Group sues South Bend to 'CEASE' ethanol odor

By TRIPP BALTZ Staff Reporter

A citizen-backed environmental group has decided to sue the city of South Bend in an effort to rid the community of problems brought about by the local ethanol plant.

At a forum held last night at a local church by CEASE (the Committee of Environmentalists Against the Stench of Ethanol), committee chairman John Roberts announced the decision to take legal action against the city administration. He made an appeal to concerned citizens to help finance the undertaking

Roberts emphasized that the period of time for the statute of limitations is ending, after which no court action can be filed against the plant. The citizens are now making an attempt to file a suit before the deadline of October 1 arrives.

"Our actual purpose isn't to close the plant, but to eliminate the odor," said Roberts. He said Mayor Roger Parent had not acted on 10,000 petitions Roberts had submitted to him written by citizens asking for something to be done about the smell.

"He politely accepted them, but chose to ignore them. I don't call that responsive. I don't see how you can call that responsive," Roberts told the small group of 45-50.

Parent was out of town yesterday, and no representative of the administration was present at the forum.

"I'm surprised no one's here to listen to our concerns," Roberts told the group. CEASE asked a representative from New Energy, the company that owns the plant, to attend the meeting, but none was sent

Having spoken with Parent, Rogers presented the mayor's ideas on the problem to the audience at the forum. The mayor wants money from New Energy, the Department of Energy, or the citizens of South Bend to pay for the system that will eliminate the stench that reaches towns 30 miles from the plant site,

Reagan takes tough stance on 'Star Wars,' but leaves open possibility for negotiation

Associated Press

WASHINGTON President Reagan said last night he would rule out any summit agreement with the Soviet Union that would block testing and development of his controversial "Star Wars" space-based missile system.

But the president, answering questions at his first formal news conference in three months, indicated he might be willing to negotiate with Soviet leader Mikhail Gorbachev over the deployment of the controversial system

With the Reagan-Gorbachev summit set for Nov. 19-20 in Geneva. the president also defended the recent test of an American anti-satellite weapon. He said the Soviets have tested such a system, and added, "We couldn't stand by and allow them to have a monopoly on the ability to shoot down satellites."

Reagan said he was taking his prospective summit meeting seriously, but added he doesn't plan on giving the Soviet leader "a friendship ring or anything."

"It isn't necessary that we love or even like each other," he said, but that it is important for the two superpowers to negotiate.

Reagan opened his news conference with a call for "free and fair trade for all," and cautioned that a "mindless stampede toward protectionism will be a one-way trip toward economic disaster."

With numerous bills pending in Congress to slap restrictions on American trading partners, the president said free trade can lead to a "decade of growth" and creation of 10 million new jobs in this country.

Reagan said imposing restrictions against this country's trading near the middle" if some critics say partners could produce counter- he should do more while others say measures against American industry and agriculture.

SMC freshmen elect council today

By JACQUIE A. BRUMMEL News Staff

Unless you've been stashed away in your room for the past five days, you couldn't help but step on or run into some slogan or poster concerning freshmen elections at Saint Mary's

The election will be held today at the Haggar College Center from 8 a.m. until 6 p.m.

When Saint Mary's freshmen vote, they will choose 13 candidates out of 35.

The 13 top vote getters will be placed in specific positions on the council in approximately three weeks.

The theme of the election ,"The elected," she said, "it was a great ex-Carnival of Candidates," is signified by three balloons

Saint Mary's senior Mary Lally is the elections commissioner, who organizes all student council and hall elections for each grade level. Her job began last spring and will continue through this spring.

Mary feels that this freshmen class has more enthusiasm than previous classes, because it has many more bright, interesting ideas than previous classes.

Candidate Kelly Glavin, of Rochester, New York, said, "I am extremely excited to represent our class and bring new ideas to our Saint Mary's community. If I am not perience to meet all the candidates and the multitude of people that I have.

"This is really something that I want though, not just a celebrity kick."

Fellow candidate Brigid Brennan said, "If I am elected on Freshmen council, I will bring many new ideas because I want to do a lot for this class.

Mary Lally said the voter turn-out should be above average considering the number of candidates.

Winning candidates will be posted this evening in the Haggar College Center.

In Brief

The campus anti-apartheid movement is heating up again. Stanford Out of South Africa members, who were blocked from sitting in at the Stanford University president's office earlier this summer, met recently with the president to discuss Stanford's divestment policy. A Penn State University Board of Trustees member was arrested while protesting at the South African Embassy in Washington, D.C. The University of Arizona's Students Against Apartheid joined a protest outside the Federal Building in Tucson. University of Texas students and Austin residents marched outside a recent Board of Regents meeting. Protesters from the University of Minnesota say the school's Board of Regents violated the state's open meetings law by barring them from a recent meeting and using campus police to keep them out. - *The Observer*

"The New Entrepreneurs: Today's Unique Opportunities and Challenges," is the topic of a lecture by Paula Nelson, author of many bestselling books on the acquisition of wealth, including "The Joy of Money." The lecture will be today at 3:30 p.m. in the Hayes-Healy Auditorium. Her lecture is sponsored by the College of Business Administration's Executive M.B.A program. - *The Observer*

Law is for those who like it

The law: It has bonored us; may we bonor it. -- Daniel Webster, 1847.

Law school. What about it?

A lot of senior arts and letters majors begin to get nervous around this time during the semester. They see their friends who have been studying engineering and business put on their best clothes and head out to interviews.

They see their friends trekking to Michiana Regional and flying off on plant trips and coming back with job offers paying \$20,000-plus. They freak out.

Then they sit down and type out an application to law school.

For many students of history, philosphy or English, law school seems to be the natural progession of their studies. A lot of the time, these students decide to study these subjects in order to develop a good background for law school. And that's terrific.

But too many of these people don't know what they want to do, and because they see their friends entering the real world with great jobs and the prospect of making a lot of money, they see law school as a quick ,viable way to cash in on their studies.

That's not so terrific. In MARK WEIMHOLT fact, it's disturbing.

