University of Notre Dame.

THIS UNIVERSITY was founded in 1842 by the Congregation of the Holy Cross, under the direction of Very Rev. E. Sorin, and was chartered by the Legislature of the State of Indiana in 1844, with power to confer all the usual degrees.

The College buildings are on an eminence, near two small, picturesque lakes of pure spring water, in the midst of the fine and healthy farming region of the St. Joseph Valley, and scarcely a mile from the river. The College can easily be reached from all parts of the United States and Canada, by means of three great trunk lines of Railway,—the Lake Shore & Michigan Southern, the Chicago & Lake Huron, and the Great Western & Michigan Central; the former passing within a mile of the College grounds, and the latter connecting at Niles with the recently-built Railway between that place and South Bend, which runs within half a mile of the College. At the Michigan Southern Railroad depot, South Bend, omnibuses or private conveyances can be obtained.

The buildings are well adapted for the purpose for which they were erected. The Study-Halls, Class-Rooms, Dining-Rooms, Sleeping Apartments, and Recreation-Halls are commodious, and capable of giving accomodation to five hundred resident Students.

THE SITE

of the College is one particularly adapted to the improvement of the Students. It is secluded and healthy, and constant care is rendering a spot naturally beautiful still more attractive by art and good taste.

We state only the advantages of

HEALTH AND RETIREMENT

that are enjoyed by the inmates of the Institution;—a description of all that pleases at NOTRE DAME would take us beyond the limits of these pages. We prefer to give a hearty invitation to all our patrons, and to all who think of confiding their sons to our care, to come and see and judge for themselves.

The advantages arising from

THE RETIRED POSITION

of the College cannot fail to be appreciated by parents who have at heart the education of their children; and even the careless student when once interested in his studies soon finds out the benefits he can derive from an uninterrupted attention to class and study. Though secluded in a great measure from the busy world without, yet the number of Students and the extensive College grounds give him a world of his own, in which, what with Class, Examination, Notes, Literary Societies, Religious Associations, Baseball Clubs, Boat-Clubs, Dramatic and Musical Entertainments, he finds full enjoyment and amusement, and companions, ideas and sentiments that all concur to fix

his mind on his studies and establish him in habits of piety, application and order—the influence of which will be felt during his entire life. He breathes for a few short years the atmosphere of order, of regularity in all that he does; of profound application to studies, broken only by healthy and regular recreation; and certainly, in our times, when serious and solid studies are becoming so rare, when all kinds of inducements to waste and fritter away time are forced upon young Students, when morals are so lightly watched over, the advantage of the retired locality of NOTRE DAME cannot be too highly spoken of.

Providence has singularly blessed the Institution in regard to health; and those who have had their sons in the College can give their testimony that the regular course of life, added to the salubrious climate and the fresh country air, has done much to improve the health of their children.

The disciplinary government is mild, yet sufficiently energetic to preserve order and regularity. The morals and general deportment of the pupils are assiduously watched over, and their comforts and personal habits receive the same attention as if they were in the bosom of their own families.

REGULATIONS OF THE UNIVERSITY.

All the Students are required to attend the exercises of public worship with punctuality and decorum.

Students must show themselves obedient and respectful towards the Professors and Prefects of the Institution—never absenting themselves from the place in which they ought to be, without permission from proper authority.

Students must carefully avoid every expression in the least injurious to religion or morals, their Professors, Prefects or fellow-Students.

The use of tobacco is strictly forbidden to such as have not permission from their parents or guardians.

Intoxicating liquors are absolutely prohibited.

Compensation for all damage done to the furniture or other property of the College will be required from the person or persons causing such damage.

No branch of study, once commenced, shall be discontinued without permission of the Director of Studies.

No one shall leave the University grounds without the permission of the President or Vice-President.

Bath-rooms, provided with hot and cold water, are fitted up for the use of the Students during the winter. In warm weather, however, the Students bathe twice a week in St. Joseph's Lake.

Students who have failed to give satisfaction in the Class-room, or who shall have been guilty of misconduct, shall perform such tasks as shall be assigned them, and will be excluded from all college exercises until such tasks be accomplished.

No book, periodical or newspaper shall be introduced into the College without being previously examined and approved by the Director of Studies.

