Oil spill cleanup to begin Bush investigates helping Exxon

Associated Press

WASHINGTON- President Bush dispatched three high-ranking officials to Alaska on Tuesday to "take a hard look" at the nation's worst oil spill and judge whether the government should take over the massive cleanup job from Exxon.

With an oil slick spread across 100 square miles of Prince William Sound, Bush said the first priority is to protect the environment and "clean up this disaster." Then, he said, the government will decide on any penalties for the spill.

"This is a matter of tremendous concern to Alaskans and, indeed, to all of us," Bush said. "The conservation side is im-

portant. The energy side is important."

Bush was briefed on the disaster by Transportation Secretary Samuel Skinner, Environmental Protection Agency chief William Reilly and Coast Guard Commandant Paul Yost. Immediately after the meeting in the Oval Office, they left for Alaska.

The oil spilled into the water after the 987-foot tanker Exxon Valdez, trying to avoid ice, rammed a reef and ran aground Friday. Fewer than 135,000 gallons of oil have been recovered from the 10.1 million-gallon spill.

The ship's captain, Joseph Hazelwood, was not on bridge when the accident occurred. Instead, the third mate, who did

not have proper certification, was in charge, according to Exxon Shipping Co., which owns the tanker.

The harbor reopened Tuesday, tankers anchored offshore churned in to pick up oil, and winds which had been moving the oil died down. The port had been closed since the accident, reducing the flow of oil through the Alaska pipeline. Coast Guard Lt. Ed Wieliczkievicz said the oil slick spreading across the sound was clear of shipping lanes.

Commenting on reports that Hazelwood had a drinking problem, National Transportation Safety Board spokesman Bill Woody said, "We look at all areas in an investigation and that's an area of concern."

Women may help Church survive

By MARIA MILANO
News Staff

Feminist theologian and author Rosemary Radford Reuther explored the problem of sexism in the Roman Catholic Church.

Tuesday's lecture, a part of the Arts and Letters Gender Studies series, traced the problem of sexism in the Church from its historical beginnings to its continuing existence.

In an overview of the problem, Reuther stated that "how the church handles this issue of incorporating women into the Roman Catholic Church may determine if the church survives."

From early times women have been seen as subordinate to men, according to Reuther. She said that man was the generic understanding of both divine and human being.

Reuther stated that women were previously suppressed

from public ministry and higher education. It has only been recently that women have begun to question their position in society and in the Church.

Reuther said that "ministry in the Church is in crisis and women are doing a lot without recognition." Women are now allowed to perform lay ministry in the church but they are still cannot be ordained, said Reuther.

American bishops are caught in the middle, said Reuther. Women are the majority of church goers and volunteer workers of the church. The bishops, however, are tied to the jurisdiction of the Vatican and lack the independence to challenge the Vatican's position, according to Reuther.

Reuther claims that women's general position in society has gone through changes, moving from an initially subordinate position to a position of equivalence and partnership

in family and society. The American bishops' pastoral letter on women, however, continues to "keep women tied to subordinate positions in the church and the society," said Reuther.

Reuther believes that the Church's failure to fully recognize women is a fundamentally contradictory teaching and "an expression of weakness and not of strength."

Catholics are standing at a crossroads, said Reuther. The church can either follow the lead of Vatican II and be more open and cooperative or it can retreat to the authoritarianism of Vatican I.

Reuther concluded with the realization that oppressive behavior will not completely disappear from a community. Both vision and creativity are needed in women's effort to gain their position in both the church and society, she said.

Housing plans made for Senior Week Extension granted for students to make accommodations

By LAURA DOWNS
Staff Reporter

Students with valid reasons to remain on campus during Senior Week must notify the Commencement Accommodations Committee (CAC) by Monday, April 3, 1989.

This deadline is an extension of the original March 17 deadline. "We want to reach the last ones who haven't caught the deadlines yet," explained Dr. Peter Lombardo, director of the CAC.

Lombardo said that students who do not respond by Monday run the risk of not being able to remain in their own rooms during the week.

"The senior rooms are automatically reserved, as are the rooms of students involved in the organizations that will be needed to stay for various functions during Commencement Week," said Lombardo. He explained that the remaining rooms will be available to accommodate the families and friends of the graduates. The parents have already received by mail the registration form necessary to make the proper arrangements.

Lombardo said that the CAC wrote to the heads of the various organizations that will be staying on campus during Senior Week

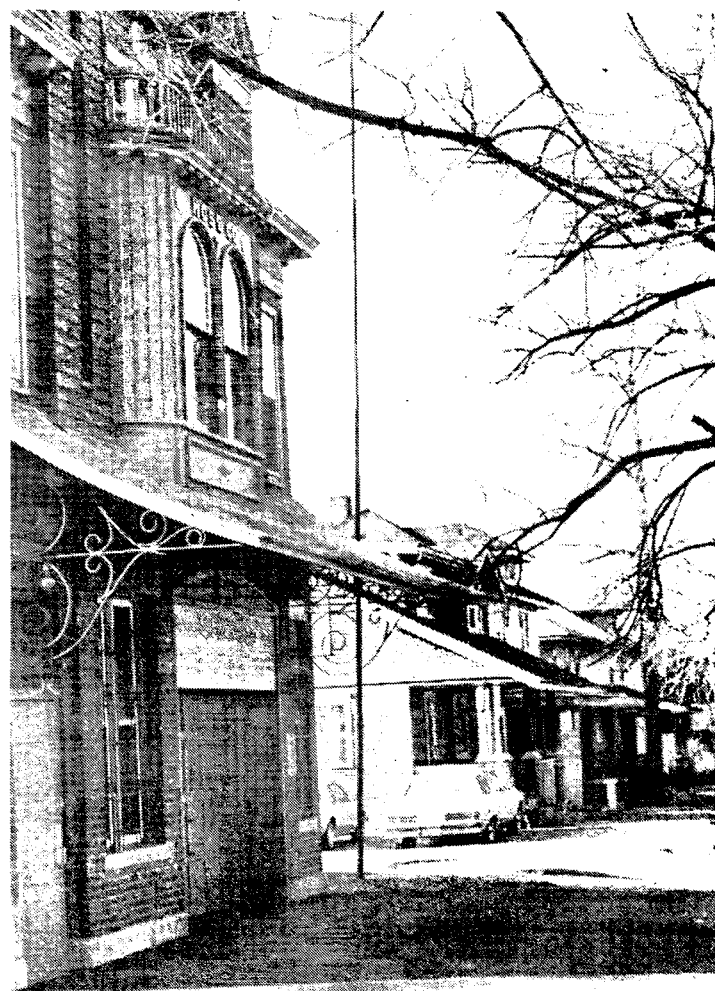

and that these organizations have already supplied them with lists of students who will remain. Therefore, he said, these individuals do not need to contact the CAC themselves unless they want to double-check.

After April 3, the CAC will begin to respond to the housing requests received by the graduates' parents and send them their room assignments. "We will try to house them as close to their graduating senior as possible," said Lombardo.

He explained that due to the possibility that the room will already have been as-

NORTHEAST NEIGHBORS?

The Observer / Chris Donnelly

Although the sun shines on the Northeast Neighborhood Service Center, things may not be so bright for students hoping to live there. The Northeast Neighborhood has been rezoned to a single family area, which may prevent students from living there in the future.

Students left out of rezoning process

By KENDRA MORRILL
Senior Staff Reporter

The rezoning of the Northeast Neighborhood into single-family homes "came as a big surprise to all of us" in student government, said Tom Doyle, student body president.

The rezoning of areas of the neighborhood in which 800 students live prohibits the establishment of group homes, or homes rented to more than two individuals. Homes already rented to three or more students can remain designated as group homes, according to the zoning ordinance.

"Two weeks ago, the Neighborhood Housing Service bulletin came across my desk and the front page story was 'Northeast Neighborhood has been rezoned,'" Doyle said. "We never realized that was going on."

"No students were notified about the (rezoning) process or final decision," said Mike Paese, student body vice president. "I think that's wrong."

The rezoning of the North-

east Neighborhood, which went into effect in October of 1988, was an effort to stabilize the number of group homes in that neighborhood, according to Jim Roemer, director of community relations at Notre Dame.

"(The people in the Northeast Neighborhood) want a healthy mix, ethnically and demographically," said Roemer. "I think the neighborhood has the right to say that."

"Roemer's point is well-taken," said Paese, "but I disagree with him. I don't think it was done to maintain the homogeneity of the neighborhood."

Students perennially have been a problem in the neighborhood's eyes, Paese said. He and Doyle said they think the neighborhood was rezoned in response to the students living there.

"I spoke with Ann Mannix (of the Neighborhood Housing Service)," said Doyle. "I said, 'This sounds like a direct negative response to students. Stuwrong.'"

IN BRIEF

War Games will begin next month for Grissom Air Force Base in Peru, Indiana, marking the first time in seven years that the base has conducted extensive exercises, officials said. The war games, scheduled to begin April 8, will include dawn-to-dusk flights by fighter planes of the 930th Tactical Fighter Group. The exercises will help the unit prepare for a future inspection, said Col. Bane Lyle. Simulated airfield attacks will take place April 12-14, Lyle said. People in the area of the base might see low altitude flying, smoke grenades and blanks being fired, he said. -Associated Press

'Club ND' is more than a welcome surprise

Many students, for a variety of reasons, remained on campus for the just completed Easter vacation. Whether they stayed due to the short length of the break or the long distance to their home, these students were in for quite a pleasant surprise. Shattering all South Bend stereotypes, this break featured four consecutive days of beautiful sunshine and warmth.

As a living example to the adage that "Notre Dame weather follows Notre Dame students", I was one of the most astonished at the weather. Living in the East, I've always received double doses of South Bend weather around break time. I'd leave ND on a Saturday with snow or rain coming down and, by approximately Tuesday, that rain or snow would have caught up to me on the East Coast. Even when I went to Daytona Beach this year, South Bend weather tagged along- or do you call temperatures in the 40-50 degree range normal in Florida? Thus, imagine my surprise when I called home on the first day of break in warm and sunny South Bend to find it raining back home!

