by an address by Rev. Theodore M. Hesburgh, C.S.C., at the Saturday night banquet. Other features enjoyed by the 160 alumni and guests included three days of swimming; bridge, putting and shuffleboard tournaments; diving and tennis exhibitions in addition to various other special features.

Those in attendance not only came from the State of Florida but also from New York City, Cleveland, Ohio, South Bend, Indiana, and Manitowoc, Wisconsin. Following registration on Friday afternoon, guests enjoyed cocktails and dinner served at the Sea Ranch.

Dick Whalen chairmanned the Convention bridge tournament which succeeded in getting three times as many participants as originally expected. High scorers were Willard Moss and Mrs. Dick Whalen. Activity at the card tables came to an end at midnight when Chefs Moss and Ed Kelly served a delicious charcoal-broiled hamburger snack for everyone present.

The putting and shuffleboard tournaments were directed by E. "Fitz" Gore and Hal Peters respectively. Both chairmen were so enthusiastic about

these two events that everybody entered the tournaments. Fitz barely nosed out George Ernst in the putting contest while Dr. Lyle Russell and Charlie Maher were awarded top honors in shuffleboard.

A beautiful and outstanding exhibition of synchronized swimming and diving was performed by the Ft. Lauderdale Swimming Association girls directed by Tom Lamar. Tom Nolan and John Chapla provided the aquatic highlight of the week when they joined the swimmers in a special "balloon race in costume."

After lunch on the outside deck, a professional tennis match was staged between Jim and Jerry Evert, former Irish net stars, and well-known pros Bobby Riggs and Gornts.

Preceding the Saturday night banquet, a cocktail party was held on the pool terrace. John Sullivan, president of the Notre Dame Club of Ft. Lauderdale, was toastmaster at the dinner and introduced Alumni Secretary James E. Armstrong, State Foundation Governor Faris Cowart, and many other prominent guests. Father Hesburgh gave an inspiring address to the group concerning the curriculum and teaching staff at Notre Dame. After the banquet the guests enjoyed dancing in the beautiful launge of the

Assumption Church for the group on Sunday morning and preached a never-to-be-forgotten sermon on the spirit of Notre Dame. After a delicious breakfast, the guests watched him give an impromptu demonstration of skin diving techniques at the Sea Ranch pool.

Holy Cross College, Washington, D. C. In 1933 he studied at the Gregorian University in Rome and received a Licentiate in Philosophy. Father Cavanaugh was appointed prefect of religion at Notre Dame in 1934 succeeding the Rev. John F. O'Hara, C.S.C., who later was to become president of the University and who now is Archbishop of Philadelphia.

Father Cavanaugh was named vicepresident of Notre Dame and chairman of the Faculty Board in Control of Athletics in 1940 and he succeeded the late Rev. J. Hugh O'Donnell, C.S.C., in the presidency. Father Cavanaugh has been director of the Notre Dame Foundation since 1952. His brother, Rev. Francis P. Cavanaugh, is professor of sociology at the University.

# Redecorate Washington Hall; Install Cinemascope Screen

Notre Dame's venerable Washington Hall, scene of thousands of concerts, plays, lectures and historic convocations since its dedication in 1882, is being completely remodeled and redecorated this summer. Scheduled for completion by September, the project includes new seats, carpeting, stage curtains, radiant heating, a cinemascope screen and public address system.

According to Rev. Arthur Harvey, C.S.C., director of the University Theatre, virtually all of Washington Hall's facilities will be new or greatly improved even though no major structural changes will be made in the 75-year-old building. Workmen already are busy from backstage to the lobby and scaffolding rises from the orchestra floor to the ceiling.

The seating capacity of Washington Hall when remodeled will be 848, only slightly less than at present. New automatic uplift chairs with light oak arms and upholstered in red mohair will be installed in the orchestra and balcony. The aisles and side areas of the theater proper are to be carpeted in charcoal grey while variegated black and white rubber tile has been chosen for the flooring beneath the seats.

The ceiling of the campus theater will be painted persian grey and the walls and woodwork will be crystal grey. The proscenium arch is to be framed in two tones of grey with gilt. A brilliant gold velour front curtain with matching valence has been ordered for the stage. The gold motif will be carried out in grand drapes covering the windows.

Father Harvey said that all lighting fixtures in the building are to be replaced. New down lights will provide illumination from the ceiling and recessed lighting will be installed under the balcony. A super carousel lightolier, suspended from the center of the ceiling, will be the only decorative lighting fixture in the theater.

Always known for its favorable acoustics for dramatic and musical events, Washington Hall's acoustics will be improved further with the installation of fibre glass material in the rear walls as well as by a new public address system recessed in the walls.

For the first time, three dimensional movies will be shown there with the installation of a cinemascope screen and the necessary additional projection and sound equipment. The remodeled

Washington Hall will receive a long-needed 'face lifting' during the summer.

building will have radiant heating and a new ventilating system throughout. Backstage, a new silver ripple traveler curtain, a new dimmer unit for the recently installed light board and new nylon rope rigging will add to the attractiveness of theatrical productions and to the efficiency of stage crews.

Washington Hall's lobby and mezanine, too, will be completely redecorated. They will be painted in sandalwood and coral, but the natural oak of the grand staircase will be preserved. The masks of tragedy and comedy, traditional symbols of the theater, will be inlaid in the center of the lobby's tile floor.

Dr. Matt Sullivan (standing), president of the Washington, D. C. Alumni Club, was on a panel session with Maynard Bissonnette (left), president of the Kankakee Valley Club, during the recent Presidents Council held on the campus. John Cackley served as moderator.

Rev. Robert W. Woodward, C.S.C., Director of Office for Military Affairs at Notre Dame, delivers Memorial Day sermon to members of R.O.T.C. groups.

# Military Units Urged To Accept Leadership

Prior to the end of the spring semester, the Rev. Theodore M. Hesburgh, C.S.C., celebrated a military Mass in Sacred Heart Church which was attended by members of Notre Dame's R.O.T.C. units. Preceding the Mass, Rev. Robert Woodward, C.S.C., Director of the Office for Military Affairs at the University, delivered a "Memorial Day" address to student members of Notre Dame's Army, Air Force and Navy groups.

Extracts of Father Woodward's remarks are as follows:

It is altogether fitting that we on this day revere the memory of those who have preceded us and who bought with their blood the liberty of free-men which we enjoy. Although we never knew their company, nevertheless we are their companions and their compatriots.

It is equally fitting that we pay tribute to those who have preceded us in this University and who as citizens and as soldiers have established a renown for patriotism, for learning and for Catholic leadership. It is to their credit and not to us, that Notre Dame enjoys a worthy reputation. What we wear is borrowed vesture. And, although we have all gained much from their wisdom, devotion and example -there remains the danger that we lose all—if we fail to capture the spirit of their achievement. It is not enough for us on this one day to remember our friends and to breathe a prayer in their behalf. We must recapture something of their spirit and motivation.

This is the heirloom which gives character and courage to people, and which when lost, leaves them spiritually bankrupt and divided.

We are living in a new era and we must face up to new problems which impose new obligations and require new solutions. The challenge that is offered to every educated Catholic is to live in the midst of this changing world and yet to remain unchanged. At a time when everything is in preparation,—everything in process, when nothing is completed and nothing fully accepted, we must stand firm and uncompromising on principle. We must be equally opposed to drift as to destiny. We must be conservative, and yet remain creative.

In the face of this ever rising challenge we note a serious lack of generosity and of positive attitudes on the part of Catholic students. Indeed, from the founding of this republic till now, we Catholics have been without an adequate sense of social responsibility. There is too much passive submission and surrender. We need more stiffening. We are too soft, too pliant and too obliging, if Christianity is ever to become a leaven of the mass, then Christians must be everywhere and in ferment. It is not enough to peddle petty accuracies when the times demand high priests and prophets of courage and enlightenment. Modern society and civilization are wasting away for lack of men who can inspire and enlighten others.

# KERVICK FARM DONATED TO OPUS DEI MOVEMENT

Professor Emeritus Francis W. Kervick, former head of Notre Dame's Department of Architecture, has donated a farm in Vermont to the Opus Dei movement. This is the first secular institute approved by the Holy Father. Plans are under way to remodel the farm house that will be used for retreats, days of recollection and courses on spirituality.

Opus Dei was started in October, 1928, by Msgr. Joseph M. Escripa and its primary purpose is to achieve the personal sanctification of its members and to spread the life of Christian perfection. Members are men and women from all walks of life who continue to live their normal ways without the habit or community life of a religious but who consecrate themselves to God by private vows of poverty, chastity and obedience.

# Sculptor Award Presented To Professor Mestrovic

Professor Ivan Mestrovic of Notre Dame received the Gold Medal for Sculpture of the National Institute of Arts and Letters at a recent ceremony in New York. The 72-year-old internationally recognized artist is generally regarded as the outstanding living sculptor of religious subjects.

Mestrovic accepted the award at the joint annual ceremonial of the Institute and the American Academy of Arts and Letters. He was also formally inducted as a newly elected member of the Institute. A Gold Medal for Music was presented to Aaron Copland who has been described as "America's first great composer."

The Institute's gold medals are awarded for distinguished achievement in each of two distinct branches of the arts each year. Ten artistic fields are designated for the award, each being dealt with in rotation every five years. The entire work of the recipient, rather than a specific example, is taken into consideration. Previous medalists in

sculpture were Augustus Saint-Gaudens, George Gray Bernard, Paul Manship and James Earle Fraser.

Mestrovic joined the Notre Dame faculty as professor of sculpture last September. His "Pieta" was recently placed in Sacred Heart Church on the campus after having been exhibited for several years at the Metropolitan Museum in New York City.

# Memorial Day Sermon

(Continued from page 16)

Our aim at Notre Dame is to develop leaders who will think more of cause and of principle than of themselves. We expect Notre Dame graduates to have high ideals and strong convictions. We are disappointed if they are lacking in normal initiative and legitimate ambition.

Only as a commissioned officer can the college graduate enjoy the prized privilege of living and of associating with those of his own cultural background and tastes. Only as an officer will he have the chance to exercise and to develop in himself those very gifts and traits that make for success in every walk of life. Only the officer is permitted and is required to make decisions, to shape policy and to affect the life and character of others—and to a greater degree, and at an earlier age, than anyone, anywhere else.

It is our hope that you young men will continue as you have begun and assume the responsibilities of leader-ship—in one or other of the Armed Services. Without question Notre Dame has the right to expect that you will not set for naught the lessons learned here and first taught you in your homes and in your parishes. Wherever you may be, and under whatever circumstances, let your life and conversation reflect a full and a true Christian culture.