You can't blame these people, however. Senior year of college is a confusing time in life. Seniors are making decisions that will influence the way they will live. Lifetimes are being planned.

The attraction is obvious. To have money, to work in an honorable profession -- to be a Yuppie -- seems to be the national ideal for many young people today.

Unfortunately, it doesn't always work that way

Right now, the law field is flooded. Because there are so many attorneys, the courts are overcrowded with litigation. Lawsuits that previously would never have been pursued are being picked up by these extra lawyers.

Even good lawyers are having a hard time. And all because some confused young people succumbed to peer pressure, gave in to monetary pressure and bought the American dream of a good job and financial security.

If people who aren't really interested in law enter law school, pass the bar, go into practice, become highly successful and make a lot of money, then there is something wrong with the system.

The people who enter law school because they are interested in making money become confronted with reality soon enough. Law is not a field for the moneyoriented.

Law is more like the priesthood. It's a calling. Good lawyers are gifted with talent and a sincere desire to work with the law. Law has never been based on money. It has always been based on people. If a person can't realize this, that person should never go into law.

"To be successful in law, you have to have a love for the law. You have to have an appreciation for what you are doing. And you have to want to help people," a young lawyer told me recently.

"Too many people are going into law because it's the next logical step. These

same people are finding that it doesn't work that way," he said.

So what do arts and letters people do?

The trick to being successful is finding out what you enjoy. If a person loves the law, if he or she has an appreciation for its nuances and application, if seeing justice prevail is what a person lives for, then that is the person that belongs in the courtroom.

But if a student sees young lawyers on Michelob Light commercials wearing \$700 suits, if a person's definition of a lawyer is someone who makes \$200 an hour, if a person equates a lawyer with the guy down the block who has a new Cadillac every year, then that person is confused and should re-evaluate his or her concepts of the legal profession.

There is a place in society for everybody. All a person has to do is to recognize his or her talents, and then apply them to what a person truly enjoys.

Weather

Remember summer? No "fall-

ing" temperatures this week. Partly sunny and warm today, high in the lower 80s. Clear tonight, low in the lower 60s. Sunny and continued warm tomorrow, high in the mid 80s. -*AP*

## **Around the Corner Club strives** to provide things to do each week

#### **By ALEX PELTZER** Staff Reporter

Answering that familiar question of what to do on a Saturday night should be easier this semester. At least that is what Director of Student Activities Joni Neal expects from the Around the Corner Club, Notre Dame's newest undergraduate club.

The Around the Corner Club is a group of students made up primarily of representatives from various student groups, including the Hall Presidents' Council, the Student Activities Board and each of the class governments.

The club tries to plan and organize campus wide events for each weekend, Neal said.

"Our main goal is to provide consistent programs for the entire student body," she said

Currently, the club is planning 'Hoosier Hysteria," a weekend of events designed like a mini An Tostal with an Indiana theme. The idea, according to Neal, is to project a better image of the state in which Notre Dame students spend four years of Neal. "We would like the students to their lives.

The event will consist of Hoosier Sport Night on Sept. 27 and a dance and Mr. and Mrs. Hoosier contest the next night.

The sport night will be a combination of contests between dorm teams. Free throw shooting, horseshoe throwing, hog calling, and watermelon pitching contests are scheduled.

In the future, the club will sponsor a concert by jazz guitarist Alex DeGrassi, Honeymooners Night at Alumni-Senior club, and a performance by illusionist Bob Garner.

Neal said the club formed because of last year's alcohol policy. She said the Board of Trustees is providing funding this year for campus-wide non-alcoholic programs.

sponsored activities this year, in- student groups on campus. cluding the beach party and the musical chairs game.

steady source of programs," said office in LaFortune.

ask 'what does the Around the Corner Club have planned for tonight?

Neal stressed the need for student involvement, both through planning and attending the events. Past events have been successful in both areas, but Neal said students are invited to help organize individual events and plan future ones.

'We are trying to organize events that appeal to a wide range of student interests," Neal said. "We don't want to plan the same type of thing every weekend."

The group is organized through the Student Activities office and Joni Neal and Ceil Paulsen serve as coadvisors.

There are no officers in the club and it is mainly a volunteer organization. The idea, according to Neal, is The club has already co- to pool the resources of the various

events, but the group is facing some obstacles because of the campus alcohol policy.

happy hour was The first scheduled for this weekend in Lewis Hall; however, stipulations on serving alcohol in hall party rooms have caused a postponement.

Mimi Soule, Lewis Hall president, said the prime problem is that a guest list is required to hold an event, but they do not want to keep the party that formal.

Soule said they want to be able to gather together to show movies and to socialize. Crandall said the group is hoping to have a cluster of dorms sponsor each event.

Trustee ad hoc committee set up to Univeristy study investment practices

Baccanarı said the ad hoc committee, of which he and two other students are a part, was partly formed because of Notre Dame student concern about apartheid.

The committee made recommendations to the Board of Trustees about possible changes in the current investment policy. Baccanari added that the specifics of the proposal will not be made until October when the Board of Trustees will meet.

The Anti-Apartheid Network will continue to sponsor speakers, and HPC Secretary Gretchen Froehlke movies, and distribute literature, ac-

## A parent's nightmare: the SMC panty raid

### Dave Dvorak features writer

The freshman's mother walked down the dorm hallway towards me, looking concerned. With Notre Dame's freshman orientation weekend coming to a close, she had just said goodbye to her only son. As she approached, I could tell something was really bothering her.

"Are you an upperclassman?" she asked me.

Yes, ma'am. I'm a senior. Can I help you with something?

"Yes. It's about my son Steven he's a freshman."

Don't be concerned, ma'am. It's a temporary condition.

"No, there is something that's really troubling me. I'm worried about my boy."

Let me guess - you don't like his roommate.

"No, that's not it. We've met the roommate, as well as his family. I'm sure he must be a fine boy. After all, he has very nice parents."

So did Al Capone. But what's the problem, ma'am?

