# Prospectus.

---

When the CONGREGATION OF HOLY CROSS planted its standard in the St. Joseph Valley in 1842, the time of Very Rev. E. SORIN's arrival, the prospects of success were but moderate; but the founder of the College, poor in purse, yet rich in zeal and energy, strong in his confidence in God and in his devotion to the Queen of heaven, the help of Christians, to whom he dedicated the great enterprise he was then beginning, has seen the College gradually expand to its present growth, and gain the confidence of all who have patronized it.

## **The University of Notre Dame**

has attained its present honorable position among the educational institutions of the United States by the steady and persevering efforts of its founder and all connected with it to realize the object for which it was established: to give an opportunity to the youth of America of obtaining a thorough education,—mental, moral, and physical.

The experience of a quarter of a century has shown that the system adopted and gradually developed by the increasing importance of the College is a good and efficient one. By strictly adhering to it the College has sprung up vigorously, with no mushroom growth that gives no promise of strength and long life, but like the sturdy oak that each year adds steadily but surely to its strength. And though the "improvements"—a word so familiar to all the friends of Notre Dame—that have been made in the grounds and buildings are more apparent to the casual visitor, yet to those intimately acquainted with the Institution it is evident that the same energy and reliance in God, that have replaced the old log house on the lakeside—the only house on the premises when Very Rev. E. SORIN arrived—by the buildings that are now seen, have been busy in increasing and perfecting the means of rendering the youth of Notre Dame thorough students while in the Institution, and good citizens in the various walks of life.

## **The Charter**

of the Institution, granted by the Legislature of Indiana, in 1844, under the name of "University of Notre Dame," empowers it to confer degrees in all the learned professions.

The University is conducted by the Fathers of the Congregation of Holy Cross; a number of highly competent Lay Professors assist in the various branches of studies; other teachers and the prefects of discipline are taken from among the Brothers of Holy Cross, who are, like the Fathers, devoted by their sacred calling to the education of youth.

The disciplinary government is mild, yet sufficiently energetic to preserve the most perfect order and regularity. The morals and the general deportment of the pupils are assiduously watched over, and their comforts and personal habits receive the same attention as if they were in the bosom of their own families.

### **The Location**

of the College is one particularly adapted to the improvement of the Students. It is secluded and healthy, and constant care is rendering a spot naturally beautiful still more attractive by art and good taste.

We state only the advantages of

### **Health and Retirement,**

that are enjoyed by the inmates of the Institution;—a description of all that pleases at Notre Dame would take us beyond the limits of these pages. We prefer to give a hearty invitation to all our patrons, and to all who think of confiding their sons to our care, to come and see and judge for themselves.

The advantages arising from the

### **Retired Position**

of the College cannot fail to be appreciated by parents who have at heart the education of their children; and even the careless student when once interested in his studies soon finds out the benefits he can derive from an uninterrupted attention to class and study. Though secluded in a great measure from the busy world without, yet the number of Students and the extensive College grounds give him a world of his own, in which, what with Class, Examination, Notes, Literary Societies, Religious Associations, Base-ball Clubs, Dramatic and Musical Entertainments, he finds full enjoyment and amusement, and companions, ideas and sentiments that all concur to fix his mind on his studies and establish him in habits of piety, application and order,—the influence of which will be felt his entire life. He breathes for a few short years the atmosphere of order, regularity in all that he does; of profound application to studies, broken only by healthy and regular recreation, and certainly, in our times, when serious and solid studies are becoming so rare, when all kinds of inducements to waste and fritter away time are forced upon young Students, when morals are so lightly watched over, the advantage of the retired locality of NOTRE DAME cannot be too highly spoken of.

### **Health.**

Providence has singularly blessed the Institution in regard to health, and those who have had their sons in the College can give their testimony that the regular course of life, added to the salubrious climate, the fresh country air, has done much to improve the health of their children. In case of sickness, the student does not remain in the College rooms, but is immediately taken to the apartments of the Infirmary, where he is attended and nursed with devoted care by experienced Sisters, whose care for the sick needs no commendation here to be duly appreciated.

