Gorbachev, Castro meet

Associated Press

HAVANA- Presidents Mikhail Gorbachev and Fidel Castro went behind closed doors Monday for marathon talks expected to air their ideological differences and highlight the problems of Third World nations.

A Soviet spokesman, asked whether Gorbachev would offer to forgive Cuba's massive debt to the Soviet Union, said that subject was not discussed specifically, although the leaders did talk about the "enormous debt plundering the economies" of Latin American countries.

The spokesman, Gennady Gerasimov, said Gorbachev's initial discussions with Castro and the Cuban Communist

Party's Central Committee were held in a "friendly atmosphere."

He also said Gorbachev reported on the Soviet Union's recent multicandidate parliamentary elections, which were seen as a popular victory for the party's reformers. Castro, who has never allowed competitive elections in his 30-year rule, has openly criticized Gorbachev's reforms for borrowing too much from the capitalist world.

After the ceremonial laying of a wreath at the monument to Jose Marti, the father of Cuban independence, Castro escorted his guest to the Palace of the Revolution to begin their discussions, which were sched-

CHANGING OF THE GUARD

Breslin and Kinkopf work for improved student govt.

By FLORENTINE HOELKER
Senior Staff Reporter

Editor's note: This is the second of a two-part series.

The new student government administration under Student Body President Matt Breslin and Vice President Dave Kinkopf will make an effort to "continue and improve upon the accomplishments of the previous administration" in the coming year, according to Breslin.

"In areas such as intellectual life and student service, the target areas of Doyle and Paese, we shall make an effort to continue and expand on the ideas they presented," said Breslin.

"Things like the Iceberg Debates and the Board of Trus-

tee Reports were excellent accomplishments under the last administration," Breslin said. "and indicate the positive trend that student government has been following for the past few years. We want to continue that trend."

Breslin and Kinkopf plan to keep up the good relationship that Doyle and Paese maintained with the University administration. They have spoken with University President Father Edward Malloy a number of times in regard to the coming year.

"As we (Malloy and Breslin/Kinkopf) each represent different interests, we naturally will have disagreements, but a positive working relationship is the only way to get things done for the students," said Kinkopf.

Concerning student service, Breslin and Kinkopf plan to focus on this issue and have a variety of new ideas to aid in their plans.

"First of all," said Breslin, "we've got the groundwork for things like the 24-hour lounge. Because Doyle and Paese started that, we've got a cushion to fall back on."

"The idea is started, and we can hopefully make it more of a reality."

Breslin and Kinkopf also have plans to construct a 'legal department' in student government which will research issues before they are presented to the administration.

"With the establishment of this department of student government, we will have more rational, intelligent responses to

concerns of the students," said Kinkopf.

"A main focus of the department will be Board of Trustee Reports. Information from the reports will be brought to the attention of those in the administration who most need to see it," Kinkopf said.

"Hopefully with the research done and the information in the Trustee Reports, we can have more implementation of the changes outlined in the reports themselves and an alteration of other policies that need changing," said Kinkopf.

Smaller services also are of concern to Breslin and Kinkopf. "You hear people complain about little things not provided, like phones in academic buildings, and we want to make

those things more available for the students," said Breslin.

"Along with our long term projects, we hope to provide little things for the convenience of the students. We want to be more in touch with the students to provide their needs," said Kinkopf.

Although still assembling their cabinet, Breslin and Kinkopf hope to make that cabinet and the rest of student government more visible and accessible to students.

This visibility includes an open-door policy for students with complaints or ideas for student government, and an effort for increased publicity. "We're going to try to inform students of events, and try to let them know that we're here for them," said Breslin.

1988-89 activity fee budget reported

By CHRISTINE WALSH
Staff Reporter

The \$55 student activities fee is the sole source of funds for the Student Activity Fee Budget, according to 1988-89 Student Body Treasurer Michelle Zinser.

The Student Activities Fees Budget, which is prepared each April by the Student Senate Finance Committee, allocates money to student government, the Student Union Board, and over 80 clubs and organizations.

"Any club or organization has to be registered for a year before they can appeal for money," said Zinser.

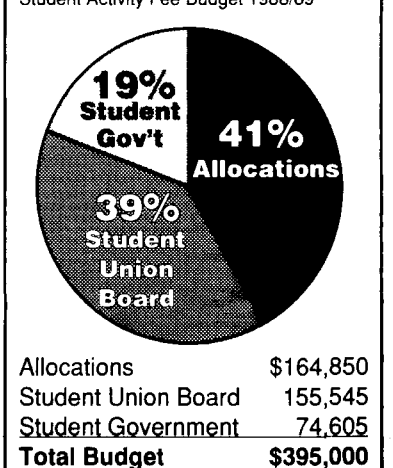

Clubs and organizations include the senior, junior, sophomore and freshman classes, WVFI Radio, Hall President's Council, Judicial Council, Student Senate, and Off-Campus

Council. Funds also go to groups such as academic clubs, special interest clubs such as BACCHUS and the Keenan Revue, athletic clubs, social

WORLD BRIEFS

Syrian and Christian gunners shelled residential areas of Beirut Monday, and politicians failed once again to stop the most violent chapter in Lebanon's long civil war since 1985. A police spokesman said 20 people were killed and 42 wounded since the non-stop bombardment of the city and surrounding hills began at dusk Saturday. That brought the casualty toll to 147 killed and 481 wounded, nearly all civilians, since the battle began March 8 between the Christian army units of Gen. Michel Aoun and Druse militiamen backed by Syrian troops.

NATIONAL BRIEFS

President Bush met with Egyptian President Hosni Mubarak on Monday in Washington, opening a week of intensive talks on the Middle East. Bush said "a new atmosphere" must be created between Israel and Arab nations. After more than an hour of discussion, Bush urged an end to Israel's occupation of the West Bank and the Gaza, endorsed the "achievement of Palestinian political rights" and said a "properly structured" international peace conference could play a useful role. The tone of Bush's remarks suggested the United States may attempt to exert pressure for compromise on Israeli Prime Minister Yitzhak Shamir, who arrives in the United States on Wednesday and confers with Bush on Thursday.

The Animal Liberation Front claimed responsibility Monday for two early-morning arson fires at the University of Arizona. The fires caused an estimated \$100,000 damage and may have unleashed a potentially deadly disease. The group claimed in a letter sent to news organizations that it freed more than 1,000 animals from three research facilities and set fire to a diagnostic lab and a converted house near the medical college campus. Charles Sterling, a professor of veterinary science, said 30 young mice infected with what he described as a Third World disease were among those taken.

INDIANA BRIEFS

The Indiana House overwhelmingly rejected a proposal Monday to remove the death sentence against Paula Cooper, convicted of a murder committed when she was 15 years old. The House voted 73-26 against the proposal which would have retroactively applied to Cooper's case a 1987 law raising from 10 to 16 the state's minimum age for a convicted murderer who can receive a death sentence. That law's standard applies to the age of the defendant at the time of the crime. Cooper was a 15-year-old Gary schoolgirl at the time of the 1985 stabbing death of Ruth Pelke, a 78-year-old Bible teacher.

