Prospectus.

When the Congregation of the Holy Cross planted its standard in the St. Joseph Valley in 1842, the time of Very Rev. E. SORIN's arrival, the prospects of success were but moderate; but the founder of the College, poor in purse, yet rich in zeal and energy, strong in his confidence in God and in his devotion to the Queen of heaven, the Help of Christians, to whom he dedicated the great enterprise he was then beginning, has seen the College gradually expand to its present growth, and gain the confidence of all who have patronized it.

The University of Notre Dame

has attained its present honorable position among the educational institutions of the United States by the steady and persevering efforts of its founder and all connected with it to realize the object for which it was established: to give an opportunity to the youth of America of obtaining a thorough education,—mental, moral, and physical.

The experience of a quarter of a century has shown that the system adopted and gradually developed by the increasing importance of the College is a good and efficient one. By strictly adhering to it the College has sprung up vigorously, with no mushroom growth that gives no promise of strength and long life, but like the sturdy oak that each year adds steadily but surely to its strength. And though the "improvements"—a word so familiar to all the friends of Notre Dame—that have been made in the grounds and buildings are more apparent to the casual visitor, yet to those intimately acquainted with the Institution it is evident that the same energy and reliance in God, that have replaced the old log house on the lakeside—the only house on the premises when Very Rev. E. SORIN arrived—by the buildings that are now seen, have been busy in increasing and perfecting the means of rendering the youth of Notre Dame thorough students while in the Institution, and good citizens in the various walks of life.

The Charter

of the Institution, granted by the Legislature of Indiana, in 1844, under the name of "University of Notre Dame," empowers it to confer degrees in all the learned professions.

The University is conducted by the Fathers of the Congregation of the Holy Cross; a number of highly competent Lay Professors assist in the various branches of studies; other teachers and the prefects of discipline are taken from among the Brothers of the Holy Cross, who are, like the Fathers, devoted by their sacred calling to the education of youth.

The disciplinary government is mild, yet sufficiently energetic to preserve the most perfect order and regularity. The morals and the general deportment of the pupils are assiduously watched over, and their comforts and personal habits receive the same attention as if they were in the bosom of their own families.

The Location

of the College is one particularly adapted to the improvement of the Students. It is secluded and healthy, and constant care is rendering a spot naturally beautiful still more attractive by art and good taste.

We state only the advantages of

Health and Retirement,

that are enjoyed by the inmates of the Institution;—a description of all that pleases at Notre Dame would take us beyond the limits of these pages. We prefer to give a hearty invitation to all our patrons, and to all who think of confiding their sons to our care, to come and see and judge for themselves.

The advantages arising from

The Retired Position

of the College cannot fail to be appreciated by parents who have at heart the education of their children; and even the careless student when once interested in his studies soon finds out the benefits he can derive from an uninterrupted attention to class and study. Though secluded in a great measure from the busy world without, yet the number of Students and the extensive College grounds give him a world of his own, in which, what with Class, Examination, Notes, Literary Societies, Religious Associations, Base-ball Clubs, Dramatic and Musical Entertainments, he finds full enjoyment and amusement, and companions, ideas and sentiments that all concur to fix his mind on his studies and establish him in habits of piety, application and order—the influence of which will be felt his entire life. He breathes for a few short years the atmosphere of order, regularity in all that he does; of profound application to studies, broken only by healthy and regular recreation; and certainly, in our times, when serious and solid studies are becoming so rare, when all kinds of inducements to waste and *fritter* away time are forced upon young Students, when morals are so lightly watched over, the advantage of the retired locality of NOTRE DAME cannot be too highly spoken of.

Health.

Providence has singularly blessed the Institution in regard to health, and those who have had their sons in the College can give their testimony that the regular course of life, added to the salubrious climate, the fresh country air, has done much to improve the health of their children. In case of sickness, the student does not remain in the College rooms, but is immediately taken to the apartments of the Infirmary, where he is attended and nursed with devoted care by experienced Sisters, whose care for the sick needs no recommendation here to be duly appreciated.

The College Buildings

are on a slight eminence, near two small, picturesque lakes of pure spring water, in the midst of the fine and healthy farming region of the Valley of the St. Joseph, and scarcely a mile from that river. The locality can easily be reached from all parts of the United States by means of either of two great trunk lines of Railroad,—the Michigan Southern & Northern Indiana, and the Michigan Central, the former passing within a mile of the College grounds. At the Michigan Southern Railroad depot, South Bend, omnibuses or private conveyances can be obtained. Besides these, a stage running from South Bend to Niles passes the College twice a day. In South Bend there are several hotels.