"Well, I've just heard about an ... an unspeakable activity that takes place here every year, and I don't at all like the sound of it."

If you're talking about Mexican night at the dining hall, I can tell you right now that it's really not that bad. I've survived three of them, though each time my roommates have made me sleep in the hallway.

"No, that's not what I mean. It's something much more serious. They call it ... I'm not even sure if I should say this out loud ... they call it ... the 'panty raid.' "

Why, of course! The Wednesday night before the first home football game... That magical evening when panties fall from the windows of Saint Mary's dorms like autumn leaves from trees - and in a wider variety of colors. What a wonderful Notre Dame tradition! "Wonderful? You can't be serious. This is the most appalling thing I've ever heard of! I absolutely will not have my Steven taking part in this... this pagan event. I've already told the rector."

And what did the rector say? "He said there's not much he can do."

That's right, ma'am. There isn't much that anybody can do. The panty raid is governed by a powerful, inexplicable force that operates only once a year. Like a big magnet, it draws innocent freshman from their dorms, from the library, from the basketball courts. They are powerless to resist.

Before long, hundreds upon hundreds of dazed freshman have gathered into a giant crowd. The confused look in their eyes gives way to one of mischief, one of devilish anticipation. Next thing you know, these once lamb-like gentlemen are stampeding across U.S. 31 on their way to Saint Mary's, screaming like a band of half-crazed Indians.

"And once they get to Saint Mary's ... then what happens?"

Welk that's where the SMC freshman come into play. The girls hang from their upper-story windows, dangling their undergarments and dropping them to the clamoring mobs of Notre Dame men below.

"Undergarments? How awful! Why can't they drop something else - like candy or balloons? Wouldn't that be just as much fun?"

No, ma'am. You see, this whole thing is based on tradition. Do you remember reading about the days of chivalry, when the damsel in distress would drop a silken handkerchief to the valiant knight below? Well, the panty raid operates on that same principle. Ever since Kleenex was invented, though, very few Saint Mary's girls have owned silken handkerchiefs. So they use the next best thing.

"And what might that be?" Well, you know ... silk panties, fancy lace brassieres, and of course, other exotic lingerie accessories that I would probably need diagrams to describe.

"I always thought that Saint Mary's girls were supposed to be nice, the kind that my Steven might one day marry."

They're not as nice as you might think, ma'am. You should see those girls on the night of the panty raid. They're ruthless. Some of them actually tie their panties to a string before they toss them from their windows, only to dangle them just above the outstretched arms of the desperately groping Notre Dame men below. They love teasing those poor guys.

Maybe they are nice girls, ma'am, but the panty raid sure brings out the worst in them. As for whether those girls are available for marriage, well... it's been rumored that the thought has crossed many of their minds.

"But what practical value does

this panty raid have? What good could my Steven possibly derive from this?"

Well, if he's aggressive and if he has a pretty good vertical jump, he'll probably get himself a couple of nice panties out of it. They make great wall hangings - do you really think that his Texas Instruments poster is going to stay on the wall very long?

What's more, the girls write messages on the panties, along with their names and phone numbers. If the name is Roxanne or Bambi, you can bet that it's only a pseudonym. But if your son Steven dials some of those phone numbers, he just might get himself an SYR date out of it.

"What does SYR stand for?" Um...let's discuss that some other time.

"Maybe I'm not being very openminded about this, but all I know is that my husband and I are paying 10 grand a year to give Steven a good Catholic education, and suddenly I find out that this type of hedonistic activity is being permitted here."

It's not permitted. It's tolerated.

"Well, why doesn't the University administration do something about it?"

Believe me, ma'am, they've tried. They've tried to outlaw it, to condemn it, to declare it immoral and unconstitutional. But there's no way they can stop it. They'd be better off trying to abolish the Notre Dame fight song.

"This is truly a parent's nightmare. I've spent the last 20 years of my life trying to raise my son properly, and now he's going to be involved in some senseless panty raid."

Look at it this way, ma'am. The panty raid is really quite harmless. In fact, it's the ideal social event. It encourages mass participation by the freshman of both Notre Dame and Saint Mary's. It breaks the ice between the sexes without breaking parietals - the guys aren't allowed in the dorms. Best of all, it doesn't even violate the alcohol policy. Take my word for it, ma'am the panty raid is nothing but an evening of good clean fun.

people of the state of Arkansas became indignant over Gilchrist's

#### **Book review**

L ost your faith in short stories? Then pick up a copy of Ellen Gilchrist's collection, "Victory Over Japan," to restore your confidence in the genre.

Each one of Gilchrist's interrelated stories in this book, winner of the 1984 American Book Award for Fiction, reads with the continuity of a novel but ends with the emotional punch essential to a good short story.

If you've never heard of Ellen Gilchrist, don't worry. I hadn't either until this summer when she made some remarks, which many people in the state considered controversial, at the 1985 Arkansas Governor's School for the Gifted and Talented. For weeks the battle over her intentions was waged through newspaper letters to the editor. What was it exactly that she said? Gilchrist described an incident when, in protest of the Vietnam war, her son had cut up an American flag and made a pair of pants out if it. Her message was that there comes a time when children need to "forget" their parents and do their own thing.

The theme of growing into independence runs throughout Gilchrist's stories. And she applies this struggle for self-definition not only through adolescent characters but also through adults. Whereas many of the good statement, interpreting it to mean "disregard your parents and do what you want," it becomes clear in her writing that she is concerned with describing the troubles between parent and child as both grow older and change. This theme is dominant in the first section of stories focusing on one strongwilled character, Rhoda, as she grows from a third-grader into an adult woman.

Most of the stories are centered around New Orleans, where Gilchrist lives when she is not teaching at the University of Arkansas in Fayettville. A strong Southern flavor is always evident, especially in the section "Crystal," in which Gilchrist weaves a neartragic and often comical tale of a spoiled Southern beauty who marries for money into New Orleans high society.