Two toddlers were killed and their parents were injured Monday when fire roared through their Perry County farmhouse near Cannelton, Ind., authorities said. Vanessa Fuchs, 3, and her 16-month-old brother, Quentin, died in the fire, which was reported shortly before 1 a.m. The children's father, Jeffrey Fuchs, 25, was in stable condition later in the day at Wishard Memorial Hospital in Indianapolis with burns over 50 percent of his body. Their mother, Jennifer, was treated at an area hospital for minor injuries and was released. When firefighters arrived at the home almost half of the frame structure was engulfed in flames. The children were found in a bedroom, where the fire is believed to have started. No cause of the fire was immediately determined.

An explosion at Essex Wire Corp. in Vincennes, Ind., injured a laboratory technician. Phyllis Miciska, 41, of Vincennes, was in a chemical mixing Monday. She was mixing chemicals when the explosion occurred about 10:15 a.m. Sunday, fire officials said. Miciska suffered burns over 80 percent of her body and was taken to Good Samaritan Hospital in Vincennes. She later was transferred to the burn unit at Wishard Memorial Hospital in Indianapolis. Authorities said they had not determined the type of chemicals Miciska was mixing.

WEATHER

More of the same

Partly cloudy, windy and cooler today. Highs in the lower to middle 50s. A 30 percent chance of light rain or light snow tonight, lows in the upper 30s. Variable cloudiness and cool Wednesday, highs in the middle 40s.

ALMANAC

On April 4:

- In 1841: President William Henry Harrison succumbed to pneumonia one month after his inauguration, becoming the first U.S. chief executive to die while in office.
- In 1949: 12 nations, including the U.S., signed the North Atlantic Treaty.
- In 1968: Civil rights leader Dr. Martin Luther King Jr. was shot to death in Memphis, Tenn., where he had gone to support a strike by sanitation workers. He was 39.
- Ten years ago: Zulfikar Ali Bhutto, the deposed prime minister of Pakistan, was hanged after he was convicted of conspiring to murder a political opponent in 1974.

Frosh year reflections reveal shortcomings

I was sitting in my Calculus class today when I decided to start working on my Inside Column. I was writing in my Calc class because my Calc class is BORING. As a matter of fact my math class is not my only boring class. The high school-ish requirements of the Freshman Year of Studies undoubtedly come to mind as I reflect on my first year at Notre Dame.

My first year at Notre Dame has been fabulous and I know that I am very lucky to attend this institution. There are some situations that exist that bother me and I am writing about them because I believe that with student initiative the University can be a place that all students can feel proud of.

If I'm going to complain about the math requirement, I might as well complain about the science requirement, too. Lucky for me and many others, we have the advisors at the Freshman Year office. Without the free tutoring in the Freshman Learning Resource Center I would have never survived.

Another disturbing aspect of my first year is the chauvinism that is present at this once all-male institution. In my opinion, this chauvinism is present in the way that my dorm is run. Female dorms have a security monitor and a detex system. It is always nice to feel secure, but in my dorm our security guard extends her duties further than that. Our security guard makes rounds at parietals, breaks up parties and checks students for drunkenness at night. Sometimes when I come in at night I feel like I have to pass inspection- my parents weren't as strict as my security guard.

I feel that when the security guard assumes all this power the power of the hall staff is lessened. Why is it that in the male dorms the staff handles the situations within the dorm, not a security guard? Are we saying that a female staff cannot handle breaking up social gatherings and insuring that the students are in control?

One of the best parts of my freshman year has been the activities in the dorm and campus-wide that I have participated in. Working at

'The University can be a place that all students can be proud of.'

Kelley Tuthill
Assistant News Editor

The Observer, I have met many new friends and learned a lot. However, I was both surprised and shocked at the harassment of several writers this year. I believe that when someone writes a column it is obvious that they are expressing their own opinions. Response is expected and desired- written response that is. Calling people at home and harassing them is uncalled for and immature. It also detracts from the exchange of ideas that is supposed to take place in a newspaper.

The final situation that has been on my mind since my arrival here is the Notre Dame Saint Mary's situation. It constantly bothers me that relations between Notre Dame women and Saint Mary's women are not what they could be. There are many negative stereotypes that both women express.

In my opinion, the administration and student government could do their part in fostering better understanding between the two groups. Perhaps dorms and student government can sponsor more activities with both groups of women. The relations could be improved if women from Saint Mary's were permitted to participate in more non-varsity athletic activities.

I know that I sound like all I'm doing is complaining. Believe it or not I am very happy at Notre Dame. However, throughout the year some situations have bothered me. I write about them because I honestly hope and believe that in some ways certain problems can and will be alleviated in the next three years that I am a Domer.

'89-90 Senate gives plans for next year

By Cathy Flynn
Staff Reporter

Gene Siskel will not appear as scheduled on April 4 due to the death of his father said Raja Singh, Student Union Board Manager at the Student Senate meeting on Monday.

Money will be refunded for tickets already purchased, Singh said. Siskel was supposed to be a part of a panel discussion on "American Values/American Film."

Budget planning is one of the next things on the agenda for newly elected Senate. If a club needs money for next year, applications are due on April 19 and can be picked up in room 315 in LaFortune. All club money from this year should be spent by April 21.

Future expectations of the new Student Senate were also discussed. This was the first meeting of the 1988-'89 Senate, which is led by Student Body President, Matt Breslin.

"I'd really like the Senate to be positive in the eyes of the students next year," Breslin said. "I'd like to explore new issues at the University and try to make the Senate as effective as possible," he added.

Another role of the Senate is to safeguard the rights of students, Kinkopf said. Students are encouraged to utilize the senators whenever they have an issue they think should be presented, he added.

Meetings are open to all students. They will be held every Monday night at 6 p.m. in the Notre Dame room at LaFortune.

Exxon issues public apology as Alaskan oil spill worsens

Associated Press

VALDEZ, Alaska—Exxon apologized Monday for causing the nation's biggest oil spill and promised to clean up every fouled beach in Prince William Sound, but workers on those greasy-smelling beaches said their efforts are futile.

Police continued searching for the captain of the tanker Exxon Valdez, which crashed into Bligh Reef on March 24, spilling 10.1 million gallons of North Slope crude.

The oil slick has now grown larger than Rhode Island. Scientists reported more wildlife deaths and said a vital herring fishery was threatened. The Prince William Sound fishery is worth

more than \$150 million annually.

"I want to tell you how sorry I am that this accident took place," said Exxon Chairman L.G. rawl in full-page advertisements placed in newspapers Monday.

"We cannot, of course, undo what has been done. But I can assure you that since March 24, the accident has been receiving our full attention and will continue to do so."

More than 1,000 seabirds and at least 20 sea otters caught in the oil have died, some found covered with asphalt-hard oil. Officials said the death toll is probably much higher, but they have had time to survey only a slice of the sound's 2,500 miles of coastline.

Department of Fish and Game spokesman Jon Lyman said Monday a deer found dead on Naked Island about 25 miles southwest of the tanker had apparently eaten contaminated food, an indication of how rapidly the spill was spreading. "That's bad news. That's the top of the food chain," Lyman said.