Objectionable books found in the possession of Students will be withheld from them until their departure from the University.

All letters sent or received by Students may be opened by the President or his representative.

GENERAL INFORMATION.

The Academic Year commences on the first Tuesday of September, and closes on the last Wednesday of June, when the Annual Commencement, the Conferring of Degrees and Distribution of Premiums take place. It is divided into two Sessions of five months each. At the termination of each Session, a strict examination of all the different classes is made in the presence of the Faculty. There is no vacation at Christmas or Easter.

When a student presents himself for admission into the College, he is examined by the Director of Studies, and placed in the class for which his previous attainments may have qualified him. His further promotion depends on his application and progress. Should any Student, during the year, be found capable of passing to a higher class, he will be promoted, and such promotion is equivalent to the honors of the class he left.

The Degree of Bachelor of Arts will be conferred on such of the Students as shall have completed their Classical Course, and passed successfully an examination before the Faculty.

The Degree of Master of Arts will be conferred on each of the Graduates of the first Degree who shall have devoted at least two years to literary or scientific studies.

The Degree of LL. B., as also those of Bachelor of Science, Master of Science, and Civil Engineer, will be conferred on similar conditions.

Diplomas will be given to the Students who shall have completed the Commercial Course, passed a satisfactory examination before the Board of Examiners, and given clear evidence of their good character.

Special facilities exist at NOTRE DAME for the acquirement of the French and German Languages. Not only are these Languages taught very carefully by persons of acknowledged competency, but many of the members of the Institution being natives of France and Germany, opportunities at all times occur for conversation in these tongues.

All Students applying for admission will be required to give satisfactory evidence of their moral standing.

There are in the Institution several Societies, whose Constitution and By-Laws have been approved by the Faculty, such as the Archconfraternity, St. Gregory's Society, Holy Angels', Holy Childhood, Philodemic, St. Edward's, Thespian, St. Cecilia's, Columbian, St. Stanislaus Philopatrian, and Philharmonic Societies, Cornet Band, and two Orchestras, with which Students are authorized and recommended to connect themselves.

 In case of sickness, the Student does not remain in the College rooms, but is immediately taken to the Infirmary, where he is attended and nursed with devoted care by experienced Sisters, whose attention to the sick needs no recommendation.

 (2) GEOMETRY—(Begun)—All Plane Geometry.—*Loomis*.
 III. Nat. Sciences—(1) HUMAN PHYSIOLOGY—Structure and Mechanism of the Human Body—Nutrition.—*Dalton*.
 IV. Languages—(1) FRENCH, GERMAN OR LATIN*—(See Course of Modern Languages).

Second Session.

- I. English—(1) RHETORIC—From Figures (exclusive) to the end, with review of Composition—Essays.—*Hart*.
 (2) ANCIENT HISTORY—From the Founding of the City of Rome to the end.—*Fredet*.
 (3) ANCIENT GEOGRAPHY—To correspond with subject matter of History.—*Mitchell*.
 II. Mathematics—(1) GEOMETRY—(Completed)—Geometry of Space, (Solid and Spherical).—*Loomis*.
 III. Nat. Sciences—(1) HUMAN PHYSIOLOGY—Nervous System and Development.—*Dalton*.
 IV. Languages—(1) FRENCH, GERMAN OR LATIN—(See Course of Modern Languages).

Sophomore Year.

First Session.

- I. English—(1) AMERICAN LITERATURE—Entire subject.—*Hart*.
 (2) MODERN HISTORY—To the Crusades.—*Fredet*.

* Students preferring to take Latin will follow the regular grades of the Classical Course.

