IN the year 1836, the Rev. S. T. BADIN, of venerable memory, while traveling through the northern section of the State of Indiana, visited the spot *now* known by the name of "NOTRE DAME;" but, then, lying unnoticed in its native forest wilderness and beauty. Struck by its loveliness, or, to speak more correctly, influenced by that Providence which directs the most apparently unimportant events for the accomplishments of its own eternal designs, FATHER BADIN resolved at once to secure this place to the Church as the site of a future College. This resolution he executed: not long after, it passed into the hands of the Right Rev. Bishop de La Hailandiere, who transferred it to the Very Rev. E. Sorin, Priest of the Society of the Holy Cross, who with a few Brothers of the same Society had come to America about a year before. In 1844, they first took possession of it, and in a few years were enabled, by the blessing of God, to erect spacious College Buildings which have been year after year, much enlarged and furnished with various modern improvements, such as "steam heating apparatus, cold and warm baths, and gymnasiums."

This Institution was incorporated by an act of the State Legislature of Indiana, in 1844, under the name and style of "University of Notre Dame," and empowered to confer Degrees in all the learned Professions.

The University of Notre Dame is situated in the lovely valley of the St. Joseph, scarcely a mile from that river, and on the banks of two beautiful lakes of clear spring water. It is in the midst of a fine and healthy farming region, and by means of two great trunk lines of Railroad—the Michigan Central and the Michigan Southern and Northern Indiana, the latter passing within a mile of the College grounds—is easily and quickly accessible from every part of the County. At the Southern Michigan Railroad Depot, at South Bend, omnibuses or private conveyances can be obtained. Besides this, a stage passes the College twice a day, connecting the two lines of Railroad. In the town itself, there is a large and commodious hotel where every comfort may be enjoyed.

The University is conducted by the Fathers of the Society of the Holy Cross; a number of highly competent Lay Professors assist in the various branches of Studies; other Teachers and the Prefects of Discipline are supplied by the

Brothers of the Holy Cross, who are, like the Fathers, devoted by their sacred calling, to the education and instruction of youth.

The disciplinary government is mild, yet sufficiently energetic to preserve the most perfect order and regularity. The morals and the general deportment of Pupils are assiduously watched over, and their comforts and personal habits receive the same attention as if they were in the bosom of their own families. Only conciliatory means of correction are used, but if any Student proves insensible to these, he is promptly dismissed from the College.

The tables of honor, weekly notes, monthly certificates, quarterly Bulletins, semi-annual examinations, annual distribution of premiums, are among the many means made use of to excite emulation and love of study in the minds of Pupils, and reward the diligent.

Experience constantly proves that a young man may be kept within the line of duty more by a sense of *honor* and *justice*, than by *fear of punishment*.

Catholic parents may rest assured that the most zealous care will be taken that their children comply regularly with their religious duties, and that no efforts will be spared in instructing them fully in the principles and obligations of their holy Religion.

Although all the members of the Faculty and other College officers profess the Catholic Religion, Students belonging to any other denomination are received; nothing is required of them, in this respect, but to assist, for uniformity's sake, at all the public and regular exercises of Religion with propriety and decorum.

The Pupils are divided according to their age, into the Minim, Junior and Senior Departments, each having its separate dormitory, study-hall, classrooms, play-grounds, etc., its own complete Gymnasium, with its own prefects and teachers.

The Institution possesses a valuable Library of about seven thousand volumes, besides three other small Libraries for the use of the different College Societies, a complete set of Philosophical and Chemical Apparatus, a Museum of Natural History, and a rich Collection of Plants. Among the peculiar advantages which this Institution presents, as a place of Education, may be noticed—

1.—ITS RETIRED LOCATION —At a time and in a country where serious and solid studies are rare; where dissipations of every kind are thrown in the way of the young Student; where visitors often interrupt the course of the scholar; and where morals are but slightly watched over, it seems that every parent who desires to secure to his son an opportunity of spending the few years of his education usefully and profitably, and passing safely the dangerous season of early youth, removed from all the temptations of our large cities, should readily comprehend the advantage of placing him in such an Institu-

tion as NOTRE DAME. Here, the young student is under the most watchful and paternal care—here he can apply himself, undisturbed, to his studies, under competent professors—and, may acquire a solid knowledge of everything to which he may wish to devote his attention—here, also, his young mind breathes an atmosphere of piety, the influences of which will hover around him throughout his life.

