ND attorneys ask to defend suspects in clinic bombings

By JANE KRAVCIK and
BOB VONDERHEIDE

Senior staff reporters

Three attorneys associated with Notre Dame have asked the U.S. District Court in Pensacola, Fla., to help defend four people accused of anti-abortion bombings.

The three are:

- Law School professor Charles Rice, an out-spoken opponent of abortion,

- South Bend attorney Mary Frances Hasson, Rice's daughter and a graduate of the Notre Dame Law School, and

- Frank Booker, director of the Notre Dame Legal Aid and Defender Association.

Lawyer Thomas Patrick Monaghan of Bardonia, Ky., joined the others in asking to join the defense. There was no immediate action by the trial judge, Roger Vinson.

The defendants, all so far represented by Pensacola lawyer Paul Shimek, are scheduled to go to trial March 11. Two are charged with a bombing last June and all four are charged with the Christmas Day bombings of three buildings.

Last night, Rice said he could not talk about the matter because Vinson had issued a gag order, which prevents attorneys involved from discussing the case publicly.

On Monday, the five attorneys filed a motion to lift the gag order because they say it violates the First Amendment.

Rice, a retired Marine Corps

lieutenant colonel, has already assisted Shimek and indicated he also may ask to enter the case formally.

He has written books against abortion and has served as a consultant to congressional committees studying the power of federal judges in right-to-life cases. He is affiliated with Right-to-Life of St. Joseph County, Ind.

Monaghan became involved in the right-to-life movement shortly after the Supreme Court struck down anti-abortion laws in 1973. He once ran on an anti-abortion platform in an unsuccessful race for the state senate when he lived in Idaho.

Judges had warned Shimek and the defendants of possible conflict of interest in having a single lawyer represent all of them. Shimek has insisted he is the only lawyer in Pensacola who "understands the scriptural and spiritual aspects" of the case.

Matthew Goldsby and James Simmons, both 21 and from nearby Cantonment, each face nine counts of violating federal firearms and explosives laws. They are accused of conspiracy, making bombings and using them to blow up The Ladies Center, a women's health and abortion clinic, last June. They also are charged with bombings Dec. 25 at a new Ladies Center building the offices of two physicians who performed abortions.

Goldsby's fiancée, Kaye Wiggins, 18, of Pensacola, and Simmons' wife, Kathren, also 18, face seven counts each.

Tug o' War

Mark Ridinger, a junior from Alumni Hall, tries to hold his ground yesterday as a member of the Alumni-Lyons coed tug-of-war team. The Alumni-

Lyons team defeated the Fisher-Badin team in a contest during halftime of last night's women's basketball game.

The Observer/Vic Guarino

Poet says those who live by humor often die by humor

By ANNE GALLAGHER

Senior Staff Reporter

"Anyone who is introduced as having a great sense of humor will suffer for it later," said Howard Nemerov, award winning poet and last night's guest at the Sophomore Literary Festival.

But the Pulitzer Prize winning author didn't appear to suffer at all last night. He kept the audience laughing as he read a variety of poems ranging

in topics from Ann Landers to the elderly reading pornography.

Nemerov opened with readings of "Literature" and "Writing," works which he thought were particularly suited for a literary festival.

These were followed by a reading of "Reading Pornography in Old Age," a poem which portrays sex and sexual terms as mundane and insincere in "the laboring world of the money and the garbage and the kids."

Other poems of Nemerov's employ the very ordinary in order to be specific. For example, "Pockets" describes the intricate life of the commonplace items in a pocket, a life typified by "little vagrant coins only passing through...over and around the erroneous zone."

Nemerov's biting humor didn't let up. Reading "Poetics," a poem which he claimed is the answer to all the questions people have been asking him this week, he described a

scene from an Ann Landers column where a mother doing laundry and wearing her son's football helmet for protection from a leaking pipe, has her privacy invaded by the meter reader. Although comical, the poem ended on a thoughtful note which quizzed the audience on the purpose of life.

Thought provoking humor wasn't just found in the poems alone. Nemerov read a number of riddles he had written on a bus, stuck in a snowstorm in Maine.

The point of riddles, he said, is to figure out the answers so that they are no longer puzzling but mysterious. "They are like Christmas," he said, "the farther away, the closer it is."

All Nemerov's readings weren't centered around humor. Some, like a poem dedicated to a friend who died as a pilot in World War II, were serious in tone and full of emotional feeling. "To Joy, Our Student, Bidding Adieu," is a personal poem in which Nemerov wrote of a graduate student who died tragically while still in school.

Yet Nemerov is best known for the sense of humor in his writing, which seemed to have been recognized by last night's audience. "There's probably no lower literary enterprise than humorous writing - there may be others, but..." said Nemerov. "I don't mind being funny, but I mean it."

Born in New York City and a

graduate of Harvard University, Nemerov is currently the Mallinckrodt Distinguished Professor of English at Washington University in St. Louis. Commenting that he enjoyed himself so much last night, he said, "With such a friendly audience, maybe I ought to live here."

The Sophomore Literary Festival continues today with a workshop in

Howard Nemerov

the library lounge with playwright Joanna Glass at 12:15 p.m. Glass will read from her works tonight at 8 in the library auditorium.

Novelist Mary Gordon is the featured author tomorrow. Her workshop is at 12:15 in the library lounge and her reading at 8 p.m. in the library auditorium.

There will also be a production of "Canadian Gothic" by Joanna Glass tomorrow at 3 p.m. in LaFortune ballroom.

O'Gara to assume Welch chair in 1985-86

By JOHN HINES

Staff reporter

Following such distinguished men of letters as Garry Wills and Max Lerner, former editor of Commonweal magazine, James O'Gara, has been appointed the W. Harold and Martha Welch Professor of American Studies.

University Provost Timothy O'Meara announced the appointment this week. O'Gara will begin teaching next fall.

O'Gara retired last year as editor after 32 years on the staff of Commonweal, a journal of Catholic lay opinion. He has served in editorial positions on the Catholic Worker, Today, and The Voice of St. Jude.

He also has taught sociology at

Fordham University, written numerous articles, editorials, religious columns and television documentaries. Currently, O'Gara is a fellow at St. John University's Institute for Ecumenical and Cultural Research, in Collegeville, Minn.

"We were impressed by someone who spent his life editing a prestigious American Catholic journal and someone who's been at the heart of the important issues of American Catholicism," said Professor Donald Costello, chairman of the department of American studies and the Committee for Appointments and Promotions which decided on O'Gara.

Honoring a 1924 graduate and retired executive of The New York

Telephone Company along with his wife, an executive of the New York public school system, the Welch Chair is filled by a visiting professor of American studies each year.

"There is a set selection process we must go through," O'Meara said. "The recommendation starts with the Committee on Appointments and Promotions then goes to the chairman of the department, then the dean of the college, the provost and, finally, the president," O'Meara explained.

A candidate's religion has no direct bearing on his or her appointment to the Welch Chair. O'Gara's appointment is not

see WELCH, page 3

In Brief

Director of Residence Life and Housing at Saint Mary's, Patricia Rissmeyer, has been awarded NASPA's Award of Merit for outstanding programming during National Collegiate Alcohol Awareness Week. The award was announced Jan. 29, 1985, and will be presented to Rissmeyer April 1, 1985, in Portland, Oregon. The Alcohol Awareness Week was sponsored at Saint Mary's Oct. 1-6, 1984. The program was part of a national effort to call attention to the use and abuse of alcohol on American college campuses. The program stressed both campus and community involvement and was sponsored by the Alcohol Education Council, the Governors' Task Force to Reduce Drunk Driving, student government, and the Division of Student Affairs. - *The Observer*

Wear your seat belts, Missouri. That was the word yesterday from the state's legislature when it made Missouri the fifth state in the nation to pass a bill requiring drivers and front-seat passengers to wear seat belts. The bill now awaits the signature of Gov. John Ashcroft, who is expected to sign it soon. New York, New Jersey, Illinois and Michigan have enacted similar laws, and several other state legislatures are considering them in response to a federal initiative. The U.S. government has threatened to require automakers to install passive-restraint air bags in cars if states containing two-thirds of the nation's population don't pass seat-belt laws by 1990. - *AP*

A former Libyan ambassador to Austria and an opponent of Col. Moammar Khadafy was shot and seriously wounded yesterday in Vienna, Austria, police reported. A police spokeswoman said Ezzeddin Ghadamsi was rushed to a hospital. The nature of his injuries were not immediately known. The attack occurred on a Vienna street, police said. Some reports said he was shot in front of the former Libyan ambassador's residence. The police spokeswoman said Ghadamsi was "deposed" as Libyan ambassador by Khadafy several years ago. - *AP*

Of Interest

The issue is unionization. The South Bend school district secretaries are not being allowed to unionize. They are taking their case to the South Bend school board this evening at 7:30 at LaFayette School, 245 N. Lombardi Dr. Transportation will be available for anyone interested in attending this meeting. Call Bob Schultz at 234-6031. - *The Observer*

The Notre Dame French Club will celebrate Mass and dinner this Sunday in Pasquerilla East. The cost for the dinner is \$3. RSVP today by calling Jackie Bernard (283-3786) or Greg Davis (283-2243). - *The Observer*

The 11th Annual Phone-a-Thon at Saint Mary's will take place March 4-7 from 6 to 10 p.m. in 103 Haggard College Center. The goal this year is to raise \$75,000 for the Annual Fund. Individuals and groups wishing to help may call Julie Strazabosco at 284-5229. - *The Observer*

An Tostal '85 Anyone interested in helping with the weeks activities (i.e. mud pit, bookstore basketball, jail, dating game, pie throwing, etc.) should attend a meeting Sunday night at 7:15 in the Library Auditorium. - *The Observer*

Drops in college board exam scores are not the fault of poor schools. Research reported in Psychology Today found scores fall 20 points for each additional child in a family. Thus, the larger families popular in the '50s caused the test score decline and the smaller families of the '60s and '70s account for the recent trend of higher scores. - *The Observer*

Weather

It will be nice tomorrow, with partly sunny skies and cool temperatures. The high tomorrow will be around 40. Increasing cloudiness and mild today. High in the mid to upper 40s. Becoming partly cloudy and a little colder tonight, with a low in the upper 20s. - *AP*

No meat on Friday is simply religious discrimination

Religious discrimination. It's an ugly concept, but it exists at Notre Dame.

No, this is not an article about denying non-Catholic religious groups the opportunity to gather in campus facilities, although that is a prime example. And it is not an article about the harassment of non-Catholic faculty members, although that is something which is likely to adversely affect all Notre Dame students before they graduate.

This is something which hits us all much more deeply: the lack of meat in dining halls on Fridays.