- II. Mathematics—(1) TRIGONOMETRY—The entire Subject, including Mensuration.—*Loomis*.
- III. Nat. Sciences—(1) GEOLOGY—Physiographic and Lithological Geology; History of Geology to the Mesozoic times.—*Dana*.
- IV. Languages—(1) FRENCH, GERMAN OR LATIN—(See Course of Modern Languages.)
- Second Session.
- I. English—(1) ENGLISH LITERATURE—(Continued).—*Hart*.
 (2) AMERICAN LITERATURE.—*Royce*.
 (3) MODERN HISTORY—From the Crusades to the end.—*Fredet*.
 (4) ELOCUTION—Principles of Elocution and Voice Culture.—*Lyons*.
- II. Mathematics—(1) GENERAL GEOMETRY AND CALCULUS—*Olney*.
 (2) SURVEYING—The entire subject of Land Surveying.—*Gillespie*.
- III. Nat. Sciences—(1) GEOLOGY—History of Geology, concluded; Dynamical Geology.—*Dana*.
- IV. Languages—(1) FRENCH, GERMAN OR LATIN—(See Course of Modern Languages).

Junior Year.

First Session.

- I. Mathematics—(1) GEN. GEOMETRY AND CALCULUS—Continued—*Olney*.
 (2) ASTRONOMY—To Eclipses.—*Loomis*.
- II. Mental Science—(1) LOGIC—Dialectics and Certainty.
- III. Phys. Sciences—(1) PHYSICS—(Elementary)—Mechanics, Acoustics, and Heat.—*Peck's Ganot*.
 (2) CHEMISTRY—(Elementary)—Theoretical Chemistry.—*Barker*.
- IV. Nat. Sciences—(1) BOTANY—The first twelve and last five lessons.—*Gray*.
 (2) ZOÖLOGY—Vertebrate Animals.—*Nicholson*.
- V. Languages—(1) FRENCH, GERMAN OR LATIN—(See Course of Modern Languages).

Second Session.

- I. Mathematics—(1) ASTRONOMY—From Eclipses to the end.—*Loomis*.
- II. Mental Science—(1) PSYCHOLOGY—Experimental and Rational.
- III. Phys. Science—(1) PHYSICS—(Elementary)—Optics, Magnetism, and Electricity.—*Peck's Ganot*.
 (2) CHEMISTRY—(Elementary)—Inorganic Chemistry.—*Barker*.
- IV. Nat. Sciences—(1) BOTANY—The remaining lessons.—*Gray*.
 (2) ZOÖLOGY—Invertebrate Animals.—*Nicholson*.

- V. Languages—(1) FRENCH, GERMAN OR LATIN—(See Course of Modern Languages).

Senior Year.

First Session.

- I. Moral Science—(1) ETHICS—Entire Subject.
 II. Phys. Sciences—(1) GENERAL PHYSICS—First Six Books.—*Atkinson's Ganot*.
 (2) ANALYTICAL CHEMISTRY—First Part—Outlines of Chemical Analysis.—*Wells*.
 III. Nat. Sciences—(1) MINERALOGY—Crystallography.—*Dana*.
 (2) COMPARATIVE ANATOMY.—*Huxley*.
 IV. Languages—(1) FRENCH, GERMAN OR LATIN—(See Course of Modern Languages).
 V. Const. Law—(1) LECTURES by the Professor.

Second Session.

- I. Metaphysics—(1) THEODICY } Entire Subject.
 (2) ONTOLOGY }
 II. Phys. Sciences—(1) GENERAL PHYSICS—Last Four Books.—*Atkinson's Ganot*.
 (2) ANALYTICAL CHEMISTRY—Second Part—Outlines of Chemical Analysis.—*Wells*.

ELECTIVE STUDIES.

LANGUAGES.—Greek, Italian, Spanish, Hebrew.

FINE ARTS.—Painting, Drawing (Figure, Landscape, Mechanical and Architectural).

MUSIC.—Vocal and Instrumental.

Any Student in this Course will be at liberty to take any of these studies at any period of his Course, provided he can do so consistently with his regular studies.

* It must be remembered that whichever of the three languages, viz.: French, German or Latin, is taken up at the beginning of the Freshman Year, must be continued to the end of the Course, or till satisfactorily known.

In addition to the regular recitations and practical illustrations in the Natural and Physical Sciences, Lectures are given throughout the Course by the Professor.