# Student Art Show Displayed at N.D.

One of the largest single exhibitions of art work by students, featuring 150 pieces, opened in the University Art Gallery on Thursday, May 31, and will be on display until July 15.

From the classes in life drawing under Stanley S. Sessler, Head of the Fine Arts Department, are charcoal sketches, pastels, and crayon work of the human figure and portrait studies.

There is an interesting exhibit of sculptures in plaster and patines by students in the graduate studios of Ivan Mestrovic, Notre Dame's distinguished sculptor. A large relief by Mestrovic serves as the centerpiece for the entire exhibition in the west gallery.

Fred Beckman's classes show studies in commercial art, designs for radios, work in hammered and tooled metals, and studies in three-dimensional geometric design. The featured work from the Beckman classes is a scale mode in plexiglass for a new car body, done as his thesis by Virgil Exner, Jr., styled with a new and refreshing streamlining pattern. For this unusual work, Exner won the 1956 Jacques Medal.

Figures of St. Dymphna done in bisque, mosaic panels of the head of Christ, crossed-plane animal forms in ceramic, and several studies of the human figure in patined plaster represent the various classes in sculpture under Rev. Anthony Lauck, C.S.C. Some of these works were recently seen in the Student Sculptors' 6th Annual.

A large group of paintings in oil

casein, tempera, and other special bases are the work of advanced painters under Robert Leader. They reveal the study and understanding of many modern forms of expression and contemporary handling of theme and style.

# NEW ASSIGNMENTS GIVEN TO PRIESTS

Rev. Louis J. Thornton, C.S.C., has been appointed placement director at Notre Dame and Rev. Richard D.

Fr. Thornton

A native of Birmingham, Ala., Father Thornton was graduated from Notre Dame's College of Commerce in 1929. He took graduate

work at New York University and Columbia University and was associated with the Guaranty Trust Co. of New York City for nine years. He was ordained June 24, 1944, and became university registrar a year later. His title was subsequently changed to director of admissions.

Father Murphy was born in Lima, Ohio, but spent most of his youth at Marion and Anderson, Ind. He entered Holy Cross Seminary at Notre Dame in 1921 and was graduated from the university in 1931. Since his ordination on June 24, 1934, he has been a faculty member at St. Edward's University, Austin, Tex., at the University of Portland in Oregon, and at Notre Dame. He is a member of the American Institute of Physics.

# DUKE AND CALIFORNIA ADDED TO GRID SCHED

Duke, Georgia Tech and California will be future football opponents of the Fighting Irish according to an announcement by Edward W. Krause, Director of Athletics. Notre Dame is scheduled for a two-game series with the Blue Devils beginning in 1958 with

the latter visiting here for the first grid game ever scheduled between Duke and the Irish.

Georgia Tech will play at Notre Dame in 1959 but since Notre Dame's 1960 schedule is already completed a return game with the Rambling Wrecks is not slated at that time. Tech and N.D. have battled on 16 occasions, beginning in 1922, with the Irish victorious in 14 games.

A two-game series between Notre Dame and California will start in 1959 with the first contest to be staged in Berkeley.

# ALUMNI **CLU**I

#### Akron

On Tuesday evening, April 10th, the Notre Dame Alumni Club of Akron celebrated Universal Notre Dame Night with a dinner in the Akron City Club.

Mr. A. A. HILKERT, a graduate of the University of Notre Dame in 1911, was honored and named as the Akron Notre Dame Club's man of the year.

The meeting and dinner turned out to be a "Hilkert Night." The Award to Hilkert was presented by his son, the REVEREND ROBERT HILKERT, Assistant Pastor of the Church of the Annunciation, and author of the book, "Everybody Calls Me Father."

LAWRENCE BALDINGER, Dean of the Science department at Notre Dame, addressed the club on the growth of the University's Campus, and told of new dormitories and dining halls to be erected.

Election of officers followed the dinner. Newly elected officers are: TOM BOTZUM, President; E. A. HINDERSCHEID, Vice-President; ROBERT KAPISH, Secretary; and GERALD KLEIN,

Club President TOM BOTZUM attended the Presidents Council held at Notre Dame in June. He represented the local club at the two-day conference which was attended by presidents from 68 Notre Dame alumni clubs throughout the nation. Tom reports it was a huge success and he picked up several wonderful ideas which he plans to pass on to Akron alumni in the near future.

DENNIS SHAUL will begin classes on a full tuition scholarship at Notre Dame this fall. He is the son of Mr. and Mrs. John Shaul, 229 Beck Avenue and was awarded the scholarship on the basis of college entrance examinations.

Early this year the club sponsored the appearance of the Notre Dame Glee Club in Aurora. A fine audience enjoyed the splendid performance. Chairman of the event was ROY O'NEIL, a former member of the Glee Club.

This is one of the activities that the Club sponsors to raise money for our scholarship fund. This year's recipient will be announced in the very near future. John Ambre ('59), who was awarded our first scholarship, has made the Dean's Honor Roll this year.

At our current meeting the following business took place:

Highlight of the April meeting was the intro-duction of James Rose to the members. He is this year's winner of the Buffalo Club's \$2,000.00 scholarship. Everyone was deeply impressed with

Jim. He was President of his Senior Class at Father Baker's High School, Editor of the yearbook and he earned his varsity letter in cross country. The high schools in this area were screened and Jim was selected. Best of luck, Jim!

This year the Stag Picnic was under the direc-on of JOHN NOVAK and HENRY BALLING, JR. It was held on Saturday, June 30, at Cook's Paradise Grove. This was our third year at Cook's and everyone who has ever been there will

cotal and expone the first state of the certainly agree it is a terrific place for a picale.

#### Canada

The first meeting of the Alumni Association of Canada was held recently and a Constitution was adopted and submitted to the Alumni Office.

The dinner meeting was in Montreal on May

30th with 15 alumni in attendance. Held at the Steel Company of Canada's offices we had the pleasure of having Father Maurice Desjardins with us at the affair.

Officers elected were as follows: Honorary President, FRANK J. SHAUGHNESSY; President, P. H. LaFRAMBOISE; Vice-President, JOE BRENNAN; Secretary, ED MULCAIR; Treasurer, BOB HENAULT.

Two (2) of the Directors out of the five (5) to be elected, were also chosen, namely FATHER MAURICE DESJARDINS and BILL SANTEL Three (3) other Directors will be chosen from the alumni across Canada as provided for in the Con-stitution. Therefore, the Board of Directors will a be made up of five (5) Officers and five (5) Directors.

We also had the pleasure of having with us LARRY SULLIVAN who was coaching at McGill in Montreal and we are sure as time progresses that we will be able to bring in a good percentage of the alumni residing here in Canada.

ED MULCAIR, our Secretary, will issue News Letters from time to time informing those who are living in other parts of Canada, of our proposed activities and advising that we will have a permanent secretariat located in Montreal where any visiting alumni will be able to contact members of our group in Montreal or vicinity.

-P. H. LaFRAMBOISE, Pres.

#### Canton

Last Fall, the ND ticket office sent us 50 tickets to the Notre Dame-Miami game.

The morning of the game, some of the Canton Alumni, together with their friends, chartered a plane and flew non-stop to Miami.

It was a genuine pleasure to have our own cheering section for Notre Dame.

We are very grateful to the ticket office for alloting us such a block of tickets and hope the good will and favorable publicity will offset the favor.

The trip was such a huge success that with the help of the ticket office, we are planning another chartered flight trip again this coming season. Universal Notre Dame Night was observed by the Alumni of Canton and Stark County on Wed-

nesday, April 11, at the Holiday Country Club. A very good turnout was on hand to hear DEAN BALDINGER of the Science School brief the Alumni on the latest developments at Notre Dame concerning prospective and present students. He told the Alumni of the new counseling and testing programs. The observance this year was different, in that wives were present, and we hope that this will be an annual affair observed in this manner.

After the dinner and the Dean's talk, movies

# **Connecticut Valley**

Monday, April 9, was a day that will long be remembered by many Connecticut Notre Dame men, their families, and friends, for we were privileged to have the REVEREND THEODORE M. HESBURGH as the main speaker at our annual observance of Universal Notre Dame Night. This was Father Hesburgh's first visit to Connecticut, and the first time in over twenty years that any president of the University has been to the state. Nearly 300 persons attended the statewide reeption and dinner held in his honor at the Hartford Club by the Connecticut Valley Club.

Archbishop Henry J. O'Brien of the Archdioces of Hartford and Governor Abraham A. Ribicoff were on hand to welcome Father Hesburgh to Connecticut. Other guests included Auxiliary Bishop John F. Hackett of Hartford; Monsignor Reilly, Vicar General of the Diocese of Norwich; Father Carl Scherer, club chaplain; and congressman Thomas J. Dodd. Judge Jim Murphy of New Haven acted as toastmaster.

The proverbial dropping pin could be heard as a captivated audience listened to Father Hesburgh discuss Notre Dame of the past, present, and future. He pointed out that Notre Dame has the four qualities that make a university great: a great spirit, a great student body, a great faculty, and a good physical plant. Father Hesburgh also stressed that Notre Dame has always attempted to train the individual to be a good man, no matter what his chosen field of endeavor.

Another highlight of the evening was the presentation of man of the year awards. The president or another officer of each club announced the respective recipient, and Father Hesburgh presented the award. FATHER CARL SCHERER, club chaplain, was our man of the year.

This Universal Notre Dame Night celebration was successful due to the efforts of many, but a few men deserve special recognition. HANK McGANN, general chairman, BILL WAELDNER on tickets, BOB DALTON on publicity, and JOHN ROBINSON on invited guests did a swell job. ART McGEE, JOHN ROBINSON, and TIM MURPHY were very ambitious ticket sellers. Our thanks also go to the Naugatuck, New Haven, and Southwestern Alumni Clubs for their aid in making this affair one for the books.

At the last club meeting, the following officers were elected for the coming year: ART McGEF, president; HANK McGANN, vice-president; LOU BERGERON, secretary; and BILL WAELDNER, treasurer. For board of governors, JOHN ROBINSON was appointed for three years, FRANK AHERN for two years, and DON McMANUS for one year. The club took the first step in forming an auxiliary by appointing a committee comprised of Mrs. Frank Ahern, Mrs. Tim Murphy, Mrs. Bob Dalton, Mrs. Floyd Richards, Mrs. Joe Holbach, Mrs. Don McManus, and Mrs. John Robinson to act as a nucleus.

-LOU BERGERON, Secy.

Unfortunately, we must limit the supper to this number because of the restrictions of space and we've had to turn back a substantial number of requests for tickets during past years. This has developed into one of our most successful activities. "BUD" MULVEY was chairman of the event, ably

assisted by our former president JOHN DUFFY.