Believe it or not, there are persons at Notre Dame whose religious beliefs give them no reason to abstain from meat on Friday. They probably do not understand this strange Church rule. Many Catholics do not completely understand this strange Church rule. I am one of them, but I have no objection to following it.

Some small spark of self-respect, buried deep inside where the administration's in loco parentis has been unable to extinguish it, resents this treatment. This is probably the same primal craving which induces me to do my own laundry on occasion. I resent being told, by people who aren't any better at it than I am, how I can sin.

After all, we all have a right to sin.

O.K., so if I'm so set on sinning, I could go to the Huddle and get a "Huddleburger," or since I respect my stomach's feelings, a chicken sandwich. That is not the point. I give up nothing by not going to the Huddle, since I would not ordinarily go there. There is no virtue in not doing something one would not normally do.

Those several hundred non-Catholics could certainly go to the Huddle; a dollar and a half is a small price to pay for avoiding having another religion imposed upon them. A dollar and a half wasn't so much for a poll tax either, but that was discriminatory.

This may seem like a very esoteric argument, but I have heard complaints about the meatless Fridays from Lent of my freshman year. Many of these have come from people who do not like fish or manicotti cheese. I'll admit that manicotti is not my favorite, but fish is tolerable. Arguing that one doesn't like fish is not valid. There are a lot of things at the dining hall we don't like, and some we do. That's life at the big dome.

I have never heard an argument regarding the dining hall policy that made much sense. It only seems to be another example of regulation designed to prevent students from maturing. After graduation, there will be no

Tom Mowle

Day Chief

one to prevent us from eating meat. We'll have to make that choice on our own.

There is only one argument which is potentially valid. If a regular dinner were served, almost no one would eat it, and a lot of food would be wasted. That is true, and I am not in favor of wasting food just to make a point.

Granting, however, that it would be a tremendous inconvenience for the dining halls to serve roast beef au jus to people who will piously avoid eating it, I propose a less difficult and less expensive. Something as small as putting bacon bits at the salad bar (assuming they are real bacon bits) or serving bologna in the deli line would suffice.

With the option to sin established, Catholics can make a virtuous choice to refrain from doing so - or if they wish, to risk God's wrath and nibble a bacon bit. Non-Catholics can follow their conscience and eat meat if they want, or participate in an exercise in ecumenism. The dining halls would not have to spend much extra money to leave this option open. And the workers would not have to listen to those poor heathen students ask, "Why isn't there any meat today?"

The Observer encourages the free expression of opinions through letters to the editor. Letters should be brief (approximately 250 words) and typed whenever possible. All letters should be signed (although the author's name need not be published), and should include a phone number at which the author may be reached. Letters are published on a space-available basis. Letters are edited to correct errors in grammar and for space considerations.

U.S. trade deficit jumps 28 percent in January, but exports hit high

Associated Press

WASHINGTON - The United States foreign trade deficit hit \$10.3 billion in January, a 28 percent jump from the previous month, as a flood of imports swamped the country's best export performance in more than three years, the government said yesterday.

Analysts said a rebounding U.S. economy and the strong dollar led to the import gains and they predicted those factors would combine to ensure America's trading woes would worsen further this year.

The Commerce Department said the January deficit was up from an \$8 billion deficit in December as imports rose 9.2 percent, to a new total

of \$29.7 billion, the highest monthly figure since last September.

Exports rose by a smaller 1.4 percent in January but the monthly total of \$19.4 billion was the highest monthly figure since U.S. firms sold \$19.55 billion abroad in September 1981.

However, analysts discounted part of the export growth, saying it was the result of a surge in auto parts sales to Canada following a strike-related slowdown in purchases in previous months.

Commerce Secretary Malcolm Baldrige, viewing the bleak January figures, predicted that the U.S. trade deficit this year would hit \$140 billion, up sharply from last year's record deficit of \$123.3 billion.

Baldrige blamed the deterioration

on the continued strength of the dollar plus expected further growth in domestic demand. He predicted exports, which rose 9 percent in 1984 despite the strength of the dollar, would rise by a similar amount this year.

The dollar plunged sharply in frantic trading on Wednesday after a concerted effort by European governments to drive the price down, but it appeared to have stabilized on yesterday and some experts said it could begin rising again in coming weeks.

In other economic news yesterday:

The National Association of Realtors said sales of existing homes climbed 4.5 percent in January to an annual rate of 3 million units, the highest total since last April.

Goetz case could be resubmitted

Associated Press

NEW YORK - The case of subway gunman Bernhard Goetz could be resubmitted to a grand jury following revelations that he calmly plotted his line of fire and shot twice at one of four victims.

"We have been considering" resubmitting the case, Mary de Bourbon, a spokeswoman for District Attorney Robert Morgenthau, said yesterday.

"This is not to say we will do it.

You have to have a substantial basis to do it, a basis other than, you didn't like the first result," she said.

Meanwhile, Justice Stephen Crane of state Supreme Court, the trial court, said he would consider permitting Morgenthau to resubmit the case.

Goetz was indicted only on weapons possession charges by a grand jury that also considered charges up to attempted murder in the Dec. 22 shootings.

State law prohibits presenting a case to a grand jury twice unless the district attorney shows new evidence, a clear indication that the grand jury failed to conduct a complete and impartial investigation, or some procedural or technical irregularity.

The revelations about the shootings included a statement from a New Hampshire police officer, C.T. Domian, who said Goetz told him "he shot each of the individuals once and then went back to the last individual and shot that individual again, thinking he had missed him the first time because there wasn't any evidence of blood on the person."

Goetz, who turned himself in, told Domian that before firing the fifth shot, he said to the youth, "You seem to be all right, here's another."

According to police, all four teenagers were shot once, and a fifth shot missed. It is not clear whether the fourth victim was injured with the first shot, or when Goetz shot again.

Domian said Goetz "indicated he drew a pattern of fire prior to the shooting taking place, indicating that he was going to shoot from left to right in the quickest and most ef-

fective manner possible. He indicated speed was everything."

The transcript of the officers' statements was released after a hearing Wednesday in state Supreme Court at which Morgenthau's office supplied Goetz's lawyers with copies of various tapes and statements by Goetz.

Bernhard Goetz

In an interview with The New York Times at his apartment Wednesday, Goetz said the officers' statements were "essentially accurate," but did not elaborate. Goetz spoke instead about what he says is the need for citizens to arm themselves.

His lawyer, Barry Slotnick, said the statements were "a bill of particulars taken out of context from the full set of circumstances. Please don't look to an out-of-context statement for a determination of his actions."

O'Neill draws the battle line

Associated Press

WASHINGTON - House Speaker Thomas P. O'Neill Jr. said yesterday the House will set up a showdown with President Reagan over the president's threatened veto of a bill containing credit aid for farmers and development help for drought-stricken Africa.

The Senate passed the measure Wednesday, and O'Neill said he planned to speed it to the House floor for final approval - bypassing a

more time-consuming House-Senate conference to work out differences in the two bodies' versions.

Told that Reagan has indicated he likely would veto the measure if it reaches his desk in its current form, O'Neill told reporters, "We'll give him the opportunity."

In addition to the credit-relief measures already approved by the House and Senate, the House yesterday voted 294-115 to make available an additional \$1 billion in federal loan guarantees for farmers.

Welch

continued from page 1

viewed by either Costello or O'Meara as being necessarily dependent on his being a prominent Catholic or as a means of reaffirming Notre Dame's Catholicity.

"It is a natural thing to happen at a Catholic university," said O'Meara.

"We look for a man of letters, one who deals in a prominent way with written communication, but also one

who deals with some aspects of American culture," said Costello.

O'Gara will teach two American Studies courses next fall, AMST 330: God and Mammon in America, and AMST 314: Writing and Editing.

The first will deal with Catholic social thought and the U.S. economic policy. The second is a course focusing on improving basic nonfiction writing skills. A one credit mini-course, Nine American Catholics, examining the lives and work of several significant figures in American Catholicism, also will be taught by O'Gara.

Open at 11am for Lunch

Mechanics and baggage handlers go on strike at Pan Am

Associated Press

NEW YORK — Mechanics and baggage handlers went on strike at Pan American World Airways yesterday, sending thousands of stranded travelers to competing airlines.

Union officials warned of a long walkout.

Most of the carrier's 19,000 unionized employees, including pilots, were honoring picket lines set up nationwide by the Transport

Workers Union, said Pamela Hanlon, a Pan Am spokeswoman.

The TWU struck after rejecting a 20 percent wage increase over three years plus bonuses, in return for increased productivity and reduced health and pension benefits.

"I think it is going to be a long strike," said the union's airline division director, John Kerrigan, who announced the strike of 5,753 mechanics, baggage handlers, flight dispatchers and food service workers at

about 12:30 p.m. yesterday.

Normally, Pan Am operates about 400 flights daily, carrying 39,000 passengers to 89 cities on six continents, Hanlon said.

It had scheduled 15 flights yesterday - only one of them domestic - out of airports in San Francisco, New York, Los Angeles and Miami, Hanlon said.

"They just stranded us in Orlando," said Rose Simon, who had been on a flight from New York to

Miami. "We got some passengers together and hired a car to drive to Miami. And they sent my baggage to Tampa."

In Los Angeles, more than 500 people with Pan Am tickets gathered in the airport terminal, said police Sgt. Patrick Turner. In Detroit, more than 100 were transferred to other airlines.

More than 1,000 management personnel replaced ticket agents and reservation clerks who stayed

out with the TWU, Hanlon said. Taped messages recorded by Pan Am advised stranded passengers to seek alternate flights.

The union says a 14 percent wage increase it postponed in 1982, when Pan Am, faced bankruptcy, has yet to be restored.

Pan Am had a pre-tax operating loss of \$106.7 million last year. It has not made a profit since 1980, and has cut more than 8,000 jobs in the past five years.

Shultz says U.S. wants to talk to Nicaraguans

Associated Press

WASHINGTON - The Reagan administration said yesterday it is "perfectly willing" to talk with Nicaragua.

However, they dismissed as probably meaningless an offer by President Daniel Ortega to send home 100 Cuban military advisers and impose a moratorium on acquiring new arms systems.

"It is relevant to ask why they bother," Vice President George Bush told the Austin Council on Foreign Relations in Texas. He said the 100 advisers are about 1 percent of the Cubans in Nicaragua and that the army cannot absorb new weapons now.

On the face of it, Bush said in a speech, the steps taken by Ortega "do not appear to represent significant moves."

But Secretary of State George Shultz, flying to Ecuador, said he was "perfectly willing" to meet with Ortega next weekend when they attend the inauguration of Uruguayan President Julio Sanguinetti in Montevideo. "I'll listen carefully to what he says," Shultz said.