The following works in the Natural and Physical Sciences are recognized by the Faculty, and the Student may, if he desire it, be examined in them on the subjects corresponding with those marked in the Course of Studies:

Fownes' Manual of Chemistry; Miller's Chemistry; Bowman's Practical Chemistry; Snell's Olmsted's Natural Philosophy; Deschanel's Natural Philosophy; Silliman's Natural Philosophy; Cooke's Chemical Physics; Nicholson's Manual of Zoölogy; Dalton's Treatise on Human Physiology; Carpenter's Physiology; Flint's Physiology of Man; Cuvier's Animal Kingdom; Brown's Animal Kingdom; Huxley's Elements of Comparative Anatomy; Wagner's Comparative Anatomy of Vertebrated Animals; Owen's Lectures; Gray's Structural and Systematic Botany; Wood's American Botanist and Florist; Dana's System of Mineralogy; Dana's Manual of Geology, Lyell's Principles of Geology.

CIVIL ENGINEERING.

Those desirous of admission to this Course, must, if not Graduates of the Scientific Course, pass satisfactory examination in the Mathematics and Physical Sciences of that Course.

Junior Year.

First Session.

- I. **Drawing**—(1) **THEORY**.—Isometry.—Warren's Plane Projection.
(2) **PRACTICE**.—Exercises in Blending and Shading—
India Ink and Sepia.
- II. **Applied Math.**—(1) **MECHANICS**.—Smith's Analytical Mechanics.
(2) **ASTRONOMY**.—Computations of Time, Latitude and
Longitude, and use of Astronomical
Instruments.
(3) **DESCRIPTIVE GEOMETRY**.

Second Session.

- I. **Drawing**—(1) **THEORY**.—Linear Perspective.
(2) **PRACTICE**.—Use of Water Colors, etc.
- II. **Applied Math.**—(1) **ANALYTICAL MECHANICS** finished.
(2) **GEODESY**.—Field Practice. Use of Engineering In-
struments.—Henck's Field Book for
Engineers.

Senior Year.

First Session.

- I. **Drawing**—(1) **THEORY**.—Shades, Shadows, etc.
(2) **PRACTICE**.—Topographical Drawing.

- II. Applied Math.**—(1) CIVIL ENGINEERING (Rankine's) begun.
(2) Lectures on Resistance of Building Materials, etc.

Second Session.

- I. Drawing**—(1) Plans and Elevations of Engineering Constructions;
Stone Cutting, Machine Drawing, Architectural
Drawing.

- II. Applied Math.**—(1) RANKINE—(Concluded).
(2) Lectures on Roads and Bridges.
(3) HYDRAULICS—Morin's *Traité d'Hydraulique*.

Law Department.

All the branches necessary for a good legal education are included in the Course. The Code and Common Law systems of Pleading and Practice are taught. The Course of Studies in this department embraces, chiefly, Ethics, Political Economy; Constitutional and International Law; Municipal Law; Law of Contracts; Equity Jurisprudence; Criminal Law; Evidence, Pleading and Practice.

For the purpose of acquiring a practical as well as a theoretical knowledge of the legal profession, the students shall be required, during the course, to argue cases, draw up pleadings, and conduct Law and Chancery suits according to the rules and formalities of regular courts of justice.

As it is a matter of the highest importance to a young lawyer that on being admitted to the practice of his profession, he should be able to express himself clearly and fluently, full opportunities will be afforded for cultivating the art of public speaking. As one means of attaining this end, and for the purpose of familiarizing the student with the practical workings of his future profession, Moot Courts, under the direction of a Professor, will be frequently held during the Course. For the cultivation of other kinds of eloquence, still further facilities are afforded in the various Literary and Debating Societies of the University.

In addition to the general course of instruction, students will receive every assistance in studying the Laws peculiar to their respective States.

The entire course for those just commencing the study of the Law, is intended to be completed in two years, divided into four terms which correspond with those of the other departments of the University.

Every applicant for admission into this department is expected to have, at least, a complete English education. It is very desirable that he should also have a classical training before commencing the study of the Law; nevertheless, those who may not possess this advantage will, without extra charge, be afforded ample facilities for acquiring a knowledge of the classics, while prosecuting their legal studies.

Students intending to follow the Law Course may enter at any time, but it is more advisable and profitable for them to present themselves at the beginning of a Term.

The students will be required to pass through an examination at the close of each Term, and also to present an essay, of not more than seven pages of legal cap, on some one of the matters which they shall have seen. The notes of these special examinations and essays, as well as those of the application and general standing of the members in class throughout the Law Course, will be placed to their respective credits in the result of the final examination for the degree of LL. B.