The Main Building

is a structure one hundred and sixty feet long, eighty-five feet deep and six stories high, surmounted by a well-proportioned dome, on the summit of which stands a statue of the Blessed Virgin—a beautiful work of art. The exterior of the building, especially when viewed from the wide avenue that stretches a mile in front of the College, makes a favorable impression upon all beholders; and the interior, admirably arranged and divided up into Study Halls, Recreation Rooms, etc., for the accommodation and comfort of the Students who *live*—not merely study and recite—in it, completes the good opinion already formed by a view of the exterior.

THE EASTERN WING, eighty-five feet long, forty-five feet wide and six stories high, contains the Dining-Room, Study-Hall, and Sleeping Apartments of the Senior Students.

THE WESTERN WING, of the same dimensions as the Eastern, contains the same apartments for the Junior Students.

IN THE CENTRAL BUILDING are the Wash Rooms for Juniors and Seniors; Parlors; private rooms for Professors, and Class Rooms; the Museum, Library, and College Chapel.

The Music Hall

stands to the east, a building one hundred feet long and forty-five feet wide and two stories high. It is divided off into Music Rooms, each containing a piano and other instruments of music. Great attention has already been given to Vocal and Instrumental Music. The continued success this year of the Choir, the Philharmonic Society, the Band and Orchestra, under the direction of their respective Professors, is the best proof that great attention has been paid to this department during the past ten months.

On the ground floor of this building is the

Juniors' Recreation Hall,

occupying the length and breadth of the building. Close by is the Recreation Ground for the Juniors, and a little farther off are the grounds especially set apart for their great games of Foot-ball, Base-ball, and other sports that require more space than is contained in the everyday play-grounds.

Washington Hall,

a building one hundred feet long, fifty feet deep, and two stories high, lies to the south of the Music Hall, and is devoted to Elocutionary and Dramatic Exercises. All the Students of Notre Dame have pleasing memories of Washington Hall. The Commencement Exercises are held in it; and frequently during the year the students repair to it with pleasure, to be entertained by their fellow-students with music, declamations and dramatic performances. It is handsomely fitted up, and is well suited for the purpose for which it was built. On the ground floor is

The Seniors' Recreation Hall,

which is properly fitted up for the daily amusements of the Seniors, having on one side the ordinary recreation yard with Ball Alley and Gymnastic Apparatus, and on the other, more extensive grounds for the use of those who indulge in Base-ball and other violent games.

The Infirmary,

and other buildings directly connected with the College, are in proportion to the size of the College. An Observatory is in contemplation, in which will be placed the fine refracting

Telescope,

presented to the University by his Majesty the Emperor of France. It is one of the best instruments of the size ever manufactured. The focal length of the instrument is over nine feet, and the diameter of the object-glass six inches clear. There are two eye-pieces for land objects: one of seventy-five, and the other of one hundred power.

Before leaving this part of our Prospectus relating to Buildings, we must mention several which, though they are not exclusively for College purposes, do their part in making up the Establishment of Notre Dame, of which the College Building is the centre.

The Church of the Sacred Heart,

to the west of the College Building, serves as a place of worship to the Catholics of the neighborhood, to the Students, and other inmates of Notre Dame. It contains a fine-toned Organ of thirty-two stops. The sacred music performed in this Church is of a superior order. In the Church tower is a peal of thirty-two bells—the first of the kind imported, and one of the finest in the United States. The base of the chime is made by the large bell recently imported from France, and presented to the Church of Notre Dame by the friends of the Institution. Its weight is thirteen thousand pounds, and its diameter, at the base, is eight feet eight inches.

The Manual Labor School,

which deserves a notice apart, has been removed from its former position to give room to beautify and ornament more extensive grounds in front of the College. It now stands near the Farm House, and all the Shops have been moved to the same locality.

The Novitiates, and the Missionary's Home,

situated in secluded localities around the lakes, complete the buildings connected with the College, though we might add to the list the Printing Office of the AVE MARIA, in which is published the journal of that name, and from which, for ten months in the year, issues the NOTRE DAME SCHOLASTIC, a paper edited by the Students of Notre Dame.