For interesting character studies and above all, for good fiction reading, Gilchrist's "Victory Over Japan" is an unexpected winner.

## **Communication at university must remain open**

Many people say the university exists as an ivory tower, a place wherein reality, and the happenings of the real world never protrude. This view of college life contradicts what the university should stand for. In fact, the university setting is one of the few places where reality in its highest aspect is regularly challenged.

#### **Steve Safranek**

#### view from the limb

The common distinction made between the university and the real world is usually upon conventional lines. First, students are seen as persons without financial responsibility. Consequently, they do not have the worries or concerns of raising a family and caring for a home. Because of this lack of responsibility, students are seen as a class that only concerns itself with academics, social activities and idealistic talk.

Although students are not seen as practical or realistic, their life is normally envied by the working person. Parents tell their children, "these are the best years of your life." And every football season, countless parents troop back to Notre Dame and various alma maters to relive their college days. Some of those who

have recently entered the rank of middle class Americans will say, "Oh, being a student was fun, but now it's nice to have money in my pocket." Rarely, ever so rarely, do those who return talk about their job, how interesting it is, or how much they enjoy the challenges of their new environment. Usually the bottom line is, "And the pay is good."

Students are a privileged class. Rather than attending cocktail parties at the office where the central subjects of conversation are trivial at best and scandalous at worst, they are able to engage in dialogue about fundamental ideas. In the classrooms the students are challenged to learn their subjects and learn to think. So too, in the social environment the student finds himself confronted with a slew of dilemmas that he or she never before has confronted. A student has to make choices with regard to friendships, moral actions, the career he or she will pursue and how or if he or she will worship his or her god. Moreover, against those who say that a student's world is untroubled by reality, many events on campus serve as a retort. Kevin Hurley's recent accident, countless shunned paramours, students who have flunked out of school and the innumerable students who marry shortly after graduation testify to the concerns of students as being as important as any confronted anywhere.

The university setting is radically different

from the common world in one respect. The university provides a setting where ideas are regularly and frequently exchanged on an intellectual level

The free exchange of ideas can, however, be blunted. Although the circulation of ideas can be stunted in various ways (muzzling the press, selective choice of speakers at assemblies, etc.), the argument ad bominem is the most invidious. All other forms of censorship are based upon a principle. If we do not let racists speak, we do so because we disagree with their fundamental ideas. We are only incidentally punishing the person who promotes the ideas.

But arguments ad hominem attempt to avoid the issue and divert our attention to a person. When we were children, our parents reprimanded us in some way when we started calling other children, often our brothers and sisters, names. Most of us outgrew those childish ways. Today, various governments use the same technique of argument by imprisoning those who speak against them. (This is most notable now in South Africa.) Instances of such activity is even present in many student arenas today. An instance can be found in some of the responses to my article on South Africa. Ann Pettifer (Professor Peter Walshe's wife) used such labels as "right wingery" to characterize my stance. One could respond just as easily that she only responded to my

article because its content challenged her husband's earlier article in The Observer. Another student labeled me as being for apartheid - a racist. A charge so ludicrous is beneath response. Nevertheless, such comments only avoid the issue and generate heat, not light. Perhaps the most ironic aspect of these arguments ad bominem is that they came from people who seem to champion free speech and free thought.

The university is capable of being a place where the free exchange of ideas can occur. If the university is to be a place where ideas can be freely exchanged and where students can mature, those who address students must present issues for students to reason over. They must do so because students will continue to confront new ideas. When they do so, they can either conventionally apply the things they have been taught, or they can use their skills and principles to apply that which is good and true of what they have learned. If they choose the latter alternative, the world may be improved. But if they choose the former alternative, the world will universally continue to be a playground where adults call each other names. It will continue to be a place where truly, one's college days are the best days of one's life.

## **RASTA** is a way to stay aware of world hunger

In 1968 people started dying by the millions in Sub-Saharan Africa when a severe drought struck. The hunger hasn't stopped. In Sudan alone, an estimated 2.8- 3.8 million people are starving.

### **Cathy Ann Reynolds**

#### guest column

Numerous causes ranging from soil erosion, weak political infrastructures, military oppression, and weak economic trade due to reliance on only a few products for import trade contribute to the slow beginnings and further assistance. There is also a disruption in

#### harsh failings in a developing Africa.

There have been efforts to help African nations in the hunger crisis. Recently, in the U.S. and in other countries a new ethic formed that "People are not allowed to starve." With this new ethic, \$70 million, was raised by USA for Africa. And, along with funds and enthusiasm, Private and governmental agencies have responded with food aid. But that is not enough

Free food aid has its problems. When it is not rotting on the ports and does get to the relief camps, there are possible riots related to the distribution of the food. When and if the food aid runs out, the refugees must still find

the balance of trade between farmers, because the food is in the hands of the government and organizations rather than the farmers. In the long run direct food aid does not help those Africans resolve their agricultural problems nor help them to act independently.

Organizations need to further research agricultural and technological advances that will work efficiently in Africa's Sub-Saharan regions. A recent FAO study indicates that Ethiopia will only be able to feed thirty-six percent of its population by the year 2000 if current agricultural practices are continued. According to the director of the African studies program at Georgetown University in D.C., "Agricultural research has not yet produced a satisfactory technical package which would permit African farmers to expand their agricultural productivity as Asian farmers have. There has been no Green Revolution vet for Africa's major crops - sorghum, millet, roots, and tubers - and none appears imminent."

There are organizations doing research for Africa's development such as the FAO (for irrigation schemes and the like), the World Bank (for long-term development of all kinds), the International Fund for Agricultural Development (for peasant farmers), UNICEF (child survival and development), the Office of Emergency Operations in Africa (coordinating some of those agencies), and African based agencies like the International Institute of Tropical Agriculture(IITA). If these organizations continue researching and resolving agricultural problems, Sub-Saharan Africa could at least produce enough to promote self-sufficiency. Africa itself is endowed with enormous natural resources, organic and inorganic, and is twice the size of the U.S. Africa once showed its potential for

self-sufficiency and development. In fact in the first decade of independence, agricultural production in Africa rose by 2 percent per year, outpacing the growth in population. In a larger and more recent scope Asian countries ,such as India, have begun rising above starvation and burgeoning population growth; Africa can too.

