

I was very happy to ~~learn~~  
learn that the local 364  
of the Teamsters Union is  
sponsoring this new & significant  
program for St. WHOT - I was  
a Communist for the FBI.

(Frank Lopez) <sup>or</sup> was good  
to ask me to say a few  
preliminary words this week.  
One thing that will immediately  
impress upon you hearing  
the program is the tremendous  
human sacrifice that one  
American has made for the

Cause of freedom. I say the  
"Cause of freedom" advisedly -  
because while anti-commu-  
nistic efforts are negative  
measures - they are in the  
interest of a very positive  
goal - to preserve intact from  
any alien <sup>harmful</sup> influence the  
freedom which is at the  
heart of the ~~free~~ America  
we all love.

We can't all be as  
active in preserving this  
cause as the man por-  
trayed by Dana Andrews.

But we all - every one of  
us - enjoy what he is  
fighting to preserve - Freedom  
Perhaps we all should ask  
ourselves how we use this  
freedom which has cost  
so many people their lives  
in the history of America

You know, freedom is  
only as good as our use  
of it to be good Americans.  
It doesn't help to be free to  
worship God if we don't  
actually worship Him. It  
doesn't help to be free  
to speak our minds if we

do not use this freedom  
to speak constructively and  
actively <sup>continually</sup> for America's good.

~~It doesn't help~~ political  
freedom doesn't help America  
either unless we use it  
to vote intelligently + to work  
for an ever better government.

Freedom made great  
demands of Matt Savetti.  
His response is a great  
human drama. Freedom asks  
something of you too - to use it  
to help build an ever greater  
America, so the land of the free will  
ever be the home of the brave.