General Information.

The Academic year commences on the first Tuesday of September, and closes on the last Wednesday of June, when the Annual Commencement, the Conferring of Degrees and Distribution of Premiums take place. It is divided into two Sessions of five months each. At the termination of each Session, a strict examination of all the different classes is made in the presence of the Faculty.

When a Student presents himself for admission into the College, he is examined by the Director of Studies, and placed in the class for which his previous attainments may have qualified him. His further promotion depends on his application and progress. Should any Student, during the year, be found capable of passing to a higher class, he will be promoted, and such promotion is equivalent to the honors of the class he left.

The Degree of Bachelor of Arts will be conferred on such of the Students as shall have completed their Classical Course, and passed successfully a strict examination before the Faculty.

The Degree of Master of Arts will be conferred on each of the graduates of the first Degree, who shall have devoted at least two years to Literary or Scientific Studies.

The Degrees of LL. B., Bachelor of Science and Master of Science will also be conferred on similar conditions.

Diplomas will be given to the Students who shall have completed the Commercial Course, passed a satisfactory examination before the Board of Examiners, and given clear evidence of their moral character.

Special facilities exist at Notre Dame for the acquirement of the French and German Languages. Not only are these Languages taught very carefully by persons of acknowledged competency, but many of the members of the Institution being natives of France and Germany, opportunities at all times occur for conversation in these tongues.

All Students applying for admission will be required to give satisfactory evidence of their moral standing.

All letters sent and received by Students may be opened and read by the President or his substitutes.

There are in the Institution several Societies, whose Constitutions and By-Laws have been approved by the Faculty, such as the Archconfraternity, Holy Angels', Holy Childhood, Philodemic, St. Edward's, Thespian, St. Cecilia's, and Philharmonic Societies, with which Students are authorized and recommended to connect themselves.

No Student will be received for a shorter period than one session of five months. The most eligible time for entering is at the beginning of a scholastic session, viz. : in September or February, but Pupils are admitted at all times during the year, and their session commences with the date of their entrance.

When parents wish to have their children sent home, they must give timely notice, settle all accounts, and supply means to defray all traveling expenses.

Should a Student withdraw himself, or be withdrawn by his parents or guardians before the expiration of the session, no deduction is made except in case of sickness or absolute dismissal.

Regulations of the University.

1. All the Students of this Institution are required to attend the exercises of public worship with punctuality and decorum. They shall assist at Mass on Sundays and Wednesdays. Catholic Students shall go to Confession every month.

2. As soon as the bell announces the beginning or end of a College exercise, every one shall repair in silence to the discharge of that duty to which he is called.

3. The time of recreation excepted, silence must be inviolably observed in all places.

4. Students must show themselves obedient and respectful toward the Professors and Prefects of the Institution—never absenting themselves from the place in which they ought to be, without permission from proper authority.

5. Students must carefully avoid every expression in the least injurious to Religion, their Professors, Prefects, or fellow-Students.

6. Students are not permitted to visit private rooms.

7. The use of tobacco is strictly forbidden.

8. Intoxicating liquors are absolutely prohibited.

9. Compensation for all damage done to the furniture, or other property of the College, will be required from the person or persons causing such injury.

10. No branch of study, once commenced, shall be discontinued without permission of the Director of Studies.

11. No one shall leave the University grounds without the permission of the President or Vice-President.

12. Any breach of pure morals, either in words or actions, must be reported forthwith to the President or Vice-President.

13. No one shall keep in his possession any money, except what he receives weekly from the Treasurer, on Wednesdays, at 9 o'clock A. M. The

College will not be responsible for any valuables, such as watches, money, etc., unless deposited with the Secretary.

14. Bulletins are sent to parents in the beginning of October, December, February, April, and June.

15. On the first Wednesday of every month, "Certificates of Good Conduct" and "Improvement in Class" are issued by the Faculty to such Students as deserve them.

16. In the Refectory of the Senior Department, and also in that of the Junior, conspicuous to the eyes of visitors, may be seen the "Tables of Honor," presided over by the Vice-President and Prefect of Discipline. At these are seated twenty-two of the Students whose conduct has been the most exemplary during the preceding week. They are elected by the unanimous vote of the Professors and Prefects.