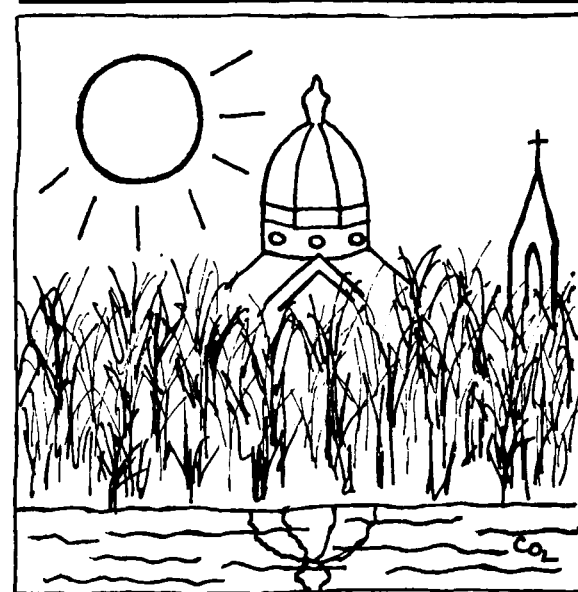

Sadly, there was one drawback to the beautiful weather. My roommates and I had planned on burying ourselves in our books- for four straight days- so we'd have a jump on the second half of the semester. I'm sorry to report, however, that the 'brare and great weather are not necessarily an optimal combination for indulging in work when you're a sun-starved Domer. The lure of "Club ND" was too hard to resist: sunshine plus high temps plus no classes equaled outdoor fun. The hardest decision I had to make this weekend didn't concern quant or b-law, but rather, "tennis or basketball?" Other options included bicycling, softball, frisbee, or just lounging by the lake. Regardless of the choice, I couldn't lose.

Not only was the weather a bonus for outdoor activities, but also, it served to boost everyone's spirits as well. With seemingly arctic temperatures prevalent only a week before, who couldn't appreciate the Easter Bunny's early present?

Also contributing to the successful break was the hard work of Notre Dame's non-student community, specifically on Easter itself. The High Mass at Sacred Heart Church on Easter Sunday is a particularly noteworthy event, a joyous celebration which should be experienced first hand by all who have the opportunity. While I normally attend Sunday night mass in the chapel of my dorm, the Sacred Heart liturgy

Rich Iannelli

Business Manager

was well worth getting up early to attend. The Church was quite a sight: sun streaming through the stained glass windows, the presence of innumerable floral arrangements, a multitude of worshippers in their Sunday finest, and the choir arranged high above the congregation in the balcony. In addition, I can only praise the staff of University Food Services for the Easter dinner prepared and served that day.

While my roomies and I did miss our families on this special holiday, the combination of the "Club ND" atmosphere and the special efforts put forth by the Notre Dame community made this a truly enjoyable holiday. While the streak of perfect weather did end Monday evening with some showers, don't despair- spring has made its first appearance at the Dome in '89 and I'll be the first to say that its timing was just about perfect. In addition, as the girls of Badin Beach and the guys at the Stepan Courts will be sure to tell you, who would ever have time for classes or studying if it were always warm and sunny in South Bend?

ND professor to get Javits Award

By CATHY FLYNN
News Staff

Professor Subhash Basu, chairman of the biochemistry, biophysical, and molecular biology program, is the first faculty member from Notre Dame to be awarded the Jacob Javits Neuroscience Award by Congress. "Every year, 20,000 scientists like me apply for grants, out of which 6000 are awarded them," Basu said. "Out of the top 60, they give Javits awards."

In 1983, Congress instituted the Javits award in honor of the late New York senator, who was a victim of a neurological disorder commonly known as Lou Gehrig's disease. Basu will receive a \$1.2 million grant to support his neuroscience research for seven years.

"My research covers

Alzheimer's, Tay-Sachs, and gangliosidosis diseases," he said. "Since glycolipids are present on the surface of brain cells, my team is trying to find out to what extent incorrectly synthesized glycolipids are responsible for brain disorders."

Basu's "team" includes his wife, Associate Professor of Research Dr. Manju Basu and Dr. Kamal Das, associate professor of research. Basu will lead their efforts, which he thinks may eventually show the way in healing defective DNA.

"Since it's 1983 inception, we have awarded 341 grants, but the amount has differed according to each situation," said a spokesperson for Mr. John C. Dalton, associate director of the Institute of Health. Basu received one of the largest grants.

Associate provost prepares to leave ND

By MISSY WEBER
News Staff

Sister John Miriam Jones, associate provost of the University of Notre Dame, is leaving July 1 to become provincial of the Central Province of the Sisters of Charity in Cincinnati.

Sister Jones

She will return to her congregation's headquarters, Mount

St. Joseph, where she was recently elected spiritual director of a community of some 200 sisters which she joined in 1943.

Jones says she is surprised about the election but "If I have to leave, it's nice to go like this with people at Notre Dame saying 'We don't want you to go,' and others from my community saying 'We really want you here.'"

In 1972, Jones was initially asked to oversee the beginning of coeducation at Notre Dame. She said that it was "a part of history making... By adding women, the goal was not to change what was right about Notre Dame... only broaden it."

Coeducation was right for Notre Dame because it is more similar to the rest of the world, said Jones.

"The spirit and mystic of Notre Dame are palpable, and

by adding women people feared that they would be eroded. That did not happen. Women have only enhanced and exemplified them better," Jones said.

Although the early women at Notre Dame were in obvious minority, the situation is "much more normal today," said Jones.

As Jones has had less need to spend time getting coeducation off the ground and the concerns of women have no need of an intermediary, she has been diverted in her job as associate provost.

A few responsibilities include coordinating faculty appointments, supervising affirmative action activities, providing for the needs of disabled students and serving as liaison with the three Reserve Officer Training

Three announced winners of the Irish Clover Award

By FLORENTINE HOELKER
Senior Staff Reporter

Student senate announced the winners of the Irish Clover Award for outstanding service to the students and filled several cabinet positions in the next student government in its last regular meeting of the school year.

The three winners include Joseph McKenna, the rector of Sorin Hall and a chairman of the Iceberg Debates; Dan Walsh, the Business Board Manager; and John Hamill, who worked on the Iceberg Debates, student government, and the Hiler-Ward debate last fall.

The senate held an open nomination and voting forum for the Clover Award. The award is given to those who "have gone far beyond the normal call of duty in their service to the students," said Student Body President Tom Doyle.

"This award basically is a way of showing our appreciation for those who are unselfish in their service to the student body," Doyle said.

In addition, senate revealed the names of several persons who will take positions in student government under Matt Breslin, the student body president-elect.

Guy Weismantel is the student body treasurer for the 1989-90 school year, and Molly Griffin will take over for Dan Walsh as the new business board manager.

U.S. State Dept. starts visa 'lottery'

Associated Press

WARSAW, Poland- The aspirations of the young Pole in the crowd outside the U.S. embassy weren't grandiose: "I would like to work and live a normal life."

But they speak volumes in a country where little is "normal" other than spirit-sapping shortages of everything from housing to hope.

So he and hundreds of thousands of others worldwide have taken a chance on finding a place in what they see as a land of plenty. They have entered a U.S. State Department lottery to win one of 20,000 immigration visas to the United States to be issued over two years starting in October.

A computer will select the winners, rather than the immigration officers, who normally must strictly limit visas to those who have specialized skills or a close relative in the United States.

"This lottery may be their only chance of immigrating," said Phyllis Villegoueix-Ritoud, consul-general of the U.S. embassy in Warsaw.

Many Poles learned about the program from Voice of

America broadcasts "as my ringing phones can testify,"

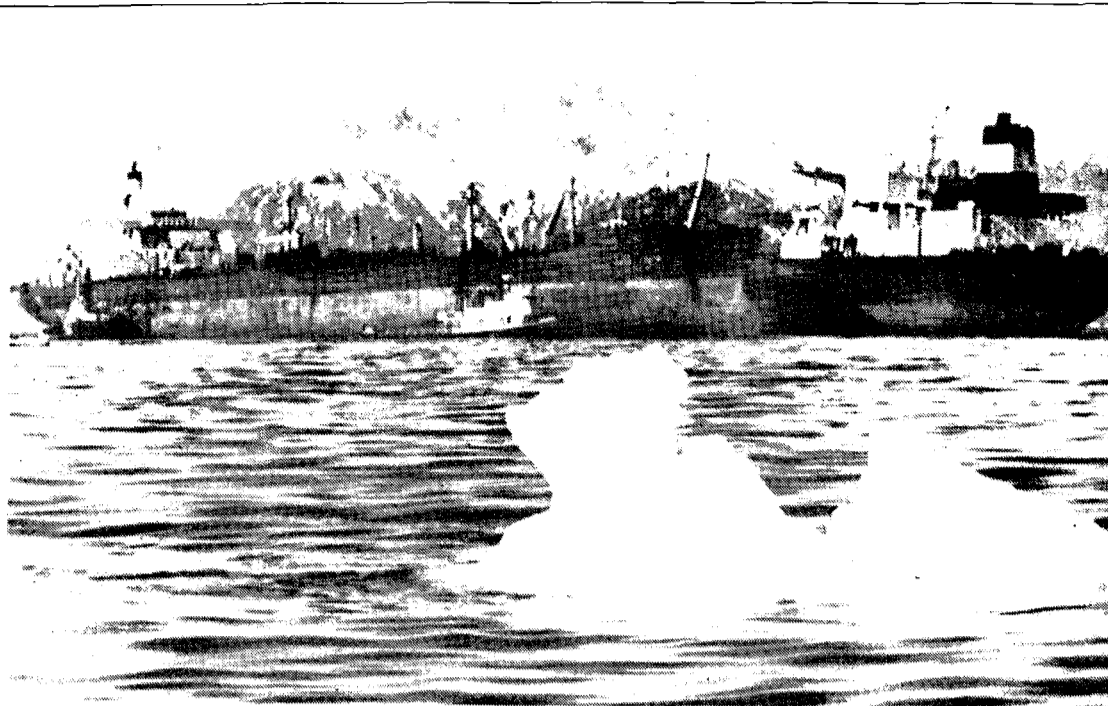

said embassy Second Secretary Sylvie Martinez. "We haven't had a moment's peace since."

Rules for the lottery are quite specific. The applications are mailed directly to Washington, with refugee status because those quotas have been filled," said Jim Wagner of the Tolstoy Foundation for Soviet refugees in Rome.

Each person can send only one application. It must be typewritten, contain specific information and photographs, and be mailed in an envelope of specific size.

In impoverished Bangladesh, a business started overnight to sell applications and envelopes following the prescribed form. An envelope sold for about 31 cents, five times normal, and the same price was charged to get the address typed.

In Peru, a mail strike that started Feb. 2 has complicated matters, with many people much too poor to afford a private courier.

the tanker's mishap is blamed on ice like this that drifts across the shipping lane in the Prince William Sound. Story page 1.

Rezoning

continued from page 1

dents aren't necessarily wanted (in the neighborhood). She said, 'I'd have to agree with you; by and large the rezoning was a response to students.'

"We should've been consulted to solve the problems and address the issues," said Paese. "If we were the problem, we would've liked to help make it better."