On nearby Green Island, hundreds of birds lay along the beach, as black and lifeless as the oil-smeared rocks around them. Sheltered coves and rocky points, usually clamoring with the sound of gulls and other shorebirds, were silent.

"Every day, it's getting a little worse," otter rescue specialist Chris Donohoe said as he squatted by a dead sea duck. "You clean a beach up, the tide changes, and the oil comes right back."

Oil is so thick that walking on once postcard-perfect beaches is treacherous, and workers wear hardhats to

protect against injuries from frequent tumbles on rocks. Oil sprayed by waves splatters rocks and driftwood logs high above the tideline. Beaches smell like gas station garages.

More than half the spawning habitat used by Prince William Sound herring has been fouled, said Dennis Haanpaa, a fisheries biologist with the Alaska Department of Fish and Game.

Exxon officials have conceded that beach cleanup efforts so far have been futile. But the company said it began a new assault with more effective gear, more workers and a floating command post.

Exxon Shipping Co. President Frank Iarossi said Exxon planned to flush beaches by pumping seawater over them, then collect oil from the water with skimmers.

"We intend not to leave until the job is done," Iarossi said. "We intend to leave Prince William Sound close to what it was before the tragedy."

State officials have blasted Exxon's effort to scrub beaches as dismal and ineffective. Less than 4 percent of the thick crude has been recovered.

The spill has fouled more than 800 miles of shoreline in Prince William Sound, and the amount grows each day.

Exxon fired Capt. Joseph Hazelwood last week. The 42-year-old skipper admitted drinking before boarding the Exxon Valdez, according to court documents. Blood and urine samples taken nine hours after the accident indicated he was drunk.

An arrest warrant has been issued in Alaska for him, but his whereabouts were unknown. Hazelwood is presumed to have gone home to Huntington, N.Y., and Sgt. Clifton Smith of the New York State Police said there were indications that he had contacted a lawyer and might surrender soon.

Castro

continued from page 1

uled to continue on and off through the day and evening.

Gorbachev's wife, Raisa, visited a day care center, a Cuban-Soviet friendship center and planned to tour the home of the late American author Ernest Hemingway, who lived for many years on an estate outside Havana that is now a museum. Both Mrs. Gorbachev and her husband have mentioned reading Hemingway, a writer whose works have been translated into Russian and are popular in the Soviet Union.

Gerasimov said Gorbachev and Castro, in their opening talks, exchanged views on the March 26 Soviet elections and discussed problems in Latin America, particularly those of indebtedness and the drug trade.

The spokesman observed that Latin American countries are increasingly becoming drug suppliers to North America while at the same time increasingly becoming drug consumers.

The debt is only one aspect of the economic ties between the Soviet Union and Cuba. Soviet economic aid to Cuba is estimated by Western sources at between \$4 billion and \$7 billion annually.

Budget

continued from page 1

action, ethnic, music, and honors clubs.

The total allocations for clubs and organizations in the 1988-89 budget were \$164,850, and represented the largest part of the budget.

The next largest portion of the budget went to SUB, receiving \$155,545, and student government was allotted \$74,605.

The total budget for the 1988-89 year amounted to approximately \$395,000.

"Last year, it took about 30 hours, total, in meetings, to get this all (the budget) down," Zinser said.

"Each year we oversee the allocations that we make, and hear appeals," said Zinser. Appeals can occur every week, and are made by the organizations to which the Finance Committee makes the allocations. Those who appeal are usually "people who weren't satisfied with what they got in the beginning, or they had a special event coming up that they needed extra money for," said Zinser. Sometimes appeals are made just in order to keep an organization running, she added.

Money set aside in a contingency fund is available on appeal.

Organizations who "do not fill out the appeals application correctly, or hadn't used their

funds well the previous year" were generally not granted extra money, though the groups could issue new appeals later, said Zinser. The budget committee can hear appeals at any time during the year.

"All of our accounting system is handled in the Administration building," said Zinser.

"All of our accounts earn interest, and so this year (1988-89) we earned \$10,000 in interest," Zinser said. "\$395,000 is a conservative figure for the total. The whole budget is probably closer to \$405,000."

Interest and other extra monies are placed in an overall

contingency fund, and rolled over to the next year's budget, according to Zinser. "The contingency this year when we started was \$24,000, and at the end of my term, it was down to about \$5500," said Zinser.

The constitution for student government prevents government from using the money gotten from the student activity fee for non-student oriented affairs, including donations to charity, and provides the guidelines for the operation of the budget committee. The University administration may also oversee the financial proceedings of the committee.

U.S. vows to fight sky terrorism

Associated Press

WASHINGTON- The United States announced new measures to combat sky terrorism Monday as relatives of passengers killed in the Pan Am Flight 103 bombing mounted a campaign to complain about aviation security and the government's "lack of compassion" following the disaster.

Transportation Secretary Samuel Skinner, who along with President Bush met with several relatives of those killed in the explosion over Scotland, told a news conference that airlines will be required to install devices to detect plastic explosives in major U.S. and foreign airports.

Relatives of victims in the

Dec. 21 explosion, which has been blamed on a plastic device hidden in a radio-cassette player, praised Bush for concern shown in the meeting and said Skinner's announcement was a good first step.

But spokesman Bert Ammerman of Demarest, N.J., told a rally across the street from the White House that measures announced by Skinner were "not

enough."

Ammerman, whose brother Tom was one of 270 victims of the crash, asked for a unified congressional investigation of the disaster, hand-searching of all luggage put aboard airliners, and an end to a system that allows notification only of airline, airport and government security personnel when there's a terrorist threat.

Are you denying yourself a better shot at grad school?

Okay, it may be too late to get a 4.0. But it's not too late to try to do better on your LSAT, GMAT, GRE, or MCAT. For that, there's Stanley H. Kaplan.

The Observer is the independent newspaper published by the students of the University of Notre Dame du Lac and Saint Mary's College. It does not necessarily reflect the policies of the administration of either institution. The news is reported as accurately and objectively as possible. Unsigned editorials represent the opinion of the majority of the following: Editor-in-Chief, Managing Editor, Executive News Editor, Viewpoint Editor, Sports Editor, Accent Editor, Photo Editor. Commentaries, letters and the Inside Column present the views of their authors. Column space is available to all members of the community and the free expression of varying opinions on campus, through letters, is encouraged.

EDITORIAL

Doyle & Paese: a successful year

The mantles of student body president and vice president have now officially been passed from Tom Doyle and Mike Paese to Matt Breslin and Dave Kinkopf respectively.

Doyle and Paese have done an admirable job representing the needs of the students this past year. It is important that student government work with the administration and Doyle and Paese were able to continue to improve the relationship that Pat Cooke and Laurie Bink began two years ago.

Doyle and Paese did an outstanding job increasing the political awareness of Notre Dame students. The students became more vocal in national and local politics as a result of their extensive voter registration drive and their efforts to educate students. The John Hiler/Tom Ward debate on campus is testimony not only to their efforts to educate but also their registration drive's success.