17. Bath rooms, provided with hot and cold water, are fitted up for the use of the Students during the winter; in warm weather, however, they bathe twice a week in St. Joseph's Lake.

18. On Sunday and Wednesday mornings the Students must wrap up and place upon their beds their soiled linen of the previous half week. On Monday morning the Students of the Senior and Junior Departments repair in ranks and in silence to the Dormitories, whence they take their Sunday clothes and carry them to their trunks. And on Saturday, at half-past three o'clock, they go in the same manner to the Trunk-room, and bring their Sunday clothes to the Dormitories. The Students will be reviewed at eight o'clock on Sunday and Wednesday mornings, with special reference to their personal neatness.

19. Stationery, etc., will be delivered to Students, as follows: on Mondays and Thursdays, at half-past twelve o'clock, to the Students of the Senior Department; Wednesdays, at half-past seven A. M., to the Students of the Junior Department. Every Student should have a memorandum book in which to enter all his receipts and expenditures, and his notes for recitation in class and for conduct during his stay in college. Books prepared expressly for this purpose can be obtained from the Secretary.

20. Students who have failed to give satisfaction in the Class-room, or who shall have been guilty of misconduct or breach of rule, will be sent to the Detention-room during the recreations or the promenades, and required to prepare their lessons, or perform such tasks as shall be assigned them, and will be excluded from all College exercises until such tasks be accomplished.

21. Those Students who read sufficiently well and audibly, will occupy the Reader's stand, in their turn, in the Refectory. An alphabetical list of Public Readers will be posted in a conspicuous place, and every one named in it will read one day, in order, at dinner and supper. At the end of each meal, any Student is liable to be called upon to give an account of what he has heard read.

22. Senior Students will be permitted to read or study from eight to a quarter to nine o'clock P. M.

23. Every month all the Students must write to their parents or guard-

ians, and have their letters corrected by a member of the Faculty, appointed by the President, previous to their being mailed. All letters sent or received may be opened by the President or Vice-President.

24. When a Student is sick, he will obtain permission from the Prefect of Health to go to the Infirmary, where he must observe the regulations of the place until his recovery.

25. No book, periodical or newspaper shall be introduced into the College, without being previously examined and approved by the Director of Studies. Objectionable books found in the possession of Students will be withheld from them until their departure from the University.

N. B.—Whether in class or in recreation, when permitted to converse at table, or during their walks, Students should endeavor to improve the purity of their language, and cultivate urbanity of manners. A few years in College would be profitably employed, if nothing else were learned than to converse and behave with the dignity and propriety of gentlemen.

The happiness, no less than the improvement, of Students, is so closely connected with the good order and even rigid discipline of the College, that no young gentleman of good sense, who has at heart his own welfare and the accomplishment of his purpose in entering the Institution, can fail to discover the importance of a strict observance of the foregoing Rules. If the authorities of the University exhort all to exhibit a sincere and unwavering zeal in keeping those Regulations, they demand of Students nothing more than the promotion of their own interest.

Course of Studies.

MIMIM DEPARTMENT.

In this Department are admitted young boys under ten years of age, who are carefully taught—by highly competent lady Teachers—Spelling, Reading, Writing, and the Elements of English Grammar; Geography, History and Arithmetic; so as to fit them, after a lapse of time more or less extended, for the higher branches of study:

CLASSICAL COURSE.

- 7 Elocution.

OPTIONAL STUDIES:—German, French, Irish, Spanish, Italian, Hebrew Painting, Drawing, Music, and Political Economy.

Law Department.

All the branches necessary for a good legal education are included in the course. The Code and Common Law systems of Pleading and Practice are taught. The course of studies in this department embraces, chiefly, Ethics; Political Economy; Constitutional and International Law; Municipal Law; Law of Contracts; Equity Jurisprudence; Criminal Law; Evidence, Pleading and Practice.

For the purpose of acquiring a practical as well as a theoretical knowledge of the legal profession, the students shall be required, during the course, to argue cases, draw up pleadings, and conduct Law and Chancery suits according to the rules and formalities of regular courts of justice.

As it is a matter of the highest importance to a young Lawyer that, on being admitted to the practice of his profession, he should be able to express himself clearly and fluently, full opportunities will be afforded for cultivating the art of public speaking. As one means of attaining this end, and for the purpose of familiarizing the student with the practical workings of his future profession, Moot Courts, under the direction of a Professor, will be frequently held during the course. For the cultivation of other kinds of eloquence, still further facilities are afforded in the various Literary and Debating Societies of the University.