U.S.-Nicaragua relations were

heading toward a boil before Ortega announced his "unilateral initiatives and decisions" in Managua on Wednesday night, producing a subdued although skeptical response from the administration.

Shultz said that in view of the "several thousand" Cuban military advisers in Nicaragua, the withdrawal of 100 would be only a "token" gesture.

"But if the token is something that will lead to rather massive reductions, that's something else again," he said.

As for the weapons-system freeze, Shultz said there has been a "rather massive build-up of hardware" in Nicaragua "and it may well be that they've gotten what they needed. Anyway, if there is a cessation in the military build-up then that's welcome."

President Reagan and Shultz, possibly in a campaign to gain congressional approval of renewed U.S. aid to rebels in Nicaragua, had challenged the legitimacy of Ortega's government and suggested they would like to see it overthrown.

The Nicaraguan leader had accused the administration, in

turn, of "aggravating the climate of tension in the region (through) a campaign of calumnies and lies."

Congress halted covert U.S. aid to the rebels, known as "contras," six months ago. The administration is seeking \$14 million, with

sentiment in the House apparently against a resumption and the Senate slightly in favor of it.

The ban technically ends Thursday. Congress is not expected to deal with the issue until it resolves another controversy:

whether to go ahead with the new MX intercontinental ballistic missile.

Bush suggested Ortega's "peace initiative" could be in response to growing support for the rebels among the Nicaraguan people.

Internal stress behind change in attitude

Associated Press

MANAGUA, Nicaragua - Nicaragua's offer to stop its military buildup in exchange for renewed talks with the United States reflects the pressure created by isolation, a shattered economy, a costly guerrilla war and growing domestic discontent.

The leftist Sandinista government, which sided with Cuba and the Soviet bloc soon after it seized power in July 1979, now finds itself isolated from formerly friendly nations in Western Europe, distant from Soviet supplies and bordered by hostile neighbors in Central America.

It also is being squeezed economically by the United States, which cut off aid long ago and provided aid to 16,000 armed rebels.

President Daniel Ortega made a series of moves this week designed to placate the United States and bring it back to bilateral talks it suspended in January.

Ortega was almost conciliatory when he said of the proposals: "we hope President Reagan considers them and accepts them and contributes to a peaceful

solution of the problems and to eliminate the alternative of war and increase the possibilities of peace."

He invited a bipartisan congressional committee to an unrestricted visit to confirm that Nicaragua's military is strictly defensive, said he was willing to send 100 Cuban military advisers home, and pledged to stop acquiring new weapons.

White House spokesman Larry Speakes said yesterday that Ortega's offer "appears to be change without substance and we will have to wait and see if there are further developments."

He said 100 departing Cubans were insignificant among the thousands of Castro's military and civilian personnel estimated to be in Nicaragua.

As for the arms pledge, Speakes said, "They have already indicated they would not be able to handle much more weaponry immediately because of the large amounts they have received in their buildup of the last several years."

Secretary of State George Shultz said, however, that he would be willing to meet Ortega today if it could be arranged, and would "listen carefully to what he says."

Group urges end to deportations

Associated Press

WASHINGTON - Bitterly denouncing "scandalous policies" of the Reagan administration, more than 200 U.S. religious leaders yesterday pleaded for a halt to deportations of Salvadoran and Guatemalan refugees and an end to the jailing of American church workers who try to shelter them.

Bishops rubbed shoulders with refugees, Protestant denomination presidents, a rabbi and an indicted churchwoman in a crowded Methodist chapel across the street from the Capitol as the group tried to bring national attention to the long-simmering issue of the nation's "sanctuary movement."

Reacting strongly to recent arrests of Americans who had given refugees sanctuary in the Southwest - and to convictions of two workers in Texas - the leaders said it was the government that was guilty of violating U.S. law in returning refugees to face the threat of death in their homelands.

The group presented petitions asking Congress to investigate the government's conduct and said the Senate will indeed hold such hearings.

The Reagan administration, which strongly supports the governments of El Salvador and Guatemala, has sent thousands of refugees back to those countries on grounds that they came to the United States for economic reasons, not out of fear of persecution at home as they claim.

Administration officials defend the indictments of American church workers - and the use of infiltrators with concealed tape recorders - as part of their obligation to pursue people suspected of breaking laws concerning illegal aliens.

However, the church leaders said many of the refugees would appear well qualified for asylum on the 1980 Refugee Act's grounds of "persecution or a well-founded fear of persecution" at home.

They said it was an American's legal right, if not obligation, to protect refugees from conditions of death

and terror. And they dismissed U.S. government contentions that things have changed in a nation such as El Salvador.

There may have been "a momentary drop" in Salvadoran assassinations and disappearances "from thousands to hundreds," said the Rev. Avery Post, president of the United Church of Christ. But he added, "Is that any comfort at all?"

The administration's "scandalous policy is now beginning to interfere directly with the right of religious congregations to provide humanitarian aid to refugees," said Bishop Francis Murphy of Baltimore.

A list of signers of letters to congressional leaders asking for investigations included 10 Roman Catholic bishops, four Episcopalian bishops, 12 Lutheran bishops from several branches of the denomination, seven Methodist bishops, top officials from other Protestant denominations, the past president of the Synagogue Council of America and nine other Jewish rabbis.

Six N. Ireland police are killed by guerrillas

Associated Press

NEWRY, Northern Ireland - At least six police officers were killed yesterday when IRA guerrillas fired mortars at the heavily fortified police base at Newry, police reported.

At least three shells that exploded inside the base on the border with the Irish Republic hit a canteen packed with officers on an evening tea break, said a police spokesman, who declined to be identified.

At least six other officers were seriously wounded in the attack, the spokesman said. Three or four officers received minor wounds.

A spokeswoman at police headquarters in Belfast reported "at least 17 casualties, some of them serious" in the attack.

The outlawed Irish Republican Army said in a statement telephoned to news organizations in Belfast, the capital, that its fighters carried out the attack.

"This was a major and well-planned operation, indicating our ability to strike where and when we decide," the IRA statement said.

Police said the mortars were fired by remote control from the back of a hijacked truck parked several blocks from the police post, which is in the center of the mainly Roman Catholic town and ringed by houses.

Rescue teams dug through the rubble searching for bodies. They worked in darkness because authorities feared lights would enable IRA snipers to fire on the officers.

Heavily armed troops and police sealed off Newry, but the attackers were believed to have slipped back across the border into the Republic before the mortars were fired.

Cells that protect body may lead to cancer

Associated Press

BOSTON - Germ-killing blood cells that ordinarily protect the body from disease can also cause cancer in lab animals, and that may explain why years of chronic inflammation heighten people's risk of some kinds of tumors, researchers say.

Their work, conducted at Massachusetts General Hospital, provides clues to the origins of a variety of common human malignancies, including cancers of the colon, lung and breast.

The white cells, called phagocytes, are the blood's foot soldiers and garbage cleaners. They surround bacteria and other germs and kill them, and they also gobble up worn-out normal cells. In the course of both of these duties, they release toxic chemicals known as free radicals.

The new work suggests these same chemicals can damage ordinary tissue and even make it turn cancerous if the exposure persists for a long time.

So far, they have observed this effect in the test tube and in mice, providing indirect evidence, they say,

that the same thing may be happening in people.

"There has long been known to be an association between chronic inflammation and cancer," said Dr. Thomas Stossel, one of the researchers.

One example is ulcerative colitis, a chronic bowel inflammation that constantly bathes the bowel with phagocytes. During the first 20 years of this disease, the cancer risk is relatively low. But then the rate of colon cancer rises quickly.

When people smoke cigarettes, bits of soot become lodged in the lungs, and phagocytes roam about, eating them up.

"It's possible that the association between lung cancer and smoking is in part due to these radicals," Stossel said in an interview.

Throughout the body, cells are constantly wearing out and being replaced. This turnover is especially rapid in the ducts of the female breast, where new tissue is built every month. Essential to this process are the phagocytes, which cart away the dead cells. The researchers believe that, over time, this constant exposure to free radicals could contribute to the development of breast cancer.

Hand surgery

Roger De Wendt of Holland recuperates in a Louisville, KY., hospital following surgery to repair his hand which was damaged during an escalator accident. Doctors transplanted joints

from the boy's toes to his knuckles during this rare surgery. Citizens of Holland donated newspapers and proceeds from their recycling to help pay for the surgery.

Purdue team finds secrets of blood

Associated Press

WEST LAFAYETTE, Ind. - A Purdue University research team has discovered how the body rids itself of old blood, a breakthrough that may prolong the shelf-life of blood stored in blood banks.

The team, headed by Phillip Low, chemistry professor, may have unraveled one of the mysteries of aging by learning how the body recognizes and removes the old blood cells from circulation. Understanding that process also may improve treatment for diseases such as sickle cell anemia, Low said.

"Scientists have long recognized there are antibodies designed to remove old cells from circulation. What we didn't know was how the antibodies distinguished old cells from younger cells," Low explained.

A report of the team's findings was published in the February issue of Science magazine by Low and coworkers Stephen Waugh, Karen Zinke and Detlev Drenckhahn.

The team discovered changes occurring in the composition of aging red blood cells that trigger a reaction from antibodies, which absorb the cells and remove them from circulation.

Low traced a series of subtle changes in cells that had circulated an average of 120 days.

When the cell ages, hemoglobin, the protein carrying oxygen from the lungs to tissues, changes form and causes another key body protein, known as band three, to cluster within the cell membrane, Low explained.

"The presence of these clusters provides the recognition site for antibodies directed against aging cells," Low said. "The antibodies then bind to the cell and trigger its removal from circulation."

Low believes a similar process occurs to remove abnormal cells, such as those present in the disease known as sickle cell anemia.

"A number of diseases caused by unstable hemoglobins seems to promote an accelerated aging process," Low said. "In these instances, the hemoglobin denatures earlier, resulting in band three clustering and the consequent premature removal of blood cells."

Life and the practical theory of relativity

As I was thinking about something to write this week, I thought about the final words of a song I know, "Just remember this, there are two sides to every question."

I have come to realize this more and more while here at Notre Dame, a predominantly

Michael Froning

in the minority

conservative school, because I have a predominantly liberal background. So as I pondered these words, I thought of what they meant in general and to myself.

The first word which came to mind was tolerance. The real message is that tolerance is essential to the success and continuation of our democratic society. What they mean to me is that right and wrong are really relative terms and what is right for one person may be wrong for another and vice versa.

This may not seem a terribly radical concept, but actually is. How many times have we encountered another viewpoint and emphatically denied it as "wrong"? We've all done that, and have all had prejudices towards people who hold certain viewpoints we see as wrong, either morally or practically.