"We're not questioning anyone's rights, but (Roemer and the Northeast Neighbor-

hood) didn't deal with the University's side," Paese said. "Were students' problems and concerns brought up? I wonder."

The University also has a vested interest in the Northeast Neighborhood since 800 students live there, said Paese. A housing shortage could result if the number of student homes in the neighborhood substantially decreased, he said.

A grandfather clause allows landlords now renting their homes to more than two students to continue to do so. But when a landlord sells his home or discontinues renting it as a group home, the home is

redesignated a single-family residence.

"Could not the second step be asking developers to come in and buy out landlords' houses and then displace students?" said Paese. "It's a distinct possibility that if the (student) houses are already a problem, the next step is to get rid of them."

Both the University and students share the blame for not taking an active part in the rezoning process, according to Doyle and Paese.

"Students have to assume some responsibility for not being more involved with community relations," said Doyle.

"But we need the University's help," added Paese. "We are basically transients in a community where we don't own property or have votes. Without the University's initiative, we're an unrepresented, uninfluential minority. We have no pull with anyone," he said.

"(Roemer) should have solicited not only (Vice President of Student Affairs) Fr. David Tyson's opinion but also the student body president's opinion," said Paese.

"The time to find out how to be good neighbors isn't after the rezoning," he said. "We should've been invited to talk about it a long time ago."

U.S.-Iraq reach a 'fair settlement'

Associated Press

WASHINGTON- U.S. officials said Tuesday that Iraq's agreement to pay \$27.35 million to the families of the 37 sailors killed in the attack on the USS Stark is a satisfactory and fair settlement but it is unclear when the payments will be made.

The agreement, formally announced by the State Department, represents about 92 percent of the \$29.6 million the United States had requested for the families of those who died in Iraq's unprovoked missile attack on the Stark in 1987.

Bush administration officials privately described the agreement as "satisfactory" and a "fair settlement." The sources, speaking on condition they not be identified, also said it remained unclear when Iraq would hand over the money.

They said Iraqi officials had offered the settlement in a take-it-or-leave-it manner.

The officials said Americans who were in Baghdad to settle the matter were called in to see Iraqi Foreign Minister Tariq Aziz on Monday "and told that this was what (Iraqi) President (Saddam) Hussein had decided."

"There were no negotiations," one source continued. "They just announced this was what they were prepared to pay."

"It was apparent to our delegation that this was going to be the best they could do. They didn't dicker," said another official.

The sources said they could not explain how Iraq settled on the figure.

Unopposed candidates lose in Soviet elections

Associated Press

MOSCOW- At least 37 key Communist Party and government leaders went down to embarrassing defeats in the Soviet Union's first multicandidate election, according to results trickling in Tuesday from across the nation.

The losers in balloting for a new national parliament included a candidate member of the ruling Politburo, the premiers of Latvia and Lithuania, and 27 Communist Party leaders from major cities, regions and republics, according to results obtained from interviews and various press reports.

The humiliation was greatest for officials who ran unopposed on the ballot and still lost because more than 50 percent of the voters crossed out their names.

Activists in cities from Leningrad to Kiev waged "cross-out" campaigns urging citizens to vote against certain officials by blacking out their names on the ballots.

Izvestia reported Tuesday what it called the "sensation-

al" result that no one was elected in 168 electoral districts where there were only one or two candidates because so many citizens voted against them.

In the weeks prior to the election, activists carried posters in Kiev illustrating ballots with several names crossed out. Ukrainian Communist Party

Chief Vladimir Shcherbitsky won anyway, but voters rejected both the party chief and the mayor of Kiev. All three ran unopposed.

In Leningrad, Deputy Mayor Alexei Bolshakov also lost despite facing no opposition. Scraps of hand-made posters appeared throughout the city in recent weeks suggesting he be defeated for that reason alone, according to a resident.

The defeat of so many top Communist Party and government officials was seen as a blow to the establishment, but Foreign Ministry spokesman Gennady Gerasimov said Tuesday that 80 percent of the party's candidates had won.

and a Ph.D. in microbiology from Notre Dame and has held concurrent faculty status in the Dept. of Biological Sciences since her appointment as the University's highest ranking female administrator in 1972.

At that time, a handful of women entered Notre Dame. Jones leaves her position at a time when women number roughly a third of Notre Dame's students.

notice sent to each undergraduate by Student Residences early in March.

The notice lists the only conditions that will permit extended stay on campus, such as having a graduating brother, sister, or fiancé, belonging to an organization whose services will be required during Commencement Weekend, and being a foreign student.

Commencement Weekend begins at noon on Friday, May 19. All remaining students, parents, and guests will be required to leave by noon on Monday, May 22.

Jones

Purdue experiment done aboard shuttle

Associated Press

SPACE CENTER, Houston- The deaths of 16 chicken embryos during a space shuttle flight this month raise a question whether animal life can begin in weightless space, a physician-astronaut said Tuesday.

Thirty-two chicken eggs were carried aboard Discovery in an experiment devised by Purdue University student John Vellinger. Half of the eggs were fertilized nine days before the March 13 launch, the other half two days before liftoff.

Dr. James Bagian, a member of the shuttle's five-man crew, told a news conference that when Discovery returned to Earth, all 16 of the younger embryos were dead. The older ones all hatched, and the chicks are being examined for any effects from the five-day exposure to weightlessness.

Bagian said the chicken experiment and another in which he observed plant growth were designed to determine if cell

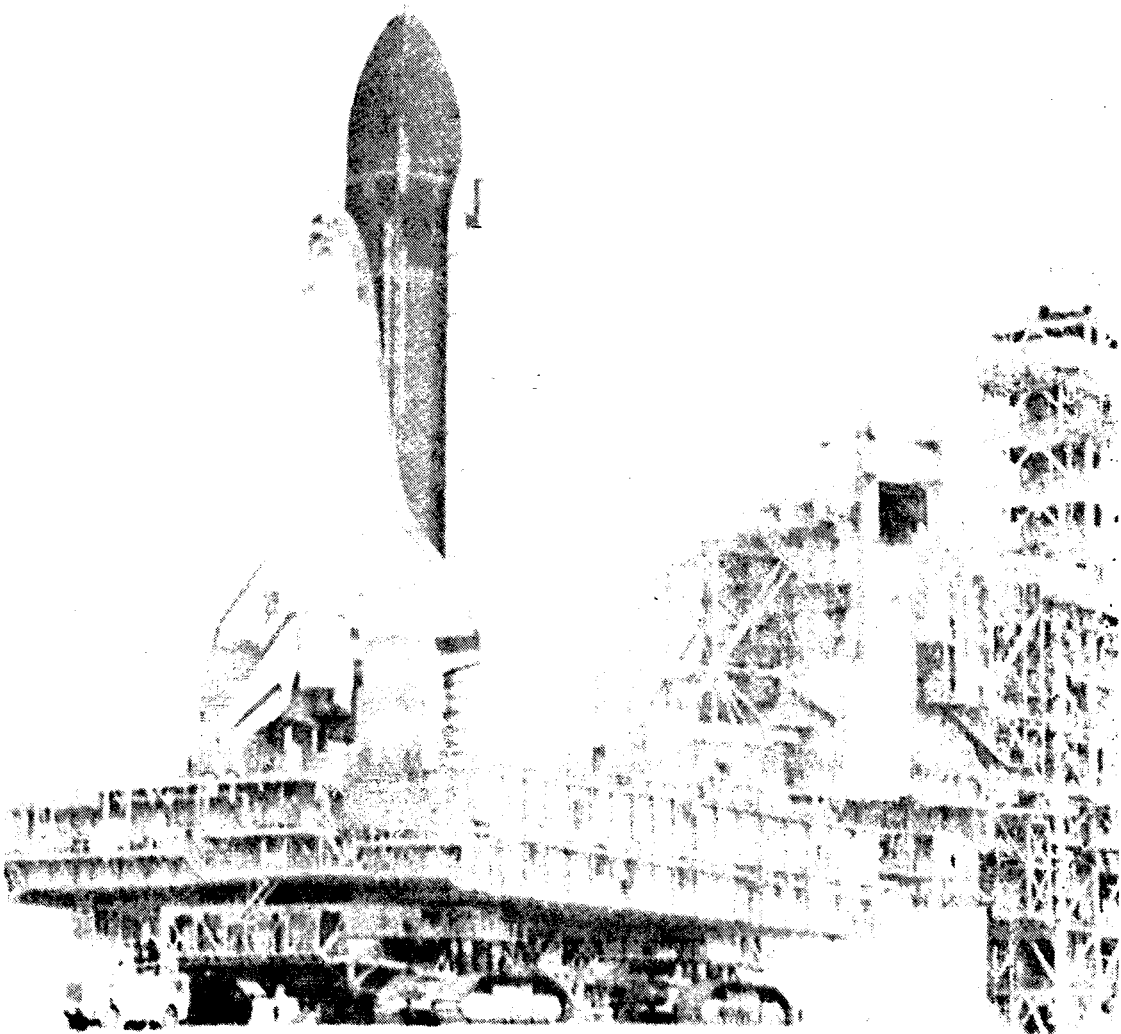

division is somehow "impeded or mutated" to some extent due to lack of gravity.

"There is a big question because the 2-day-old embryos died," he said. "Is there a certain point in the differentiation of cell types where they are vulnerable to the effects of the loss of gravity? Maybe gravity plays up to now an unknown role but a very essential role in that the older ones, at nine days, are past that crucial gate, if you will, and they are developing normally."

The experiment may show life cannot "begin anew" in orbit, Bagian said. "You may have to supply a gravity environment for a period of time."

The research could have an impact on plans to grow plants and animals on lengthy space journeys, such as an expedition to Mars.

"What looked like a very simple experiment may turn out to have generated thousands of questions now instead of providing answers," said crewman John Blaha.

AP Photo

The space shuttle Atlantis crawls slowly to launch pad 39B at Kennedy Space Center. Atlantis is scheduled to launch soon in continuation of NASA's Shuttle Program, scant weeks after the Discovery lifted off. It will launch the Magellan Probe, which will map the planet Venus.

Protesting plagues the Academy

Associated Press

LOS ANGELES- If the Academy Awards are best known for garish gowns and overlong acceptance speeches, then Oscar-oriented protests run a close third, and Wednesday night's awards ceremony will be no exception.

As the producers of the 61st Academy Awards hurried on Tuesday to prepare the show, protesters picketed the studios of MGM-United Artists, demanding an apology for the comic depiction of stuttering in the triple-nominated film "A Fish Called Wanda."

"If young children across the country are watching this film, they really won't understand how the person who stutters is abused verbally and shamed by everyone around him," said Mark Power, a member of the advisory board of the National Stuttering Project.