San Diego alumni held their annual June Communion Breakfast on June 3 with WALTER C. STEFFEN, '40, chairman of the event. The club chaplain, RT. REV. MSGR. FRANCIS C. OTT,

'17, celebrated the Mass at Blessed Sacrament Church, A group of 25 was present for the break-fast and brief business meeting which followed at the Lafayette Hotel.

Tentative plans for the club's summer schedule called for a beach party and a picnic. HOWARD BEILSTEIN, '47, was recruited to chairman the

beach party.

San Diego's most well-attended Universal Notre Dame Night banquet requires an attendance cor-rection from the last issue of the ALUMNUS. Due to JOHN CACKLEY's deadline, we reported 40 in attendance based on early reservations. The final tally, however, was 68.

San Diego alumni initiated a commencement

award at St. Augustine High School to go to the graduating monogram winner with the highest scholastic average. Presentation of the first award was made June 7 to Darwin F. Dapper. By a happy happenstance, Dapper will enter Notre Dame in the fall to bring San Diego's enrollment

The dinner was held at the Nakoma Country Club and guests who attended included Marquette alumni in this area as well as church and state officials. Plans for this year include the annual summer outing which will be held at one of the golf clubs in the very near future.

Under the general chairmanship of President BILL GIBBONS, the club again sponsored a suc-cessful Old Timers vs. Varsity football game for the benefit of the scholarship fund. The two winthe benefit of the scholarship fund. The two winners of club scholarships this year, who will enter Notre Dame in September, are DAVE FIXLER, Riley High School, and MIKE LAUGHLIN, St. Joseph High School. Fixler received the full scholarship while Laughlin was awarded a partscholarship. The judges, who selected the winners after much deliberation, were: JUDGE ELMER PEAK, OTTO PFAFF, PAUL CLARK, PAUL KELSAY and WILLIAM BRODERICK. The Scholarship Committee was composed of: FRANK MILES, chairman; FRANCIS JONES, JAMES E. ARMSTRONG, CHARLES SWEENEY and JIM MEEHAN. MEEHAN.

DICK RILEY and TOM SHEEHAN co-chairmanned a fine golf outing, held on the Burke Memorial Course, June 20, which was the club's highlight event of the summer. Golf prizes as well as many door prizes were awarded to many winners. Alumni and non-alumni guests also an excellent dinner served outdoors.

#### St. Louis

Our club activities got off to a good start on May 30th with our annual picnic. This year's Committee of TOM McGUIRE, Chairman, MAL-COLM DOOLEY and DAN SULLIVAN chose the Ivanhoe Lodge as the picnic site. The swimming, food, drink, the many fine attendance prizes and the special added attraction of ponies for the children made the picnic an outstanding affair.

On August 14th, we will have our first annual Golf Tourney. LOU FEHLIG is Chairman for the event which will be held at Norwood Country

Club. The golling will be followed with a dinner for club members whether they play golf or not. Any alumni or faculty in the city on this date

are urged to attend.

GEORGE CONVY, JOE GOLABOWSKI and the officers are presently making final arrangements with the railroads for our annual scholarship fund football trip. This year, we will have the Oklahoma game for our trip. Since this is our only source of income for our scholarship fund, every effort is being made to promote this trip to attract our biggest attendance yet.

At the present time, the officers are at work on our program for the coming year. We are in hopes of having a guest from the University for each one of our affairs and on Universal Notre Dame night we are again going to have a speaker of national prominence who is in some way con-nected with or has shown an interest in Notre Dame and its program.

We are in hopes this year of completing and publishing our Roster. This Roster will be made up so that additions and changes can be made without the necessity of printing an entire new one each year.

#### Toledo

The Notre Dame Club of Toledo held its Annual Communion Breakfast on Sunday, April 28th. Toledo Alumni, their wives and friends attended Mass and received Communion at Rosary Cathedral. A slight drizzle outdoors hadn't dampened the ardor of the group at all when President BILL MUR-TAGH, Co-Chairmen JIM SATTLER and CHUCK SCHIRA greeted them at the front door of the Cathedral and ushered the Notre Dame men and wives to the special reserved section.

Following Mass, breakfast was served in the white-and-gold room of the Park Lane Hotel. REV-EREND JOHN E. WALSH, C.S.C., who came from the campus especially for the affair, was guest speaker. His message was an inspiring one-what a Notre Dame education means to a man throughout his entire lifetime, the deep-down foundation it gives him for building a full, beneficial life in the name of his Maker and for the good of his family and his fellow-men.

Father Walsh told of recent developments on campus—the planned dining hall, new residence halls—and the current needs of the University. We learned informally that in addition to important academic matters, both football and girls are still major topics of student talk between classes and before "lights out."

In the name of the Notre Dame Club of Toledo, President Murtagh presented a check for \$1,500 to JACK SOLON, Toledo City Chairman of the

Alumni and guests enjoyed a fine meeting at the Elks Country Club in Lafayette for UND Night. TED BUMBLEBURG, JR., President, presided during the evening. DEAN BALDINGER of the Science School at ND, and Jack Mollenkopf, head featball years at Parking 19 football coach at Purdue, were our guest speakers. As happened a year ago, Mrs. Mollenkopf won the ND blanket we raffled, and last year Dr. Wendell France of the Purdue faculty won a blanket, so we are going to have our colors and monogram all over the Purdue campus.

A committee headed by BOB MOHLMAN, last year's winner, chose the writer as Man of the

Year, which was a real, though pleasant, surprise.
We had planned a train trip with the Purdue alumni to the ND-Purdue game this fall, but that had to be cancelled because the New York Central Railroad will not let us have a special. Dr. KEN

LAWS was chairman of that committee.

We plan a summer golf stag, with PAUL KENNEDY and JOE CAMPAGNA as the co-chairmen. That should be a real affair, with those two handling the arrangements.

Attending this year's reunion were Mr. and Mrs. JAMES V. ROBINS of Nogales, Arizona, WILLIAM POYNTELLE DOWNING of Decatur, Illinois, RAY T. MILLER of Cleveland, Ohio, and WALTER CLEMENTS, LEO SGODZINSKI, CECIL BIRDER and R. S. O'NEILL of South Bend. CHARLIE VAUGHAN and TWOMEY CLIFFORD wrote that they were coming, but we missed them.

It was Jim Robins' first visit to the campus since '14, but he's promised to be a "regular" from now on. He and his charming wife, Mary, were amazed and enchanted at the growth and beauty of the campus, and visited every nook and cranny of it. Jim is a real "old-timer," entering Notre Dame in '08, and rooming, as an assistant to FATHER JOHN CAVANAUGH, next to the President's office on the second floor of the Main Building. The Robins drove back to Cleveland for a visit with the Ray Millers, but the trip was delayed until Jim could get over to Corby and the Infirmary to visit FATHERS CARROLL and DOREMUS.

Ray Miller repeated his suggestion, enthusiastically seconded by FRED STEERS, LOUIE KIEFER, et al, that for the earlier classes the "5-year Reunion" plan be supplanted by a plan similar to the old St. Joe Hall reunion plan. Classes were not as separated in the 'teens as now, and Ray is right when he insists that a reunion, every two or three years, for, say the classes of '12, '13, '14, '15 and '16, would bring back more alumni than the present "once every five years" reunion of individual classes. We of '14, for example, had as many intimate friends in the classes of '12 and '16 as in our own class. It's something to think about.

Our column again records an unhappy event, as we note the passing of LORENZO (LOUIE) A. GLASSCOTT on May 5, of this year. Lorenzo entered Notre Dame in 1915 and was a resident of St. Jo Hall until its rebuilding in 1917. He graduated in 1918, receiving an L.L.B. Degree, and returned to Michigan City where he practiced until his death. Funeral services were held from St. Mary of the Immaculate Conception Church and burial was at Greenwood Cemetery.

Louie was born in Michigan City September 7, 1897, and practiced law from the time of his graduation until his death in his home town. He was a member of the Michigan City Bar Association, the American Bar Association, and was a veteran of World War One. He was unmarried and was survived by his father, two sisters and a brother, Robert E. Glasscott, who was also his partner in the practice of law.

His many friends mourn his passing and extend their sympathy to his bereaved family.

May his Soul rest in Peace.

Former Vice Presidents were: North, RICHARD B. SWIFT; East, JOHN T. BALFE, New York City; Midwest, PAUL R. CONAGHAN, Chicago, Ill.; West, EDWARD P. MADIGAN, Oakland, Calif. Previously these offices have been held by JOHN T. BALFE; OSCAR SIDENFADEN, Los Angeles, Calif.; EDWARD M. DORAN, South Bend; and SHERWOOD DIXON of Dixon, Ill. EDWARD M. DORAN have unselfishly given of their time to act other officers are as follows: President, RICHARD DORAN have unselfishly given of their time to act as local chairmen for reunions and are always ready if our class needs them to represent us at Notre Dame. I am sorry to report that Ed has an attack of arthritis in his neck which calls for a letter from his friends. Ed Doran has forsaken politics in favor of a very busy law practice in South Bend but he has not forsaken his delightful South Bend but he has not forsaken his delightful personality. Sherwood Dixon, as you all know, was Lieutenant Governor of Illinois with Governor Stevenson. He has given his time to more important activities and given up politics. Besides running a law practice in Dixon, he is governor general of a family of seven youngsters—three of them now in college. He says that his judgment and decisions are not always accepted with unanimous approval by the seven. LEO WARD in Los Angeles, like Balfe in New York, is always willing and eager to great members of our class. He also and eager to greet members of our class. He also has a busy law practice. You will find our class scattered up and down the Pacific and Atlantic coasts and states in between. They have reached an age when friends and news of friends in the college years are most welcome. Send news of members to me, and I will ask that it be pubmembers to me, and I will ask that it be published so that we can all share it. I stopped at Notre Dame a few weeks back. I saw Corby, Walsh and Sorin Halls, the Church, Chemistry Hall, the Grotto, the Library, the Gym and the majestic Main building with Our Lady above the Dome. They are all there, unchanged from the days when we were at Notre Dame. The Dome was beautiful strong the graps was fresh and green the followed. as usual, the grass was fresh and green, the foliage of the trees new and beautiful, and the flowers well cared for. The students were tall, slim and serious, but had that glint in their eye that comes when your thoughts are in other places. It was close to June, the most beautiful part of the year, and times have not changed. The students were eager to be re-leased and on their way. There have been changes at Notre Dame as there have been with us—bigger at Notre Dame as there have been with us—bigger around the center but starting with the center that was our Notre Dame. The Main Building, where some of us had our beds and nearly all ate, is now a big administration building which governs a student body of five thousand students and buildings, classrooms and other departments which make Notre Dame today the leading University in America. The combinations of inspiration, talent persistence, and the hard work of many have ent, persistence, and the hard work of many have been necessary to bring this about. To believe it you must see it. Most of us have, but for the few who haven't there is a great inspiration and surprise in store for you.