For years students have been promised a 24-hour space by those running for office. Doyle and Paese were successful in obtaining the Oak Room as such a space, and although the Night Oak eventually closed, this was a direct result of student apathy and the profit-oriented motives of Night Oak and not the lack of effort from student government.

Breslin and Kinkopf have a tough act to follow. Doyle and Paese accomplished a lot, but the climate is right and there is still a lot to be done.

The new student government administration must continue a healthy relationship with the University. They must work with each other, not against one another.

It is necessary that Breslin and Kinkopf not only concentrate on fulfilling their campaign promises but also on improving on the few failed but solid plans of the Doyle/Paese administration. They must fulfill their campaign promise to create a legal department to examine student rights and needs. However, Doyle and Paese's plans for a 24-hour space and teacher evaluation forms should be explored and re-examined to see if these ideas are still practical.

The Observer congratulates Tom Doyle and Mike Paese and wishes good luck to Matt Breslin and Dave Kinkopf.

LETTERS

A different spring break

Dear Editor:

For the past several years Notre Dame and Saint Mary's student have responded to the cries of powerlessness from the Appalachian region (an area delineated by the Appalachian mountain range in the eastern U.S.) by engaging in a one week work/service project during either fall or spring break. This past spring break was no different as 67 students from this community traveled to given spots in Kentucky to take part in the Appalachian experience.

As I left the region to return home, I reflected on the week's activities and was content with the work that my group accomplished. After further contemplation, however, I realized that we made no lasting mark on the region. We left Appalachia exactly as we found it: an impoverished area rich in natural resources. What had been changed, though, was us: We were not the same, selfish, microcosmic people after the experience. The mountain fold afforded us the opportunity to explore issues beyond our own narrow scope (how many job offers were received or what percentage of the girls on campus are dieting, for example), which is the special part of the experience. The beauty of the program is not what we did for the Appalachian people, but rather, what they did for us.

So next year, when the temptations of exotic vacations abound, consider the Appalachian experience a preferred alternative.

Release due to publications

Dear Editor:

Why does Notre Dame fear academic freedom? Why does the administration of the most prestigious Catholic University in this hemisphere--an administration which prides itself on being both tolerant and progressive, fear something for truth on both sides of the liberal/conservative fence?

Dr. Janet Smith of the Program of Liberal Studies was notified last May that she would no longer be teaching at the University after this academic year. She is a victim of Notre Dame's academic "freedom."

The facts: Dr. Smith is an exemplary professor in and out

of the classroom, and she has proven herself to be an outstanding scholar, not only on the national level, but even on the international level.

If the main criterion for hiring and firing teachers is whether or not they can teach, the Dr. Smith must stay. She has been consistently praised by her peers, but especially those who are most qualified to judge her ability: us, her students. Her annual student evaluations have been among the highest of all University professors, and I maintain with all sincerity that Dr. Smith was the finest teacher I had in four years at Notre Dame.

Neither should Dr. Smith "perish" after eight years of service to the University because of her record of publications. With her numerous articles and book reviews published in internationally acclaimed philosophical magazines, she has surpassed the University tenure requirements. In fact, she has built an international reputation for being a first-rate moral theologian and philosopher. Dr. Smith lectures at universities and even at bishops' conferences throughout the United States and was recently honored to be one of the few American theologians invited to a symposium of moral theologians in Rome.

The justification given by the University for denying Smith's tenure is that she has not published enough. Why are the publications rules being made more stringent in her case?

Her book defending the Church's teaching on artificial birth control will be published soon by Catholic University press. Was that the deciding factor in the decision on her tenure? Could it be that there is academic freedom at Notre Dame--but only for those in conformity with the "Notre Dame magisterium?"

Breslin & Kinkopf ready

Dear Editor:

Well, it is now official. You can remove the "elect" from our titles because as of April 1, we are the new student body president and vice-president. Scary thought, huh? Well, we hope you don't think it is too scary. Anyway, in all seriousness, we would like to thank all of you who supported us in the election. The overwhelming support from the student body gives us a feeling of confidence as we enter the upcoming year.

We have already been working intensely trying to get ourselves prepared for what lies ahead. We have spoken with Mayor Joe Kernan and Chief of Police Marsiniak on the problems facing students off-campus, and have investigated the rezoning ordinance. We plan on meeting with Neighborhood Housing Services to clarify their future plans so we can determine what we need to do to ensure that students have off-campus housing available in future years. We have also met with Father Malloy to discuss our plans for the future while establishing strong relations with the administration.

One of the biggest problems that we are told about student government is the lack of communication between student government and the student body. We plan to rectify this by providing first-class publicity that will catch the eye of students and make our organization more visible. Posters and newsletters are one avenue of communication, but we will also communicate through The Observer. We believe it is a valuable tool for communicating what is available to you.

All of our plans sound great on paper, but two people cannot do it alone. That is why we are encouraging you to share any new ideas that you may have. Furthermore, we encourage you to become a part of student government. Our cabinet is structured to deal with a variety of issues, so we are sure that you can find the right position for yourself.

So if you have the enthusiasm to become a part of student government, stop by the secretary's desk on the second floor of LaFortune, pick up an application and set up an interview. Applications are due Wednesday, April 5.

We look forward to serving you. You can plan on hearing from us real soon.

Matt Breslin
Student Body President
Dave Kinkopf

QUOTE OF THE DAY

'Change the way people think and things will never be the same.'

Stephen Biko

Novelist Percy awarded Laetare Medal

Considered most prestigious given to an American Catholic

SARAH VOIGT
accent writer

Novelist Walker Percy, the recipient of the University of Notre Dame's 1989 Laetare Medal, acts like a doctor in many ways.

Although Percy received his medical degree in 1941, he soon rejected his plans of becoming a psychiatrist so that he could devote all of his time to reading and writing. He may have rejected the biological aspects of healing, but his novels reflect a continued concern for the health of Man's mind and soul.

Percy explains, "Having been trained as a doctor, my writing is naturally diagnostic. I approach Western society as a doctor who must prepare a case history. He must describe the patient, determine what is wrong and suggest a cure."

Is there a cure for unhappiness and pain in our troubled society today? Percy responds, "In the end all issues come to religion. The cures are spiritual. Man must find out who he is, where he came from, and where he is going. For me, the answer is in religion."

Percy won the Laetare Medal largely for the way his novels sensitively relate the Catholic

'He does not write traditional religious novels . . . he deals with grace, redemption, and how the world is capable of reform'

experience to his view of reality. The Laetare Medal has been awarded annually to a person "whose genius has ennobled the arts and sciences, illustrated the ideals of the Church and enriched the heritage of humanity."

Responding to these impressive criteria, Percy said, "It was a big surprise to receive this honor. I don't feel like a genius. I write both fiction and nonfiction about themes that run counter to the usual mind set of the Western world."

Percy's first novel, "The Moviegoer," won the 1961 National Book Award. His other widely read works include "The Last Gentleman," "Love in the Ruins," and "The Second Coming." He has also written two non-fictional books of philosophical essays entitled "The Message in the Bottle" and "Lost in the Cosmos."