"I don't think (a film maker) would have a blind person walking into walls and have people kid him about that or make fun of him," Power said. "But it's the same thing with stuttering. People are born with the problem, and there's nothing you can really do about it."

Ironically, another United Artists release has been praised for its sensitive depiction of a disability. "Rain Man," in which Dustin Hoffman portrays an autistic savant, is this year's most nominated film, and is favored

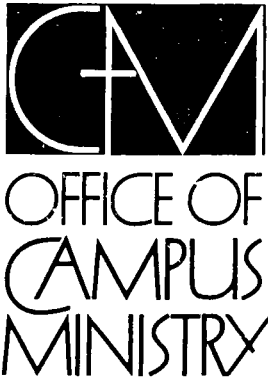

to win several major awards, including best picture.

Ueberroth interested in buying Eastern Airlines

Associated Press

NEW YORK- Texas Air Corp. directors met Tuesday and were expected to consider offers to buy strike-crippled Eastern Airlines, sources said.

Peter Ueberroth, whose term as baseball commissioner ends Saturday, may offer \$300 million to \$500 million during the meeting that ends Wednesday, said baseball and airline industry sources. Takeover special-

ist Carl Icahn hoped union concessions would persuade Eastern creditors to let him take control.

Sources said substantive discussions in the regularly scheduled meetings probably wouldn't get under way until Wednesday. Texas Air spokesman Art Kent in Houston said the company wouldn't comment on whether a meeting was being held.

"There are a lot of those

rumors going around," Kent said.

Indications of Ueberroth's interest came as Icahn, owner and chairman of Trans World Airlines Inc., resumed talks with Eastern's unions about a possible takeover. Icahn hoped to win concessions, said Brian Freeman, an investment banker with close ties to the Machinists union.

The union struck March 4, and support from pilots has vir-

tually grounded the Miami-based airline. A federal judge in Miami scheduled a hearing Thursday on Eastern's efforts to force its rebellious pilots back to work.

Meanwhile, U.S. bankruptcy Trustee Harold Jones, administering Eastern's Chapter 11 reorganization in New York, said he was interviewing about a dozen candidates for Eastern bankruptcy examiner. He

hoped to recommend a candidate to U.S. bankruptcy court Judge Burton Lifland by early next week.

The list of possible examiners for Eastern, which filed for protection from creditors on March 9, includes former Defense Secretary Frank Carlucci and top securities fraud lawyer Leon Silverman, sources close to the situation said.

Meese testifies that he informed Reagan

Associated Press

WASHINGTON- Former Attorney General Edwin Meese III testified at Oliver North's trial Tuesday that the specter of impeachment hung over the White House in the 72 hours after aides discovered a planned diversion of Iran arms sale money to the Nicaraguan Contras.

In two hours of testimony, Meese said he told then-President Reagan about the diversion the day after North confirmed that the plan, outlined in a memo, had become a fact.

"Your worst nightmare had come true?" asked North lawyer Brendan Sullivan.

"Yes, it had," Meese replied. "You knew that spelled trouble?"

"Yes, I did."

The nightmare that Sullivan referred to was the revelation that two activities in which North was deeply involved had been intertwined: the administration's secret sale of weapons to Iran and the fact that money from the arms sales- with the knowledge of U.S. officials- secretly was going to the rebels fighting the Nicaraguan government at a time such aid was forbidden by law.

"Merging of those two factors could cause toppling of the president himself?" asked Sullivan.

"Yes," Meese replied.

The memo, which had survived massive shredding ef-

orts by North, his secretary and an aide, was found on Nov. 22, 1986 by Meese aide William Bradford Reynolds in North's office. The next day, a Sunday, Meese met with North and others at the Justice Department.

Meese said that in the Sunday meeting, North appeared surprised that Meese had obtained the memo which outlined the arms sales profit diversion plan.

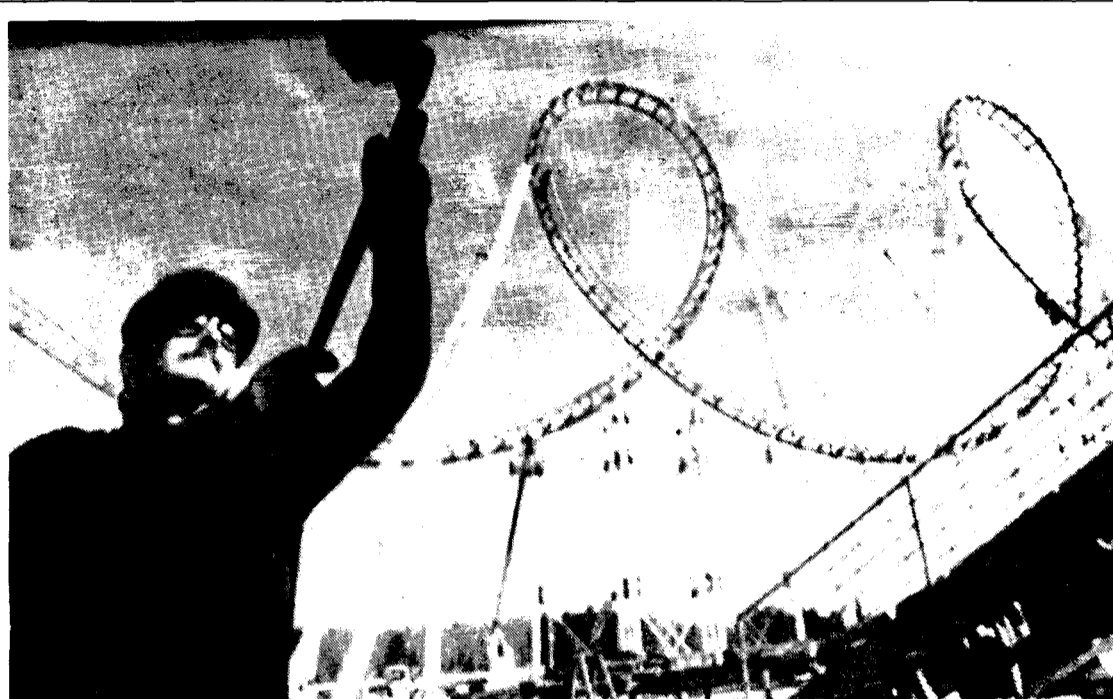

"I believe he asked where we had gotten the memo," said Meese.

He testified also that North assured him then that the plan was Israel's and U.S. involvement was "none." And he said North told him he had contacted Contra leader Adolfo Calero and suggested Calero open three accounts in Switzerland to get the money from the Israelis.

In truth, North co-defendants Richard Secord and Albert Hakim had arranged to receive the Iran money in private Swiss accounts they established and controlled, investigators found.

Meese said he talked to the president on Monday and they talked of the impact the public disclosure might have.

"I don't know whether the actual word impeachment was used," Meese testified. But he said there was concern over "the tremendous consequences" of the discovery.

Get ready to scream

A workman tightens a fitting on "The Great American Scream Machine," described as the world's highest and fastest looping steel roller, being readied at Six Flags Great Adventure in Jackson,

New Jersey. This newest state-of-the-art coaster includes seven upside-down loops and hits speeds of above 68 mph.

Heir-Apparent to Ayatollah resigns

Khomeini rids his administration of Western influence

Associated Press

NICOSIA, Cyprus- Ayatollah Ali Montazeri resigned on Tuesday as the heir-apparent to Ayatollah Ruhollah Khomeini and said he did so at the bidding of the 88-year-old revolutionary patriarch himself.

Montazeri was the most prominent casualty so far in a fierce drive by Khomeini to return Iran to the roots of its fundamentalist revolution.

Iran's U.N. ambassador, Mohammad Jaafar Mahallati, also resigned Tuesday, two days after the deputy foreign minister, Mohammad Javad Larijani, handed in his resignation. Both were U.S.-educated.

Khomeini last month harshly attacked those who would rebuild links with the West and denounced lagging revolutionary fervor.

Montazeri's resignation came after Khomeini sent him

a letter on March 26 asking him to step down, reported Iran's official Tehran radio, monitored in Nicosia.

"I see myself compelled to obey your orders, because the survival and stability of the Islamic Republic rests on obeying your command," the radio quoted the 64-year-old Montazeri as saying.

The immediate cause of Montazeri's ouster appears to be his critical assessment of the revolution's accomplishments.

Education leads us to the good life

Do we know why we come to get a university education? Too many of us are under the illusion that the purpose of our four years of college is to land a good-paying job after graduation.

Victor J. Krebs

Metanoia

It is not surprising, therefore, that from the very first weeks in school we take it as natural that we must live schizophrenic lives. On the one hand, we have our tedious academic obligations, and, on the other hand, we have our social life. They never intersect and nobody thinks they should. We go to classes to get respectable enough credentials to get a good job. We tell ourselves that the sacrifice is worth it. But our "education" is seen as a sacrifice, and we end up looking for excitement and fulfillment not in our academics but in our social life.

Most of us think that's the way it is supposed to be. In that way, we spend four years of our lives (and sometimes five) living only part-time, living despite being students... and suffering for it.

But this is all absurd. What we do in class should not be divorced from our lives; it should not stand apart from what is exciting and fulfilling to us. What we do in class should not end in class, and what we do in our social life should extend into our classrooms. To think otherwise is to be under the illusion that the goal of an education is to get a job.

Education is not the same as job training. An education is directed towards finding out what we want to do with our lives. The Greeks fully realized that to "Know Thyself" is the indispensable requirement for a worthwhile life. To know oneself is in fact the essential purpose of an education. But in our society we are forgetting that, and in the process, we are losing a sense of our own selves.

If you don't think so, try telling people you want to spend four years of your life "finding yourself." They will laugh at you. Not only will you sound hopelessly naive and stupid, but worst of all, you will be considered wasteful and impractical. Most likely the kind (and often patronizing) advice you will get is, "first make a living and then you can

spend your time 'finding out who you are'."

But how can we choose how "to make a living" if we don't know what we want? And how can we know what we want unless we take time to find out?

What we are told to choose, while it may be very good for those that tell us to choose it, may in fact not be so good for us. But we are told so many times what we ought to want, that we end up believing that we ourselves actually want it.

The sad fact is that we spend little (if any) time ever questioning what we are given, because we are too busy trying to fit in, too busy keeping pace with a set of values we have never had a chance to choose. Before we know it, we find ourselves in a place without any means to go back.

In failing to distinguish between our education and our job training, we are becoming the victims of a system that robs us of our own identity.

To see our lives at school as divided into two distinct and incompatible sides is a sign of the spiritual fragmentation that is rampant in our society. We are no longer in touch with who we are because we never give ourselves the time to find out who we are.