### **The College Buildings**

are on a slight eminence, near two small, picturesque lakes of pure spring water, in the midst of the fine and healthy farming region of the Valley of the St. Joseph, and scarcely a mile from that river. The locality can easily be reached from all parts of the United States by means of either of two great trunk lines of Railroad,—the Michigan Southern & Northern Indiana, and the Michigan Central, the former passing within a mile of the College grounds. At the Michigan Southern Railroad depot, South Bend, omnibuses or private conveyances can be obtained. Besides these, a stage running from South Bend to Niles passes the College twice a day. In South Bend there are several hotels.

### **The Main Building**

is a structure one hundred and sixty feet long, eighty-five feet deep and six stories high, surmounted by a well-proportioned dome, on the summit of which stands a statue of the Blessed Virgin—a beautiful work of art. The exterior of the building, especially when viewed from the wide avenue that stretches a mile in front of the College, makes a favorable impression upon all beholders; and the interior, admirably arranged and divided up into Study Halls, Recitation Rooms, etc., for the accommodation and comfort of the Students who *live*—not merely study and recite—in it, completes the good opinion already formed by a view of the exterior.

THE EASTERN WING, eighty-five feet long, forty-five feet wide and six stories high, contains the Dining-Room, Study-Hall, and Sleeping Apartments of the Senior Students.

THE WESTERN WING, of the same dimensions as the Eastern, contains the same apartments for the Junior Students.

IN THE CENTRAL BUILDING are the Wash Rooms for Juniors and Seniors; Parlors; private rooms for Professors, and Class Rooms; the Museum Library, and College Chapel.

### **The Music Hall**

stands to the east, a building one hundred feet long and forty-five feet wide and two stories high. It is divided off into Music Rooms, each containing a piano, and other instruments of music. Great attention has already been given to Vocal and Instrumental Music. The continued success this year of the Choir, the Philharmonic Society, the Band and Orchestra, under the direction of their respective Professors, is the best proof that great attention has been paid to this department during the past ten months.

On the ground floor of this building is the

### **Juniors' Recreation Hall,**

occupying the length and breadth of the building. Close by is the Recreation Ground for the Juniors, and a little farther off are the grounds especially set apart for their great games of Foot-ball, Base-ball, and other sports that require more space than is contained in the every-day playgrounds.

### **Washington Hall,**

a building one hundred feet long, fifty feet deep, and two stories high, lies to the south of the Music Hall, and is devoted to Elocutionary and Dramatic Exercises. All the Students of Notre Dame have pleasing memories of Washington Hall. The Commencement Exercises are held in it; and frequently during the year the students repair to it with pleasure, to be entertained by their fellow-students with music, declamations and dramatic performances. It is handsomely fitted up, and is well suited for the purpose for which it was built. On the ground floor is

### **The Seniors' Recreation Hall,**

which is properly fitted up for the daily amusements of the Seniors, having on one side the ordinary recreation yard with Ball Alley and Gymnastic Apparatus, and on the other, more extensive grounds for the use of those who indulge in Base-ball and other violent games.

### **The Infirmary,**

and other buildings directly connected with the College, are in proportion to the size of the College. An Observatory is in contemplation, in which will be placed the fine refracting

### **Telescope,**

presented to the University by his Majesty, the Emperor of France. It is one of the best instruments of the size ever manufactured. The focal length of the instrument is over nine feet, and the diameter of the object-glass six inches clear. There are two eye-pieces for land objects: one of seventy-five, and the other of one hundred, power.

Before leaving this part of our Prospectus relating to Buildings, we must mention several which, though they are not exclusively for College purposes, do their part in making up the Establishment of Notre Dame, of which the College Building is the centre.