An example of a "moral" issue might be homosexuality. There are many who feel that homosexuality is morally wrong. Some even discriminate against homosexuals by not hiring them because of their sexual preference and others abuse them verbally or physically.

Those with a little more tolerance may not like homosexuality and even think it wrong, but tend not to judge people based on sexual preference. Rather, they judge a person by his or her character and personality.

The point being homosexuality may not be right for you, indeed you may think it "wrong," but a value judgment such as this is only valid for you personally.

A good example of a "practical" issue is nu-

clear arms. Many argue that to have nuclear weapons is wrong from a practical (and moral) standpoint if the human race is to survive. The more weapons we have, some say, the more likely we are to kill ourselves.

Yet others argue with just as much conviction that nuclear weapons are necessary for survival. If we are to survive, some say, we must be strong enough to deter aggression.

Which is right and which is wrong? It basically doesn't matter in our society. In a dictatorship it would matter because everything would work according to one policy. But in our society, everyone helps decide the rules, so beliefs and values must be compromised. This is the price to pay for being able to have different beliefs. I believe it to be a small one.

I also believe the key to success and happiness in our society is to be tolerant. Tolerant of other's beliefs, actions and habits (so long as they don't infringe upon other rights), even though they may be vastly different from our own.

Homosexuals, pro-abortion advocates, Equal Rights Amendment supporters, ultra-conservatives, bleeding-heart liberals, people who disagree with the pope or people who speak out against any of our sacred, personal beliefs should not be condemned. Why? Because right and wrong are relative terms, they do not, and should not, mean the same thing to everyone.

We also should be more careful about forming an opinion of someone just because they hold a certain belief. It is a sad thing to judge someone by a belief rather than as a human being.

As one of my high school English teachers once said, the true test of tolerance is when you can look into someone's eyes and see not black, white, male, female, gay, straight, democrat or republican, but rather, a reflection of yourself.

Michael Froning is a freshman Arts and Letters major at Notre Dame and a regular Viewpoint columnist.

P.O. Box Q

Violence will not help change abortion laws

Dear Editor:

I deplore, like all law-abiding citizens, the recent bombings of abortion clinics and agree that the perpetrators should be punished to the fullest extent of the law. No one has the right to destroy property and endanger the lives of fellow Americans.

We all realize, however, that the vast majority of people in this great land detest the vicious and despicable crime of abortion. The four thousand innocent, defenseless children that are victimized everyday bring sorrow and pain to all of us who suffer through their agony day in and day out. Since 1973, when the Supreme Court legalized this dastardly act, fifteen million babies have shed their blood. Let us hope and pray that someday soon we can awaken the hearts and minds of all Americans that killing the fruit of the womb is not the answer to this rather complex and detestable situation. Contact your church leaders, politicians, PTA groups, Pro-life organizations etc., and let them know your feelings. This is the right way, the American way, to change a

law that is literally tearing our dear land apart. No one can take a life that almighty God has created.

*Bernard Kiernan
Fort Lee, NJ*

Admiring war heroes does not glorify war

Dear Editor:

John Neblo was wrong in saying that war veterans do not deserve our admiration. He has made the mistake of equating the admiration for war veterans with the admiration and glorification of war.

War is a very terrible, destructive thing which is to be avoided when possible. It is something which should never be admired or glorified.

But those who are called to fight, called to risk everything that they have worked or hoped for in their lives (as well as their life itself), should be admired - not for killing people, but for facing the horror of war and for doing their duty.

Risking one's life demands something of a person that none of us can imagine. Anyone that can risk his life for his buddies on the battlefield and for the freedom of the people back

home, anyone that has the courage to face the possibility of the end of his life and do the job anyway, that person will receive my respect and admiration. For that person has shown much that is admirable in the human character; sacrifice, courage, determination.

He deserves and will receive my admiration whether he be a soldier, or a cop, or a fireman, or the man who jumps into an icy Potomac River after a plane crash. Admire them for their individual integrity.

It is the glorification of war, not heroism, which propagates war.

Holy Cross Hall*

Notre Dame name is no longer limited to sports

Editor's Note: Because of a production error Keith Picher's letter appeared incorrectly in the Feb. 25 issue of The Observer. It is reprinted here in its proper form.

Dear Editor:

What a relief to know NBC's exploitation of the Notre Dame name is no longer limited to

athletic contests. Appropriately enough, the network is planning to boost its ratings with the biggest of Notre Dame shows, a Sacred Heart "smells and bells" liturgy.

Father Dan Jenky has taken it upon himself to make sure the audience is a "representative congregation." Not representative of the Sacred Heart community, mind you, but of the entire Notre Dame community - including students and administrators who usually stay away from Sacred Heart on Sundays. In fact, some dorms have even cancelled their liturgies to bolster the event. What's next? A 4:30 starting time and lights from MUSCO?

A true cross section of the University would have to include even our fallen brothers and sisters who, in the spirit of Vatican II ecumenism, have been kicked off campus for their crusading. It might even include some of us who don't long for the triumphant church of the 30s and 40s, as Jenky seems to.

I hope most students will treat this Palm Sunday like any other and be sound asleep when the bells ring at Sacred Heart. That is, if Notre Dame really wants to "serve the American church," not spread propaganda.

Accent

ACC

Recreation takes all forms under the domes

Kathy Weber
features staff writer

From the roaring crowd at a big basketball game to the steady thumping of jogger's feet circling the track, Notre Dame's Athletic and Convocation Center has something for everyone.

Throughout the long, cold months of January and February, students frequently complain that, aside from the books, there is nothing to do. As victims of South Bend blizzards, students find themselves confined to campus, enduring the endless routine of classes, studies and dining-hall meals.

While the need for adequate social space on campus magnifies during winter, there are some alternatives. One of the best places to meet people in non-academic atmospheres is the ACC.

Opened in December 1968, this multi-purpose recreational facility offers daily activities for both students and faculty.

The ACC is basically a double-dome structure. The north dome, the Field House, holds the ice rink, the track, three indoor tennis courts, a boxing room and three volleyball courts.

The other dome, the Arena, is the site of the basketball courts, the wrestling room, eight handball courts and four squash courts. Throughout the complex are athletic and administrative offices, the Monogram Room, and various men's, women's and faculty locker rooms.

Outside facilities include 24 tennis courts, a track, and numerous fields for football, soccer, baseball and other sports.

The ACC is always a hubbub of activity. A typical day finds varsity sports teams juggling different practice schedules on the ice, ten-

nis courts, track and weight rooms. For the non-varsity athlete, Non-Varsity Athletics sponsors a wide variety of organized recreational services at the ACC, including racket and handball tournaments, aerobics classes, and swimming tournaments.

For those who want to join the fitness craze but prefer individual activities, the track and second floor concourse are usually available for jogging. With just five laps of the concourse or eight of the track you can say you jogged one mile. If none of this is appealing, a visit to the ACC can still be an enriching experience just by browsing through the display cases. Located on second floor along the concourse are a series of trophy cases and exhibits highlighting Notre Dame football, basketball and other sports.

You can relive the 1977 National Championship, meet Moose Krause, learn about Notre Dame Heisman trophy winners, or the olympians in Notre Dame history. One display even pictures past celebrities who have been guests at the ACC including Ronald Reagan, Bob Hope, Jimmy Carter and Elton John.

As a facility built for multiple uses, the ACC is an enormous complex offering things to do for all interests. On a snowy day, or an uneventful evening take some time and utilize the building - go jogging, bring a date ice skating, or just go exploring.

The hours of the ACC are from 7 a.m. to 1 a.m. on weekdays, 8 a.m. to 11 p.m. on Saturday, and 10 a.m. to 11 p.m. on Sunday, providing ample time for these or any other activities.

The Observer/Phil Deeter

Interhall hockey teams use the rink for practice.

The Observer/Phil Deeter

Mike Harvey goes up for a rebound.

The Observer/Phil Deeter

One of the many trophy cases in the ACC.

ACC Facilities Ice Rink

The ice rink in the north dome of the Acc is open for free skating from noon to 1 p.m. on Mondays, Wednesdays and Fridays. It is also open on Friday and Saturday nights from 7 to 10 and Sunday from 1:30 to 5:30 p.m. The cost for these sessions is \$1 and an additional \$1 for skate rental.

Ice Rink Pro Shop

The shop sells Notre Dame sportswear, hockey and skating equipment. The shop is open Monday through Friday from noon to 9:30 p.m. and Saturday and Sunday from 8 a.m. to 10 p.m.

Track

The track is open daily for jogging but is unavailable during varsity track practices from 3:30 to 6:30 p.m. weekdays.

Aerobics

Aerobics classes are offered to men and women Monday through Thursday. Monday and Wednesday classes are at 4 and 5:10 p.m. Tuesday and Thursday classes are at 4 p.m. Fees are \$4 per half semester or \$6 per semester.

Gyms

The gyms are usually available for informal activities (basketball games) during hours the ACC is open and if no previous events are scheduled.

Handball and squash courts

The handball and squash courts are available during ACC operating hours. For reservations call 239-5267 one day prior to date desired.

Sinners: the problem and reason for the church

Rev. Robert Griffin

Letters to a Lonely God

I wonder where the Catholic church went wrong?
The Church has a long history of popes who have taught nonsense and superstitions as dogmas binding the conscience. What was the original sin of Christianity from which all the other errors flow?
In the beginning, there was Christ, His ministry and death, followed by His resurrection which His followers believed in as an Easter Faith. The Lord promised he would send the Holy Spirit to be a teacher. Apostles and disciples preached a message of God so loving the world that He gave His only-begotten Son, and they called it the Good News of salvation.
Documents were written as gospels and epistles; eventually they were put together to form the New Testament. You can pick up the sound of grumbling in the New Testament writing. Arguments were going on. Perhaps the wrong people won the arguments. Many of the early Christians died for the Savior whom they had never seen. Were they victims of the errors of false teachers? Were the leaders, who claimed authority, making mistakes even then?
By the third and fourth century, Christianity was no longer an un-

derground church. Certain over-bearing people began claiming they owned the bat, the ball, the bases and the entire game. They would make all the rules, in the name of Christ. With the help, they said, of the Holy Spirit, they defined the articles of the creeds, the norms of orthodoxy found in the scripture.
They also informed Christians what the authentic traditions were. Their worst sin was to mix religion with politics. Their second sin was to aggrandize themselves with titles and holy prerogative. I learned all this church history in Protestant Sunday school.
The Sunday school teacher said the loss of original innocence in the church began at the time of Constantine. Preachers, grown fat and feisty with privileges, aped the style of the emperor's court. As popes and bishops, they borrowed manners, morality, and dogmas from the pagans.
The rottenness of Rome seemed clear to me as a child. The footnotes in our family Bible identified the Catholic church as the hore of Babylon. My grandfather made fun of the pope with crude satire. I was raised to feel sorry for Catholics. You couldn't blame them too much for their ignorance. They were kept