University President Father Edward Malloy is a member of the committee which selects the Laetare medal winner from an updated list of influential American Catholics. Malloy said, "Percy is one of the better known and most widely read contemporary authors. He is a person whose own faith and convictions make the difference. It becomes evident to those who read his books that he is concerned about the great issues of the Catholic experience."

Malloy continues, "He does not write traditional religious novels with 'churchy' subject matter. Instead, he deals with grace, redemption, and how the world is capable of reform."

For the first part of his diagnosis of the human condition, Percy examines contemporary society and tries to discern its problems.

"I use my characters to illustrate a curious phenomenon in our civilization today. Although most of our needs and desires have been met, we still don't seem any happier."

"My novels are about the adventures of characters who have been overtaken by a curious feeling of dislocation. They don't know who they are or where they're going."

The restless, dissatisfied characters in many of his novels help create what Percy refers to as "the very old Christian theme of Man as a pilgrim. These characters can be understood as wayfarers according to the old Christian view of Man that has been revised in this century."

Percy elaborates, "Christian anthropology shows that Man is searching for himself. He does not search for a scientific understanding but for a secret mystery of life or a deep truth. Life is a mystery that cannot be solved by science. Man is a wayfarer who looks to the Gospel for the Good News."

Despite his previous study of medicine, Percy rejects science as a solution to his characters' "curious feeling of dislocation." He explains, "There seems to be more anxiety and alienation in spite of our advanced technology and sciences. Our science, as advanced as it is, does not seem to be helping."

'Life is a mystery that cannot be solved by science. Man is a wayfarer who looks to the Gospel for the Good News.'

According to Percy, his latest novel, "The Thanatos Syndrome," is a satire that shows what goes wrong when you rely purely on scientific means to solve the fundamental problems of human society.

Through the characterizations in his writings, Dr. Walker Percy suggests the Christian faith as a way to help cure the restlessness of the human spirit.

Past winners of the Laetare Medal include President John Kennedy, Catholic Worker Founder Dorothy Day, Businessman J. Peter Grace, and Actress Helen Hayes. Percy becomes only the seventh novelist to receive the Laetare Medal since it was established at Notre Dame in 1883.

Annual artists' forum features 'Heartbreak Poetry'

COLLEEN GANNON
accent writer

Tonight, Writers and other Troubadours, a South Bend community group, will provide an answer to Whitney Houston's musical question, "Where do broken hearts go?" At 7:30, the group will hold their Third Annual Poetry Shootout at Senor Kelly's.

The oral poetry contest will be an open mike format for anyone interested in participating. This year's theme, Heartbreak Poetry, leads Board Member Susan Brower to recommend the event to "anyone who has ever had

heartbreak and put it down on paper."

Mike Barga, a Notre Dame Graduate School alumnus, founded Writers and other Troubadours eight years ago. Brower feels the group consists of "people interested in bringing art to the South Bend community."

From October to May, the group meets regularly every Tuesday night at Senor Kelly's. Every meeting begins with a feature performance given by various artists from poets to musicians, and is followed by an open forum. The feature performances are fifty percent literary and fifty percent musical.

The poetry contest will be judged by the audience, and a cash prize will be awarded to the first place winner. Also, the winning poem will gain recognition through publication in the Writers and other Troubadours' Newsletter. Currently, the newsletter has a local mailing list consisting of 200 members.

"The event should be very enjoyable because everyone will be participating in it," said Brower. There will be a \$1.50 entrance fee for all contest participants and audience members. The group welcomes everyone "to share past or present sorrow with us and be a winner."

Watson attempts a rebound

Associated Press

AUGUSTA, Ga.--Beneath the name on Tom Watson's business card, the line reads: "Golf Professional."

"That's what I am," Watson said.

"There are other responsibilities, other commitments," Watson said, mentioning a couple of golf courses he's building in Japan, "but I'm still a golf pro. Not anything else. That's what I do."

And Watson, a five-time British Open champion, is bringing a renewed enthusiasm and optimism to a comeback attempt aimed at regaining the lofty position he once held in world golf.

"It's getting a little better every week," he said before a practice round for the 53rd Masters that begins Thursday at the Augusta National Golf Club. "My attitude is good and my golf game reflects it."

Watson, 39, won the Masters in 1977 and 1981 and has been second three other times. But he has been virtually over-

looked in pre-tournament evaluations of potential winners.

It's a situation that's becoming familiar to Watson, who once dominated the game, once was the center of attention at any tournament he entered.

Watson is enduring an explained slump that has lasted five years--with one joyous interruption at the 1987 Nabisco Championship. He hasn't been in title contention in eight starts this year.

Five times the leading money winner and six times Player of the Year, he is 64th on the season's money-winning list.

While he is less than enchanted, Watson is far from dismayed.

"My enthusiasm and patience are better than at any time in the last two years," Watson said.

He then analyzed some of his playing problems.

"I got too mechanical," he said. "I was thinking too much about the swing."

Men's bookstore basketball: Day 2

Monday's Results

HAPPY 22nd BIRTHDAY BRENDA KROSS!! I HEAR YOU AREN'T DRINKING ANYMORE, BUT THAT DOESN'T MEAN YOU CAN'T LOOK AND TOUCH AT TIVOLI'S ON WEDNESDAY NIGHT!! SEE YOU THERE! love, rozal

Golf team finishes seventh

By DAVE McMAHON
Sports Writer

Men's golf coach George Thomas returned from his alma mater with a seventh place finish in the season opener for the Irish at Purdue University's South Course.

Notre Dame finished with a team total of 639 for the 36-hole event, which included Big 10 representatives Iowa and Wisconsin, along with the Boilermakers. Purdue won the Invitational with a score of 595, beating the Hawkeyes by one stroke. Eastern Michigan took third with 611, followed by Southern Illinois (620), Wisconsin (624), Ball State (632) and Notre Dame.

Sophomore Paul Nolta led the Irish with a 77 on the first day before ending with a second day score of 80.

"I'm hitting the ball better than I have in a while," said Nolta. "It's taken a while to get used to coach's new technique, but I'm starting to get used to it."

That new technique installed by Thomas has forced the team to abandon all other strategies and concentrate solely on the swing.

Rain forced the third round cancellation after Purdue coach Joe Campbell found "casual water" on the fifth green, which hurt the chances of an Irish comeback.

"I was very pleased with the

progress the guys showed going into the third round," said Thomas, who played for Purdue in 1950, when they won the Big 10 Championship and were eventual NCAA runner-up. "Our players were two or three over on the 14th and 15th greens. I feel we would have been in a better position had play continued."

Eastern Michigan's Kevin Janisik snagged medalist honors with rounds of 72-75 (147). Number three player Doug Giorgio was one shot behind Irish leader Nolta with a 158. Pat Mohan shot 160, D.J. Romano carded a 165 and Jim McCarthy tallied a 168 for Notre Dame.

NCAA

continued from page 12

back for Michigan with a 3-pointer with 1:03 to play.