EDWARD V. CROWE, '26

Edward V. Crowe has been executive secretary of the Catholic Youth Organization for the Archdiocese of Detroit since 1934. His tremendous achievement in CYO work has helped contribute to the welfare of Detroit's youth.

Ed Crowe comes from a family of outstanding athletes. He and six of his brothers starred in basketball and football at Notre Dame.

Ed came to Detroit as a teacher and coach of all sports at St. Benedict's High School following his graduation from Notre Dame in 1926. He was one of the pioneers in the organization of the Parochial High School League and served as its president for eight years.

Various voluntary posts which he holds at the present time include chairman of the Detroit Commission on Children and Youth; president of the Group Work and Recreation Federation of Metropolitan Detroit; Michigan Regional Director of the Youth Department of the NCWC; and secretary of Cardinal Mooney's annual capital fund campaign.

More than 20,000 boys and girls and young men and young women enjoyed the CYO sports program last year under Ed's direction. He was named Man-of-the-Year by the Notre Dame Club of Detroit this past April.

Ed and his wife reside in Detroit and are the parents of six children.

FRANK OTT of Herkimer, N. Y., hits the "jackpot" by coming up with the find of the year. For years we have been wondering whatever happened to DANNY E. SULLIVAN of Jamestown, N. Y. We gave him up for lost. Alas! Danny was not lost at all. It was the Class of '22 that was lost and Frank has led us back to Danny. Let us quote Frank Ott's letter with the joyous news:

"History was made once again in Herkimer, N. Y., when Danny Sullivan of Amen Corner came sweeping out of the past and we faced each other again after 34 years, come June.

"If you have had no newsy tidbits about Danny of late, this will fill you in. We had dinner together about two weeks ago and we are repeating again tonight (May 16).

"The winds of good fortune that took Danny to N. D. from Jamestown, N. Y., and then on to the metropolis of the Midwest, finally landed him along the fabled New Jersey coast with the ocean at his door. That he has enjoyed every day of his life since leaving N. D. is at once evident by his hearty laugh and the same old good fellowship that made him so popular on the campus. He may best be described as chairman of the board of directors in appearance with his shocky steel grey hair and that ever-present Irish wit.

"On his shoulders he carries the responsibilities of one of the country's largest air-conditioning manufacturers as Eastern Sales Manager, and it is quite evident that with Danny at the helm we Easterners are going to be kept cool in the hot summer and warm in the cold winter.

"He and Mrs. Sullivan recently took over Albany where I first got on his trail. They decided they wanted to live in one of Albany's garden apartments with a long list of applications. Showing the Amen Corner formula is still working for him, for his name went from last to first, and there he is . . . 'Stonehenge,' Albany, N. Y., V. I. P. . . . that's what did it. A 33-year-old mystery of a missing classmate came to light a few weeks ago that is as astonishing as the fact that only after 33 years did it come to light in the Alumni Office.

This corner of the Alumni Secretariat (meaning L. V. B.) has long been unhappy over the fact that some 20 names of classmates appeared on the

list of "whereabouts unknown—mail returned unclaimed," and this spring I decided to do something about it. Personal advertisements were inserted in the newspapers of those cities from which, according to the '23 Dome, these missing classmates hailed. The following ad is a sample and this one, incidentally, unearthed the mystery:

LEO C. DUNLEA (or relatives or friends) requested to furnish his present address. Last known address Youngstown, Ohio, graduate University Notre Dame 1923, degree LL.B. Louis V. Bruggner, 127 W. Washington St., South Bend 1, Ind.

A few days later I received this letter: "Answering your adv. in the local paper regarding my brother, Leo C. Dunlea, I am sorry I cannot furnish his address. I doubt he is alive. . . . After finishing at Notre Dame in 1923 arrangements had been made for him to enter a law firm in Pittsburgh, but they did not want him until that fall. He decided to spend the summer on a Great Lakes freighter. We heard from him for a few weeks and then—NOTHING. We have not heard from him since. The steamship company advised

WILLIAM M. McNALLY, '37

After graduating from Notre Dame with a bachelor of arts degree in 1937, William M. McNally attended St. John's University Law School for one year. He later was president of the Sheridan Square Wine and Liquor Corporation and also was a member of the sales promotion department of Calvert Distillers and Bellows Company.

During World War II, Bill served three and a half years in the United States Army Air Force and was discharged as a first lieutenant. Followingic his tour of duty with the Armed Forces, he was vice-president of Community Redevelopment Corporation in New York City.

He established the William M. Mc-Nally and Associates Agency, an organization of fund counsellors whose onlyst clients are Catholic institutions. Bill is unmarried and resides at the New York Athletic Club. He is a member of the St. Paul A. C., the New York A. C., and the Irish Historical Society. His brother, Joseph C., also graduated from Notre Dame in 1937.

his ship arrived in Detroit on a Saturday. The crew was paid off and went ashore for the weekend. When the ship sailed Monday a.m. Leo had not returned. They received no word from him. I went to Detroit twice during the following months but found no trace of him. He just vanished. I hope . . . our assumption of his death is wrong. We have continued to hope during the

past 33 years that we would hear from him. Leo P. Dunlea, 859 Canfield Road, Youngstown 11,

Then followed an exchange of letters between us which brought nothing new of any consequence to light, although I do want to quote this sentence from Mr. Dunlea: "since your adv. in the local paper a number of people have talked to me about Leo. One suggests that if he is practicing law, each state has a published directory of all authorized lawyers." For what the suggestion is worth, the attention of all lawyers among the Alumni is directed to this matter. Any clues should be called to the attention of Mr. William Dunlea at the address given above.

Question: Where has the Alumni Office, and the Youngstown alumni been all these 33 years?

The balance of my search for correct addresses was more rewarding. As of this writing, there are now only nine names on the "unclaimed mail" list. Of these, two are Asiatics, REV. VINCENT CATA-PANG of the Philippines and CHING KAY DOM-INIC of China. All Alumni are asked to check their contacts and to report to me any information as to their whereabouts.

This leaves seven names. Of these, three are Into leaves seven names. Of these, three are unfortunates who wish to be left alone, three are old students who did not graduate but are listed as '23 men by the Alumni Office, and one, FRED D. ULLRICH, with degree of Bachelor of Science, does not appear in the '23 Dome.

Thus endeth my manhunt.

Correspondence with and from classmates has been encouraging. Keep the letters coming, fellows, and the direct-mail news-letter campaign will move apace.

CLIFFORD B. WARD, editor of the Fort Wayne, Ind. News-Sentinel, and TOM PLOUFF, Marinette, Wis., sales whiz, were honored as men of the year this spring by their respective home-town clubs.

The death of JOHN R. FLYNN was reported in the last issue of the ALUMNUS, but is repeated here in the belief some of his friends might have missed the item in the last issue. In line with a practice begun a year ago John has been enrolled in the Purgatorial Society of the Holy Cross Foreign Mission Society. The policy is recommended to other Classes having the necessary "facilities."

Friends of 1923 men who are identified by the Alumni Office with earlier or later classes than 1923, and who wish to keep informed on '23 news, are requested to communicate with the class secretary. Our periodic news-letters which go out to '23 men are more exciting and detailed than these notes in the ALUMNUS. Let's keep our old ties strong. (LOUIS NAVIN and others, note).

From DR. LOUIS GABRIEL: I am sorry, as a result of last moment developments, that I will be unable to attend the 20-Year Reunion as planned.

In a strictly dishonest election, JIM SHERRY, 2039 Crooked Lane Drive, Flint, Michigan, was elected president of our class and since I had by chance carried a slight bank balance from our 15th reunion, I was elected secretary-treasurer. Therefore, the recording of your class activities and the plans for our Silver Jubilee in 1961 are in highly questionable but enthusiastic hands. You'll highly questionable but enthusiastic hands. You'll all be hearing from Jim before long. Upon coming back to work this Monday morning following our 20th reunion, I find that JOHN CACKLEY has already set a deadline for items to be included in the next issue of the ALUMNUS. With this short notice, we must be contented with a few random notes and then toss the ball to all of you to have a informed and sumplied with new letters. to keep us informed and supplied with news letters so that we can recoup the column space that the ALUMNUS owes us.

There were dozens of suggestions as to what your new Secretary should do but the first request was to locate MILLER MALLET and find out

what he is doing. Today, I checked with the Alumni office and his current mailing address is R. R. 2, Huntington Road, Amelia, Ohio. Now somebody find out what he is doing. Perhaps Miller will tell us himself.

We had a wonderful weekend and for those of you who were not here, we begin our plea now to make arrangements so that you will be here five years hence. I am sure that those who made it this year will need no urging to come back. LEE MOORMAN and his various assistants did a terrific job in getting about 111 members of our class here. Many thanks to Lee and I know that I can depend upon him for help during these next five

At our Friday night get-together, the class gave At our Friday night get-togetine, the class gave JOE O'NEILL a Rosary in honor of his presidency of the Notre Dame Alumni Association. We all know that he will do a terrific job for the Univer-sity and the Alumni during his term of office. In addition to Joe, the other members of our class are on the Alumni Board of Directors — MIKE LAYDEN and PAT FISHER. FATHER ED HAM-LAYDEN and PAT FISHER. FATHER ED HAM-MER said the Class Mass on Saturday morning in the Morrissey Hall Chapel. He is presently as-signed to St. Thomas Aquinas Church in the Bronx, New York. TOM GRADY got to the re-union on time—11:00 Sunday morning. His only excuse was that the long years of being in front of the band had made him decide to see what it was like to bring up the rear. The Ohio State game of 1935 was replayed at least a dozen times over the weekend and it was generally conceded that HANK POIMAN talked the best game. Hank that HANK POJMAN talked the best game. Hank is going into the mortgage-loan business in Broad-view, Ill., and will welcome all customers into his view, Ill., and will welcome all customers into his new building. PAUL DOYLE is with Carbide and Carbon in Houston, Texas; BILL BAYER with Quaker State Oil in Oil City, Pa.; DR. NORV. CASPER is a surgeon in Louisville, Ky.; TOM TRACY is in charge of sales for Merck and Company in Rahway, N. J.; JIM SHERRY is purchasing agent for the Buick Division of General Motors in Flint, Mich.; FRAN JOYCE has his own business—the Maumee Chemical Company in Toledo, Ohio: FRED WEBER is in paint manufacturing in ness—the Maumee Chemical Company in Toledo, Ohio; FRED WEBER is in paint manufacturing in St. Louis, Mo.; DR. KEN LAWS is practicing medicine in Lafayette, Ind.; JIM FOOHEY is an architect in Fort Wayne, Ind., and Grand Rapids, Mich., and has done a considerable amount of work in South Bend on Catholic school architecture; GEORGE CANNON, recently married, is in the foundry business in Muskegon, Mich.

