Dr. Rev. Dr. Snow

Rev. Dear Sir—

As I have received no intimation from you of the receipt of the College pamphlets, which I sent 3 boxes, as soon as I got the plates you sent, I feel uneasy lest they may not have reached you.

I would have written at the time, but Mr. Sinton's sickness made me so busy that I had very little time; and since his death I have had less.

Have you made up your mind about the magazine I estimated up on? Mr. Jones told me that the prospectus would be written as soon as he returned to College. What about the plates for the circulars for the Academy at Peabody and the

College? I think you mentioned  
to me about sending to Washington  
for them.

An lithographer came to me  
one day last week, asking your  
address, as he wanted to buy your  
press. If he has written you,  
and you feel inclined to sell  
it to him, you would be safer  
to make the terms Cash.

As the times are very hard  
here on account of the snow shutting  
us out from the south and west,  
I would feel obliged if you  
could remit me the small sum  
for those college pamphlets

Please give my respects to Mr Jones,

I am  
Dear Dear Sir

Yours very truly

J. A. Ballantyne.