After Morton threw up an airball with 53 seconds left, Michigan ran the clock down to 34 seconds before Sean Higgins made two free throws for the three-point lead that was erased by Morton's 3-pointer.

Michigan had a chance for victory in regulation, but Rice missed a long jumper with two seconds to play.

Higgins added 10 points and nine rebounds for Michigan, 30-7. Rice added 11 rebounds.

Walker and Greene each finished with 13 points for Seton Hall, 31-7, which was making its first Final Four appearance in just its second NCAA tournament.

Seton Hall stayed outside in the first half with 14 of its 32 field goal attempts coming from 3-point range, while Michigan decided to test things inside.

The problem for the Pirates, who averaged 14 3-pointers per game in the regular season, was that they only managed to make four of the long jumpers. The last two by Greene and Morton capped a 12-0 run that turned a six-point deficit into a 26-20 lead with 6:48 left in the first half.

Michigan answered with an 8-2 run of its own to even things at 28-28 with 4:12 to play as Rice surrounded two driving hoops by Robinson with two free throws and a jumper.

Ramos gave the Pirates their final lead of the first half with a drive, a rare visit to the paint

in the opening 20 minutes for Seton Hall.

Rice then hit Michigan's only 3-pointer of the half 19 seconds later and the Wolverines, who took 19 of their 30 shots in the half from 10 feet or closer, ended the half with a 6-2 run for the 37-32 halftime lead.

Scott signs for \$3.9 million

Associated Press

HOUSTON—Mike Scott, the 1986 Cy Young Award winner, agreed Monday to a two-year contract extension with the Houston Astros worth a guaranteed \$3.925 million.

Scott, who will earn \$1.3 million in 1989, the final year of a two-year contract, will

have a base salary of \$1.95 million in 1990 and 1991. He will also get a \$25,000 signing bonus.

He would make an additional \$450,000 if he pitches 205 innings or makes 32 starts in each of the 1989 and 1990 seasons.

The contract contains additional bonuses for making the All-Star team.

Come To A Free Kaplan Seminar And Get An Education On The New LSAT.

Getting into the right Law School takes a lot more than just getting a high score on the new LSAT. It takes knowing how to master the new exam and knowing the intricacies of the application process.

That's why Stanley H. Kaplan created the Law School Seminar. There, you'll learn how to improve your chances of getting into the Law School of your choice. Review actual LSAT questions. Even learn about getting the highest score on your LSAT by using the Kaplan method. And most importantly, you'll learn how to maximize your Law School application.

So reserve your seat today for our next Seminar. And discover how our advanced teaching methods and 50 years of experience can help you plan the next three years of your life.

Rose leaves controversy behind in season opener

Associated Press

CINCINNATI--Pete Rose basked in adulation instead of accusation, still a hero in his hometown.

Gambling allegations against the Cincinnati manager were pushed aside for a minute Monday when a sell-out crowd of 55,385 stood and cheered and chanted "Pete! Pete!" and Reds owner Marge Schott planted a kiss on his cheek.

"I guess my favorite thing is just the fact that baseball's started again," Rose said.

There had been some question whether Rose would be there this year when the Reds opened against the World Series champion Los Angeles Dodgers.

But with major league baseball's investigation of Rose still incomplete, he was sitting in the dugout on a sunny afternoon doing one of the things he enjoys most--talking baseball.

"You always know it's going to be a good crowd when it's 10 minutes after 12 o'clock and you look and there's people already in the Bob Uecker seats," Rose said, glancing at the upper deck.

Reds 6, Dodgers 4

Paul O'Neill played the hero's role in Monday's opening-day game against the Dodgers with a three-run homer Monday that carried the Cincinnati Reds over the World Series champion Los Angeles Dodgers 6-4 in the first game of the major league season.

The 103rd opening day in Cincinnati gave Rose some respite from two weeks of gambling allegations that have clouded his future.

The Reds made three errors in the first inning to help the Dodgers score a pair of unearned runs off Danny Jackson.

Jackson gave up four runs, two of them earned, on four hits in five innings and got the victory. John Franco, who led the National League with 39 saves, pitched two hitless innings for a save.

O'Neill went 4-for-4 to lead the Reds' comeback. He doubled to start a three-run rally in the second and hit a three-run homer in the third for a 6-2 lead against Tim Lincecum, who lasted just 2 1-3 innings.

The Dodgers never got closer than two runs despite more heroics by Kirk Gibson, their

star in Game 1 of the World Series last fall. Gibson got the first hit of the season, an RBI single in the first inning, and hit a solo home run in the fifth.

Mets 8, Cardinals 4

Howard Johnson homered and drove in three runs that led New York past the St. Louis Cardinals 8-4 Monday as the Mets won their 11th straight home opener.

Overall, the Mets have won five consecutive season openers and 18 of their last 20 and have not lost an opening-day game at Shea Stadium since dropping an 11-10 decision to Montreal on April 8, 1969.

The Mets, who joined the National League in 1962, lost their first eight season openers before winning in Pittsburgh in 1970.

The Cardinals played without All-Star shortstop Ozzie Smith, who has a strained muscle in his left side.

Johnson, a part of many trade rumors during the winter, hit a two-run single during a four-run third inning that made it 6-3 against Joe Magrane. He hit a solo homer in the eighth off Todd Worrell.

Darryl Strawberry had three hits and two runs batted in for the Mets and Dwight Gooden pitched seven-plus innings for the victory to improve his opening-day record to 3-0. He allowed five hits and struck out eight.

Orioles 5, Red Sox 4

The Baltimore Orioles, losers of their first 21 games last year, won their season opener Monday, beating the American League East champion Boston Red Sox 5-4 on Craig Worthington's 11th-inning single.

Boston's Roger Clemens was chased in the eighth inning.

In the ninth, Baltimore put runners on first and third for Worthington, who grounded out. But the rookie came through in the 11th after Mickey Tettleton walked and took third on Randy Milligan's hit-and-run single.

After Mike Smithson replaced Bob Stanley, Worthington flared a 1-0 pitch into left-center field past Ellis Burks' dive, foiling a Boston formation of five infielders.

Brian Holton, acquired in an off-season trade that sent Eddie Murray to Los Angeles, pitched 4 1-3 scoreless innings for the victory.

Indians 2, Brewers 1

Oddibe McDowell doubled in two runs in his first game for Cleveland and Greg Swindell allowed five hits in 8 1-3 innings Monday as the Indians beat the Milwaukee Brewers 2-1.

Swindell retired the first 12 batters he faced until Rob Deer and Glenn Braggs hit consecutive singles starting the fifth. Deer scored from third on Terry Francona's forceout.

Swindell struck out six and walked none. Mike Felder reached on a bunt single to open the ninth and Gary Sheffield sacrificed. Doug Jones came in and got Robin Yount on a groundout and struck out Deer for the save.

Blue Jays 4, Royals 3

Jimmy Key won on opening day for the third straight year and Fred McGriff and Lloyd Moseby got two hits each Monday, leading the Toronto Blue Jays past Kansas City 4-3.