Even with agencies willing to research ways for a self-sufficient Africa and with public enthusiasm raised for the cause, a crucial factor remains. Who will fund these research agencies? Without sustained support of these oganizations research progress in Africa looks grim.

RASTA, Notre Dame's and Saint Mary's Rally Against Starvation organization, was formed last year in the response to the tragic hunger crisis. RASTA addressed the issue of famine and drought by pooling the resources and good fortune of the South Bend community together. RASTA raised \$4000 that went directly to Ethiopia through Unicef, Oxfam, and Care.

RASTA now realizes the importance of supporting monetarily the research and development of Africa. By organizing fund-raising events RASTA will provide an opportunity for this whole community to contribute to those who are less fortunate than we are.

RASTA itself is made up of leadership, vision

and action. There are people from the Notre Dame, Saint Mary's and the South Bend community who identify with these qualities. Tonight at 6:30 in the Center for Social Concerns those wishing to take action are welcome to join RASTA

Catherine Ann Reynolds is a senior English Writing major at Saint Mary's College.

## Quote of the day

"To a man with an empty stomach food is God."

> Mohandes Karamchand Gandbi (1869-19480

## Viewpoint Wednesday, September 18, 1985 - page 7 Sports act as bonding agent among many people

As long as I have been old enough to realize that the world of sports exists, I have been an apathetic resister. I never understood why Mom was so eager to waste an entire Sunday afternoon going to a Tiger's game, or why Uncle Billy sat fixed to the tube on Thanksgiving when he could have been wrestling with his 14 nieces and nephews. Yes, I am guilty of easily exchanging the terms "homerun" for "touchdown" when refering to soccer. In high

### Jeanne Grammens

#### guest column

school, I resented the money pumped into football while academic areas, such as the debate team, were in need of funds. When considering colleges, Saint Mary's was my first choice not because of Notre Dame football, but because it was a good academic and Catholic school. Following my friends' example, I purchased my Notre Dame football tickets, all the while thinking of the clothes that 50 dollars could buy. It was always exciting to go to the pep rallies and the pre-game tailgaters, but I always lost the excitement as I stood on my seat, squinting at the field.

This weekend at Michigan changed my beliefs. The minute I walked into the Michigan bar, Dooley's, I could sense an Irish electricity. I could not believe so many students and alumni had traveled four hours to watch the first Notre Dame game of the season. After the bar closed, people wandered around the street, and before I realized what

was happening, I was singing the "Notre Dame Victory March" with the crowd, while NOTRE DAME cheers were echoing everywhere.

The next day at the game the Irish fans wore their green proudly. It was great to see so much green amongst the blue-n-gold. During the game, the NOTRE DAME fans were the only ones standing. The first half was OK, Notre Dame scored first, and were expected to come back strong in the second half. The second half proved to be disastrous. The Irish fans seemed to turn a sickly color of green as the clock ticked away. A quiet depression settled over the NOTRE DAME section of the Michigan stadium as the time ran out. Quite frankly, I was afraid these sports fanatics would be suicidal; but then something similar to Christmas morning in Who-Ville happened. One student said, as we trooped out of the stadium, "Well, it's only the first game of the season." Not one student covered up their Notre Dame attire as we left the area. Another fan said, as we drove away, "What can you expect when we have the toughest football season in the country?" At the McDonalds, just outside of Ann Arbor, someone said, "I don't think a 10-1 record is bad at all.'

The optimism of these people amazed me. It was then that it hit me. The love and devotion of these Irish fans was not necessarily all about "off-sides" or specific plays, or even touchdowns. The love of sports is about something much bigger. It is about the human need to belong to something - to share common bonds - to have a common faith in something. Notre Dame football is something that binds millions of people across the country and

across the world. The fans' faith and devotion the faith to change a lot of wrongs in this is magnificent. It wasn't the Irish who were leaving the Michigan stadium before the clock ran out. They stuck it out to the last second. Even after the loss they still had faith and hope. They got strength from each other's faith

As I realize the spirit that exists in the world of sports, I can hardly contain the excitement in the thought that this faith could be applied to other areas as well. Notre Dame football is not the only bond we share. There is a very powerful bond of Christianity alive in the Irish fans. Seeing the energy and faith alive in the world of sports, made me see the potential action that could reflect our "other bond." Notre Dame/Saint Mary's students and alumnae have the resources, the energy and

world. There are a lot of hungry, discriminated-against, lonely, people out there, suffering from a lack of justice. Pessimists also says, "the Irish are not going to make it to a decent bowl game this year." The fans overcame the pessimism that could have resulted from the team's performance Saturday. We have the untapped resources to overcome the pessimism that exists in the world of those who do not know how to help themselves. Christ would smile if the football fans of today became the social justice activators of tomorrow. Both are two damn good causes.

Jeanne Grammens is a senior government and communications major at Saint Mary's.

## Leary should have at least been listened to

#### Dear Editor:

In last Thursday's inside column, Mary Healy criticized Notre Dame for inviting the notorious Timothy Leary to speak here.

Here is a short list of people who were considered "notorious" by right-thinking people like you. Maybe you have heard of some of them

- Galileo Galilei
- Nicholas Copernicus
- Martin Luther
- John the Baptist
- lesus Christ

Perhaps Timothy Leary is not your cup of tea, but you should have at least encouraged people to listen to him, and gone yourself. Who knows? Maybe we all could learn something.

> Tim VerHey Law Student

## **Booing does nothing to** help ND football team

#### Dear Editor:

I don't know how well the football team will do this year. My hopes, as usual, are for a very successful season. If this is not the case

her. It hurts me when I hear it. I'm positive that when the breaks are the worst for Notre Dame, a quietly said Hail Mary would have a more welcome effect than the boos.