Throughout history peoples have recognized deep within the human consciousness a directive, a sort of natural compass that shows us our way. Everybody has it. Some hear it as a voice that speaks to them. Socrates is said to have had one. All the prophets heard it... To be able to hear that voice is what people refer to when they speak of "finding one's vocation."

The confusion of seeing our education as aimed at getting a job instead of at self-knowledge shows a forgetfulness of the importance of finding our vocation. In the end, such forgetfulness leads to the incapacity to listen to the voices within.

The split between our social life and our academic life is the result of the pernicious influence of a system that places more value in efficiency and productivity than on self-understanding. It is the result of forgetting that finding out what we want to do with our lives is more important than fitting into a given system, no matter how successful we may be told it is.

To belong to a university community is to belong to a community that is inspired by the goal of wisdom. A university should foster our personal growth

rather than the pursuit of external success, for in the end, external success is empty if it is not rooted in a clear knowledge of one's self.

To be educated is to have discovered our own voice and to live a life that follows its command. It is to align our lives with a single principle, a single and overarching goal. That discovery is what makes us able to see beyond conventions, to live according to our own convictions and to recognize that right in others. It is, in short, what al-

lows us to live a good life.

We can't begin to live well, or "successfully" until we have helped ourselves out of our own blindness, our own prejudices, and our own misunderstandings. But we can't do that unless we make the effort to understand first who we are, what we believe, and why. That above all is the reason we come to the university.

Victor J. Krebs is a graduate student in philosophy and a regular Viewpoint columnist.

P.O. Box Q

Favoring prisoners violates justice

Dear Editor:

I would really like to stir up an issue that has been sidestepped, mocked, and abused but never really tackled. It is personal safety and security or the lack of the same. We are finally being made aware of this problem, and steps are being taken by governments across the nation. But, unfortunately, it is the symptoms that are being attacked and not the causes.

In Washington, D.C. we read about a proposed curfew for teenagers, and, in California, we read about the banning of sales of any automatic weapons. Here are two classic cases where responsible and law-abiding folk are having their freedoms taken away for the sake of criminals who are not behind bars.

This really seems to be the root of the problem. The ACLU and other prisoner rights activist groups have so strengthened the rights of criminals that it is difficult for "we the people" to put offenders behind bars; "we the people" are suddenly being made aware that offenders are being let out on "furloughs." Not only do we pay for their room and board at penitentiary centers, but we let them out to terrorize us on weekends (please refer to the recent Lisa Bianco case and the well-publicized Willie Horton case).

The lack of punishment for criminals has got to a state where it almost seems that it is a common attitude, "if you can get away with it, do it-- and who cares if you get caught." Any store manager will let us know how much he

or she budgets for 'shoplifters' and I think we would really be shocked if we saw some statistics.

Introducing a system of 'work for your living' and restitution for convicted criminals would be a healthy and positive start. Although there aren't too many new railroads and highways left to be laid anymore, there are plenty of inner-city ghettos that could be worked on. I'd rather have my taxes spent on having prisoners occupy their time constructively-- primarily returning to the community the 'peace of mind' that they stole from it-- than sitting idly in cells.

This may unfortunately be an unforgiving and selfish attitude, but it is time that "we the people" demand from government that they do what they are supposed to-- provide us with justice and security.

Founded November 3, 1966

Jim Burkus, an ID checker in North Dining Hall has more to say than the customary dining hall worker. His 'Don't worry, be happy' way of life has students walking into the dining hall with a smile, even if they are being served Mystery Meat.

MARTY STRASEN
accent writer

CAMPUS PERSONALITY

Burkus leaves 'em laughing

I'm happy.
You know
the saying,
'Don't worry,
be happy'.
That's my
motto.

the other checker is a woman, but that does not stop Burkus from slipping in a dirty joke every now and then.

He says he's giving up Loni Anderson for Lent. And watermelons.

"I'm happy," says the 64-year-old South Bend native. "You know the saying, 'Don't

worry, be happy.' That's my motto. Me and George Bush are the only ones left like that."

At least among the ID checkers, Burkus has no rival. While many of the others punch cards into the machines like assembly-line robots, Burkus adds a new twist to an otherwise confined job.

"My philosophy is that enthusiasm is contagious," says Burkus. "I get them laughing, and hopefully they'll feel better all day."

"The students all love him," adds Gloria Stampe, who works alongside Burkus once a week and has sat through more than her share of joviality. "If he's not here, they'll say, 'Where's the crazy man?' or 'Where's the funny man?' He's fun to work with."

Burkus worked in the food sales and management business before his recent retirement. But retirement was too quiet for him. After all, what's a comedian without an audience?

Burkus says most of his best lines pop into his head spontaneously, but every now and then a student will beat him to a punch line.

"You know why a blind man won't go sky diving?" he asks.

"It scares the dog to death," someone blurts out, spoiling some of the glory for Burkus.

"You can't win them all," he admits.

But if Burkus is out to make students smile, he wins most of them. Even when they do know the punch lines.

ABC's new comedy one in a blue moon

The good things in life don't come often. The man in the Santa Claus suit, for example, works all year long preparing to widen the smiles of children on one single day each year. Good television shows come along once in a blue moon as well. These rare species are anything but trite, anything but cliché, and anything but ordinary. A blue moon has finally come in the form of "Anything But Love."

chance to live out her dream of being a writer, as she explains to her father in a very moving scene. In order to get the job, she must first write a story about Chicagoans' preference in nacho chips. The topic is obviously flat, which brings about a period of writers block.

Marty offers Hannah some help by suggesting they ask each other questions they've always pondered. Hannah asks, "What

JOE BUCOLO

To Be Continued...

ABC's newest situation comedy airs on Tuesdays at 9:30 p.m. "Anything But Love" is a genuinely funny show starring Jamie Lee Curtis as Hannah Miller and Richard Lewis as Marty Gold. These two are joined by some not-so-famous but just as talented regulars portraying the characters of Pamela Finch (Sandy Faison), Jules (Richard Frank), and Norman Keil (Louis Gram-balvo). All work for a Chicago magazine called "Chicago Monthly."

The characters give this star comedy its twinkle. Pamela is, as Marty suggests, the expert on "everything you wanted to know about nothing." Marty, who is responsible for getting Hannah a job at the magazine, is afraid of flying. In one airplane scene, he tells Hannah: "I'm trying to forget the fact that five million pounds of metal are slightly heavier than air."

Jules is another reporter for the publication; he is less apt to take Pamela's constant ribbing. He proclaims, "For the hundredth time, Mrs. Finch, I am not gay. But looking at you does make me wonder why."

Hannah was a school teacher prior to taking her new job, and she wants the

about Sunday papers on Saturday? I mean, do they really know?" This funny process clears Hannah's mind and she is able to write.

It's precisely this very personal, very human aspect of the show that makes it anything but unreal. These are characters about whom audiences really care. Hannah and Marty have (and admit having) faults, and they work together to get through the rough times.

The best aspect of the show is its comedy. For a change, the writing involved with this series is genuinely funny. Viewers need not force any laughs while watching this show. In a chair next to Marty, Hannah is writing a letter. Marty leans over to read it, explaining, "I can read upside down. It's the only way I could learn Hebrew." Jokes like these are intelligent and sincerely witty, a welcome and refreshing change from the humor on other shows.

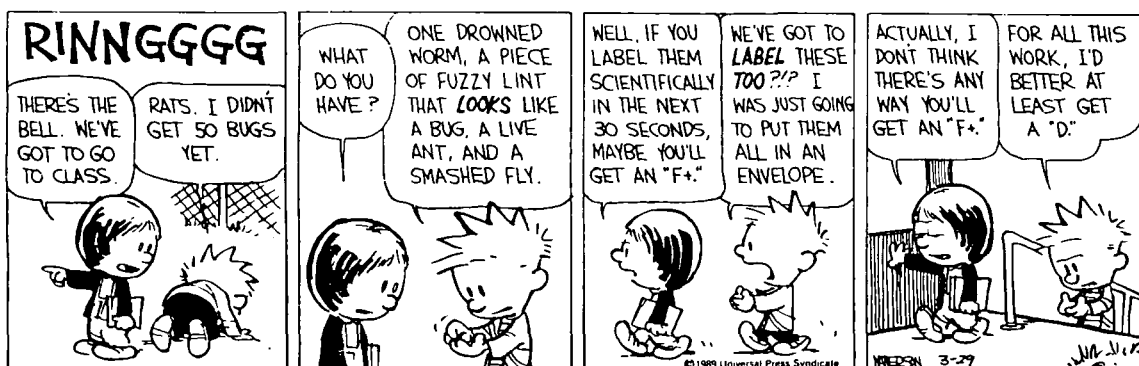

"Anything But Love" is ABC's newest and perhaps funniest situation comedy. The series presents real characters who are witty. "Anything But Love" is everything America could want in a comedy.

Jamie Lee Curtis and Richard Lewis star in the comedy series, "Anything But Love" on the ABC Television Network on Tuesdays.

Calvin and Hobbes

Bill Watterson

Items

continued from page 20

pursue the position at Notre Dame.

"I was contacted by the athletic department, and they indicated they wanted to upgrade the program and wanted it at a similar level as all the other athletic programs at Notre Dame," said Thomas.

After getting permission from the Elcona board of directors to accept Notre Dame's offer, Thomas wasted no time making an impact.

The Irish won the Midwest Collegiate Conference championship during the fall season, and Thomas earned Coach of the Year honors.

"I'd only been there three months," Thomas joked. "Lou Holtz and Ara Parseghian probably can't understand that. It took them a few years to become Coach of the Year."

Thomas also has upgraded the spring schedule. Notre Dame has won its last 22 dual

George Thomas

matches by playing lesser opponents in previous seasons, but this year's Irish schedule includes only tournaments.

"The schedule's very strong," said Thomas. "We've eliminated all the small schools. We're playing strictly tournaments with Big Ten schools and the strong schools in the Midwest."

"We're not going to build a dynasty, but we'll have kids who can play the game," continued Thomas. "The kids are going to learn how to win at golf. They're learning the right system. They're learning to create a swinging motion, and that's all you have to do. It's

the common denominator in golf."

Thomas certainly must know a thing or two about the sport. He led the 1981 U.S. Senior Open for 53 holes before Arnold Palmer caught up to him, and he has qualified for two U.S. Opens. During his first U.S. Open competition, in 1965, he became the subject of an 11-page Sports Illustrated article by John Underwood entitled "A Nobody at the Open."

"It was very exciting," said Thomas. "They picked the individual in the U.S. Open with the least amount of tour experience. Very few club pros make the U.S. Open."