In addition to the general course of instruction, students will receive every assistance in studying the Laws peculiar to their respective States.

The entire course for those just commencing the study of the Law, is intended to be completed in two years divided into four terms which correspond with those of the other departments of the University.

Every applicant for admission into this department is expected to have, at least, a complete English education. It is very desirable that he should also have a classical training before commencing the study of the Law; nevertheless, those who may not possess this advantage will, without extra charge, be afforded ample facilities for acquiring a knowledge of the classics, while prosecuting their legal studies.

Students intending to follow the Law Course may enter at any time, but it is more advisable and profitable for them to present themselves at the beginning of a Term.

The students will be required to pass through an examination at the close of each Term, and also to present an essay, of not more than seven pages of legal cap, on some one of the matters which they shall have seen. The notes of these special examinations and essays, as well as those of the application and general standing of the members in class throughout the Law Course, will be placed to their respective credits in the result of the final examination for the degree of LL. B.

Without entering into details, the order of studies is substantially presented under the following general heads:

First Term.

Nature and divisions of Law; Ethics; Common Law and Pleadings; Law of Contracts as to Personal rights and obligations.

Second Term.

International and Municipal Law; Constitutional Jurisprudence of the United States. Law of Contracts, as to Personal Property. Pleading and Practice.

Third Term.

Political Economy; Law of Evidence; Criminal Law; Pleading and Practice.

Fourth Term.

Law of Real Property; Equity Jurisprudence and Procedure. A general review.

The hours for classes are, on Mondays, Tuesdays, Thursdays, and Fridays, from 10 to 12 a. m., and from 2½ to 3½ p. m.; on Saturdays from 10 to 12 a. m.

Besides the ordinary prizes granted in the different classes, at the end of each collegiate year there will also be two grand prizes, of \$50.00 and \$40.00 each, awarded respectively (subject to the rules and regulations of the University), to the best and second best treatise or discourse, as the case may be, written by students of the graduating class, on some subject chosen by the Faculty, and which will be submitted in due time and form.

Students attending the Law Course will have the privilege of consulting the library, but each one is requested to furnish himself with the leading text-books which are generally used. All the works need not be procured at once, but the student can supply himself with those of more immediate application, as indicated by his Professor, from time to time, in the progress of the course. Among the text-books principally recommended are, Kent's Commentaries; Parsons on Contracts; Colyer on Partnership; Edwards on Bills of Exchange and Promissory Notes; Angell & Ames on Corporations; Bishop on Criminal Procedure; Chitty, and Stephen on Pleading; Washburn on Real Property; Greenleaf on Evidence; Burrill's Law Dictionary; Story on Constitutional Law; Story's Equity Jurisprudence, and others which can be obtained as needed. The usefulness of these works will not cease with the student's career, but, as they are standard authorities on most of the subjects of which they treat, they will continue to be of service in subsequent practice. Hence the desirability of acquiring them as early as possible.

The authorities of the University have determined to spare nothing that can be done by them to place the Law Department on a first-class footing; and have in contemplation, as soon as circumstances will permit, the erection of a separate building for the use of students pursuing this Course.

The students will be expected to conform to the rules of the University.

Further information may be obtained by addressing Rev. W. CORBY, S. S. C., President of the University.

St. Cecilia Philomathean.

"*Excelsior!*" in deed and word;—
 "The *pen* is mightier than the *sword*;"
 Wouldst thou receive the *starry crown*?
 In *tuneful contests* seek renown;—
 "*United for eternity!*"
 CECILIANS, such our motto be!

This Society, one of the oldest and best at Notre Dame, is, at the same time, a Debating, Dramatic and Musical Association. Its exercises include Public Reading, Declamations, Essays, and a Moot Court. It has a good library, and numbers forty members—the *élite* of the Junior Collegiate Department. The plays acted upon the stage for the purpose of bringing out the elocutionary powers of its members are written especially for them, and are intended to increase the love of virtue and righteousness. Their highly moral plays will soon be published by the St. Cecilia Society for the benefit of other societies and institutions which may be in need of such plays.

NOTRE DAME COMMENCEMENT.

[From the Musical Independent, Chicago.]

