# EXPLANATION OF CODING UTILIZED IN THIS SCHEDULE OF COURSES BOOKLET

(Please note column referencing appropriate to the course scheduling form.)

## THE UNIVERSITY RESERVES THE RIGHT TO CANCEL OR RE-ASSIGN INSTRUCTORS OR STUDENTS IN A CLASS.

### I COURSE TITLE

An abbreviated descriptive title of each course. More detailed course descriptions are available in the respective college section of the Bulletin of Information, Undergraduate Programs and in the respective departmental offices.

### II DEPARTMENTAL ABBREVIATION (Column A on the course scheduling form.)

These are four or less letters which abbreviate the title of the department. The abbreviated code appears at the top of each new department in this Schedule of Courses booklet, along with the location of the respective departmental office, as well as in the second column of the departmental course offerings.

### III COURSE NUMBER AND SUFFIX (Column B on the course scheduling form.)

Use the appropriate course number and suffix indicated in this Schedule of Courses booklet. If a course is divided into two or more parts (lab, drill, demonstration, etc.) or, if it is to be designated as "honors", use the appropriate suffix to designate this information. The standard suffixes used are "A", "B", and "C" for the same course when either the content, approach or the credit hours differ; "D" denotes a Drill or Demonstration course; "H" for Honors; "L" for Lab; "R" for Research courses; "S" for Studio courses which meet at actual clock hours indicated; "T" for Tutorial sections.

### IV CREDIT HOUR (Column C on the course scheduling form.)

This column reflects the total number of credits to be awarded in a particular course. If the credit hour column is blank, the course is a "no grade" class which is usually a portion of a lecture, i.e. Lab and Drill, to which credit hours are assigned. If the column has "00" printed in it, the course is a graded course where the grade is usually "S" or "U" and it is not included in student averages. If the letter "V" is printed in this column, it is a variable credit hour course and the advisor must assign credit hours to the course. These variable credit classes have section numbers in the 50's.

### V CLASS SEQUENCE NUMBER (Column D on the course scheduling form)

A six digit number unique to each section of each course offered. Print all six digits of the class sequence number when requested. The last two digits of each Class Sequence Number indicates the "section" number and must be shown.

### VI HOUR/DAY ABBREVIATIONS (Columns E and F on the course scheduling form.)

If the time is omitted, the instructor will arrange the class meeting hours with the students. Where hour/days are specified for a class, the following standard time and day designations are stipulated.

#### STANDARD TIME AND DAY DESIGNATIONS