Notre Dame seniors Doug Giorgio and Pat Mohan will attempt to duplicate their coach's feat when they try qualifying this spring for the U.S. Open.

"I'm going to try to get them to beat me," said Thomas, who still can shoot even par. "When they can do that, I know they're going to be good players."

Court sends America's Cup from USA to New Zealand

Associated Press

SAN DIEGO-- Because spirit was more important than speed, New Zealand is the new home of yachting's America's Cup.

In the first disqualification in the Cup's 138-year history, a New York judge ruled Tuesday that the San Diego Yacht Club flouted rules in the two-race sweep last September by sailing a catamaran while the New Zealanders used a traditional monohulled craft.

"San Diego violated the spirit of the deed of gift," State Supreme Court Justice Carmen Ciparick said.

Even she admitted the forfeiture was a "drastic remedy," but said she had no alternative. She called the race a "gross mismatch."

"Obviously, we're more than a little surprised," said Tom Mitchell, a spokesman for the America's Cup Organizing Committee. "We are holding out the possibility of an appeal. But we can't comment until we see the decision."

Until that decision is made, the Cup will remain with the yacht club, said SDYC commodore Patrick Goddard.

"If the Cup goes to New Zealand, the commodore of San Diego Yacht Club will personally deliver it," Goddard said.

Tom Ehman, executive vice president of the organizing committee, said San Diego defense officials "will do what's best for the Cup."

Sass, Irish face Chicago State in home opener

By SCOTT BRUTOCAO
Sports Writer

As the Notre Dame baseball team readies itself for the home-opener against Chicago State in a Coveleski Stadium doubleheader today at 5 p.m., it looks to rebound from Saturday's 10-0 loss to Indiana.

"Chicago State is a scrappy team," said Irish coach Pat Murphy. "They played us to one run in the fall, and we'll have our hands full on Wednesday."

One person who has been keeping the scorekeeper's hands full is senior James Sass, who stands as the leading RBI man for the Irish.

Sass leads the Irish with 22 RBI in 17 games, having doubled his total for the season after his 4-for-6, 11 RBI performance including two grand slams against Butler on Thursday. His 22 RBI come from just 17 hits.

Last year, in 55 games, Sass

had 13 RBI and was without a home run.

"It's amazing what one year of practice can do," said the Louisville, Ky., native.

Sass played baseball in high school in Kentucky. When he applied to Notre Dame, he was not admitted, so he attended the University of Kentucky on a baseball scholarship. After switching to football and maintaining a respectable grade point average his freshman year at Kentucky, he was accepted to Notre Dame as a transfer student his sophomore year.

In his third season of football with the Irish, Sass suffered a torn cartilage that effectively ended his football career. After rehabilitation, Sass joined the baseball team right before the 1988 season began.

"Last year (the 1988 season), I did not have a chance to play in the fall at all," said Sass. "It was my first time back in baseball after a four-year layoff. I didn't have the confi-

dence I needed, and I wasn't sure what I was doing."

His season probably suffered because of it. The 6-1, 195-pound senior had only 13 RBI in 163 at bats, but still batted .301 and stole 16 bases.

Sass is batting .347 this year with two home runs, 22 RBI and three doubles in 49 at bats.

"It is remarkable what James Sass has done in baseball because of the four-year layoff," said Murphy. "He's a very good athlete, he knows baseball very well and he is coming into his own."

Things were not always looking so rosy for Sass. Earlier in the season, he endured an 0-for-11 slump that included six consecutive strikeouts, four against Miami pitching ace Joe Grahe.

Soon afterward, Murphy benched Sass for a game. When Sass resumed his starting job, he did not look back.

Besides his recent outburst against Butler, Sass has had other explosive games. In

Notre Dame's 12-9 victory over Texas, Sass hit a bases-loaded triple that gave the Irish the lead for good. Against Pittsburgh, Sass went 3-for-4 with a triple and four RBI.

"I sure hope that James Sass realizes the type of player he can be if he works between now and the end of the season," said Murphy. "He can be a major impact player, but he has to keep improving. He has a future in minor league baseball, a future in professional baseball, if he continues to improve the way he is."

"He has to perform well in our program in order for us to be a successful team."

Role-playing is important to Sass. He recognizes his role as an RBI man and knows the importance of playing a role effectively.

"Our team is successful because everybody knows their role," said Sass. "Mine as a hitter is to be aggressive and to knock in as many runs as I can."

Against Chicago State, the Irish will be getting used to the

doubleheader. Of the 22 remaining dates the Irish have on their schedule, 18 will be doubleheaders.

"We've got to go out and play our game and not get involved with wins and losses," said Murphy. "We've got to get used to playing doubleheaders because that's what we've got ahead of us."

The Irish will be opening their home season at Stanley Coveleski Regional Stadium, the home field of the minor league South Bend White Sox.

"It's a privilege to play at Coveleski but it hurts that we can't have more students at the game because of the distance from campus," said Murphy. "But we like to open ourselves to the community a couple times a year."

"Coveleski is a bigger park than Jake Kline Field (Notre Dame's on-campus stadium), so we have to play a little more of a hit-and-run game, putting the ball on the ground a little more than we would if we were playing at Jake Kline Field."

Butler

continued from page 20

earned the victory in the first game by blanking the Bulldogs for three innings. Freshman Tom Gulka made a strong appearance by pitching the final three innings of the game, allowing one run.

Freshman Brian Conway won the second game by pitching six innings, allowing six hits and three runs.

"We're getting fairly consistent pitching," said Murphy. "We're not very talented in our pitching staff, but they're understanding what it is to be a college pitcher. They need to get that competitive edge back that they had in the beginning of the season."

Against Indiana, the Irish indeed wished they had that competitive edge that could have put them in the game. After scoring 27 runs two days before, the Irish were blanked by the Hoosiers, mustering only four hits and committing four errors.

Pitcher Erik Madsen (3-1) suffered his first loss of the season by allowing five hits and five runs (two earned) in three innings.

"It's not that we hit the ball that much better against Butler," said Murphy. "We pieced hits together against Butler, and at Indiana we hit the ball right at people."

"Indiana is not out of our league," continued Murphy. "They're not 10 runs better than us, and we'll prove that at the end of the season. You can write that down as a prediction."

EXTRA BASES: Outfielder Dan Peltier continues to lead the Irish in hitting, as he went 5-for-11 in the three games over break, including a 3-for-3 effort in the first game against Butler. He now leads the team with a .438 batting average and a .766 slugging percentage. He also has reached base in all 17 games and has an on-base percentage of .526. . . Shortstop Pat Pesavento was a model of consistency in his 6-for-12 effort over the break, gathering two hits in each game and raising his average to .317.

ND tennis runs record to 15-8

By BOB MITCHELL
Sports Writer

There are many ways to reach prominence in collegiate tennis, some faster than others. Miami (Ohio) detoured the Notre Dame men's tennis team's path this weekend, but the Irish later got back on track with wins over Northern Illinois and Indiana State.

As Head Coach Bob Bayliss looked down at Court 6 of the Eck Tennis Pavilion, he not only saw his number-three doubles team lose but also watched his squad drop two of three doubles matches, causing the Irish to lose 5-4 to Miami.

The 15-8 Irish doubles teams, usually the backbone of the lineup, were scalped by the Redskins. After singles play, the match was tied at 3-3. In the past, the Irish duos have solidified and pulled upsets.

For a variety of reasons, the

Irish could not muster a win this time. The loss cost Notre Dame an opportunity to establish itself as one of the top regional powers.

"It was disappointing to lose to Miami," said Bayliss. "We did not play well enough, but we played hard and were competitive. After singles, it was anybody's match. It was inevitable that we have a down day."

In the match for regional bragging rights, No. 1 Dave DiLucia was forced to three sets but downed Jeff Vandenberg, 6-7 (5-7), 6-2, 6-0. DiLucia, who currently is ranked 51st in the country, has won four consecutive matches going back to the Navy contest.

At number-two singles, Walter Dolhare bettered Pep Llinas in straight sets, 7-5, 6-0.

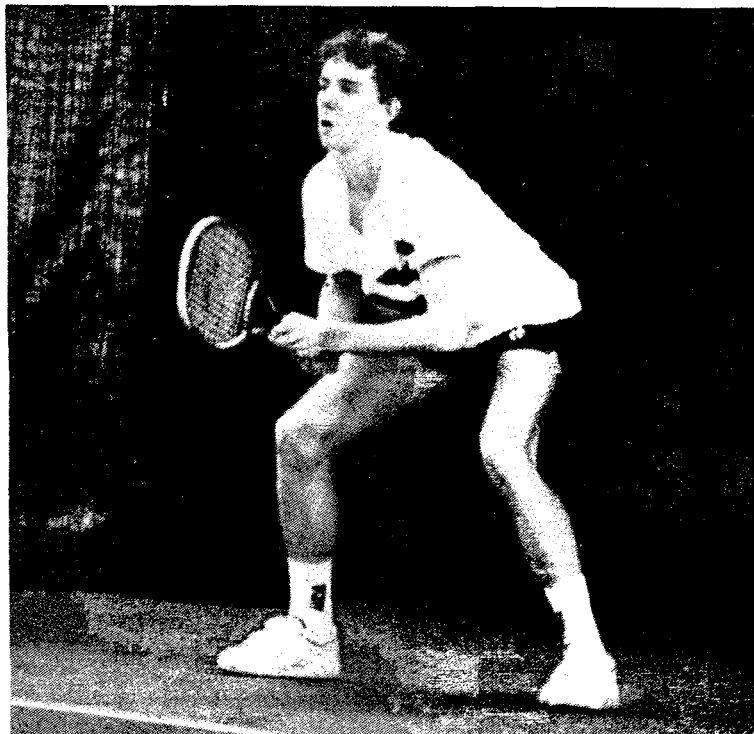

In doubles, the Irish number-one tandem was surprised by Miami's number-one duo of Jeff Vandenberg and Scott Mayo in

straight sets, 6-2, 6-3.

In the second match of the day, the Irish muffled the Huskies of Northern Illinois 6-3. The Irish jumped out to a 4-2 lead after singles and confirmed the win by winning two out of the three doubles matches.

The Northern Illinois match was the setting of highs and lows for the Irish squad. On one hand, Kalbas squeaked out a three-set victory against the formidable Eric Anderson 4-6, 6-4, 7-6. On the other hand, the number-one doubles pair fell for the second straight time to the team of Steve Weire and Dan Bowers 2-6, 6-4, 7-6.

In their third dual match in less than 36 hours, the Irish posted their first shutout of the season by chopping down the Sycamores of Indiana State 9-0. To illustrate the dominance of the match, Notre Dame did not drop one set in the entire match.