by the priest from seeing God's truth.
One of the proofs of the church's divinity, they say, is that it has survived the mistakes of its leaders. A mere secular institution would have been destroyed long ago by its human element. I subscribed to the claims of Rome when it became clear to me that the only original game in town was the Catholic church.
Like elephants lugging Hannibal's army on their backs over the Alps, the Catholic church has carried the truth and grace offered by our Lord through the Walpurgisnacht of history. The Irishman who argued religion with me as a teenager used to ask, "Where would the Protestant churches be if there had never been a Catholic Church to protest against?" He didn't know much then, and I don't know much now, though I recognize that he oversimplified history.
It seems to me that every denomination survives on the church's mainline traditions - including the Catholic Bible, creeds, teaching, and sacraments - as though the denominations depended on the wealth inherited from a matriarch. She may be Babylon's harlot, but she's also the earth mother which has suckled Christianity with her mother's milk.
Imagine how much gloomier the Dark Ages would have been without the Catholic church. Imagine how much more dangerous the world's philosophies would be if

there were no loud, clear voice to reject them as lies and errors.
Authority is most obnoxious when it claims it is always right. St. Paul must have been despised by the Judaizers. Popes in history could make your skin crawl with their arrogance. Authority claiming power from God has a lot to answer for.
Why did it take so many centuries to rid the Christian countries of the curse of slavery? Why didn't the German bishops do more to protect the victims against Hitler? Why do infallible vicars make so many mistakes in the defense of human rights, and become involved as part of the power structure in base political systems? Why isn't the church, at least part of the time, as wonderful as Jesus Christ himself?
It is probably because the human element is at work, screwing up the plans of God. Jesse Jackson said, "I'm not perfect. God hasn't finished with me yet." He hasn't finished with the Catholic church either. He hasn't finished with any of the churches, and He will never be finished until all of us are one, and we fulfill the living idea of the Mystical Body.
But if the church is always wrong, we might as well give up our Bible and our celebration of Easter. If the sex therapists on television are smarter than the Pope, we can give up on the idea of marriage as a sacrament. We can throw out the theology that says birth and death are related to the will of God. We can strip our mythology of any

hope attached to cross or crib of the living symbolism of bread and wine.
As part of the ordained human element, I'm one of the "fat cats," a priest with a vested interest in the pecking order. Types like me have spent 20 years since Vatican II having our status as magicians demythologized. I'm never bothered when scholars prove that any number can play because every Christian is empowered to proclaim bread and wine efficacious as a Eucharist or to declare the forgiveness of sins. When they ordain women I'll be present with the sacramental laying on of hands. But when critics throw brickbats, I would like to see that they have love on their minds. The basic metaphor of the church is that Christ is the Vine, and we are the branches, and love is the grace keeping us all alive.
I'm the servant of a wicked old hippopotamus that leaves ruin in its wake. Inquisitions and crusades are grievous blots, and the popes needed their Luther. Still, it wouldn't be any fun to work for a church I'm always mad at, and constantly hate.
It's the church that the Lord gave us, the mother of churches that honor Christ. The original error may have been God's error when He staffed her with sinners. Sinners, on the other hand, are her reason for existing. That is why it sometimes looks as though the blind were leading the blind.

Movies

•The drama and action will be intense this weekend as the Knights of Columbus present "Apocalypse Now," a film depicting the horror, the madness and the moral dilemma that was Vietnam. **Martin Sheen** is Captain Willard, a Special Forces officer who is sent on a delicate secret mission to kill Colonel Kurtz, played by **Marlon Brando**. Kurtz is an American officer who has set himself up as a "god" among the natives, and is running the war his own way. Showings will be tonight and tomorrow night at 7, 9:45 and 12:15. Admission will be \$1.50.
•Tonight at 7:30 and 9:30 the Friday Night Film Series will present the 1978 film "Heart to Heart" in the Annenbun Auditorium for \$2.50. This is the story of how three sisters in a French petit bourgeois family grew up, centering on the experiences of the serious, inquisitive and mercurial youngest sister. The film is a serious reflection of the decline of the family - and a heartening wonder at its survival.

Ora Jones (right) as Electra

COMING ATTRACTIONS FEATURING THIS WEEKEND

Nazz

•Tonight, Charles Boudreaux and People Who Can Play will perform **Irish, folk and other fun music** from 8:30 to 12. The act will feature John Kennedy and Bob Corrigan of Nazz Music Competition fame. Following this performance will be vocalist Mark Luchini on the guitar.
•Tomorrow night the Nazz will feature John Tyler, guitarist and vocalist, who will perform a variety of songs including **Neil Diamond, The Who, Elton John** and some originals. Tyler will begin his performance at 9 p.m.

Theater

•This weekend will mark the opening of the Notre Dame/Saint Mary's production of "Electra". The Sophocles myth recounts the chilling tragedy of Electra (Ora Jones), a woman compelled to fill an evil destiny. The passage of time and pleas of her sister, Chrysothemis (Susan Dunlap) fail to dim her constant and faithful vigil for the return of a brother, Orestes (Michael O'Keefe), to their native dity of Mycenae.

Performances will be tonight and tomorrow night at 8 in Washington Hall. Tickets, priced at \$3, may be reserved by calling 284-4626 weekdays or 239-5048 on performance nights.

Art

•The display of etchings by Linda Plotkin continue this weekend at Hammes Gallery of Saint Mary's College from 7 p.m. to 9 p.m.
•This weekend will be your final chance to view the exhibit **Autochromes: Color Photography Comes of Age**, a new traveling exhibit organized by the Library of Congress. The exhibit presents some of the earliest color photographic images made. In a nostalgic, almost impressionistic fashion, they capture a world now lost.
•Also this weekend, the exhibit **Glenn Zweygardt: Steel and Stone Sculpture** continues this weekend. Zweygardt teaches sculpture and is department chairman at New York State College of Ceramics at Alfred University. His monumental steel and stone sculpture has been featured in numerous one-man shows, as well as in private and public collections in the States.
Hours at the Snite this weekend are today from 10 a.m. to 4 and tomorrow and Sunday from 1 p.m. to 4.

Music

•On Sunday the Notre Dame University Artists Series will present the **Borealis Wind Quintet** in recital. The New York Times comments on the group - "Each work received lively, expert and musicianly treatment by this skilled and exceptionally talented young chamber group." The recital will begin at 4 p.m. in the Annenberg Auditorium and admission is free.

Dance

•Tonight at Chautauqua, the **Modern Dance Troupe** will present a variety of dance styles including tap, modern, ballet and jazz. The performance will commence at 7 p.m.
•Tomorrow night Chautauqua will host the **Annual Waltz Ball**, sponsored by the Chapel Choir. The theme of this years ball will be "Putting on the Ritz" and semi-formal attire is requested for this special event. All are encouraged to come and enjoy the music provided by the Notre Dame Jazz Band from 9 to 2. Admission to the ball will be \$1.50.

Mass

The celebrants for **Mass** at Sacred Heart Church this weekend will be:
Father Robert Griffin 5:15 p.m. (Saturday night vigil).
Father George Wiskirchen at 9 a.m.
Father James McDonald at 10:30 a.m.
Father David Tyson at 12:15 p.m.

Sports Briefs

The Notre Dame men's swim team placed fourth out of 14 teams in last night's Midwest Independent Invitational at Illinois-Chicago Circle. The order of finish for the top five teams was Illinois State (319), Western Illinois (213), Northern Michigan (181), Notre Dame (177), and Northeast Missouri State (121). - *The Observer*.

The Notre Dame hockey banquet will be held on Tuesday in the Monogram Room at the ACC. Cocktails will be served at 6 p.m. and dinner is at 7 p.m. Tickets are \$10 for Blueline Club members and \$11 for the general public. Tickets are available at the hockey office in the ACC (239-5227). - *The Observer*

Bengal Bouts tickets now are available at the Gate 10 ticket office at the ACC. Tickets are \$3 for ringside and \$2 for general admission to the quarter- and semifinal rounds and \$5 and \$4, respectively, for the finals. Three-day passes also are available at \$5 for adults and \$3 for students. - *The Observer*

Stepan Center will be closed, starting tomorrow until Sunday, March 10, for the Bengal Bouts. - *The Observer*

SMC athletic commissioner applications will be available until Thursday, March 7, at the Saint Mary's student activities office in the Haggard College Center. All student/athletes are eligible. For more information, contact the student activities office. - *The Observer*

3700 NCAA tournament tickets for bleacher seats still remain for the first- and second-round games at the ACC on March 14 and 16. The \$30 tickets, good for all games, are available at the ACC ticket office. - *The Observer*

Bengal Bouts start on Sunday

By **JOE BRUNETTI**
Sports Writer

When the 55th Bengal Bouts commence Sunday night, Ferdie "The Fight Doctor" Pacheco won't be at ringside and "Marvelous" Marvin Hagler won't be lacing up his gloves. Instead of the sight being Las Vegas, it will be Stepan Center, and instead of monsters like Hagler in the ring there will be many first-year boxers. But that is all irrelevant.

The Bengal Bouts, since their inception by Dominic "Nappy" Napolitano 55 years ago, have never meant to be a glamorous event with top-ranked contenders. Although the Bengals were televised on NBC for a few years, that was not really their element. They have always been a charity event meant to serve the Bengal missions in Bangladesh, and the spirit and the enthusiasm that Napolitano started remains ever-present in the boxers.

The action will be exciting as usual, but this year the skill level is much improved, and the fights should be better than ever.

"This year there are a lot more finely-tuned boxers," says Dan Watzke, Boxing Club vice-president. "We're going to see better boxing skills, more combinations, and a lot better conditioning. We've been able to do more ring-work this year."

The 140-pound weight class

features Marshall "The Law" Rogers against Pete Tiernan. Rogers' best friend, Pat McCormick will meet Jim Priola in the other bout. Kevin Dugan and Tom Berens both received first-round byes.

The 145-pound weight class features Ed Kelly as the number-one seed, whom Watzke calls "the treasure of the club and the best-skilled boxer." Kelly receives a first-round bye. Mike Cotter will face last year's champ Tom Lezynski in one bout, while senior Tony "The Polack" Pezka will meet Tom Newell. The last bout pits Ed Bornemann against Bob Harig.

Boxing club president Mike Latz is the favorite at 150 and will not fight in the quarterfinals Sunday. Jim Silver will take on Mike Rogue in the first match, while Notre Dame wrestler Todd Lillie will face Steve Hillsman.

Ed Reilly will square off against newcomer Tom Brennan at 155. The other bout will feature Tim McTigue against Jeff "Wipeout" Anhut, who is known for his dance at basketball games. Pat Gee and Ted Gradel both received byes.