We had the pleasure of a somewhat hurried visit to the University of Notre Dame (South Bend) on the occasion of the Annual Exhibition, June 22. The exercises consisted of Greek, Latin and English addresses, several pieces by the Notre Dame University Brass Band, two overtures ("William Tell" and "Tancredi" by the orchestra), two dramatic performances by the Thespian Society (the tragedy of "William Tell" and the comedy "The Benefit of Hanging", and a repetition of the late Mr. Girac's cantata composed for the Silver Jubilee of Notre Dame University which occurred last year.

The cantata occupies about twenty minutes and contains two or three very clever choruses and recitatives. * * * * * The orchestral score was imperfectly represented in the absence of trombones, French horns, kettle drums, without which a modern orchestra is scarce half made up. The choruses were taken by the choir of about thirty (the sopranos being, of course, boys) and gave admirable evidence of the thorough drill they have been subjected to by the very capable instructor of singing, Prof. M. T. Corby. The orchestra was too small to do much with the somewhat formidable overture to "William Tell," especially as one of the two first violins was compelled to act as conductor much of the time. Still it is no small achievement to have an orchestra at all, and we have no doubt that year by year the standard of execution will be elevated as the resources multiply, until grand symphonies by the old masters will ring through the classic groves of Notre Dame. The principal first violin, Prof. Mühlberger, S. S. C., is a great enthusiast, and possesses choice violins, one of which is a genuine Amati. The Brass Band played excellently, and the dramas were very well put upon the stage and carried through with spirit. We also took a look at the spacious and elegant buildings, saw the big bell (the largest in America) which weighs fourteen thousand pounds, takes four men to ring, has been heard a distance of sixty miles, they say, and vibrates like the peal of an organ full five minutes after it has been struck; saw also the library, the beautiful grounds, and sampled the eatables.

On Wednesday, the 22d inst, the exercises opened with a grand entrance march, finely rendered by the university band, after which followed an address from the law department, by J. A. O'Reilly; the poem of the alumni, a graceful, well-timed effort, by Prof. A. J. Stace, and a duet from Mendelssohn, by Messrs. Riopelle and Mulhall. After the overture, "William Tell," rendered by the orchestra, came the dramatic success of the morning, "The Upstart,"

presented by the young gentlemen of the St. Cecilia Society, of the Junior Department. Following the dramatic entertainment came an address, "Home, Sweet Home," by W. B. Clarke; the Solo, "Salut à la France," exquisitely rendered by Prof. M. T. Corby; the oration of the alumni, by Prof. Paul Broder, (a very fine address, but curtailed by the Professor in kindness to the overheated audience); the valedictory address, by A. W. Arrington, of Chicago.

Bishop Borgess, of Detroit, then addressed the students, briefly complimenting them on the pleasing entertainment, and on their evident progress during the past year; after which, President Corby, in a few well chosen remarks, bade them adieu until next year, and the large audience dispersed, to partake of the plentiful banquet set out in the large dining-hall, and then, after a good-by view of Notre Dame, to depart to their several homes. But we perceived the University has but one drawback—no women disturb the classic retreat! A perfect paradise of bachelors—some of "arts" and all of nature!

"NOTRE DAME SCHOLASTIC."

This is the title of a neat little paper, published semi-monthly at the University of Notre Dame. The chief object of this paper is to keep the parents and friends of our students informed on the various subjects of study and discipline, as practiced at this University and at St. Mary's Academy, and of the progress and standing of their sons and daughters in these two Institutions. For this purpose regular weekly reports are given, consisting of the names of those who deserve by their good deportment to sit at the Tables of Honor, and who by their perseverance and industry deserve special commendation from their various professors and teachers. Other reports relative to the arrangement of Classes, the promotion of the more talented and energetic students, etc., also find place in this paper, and keep parents and friends accurately informed on all that concerns their children.

This paper also opens a field for aspiring young writers, who might otherwise, through timidity allow their talents in this respect to remain inactive; while many articles of an instructive and literary character, from writers of mature mind and ability, render the SCHOLASTIC a valuable publication for all who desire variety and utility in their reading. Our little College paper at present consists of eight large three-column pages, and as soon as a sufficient patronage will justify its conductors to do so, it will be increased in size, and thus rendered still more useful and interesting.

TERMS: *By mail, for one scholastic year (10 months), \$2 00.*

To students residing at the College or Academy, one year, special terms.

