Ed. Greenway Jr. will act as Secy. of the ...  
Very Rev. Father

1. I have the honor to enclose you a few petitions in behalf of  
the State you propose, something of the kind, provided you  
deem it proper to take them into consideration.  
2. I have the Pleas of Virginia, be considered as one  
of the Superior Court here. I have prescribed every  
where, that the Mr. Justice should only consist  
in himself and the remnants of Mary's Court as in  
effect be established by an Act of Parliament  
3. That a Law Commission always before the House  
and one in the Cabinet in each house, and  
before that of the House. That each of our  
Establishment should be the will of the  
Virginia with the other, which was

4. That we may be made by the help and  
of the other to the other to be made  
5. That we may be made by the help and  
of the other to the other to be made  
6. That the leaves of a tree be given by the  
children instead of the other to be made  
7. That the other to be made by the  
Superior herself.

8. That the terms of the other to be  
limited & determined also if the other  
shall always have an interest in them

and yet respects the limits of superiority in their different  
offices. It is to be desired that the employment  
in detail even there like the Province forming  
a small locality - with regard to the mission  
of the Legislature there is to be held with  
order & propriety as may be seen in  
12th that the Rules of the Superior are based

13th on such grounds as to be applicable  
as regards the same the same according to the  
terms of the original charter as to the  
other details according to the same  
taken the course of it - some limit & scope

14th that the original charter the Superior  
of two years according to the Rules of the  
it can be accomplished in one year especially when  
there is no hardship in the case of the  
it is to be left to the judgment of the  
said that the said charter is to be kept  
it will be with a view to the original  
then of the Charter of the Superior  
is quite a separate & distinct  
of course, therefore I think for such a  
As a result to another species in  
is necessary a good deal of  
Hence the observation that the original  
the Province that is to be held for  
is to be held for the same  
to have the Province not separated  
will be for the first five years nearly. It has been

Hence the observation that the original  
the Province that is to be held for  
is to be held for the same  
to have the Province not separated  
will be for the first five years nearly. It has been

as they signed in directions of them and the very day have  
my heart with interest with the Mr. [unclear] she speaks in  
such manner of the Ministry & Ministry of other  
[unclear] to confirm what I was saying - Well I rather  
the little Ministry which you & it is your own creation  
in the Ministry you are steadily ever of our  
[unclear] the trust of Mr. [unclear] & [unclear]  
without you there would have been in Ministry for  
the last few years we have then before us as  
I said to be the this according to your own order  
to adopt such Order & Regulations as best suit the  
object & their end - so I beg of you I rather that  
if you have not found and believe you have that  
I separate the Ministry from the wants of the State  
and you found you will make it your business as it  
is a kind of an ordinary duty to be done by you in  
obligation of the State you are and will be writing  
to be in the Ministry which it is for the time  
or another thing quite different to myself which  
I left before you at last these to be forgotten  
the even such the Ministry should be of two years  
the appearance & prestige of the little Ministry  
has diminished & it is indeed some the cause of it  
feters them from the Academy - I say you are  
and you have on the subject the secrets of many  
heavenly secrets you are experienced I do not mean  
for me I may have but a very short time and  
and kind very deep will not be in the very long with  
all I pray for is that you may draw light in all these

important subjects from the Sacred Heart of Jesus  
to whom I commend you daily for that intention  
Other Convents have their Rules and their reasons  
for having them as they are - I think ours is in  
many respects superior to a certain number of  
Convents here, and will be still more so if we  
only correspond to spirit heavenly blessings and  
abide by your own views & judgment without turning  
them or trying to turn them to our own which are  
often grounded on selfish motives - This I told you  
a few weeks ago I rather I do not wish to do  
15<sup>th</sup> Will you please also I rather mention in the  
Rule the Epoch of the regular opening of the  
Noviciate which is the 15<sup>th</sup> of August.

As I was speaking to Mother to-day she said she  
wanted the Novices to have classes, I told her they  
had - Reading - Dictation - Writing daily - They  
read alternately two days the Green book - two  
days Geography - two days in the Primer & one  
day French History - This plan seemed to give  
very good temporary results to a regular course  
in the Scholastic - It is very hard to make  
progress when having more than one lesson something  
by heart almost as in - I see the Instrumental  
& Novice Lessons are going on regularly there are  
no at more at hope to be able to renew the  
Reading class shortly with the help of God

I will try to keep myself in peace & not mind any  
innovation or new suggestion, but in the best I  
can, as I always did. I have enough to do to reach  
the time and satisfy all demands for labor as  
we are at least ten years earlier than last year.  
I pray, Father, that good may arise to you in all  
things that you may prescribe for us. What will  
produce His favor, glory & the salvation of souls &  
redempt. Am to you this is & shall be the object of  
my constant prayer & self-sacrifices - Pray also for me  
Father that I may serve God in spirit & in truth  
your humble Daughter  
Mary of Providence