Well, fellows, this is a little start toward what we hope will be a useful column for our class. There were many other items of interest collected over the weekend but neither space nor time permit over the weatern but hence space for time permit more now. Hope to catch up next time. The amount of news will depend upon cooperation of all but since I am located on the campus, I assure you we will get the information to the ALUMNUS without too much difficulty. In the near future, we plan to have some sort of form for you to fill out in order for us to get a card file started and thus be able to keep up with all of your activities.

### James G. Brown 52 Vanderbilt Ave. New York, New York

About three years ago I was having lunch with GERRY SEXTON and in the course of the conversation I remarked that not enough fellows sent in news items to the 1940 column. So Gerry with a wry smile replied: "Well all you have to do Junior, is sit down and write the man a few lines and things will improve." Needless to say I never did get around to writing and I guess very few others have found time either. However, we have a little change of personnel as they say and perhaps you fellows—or your wives—will find time to feed me with some news of the whereabouts and the doings of the men of 1940. It is always interesting as to how a person inherits a job of this sort—mostly by opening his mouth at the wrong time. But between a half-volunteer and a half-push I am now your 1940 correspondent.

I really took the assignment because being out I really took the assignment because being out selling all day I frequently bump into a good many of the fellows in the course of a day's trayel. In addition, I have been in the life insurance business for the past six years and since I have done work for many of our group I have a rather intimate knowledge of the family affairs of many of the fellows in whom you are no doubt interested. I am hoping that my personal file will keep me going for a couple of issues and from that point on you will all have to help with a contribution. The Alumni Office feels that this column is largely responsible for maintaining class interest in between reunions. So with everyone's help we will try to do just that. Incidentally, the reunion last year was a very wonderful affair. Not really just an-other social function but something that all should try to attend. For many, including myself, it was the first visit to the campus since graduation and I personally found the time spent on the campus very moving in many respects. It was wonderful seeing so many of the fellows for the first time in years and also a source of disappointment in missing faces that each had kind of looked forward to seeing. It is something that will be mentioned in the column from time to time not so much in the way of promotion but because it is an individual experience that you will find very hard to duplicate.

There are a number of items that I would like to discuss with you before getting into the usual chatter:

First of all the Brown family is living out in the suburban area of New York City and we would like to extend an invitation to all of you to visit with us if you should come to the city. We are 10 minutes away from Jones Beach which is the finest sea bathing on the Atlantic coast. (Florida residents please note absence of Portuguese Man-of-War). We are within 15 minutes of three fine golf courses. If you wish to see the sights in town, you can leave the kids with us and take Mama in to see the city lights. We have two children and one-half acre of pasture so yours won't bother us in the least. The hotels in New York can be expensive so you can save a few pennies. And finally there are any number of fellows from our class in the immediate vicinity who would be glad to see you. If you prefer to stay in town, at least give me a call. If you are in town on business and only staying a short time please call; we can have lunch. If you are looking for tickets to sporting events or the theatre, a native son frequently has a few wrinkles that the visitor does not know about.

Secondly, in many of the other columns I notice reference to ND men in one section of the country doing business with ND men in other sections of the country. This is particularly true of graduates who are older than we. So when you write, please mention what you are doing in a business way and perhaps someone may read it and a contact be established.

Thirdly, I also notice that other classes have some system of class dues. Now, I do not relish the prospect of keeping a set of books or acting in a fiduciary capacity but at the reunion last year we noticed that the class which was housed in Lyons had things arranged in a very nice way. Each evening they had a bar set up in the archway and served drinks and hors d'oeuvres before dinner. We found out that the members of the class had arranged for these different items beforehand and financed it with the funds that were in the class treasury. Let's hear your reaction. Something extremely nominal, i.e., \$1.00 annually may be in order.

So . . . . with my yearbook on my left and my personal file on my right here goes with the scoop . . . . in alphabetical order.

RAY ALLEN was at the reunion. I did not get a chance to get any particulars about his personal affairs. HANK ARMITAGE attended the reunion. I bumped into him just as he was coming across the diagonal from the law building to Morrissey with his suitcase. From the look on Hank's face that is still a long walk with a suitcase. Hank is a practicing physician up in New England. GEORGE BECKER is living down in Texas and flying for one of the commercial airlines. Georgie is still a real hot ticket, plenty of laughs. He apparently sees a good bit of BOB CONNOLLY and WALT FLEMING.

JACK COLE drove a few of us over to one of the neighboring towns on Saturday nite for a little refreshment. Jack lives and is working in the South Bend area. TOM BRENNAN was with us. Tom is working for a steel company in the Chicago area. Married, with a couple of children.

Brown is easy. A little zig-zagging after

## SPOTLIGHT ALUMNUS

JOHN C. MOWBRAY, '49

A recent appointee as United States Referee in Bankruptcy is John C. Mowbray of Las Vegas, Nevada. He graduated from the Notre Dame Law School in 1949 and is a member of both the Illinois and Nevada Bars. John was assistant district attorney in Las Vegas from 1949 to 1953. At the present time he is also engaged in the private practice of law.

John has been active in various organizations since moving to Las Vegas. He is a past president of the Serra Club and also a past grand knight of the Knights of Columbus Council in that city. Mowbray is the district governor-elect for Serra International, a Catholic businessmen's club. He served in Korea as one of the military governors from 1945 to 1946 and is a major in the United States Air Force Reserve. He is a member of both the American Legion and Veterans of Foreign Wars.

Mr. and Mrs. Mowbray have three sons, Johnny, Romy and Jerry and the family residence is 1815 South 15th Street, Marycrest, Las Vegas, Nevada.

W. W. II with his own building corp. and then into selling with an eventual ending in the life insurance field. Has three parts of C.L.U. finished and hoping to complete the requirements within the year. Married and has a boy and a girl. Has

a garage set up with boxing equipment to stay in shape. Finds the exercise very enjoyable since Maguire never comes around the garage. See TONY CELLA occasionally and at the reunion. Tony was in the retail liquor business but has recently sold his interest and was erecting an office building on Long Island. Tony is married. BOB CENTLIVRE was at the reunion. No vital statistics.

JIM CLEARY was at the reunion. Now may have noticed in the various financial publications or the financial pages of your local newspaper about a month ago that the "Young Presidents Organization" held its annual meeting in Hollywood, Florida. This is a group of men who are presidents of their respective corporations throughout the nation: the corporations are doing a million dollars gross and the men are under age forty. Our class has two members. Jim Cleary is one and at the recent meeting BILL COLEMAN also of our class was elected president of the organization. This is extremely fast company and both of these gentlemen are moving real well. Someone mentioned that he had bumped into HANK COLLINS who is teaching at one of the Colleges in the mid-South. Perhaps Virginia or Maryland. BOB CONNOLLY was at the reunion. Bob is an attorney, married, and has a flock of children. GEORGE COSTELLO. Had some conversation with George at a packaging exposition down in Atlantic City, New Jersey, about six years ago. He was then with the Dobeckmun Corp. No recent data. Incidentally for the benefit of the rest of the golling brigade, SCHALLER, HAGEN, DONO-HUE, CENTLIVRE et al, I see SAM NEILD quite often. He is in the advertising business here in New York. Curtis Publishing Co., lives up in Conn. The day that I started this column I ran into PAUL MENNEG who is doing public relations work with McCann-Erickson here in New York. He mentioned that Sam had just won the advertisers golf tournament the previous day. Paul, who is originally from Long Island is now living up in Conn. married and has three children.

Conn., married and has three children.

See JOE CUMMINGS quite often. Joe is doing accounting work and was recently on lend-lease from his firm to the Federal Gov't. as a representative of business in the compilation of the 1954 Revenue Act. He lived down in Virginia for about a year and is now back and anchored in Mt. Kisco, New York. Joe married a very charming girl from Brooklyn and they have recently had their fourth child. Joe has been made a partner in the accounting firm of Peat-Marwick-Mitchell. We now have two members of '40 who are partners in a national accounting firm. The other is PHIL SANDMAIER. This represents quite an accomplishment in the accounting field. I played a few holes with Phil in the golf tournament and I think he is living over in New Jersey. He is a partner with Haskins-Sells. Phil was playing with JIM HUFNAGEL. No vital statistics. DOC CURRAN was at the reunion and he really looks just the same as the day we left school.

I bumped into JOE DEFRANCO about two years ago. Joe had been with the F.B.I. for a number of years and was just switching to the security division of Republic Aviation. In the meantime he has changed to the Waterfront Commission here in N. Y.

JIM DELAHANTY was at the reunion and I think is living in South Bend. After the reunion I drove up to Chicago with LARRY DEVEREUX and CHUBBY GILLILAND. Larry lives and works in Chicago and has a couple of children. Chub is with the Missouri State Insurance Commission. He is not married, does a great deal of traveling and is still a hot ticket. He taught me a new song on the way up to Chicago. More fun than ever.

On the way out to South Bend the train passed through Canajoharie, N. Y., home of Beech-Nut and EDGAR DOUGHERTY. I saw Edgar in 1946 at Hialeah Race Track of all places. He was then attending the Univ. of Miami law school having been sidetracked from school during the war. No recent data, but if I get up to the races at Saratoga this summer I'll have more data in the fall.

HANK DOWD lives out on Long Island and among other ventures is in the shipping business, i.e., arranging for the transportation of cargo to different ports of the world. He is married and has a number of children. Saw Hank at a dance about a month ago with: JIM KELLY. Jim lives out here on the island, married, also a number of children and has been doing aeronautical engineering work with the Grumman Corp. since graduation. JOHN MARTIN is an attorney, lives out on the island, married and has a few children. Gets back to school more than the rest of us by engineering business trips at opportune times. Lucky

fellow. BUD O'DONNELL is in the tug boat, business here in N. Y. harbor. Married and also a few children.

Within the past four years I have met BILL FAY at precisely the same time and place on two different occasions . . . at 8 in the morning and at the back entrance to St. Patrick's Cathedral. Bill was a sports writer on the staff of Collier's. He is now doing free-lance writing and in the past few years has helped select the Collier's All-American team. He is living in Evanston, suburb of Chicago, married and has children.

THOMAS P. WALL, JR., was general chairman of the fourth annual Southeastern Regional Society for the Advancement of Management Conference. Tom lives in Nashville, Tenn., and served as national director for the conference committee.