First Year.

First Session.—Walker's American Law; Blackstone's Commentaries; Angell and Ames on Corporations.

Second Session.—Kent's Commentaries; Parson's Contracts; Greenleaf's Evidence.

Second Year.

First Session.—Washburn on Real Property; Stephen on Pleading; Story on Conflict of Laws.

Second Session.—Equity Jurisprudence—*Story*; Constitutional Law; Criminal Law—*Bishop*.*

COMMERCIAL COURSE.

Junior Year

Both Sessions.—(1) ARITHMETIC—Same as First Year Preparatory in Classical Course.

(2) GRAMMAR and Letter-Writing—Same as first Year Preparatory in Classical Course.

(3) GEOGRAPHY—The amount included in both Sessions of Collegiate Preparatory Course.—*Mitchell*.

(4) UNITED STATES HISTORY—The amount included in both Sessions of Collegiate Preparatory Course.—*Barnes*.

(5) GERMAN—(See Course of Modern Languages).

(6) PENMANSHIP.

Senior Year.

First Session.—(1) ARITHMETIC—(Completed)—Same as First Session of Second Year Preparatory in Classical Course.

(2) GRAMMAR and Letter-Writing—Same as First Session of Second Year Preparatory in Classical Courses

(3) BOOK-KEEPING—Theory and Practice—Initiatory sets by Double Entry.—*Bryant & Stratton*.

* Lectures on Ethics during both Sessions of the last year.

- (4) GERMAN—(See Course of Modern Languages).
- (5) PENMANSHIP.

Second Session.—(1) GRAMMAR and Essays—Same as Second Session of Second Year Preparatory in Classical Course.

- (2) BOOK-KEEPING—Banking, Railroading, Steamboating, etc.—*Bryant & Stratton.*
- (3) COMMERCIAL LAW—Laws of Business.—*Parsons.*
- (4) GERMAN—(See Course of Modern Languages).
- (5) PENMANSHIP.

ELECTIVE STUDIES.

Elocution, French, Italian, Spanish, Drawing, Music, Political Economy, Algebra, and the higher branches of English, provided the Student is prepared for them.

Course of Modern Languages.

GERMAN.

First Year.

- First Session.—(1) AHN'S EXERCISES—Sixty Exercises.
 (2) AHN'S READER—Twenty Lessons for Translation.
 (3) AHN'S GRAMMAR—As far as Verbs.
 (4) READING, Writing and Orthography.

- Second Session.—(1) AHN'S EXERCISES—From 60th to 124th Exercise.
 (2) AHN'S READER—From 20th to 45th Lesson for Translation.
 (3) AHN'S GRAMMAR—From Verb to Syntax, and Review.
 (4) READING, Writing and Orthography.

Second Year.

- First Session.—(1) WOODBURY'S NEW METHOD—Thirty-five Lessons.
 (2) WOODBURY'S GRAMMAR—As far as Syntax.
 (3) ADLER'S READER—For Translation, seventy-five pages.
 (4) READING, Writing, and Orthography.

- Second Session.—(1) WOODBURY'S NEW METHOD—From 35th to 65th Lesson.
 (2) WOODBURY'S GRAMMAR—Syntax.
 (3) ADLER'S READER—Selections of Prose and Poetry.
 (4) DRITTE'S SCHULBUCH—Selections.
 (5) GERMAN LETTER-WRITING—Principles of Composition.

Third Year.

First Session.—(1) MEÜWSEN'S CURSUS DER DEUTSCHEN SPRACHE, and Whitney's German Grammar.

(2) VIERTES SCHULBUCH—Selections.

(3) GERMAN LETTER-WRITING and Compositions.

Second Session.—(1) MEÜWSEN'S CURSUS DER DEUTSCHEN SPRACHE, and Whitney's German Grammar.

(2) VIERTES SCHULBUCH—Selections from Schiller or Goethe.

(3) GERMAN COMPOSITIONS.

(4) LECTURES on German Literature by the Professor.

FRENCH.

First Year.

First Session—(1) FASQUELLE'S INTRODUCTORY FRENCH COURSE—Thirty Lessons.