ENDOWMENTS.

Hitherto all the Gold Medals, Gold Prizes, Silver Medals and Silver Prizes, given to the students at Notre Dame, have been given at the expense

of the University. We are, however, convinced, that many of our friends would be pleased to have the privilege of endowing one or more of these Medals which would bear the name of the donor. Let, for example, \$500 be deposited, the interest of which would purchase one of the Gold Medals given for first honors and would perpetuate the name of the donor, as a friend of Education and a benefactor of the Institution. This is no new custom, but one well known even in our American Colleges and Universities. In like manner Professorships could be endowed, providing a salary of from \$800 to \$1500 per annum. Colleges and Universities which are endowed by State or otherwise, do not feel these wants, but a University like this, which has *no endowments whatever*, must appeal to its friends for help, which no doubt will be promptly rendered.

LAW DEPARTMENT.

FACULTY:

Rev. W. CORBY, S. S. C., President of the University.
 Prof. P. FOOTE, A. M., Principal of the Dep't, and University Professor of Law.
 Hon. J. J. MCKINNON, of Chicago—Equity and Chancery Practice.
 T. A. MORAN, LL. B., of Chicago.
 Hon. Judge STANFIELD, of South Bend.
 Prof. L. G. TONG, M. A., Professor of Commercial Law.
 Rev. M. B. BROWN, S. S. C., Professor of Ethics.

The Course of Studies embraces Ethics, Constitutional and International Law, Common Law, Law of Contracts, Equity, Criminal Law, Evidence, Pleading and Practice. The entire course is two years or four terms, corresponding with those of the other departments of the University.

Qualifications.—Every applicant for admission to the Law Department must have at least a good English education, and a fair knowledge of the sciences. Graduates of classical institutions are preferred. During the course, however, the law-student, having the necessary qualifications for admission, shall be afforded every facility for acquiring a knowledge of the classics.

COMMERCIAL DEPARTMENT.

Faculty and Board of Officers.

Rev. W. CORBY, S. S. C., President.
 L. G. TONG, M. A., Professor of Book-keeping and Commercial Law.
 W. J. IVERS, A. M., Professor of Mathematics.
 J. A. LYONS, A. M., Professor of English.
 M. T. CORBY, A. M., Professor of Penmanship.
 Bro. CAMILLUS, S. S. C., Assistant Professor of Book-keeping.

This Department forms one of the three grand divisions of study in the University. Candidates for graduation have to pass a satisfactory examination in each of the above branches. The routine of study in the Course of Book-keeping embraces the following, the whole being completed in one scholastic year:—Preparatory Instructions and Definitions; Initiatory sets by

Double Entry—1st Series, Embracing the Buying and Selling of Merchandise on Private Account; 2d Series, On Account of others; 3d Series, Buying and Selling the same on Joint Account; 4th Series, Importing and Exporting on private account, on account of others, and account of ourselves and others in company; 5th Series, Receiving and Forwarding Merchandise, the Management and Settlement of Executors' Accounts, Buying, Selling, Remitting, Collecting, Discounting, Accepting and Paying Bills of Exchange, Banking—Private and Joint Stock—Steamboating, Railroading, Retailing by Double Entry, Farming, Mechanics' Accounts. The whole course illustrating the opening conducting and closing of Stock and Partnership books—gaining and losing business, &c., &c. Saturdays are devoted to Commercial Law. For this purpose, "Parsons' Laws of Business for Business Men" is used as a text-book, and the students are required to prepare the lessons the same as recitations in other classes of the college. Particular attention is paid to the explanation of the Law of Negotiable paper.

SPECIAL COURSE OF LECTURES.

A Course of Lectures on each of the following subjects will be given for the benefit of the students in the Classical and Scientific Courses. On NATURAL SCIENCES, five lectures, as follows, by Rev. J. C. Carrier: 1st, "The Record in the Rocks and the Record in the Bible not conflicting, but proving each other;" 2d, "Man not alone the *Archon* of Material Beings, but also a new and distinct Creation;" 3d, "The Phenomena of Plant-Life;" 4th, "The Correlation of Functions of the Human Body;" 5th, "The Importance and Scope of Mineralogy." On MODERN HISTORY, by Prof. T. E. Howard: 1st, "The Goths in Italy, Spain, etc.—France and Germany from Clovis to Hugh Capet—The Feudal System;" 2d, "The Eastern Empire—Mahomet and his Successors;" 3d, "The Crusades—The Asiatic Nations;" 4th, "Modern Continental Europe from Hugh Capet to Napoleon;" 5th, "England;" 6th, "America." A Lecture on ANCIENT CLASSICS AND MODERN EDUCATION, by Prof. J. A. Lyons. A Course of four Lectures on POLITICAL ECONOMY, by Prof. P. Foote, LL. M. ENGLISH LITERATURE—ORIGIN AND DEVELOPMENT, by Rev. P. D'Arcy.