2.—ITS EXTENSIVE GROUNDS.—If Students are here deprived of hurtful pleasures and dissipations which abound in large cities, they are amply remunerated by those delightful and innocent amusements which the nature of this locality so abundantly provides. Nearly one thousand acres of land are attached to the College, and are well laid out, both by nature and art, for College purposes. Whilst the moral and intellectual culture of the Students is attended to with all possible care and solicitude, their physical development is by no means neglected. Two ball-alleys, two ten-pin alleys, three gymnastic apparatuses, lately built with much ingenuity and skill, together with a variety of the latest and most interesting games, viz.: foot-ball, cricket, etc., tend alike by their judicious use to invigorate the body and recreate the mind. Moreover, the extensive forests surrounding the College give the best opportunities to those who are fond of hunting, whilst the two beautiful Lakes, upon whose banks the University stands, afford choice fishing grounds and baths in summer, and almost uninterrupted skating during winter. No one can for a moment doubt, that those manly sports are highly conducive to the health and happiness of the Pupils. All Educators know that innocent, exhilarating and somewhat exciting amusements are the best safeguard of morals for children—especially for young men.

3.—THE CARE TAKEN IN SICKNESS.—Students, when ill, have not to remain in the College Rooms, but are immediately transferred to the apartments of the Infirmary, where they are attended and nursed, with devoted care, by experienced *Sisters*, who never suffer them to be alone, but strive to supply the place of their absent mothers. An eminent and experienced Physician—a graduate of the “Ecole de Médecine” of Lyons, France—resides permanently in the College.

The last Scholastic year has been marked with a success unprecedented in the annals of the Institution:—the number of Pupils, both here and at St. Mary's Academy, exceeded by over one-third that of any former year.

The different departments have likewise been more fully developed both in reference to classes and discipline. The Faculty is also more efficient and more numerous than ever before.

## General Information.

The Academic year commences on the first Tuesday of September, and closes on the last Wednesday of June, when the Annual Commencement, the conferring of Degrees and the Distribution of Premiums take place. It is divided into two Sessions of five months each. At the termination of each Session, a strict examination of all the different classes is made in the presence of the Faculty.

When a Student presents himself for admission into the College, he is examined by the Prefect of Studies, and placed in that class for which his previous attainments may have qualified him. His further promotion depends on his application and progress. Should any Student, during the year, be found capable of passing to a higher class, he will be promoted and such promotion is equivalent to the honors of the class he left.

The Degree of Bachelor of Arts will be conferred on such of the Students as shall have completed their classical course, and passed successfully a strict examination before the Faculty.

The Degree of Master of Arts will be conferred on each of the graduates of the first Degree, who shall have devoted at least two years to literary or scientific Studies.

Diplomas will be given to those Students who shall have completed the Commercial Course, passed a satisfactory examination before the Board of Examiners, and given clear evidence of their moral character.

Students who do not desire to graduate, may adopt a partial or irregular course, fitting them for commercial life, for civil engineering, &c, or for any pursuit outside of the learned professions, which requires a special training. Such a course would run parallel with the regular course, and would include all the advantages, literary and otherwise, which the Institution offers to its inmates in common.

Special facilities exist at Notre Dame for the acquirement of the French and German languages. Not only are these languages taught very carefully by persons of acknowledged competency, but many of the members of the Institution being natives of France and Germany, opportunities at all times occur for conversation in these tongues.

All Students applying for admission will be required to give satisfactory evidence of their moral standing.

All letters sent or received by Students may be opened and read by the President or his substitute.

## Regulations of the University of Notre Dame.

1st. All the Students of this Institution are required to attend the exercises of public worship with punctuality and decorum. They shall assist at Mass on Sundays and Wednesdays. Catholic Students shall go to Confession every month.

2d. As soon as the bell announces the beginning or end of a college exercise, every one shall repair in silence to the discharge of that duty to which he is called.

3d. The time of recreation excepted, silence must be inviolably observed in all places.

4th. Students must show themselves obedient and respectful towards the Professors and Prefects of the Institution—never absenting themselves from the place in which they ought to be, without permission from proper authority.

5th. Students must carefully avoid every expression in the least injurious to Religion, their Professors, Prefects or Fellow Students.

6th. Students are not permitted to visit private rooms.

7th. The use of tobacco is forbidden.

8th. Intoxicating liquors are absolutely prohibited.

9th. Compensation for all damage done to the furniture or other property of the College, will be required from the person or persons causing such injury.

10th. No branch of study, once commenced, may be discontinued without permission of the Prefect of Studies.

11th. No one shall leave the University grounds without the permission of the President or Vice President.

12th. Any breach of pure morals, either in words or actions, must be reported forthwith to the President or Vice President.

13th. Whether in class or in recreation, when permitted to converse at table, or during their walks, Students should endeavor to improve the purity of their language, and cultivate urbanity of manners. A few years in College would be profitably employed, if nothing else were learned but to converse and behave with the dignity and propriety of gentlemen.

14th. No one shall keep in his possession any money, except what he receives weekly from the Treasurer, on Wednesday, at 10 o'clock, A. M.

15th. On the first Wednesday of every month, "Certificates of Good Conduct" and of "Improvement in Class" are issued by the Faculty to such Students as deserve them. On either side of the President's table, and conspicuous to every visitor, are the "Tables of Honor," presided over by the Vice-President and the Prefect of Discipline. At these are seated twenty-two of the Students whose conduct has been most exemplary during the preceding week. They are elected by the unanimous vote of the Professors and Prefects.