Francis Paul Kaiser Southampton, Pa.

## Studying harder may be the answer to problem

#### Dear Editor:

Dear Editor:

We have a problem when professors try to achieve a proper balance between teaching and research, as Peter Horvath and others have pointed out. Sometimes they do less teaching and more research. There are lots of things we can propose as solutions, but I'd like to suggest that we try the simplest one first: study harder. Hasn't that ever occurred to anyone before?

Safety in boxing is no

**Richard Flint** Notre Dame graduate student

boxing. Number one, and most important to me, is that by fighting in the Bengal Bouts in March, I am using the gifts that I was given to help less fortunate people. For over 50 years men from Notre Dame have been climbing into the ring so money could be sent to the Holy Cross Brothers. As Dominic Napolitano has said "Strong Bodies Fight So That Weak Bodies May Be Nourished." Some people donate time to Logan Center, I box for charity. But helping people is not the only benefit I get from boxing. My self-confidence has increased tremendously, I am in the best shape of my life and I have met more people through boxing than through any other activity.

The safety of boxing in recent years has received much attention, but boxing at Notre Dame is a bit different than boxing in general.

We do it for fun, and not for a living. Every precaution is taken for the boxers, ranging from such obvious things as head gear, mouth pieces, and more padding in the gloves to less noticable things such as putting people of comparable ability in the ring together. A beginning boxer will never face anyone with more experience. This is one reason why the Bengal Bouts are so safe, because every boxer has equal training. In three years of athletics at Notre Dame, I have seen people get injured more seriously and more frequently in such "safe" sports as basketball and raquetball, not to mention the injuries received in sports such as football and wrestling. We box because we enjoy it, the last thing we want is an injury

> Kevin O'Sbea Holy Cross Hall

## P.O. Box Q

however, I equally hope that I will not hear any students booing. As a subway alumnus, I thought that such an action by the students of Notre Dame would be impossible. It in no way matches with the great spirit that all of us outsiders attribute to Notre Dame. As far as I know, there is only one animal that hisses.

Booing hurts! I don't think that any athlete plays better because someone boos him or perclassmen with experience are invited to workout, although they will be excluded from the novice tournament.

he at 4.00 in the boxing room in the ACC.

A friend from my hall read this in the Sports Briefs and, knowing that I am an officer of The Notre Dame Boxing Club, asked me, "Why Boxing? Why don't you go out for a safer sport?" I had to think for about two seconds before coming up with some reasons for

## Howe gets his release from Minnesota

**Associated Press** 

MINNEAPOLIS - Relief pitcher Steve Howe, who missed the Minnesota Twins' weekend series in Cleveland because of a recurrence of his cocaine addiction problems, requested and was granted his unconditional release, the Twins said yesterday.

"Steve will devote his immediate full attention to complete recovery from his personal problems," the team said

Howe, the 1980 National League Rookie of the Year with the Los Angeles Dodgers, was suspended for the 1984 season by former Commissioner Bowie Kuhn for violation of baseball's drug policies.

Commissioner Peter Ueberroth had not made any ruling on Howe's status, Fox said.

**Banks** continued from page 12

**Microwave Ovens** 

\$50/semester

Banks, a psychology major, is a native of Hampton, Va. While playing for Hampton High School, He was the only player in Virginia high school history to named allstate two years in a row on both offense and defense by the Associated Press. While at Hampton, his teams won three straight Virginia AAA titles. Although recruited by many

schools, Banks chose Notre Dame for more than just football.

"Football will take care of itself," he explains. "I have to prepare for a life after football. A Notre Dame degree is very prestigous and opens a lot of doors.

When he arrived at Notre Dame, Banks was listed as a defensive lineman, a position he played in high school until his senior year. When Kovaleski was injured, Banks played inside linebacker before moving to the outside position at the beginning of last year.

"I prefer playing outside, it fits my ability," Banks says. "Being up in a two-point stance allows me to see more and be more of a factor. I hope to make more big plays this year, maybe cause or recover some fumbles or make a few interceptions."

Harris sees positive signs for Banks' future.

"If he strives to be the best he can be and continues to improve," says Harris, "who knows what the future could hold?"

And of course, she wouldn't have had to restrict her feelings to a mere sonnet's length, either.

After all, you can always think of one more way to tell someone you love them when you're on the phone.

Let us count the ways you can save. Just call weekends till 5pm Sundays, or from 11pm to 8am, Sunday through Friday, and you'll save 60% off AT&T's Day Rate

on your state-to-state calls.

Call between 5pm and 11pm, Sunday through Friday, and you'll save 40% on your state-to-state calls.

So when you're asked to choose a long distance company, choose AT&T. Because with AT&T's 60% and 40% discounts, you can satisfy your heart's desire without exhausting your means. Reach out and touch someone."

## Blue Jays, Yanks both lose Cards win, pick up game on Mets

#### **Associated Press**

PITTSBURGH — Ozzie Smith hit a three-run homer and Cesar Cedeno and Willie McGee added two-run shots as the St. Louis Cardinals beat the Pittsburgh Pirates 10-4 last night to stretch their lead in the National League East to two games.

Joaquin Andujar, 21-9, scattered 10 hits to win for the first time in five starts as the Cardinals captured their sixth straight game. The New York Mets, meanwhile, fell 5-1 to the Philadelphia Phillies to fall two games back of the Cardinals.

Smith hit his fifth homer of the season in the second inning after starter Bob Kipper, 0-1, gave up singles to Tito Landrum and Terry Pendleton. It was Smith's 12th career homer in 4,167 at-bats.

Cedeno connected for his eighth of the season against Kipper in the fifth, scoring Tommy Herr, who had singled. It was Cedeno's fifth home run since he joined the Cardinals from the Cincinnati Reds on Aug. 29.

#### Phillies 5, Mets 1

NEW YORK — Shane Rawley pitched a five-hitter, and Glenn Wilson and Ozzie Virgil led the Philadelphia Phillies to a 5-1 victory last night over the New York Mets.