### **The Church of the Sacred Heart,**

to the west of the College Building, serves as a place of worship to the Catholics of the neighborhood, to the Students, and other inmates of Notre Dame. It contains a fine-toned Organ of thirty-two stops. The sacred music performed in this Church is of a superior order. In the Church tower is a peal of thirty-two bells—the finest peal of bells in the United States;—indeed, the only one of the kind. The base of the chime is made by the large bell recently imported from France, and presented to the Church of Notre Dame by the friends of the Institution. Its weight is thirteen thousand pounds, and its diameter, at the base, is eight feet eight inches.

### **The Manual Labor School,**

which deserves a notice apart, has been removed from its former position to give room to beautify and ornament more extensive grounds in front of the College. It now stands near the Farm House, and all the Shops have been moved to the same locality.

---

**The Novitiates, and the Missionary's Home,**

situated in secluded localities around the lakes, complete the buildings connected with the College, though we might add to the list the Printing Office of the AVE MARIA, in which is published the journal of that name, and from which, for ten months in the year, issues THE SCHOLASTIC YEAR, a paper edited by the Students of Notre Dame.

---

## General Information.

---

The Academic year commences on the first Tuesday of September, and closes on the last Wednesday of June, when the Annual Commencement, the Conferring of Degrees and Distribution of Premiums take place. It is divided into two Sessions of five months each. At the termination of each Session, a strict examination of all the different classes is made in the presence of the Faculty.

When a Student presents himself for admission into the College, he is examined by the Director of Studies, and placed in the class for which his previous attainments may have qualified him. His further promotion depends on his application and progress. Should any Student, during the year, be found capable of passing to a higher class, he will be promoted, and such promotion is equivalent to the honors of the class he left.

The Degree of Bachelor of Arts will be conferred on such of the Students as shall have completed their Classical Course, and passed successfully a strict examination before the Faculty.

The Degree of Master of Arts will be conferred on each of the graduates of the first Degree, who shall have devoted at least two years to Literary or Scientific Studies.

The Degrees of Bachelor of Science and of Master of Science will also be conferred on similar conditions.

Diplomas will be given to those Students who shall have completed the Commercial Course, passed a satisfactory examination before the Board of Examiners, and given clear evidence of their moral character.

Special facilities exist at Notre Dame for the acquirement of the French and German Languages. Not only are these Languages taught very carefully by persons of acknowledged competency, but many of the members of the Institution being natives of France and Germany, opportunities at all times occur for conversation in these tongues.

All Students applying for admission will be required to give satisfactory evidence of their moral standing.

All letters sent and received by Students may be opened and read by the President or his substitute.

There are in the Institution several Societies, whose Constitutions and By-Laws have been approved by the Faculty, such as the Archconfraternity, Holy Angels', Holy Childhood, Philodemic, St. Edward's, Thespian, St. Cecilia's, and Philharmonic Societies, with which Students are authorized and recommended to connect themselves.

## Regulations of the University.

---

1. All the Students of this Institution are required to attend the exercises of public worship with punctuality and decorum. They shall assist at Mass on Sundays and Wednesdays. Catholic Students shall go to Confession every month.

2. As soon as the bell announces the beginning or end of a College exercise, every one shall repair in silence to the discharge of that duty to which he is called.

3. The time of recreation excepted, silence must be inviolably observed in all places.

4. Students must show themselves obedient and respectful toward the Professors and Prefects of the Institution—never absenting themselves from the place in which they ought to be, without permission from proper authority.

5. Students must carefully avoid every expression in the least injurious to Religion, their Professors, Prefects or fellow-Students.

6. Students are not permitted to visit private rooms.

7. The use of tobacco is forbidden.

8. Intoxicating liquors are absolutely prohibited.

9. Compensation for all damage done to the furniture, or other property of the College, will be required from the person or persons causing such injury.

10. No branch of study, once commenced, shall be discontinued without permission of the Director of Studies.

11. No one shall leave the University grounds without the permission of the President or Vice-President.

12. Any breach of pure morals, either in words or actions, must be reported forthwith to the President or Vice-President.

13. No one shall keep in his possession any money, except what he receives weekly from the Treasurer, on Wednesday, at 9 o'clock, A. M. The College will not be responsible for any valuables, such as watches, money, etc., unless deposited with the Secretary.