The Observer / E.G. Bailey

Brian Kalbas and the Notre Dame men's tennis team won two of its three matches during Easter break. The Irish fell to Miami (Ohio) before recovering with victories over Northern Illinois and Indiana State.

Sutter doubts he'll pitch again

Associated Press

WEST PALM BEACH, Fla.-- Bruce Sutter admitted Tuesday that his chances of ever pitching again are remote because of a severely torn rotator cuff. But the former king of the bullpen still is not ready to announce his retirement.

Sutter, who last year became only the third relief pitcher in baseball history to record 300 saves, was told Monday by Braves' physicians that the

rotator cuff in his right shoulder was torn badly.

"I wouldn't anticipate that he would play any more baseball," said team physician Dr. Robert Wells after being shown results of the examination.

"There's probably a 99.9 percent chance I won't be able to pitch again," Sutter told a hastily called news conference at the Braves' training camp. He returned to West Palm Beach Tuesday morning from

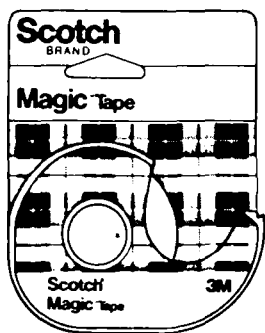

Atlanta, where he was examined Sunday by another Braves physician, Dr. Joe Chandler.

Sutter said he would rest his arm for three to four months and then decide whether to undergo surgery on the shoulder, which had been operated on three times previously.

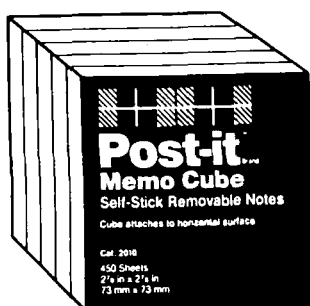

Sutter, who signed a \$10.6 million, 6-year contract with the Braves in December 1984, still has two years remaining at \$1.5 million per season.

Xavier Victor won the long jump for one of four first-place awards the Irish track team captured at last weekend's Notre Dame Invitational. The Invite was an unscored meet.

Track opens outdoor season with Notre Dame Invitational

By COLLEEN M.HENNESSEY
Sports Writer

The Notre Dame men's track team opened its outdoor season last weekend with a strong showing in the Notre Dame Invitational.

The Irish viewed the unscored meet as an opportunity to allow some of the less experienced athletes a chance to compete in preparation for the outdoor season. Although Notre Dame took place in only four events (two running and two field), Irish coach Joe Plane was pleased with the overall effort.

"We certainly accomplished all we set out to do," he said. "First-place finishes were really irrelevant."

Notre Dame hosted the six-team meet, Because fo the resurfacing of the outdoor Cartier track, the running events took place in the Loftus Center. The field events were at Cartier Field, as scheduled.

One of the big winners of the day was Western Michigan University. The Broncos took first-place finishes in 10 out of 17 individual events, including the pole vault, the 1,500 meters, the 400 meters, and the 200

Joe Plane

meters. Notre Dame took second in the 200.

Junior Xavier Victor led the Notre Dame cause, claiming first place in the long jump. Victor beat out Western Michigan's Joe Beamam with a jump of 22-7 3/4.

In the 110 high hurdles, Irish junior Glenn Watson defeated Western Michigan's Doug Butler by one-tenth of a second with a time of 14.4.

"This was the first opportunity for our high hurdlers to run a full flight of highs," said Plane. "Indoors they run 55, whereas outdoors it is 110."

Throwing the javelin for the Irish, junior Ron Regnery's best toss of 182-11 1/2 beat out

Glenn Watson

freshman teammate Jon Stewart's 182-5 1/2, thereby ensuring the first and second spots for Notre Dame in that competition.

The Irish swept the 3,000 meters as well, with freshman Bill Dauphinais crossing the tape at 8:32.95, just ahead of freshman Mike Drake and sophomore Matt Ronzone, who recorded respective times of 8:33.90 and 8:38.50.

Notre Dame travels to Georgetown this Saturday to compete in a dual meet with the Hoyas, last year's Big East indoor champions.

"This will be a good opportunity to run against someone different," said Plane. "Someone not from the Midwest."

Irish

continued from page 20

The Irish needed good performances from senior Lisa Kuhns and freshman Comalita Haysbert to make a run at the Rockets, whom they beat earlier this season with Bunek and Liebscher at full strength, and they got just that.

Kuhns finished with 10 points, including two treys, and Haysbert came through with eight points, but it was not enough to get the team past Toledo.

The Irish had a 32-27 halftime lead but could only manage 40 percent shooting from the field in the second half. The Rockets exploded past them for 58 points during this same time period to throw the Irish into the consolation bracket.

The
Observer

"A three-day tournament is tough on teams," said Bunek. "You have to strong emotionally, mentally tough and concentration has to stay extremely high." "But even though we didn't play well in the first and second games, we're a young team and any postseason experience can only make us better later."

Irish lacrosse buries Hartford

By **PETE LaFLEUR**
Sports Writer

The Notre Dame lacrosse team ended its scoring woes last Saturday at Edward W. "Moose" Krause Field by routing an undermanned University of Hartford squad 17-4.

The Irish (2-3) had been averaging only six goals per game entering the contest with the Hawks. But in their first home game, the Irish peppered the Hartford goal with 59 shots and dominated possession on the way to securing their second consecutive win.

"I think Hartford was a very spirited team, but they weren't really talented," said Irish coach Kevin Corrigan. "We played to our level instead of playing down to their level, and I was pleased overall that we dominated the whole game."

Junior Mike Quigley led the Irish with five goals and an assist, one short of the Irish record for goals in a game.

Junior Brian McHugh added four goals and two assists while senior tri-captain John Olmstead poured in three goals. The Irish defense fended off

four man-down situations but was otherwise untested. Hartford attempted only 17 shots and cleared out of its zone on only seven of fifteen attempts.

Quigley snapped out of his shooting slump in a big way, scoring his five goals off of six shots.

"Going five for six is tremendous, and we've been needing more scoring from our mid-field," Corrigan said. "Mike's been struggling but played very well against Hartford, and we need him to play well."

Lacrosse

continued from page 20

have to take advantage of it."

Senior tri-captain and junior Brian McHugh continue to spark the Irish attack. Olmstead leads the Irish with nine goals and five assists, while McHugh has tallied eight goals and five assists.

Junior midfielder Mike Quigley has also chipped in eight goals and an assist, as the Irish try to compensate for the

absence of junior Dave Carey, who could be out for the year with a knee injury.

O'Connor and senior tri-captain Doug Spencer lead a defense that has held every opponent under 10 goals. Junior goalie Jeff Glazier has 48 saves this year and traditionally has played very well in big games.

The game with Air Force will hold special significance for Quigley and freshman Doug Murray. Two Air Force players and the Falcons assistant co-

ach come from Quigley's high school, Kings Park in Smithtown, N.Y. Murray's older brother, Mike, is a sophomore middle for the Falcons.

Olmstead enters the game with 120 career points. He could become the third all-time leading Irish scorer by passing Tom Grote (122) and Steve Pearsall (125). That would leave only Bob Trocchi (143) and Joe Franklin (161) between Olmstead and the scoring record.

Are You Concerned with the Cultural

Diversity at Notre Dame?

The Multicultural Executive Council is looking for a few good people to become members of the council. Applications can be picked up now at the Student Activities Office on the 2nd floor of LaFortune.

Deadline to turn them in is March 29, 1989. Interviews will be held April 5-6.

It's All Saints Day in NIT final

Associated Press

NEW YORK-- All Saints' Day is coming early this year.

St. John's and St. Louis, Catholic schools with proud basketball traditions, meet Wednesday night for the championship of the National Invitation Tournament at Madison Square Garden.

St. John's is playing in its 25th NIT and St. Louis is appearing for the 14th time, but it's been years since either school won the championship of the country's oldest postseason tournament.

"Easy" Ed Macauley led St. Louis to its only NIT title in 1948. St. John's won the last of its four NIT championships in 1965.

"Tradition is good for historians," St. John's coach Lou Carnesecca said Tuesday, "but it won't help us tomorrow night."

St. John's, 19-13, reached its low point after losing to last-place Boston College in the game to determine the last berth in the Big East tournament. But the Redmen have rebounded with four victories

in the NIT, including a 76-65 semifinal win over Alabama-Birmingham on Monday night.

"It was very depressing after the BC game," Carnesecca said. "A lot of people thought we were dead, but we stuck with it and we're still playing."

Because they start three freshmen in guard Jason Buchanan, forward Malik Sealy and center Robert Werdann, the Redmen are considered a team of the future. But Carnesecca would rather talk about today than tomorrow.

"The future is now," he said, echoing the phrase made famous by George Allen. "You never know what's going to happen in a year or two. You've got to grab it while you can."

St. Louis, 27-9, reached the championship game by beating Michigan State 74-64.

"We may be a surprise team to a lot of people around the country, but we felt we were pretty good all along," Bilikens coach Rich Grawer said.

"It's kind of mind-boggling, but someone told me there's only 10 teams in the country with 27 wins or more, and we're one of them."

Despite their record, the Bilikens didn't get much national publicity until they arrived in New York.

"The last time I saw this many reporters was when I was a high school coach and Steve Stipanovich was playing for me," Grawer said.

Grawer said he isn't worried about playing before a pro-St. John's crowd at the Garden.

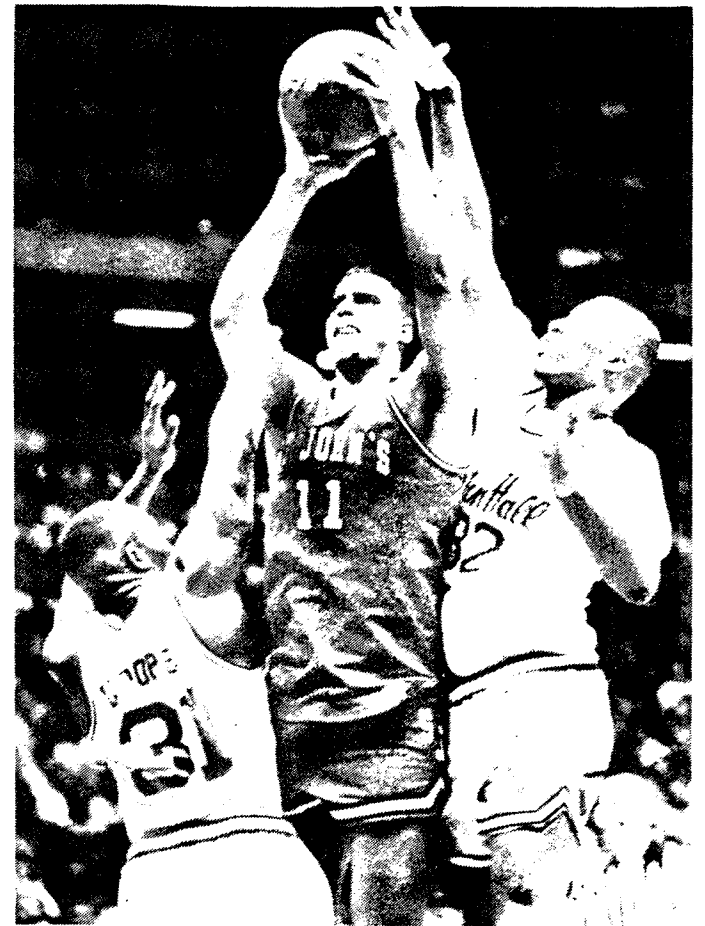

"We always preach to our kids about how great it is to overcome the odds," he said. "It's always more satisfying to win on the other guy's court."