Wilson had three hits and scored twice, and Virgil drove in three runs, two with his 19th homer of the season.

Rawley, 12-7, struck out three and walked one in his sixth complete game of the season. The only run against Rawley, 6-1 since the All-Star break, came in the fourth inning on George Foster's RBI double.

Virgil's homer came off Ed Lynch, 10-8, in the second inning after Wilson led off the inning with a single.

#### Red Sox 6, Blue Jays 5

BOSTON - Tony Armas drove in three unearned runs with a fifthinning homer that broke a 3-3 tie and lifted the Boston Red Sox to a 6-5 victory over the Toronto Blue Jays last night.

The Blue Jays maintained their five-game lead in the American League East over the New York Yankees, who lost to the Detroit Tigers. The Yankees' loss cut Toronto's magic number to 14.

Trailing 3-2, Boston put runners on first and second in the fifth on a walk to Dwight Evans and a single by Wade Boggs. After two outs, Rich Gedman ripped a single to right field, scoring Evans with the tying run and sending Boggs to third. Jesse Barfield's throw was cut off

by shortstop Tony Fernandez, who fired the ball to Cliff Johnson at first as Gedman tried to scramble back to the base. But Johnson dropped the ball as he applied the tag.

Armas then blasted his 22nd homer of the year over the left-field fence, giving the Red Sox a 6-3 lead and chasing Dave Stieb, 13-11.

Barfield added his 24th homer, a solo shot for Toronto, in the seventh and Al Oliver singled home a run in the eighth.

Dennis "Oil Can" Boyd went 7 1-3 innings and raised his record to 14-11.

### Tigers 9, Yankees 1

DETROIT — Darrell Evans hit two home runs while Kirk Gibson, Nelson Simmons and Lou Whitaker each hit one to support a four-hitter by Dan Petry and Willie Hernandez as the Detroit Tigers beat New York 9-1 last night, extending the Yankees' losing streak to five games.

The Yankees matched their longest losing streak of the year.

The five home runs were the most ever allowed in a single game by Yankee starter Ron Guidry, 19-6. His previous high was four homers against the Minnesota Twins on May 28, 1982.

Petry, 15-11, who missed his two previous starts because of a sore right elbow, scattered four hits in the seven innings he worked. His only mistake was a homer to Don Mattingly leading off the fourth.

Clubs/Organizations must pick up concession stand packets in the Student Activities Office by WEDNESDAY, SEPTEMBER 18. All unclaimed concession packets will be given to clubs on the list of alternates.

\*Concession stand list is posted outside of the Student Activities Office. \*\*\*\*\*\*\*\*\*\*\*\*\*\*

## Sports Grace pleased with his team's play although wins are hard to come by

#### **By PHIL WOLF** Assistant Sports Editor

The Notre Dame soccer team currently holds a 1-5 record, and Head Coach Dennis Grace "couldn't be happier.

The Irish have compiled what appears to be a disappointing record, but they have done so against the toughest competition the team has faced in its nine-year history.

"We knew what we were getting into when we scheduled these teams," Grace said during practice yesterday. "I almost couldn't be happier at this point."

Notre Dame has dropped games to two Top-Ten teams, Virginia and Evansville; to then 15th-ranked George Mason; and to Wisconsin-Milwaukee and Wisconsin-Madison. DePaul on Sept. 11.

Grace said.

for 15 or 18 wins," he explained. opener, 3-2. "We made out the schedule to become a very good soccer team, said. "The kids feel bad that we and I think right now we are a very didn't win some of those games, but good soccer team.

were at any point last year. We're with them, which is important to much better than we were in our them (the Irish). first game or in our second game. We're showing progress in every success), and we're not knocking on game, and that's why we're here." In Notre Dame's most recent con- the big doors."

test, the Irish took eighth-ranked Evansville to overtime last Sunday before losing, 4-2. The Purple Aces led. 2-0. after the first five minutes of play, but the Irish fought back and eventually tied the score with just

two minutes remaining in the game. That game serves as an example of how close Notre Dame is to turning its season around, Grace said. With a few lucky breaks, it could have been the Irish who emerged with the victory in that game.

'When we make a mistake, we seem to pay the price," Grace lamented, "and when the other teams make the mistakes we don't take advantage of them." As a result, the Irish have been forced to live with the memory of only close brushes with success.

In fact, just a few breaks could The team's only win came against have made the Notre Dame record look much different today. After a 3-The unranked Irish are playing 0 loss to third-ranked Virginia to such high-caliber competition so open the season, the Irish have not that they may improve their skills, lost a game by more than two goals. They took Wisconsin-Milwaukee to "We didn't make out the schedule overtime before losing their home

"Our attitudes are high," Grace they know they're playing good "We're much better now than we teams. And they're playing right

"We're knocking on the door (of the little doors. We're knocking on

Two "big doors" will be coming to Notre Dame this weekend, as Michigan State hits Cartier Field Friday night and Indiana arrives at Alumni Field on Sunday

The home crowds can expect to be entertained this weekend by a corps of Irish freshmen who are leading the team in scoring. Eight of Notre Dame's 10 goals this season have been scored by rookies.

Topping the scoring charts is midfielder Tom Gerlacher, with two goals and an assist. Fellow freshmen John Guignon and Joe Sternberg each have added two goals, and junior transfer Bruce "Tiger' McCourt has tallied one goal.

Tri-captains Chris Telk and David Miles have contributed one goal and three asssits, respectively. Jock Mutschler, the third captain, has anchored the defense from his stopper back position.

Junior Goalkeeper Hugh Breslin has played every minute for the Irish this season, and he has made 47 saves on 104 shots from opponents. His 2.6 goals-against average is indicative of how he has helped to keep Notre Dame close in several contests

"The plan is falling into place," Grace said.