14. Bulletins are sent to parents in the beginning of October, December, February, April, and June.

15. On the first Wednesday of every month, "CERTIFICATES OF GOOD CONDUCT" and "IMPROVEMENT IN CLASS" are issued by the Faculty to such Students as deserve them.

16. In the Refectory of the Senior Department, and also in that of the Junior, conspicuous to the eyes of visitors, may be seen the "TABLES OF HONOR," presided over by the Vice-President and Prefect of Discipline. At these are seated twenty-two of the Students whose conduct has been the most exemplary during the preceding week. They are elected by the unanimous vote of the Professors and Prefects.

17. Bath Rooms, provided with hot and cold water, are fitted up, in which the Students take a bath once a week; in warm weather, however, they bathe twice a week in St. Joseph's Lake.

18. On Sunday and Wednesday mornings, the Students must wrap up and place upon their beds their soiled linen of the previous half week. On Monday morning, the Students of the Senior and Junior Departments repair in ranks and in silence to the Dormitories, whence they take their Sunday clothes and carry them to their trunks. And on Saturday, at half-past three o'clock, they go in the same manner to the Trunk-room, and bring their Sunday clothes to the Dormitories. The Students will be reviewed at eight o'clock on Sunday and Wednesday mornings, with special reference to their personal neatness.

19. Stationery, etc., will be delivered to Students, as follows: on Mondays and Thursdays, at half-past twelve o'clock, to the Students of the Senior Department; Wednesdays, at half-past seven, A. M., to the Students of the Junior Department. Every Student should have a memorandum book in which to enter all his receipts and expenditures, and his notes for recitation in class, and for conduct during his stay in college. Books prepared expressly for this purpose can be obtained from the Secretary.

20. Students who have failed to give satisfaction in the Class-room, or who shall have been guilty of misconduct or breach of rule, will be sent to the Detention-room during the recreations or the promenades, and required to prepare their lessons, or perform such tasks as shall be assigned them, and will be excluded from all College exercises until such tasks be accomplished.

21. Those Students who read sufficiently well and audibly, will occupy the Reader's stand, in their turn, in the Refectory. An alphabetical list of Public Readers, will be posted in a conspicuous place, and every one named in it will read one day, in order, at dinner and supper. At the end of each meal, any Student is liable to be called upon to give an account of what he has heard read.

22. Senior Students will be permitted to read or study from eight to a quarter to nine o'clock, P. M.

23. Every month, all the Students must write to their parents or guardians, and have their letters corrected by a member appointed by the President of the Faculty, previous to their being mailed. All letters sent or received may be opened by the President or Vice-President.

24. When a Student is sick, he will obtain permission from the Prefect of

Health to go to the Infirmary, where he must observe the regulations of the place until his recovery.

25. No book, periodical or newspaper shall be introduced into the College, without being previously examined and approved by the Director of Studies. Objectionable books found in the possession of Students will be withheld from them until their departure from the University.

N. B.—Whether in class or in recreation, when permitted to converse at table, or during their walks, Students should endeavor to improve the purity of their language, and cultivate urbanity of manners. A few years in College would be profitably employed, if nothing else were learned than to converse and behave with the dignity and propriety of gentlemen.

The happiness, no less than the improvement of Students, is so closely connected with the good order and even rigid discipline of the College, that no young gentleman of good sense, who has at heart his own welfare and the accomplishment of his purpose in entering the Institution, can fail to discover the importance of a strict observance of the foregoing Rules. If the authorities of the University exhort all to exhibit a sincere and unwavering zeal in keeping those Regulations, they demand of Students nothing more than the promotion of their own interest.

## Law Department.

---

Young gentlemen wishing to enter this Department will find a carefully prepared plan of studies, embracing all the departments of Public and Private Law, together with the principles of practice and the Law of Evidence.

The complete course will be made in two years, the terms, of which there are four, corresponding with those of the other faculties of the University. At the end of the course, students who *have passed* a successful examination, and who have in other respects satisfied the requirements of the University, will be entitled to receive the degree of LL. B.