What does concern Grawer is St. John's big front line.

"They've got a 7-footer, a 6-10 guy and a 6-8 guy," he said. "I just hope we can see over them."

Carnesecca, meanwhile, was singing the blues over St. Louis' high-scoring trio of Anthony Bonner, Monroe Douglass and Roland Gray.

"You're talking about three of the best players in St. Louis history," he said. "Two of those guys are going to make a lot of money in the pros."

AP Photo

Jayson Williams and St. John's will have a partisan crowd in their favor when they battle Saint Louis for the NIT championship tonight at Madison Square Garden. Both schools have played in the NIT many times before.

Softball

continued from page 20

started the second game and combined with Linn to defeat St. Joseph's 3-2. Ruth Kmak drove in the winning run in the bottom of the seventh inning.

Last Saturday was a disappointing day for the team, as it lost both ends of a doubleheader to MCC power Dayton by scores of 4-2 and 2-1. "We didn't play well against Dayton," said Boulac. "We should have won the second game, but we made a couple of errors. They were mental errors more than anything."

The Irish played their best games of the series on Monday when the team faced another MCC opponent in Butler. Boulac had said earlier that he felt the Irish could be competitive with Butler, and the players backed this up.

It was Missy Linn who again provided solid pitching, as she shut out Butler 4-0 in the opening game, and picked up the victory in the second game with a strong relief performance.

Boulac juggled the lineup, putting freshman Laura Sommerlad in the leadoff position to add more punch to the offense, and she responded by

going 3-for-6 during the two games. Sommerlad raised her average from the low .200s to .317 over the course of the week.

"On the Butler trip, we played really well," Boulac said. "We made no errors in the first game, and only a few in the second."

"If we play well defensively and our pitching continues to hold together like it has been, we're a competitive softball team," Boulac continued. "I'm pleased with how the girls have hung together."

Overall, Boulac was happy with the team's efforts over the

break. He singled out several players who turned in good hitting performances, including Ruth Kmak and Mia Faust, who hit well in the Butler series. Rachel Crossen and Dawn Boulac also had good games. Crossen continues to lead the team in batting, with a .444 average.

The team will have to play well today against Detroit.

"They seem to be the team to beat this year again," Boulac noted.

Notre Dame's conference record improved to 3-2 over the weekend.

Women's basketball team places seventh in NIT

By MOLLY MAHONEY
Sports Writer

Amidst March Madness, they came in like a lion and out like a lamb.

After beating Loyola to win the Midwestern Collegiate Conference tournament, the Notre Dame women's basketball team came into the women's National Invitation Tournament with a full head of steam and high hopes in post-season play.

But Toledo and DePaul rained on the parade, beating the Irish last Thursday and Friday and leaving the team with only one chance to end the season on a high note.

Notre Dame took advantage of that opportunity on Saturday by winning its final game over Richmond to claim seventh place in the NIT and finish the season at 21-11.

It was not the storybook ending the

team had envisioned prior to the tournament, nor was it the NCAA bid it hoped for in the preseason, but after losing senior co-captain Heidi Bunek and freshman Jennifer Tranel to knee injuries and relying on three sophomores to carry much of the burden, few complaints could be heard.

"It's been a great building year for us," said Bunek. "We dealt with a lot of problems and still had a good season and got a post-season bid, so we're glad to finish the season on a good note."

The team's 51-46 victory over Richmond should help preserve the team's optimism about next season, and the strong play of sophomore Krissi Davis throughout the tournament could lead the strong core of young players returning next year.

Davis led the team with 14 points and seven rebounds against the Spiders,

carrying the scoring burden with junior Annie Schwartz, who tallied 12 points.

The team's usually strong free throw shooting faltered, as the Irish shot 56 percent from the line compared to a season average of 70 percent. Nonetheless, after three days of tournament play, the Irish were able to outlast the Spiders down the stretch and widen the two-point lead they held at halftime.

Notre Dame's win over Richmond was a welcome relief after falling to former North Star Conference rival DePaul 77-69.

Senior All-America candidate Diana Vines climbed all over the Irish, scoring a game-high 32 points and ripping down 13 rebounds.

Only the 5-9 Davis could compete under the boards for rebounds, as she grabbed a game-high 15 rebounds and also scored 15 points.

Sophomore point guard Karen Rob-

inson assumed her usual position as floor general and stayed on the offensive most of the game, scoring a team-high 16 points, while helping fellow sophomore Sara Liebscher dish out assists.

Liebscher, whose severely sprained ankle limited her playing time in the team's first game and inhibited her mobility throughout the tournament, still managed to score 12 points for the Irish against the Blue Demons.

Liebscher played only 16 minutes in Toledo's 85-62 drubbing of the Irish in their first game. Even with well-rounded scoring, Notre Dame could not get by the Rockets.

Robinson led the Irish attack, tallying a team-high 13 points. Davis added 11 points on 7-of-8 free-throw shooting, while grabbing 10 rebounds.

ND softball goes 4-2 over break

By MARY GARINO
Sports Writer

After winning four of six games over Easter break, the Notre Dame softball team faces defending Midwest Collegiate Conference champion Detroit in an away game today at 3:30 p.m.

The Irish (8-6) had a busy break, with three doubleheaders in four days, and managed to compile a 4-2 record. In the home opener last Friday, Notre Dame swept St. Joseph's of Rensselaer. The Irish held off St. Joseph's for a 1-0 victory in the first game behind the pitching of freshman star Missy Linn. Linn allowed only three hits and struck out 12 en route to the victory.

"Missy has provided the stopper for us," said Irish coach Brian Boulac. "We have been pleased with her progress. She works hard and has been a great competitor in game situations."

The Notre Dame lacrosse team hosts Air Force this afternoon in a game the Irish must win in order to have a chance of receiving an NCAA tournament bid. John Olmstead (29) enters the game as Notre Dame's fifth all-time leading scorer with 120 points.

ND lacrosse hosts Falcons at Krause

By PETE LaFLEUR

The Notre Dame lacrosse team attempts to take its first step toward the NCAA tournament's western bid when it hosts Air Force today at 3:30 p.m. in Edward W. "Moose" Krause Stadium.

INSIDE ND whips Hartford.....17

The Irish (2-3) are in contention for the bid with three other "western" schools-- the Falcons, Michigan State and Ohio State.

Although Notre Dame suffered a few early-season losses, games with Division I western teams will bear most heavily on the NCAA selection. For the Irish, Air Force is the first test towards that goal.

"The key is that if we beat Air Force we're still alive for the NCAA bid," said Irish coach Kevin Corrigan, "and if we don't, we're not. That's the bottom line."

Air Force beat Notre Dame 14-8 last year in Colorado

Springs, Colo., and the Falcons later captured the '88 NCAA bid.

In that game, the Falcons took advantage of many Irish penalties to let their physical advantage take over. Things should be more favorable for the Irish this year, according to senior tri-captain Kevin O'Connor.

"I think we match up better individually with them this year, and we're coming off two wins and have a lot of confidence," O'Connor said. "This is one of our few home games, and we're hungry for a win against a good team."

"We're ready and in great shape, and we realize the importance of the game, no doubt about it."

Corrigan said he is wary of the athleticism and solid play of Air Force, which stands 3-0 for the season on its run to another NCAA bid.

"Air Force has very good athletes, and that's something we'll have to contend with," Corrigan said. "They will be

New golf coach brings hefty resume with him

George Thomas will be in familiar territory when he leads the Notre Dame men's golf team at the Purdue Spring Invitational this weekend. Thomas played for the Boilermaker team which placed second nationally in 1950. The 64-year-old rookie Irish coach also backed up All-America quarterback Bob Demoss on a Purdue football team that also included Hank Stram.

Irish Items

"It gives me even more incentive to want to beat (Purdue)," Thomas said in reference to this weekend's 10-team tournament. "Last year, they almost did pull it off. That would be a nice feather in our team's caps."

A Michigan City native, Thomas has spent much of his life teaching golf in the Michiana area. He worked as the head golf professional at the Long Beach Country Club in Michigan City for 12 years before taking a similar position at Elkhart's Elcona Country Club 23 years ago.

Thomas has been at Elcona ever since and continues to work there as the new Irish coach. He did not exactly

Irish baseball team at 12-5

After doubleheader sweep of Butler, ND shut out by IU

By SCOTT BRUTOCAO
Sports Writer

The Notre Dame baseball team made two stops to Indiana over Easter break to take on Butler and Indiana, sweeping a doubleheader with Butler and coming up empty against the Hoosiers.

INSIDE Home opener tonight..14

Notre Dame (12-5) had very little time to savor its 15-1 and 12-3 romps over the Bulldogs before being crushed themselves 10-0 by a very talented Indiana team.

"I was not very pleased with our overall performance," said Irish head coach Pat Murphy, "but there were some positives to come out of the games, and sometimes we have to under-

Brian Piotrowicz

stand that in the course of the season you're not going to get good results every time."

One of the positives that came out of the weekend was the offensive performance against Butler, in which the Irish exploded for 27 runs on 28 hits in two games. One name dominated all the stats: James Sass.

On the day, Sass was 4-for-6

with 11 runs batted in, including two grand slams. This almost surpassed his entire 1988 output, which consisted of 13 RBI and no home runs in 55 games.

"I've gotten added confidence from last year," said Sass, who is in only his second year of baseball after a four-year layoff from the sport and an involvement in Irish football. "Being able to practice over the fall has made a big difference in my game."

Murphy, however, is not quick to expound upon the brilliance of the Irish offensive output against Butler.

"Butler is not 15 runs less than us," said the second-year coach. "Butler is a lot better than they were last year, but they had some timely errors and we had some timely hits."