GENE LEONARD gave up his general practice in Rockford and is now in Milwaukee (with wife and six children) for three years study in orthopedic surgery.

This looks like it for now men. No sense using up all my ammunition in the first issue. As I read this material over, some of the facts from the reunion are a little vague and some reek of; pure scuttlebut. All you have to do to pinpoint the info is just drop a line. Also, the material is decidedly eastern and practically local. My next contact will be with a traveling salesman who will furnish news on a national basis. All kidding aside, I am depending on all of you. Duffy, Liston, Masterson in Chicago; Burke, Eby, Delahanty in South Bend; Dick Lyng in California, McCarthy, O'Gorman in Buffalo; Cleary, Caird in the Detroit area; Gleason, Schaller in the Milwaukee area. Now that you fellows are in the big leagues, you should have something to write about. Ciolino and Bangert must see somebody in their travels. And so on. Just sit one of the girls in the office down . . . not on your lap . . . and dictate a few lines. Put a reminder on your calendar NOW.

FRANKLYN STUART is a patient at Warm Springs, Georgia. He would like to hear from his classmates,

(Editor's note: JACK WIGGINS, your class secpary, became a father for the fifth time recently then a new daughter was born to Mr. and Mrs. Wiggins. They have three girls and two boys.)

The class treasurer, DON HELTZEL (4100 East Market St., R. D. No. 5, Warren, Ohio) acknowledged the receipt of \$3 to the Class of '43 Mass Fund. Also, the name of Otto J. Seifert has been added to the list. Otto was killed in action over Guadalcanal while flying for the Marine Corps in World War II. We earnestly solicit your cooperation in sending a dollar bill to Don Heltzel at the above address so that we can gather a fund suffi-

cient to see us through a few years for the memorial Mass each year; also, as we learn of it, an individual Mass for any deceased members of the Class of 1943. To date we have had fewer than 20 contributions. Please send the buck to Don today.

ROBERT E. COSGROVE has been appointed sales manager and assistant secretary of General Acoustics, Inc., with headquarters in Chicago.

#### George Bariscillo 515 Fifth Avenue Bradley Beach, N. J.

Had a welcome letter from ED KEMPF recently, filing his annual report from Evansville, and filling us in on '44ers activity in southern Indiana: "Today's mail brought the march-April ALUMNUS and I read the class secretary's plea for letters. Honestly, I'm sorry that I am so unreliable as a writer but believe me I have good intentions. Always glad to read your notes in the ALUMNUS. It reassures me that Youngstown (Ed. Note: reference to GRIFF ALLEN) still has pen, peneil and typewriter. Now, George, back to you and an explanation of the stationery. Currently I'm the Grand Knight here and supplies are available.

"I'll try to bring you up to date on Evansville Notre Damers, thumbrailed and earmarked '44. PAUL UNVERZAGT, HENRY DEWES, TOM CLEMENS and ED KEMPF, that's me, were the four intrepid souls from Evansville to begin N.D. careers in 1940. Paul, as far as I know, is still with Crosley in Cincinnati. Hank is still in Evansville, real active and kicking and an engineer with Whirlpool-Seeger Corp. Tom in the past two weeks has been transferred from Santiago, Chile to Washington, D. C. and very much closer to home. In fact, his family expects him in May. As for yours truly, I am still in the wholesale liquor business and the proud father of a 1974 N.D. freshman named Timothy William.

"BOB LONDERGAN, a transplanted Evansvillian, is another '44er who's a very active legal eagle and Knight of Columbus.

"So much for now, George. Current plans call for a South Bend week-end for Michigan State. Hope to see you there. If not, 1959 will find us all together reluctantly approaching the unreconciled forties. Tell GRIFF ALLEN he owes me a letter."

Many thanks to you, Ed, for rescuing us once again. Would be fine if some other of our classmates would take pen or pencil in hand and send along some notes about themselves and other '44ers in their vicinity. If we had just one faithful correspondent in all of the major cities, especially through the mid-west, we'd jam-pack this column with plenty of news each issue.

We received a note the other day from Brother ARMEL LATTERELL, who after graduating with our class was sent to teach at St. Thomas Aquinas School in Brooklyn. Brother is now principal of the school located at 2000 Flatbush Avenue, in the midst of Dodger-land, and reports an enrollment of nearly 1600 with over 500 on the waiting list. They've broken ground for an additional school to meet the overflow, and expect to have the new building ready by next February.

Hop-skipping across this land of ours here are bits of information spotlighting other '44 brethren.

#### DO VOUR PARTY

We of the class staff are doing what we feel is an honest effort of maintaining class records, increasing class membership, spreading class news, creating class spirit, planning class activities, and doing everything and anything to strengthen, expand, and coordinate class structure. All we ask is to know that the class is behind us. All we ask is that you, as you read this, cooperate with us. You have not up to now. Or at least, only a handful of you have been business-like enough to have done so.

Your class treasurer, BILL MOORE, recently sent out individual letters to each of you in the class, asking for a contribution to bolster our fading funds. Only a few have answered. Is that the spirit? What if WE took that attitude? Where would class structure, and this column, and the reunion, etc., be? Suppose we didn't have the interest to find the time and the little energy it takes to get a \$5.00 check off. Don't be a side-of-the-roader. Answer Bill's letter. Give us a vote of confidence. Do at least your part! And do it today.

HERE AND THERE

Did you know that . . . JOE INCE, who has been carried as "unclaimed" for quite a while, has finally been cornered as being at 316 South Flower Street, Inglewood, Calif. Hope you fare well out on the West Coast, Joe . . . that CHUCK SARTORE and bride have taken up residence in their new home at 4945 Hampshire Avenue, Memphis, Tenn. Best of luck to you newlyweds from the class and from me also . . . that JOE HAGGAR has moved to 4955 Wedgewood Lane, Dallas, Texas . . . that JIM RETTER's new address is 210 Kenwood Avenue, Delmar, New York. You're getting closer and closer to Garden City, Jim. Soon you won't have any excuse for not dropping in; you're always welcome . . . that my letters to ART HAAS at 821 Forest Avenue, South Bend, and to DICK YOUNG at Box 365, Niagara Falls, Ontario. Canada, are returned because they have moved and left no forwarding address. Now, is that having any consideration? . . . that Margaret and WELTON RALPH ABELL of 23411/2 South Bentley, W. Los Angeles 64, Calif., have two lovely children, 4-year-old Scott and 2-year-old Michael Bryan. Ralph is with the Doyle Dane Bernbach Advertising Agency as an account executive . . . that JOHN G. MACK, JR., and his wife, Catherine. are the proud parents of four youngsters, Marjorie (6), Michael (5), Mary Catherine (4), and Kathleen (2). Johnny is the assistant to the general manager for sales with the Inland Steel Company. John's address is 38 S. Dearborn Street, Chicago 3, Illinois . . . that big MIKE GARRY, one of the most popular members of the class, is presiding over a household of wife, Elizabeth, and two children. Mary Jane (3), and Patrick (11/2), at 323 Elm Street, Fairmont, Minnesota. Mike is self-employed with the Garry Elevators Company. A short note he sent me, which I don't believe I've included in my column before, appears below in the "Letters From" section . . . that plans for a get-together at the Oklahoma game on campus this year are progressing, and that already thoughts are being formed about a class get-togethe

family . . . that PAUL W. SMITH, my former roomie, and his wonderful wife, Elise, have four youngsters I'm looking forward very much to meeting. They are Paul Joseph (5), Mary Teresa (3), Nancy Giles (2), and Patrick James (1). Paul is president of the Southern Oxygen Supply Company, Inc., of Atlanta, and lives at 226 Meadow Lane, Decatur, Georgia. (Ed. Note: Paul is also president of the N.D. Club of Atlanta and he attended the Presidents' Council held on campus in June. JC.)

#### LETTERS FROM DEPARTMENT

From MIKE GARRY: "I don't think I ever took the opportunity to thank you for the terrific job you did in organizing our 10-year class reunion last year. To say the least, I enjoyed every moment of the reunion.

"My activities have centered around the Knights of Columbus as I am Grand Knight of our local council.

"We hope to add another name to our family sometime this summer. With best wishes to you, Al, and to everyone in the class, I remain ready for any class reunion, Mike Garry."

From JIM CLYNES, class president: "Names are beginning to come in of those who plan to attend the Oklahoma game luncheon at the University. So far we have the following: JOHN MACK, JR., JOHN CARON, DICK BLACK-HURST, DICK SADOWSKI, MIKE GARRY, JIM RETTER, DES CURRIER, DAVE MURPHY, JIM CLYNES, AL LESMEZ, JACK CLEARY, HARRY RYAN, BOB RIORDAN, BILL KLEM, JR., BOB GRIFFIN, ED NOONAN and JACK KINNEY.

"Al, I can't stress enough the importance of each man interested in this get-together letting me know so we can plan, and that each person get his own football tickets.

"I am still waiting to hear from one of our members in the South Bend area as to whether he will accept the project of contacting the non-members of any N.D. class so that our class can grow. I am also awaiting a letter from Father Sheedy with regard to. BILL WHALEN'S Mass card. Evidently he sent it on and failed to charge us for it. Kindest regards to the whole class."

#### AND STILL NO ACTION

Here's a good example of the "put-it-off" spirit which licks us every time. Here you have finished the column, figured "well, that's that until the next issue," and are already thinking about other things more immediate to you. But how about getting a check off to BILL MOORE? How about a letter for me for ammunition for this column?

How about letting JIM CLYNES know if you will make the get-together at the Oklahoma game? How about some action, now, positive and real!!

Probably the most appropriate way to open this article would be to bid a congratulations to the rest of the two-year hitch men who have dropped their uniforms behind and taken to the traditional "civies" for what we hope to be a period of lifetime duration. The transition from Navy Blue to charcoal and greys again on the 27th of June was sure a treat for me as I'm sure it was for the others who were finishing up their tours about the same time. I have arranged an opportunity to take a training program with Standard Publishing Foundation in Cincinnati which will keep me busy for the next nine months or so. In the meantime I am maintaining the above address for alumni purposes so why don't the rest of you "vets" drop me a line and pass on your trials, joys and tribulations while adjusting to civilian life. A good sized stack of mail confronts me as I

A good sized stack of mail confronts me as I face this machine, so rather than hold anything back from you I'll dive right in. FIRST LT. JIM BOESEN is still with a Marine AA Battery here in California. He had the opportunity to attend an atomic defense school in San Francisco recently where he saw quite a bit of JAKE NOONAN. Jake reports that Boe and his wife had to put up with him for dinner probably too frequently, but he considered it justful retaliation for the many hours that Boesen spent lounging in his room for two years in Alumni. Jim can be reached at 8-A

Elm Drive, MCTC, 29 Palms, Calil. Jake can be found at 3935 Orchard Drive, Sioux City, Iowa. He is quick making his mark as a cattle baron in that locale.

nat locate.