Students presenting themselves for matriculation in this Department will be expected to have a good liberal education. Those, however, who may not have completed their studies in the Faculty of Arts, will have an opportunity of doing so, without extra charge, while prosecuting their legal studies.

The proficiency of students will be tested, from time to time, by written theses and oral examinations, and at the end of each term there will be a general examination on all the subjects treated during the term.

Besides the course of general instruction, students will receive every assistance in studying the Laws peculiar to their respective States.

And as it is a matter of the highest importance to a young Lawyer, that on being admitted to the practice of his profession he should be able to express himself clearly, fluently, and in a methodical manner, ample opportunities will be afforded to cultivate the art of public speaking. For this end, and in order to enable students to acquire those habits of self-command and quickness of decision so characteristic of the learned and accomplished Lawyer, a moot court will be held from time to time, under the direction of a Professor, at which questions of Law may be discussed and mock trials held. For the cultivation of other species of eloquence, still further facilities will be afforded in the Literary Associations of the University.

Besides the ordinary prizes granted in the different classes, at the end of each collegiate year, there will also be two grand prizes, of \$50.00 and \$40.00 each, awarded respectively (subject to the rules and regulations of the University), to the best and second best treatise or discourse, as the case may be, written by students of the graduating class, on some subject chosen by the Faculty, and which will be submitted in due time and form.

Gentlemen intending to follow the course of Law are advised to present themselves at the beginning of a term, and, if possible, at the beginning of the first term of the collegiate year, first Tuesday of September. The propriety of this recommendation will be fully appreciated when it is understood that at those times preliminary lectures will be delivered, for the purpose of making the

CLASSES OF THE LAW COURSE.

student's way more clear and rendering his subsequent labors more easy and profitable. Students arriving late in a term will be deprived of the benefit of these preliminary lectures.

- (1) Lectures will be delivered on Saturdays, from 10 to 11 a. m.
- (2) " " " 11½ " 2½ p. m.
- (3) " " " Mondays and Thursdays, from 1½ to 2½ p. m.
- (4) " " " Mondays, Tuesdays, Thursdays, and Fridays, from 10 to 11 a. m.
- (5) " " " Tuesdays and Fridays, from 1½ to 2½ p. m.

\* Candidates presenting themselves for the degree of LL. B., will not be required to pass an examination in 1st and 2d classes.

Students attending the Law Course will have the privilege of consulting the library, but each one would do well to provide himself with a few of the leading authors whose works are generally used as text-books. The principal

ones required by students of the first year are: Blackstone's Commentaries, Pothier on Obligations, Bishop on Criminal Law, Cooper's Justinian, and Burrell's Law Dictionary. And in the second year should be procured Kent's Commentaries, Parsons on Contracts, Storey's Equity Jurisprudence, Story on Constitutional Law, Greenleaf on Evidence, Stephen on Pleading, and Domat on the Civil Law. The usefulness of these works will not cease with the student's career, but, as they are standard authorities on most of the subjects of which they treat, they will continue to be of service in subsequent practice. Hence the desirability of acquiring them as early as possible.

The authorities of the University have determined to spare nothing that can be done by them to place the Law Department on a first-class footing; and have in contemplation, as soon as circumstances will permit, the erection of a separate building for the use of students pursuing this Course.

The students will be expected to conform to the rules of the University.

Further information may be obtained by addressing Rev. W. CORBY, S. S. C., President of the University.

**St. Cecilia Philomathean.**

This Society, one of the oldest and best at Notre Dame, is, at the same time, a Debating, Dramatic and Musical Association. Its exercises include Public Reading, Declamations, Essays and a Moot Court. It has a good library, and numbers forty members—the *elite* of the Junior Collegiate Department. The plays acted on the stage for the purpose of bringing out the elocutionary powers of its members are written especially for them, and are intended to increase the love of virtue and righteousness. Their highly moral plays will soon be published by the St. Cecilia Society for the benefit of other societies and institutions which may be in need of such plays.