ANATOMY AND MATERIA MEDICA.

Young men desiring to study for the Medical profession will find opportunities to do so at Notre Dame. Yet, owing to the want of a sufficient museum whereby this important branch could be thoroughly illustrated, the course of studies in this department embraces principally Anatomy. The remainder of the course is completed in some of our neighboring Universities. As a preparatory course, that which is given here under Rev. L. Neyron, M. D., leaves nothing to be desired.

"SILVER JUBILEE."

Such is the name of a splendid volume replete with interesting matter concerning the History of Notre Dame University, its Presidents and Alumni,

its Literary Associations, Clubs, etc., and with a full report of the great "Silver Jubilee" of the Institution in 1869. A second edition has just been published containing more extensive information and interesting details, both on the University and the flourishing Academy of St. Mary's. It is the finest work of its kind, is beautifully printed on tinted paper, illustrated with several interesting views and faithful portraits, handsomely bound, with gilt edges. Price \$2.50. Prof. J. A. Lyons, compiler, Notre Dame University, Indiana.

MUSEUM.

The Museum has received valuable donations during the past year. A collection of Minerals, procured especially for it, was sent as a present by E. Teats, Esq., Colorado. Specimens of Geology were also donated by Mr. T. Ewing, of Lancaster, Ohio.

The Zoölogical collection is receiving yearly new additions through the indefatigable energy of the Curator.

The Botanical collection is quite rich in foreign and native specimens. The Herbarium of Thomas Cauvin, ex-President of the European Scientific Congress, contains 4000 specimens.

CONSERVATORY OF MUSIC.

The scholastic year 1869-70 numbers among its chief features the establishment of the Conservatory of Music, wherein are received young men whose proficiency in Instrumental Music is of a superior order. The Department of Music at Notre Dame lacks nothing that can recommend it to the students. The Faculty of Music is composed of first class Professors.

ASTRONOMICAL OBSERVATORY.

A temporary Astronomical Observatory was erected during the course of the past year, and the fine instrument presented by the Emperor Napoleon located therein. The studies of the Class of Astronomy are now rendered practically interesting.

FINE ARTS.

Drawing and Painting have been always favorite studies at Notre Dame, and improvements will be made to render these studies more attractive during the coming year. Casts, busts, and valuable paintings will be procured for the use of the Drawing Class, directed by Prof. C. A. B. Von Weller and Bro. Albert.

LIBRARIES.

The Libraries contain some eleven thousand volumes, very carefully arranged by the Librarian, Rev. J. C. Carrier. Donations of books, especially to the Law Library, will be thankfully received.

ST. MARY'S ACADEMY,

One Mile West of Notre Dame University.

Conducted by the Sisters of Holy Cross.

THIS Institution, situated on the beautiful and picturesque banks of the St. Joseph River, is everything that could be desired as a locality for a Female Academy. All the branches of a solid and complete Education are taught here. Music especially, both Vocal and Instrumental, and the MODERN LANGUAGES, form prominent features in the Course of Instruction.

Although particular attention is paid to the Religious Instruction of Catholic pupils, yet pupils of all denominations are received, and, for the sake of order, merely required to attend the public religious exercises with the members of the Institution.

The Buildings are spacious and commodious, suited to the Educational requirements of the day, and furnished with all Modern Improvements. Every portion of the building is heated by steam, and hot and cold baths are attached to the sleeping apartments.

The Grounds are very extensive, beautifully adorned, and situated in that charming seclusion which is so favorable to the healthful development of moral, physical and intellectual powers.

The proximity of the two Institutions to each other is a great convenience to parents having children at both, when they visit their sons and daughters.

. For further particulars concerning this Institution, the public are referred to the "Fifteenth Annual Catalogue of St. Mary's Academy," for the year 1870-71; or address
