My Bro & Dr. Sir

I wish to get a Chime
of bells for St. Joseph's Cathedral; I am told
that you have an excellent one from France,
that also rings not by hand, but by machinery.
Might I request of you to give some advice
& information on the subject - where did
you get yours, how many pieces, what
weight, what cost, does it succeed well in
ringing by Machinery, have the pedals of
the organ any play upon it? You would
confer a great favor by enlightening my
mind on the subject.

Most respectfully
Yrs. Wm. G. Bevent.

Wm. G. Bevent