16th. In winter, on Saturday, at 4 o'clock, P. M., the Students must wash their feet. In summer, this regulation is rendered unnecessary by the rule which requires the Students to bathe, in common, twice a week, in St. Joseph's Lake.

17th. On Sunday and Wednesday mornings, the Students must place upon their beds, wrapped up in a bag, their soiled linen of the previous half week. On Monday morning, the Students of the Senior and Junior Departments repair, in ranks and in silence, to their Dormitories, whence they take their Sunday clothes, and carry them to their trunks. And on Saturday, at half-past three o'clock, they go in the same manner to the Trunk Room, and bring their Sunday clothes to their Dormitories. The pupils of the Minim Department change as often as they find a change on their beds. The Sisters take charge of their wardrobe. The Students will be reviewed at eight o'clock on Sunday and Wednesday mornings, with special reference to their personal neatness.

18th. Stationery, &c., will be delivered to Students, as follows: On Mondays and Thursdays, at half-past twelve o'clock, to the Students of the Senior Department; and on Tuesdays and Fridays, at the same hour, to the Students of the Junior Department. Every Student should have a memorandum book in which to enter all his receipts and expenditures, and his notes for recitation in class, and for conduct during his stay in College. Books prepared expressly for this purpose can be obtained from the Secretary.

19th. Students who may have failed to give satisfaction in the Class Room, or who shall have been guilty of misconduct, or breach of rule, will be sent to the Detention Room during the recreations or the promenades, and required to prepare their lessons, or perform such tasks as shall be assigned them.

20th. Those Students who read sufficiently well and audibly will occupy the Reader's Stand, in their turn, in the Refectory. An alphabetical list of Public Readers will be posted in a conspicuous place, and every one named in it, will read for one day, in order, at dinner and supper. At the end of each meal, any Student is liable to be called upon to give an account of what he has heard read.

21st. Senior Students will be permitted to read or study from eight to nine o'clock, P. M.

22d. Every month, all the Students must write to their parents or guardians, and have their letters corrected by the Secretary of the Faculty, previous to their being mailed. All letters sent or received may be opened by the President or Vice-President.

23d. When a Student is sick, he will obtain permission from the Prefect of Health, to go to the Infirmary, and will observe the regulations of that place until his recovery.

24th. No book shall be introduced into the College, without being previously examined and approved by the Prefect of Studies, Objectionable books found in the possession of Students, will be withheld from them until their departure from the University.

N. B. The happiness, no less than the improvement of Students, is so closely connected with the good order and even rigid discipline of the College, that no young gentleman of good sense, who has at heart his own welfare and the accomplishment of his purpose in entering the Institution, can fail to discover the importance of a strict observance of the foregoing Rules. If the Authorities of the University exhort all to exhibit a sincere and unwavering zeal in keeping those Regulations, they demand of Students nothing more than the promotion of their own interest.

 There are in the Institution several Societies, whose Constitutions and By-Laws have been approved by the Faculty, such as the Nocturnal Adoration, Arch-Confraternity, St. Aloysius' Literary and Historical, Holy Angels, Thespian, and Philopatrian Societies, with which Students are authorized and recommended to connect themselves.

E. SORIN, C. S. C.,

PRESIDENT.

## St. Joseph's Manual Labor School.

Chartered in 1844.

---

In this Department, conducted by the Brothers of the Holy Cross, boys are taught several useful trades, and receive, at the same time, a good, common English education. They are constantly under the vigilant and paternal care of skillful Brothers, who devote their lives and energies to the noble task of preparing the children of the laboring class to become good Christians and useful members of society.

The Manual Labor School has been recently much improved. The building and the different shops have also been considerably enlarged to meet the demands of the increasing number of applicants.

### CONDITIONS FOR ADMISSION.

1st. Each applicant must have attained the age of twelve years, and shall remain until he is twenty-one; (at eighteen, the period when a youth is supposed to have become master of his trade, he begins to enjoy the fruits of his industry, and from this time forward receives wages for his labor.)

2d. He must pay a fee of one hundred dollars on entering.

3d. He must be provided with two suits of clothes, or a sufficiency for one year.

# St. Mary's Academy,

One Mile West of the University of Notre Dame,

CONDUCTED BY THE "SISTERS OF THE HOLY CROSS."

---

This Institution, situated on the beautiful and picturesque banks of the river St. Joseph, is every thing that could be desired, as a locality, for a Female Academy. All the branches of a solid and complete education are taught here,—Music especially, both vocal and instrumental, and the Modern Languages, form prominent features in the Course of Instruction.

The Buildings are spacious and commodious, and furnished with all the modern Improvements—steam heating, baths, &c.

The Grounds are very extensive, and handsomely ornamented.

The proximity of the two Institutions to each other, is a great convenience to parents having children at both, when they visit their sons and daughters.

For further particulars concerning this Institution, the public are referred to the Ninth Annual Catalogue of St. Mary's Academy for 1863-4.