There will be no action in the 160-pound class in the quarterfinals because there are only four fighters. Watzke will face Tom Cummings and Joe Simmons will square off against Ed Gavagan in Wednesday's semi's.

Joe "Tank" McNamara will attempt to defeat Don Antrobus at 165. The other two scheduled fights will feature Denny Coleman versus Chris Reed and Steve Freschi against Matt Langenderfer. Coleman was the runner-up in the novice championships last fall, and if he survives until the finals he may have to face Tom Hardart, who defeated Coleman in that bout.

Newcomer Grant "Gale Force" Gailus will take on Greg Rowe at 175, and Bengals-veteran Dave Packo will fight Jay Lavelle. The other bouts feature Bill Rossiter against Kevin Hamer and Tim Lyons versus Jim Ackerson.

In the heavyweight class, Jim "The Unknown" Vignone will have to beat Brian Keenan to advance to the semi's, and veteran Ken Munro will face Kevin "K.O." O'Shea. Fred Ahlholm will meet sophomore John Uhl and Dave Sassano squares off against John Rademacher in the other bouts.

All three super-heavyweights received first-round byes, but when they do fight it should be a slugfest. Football player Dave Butler will face 253-pound teammate Tom Rehder Wednesday. The winner of the Butler-Rehder matchup will face Pernell "Big Train" Taylor for the championship.

All in all, the action promises to be furious from the start.

IC4A Indoor Championships

ND track team travels to Princeton

By **MIKE SYZMANSKI**
Sports Writer

The Notre Dame men's track team will travel to Princeton with 14 of its members to participate in the IC4A Indoor Championships Saturday. The IC4A is the oldest conference in the country, made up of 116 schools and will provide the Irish with their best competition of the season. The winners of events at this meet usually qualify for the NCAA Championships.

John McNelis will run the 800-meters and Jeff Van Wie will run the 1000-yards, traditionally the two toughest events at the IC4A's, according to Irish Coach Joe Piane, because they run two heats and a final with tough competition. Both runners must get into the finals in order to qualify for the NCAA's.

Van Wie, who has recently recovered from an illness, and McNelis will both try to run from the front during the tactical trials.

All four quarter-milers are rested and are legitimate prospects for the NCAA's, according to Piane. Mitch Van Eyken, who placed last year, will run in the 400-meters, and Robert Nobles and Van Percy will both run to the front in the 500-meters. Dan Shannon, having recovered from an earlier injury, will complete the mile relay team.

Phil Gilmore, who has run only once this year in the 55-meter dash, qualifying with a 6.2 in the first meet of the season, will be ready to compete Saturday. Last year, Gilmore

was the last qualifier in both the trials and the final and went on to place third.

In the field events, Llyod Constable, who has already qualified for the NCAA's, should place at the IC4A's. James Patterson will triple jump and long jump, where he is only five inches away from qualifying for NCAA's. Chris Matteo will represent the Irish in the pole vault.

The all-freshman two-mile relay team of Paul Duvair, Nick Sparks, John Dadamio, and Rick Mulvey, who have run 7:44, can be counted on to give everything they have, according to Piane. With teams such as Villanova, Penn State, Georgetown, and George Mason competing, the Irish will need their best performances in order to place.

Tough competition Saturday

ND wrestlers in Western Regionals

By **JOE BRUNETTI**
Sports Writer

When Fran McCann's Irish wrestling squad step onto the mat this weekend for the NCAA Western Regionals in Des Moines, Iowa, it will be attempting to send someone to the Nationals in Oklahoma City, something the wrestlers on McCann's squad have yet to experience. However, for McCann's wrestlers that goal will not be one easily attained; they compete in one of the toughest regions in the nation.

"This is the toughest competition I've ever seen in this region," says McCann. "It's definitely one of the toughest regions to qualify in. There are five or six real strong teams that are going to dominate."

Notre Dame will have to contend with the likes of LSU, Indiana State, and Tennessee.

The Irish will place much of their hope for a Nationals berth on the shoulders of junior John Krug, who has definitely been the most consistent performer on this year's squad. Unfortunately for the 167-pounder, he has to compete in the toughest weight class which includes three All-Americans and two other wrestlers who have experienced the Nationals.

"Krug has a chance, but he is in

the toughest weight class," notes McCann. "His attitude is real good, but it's difficult. He'll have to upset one of the guys that have made it to Nationals before."

For three of McCann's wrestlers, it could be the last meet of their collegiate careers. Captain Phil Baty, Don Heintzelman, and Guy Locksmith are all facing that reality.

"They're seniors, but it's hard to tell because they have been so inconsistent in the past," says McCann of his three seniors' chance of making Nationals. "Mentally we have had a bad attitude and we have lacked confidence. I hope our attitude has improved and that they have a good frame of mind knowing that they really are good wrestlers."

It was Baty and Heintzelman's performances last weekend against Marquette that has impressed McCann lately.

"Baty and Heintzelman really proved something to me. They beat guys that they lost to earlier in the season," says McCann. "Before the meet against Marquette I tried to get them up by telling them that it was their last dual meet. We're approaching this thing the same way."

One of McCann's biggest problems is not having a member of his team who has experienced the Na-

tionals, and that is definitely a disadvantage.

"They don't know how to approach it and what it takes," explains McCann. "(Assistant Coach John Azevedo) and I have told them what it's like, but it's not the same. You're fighting an uphill battle."

If it is a battle they overcome, they will be heading for Oklahoma City in two weeks.

Belles break three varsity records

INDIANAPOLIS - The Saint Mary's swim team tied for 14th place at the NAIA Nationals last night, and in the process the Belles broke three varsity records in the four events in which they participated.

Freshman Jenny Pancratz was named all-America for her 12th-place finish of 5:29.78 in the 500-yd. freestyle, a time which broke the old record by five seconds, and Megan Rafferty set a new standard in the 50-yd. freestyle with a time of 26.22. The 800-yd. free-relay team of Rafferty, Pancratz, Joyce Murtaugh, and Ellen Byrne gained all-America status for its ninth place finish, and shattered the varsity record by six seconds.

Notre Dame must move on after last night's Butler loss

INDIANAPOLIS - Yes, the Notre Dame basketball team lost to Butler last night. And yes, on paper it seemed that the Irish should have beaten the Bulldogs. But it was not so much a case of Notre Dame losing this game as it was Butler winning it.

Irish fans should understand what last night's game meant to Butler. Playing in the Midwestern City Conference, the Bulldogs obviously do not get a lot of national respect. Nor do they get a lot of television exposure. But they had the latter and the chance for the former last night.

It isn't often that a team will cut down both nets following a regular season win, but that is what the Bulldogs did last night amid the pandemonium that broke loose after the one-point decision.

The Irish must now put this game behind them - and they tried to do just that last night with what was probably one of the quickest exits in Hinkle Fieldhouse history. The Irish have only two days to prepare for Sunday's game with Washington, and that game has become much more important, now. It appears that Notre Dame will have to win two of its next three games to get into the NCAA tournament, which will be no easy task with the Huskies, Dayton and Marquette on the horizon.

Sure, Notre Dame did some things wrong in the

Jeff Blumb

Assistant Sports Editor

game. The Irish had turnovers at some of the most inopportune times and failed to ever really grab a hold on the game.

Another problem last night was a simple case of nervousness in front of hometown fans. For Indianapolis native Scott Hicks, it was not so much of a problem, but teammate Ken Barlow, also from Indianapolis, struggled noticeably throughout the game. He seemed to play tight. Rather than as his usual relaxed self. As a result of his nervousness some of his shots seemed to be forced.

But it would be wrong to get down on Barlow. He is likely to come back Sunday with the type of performance he has had for most of the season and which has made him one of this team's most consistent leaders.

As for the team itself, expect it to come out Sunday twice as fired up as usual. In turn, the students must do their part to come out equally as strong.

Iowa nips Ohio St.

Associated Press

IOWA CITY, Iowa — Iowa center Greg Stokes hit 29 points to break a personal record and help the Hawkeyes break a four-game losing streak with an 87-82 victory over Ohio State last night in Big Ten Conference college basketball.

Stokes became the Iowa's all-time leading scorer in the game, finishing with 1,701 career points. His number also was retired before the game.

The victory gave Iowa Coach George Raveling his 200th career win and raised the Hawkeyes' record to 20-8 overall and 9-6 in the Big Ten.

Huskies

continued from page 16

ppg., and Welp is counted on for 13.4 points per game.

The guards for the Huskies are a pair of 6-3 players, junior Shag Williams and sophomore Clay Damon. The two have combined for an average of 14 points per game this season.

Notre Dame's guards should be able to handle the Huskies' backcourt, so the game probably will be decided by the play of the Irish front line.

Notre Dame and Washington have played three common opponents this season. The Huskies lost to Brigham Young, 84-75, and Duke, 71-59, and they split with PAC-10 opponent UCLA. Washington lost, 63-51, at Pauley Pavilion in January but came back to beat the Bruins, 67-61, at home in February.

The Irish beat UCLA, 53-52, at Pauley Pavilion in early February and downed BYU, 67-58, in the ACC last week. Notre Dame lost to the Duke Blue Devils, 81-69, in the Meadowlands Arena.

The game will be important for Notre Dame, which Phelps has predicted will need 20 wins to make the NCAA tournament.

Washington also will have some motivation in Sunday's contest, which is only two games away from retiring Head Coach Marv Harshman's final regular-season game.

"It's Marv's last year," Phelps points out. "I'm sure that will start to be an emotional situation for the players as they get toward the end of the season."

The opportunity to prove themselves worthy of the NCAA tournament creates an emotional situation for the Irish, too. So if the battle of the boards goes to the Huskies, Notre Dame might be motivated by that season-long goal.

Freshman point guard Mary Gavin has been a key factor in the recent success of the Notre Dame women's basketball team. Gavin, who is just three assists away from a single-season team record of 103, has helped the Irish up their season record to 17-8 with her floor leadership. Larry Burke has a feature on the Irish star at right.

Freshman point guard

Gavin adds spark to women's team

By LARRY BURKE
Sports Writer

Success has been no stranger to the Notre Dame women's basketball team lately. The Irish have won 12 of their last 14 games, and over that span they have established themselves as the team to beat in the North Star Conference. While the credit for the team's recent success has gone mostly to the big scorers like Trena Keys, Mary Beth Schueth, and Sandy Botham, a major reason for the team's current surge has been the play of its smallest member, 5-6 freshman point guard Mary Gavin.