With the talented freshmen the Irish have and the optimism of the head coach, a few wins now could create the momentum to carry Notre Dame to a successful win-loss record, despite the tough competiWednesday, September 18, 1985 - page 12

Freshman striker Joe Sternberg and his classmates have led the Irish soccer team in scoring this fall. Despite their talent, however, Notre Dame now has a 1-5 record, which isn't as bad as it seems, according to Head Coach Dennis Grace. Phil Wolf provides a summary of the soccer season to this point in his story at left.

## 's Banks answered when opportunity knocked

#### **By DENNIS CORRIGAN** Sports Writer

Call it an American story. The starter gets hurt, and an unknown comes off the bench and shines. Or, call it big time college football. When a starter goes down, a quality player fills his place. Both of these situations describe Robert Banks, a two-year starter at Notre Dame outside linebacker.

In his freshman campaign of 1983, the 6-5, 234-pound Banks filled in for Mike Kovaleski when Kovaleski sprained an ankle. Banks started the final game of the year against Air Force and registered 10 tackles.

Then last year when Mike Larkin tore ligaments in his knee, Banks was named as a starter at outside linebacker.

"I thought I had the capability to start so it was just a matter of time," Banks says. "I just had to wait and be ready when my opportunity came. When it came I had to make the best of it."

And make the best of it he did. Banks was the only linebacker to start all 12 games last year and was third in minutes played among defensive players. He finished as the second leading tackler on the team. His 68 total tackles placed him only below Kovaleski's 108.

"Robert is an excellent football player," says Irish outside linebacker coach Bishop Harris. "He's very dependable and consistent. He plays hard and with a lot of intensity. He doesn't have blazing speed, but he makes up for that with his consistency. I have no reservations about using him in any situation. I'm very comfortable with his play."

Banks also says his playing style is one of consistency

"I try to be in the right place at the right time," he says. "I also try to be a bonus player. After I've taken care of my responsibilities, I try to see what I can do to help out.'

In the linebacking corps, arguably one of the team's strongest points,

consistency doesn't attract a lot of l can't, or I do something they can't, attention. Co-captains Tony Furjanic and Mike Larkin figure to get most of the headlines. In addition, Banks, a two-time monogram winner, has three-time letterman Rick DiBernardo behind him on the depth chart. Banks, though, isn't bothered by either

"It's not good on a team to be envious," he says. "I'm glad for (Furianic and Larkin). If I walk off the field and did the best I could, then I'm satisfied.

"I think competition is good for everyone. It's a group concept. I figure I have my own specialties. If Larkin or DiBernardo do something

then we can learn from each other. Competition makes people be the best they can be.'

Banks has already had a consistent 1985. In spring practice, he won the Hering Award for the best outside linebacker. Against Michigan, Robert made six solo tackles and assisted on two others.

"After I loss, I feel that if I could have done this differently or that differently, the results would have been better. When we lose I feel that I could have given more. We can be a great defense.

When Saint Mary's students waited in the long line at the Athletic and Convocation Center a couple of weeks ago to

decided that Saint Mary's students do not deserve an equal opportunity - in terms of ticket price or seat location - to

buy their coveted Notre Dame football tickets, they once again found themselves digging in their pocketbooks for \$16.50 more than their Notre Dame counterparts.

Many students have questioned the reasoning behind the price differential.

According to Notre Dame Ticket Manager Mike Bobinski, Notre Dame and Saint Mary's students did not have to pay for their tickets prior to 1980. Bobinski, who is in his second year, said that when the decision was made five years ago to charge the students, the ticket manager at that time wanted to maintain a differential between the two schools. Although Bobinski was not around to be involved in the decision, he thinks that those in charge wanted to make the distinction that even though Saint Mary's does share many things with Notre Dame, the two schools are still not one and the same.

Thus Notre Dame students were given a 50 percent discount and Saint Mary's students charged two-thirds of the regular price, for exactly the same seats in the stadium.

And that decision holds today.

Maybe Saint Mary's students could better understand the difference if Notre Dame students paid the difference in some other school-related fee along the way, but Bobinski knew of no such fee.

It seems strange that two schools that can share classes, meals, club sports, many of the same organizations - all at no extra cost, are not charged the same price for a ticket to one of the biggest social events on campus.

The situation concerning basketball tickets is different, but the attitude of the ticket office is similar.

Because of the size of the ACC, Saint Mary's is allotted a limited number of basketball tickets. And all those tickets are for bleacher seats. Saint Mary's students do, however, pay the same amount as their Notre Dame friends who request the same upper arena seats.

So although Saint Mary's students do not pay any more money for their winter sport entertaintment, the unfortunate thing here is that unless a Saint Mary's student is able to obtain a lower arena seat by some other means than the ticket office, she will never be able to enjoy the games with friends who take in the game from a more comfortable position and with a much better view. Bobinski explained that because of the smaller facility, the reasoning was that Notre Dame students deserve a first shot at basketball tickets and that a price difference here would be inconsequential.

So as a senior I have, for the last time, paid more to see Allen Pinkett play than my aquaintances across U.S. 31 and I will view the excitement of David Rivers from high above the court, all because somewhere along the way it was

view Notre Dame football and basketball games.

The Saint Mary's Athletic Council, under the direction of President Anne Cushing and Vice President Janine Adamo, held its first organizational meeting last week.

Director of Athletics and Recreation Jo-Ann Nester, who oversees the council, is responsible for getting the organization off the ground in its inaugral year last year. With all the procedural flaws hopefully ironed out, the studentrun organization should accomplish a great deal this year.

Some ideas the council will be looking into over the course of the year will be the possibility of obtaining a new nickname for the college's athletic teams. It also hopes to be organizing an alumnae athletic newspaper, getting alumnae to contribute to the athletic department, and planning an old timers softball game before the end of the year. Sophomore basketball player Tammye Radke is in charge of alumnae relations.

The council, which will meet twice instead of once a month this year, consists of two representatives from each varsity sport, and one representative from each of the club sports. There will be a single representative for all the intramural teams.

In addition to a chairperson in charge of alumnae relations, there also will be a head of sports information, a publicity director, a secretary, a treasurer, and someone in charge of The Spirit, the athletic newsletter.