Key, who beat the Royals 5-3 in last season's opener, gave up two runs on six hits in six innings. Mark Gubicza, drawing his first opening-day assignment after a 20-8 record, allowed four runs on nine hits in seven innings and took the loss.

Gorman will fill the No. 2 spot behind Ryan.

"On what I have seen so far, Tom Gorman has come along way and Mirko Jurkovic has too," said Holtz. "I have seen Gene McGuire do some good things. But like everyone else, we have some question marks, and we are going up against a good defensive line, and that creates some problems for us."

Has the 1988 national championship satisfied the offensive line's hunger?

"So far everything I see they want to be a great line," said Moore. "They have great unity, and care for one another. Also, our backups have showed some promise. The main thing is that if the kids get satisfied with themselves, then you are going to have trouble making them better. But if the kids want to be as good as they can be, our offensive line should be outstanding. Right now we are optimistic, and once again it boils down to what is inside."

ND track wins big at G'town

Irish take 11 of 16 events in unscored outdoor meet

By KEN TYSIAC

Sports Writer

The Notre Dame men's track team enjoyed a strong showing Saturday, winning 11 out of 16 events in its unscored meet at Georgetown. The Irish overcame poor weather and a surprise decision by their hosts to outrun their Big East foes.

Georgetown surprised Irish coach Joe Piane by deciding not to score the meet, which was held at Episcopal High School in Arlington, Virginia. Piane took the decision in stride.

"They're the home team," said Piane. "If they don't want to score the meet, that's their prerogative."

The meet was also run in very unfavorable weather conditions.

"None of the times were very good—it was a pretty poor day for running," said Piane, "but that did not detract from our athletes' ability to compete against our opponents."

Indeed, the Irish competed very well against the highly regarded Hoyas. The 4x100 meter

relay team and the Mile relay team each nosed out their opponents by one tenth of a second, posting times of 0:43.8 and 3:19.6, respectively.

The field athletes also outscored their Georgetown foes. John Cole won the high jump with a leap of 6 feet, 6 inches while Greg Matteo cleared the 12-6 mark to win the pole vault.

Freshman John Stewart threw the javelin 181 feet, four inches, over 26 feet further than his nearest competitor, teammate Ron Regnery. The Irish also took first and second place in the shot put and the discus throw.

Notre Dame added additional first place finishes in the 110- and 400-meter hurdles. Glenn Watson, coming off knee surgery, won the 110 meters with a time of 15.0 seconds, while Pete Demeo captured the 400 meters in 55.6 seconds.

"The hurdles are tough to run on a day like that because the wind throws you off balance as you jump over them," said Irish co-captain Ron Markezich. "Pete's running

very well for us, and likewise we're pleased with what Glenn has been doing coming back from his operation."

Markezich ran in the 5,000-meters event, in which Irish teammates Mike Drake and Rob Fern took first and second place, while he came in third. "For Ron it was just a workout," said coach Piane, "Whenever one of the other guys (Drake or Fern) fell back, Ron would move over into the second lane, shield the wind, and pick his teammate up again."

Ron's team play paid off as the Irish swept the first three spots in the 5,000. "I tried to help those guys by blocking the wind," said Markezich, "It really helps the team to go one-two-three in a race like that."

Coach Piane was pleased with his team's performance as they now look ahead to the Stanford Invitational, scheduled for April 15.

"It turned out to be a really good trip for us. We accomplished a lot of things," said the 14th-year coach.

SD club refuses to give up America's Cup

Associated Press

SAN DIEGO--The San Diego Yacht Club on Monday refused to surrender the America's Cup while contesting the court-ordered forfeiture of the trophy to defeated New Zealand challenger Michael Fay.

"We believe that we are so right and the decision was so wrong, not only for us but for the future of the Cup," said Patrick Goddard, San Diego Yacht Club commodore.

"Our decision to appeal was not an easy one and was reached with care and deliberation," Goddard said. "Going to court is not our preference. For over 100 years we have been sailors and competitors,

and we believe that yacht races should be decided on the water."

The appeals process could take about a year, leaving adrift the fate of the next Cup race.

The filing with the appellate division of the New York Supreme Court will ask that it overturn last week's decision by New York State Supreme Court Justice Carmen Ciparick that disqualified the club's use of a catamaran against New Zealand's monohull.

Goddard said more was at issue than the potential loss of a \$1.2 billion economic windfall the San Diego region expected to realize from staging a full-fledged regatta in 1991.

He said "the pride and dignity" of the yacht club also was on the line.

Fay's challenge, which upset San Diego's plan for a 1991 multinational race and spawned the continuing series of legal skirmishes, was launched under the banner of the Mercury Bay Boating Club.

Dennis Conner skippered the SDYC's 60-foot catamaran, Stars & Stripes, to an easy sweep of Fay's 133-foot, single-hulled sloop.

SPORTS BRIEFS

Irish Outdoors will have a meeting today at 7:30 p.m. in the Notre Dame Room of LaFortune. Plans for the April 22 Dunes trip and a post-exam trip to Cumberland Island will be discussed. -The Observer

Women's Bookstore Basketball teams may pick up schedules and rules from 2 to 5 p.m. Monday through Friday at the SUB office. -The Observer

Rolfs Aquatic Center will be open additionally from 4 to 6:30 p.m. weekdays. A long course (50 m) set-up will be in place Tuesdays and Thursdays during these hours. -The Observer

The Sailing Club will hold a meeting tonight at 6:30 p.m. at the boathouse. Signups for further spring events will be conducted at this time. -The Observer

The Blue-Gold Game will be held Saturday, April 22, at 1:30 p.m. in the stadium. Notre Dame and Saint Mary's students will be admitted upon presentation of an ID card at gates 15 and 16. Spouses and children must have a ticket. General admission tickets for the public are available from 9 a.m. to 5 p.m. Monday-Saturday at gate 10 of the Joyce ACC. Adult tickets are \$3 in advance and \$4 game day. Youth tickets are \$1.50 in advance and \$2 the day of the game. -The Observer

The Men's Volleyball Club has tentatively scheduled an Open 4-Man Volleyball Tournament for Wednesday night in the JACC. Players will be assigned to either an advanced or intermediate division, and be placed on a team according to position. All Notre Dame students and staff are welcome. Play will begin at 7:00, with warmups starting at 6:00. A \$4 entry fee will benefit the club. Contact Jim Sullivan at x1844. -The Observer

Wolverines defeat Seton Hall in overtime

Associated Press

SEATTLE--Rumeal Robinson made two free throws with three seconds left in overtime to give Michigan its first national championship and cap the improbable ride of interim head coach Steve Fisher with an 80-79 victory over Seton Hall Monday night.

Fisher had taken over the Michigan team just two days before the NCAA tournament began and coached them to the six victories needed for the national championship.

The championship game was the fifth to go into overtime and the first since Loyola, Ill., beat Cincinnati 60-58 in 1963.

Glen Rice was the player who carried Fisher and the Wolverines to

the title with 31 points in the final, giving him an NCAA tournament record 184, breaking the 24-year-old mark of 177 set by Bill Bradley of Princeton.