Navy life seems to have its soft touches for a select few. BILL GUILFOILE describes his most recent tour of duty on the USS Snyder (DE-745), c/o F.P.O., New York as "wonderful." The Snyder is a reserve cruise ship that takes occasional two-week cruises to such spots as Bermuda, St. Petersburg, Montreal, Boston, Havana, Miami, and San Juan. In between cruises they are found in the Brooklyn Navy Yard. Bill sends on the following information on some of the '54s: Ens. MATT MALISON is holding down a job with the Navy Department in the Capital City. JOHN BURNS is a freshman English instructor at Marquette as is GORDON BERQUIST acting in the same capacity. JIM and Carol FERRON are the proud parents of a son and live at 630 Riverview Drive, Appleton, Wisconsin. Jim is an assistant manager at a local clothing store.

ant manager at a local clothing store.

The surprise of the quarter came when a letter from the pen of "Big Bear" JOHN REIDY crossed my desk. John reports that he and DON KENNEDY are still plugging through Western Reserve Law School in Cleveland and now just a year separates them from that degree. John sends the following news. BILL WOODWARD is to be married to Miss Noreen Gallagher (SMC) on the 14th of June in Wisconsin. Bill is with the Army in Washington and expects to be out in the early Fall. MIKE SCANLON is approaching his last year of Law School at Ohio State but before that he plans to marry Miss Mary Pat Fromeyer in Cincinnati on the 23rd of June. GEORGE WILLIARD is in the Marine Air Corps undergoing flight training in jets down at Pensacola. TOM and Ruth VIVIANO sold their house recently and had as their agent none other than WALT "SLITZ" WAGNER.

ED BROWN was the lucky man last January to marry Miss Mary Ann Shaw in Evanston. Ed recently completed a two-year tour with the Navy on the USS Escape. BILL AMUNDSON sent word that he is holding down the post of Assistant Engineer in charge of design in LaCrosse, Wisconsin. His local address is 2314 So. 20th St., LaCrosse. He also reports a wonderful statistic in that his family has increased by 200% since he left the campus. Congratulations to you and your wife, Bill.

ROBERT FRIES sends word from Kitzingen, Germany, where he is holding down the job of Personnel Management Specialist with the Army. He is lucky enough to have his wife with him and the two of them have managed some interesting travel on the continent. Bob reports that JIM SCHRADERER is with the 10th Infantry Division in Wurzburg, Germany. Bob's address is HyS Co, 62nd Tank Battalion, 10th Infantry Division, APO 36, N. Y., N. Y.

I had a nice note from JOHN STEWART recently from the North American College, Via Digitalized 14, Rome. John says, "I've been over here since October and hope and pray to come back home a Priest in 1960. Several ND men have managed to get together in the last few days here due to some happy coincidence in the Universal Notre Dame night held at the Holy Cross Brothers' school in Rome. I ran into BOB ETTLEBRICK and his wife Judy going there. JOE GENIESSE, C.S.C., and CHUCK O'BRIEN, C.S.C., were present for the meeting. PAT LALLY and BILL REYNOLDS were down a few weeks. ago. Both are in this area with the Army. TOXIT SCHWINN is in St. Bernard's Theological Seminary in Dubuque, lowa."

BOB PIORKOWSKI sends a note from his Editor-Sales Promoter's desk in the News Bureau Office of the General Electric Company at Schenectady, New York. Bob is the proud poppa of three lovely children now. JOE JOYCE, TOM SHORT and DICK SULLIVAN have been sharing an apartment in South Bend while finishing their last semester at the Law School. Fran Romance received a M.A. in Soviet and Eastern European Studies aw school prior to his attendance at Navy OCS. Highs recently become engaged to Miss Ann Pickert of Batavia, New York. Ann is Jim's sister and he is presently with the Army in Korea.

I had a pleasant visit from Lt. (jg) DICK EHR prior to leaving the San Diego area. Dick and JIM BUCK are stationed with the Navy Air Corps at Miramar Naval Air Station in San Diego. They are both attached to Squadron VA-145 and piloting ADs is their line of business. Dick and his wife, and a recent addition, are living at 3126 Cowley Way, Apt. No. 1, San Diego, Calif. Jim and his wife and two children are living at 3228 Clairs mont Dr., San Diego. Dick reported the fine showing that the '54 men made in their class at Pensacola, four of them finishing in the top four spots in the class. He also passed on the word on some of the other fly boys; ED MILOTA and BILL SIPES are with Squadron VF-9 at Alameda NAS, California. BILL McCLURE and TOM LINDSAY are flying at Quonset Point, R. I., while JACK O'HARA and JERRY POST are holding down flight instructors jobs at Pensacola.

holding down flight instructors jobs at Pensacola. TOM HAYES reports in from Loyola Medical School where he and the following named '54a. are closing in on their degrees. The lucky one are: FRANK BROUCEK, DICK LOEFILER, JOE COLLIGAN, BILL CONLEY, RAY ROSE-DALE, TED SCHAEFFER, AL MACKSOOD. DICK NIXON and DICK POLLEY. Tom sends on the following: "Last July, I married the former Miss Margaret Haviland in Grand Rapids, Michigan, which is home for both of us. PHIL ZURLO sent his regrets at not being able to make it, as he was being married the next day. Phil is at Flower Medical School in New York. Over Christmas vacation I ran into JOE MEAD who was on leave at the time from Fort Holabird but still counting the days until his time was up this summer. Met BOB MORRISON at a party recently, can't recall what he said he was working at, but he appeared to be looking after his social activities diligently! TOM CASEY reports that he and DON LOGAN are busy in their junior year at Northwestern Medical School, while DAVE BROWNE is working for the Upjohn Co. I am living at 1444 Granville, Chicago 26, and would enjoy seeing anyone passing through."

enjoy seeing anyone passing through."

Lt. (jg) PHIL DOELL reports the following from the USS Redwing (AMS-200) F.P.O., New York: "I am serving on board as the Engineering Officer, First Lieutenant, and Supply Officer. As it I didn't have enough to do, I recently took the big step and married the former Miss Natalie Healy of the big school across the Dixie." Heard from another staunch Navy man in Lt. (jg) ED McGINN. Last I saw of him was in Japan but he reports that his eyes no longer have that characteristic slant that developed after nearly eighteen months out there and he is a true "round eye" again. Ed reports in from the following address: Sub Group One, U.S. Naval Base, Philadelphia 12, Pa. He describes his present job with the following: "It's great! As Personnel Officer with this 400-man Reserve Fleet I have a position that is interesting and to a large extent is allied to a civilian job." Ed took time out to take a lovely wife named June when he arrived back in the States and by now I trust he has set aside the Navy blues and is pursuing a civilian occupation. In the four years we spent on the campus we never saw a production that could excell those produced by the Chicago Club, even if they were just half tryings. ART PETERSEN gave it the full college try in a letter of his recently con-

cerning the "Chitown" crowd and nearly forced to change the name of this column to CHI-CAGO '54. Thanks for all of the help Art, if you'll just type the next one I'll send it on to our good friend in the Alumni Office, John Cackley in its entirety. The manyalous consert follows:

ley, in its entirety. The marvelous context follows. "Some of us Chicagoans pulled some fine deals with Uncle Sam. I am at present the Executive Officer of a NIKE guided missile battery located at North Field, Illinois, a mere ten minutes from my home. The duty is pretty heavy, but then there is nothing like electronics for an English pajor. As for my home life, I just picked up second deduction via Great Lakes Naval Hospital, this one a girl to complement my boy now one year old. BILL MORLEY is also with my outfit, stationed on the Southwest side, acting in the capacity of Radar Officer. Being in the same battalion we see quite a bit of each other. BILL SULLIVAN joined the ranks of the Chicagoans who lucked out when he was assigned to the 13th AAA BN. He is quite conveniently stationed on the South side.

"SKIP CRANE stuck with the Air Force National Guard and managed to be assigned to Hara AFB here in Chicago. He is serving as a Supply Officer for a squadron of F-86D's. Skip also has a future Notre Dame footballer in his family. I saw TOM DEMPSEY at Christmas time. Demps joined up for three years in order to get into the Counter Intelligence Corps who sent him to a year of school at Monterey in sunny California. He claims a fluent speaking knowledge of Russian and Polish as a result. The CIC has since sent Demps to Europe to help figure out the Ruskys, I guess. That ought to confuse

"JAY BAIER is still dodging Uncle Sam by atanding Northwestern Law School here in town. His brother, Jerry, pulled one of the deals of the class by getting into the Army Security Agency and winding up stationed in Hawaii, just a stone's throw from Waikkik Beach. Not only that, but he's a plain clothesman, has his own car and shares an apartment with other 'fellow travellers.' I'm not limited at this time to local news but can furnish some notes from Europe too. JIM STUBLER finally got back to the 'fatherland,' immediately bought himself a Volkswagon and began looking up relatives in Krautland and thereabouts. He is tion to this he is serving as first lieutenant in a lid artillery battalion. Shortly after he arrived there a green recruit by the name of JIM CAHILL reported to his outfit. "JACK NASHERT is living in El Paso where he

"JACK NASHERT is living in El Paso where he is stationed at Fort Bliss serving as a clerk in a training battery. JACK SULLIVAN is living here in Chicago and working as a salesman with the A. B. Dick Co. LEO MICHUDA spent a year at the Julliard School of Music in New York and is going back to Notre Dame in the Fall to take engineering according to my latest report. If I know him he'll be there to meet us for our fifth reunion."

That sums up the news of the Chicago tribe fretty well, many thanks Art for all of the info and for the fine example you give some of these other gifted writers from the larger cities. Before I forget it, Art is living at 1317½ Oak Ave., Evanston, Ill.

After that I only have a bit more to offer, that is to mention that I ran into JOHN TRACANO at the recent San Diego Universal Notre Dame Night. John is in charge of the local Marine rifle range at Camp Mathues just outside of San Diego. He is lucky enough to have the company out here of a very nice wife and as I understand it, two very children. Also saw JOE ZIEMBA who is holding down a Supply Officers job on the USS Hector (AR-7). The Skipper of that vessel is none other than an old Skipper of ours, CAPT. F. P. LUONGO.

It is with great regret that I must report the death of one of our most beloved classmates, Lt. (jg) LARRY ASH. Larry met with death in a plane crash near Pittsburgh, Pa., on March 26th. His parents may be assured he is being remembered by all of us in our prayers.