A look at the assist column of an Irish stat sheet, where Gavin's total of 100 is just three assists away from a single-season team record, doesn't tell the whole story of Gavin's contribution to this team. Her confidence and sure-handedness on the court have helped the Irish cut down on backcourt turnovers, beat opposing presses, and cash in on plenty of scoring opportunities. It is no coincidence that over the past two months, as Gavin has started to come into her own, the Irish have raised their record from 5-6 to 17-8.

The preseason, however, didn't hold any indications of success for Gavin. Great things were expected all along from the North Wildwood, N.J., native, but a severe knee injury suffered in a Junior Olympic game in April kept her from playing basketball for six months. When the Irish closed out their preseason in late November, Gavin, one of USA Today's top 25 prep players as a high school senior, was on the sidelines in streetclothes still recovering from arthroscopic surgery performed the month before.

"What really set Mary back was

missing the whole preseason after the surgery," explains Irish Coach Mary DiStanislao. "She only started practicing with us the week of our opening game against Tennessee, and the 16 minutes that she played in that game were a lot more than I expected her to play. So Mary really used our first 12 games as her preseason - the other players had a month before the season to get into playing shape - a month that Mary didn't have."

While Gavin spent the early part of the season trying to get into shape, she also had to get used to a bulky knee brace that reduced her speed and mobility. She didn't get her first starting assignment until the eighth game of the season against Michigan State, when she responded with seven points and six assists in 31 minutes of a 71-59 Irish victory.

"The early part of the season was frustrating," says Gavin, "because I wanted to be able to play and help the team. But it was just a matter of getting used to the brace, which was really difficult at first - it slows me down. I really have to work on my quickness because I'm definitely a step, maybe even two, behind what I was before."

The knee brace was not the only big adjustment that Gavin had to make when she began to play regularly. After averaging 22 points per game in high school, Gavin had to get used to the role of a passer, the type of player who seldom sees her name in the headlines as leading scorer. But it was an adjustment that didn't really bother her.

"The sort of game that I like to play is the way I'm playing right now," she says. "I like to pass the ball, and that's my role here. In high school there was no one else who could really shoot the ball all the time, so I had to do a lot of the shoot-

ing. But here you've got a lot of talented players, like Trena and Sandy, and you know that when you give the ball to them, they're probably going to put it in."

DiStanislao is the first to admit that Gavin's passing skills have increased the offensive production of her teammates. But it was some timely scoring by Gavin herself that boosted the Irish to a 64-63 victory over Loyola Tuesday night. Gavin scored two important baskets late in the game, both on driving jumpers, the second of which put Notre Dame ahead to stay, 63-61. And if that wasn't enough, Gavin sealed the victory by coming up with a timely steal that killed a Rambler rally.

"One of the good things about Mary is that she is the type of player that can neutralize a player like (Loyola's) Faith Minnaugh, who up until this point has been the premier point guard in the conference. Mary's a leader - she wants to win. She's the kind of kid that, when the chips are down, I'll bet on her to come through. She very seldom makes the same mistake twice. I've always had a lot of confidence in her, and she hasn't given me much reason to feel otherwise."

"Mary makes things happen on the court. She's a point guard in the way that I think a point guard should be. She's a good ballhandler who makes very few dribbling mistakes. It means a lot to this team to have a player who can handle the ball so well. She's also a very good passer, and as she gets more confidence playing with her teammates, she's going to become an even better passer because they'll become better catchers."

With Gavin running the offense, the Irish could soon find themselves catching a post-season tournament berth.

Upset

continued from page 16

low came back with another layup with two seconds remaining to make it 70-69. But when the Bulldogs threw the inbounds pass long down court after an Irish timeout and Donald Royal touched it, the ball bounced twice before going out

of bounds, and the two seconds quickly evaporated as the Bulldogs fans streamed onto the court and cut down the nets.

But it was not just the bounces and bad breaks that did the Irish in last night. Throughout the second half and the overtime, the Bulldogs played as confidently against the Irish as they had played scared against them in the first half.

"For the first 21 minutes, we were in awe of Notre Dame," said Butler coach Joe Sexson. "We were nervous, and we showed it. We played scared in the first half."

But when the buzzer sounded before the second half, the Bulldogs came out as a different team. Butler quickly rallied from a 35-27 deficit to take a 38-37 lead on a 13-foot jumper by Gallahar with 14:48 to play.

The Bulldogs came out in a zone, which hurt the Irish offensively.

"My assistants talked me into a zone, although we often play a little lethargic when we are in the zone," said Sexson. "But I was pleased tonight. We were very aggressive."

Throughout the first five minutes, the only offense the Irish could generate was a five-foot jumper by Hicks. Turnovers and poor shot selections killed the Irish during this period, allowing the Bulldogs into the game, and bringing the Fieldhouse crowd to a roar.

"We had poor shot selection all game," said Phelps. "And we committed too many turnovers when we had the lead. That's been a problem for us in a lot of games."

Irish forward Royal, who had scored 13 points in the first half on five-of-five 5-5 shooting from the field and three-of-four from the line, quickly became invisible in the second half. With him went the Irish inside game, and many of Notre Dame's points had to come from the inside in the second half.

Rivers did all he could in this respect, leading the Irish with 21 points, but the Irish could only shoot 35 percent as a team in the second half.

Butler, on the other hand, suddenly got hot from the outside, as Fitzgerald bombed away to keep the Bulldogs even.

And once the Bulldogs did pull even, there was no shaking them off. The crowd filled the ancient, brick Fieldhouse with noise, and the Irish seemed to become more and more tentative as the time ticked off the clock.

Irish fencers will face Wayne State challenge in Great Lakes Tourney

By MICHAEL J. CHMIEL
Sports Writer

Tomorrow, Notre Dame will host the Great Lakes Championships in fencing as the Irish will try to overcome a Wayne State challenge for the third time this year enroute to a shot at the national title.

The tournament, which will involve over 100 fencers from twelve different schools, will decide which team is the best in the Midwest outside of the Big Ten. At stake, also, are three individual berths in the NCAA tournament to be hosted by Notre Dame over spring break.

Competing tomorrow at the ACC fieldhouse will be Chicago, Cleveland State, Detroit, Oberlin, Lawrence, Case Western Reserve, Oklahoma City, Tri-State, Miami (Ohio), Michigan-Dearborn, defending national champion Wayne State, and defending Great Lakes Champion Notre Dame.

"I'm hoping that our men, who have done it twice this year, will do it again," says Irish Head Coach Mike DeCicco. "The team to beat at the Great Lakes is Wayne State."

On February 1, the Irish beat the Tartans in Wayne, Mich., by a score of 15-12. Last weekend, the Tartans challenged the Irish at the ACC and fell short again with Notre Dame prevailing 16-11. Tomorrow's tournament, round-robin in nature, will basically boil down to a Notre Dame-Wayne State showdown for the third time this season.

After last weekend's loss to the Irish, Wayne State Head Coach Gil Pezza gave this weekend's edge to the Irish.

"The Great Lakes will reflect the team that has the more strength and depth," said Pezza. "Last year, the Notre Dame men's team took the Great Lakes, and I, quite objectively, think that they have an excellent chance to confirm the Great Lakes Championship because of their depth."

Beginning at 9 a.m., each team will be entering a maximum number of three fencers in each weapon in a day-long competition. In the end, a champion in each weapon will emerge and be dealt an automatic bid in the NCAA tourney. The next eleven fencers in each weapon will move onto Northwestern on Sunday. There, they will be competing with five Big Ten fencers in each weapon for six spots in the NCAA tourney in the epee, five in the foil, and four in the sabre.

In the foil, the Irish will enter a strong lineup that out-did the Tartans last week by a 6-3 margin losing all three to junior Stephan Chauvel. The junior went 3-0 last weekend after going 1-2 against the Irish earlier in the year.

Leading the way for the Irish will be junior captain Mike VanderVelden. The junior foillist at 35-7 in 1985 is 101-35 lifetime. Second for the Irish will be sophomore Charles Higgs-Coulthard. At 33-2 this year, Higgs-Coulthard is the defending national champion in the foil. Adding strength from the third spot is the oncoming Craig Funai. After a one year layoff, the junior has sparked the Irish foillists with a strong 21-11 record.

"I'm looking for the Great Lakes foil championship to be decided among Mike VanderVelden, Charles Higgs-Coulthard, and Stephan Chauvel," says DeCicco. "Those are the three class kids of the bunch."

Other fencers who are expected to be tough and provide an ample challenge will be Wayne State's Peter Dinsdale and Oklahoma City's Sean Cockerham. Both are considered as "very, very strong fencers" by DeCicco.

In the epee, senior Ettore Bianchi of Wayne State might be expected to be the favorite. Bianchi finished the 1985 season without losing a bout and is the defending national champion in the weapon.

Looking to dethrone the native Italian will be Notre Dame senior captain Andy Quaroni. Quaroni at 35-6 on the year, finished his career at Notre Dame with an impressive 133-23 mark. Coming from the number-two spot for the Irish will be junior Christian Scherpe. Scherpe a transfer from Cal-State Northridge went 34-8 for the Irish this year. Rounding out the lineup is Nike Gostigian. The junior, after a year's absence, went 16-6 for the Irish in the season.

"In the epee, it'll be our three guys, Ettore Bianchi, and Michael Giuletti (of Wyane State)," says DeCicco. "Ettore Bianchi is probably a step ahead based on his being a returning national champion, undefeated against us in two dual meets, a strong competitor, and the fact that he wants to go out as a national champion."

In the wireless sabre division, the Irish come at the competition with the best in the business. Leading the way is Notre Dame's third most winningest fencer - Mike Janis. The junior at 42-3 this season went 15-7 in four years for the Irish. Juniors Don Johnson and John Edwards bolster the attack from the other two spots. This season, Johnson went 28-7 while Edwards chalked up a 25-5 record.

"In the sabre, it's going to be Giovanni Girotto, our three guys, and Tom Linsford from Tri-State," says DeCicco.

Girotto for Wayne State, went undefeated against the Irish for the year.

While the individual is keyed upon in this event, the overall team effort is equally important as the 23-0 Irish try to continue their domination of the 1984 national champions. DeCicco believes that the Irish are very capable.

"The key to winning the Great Lakes and beating Wyane State is to do exactly what we did last weekend - have all nine men make their own particular contribution," says DeCicco. "If everyone fences up to their potential, our overall balance might overtake Wayne State."

The Notre Dame women's team will also partake in this tournament after going 12-7 on the season.

The Irish will compete against

Cleveland State, Detroit, Lawrence, Case Western Reserve, Tri-State, and Wayne State.

As in the men's action, the women's tourney will be dominated by the Irish and the Tartans. Wayne State leads the overall series by a 14-1 margin. This year, the Tartans have beaten the Irish by scores of 13-3 and 11-5.