(2) DE FIVAS' ELEMENTARY FRENCH READER—Twenty pages.

Second Session—(1) FASQUELLE'S INTRODUCTORY FRENCH COURSE—Thirty-nine Lessons.

(2) DE FIVAS' READER—To the end.

Second Year.

First Session—(1) FASQUELLE'S FRENCH COURSE—Forty-five Lessons, and from page 261 to page 327 of Second Part, same work.

(2) LITTÉRATURE CONTEMPORAINE—Fifty Pages; Letter-Writing.

Second Session—(1) FASQUELLE'S FRENCH COURSE—From 46th Lesson to end of First Part, and from page 327 to end of Second Part.

(2) LITTÉRATURE CONTEMPORAINE—To end; Exercises in Composition.

Third Year.

First Session—GRAMMAIRE DE NOEL ET CHAPSAL, with Exercises—Etymology.

(2)—LITTÉRATURE CLASSIQUE—Conversations; weekly exercises in Composition.

Second Session—(1)—GRAMMAIRE DE NOEL ET CHAPSAL, with Exercises—Syntax.

(2)—TÉLÉMAQUE—Conversations and Compositions.

The Associated Alumni.

This Association was organized in 1869, the year of the Silver Jubilee, and held its first meeting in June of that year, on the day preceding the Annual Commencement.

The Association numbers among its members not only the regular graduates of the University, but also those who at any time held the office of President or Vice-President of the University, and those on whom honorary degrees have been conferred by the Faculty. Those who have been prominently connected with the University of Notre Dame as Professors are eligible to membership, and may be admitted by a two-third vote of the members present at any regular meeting.

The following is a list of the members up to June 24, 1874. The graduates of '74 will be found on another page.

The Holy Childhood.

The primary object of the Society of the Holy Childhood, of which this little Society forms a part, is to afford an opportunity to *children* throughout the Christian world to contribute their share towards the redemption of Pagan children from the darkness of heathenism. The monthly con-

tributions of the members of this Society are small, but the aggregate is considerable—while thousands of children are by this means trained up to habits of charity.

MINIM DEPARTMENT.

In this Department are admitted young boys under ten years of age, who are carefully taught—by highly competent lady teachers—Spelling, Reading, Writing, and the Elements of English Grammar; Geography, History and Arithmetic; so as to fit them, after a lapse of time more or less extended, for the higher branches of study.

Specialties.

Post-Graduate Course.

The want of such a Course has been for a long time felt by Students desirous of continuing to perfect themselves in those studies which require several years of close attention. The Post-Graduate Course is now open, and we invite our Graduates, and such others as are able, to enter it and avail themselves of the advantages it affords of prosecuting their studies to a successful conclusion. The Students in this course occupy themselves with Philosophy, History, and the Natural Sciences. Law and Civil Engineering may be optional studies of the Course.

Law Department.

We trust to see our Law Department better and better attended year after year. We have every reason to be proud of the young men who each year have sought the classic retirement of Notre Dame to pursue their Law studies. We will endeavor to make their sojourn among us an agreeable one, and give them the advantages offered by other Institutions.

Civil Engineering.

This important branch of study will be commenced next Session, and will afford our advanced students the opportunity long desired of fitting themselves for important professions in life.

Languages.

It is the desire of the authorities of the University of Notre Dame to promote the study of the foreign languages, the use of which is so frequent and necessary for business or scientific purposes.

The German language, the classes of which are so numerous attended, will be taught by four Professors during the next scholastic year. The number of German students attending the University is becoming greater every year.

The French language, though more especially the language of the Collegiate Course, will be of great advantage to the Scientific students. Other languages—such as Italian and Spanish—may be taught when required.

Phonography and Telegraphy.

These two branches invite the special attention of the students of the Commercial Course. The Telegraph Department is fully organized, and placed under the management of a skilful electrician. It is very probable that

Notre Dame will be in direct communication with South Bend and the rest of the world by electric wires before the end of 1874.

Anatomy and Materia Medica.