## Endowments.

Hitherto all the Gold Medals, Gold Prizes, Silver Medals and Silver Prizes, given to the students at Notre Dame, have been given at the expense of the University. We are, however, convinced that many of our friends would be pleased to have the privilege of endowing one or more of these Medals which would bear the name of the donor. Let, for example, \$500 be deposited, the interest of which would purchase one of the Gold Medals given for first honors and would perpetuate the name of the donor, as a friend of Education and a benefactor of the Institution. This is no new custom, but one well known even in our American Colleges and Universities. Many persons admire those who give their whole life to the benefit of Education, and here we offer an occasion to these true friends of Education, but whose vocation is not that of professor, to lend a helping hand and thus become hearty co-operators with those whose vocation it is to teach. Teachers, fired with an ardent zeal for the success of their sublime duty, are frequently held back for want of means and the proper encouragement. Here is a chance to encourage teachers and gladden the hearts of noble youth who win the honors of their *Alma Mater*. In like manner Professorships could be endowed, providing a salary of from \$800 to \$1500 per annum. Colleges and Universities which are endowed by State or otherwise, do not feel these wants, but a University like this, which has *no endowment whatever*, must appeal to its friends for help, which no doubt will be promptly rendered.

## “The Scholastic Year.”

This is the title of a neat little paper, published weekly at the University of Notre Dame. The chief object of this paper is to keep the parents and friends of our students informed on the various subjects of study and discipline, as practiced at this University and Saint Mary's Academy, and of the progress and standing of their sons and daughters in these two Institutions. For this purpose regular weekly reports are given, consisting of the names of those who deserve by their good deportment to sit at the Tables of Honor, and who by their perseverance and industry deserve special commendation from their various professors and teachers. Other reports relative to the arrangement of Classes, the promotion of the more talented and energetic students, etc., also find place in this paper and keep parents and friends accurately informed on all that concerns their children.

This paper also opens a field for aspiring young writers, who might otherwise, through timidity, allow their talents in this respect to remain inactive; while many articles of an instructive and literary character, from writers of

mature mind and ability, render the SCHOLASTIC YEAR a valuable publication for all who desire variety and utility in their reading. Our little College paper at present consists of eight large double-column pages, and as soon as a sufficient patronage will justify its conductors to do so, it will be increased in size, and thus rendered still more useful and interesting.

TERMS: *By mail, for one Scholastic year (10 months), \$2 00.*  
*To students residing at the College or Academy, one year, special terms.*  
All who desire a sprightly little paper, full of interest and College news, especially the parents of our students, who are most interested, should at once subscribe for the SCHOLASTIC YEAR.

*Address : Editor of the Scholastic Year,  
Notre Dame P. O., Ind.*

# ST. MARY'S ACADEMY,

ONE MILE WEST OF NOTRE DAME UNIVERSITY,

*Conducted by the Sisters of Holy Cross.*

**T**HIS Institution, situated on the beautiful and picturesque banks of the St. Joseph River, is everything that could be desired as a locality for a Female Academy. All the branches of a solid and complete Education are taught here. Music especially, both Vocal and Instrumental, and the MODERN LANGUAGES, form prominent features in the Course of Instruction.

Although particular attention is paid to the Religious Instruction of Catholic pupils, yet pupils of all denominations are received, and, for the sake of order, merely required to attend the public religious exercises with the members of the Institution.

The Buildings are spacious and commodious, suited to the Educational requirements of the day, and furnished with all Modern Improvements. Every portion of the building is heated by steam, and hot and cold baths are attached to the sleeping apartments.

The Grounds are very extensive, beautifully adorned, and situated in that charming seclusion which is so favorable to the healthful development of moral, physical and intellectual power.

The proximity of the two Institutions to each other is a great convenience to parents having children at both, when they visit their sons and daughters.

\*.\* For further particulars concerning this Institution, the public are referred to the "Fourteenth Annual Catalogue of St. Mary's Academy," for the year 1869-70, or address