Robinson, who finished with 21 points and 11 assists, got his chance to be the hero when he was fouled by Gerald Greene, who had missed the front end of a one-and-one with 1:17 remaining and Seton Hall leading 79-76.

Terry Mills hit a turnaround jumper with 56 seconds left to bring the Wolverines within one with 56 seconds remaining. Seton Hall worked the 45-second shot clock down and John Morton, who finished with 35 points, tossed up an airball with 11 seconds left.

Michigan brought the ball downcourt and Robinson began a drive to the basket when he was fouled before shooting. Robinson nailed the free throws and, after two Pirate timeouts, a final desperation 3-pointer banged off the glass and rim and Michigan had its first national championship in three title-game appearances.

Michigan lost to UCLA 91-80 in 1965 and to Indiana 86-68 in 1976.

Rice opened the overtime with a jumper that was answered by Andrew Gaze's 3-pointer, his first field goal of the game. The teams exchanged leads three more times, with Seton Hall's final lead coming on a 3-pointer by Morton with 2:41 to play.

Morton scored 22 of Seton Hall's last 28 points in regulation, including a 3-

pointer with 25 seconds remaining to tie the game 71-71. Michigan led 59-49 on a 3-pointer by Rice with 8:26 to go. Seton Hall ran off eight straight points, Morton scoring the last six and, after an exchange of free throws, Rice hit a 3-pointer that gave him the NCAA tournament scoring record and the Wolverines a 64-59 lead with 6:05 to play.

With Michigan leading 66-61, Morton ripped off six straight points as Seton Hall's defense came away with two steals, and the Pirates had their first lead of the second half with 2:14 to play. A free throw by Daryll Walker gave the Pirates a two-point advantage and Rice once again got the lead

Bookstore basketball begins

80 teams compete despite bad weather on opening day

By FRANK PASTOR
Assistant Sports Editor

Eighty teams braved intermittent rains as Bookstore Basketball XVIII got off to a fast and furious, if somewhat wet, start Monday, cutting the record field to 632 teams.

Four games were decided by forfeit, presumably a result of the unfavorable weather conditions.

Five Larry Birds Who Can't Shoot proved they could by downing A Fireman, A Gardener and Three Guys Who Will Hose You Down, 23-21 in the most exciting game of the day. The Birdmen were led by Mike Casey and Eric Brandenburg, who scored seven and six baskets, respectively.

"It was a very physical game," said Brandenburg, who hit the winning hoop for the Birdmen. "We were down 18-13 at one point and came back really well down the stretch."

Swish, Swish, Brick also won a close game, prevailing 21-19 over The Everlasting Renob.

Matt O'Donnell and Sean Hickey paced the Brick scoring attack with five points apiece.

At the opposite end of the spectrum, Rigid Structures and No, No, Mo! The Other Basket dropped the most decisive contests of the day. Human Tripods defeated Rigid Structures 21-3 and Three Engaged Guys and Two Wasting Away Their Sexual Prime crushed No, No, Mo! by an identical 21-3 margin.

Bookstore veteran Xavier Creary's Wade Boggs and the Heavy Lumber-Swingers slugged it to the Soy Barrage, 21-17. Ben Garrett led the Lumber-Swingers with 10 baskets and Notre Dame kick boxing legend Sweet C. Robinson added five of his own.

Corrines beat The Twin Towers, Fridge, Shorty and Me 21-19 despite 0-for-25 shooting from Vince Duncan, the early favorite for the Hoosier Award. Corrines' dismal .181 shooting percentage was bypassed only by The Twin Towers' wretched

19-of-115 shooting for a .165 mark.

The MBA Bulls edged The Posse 21-18 behind Dennis McSweeney's 10 baskets. Bill Anderst canned eight shots to lead The Posse.

Tim Bolden, whose team reached the Final 32 last season, hit 10 hoops to lead the Heat Misers over Goldrick's Worst Nightmare, 21-5.

In addition to the regular awards presented at the conclusion of the tournament, Bookstore Commissioner Mike Manning announced an additional prize to go to the team with the most original gimmick. He cited last year's "Peanut Butter and Jelly Sandwich" team as a great example.

Manning also reminded teams that they are required to provide a sixth person to keep score at their games. In addition, the team listed at the top of the schedule is to wear light clothing to the game and the team listed at the bottom should dress in dark clothing.

The Observer / Matt Mittino

Shooting Blanks defeated Dial Teg on Monday as the 18th annual Bookstore Basketball tournament got underway. Frank Pastor has details at left.

The Observer / Mike Moran

Tim Grunhard is part of a veteran offensive line returning from the 1988 championship season. According to offensive line coach Joe Moore, the difference between this year's line and last year's is like "night and day."

Offensive line looks strong early

By BOB MITCHELL
Sports Writer

If someone could pry Dick Vitale off the hardwood and let him commentate (and I use the term loosely) on an eleven-man game, it would only be a matter of seconds before he would elaborate on the giants in the middle.

"Oh baby, I wouldn't want to run into them in a dark alley," Vitale would say. "They are all on my Rodney Dangerfield team—they get no respect—but what I can't understand is they still play knowing they won't get the rock."

Although Dick and the rest of America might not realize the importance of the offensive line, Irish head coach Lou Holtz does, and is impressed with the progress of the men in the middle.

"We've come along pretty well," said Holtz. "I am pleased with a lot of things I see in the offensive line."

And pleased he should be with four returning starters penciled in for the start of the 1989 season. The only spot up for grabs as for now is All-

American Andy Heck's quick tackle spot. Presently, the leading candidate to fill the big shoes of the 1988 tri-captain is fifth-year senior Mike Brennan. The 6-5, 260 tackle will be pushed by junior Peter Rausch and Lindsey Knapp throughout spring practice.

What a difference a year makes? Entering the 1988 championship season, Holtz & Co. were frantically searching for bodies to put on the line. This year, the offensive line is the most experienced and perhaps stable dimension of the 1989 squad.

"Last year was a totally different situation," said offensive line coach Joe Moore. "We have some proven athletes. They should be bigger, stronger, and quicker. It is like night and day compared to last spring."

Heading the list of returnees is center Mike Heldt. The 6-3, 265 junior who ran a 4.98 in the 40-yard dash in spring workouts has had the most playing time of all the returning players.

At the strong tackle position, junior Dean Brown will return in his second campaign as

starter. Tim Ryan and Tim Grunhard will occupy the strong and quick guard slots, respectively.

The quality of the first team is unquestionable, but what worries the Irish coaching staff is the lack of depth in the offensive line. The first team is one of the best in collegiate football, but without adequate backup they will not be as potent.

"The first team has a better concept, and bringing the second unit along will be really important," explained Holtz. "Finding a backup center has to be the biggest challenge we have in the offensive line. At this time I would have to say that Winston Sandri is the probable backup for center."

Reinforcing Brown at strong tackle is sophomore Justin Hall and junior Joe Allen. Hall is recovering from a broken foot. Behind Tim Grunhard, Mirko Jurkovic and Gene McGuire should lend quality support at the quick guard position. Converted defensive tackle Tom