ROBERT L. LeHANE has been promoted to project engineer at the IBM Products Development Laboratory, Poughkeepsie, N. Y. Bob is in charge of an electronics group working on a data processing system for demand-deposit banks.

Want to save a little room for the Class of '55 and it's hard to believe I've been away that long but the Class of '56 might try and edge in this edition too. Before closing I want to remind all of the annual Notre Dame Foundation, Have they heard from you this year? And if I haven't heard from you how about a quick line to help this material grow.

EDWARD R. O'CONNOR has been appointed a U. S. Foreign Service Officer with the Department of State, Washington, D. C.

#### 1955 Ens. Thomas F. O'Malley 6738 Kenwood Kansas City, Missouri

Well, here we go again to begin the process of tracking down some of the people who are making the news and who claim the class of '55 as their origin. I'm a little sorry to report so early in the column that news has been few and far between and that I received a .000001 percent return on my last two-cent postcard request for information. However, I'll relate what I know and let you all use your imaginations as to what would have filled in all of the blank spaces.

I received a letter from a fellow whom I knew at Supply Corps School who reports having seen PHIL SHERIDAN in San Francisco. Phil was probably taking a breather between trips to the Orient on the U.S.S. Hancock. MIKE DePADRO and his wife Anne now call Quantico, Virginia, their home, at least for the time being. Mike is in training there with the Marines. After spending some time with the Navy in Athens, Georgia, ROY BELKNAP is taking the nuptial leap as evidenced by the wedding invitation that I received in the mail. By the time this column is printed, Roy will have married Miss Maureen Sullivan on the 9th of June. Congratulations and best wishes to you both. Also being served a heaping portion of wedded bliss will be DICK O'ROURKE who also beats this column deadline by having married the former Miss Carolyn Linning on the 5th of June. Our best wishes go your way also, Dick. Apparently this shore duty is quite a deal.

From the U.S.S. San Marcos (LSD-25), FPO, N. Y., N. Y., FRANK McCARTHY writes that all goes well and that he is finding Navy life quite agreeable. Frank mentions that a trip to Santa Claus country is in the offing but one thing that pleases him is that he won't have that long walk to the dining hall. JIM HESBURGH is still stationed aboard the U.S.S. Fremont (APA-44) operating off the East coast. A six-month Med trip is planned for him sometime during the summer. Frank also reports that GENE SCHMIT is aboard the U.S.S. Chittendon County (LST-561) and has been over in Japan for the last five months. Oh those steam baths. CARL BRATTON married the former Miss Dorothy Gaynor on May 12th at the Holy Spirit Church in Louisville. Carl just completed a sixteen week electronics school at Great Lakes and will be stationed aboard the U.S.S. Magoffin (APA-199). BILL WALSH is stationed on the U.S.S. Hollis (APD 86). Frank makes one request before he closes his letter and that is for PAUL MARBACH's address and whereabouts. Who can give us a hand?

I received a card from someone stationed aboard the U.S.S. Possumpsic and it took a few days to translate the handwriting. I think that it must have been from MIKE COSTELLO who apparently was having a rough day at sea. Good to hear from you, Mike, and if you get a chance, TYPE me a letter containing some sea stories. I'm sure that the landlubbers would enjoy them. PAUL DWYER sends a newsy note from Chicagoland saying that he is working for the Arthur Anderson Accounting firm and plans to marry Miss Barbara Balestri, also from Chicago, sometime in Novem-ber. Keep us posted, Paul, and maybe some of these rich '55 alumni will send uranium stocks to you and your wife to be. All of the news to follow was taken from Paul's letter. JOE HAG-GERTY was drafted into the Navy last September. He couldn't have been any more fortunate. JOHN HESTER spent some time in the field of accounting until Uncle Sam discovered his mailing address and grabbed him in April. JOHN DWYER has also found a home in the Army and rumor has it that he didn't realize what he had been missing all these years. John and Miss Jackie Jensen will make news in Chicago when they "tie the knot" on the 16th of June. WALT McKENNA is earning his battle ribbons at the Fifth Army Headquarters in Chicago. He'll have as many as I will by the time that I leave Olathe. Paul says that Walt will also be able to file a joint income tax return sometime in September. HAL WILLENBORG writes from the U.S.S. Everett F. Larson (DDR-830) that things become very hectic as the only Supply Officer aboard a ribald rust bucket. Hal has been seeing his share and more of the world has been seeing his share and more of the world and sends stirring descriptions of his activities in the Med. He reports hearing from DAVE METZ who is now a full Ensign and who will attend school in Florida under the well known Navy plan. Also, Hal says that he ran into

BERNIE TRACEY who is attached to his DESDIV on another ship. For the benefit of you civilians, DESDIV is the Latin for "soft job."

While paging through the latest issue of the "Navy Times." I noticed the names of two fellow graduates. STEVE REBORA has recently been graduated from the OCS school in Newport and received his commission in the Navy. JACK SORANNO, who until recently was stationed at Norfolk, Virginia, has been transferred to the Naval Supply Activity on Guam. Some people get all the breaks. If you get a minute, Jack, drop me a line. HARVE MUELLER writes that he is a research assistant in the Experimental Pathology and Toxicology Research Department of Parke, Davis and Company in Detroit. Seems to me that it would be easier to pronounce the words "I'm not working" than have to go through the Pathology and Toxicology bit again. DICK DEICHMANN was married to the former Miss Marlene Harmon on the 5th of May in New Orleans. Dick is now serving time as a second Lt. in the Marine Corps. ELLIOTT "ROCK" LESE is a novice at Epiphany Apostolic College, Newburgh, New York.

JOHN TRAMONTINE dropped me quite an informative note so I'll pass the news along. John himself is working for the Esso Standard Oil Company in New York. He plans to marry Miss Nancy McCabe in Billings, Montana, on July 14th. Congratulations, John, and thank you for supplying all of the news that follows. JACK MURRAY is on Okinawa with the 3rd Marine Division. BOB FLEMING is working for RCA in Cincinnati. BILL PETRY is attending Georgetown Law School. Down Quantico way we have JOHN CONNAUGHTON who is going through basic training after receiving his commission at Officers' Candidate School. TOM FINNEGAN and JOE MULDOON are two more in the lineup at the Law School at Georgetown. You can't tell your graduates without a score card. John says that RAY KENNEDY is working in Cincinnati but he can't remember the company. Maybe it would be a good idea for Ray to write and fill us all in. BOB RUSSELL is in Korea with the Air Force. MAJ. FRANK C. BUSBEE was recently appointed commander of the 8301st air reserve squadron at O'Hare field, Park Ridge, III.

RICK HICKS and his wife Pat sent a birthday and when this saye nut on another year. There's

RICK HIĆKS and his wife Pat sent a birthday card when this sage put on another year. They're living in Chicago where Rick is in finance with Shearson, Hammill and Co. Thanks for the card, folks, and all you alumni be sure to float your next bond issue with Rick, who sends the next few tidbits of news. TOM BARNIGLE is in Germany with the Army. JOHN MURNANE is working as an insurance underwriter in Chicago. TIM SHEA is attending Law School at Northwestern and finding time for trips to Florida. HENRY SCHENDORF is in the grain brokerage business in Chicago. As he ends his letter, Rick also asks for RON KEUBER's address so anyone in the know, please drop me a line and I'll forward it to him.

RON NEUBER'S address so anyone in the know, please drop me a line and I'll forward it to him. BOB JASMAN writes that he is still working as a test engineer at the Glenn L. Martin Company of Baltimore. Bob says that he plans to vacation with JIM COURTNEY or JIM GIBBONS in Cuba this summer. Jim C. is working for the Ford Motor Co. in Detroit while Jim G. is working for the Equitable Life Assurance Co. in Columbia, South Carolina. TOM SIERON is now working at the Aberdeen Proving Grounds near Baltimore. JOHN WILKENS is engaged and will be married sometime this summer. ED LIEVENS is continuing his education at the University of Southern California. Ed is working for Douglas when not attending school.

I find that I'm at the end of the news so I'll quit while I'm ahead. Again, this column is only as lengthy and as interesting as you yourselves make it. Without your help, the only thing that you'll see under the class of '55 will be my name and address. One more parting note. What happened to the Air Force and Army news? You people aren't going to let the Navy dominate this column, are you? Don't fall down on the job, but remember, "Keep the Fleet to Keep the Peace."

(Editor's Note: Al Vitt will serve as your class secretary during the ensuing five years. He will appreciate receiving information about you and from you about other class members. We will greatly appreciate your cooperation—the class column is the most effective way of maintaining class spirit and interest throughout the years.—John Cackley)

### Office of the President

# The University of Notre Dame Alumni Association

Fellow Alumni:

Midland, Texas July 1, 1956

During six beautiful days in what otherwise has been a miserable spring around South Bend, there were considerable "doins" at Notre Dame.

Your Alumni Board met in an abbreviated session on Tuesday and Wednesday and then participated in joint sessions with sixty-eight Alumni Club presidents from all over the country for two days of concentrated sessions dealing with all phases of club activity. After hearing the "party line" by affable Jim Armstrong and his able Alumni Office staff, specific problems were discussed. Questions raised on each problem produced a lively exchange of ideas which should prove helpful to the individual club.

You should be proud of your representatives—their enthusiasm and serious approach to the complexities of club guidance has assured the administration that a continuance of this program is beneficial to the Alumni and to Notre Dame.

On Friday the "Old Grads" poured in for their respective class reunions—eight hundred strong. Any attempt to recount the myriad happenings, impressions and relived memories would fill a book—however, several highlights stand out in my mind.—The Class of '06—fifty years young—including Fathers Doremus and Burke.—The "Twenty Fivers"—Class of '31—Rock's last and perhaps his best—Metzger, O'Connor, Conley, et al, all looking fit and ready to go.—The screwballs of '36 out twenty years who broke up the '31 "bar association" meeting on Sunday attempting to throw "water boy" Mazziotti into the lake.—The genuine interest exhibited in fellow classmates and things Notre Dame:

Personal-"The last twenty years haven't done a thing for you!"

Sectional—"Do they allow colored television in Memphis?"

Local—"What happened to the board sidewalks?"

—The man who has won more games for Notre Dame than anyone living or dead—Jack Shea, '06—author of the Victory March.—The standing ovation given Father Hesburgh at the conclusion of his dynamic speech.

—The sadness in discussing our missing friends.—The beauty and serenity of the campus—the grotto—the lakes—the new buildings—and the spiritual stimulation of returning to this lovely spot where Our Lady etched indelibly in our minds four unforgettable years.

Sincerely,

Japh I. Driver