"As far as I see it, it's a dog race between Notre Dame and Wayne State," says DeCicco. Last year, the Tartans won the season ending event and went on to finish eleventh in the NCAA tournament.

Once again the performances on the part of the individual fencers will be the key to the event. The champion will be given a berth in the NCAA's. The rest of the women, along with others from across the Midwest, will move onto Northwestern where they will compete both as a team and individually for three four-member team spots and five individual spots at the national championship event.

"There are three people that are going to be competing for the Great Lakes Championship: Molly Sullivan, Kathy Watson, and Laura Galassi," says DeCicco. "I'm hoping that Molly has a hot hand as she did last weekend so that she doesn't have to fence the next day in the individual round."

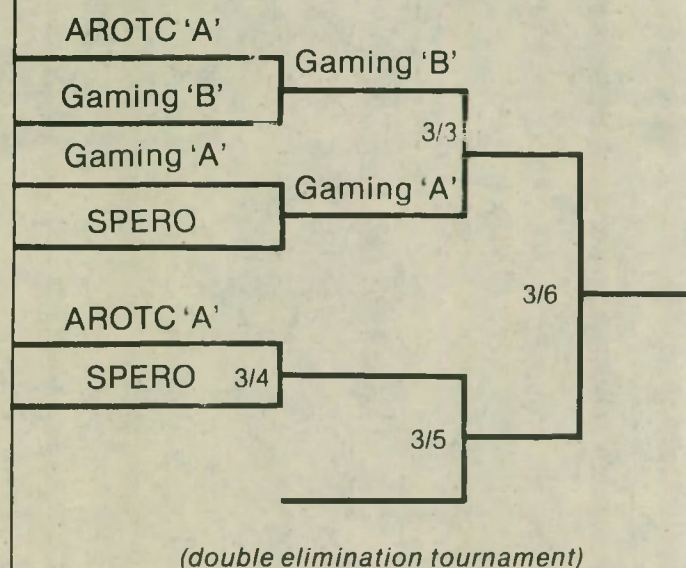

Throughout the season, Sullivan has proved to be the backbone of the Notre Dame squad. In her freshman year, Sullivan has compiled a 43-4 record and is 7-1 against the Tartans.

Going from the number two and three spots on both days will be sophomores Vittoria Quaroni and Cindy Weeks. Quaroni went 34-21 on the season while Weeks compiled a 34-24 mark.

The fourth spot for the Irish is yet to be decided. In the running for the position is junior captain Janet Sullivan and sophomore Christina Sardegna. Sullivan, who has started the entire season, posted a disappointing 29-30 record for the year while Sardegna came on in the end to go 13-7.

"Janet Sullivan is not fencing very tough, and it would really shatter me to see the girls miss qualifying because we lost by a touch," says DeCicco.

Irish falter in second half, lose in OT to Bulldogs

David Rivers scored a game-high 21 points last night, but it wasn't enough, as the Irish were upset by Butler in Indianapolis, 70-69, in overtime. Notre Dame's record dropped to 17-8 with the loss, and the Irish will face Washington Sunday.

By ERIC SCHEUERMANN
Sports Writer

INDIANAPOLIS - The upset came by the slimmest of margins - one point in overtime, by a score of 70-69. And the one point that may have been most typical of Butler's victory over Notre Dame last night was Bulldog guard Tony Gallaher's free-throw with 3:06 to play in regulation to tie the game at 54.

The ball bounced six times on the rim before settling quietly into the net, symbolic of the bounces that went to the Bulldogs all night.

From that point on, the Bulldogs would never fall behind by more than two points. A 17-foot shot by David Rivers put the Irish ahead 56-54, but a foul by Scott Hicks gave two free throws to 5-9 Darrin Fitzgerald, who hurt the Irish with

long bombs all night. He converted both to tie the score at 56.

Rivers made two clutch foul shots with 27 seconds to play after being fouled on a drive. But another Hicks foul sent guard Mike Burt, a 96-percent free-throw shooter, to the line. Burt, who led the Bulldogs with 20 points, canned both to tie the game at 58 with 23 seconds left. Rivers could not get the ball to drop on a last-second bank shot, and the Hinkle Fieldhouse crowd of 13,222 went crazy as the game entered overtime.

"Butler just played very, very hard to win," said Irish head coach Digger Phelps. "We just didn't command any respect, and it was a negative when we had to play catch-up."

A Chad Tucker layup gave the Bulldogs a 60-58 lead with only 13 seconds gone in overtime. The game shifted back and forth from then on,

with the Bulldogs getting all but two of their 10 points from the foul line. After Rivers tied the game at 65 with two foul shots, Burt converted two from the charity stripe with 1:50 left to give Butler the lead for good.

When Hicks was called for his fifth foul, a call where one referee had signaled jump ball beforehand, Butler center Tim Hasely gave the Bulldogs the three-point lead with one free throw.

Ken Barlow, whose shooting was of most of the night in front of his hometown fans of Indianapolis, scored on a baseline drive to cut the lead to one point with 53 seconds left.

But the irrepressible Burt made two more free throws with seven seconds left, after the Irish had failed to score on a Butler turnover. Bar-

Irish need to rebound

Huskies come to town on Sunday

By PHIL WOLF
Assistant Sports Editor

At this time of year, one can get tired of hearing how significant every game is to an independent basketball team striving for a bid to the NCAA tournament. When the Washington Huskies visit the ACC this weekend, however, talk of Notre Dame's tournament hopes is sure to arise.

The Irish, who suffered an upset loss in overtime last night at Butler, 70-69, will be looking for their 18th win on Sunday afternoon. The game, Notre Dame's third-from-last of the regular season, is scheduled to tip-off at noon.

The matchup will be televised nationally by CBS-TV, with Gary Bender and Billy Packer describing the action.

Washington had a 19-8 record going into its game last night against Arizona, and the Huskies are third in the PAC-10 with a 10-5 mark.

Sunday's game will be only the second meeting between these two teams. Last season, the Huskies escaped with a 63-61 double-overtime victory over the Irish in the Seattle Kingdom. Neither team ever led by more than seven points in that contest, and Washington star Detlef Schrempf was held to only six points. Poor free-throw shooting and missed field goals by Notre Dame down the stretch allowed the Huskies to emerge from the game victorious.

This year, the game could well be decided by rebounding, according to Notre Dame coach Digger Phelps.

"This game will be decided on the boards," Phelps said. "We've ranked among the national leaders in rebounding all season, but this

might be the biggest test we've had. They outrebounded us by 12 out there last year."

The Irish are ranked third in the country with an 8.3 rebounding margin, but they can expect some stiff competition from Washington's big front line. The Huskies are expected to start 7-0 sophomore Chris Welp at center, flanked by the 6-10 Schrempf and 6-9 junior Paul Fortier.

Schrempf, a senior from West Germany, leads the Huskies in rebounding with a 7.9 rebounds-per-game average. Welp has averaged 6.8 rpg., and Fortier contributes an average of 6.4 boards per outing.

The big men also are the point-scorers for Washington. Schrempf has set the scoring pace with his 16-point average, Fortier averages 13.7

Keys leads scoring parade as Irish women get 10th North Star victory

By MIKE SULLIVAN
Sports Editor

There was no overtime last night in the ACC when the Butler women's basketball team attempted to slow down Notre Dame's drive toward the North Star Conference title and a possible NCAA Tournament bid.

In fact, the closest the Lady Bulldogs came to pulling off the upset was when the official tossed the ball up in the air to start the game. After that it was all downhill for the NSC's last-place team as the Irish broke a number of team and personal records on the way to a 99-36 demolition.

The 63-point margin of victory tied the school record that was set in 1981 when the Irish beat Saint Mary's, 92-29, while the team's .638 shooting percentage was just .006 short of another school mark. Meanwhile, Butler was setting an unofficial record for ineptitude by shooting at a blistering 15 percent.

The win improved Notre Dame's record to 10-1 in the conference (17-8 overall) and was the team's 12th victory of the last 14 games. The hot streak has put the Irish, who were once 5-6 early in January, in contention for a bid to the 32-team NCAA Tournament or the eight-team Women's NIT. With three games remaining - Evansville on Sunday, Dayton on Wednesday, and Xavier next Saturday - Mary DiStanislao's squad is looking for its second 20-win season in the last three years.

As the score indicates, the Irish had no problem setting themselves up for Sunday's important Evansville game. Trena Keys won the opening tip and then scored a rebound basket 15 seconds later to put Notre Dame ahead for good.

Things got ugly from there as the lead stretched to 20 in less than 10 minutes and reached 31 points before the Bulldogs pulled to within 30, 48-18, at the half. Butler did have a brief spurt early in the second half as it climbed to within 28 at 60-32, but the Irish countered by outscoring their visitors, 39-4, over the final 12:56.

The 99-point explosion was Notre Dame's second-highest total this season and second-best in team history, trailing only the 107 scored against Xavier three weeks ago. Six Notre Dame players hit double figures, led by Keys who finished with 17, as the Irish bench saw plenty of action.

Notre Dame did have a high number (26) of turnovers, but, otherwise, the performance was impressive as the team tied another school record with its 26 assists and had a season-high 13 blocks, 15 steals and 55 rebounds. The 36 points scored by Butler was also a season-best for the Irish defense.

"I was very happy with the productivity of most of the people," said DiStanislao. "In the past few games, we haven't been able to go to the bench much, but we know we need a strong bench, especially if we go to the NCAAAs."

"We went over the game plan from the last time we played them (a 79-40 Irish win) and saw that (Butler's leading scorer) Sue Morris had 22 points. We wanted to shut her down better - something we did tonight."

While Morris, who had been averaging almost 19 points a game, struggled to score nine points, the Irish bench led by senior Ruth Kaiser showed DiStanislao that it can be counted on. Kaiser scored nine points, dished off seven assists, pulled down six rebounds, and made five steals in 22 minutes, while Denise Basford, Beth Morrison and Laura Dougherty all came off the bench to score in double figures.

The Irish will have to continue their good play this weekend when they visit Evansville. Although the Aces dropped a 74-53 decision in the ACC early in February, they have begun playing their best basketball of the year. Bill Barnett's team has won six of its last 11 games after losing its first 12, including a 73-70 upset of defending North Star champion Loyola. Miami (Fla.), once ranked in the Top 20, nearly found out the hard way that Evansville is tough at home as the Hurricanes had to come from behind to beat the Aces.

"We've got to play a good game to beat Evansville," says DiStanislao. "We have to play to our power which is our inside game, but they play a good 2-3 zone which makes it difficult to get the ball inside. We just have to be intelligent in attacking it."

Trena Keys led a balanced Irish scoring attack last night, as the Notre Dame women's basketball team routed North Star conference-rival Butler, 99-36, in the ACC. Mike Sullivan has the game story at left.