Young men desiring to study for the Medical profession will find opportunities to do so at Notre Dame. Yet, owing to the want of a sufficient museum whereby this important branch could be thoroughly illustrated, the course of studies in this Department is limited, and embraces principally Anatomy. The remainder of the course is completed in some of our neighboring Universities. As a Preparatory Course, that which is given here, under Rev. L. Neyron, M. D., leaves nothing to be desired.

Painting and Drawing.,

The Drawing Classes show each year a large increase on the preceding years. The University enjoys means adequate to all demands in that branch. It possesses a large number of models in all sorts of drawings, a fine studio, and a vigilant and zealous teacher of the art.

Painting promises likewise to be one of the popular branches of Art taught at Notre Dame. The famous painter Gregori, of Rome, has been finally engaged, by Very Rev. Father Sorin, to come to Notre Dame in August. His contract is to last three years. Gregori has no superior in Rome.

Music.

This Department is complete in all its appointments. It has five Professors, and is divided into classes on the regular Conservatory system. An Orchestra of fifteen pieces, with an excellent Quartette, and a Brass Band of twenty-five instruments, are some of the leading features of the Musical Department.

Vocal Music will receive special attention next year. A Professor of merit will have charge of it. We call the attention of our students and patrons to this favorite and useful branch of music, which is now so deservedly popular.

Astronomical Observatory.

A temporary Astronomical Observatory has been erected, in which the fine instrument presented by the Emperor Napoleon has been placed. The studies of the Class of Astronomy are now rendered practically interesting.

Libraries.

The College Library contains some twelve thousand volumes, very carefully arranged by the Librarian, Rev. Joseph C. Carrier, C. S. C. Donations of books, especially to the Law Library, will be thankfully received.

The Circulating Library was commenced two years ago, with four hundred volumes—it now numbers over twelve hundred. All the Libraries which

formerly belonged to Literary and Religious Societies have been merged into it. Instead of the dozen or more bookcases which often only hid away instructive books, a beautiful collection of Literary and Religious works is now open to the students in a room fitted up as a Reading Room.

“THE SCHOLASTIC.”

This is the title of a neat little paper published every week, except in vacation, at the University of Notre Dame. The chief object of this paper is to keep the parents and friends of our students informed on the various subjects of study and discipline at this University and at St. Mary's Academy, and of the progress of their sons and daughters in these two institutions. For this purpose, regular weekly reports are given, consisting of the names of those who deserve, by their excellent conduct, to be recorded on the Roll of Honor, and who by their perseverance and industry deserve special commendation from their various professors and teachers. Other reports relative to the arrangement of classes, the promotion of the more talented and energetic students, etc., also find place in this paper, and keep parents and friends accurately informed on all that concerns their children.

This paper also opens a field for aspiring young writers, who might otherwise, through timidity, allow their talents in this respect to remain inactive; while many articles of an instructive and literary character, from writers of mature mind and ability, render THE SCHOLASTIC a valuable publication for all who desire variety and utility in their reading. Our little College paper at present consists of eight wide two-column pages, and as soon as a sufficient patronage will justify its conductors in doing so, it will be increased in size and thus rendered still more useful and interesting.

SAINT MARY'S ACADEMY,

(One Mile West of Notre Dame University.)

Conducted by the Sisters of Holy Cross.

THIS Institution, situated on the beautiful and picturesque banks of the St. Joseph River, is everything that could be desired as a locality for a Female Academy. All the branches of a solid and complete Education are taught here. Music especially, both Vocal and Instrumental, and the MODERN LANGUAGES, form prominent features in the Course of Instruction.

Particular attention is paid to the Religious Instruction of Catholic pupils. Pupils of all denominations are received, and, for the sake of order, merely required to attend the public religious exercises with the members of the Institution.

The Buildings are spacious and commodious, suited to the Educational requirements of the day, and furnished with all modern improvements. Every portion of the building is heated by steam, and hot and cold baths are attached to the sleeping apartments.

The Grounds are very extensive, beautifully adorned, and situated in that charming seclusion which is so favorable to the healthful development of moral, physical and intellectual power.

The proximity of the two Institutions to each other is a great convenience to parents having children at both, when they visit their sons and daughters.

For further particulars concerning this Institution, the public are referred to the Nineteenth Annual Catalogue of St. Mary's Academy, for the year 1873-4, or address
