the university

new advisory council members

Thomas G. Gillespie, Jr., secretary and senior vice president of Halcon International, Inc., in New York, and John N. Comito, M.D., an otolaryngologist in San Diego, Calif., have been named to the College of Science advisory council.

department name change

To: The University Community

From: Dean Isabel Charles

Effective FY 80-81, the Cooperative Department of Speech and Drama will be known as the Cooperative Department of Communication and Theatre. This name change is the result of a curricular revision in which the department engaged over the past year and accurately reflects the more comprehensive nature of their work in communication and in theatre. The cooperative department is a single unit which operates as a part of the College of Arts and Letters at the University of Notre Dame as well as a department of St. Mary's College. Students from either institution may major or take courses in this cooperative department and classes are held on both campuses. At present the department, chaired by Prof. Mitchell Lifton, has a faculty of nine members.

two new endowed chairs

Rev. Theodore M. Hesburgh, C.S.C., President of the University, has announced the establishment of the Frank M. Freimann Chair of Physics in the College of Science. The chair, underwritten by the Freimann Charitable Trust of Fort Wayne, Ind., is the second endowed professorship on campus to honor the late president of the Magnavox Company. A pioneer in the electronics industry, Frank Freimann was chief executive officer of Magnavox for 18 years until his death in 1968. He served on the University's Advisory Council for Science and Engineering, and among his numerous benefactions to Notre Dame was a \$500,000 gift toward construction of the Memorial Library. The other Freimann professorship, set up by a gift from his estate, is in the Department of Electrical Engineering.

Another chair, the Crowley-O'Brien-Walter Endowed Professorship, has been established in the Theology Department. It is endowed by gifts from Jerome J. Crowley and his wife, Rosaleen, of South Bend; the O'Brien Corporation, of which Crowley is chairman, and the estates of M. Emmet Walter and his wife, Alfreda, of Houston, Texas.

Timothy O'Meara, provost, has announced that Rev. Richard P. McBrien, professor of theology at Boston College and director of its Institute of Religious Education and Pastoral Ministry, will hold the professorship as well as serve as chairman of the department. A former president of the Catholic Theological Society of America, Father McBrien succeeds Rev. David B. Burrell, C.S.C., who is finishing his third three-year term as chairman. Burrell will be on leave next year doing research as director of Notre Dame's Ecumenical Institute at Tantur, Israel.

Volume 9, No. 16

May 2, 1980

Notre Dame Report (USPS 707-080) is an official publication published fortnightly during the school year, monthly in the summer, by the University of Notre Dame, Department of Information Services. Second-class postage paid at Notre Dame, Ind.

faculty notes

appointments

Frederick S. Beckman, professor of art, has been named chairman of the Department of Art, succeeding Rev. James Flanigan, C.S.C., who will begin a sabbatical leave after serving two terms as chairman.

Rev. Thomas E. Blantz, C.S.C., associate professor of history, has been named chairman of the department, succeeding Rev. Marvin R. O'Connell, who is finishing his third three-year appointment.

Andrew J. Weigert, professor of sociology and anthropology, has been named chairman of the Department of Sociology and Anthropology, succeeding Leo Despres, who will return to full-time teaching after serving as chairman for six years.

honors

V. Paul Kenney, professor of physics, has been asked to serve the U.S. Catholic Conference as a technical consultant in the drafting of a policy statement on energy. Kenney has also been asked to serve as technical advisor to the Appropriate Technology Program of the Department of Energy (Region V).

Penny Van Esterik, assistant professor of sociology and anthropology, has been elected to serve a three-year term on the Southeast Asia Council of the Association for Asian Studies.

Rev. Joseph L. Walter, C.S.C., associate professor of chemistry and chairman of preprofessional studies, was elected the national vice president of Alpha Epsilon Delta, the honorary premedical society, at its recent national convention held in Lexington, Ky., on March 28.

activities

Joan Aldous, Kenan Professor of sociology, was an invited discussant at a plenary session at which Maryann Mahaffey, deputy chair of the National Advisory Council, spoke on the White House Conference on the Family. The plenary session was held at the Midwest Sociological Society Meeting in Milwaukee on April 3. Aldous also was a participant in the White House Conference on the Family Research Forum April 10-11, in Washington, D.C.

Francis J. Castellino, dean of the College of Science and professor of chemistry, presented an invited lecture, "Molecular Mechanisms of Activation of the Human Fibrinolytic System," at the Consensus Development Conference for Fibrinolytic Therapy in Thrombosis, held at the National Institutes of Health, Bethesda, Md., April 11-12. He also served as chairman of one of the scientific sessions.

Thomas P. Cullinane, associate professor of aerospace and mechanical engineering, delivered the opening remarks for the 1980 Joint American Institute of Industrial Engineers--Material Handling Institute Seminar, held March 24-26, in San Francisco. Cullinane also presented a paper, "Material Handling Problem-Solving Approaches."

James M. Daschbach, professor of aerospace and mechanical engineering, and presently on leave at the National Defense University, Washington, D.C., gave a lecture, "Parametric Costing," at the ORSA-TIMS Special Interest Conference held in Williamsburg, Va., April 14.

Fabio B. Dasilva, professor of sociology and anthropology, presented two papers at the annual meeting of the Southwestern Sociological Association held in Houston, Texas, April 2-5: "Ideal Types, a Husserlian Analysis" (co-authored with Barrance Johnston), and "Critical Dialogues and the Sociology of Development" (co-authored with Jeffrey Crane). At the annual meeting of the Pacific Sociological Association in San Francisco, April 3-5, Dasilva was an invited participant in a session on the sociology of development and presented a paper: "Change, Development and Ethics: Reflections on some Contributions of Jürgen Habermas," (co-authored with Jeffrey Crane.)

Fernand N. Dutile, professor of law, participated in a panel discussion on the recently published book The Brethren, by Woodward and Armstrong, sponsored by the Indiana Lawyers Commission in

Indianapolis, April 4.

Msgr. John J. Egan, director of the Center for Pastoral and Social Ministry and special assistant to the President, participated in a panel discussion on "What's Right and Wrong with Religion?" at St. Xavier College, Chicago, on April 2.

William M. Fairley, associate professor of earth sciences, presented a paper, "The Blue Ridge Geological Province of Northern Georgia," at the annual meeting of the Southeastern Section of the Geological Society of America in Birmingham, Ala., on March 28.

Moiria M. Geoffrion, assistant professor of art, served as director of the conference "Woman: Signifier or Signified?" held at Notre Dame's CCE, March 2-5. Geoffrion also served as a visiting artist at East Central College, Union, Mo., March 31-April 1.

Denis Goulet, O'Neill Professor of Education for Justice, lectured on "The Search for Alternative Development Strategies: A Research Agenda" at a Comparative Politics Seminar, sponsored by the Department of Political Science at Duke University, Durham, N.C., on April 11.

Diana L. Hawfield, assistant professor of communication and theatre, produced and acted in a one-woman play, "This Living," created from the writings of Dorothy Parker, given at Saint Mary's College during Women's Opportunity Week, on March 10.

Patrick Horsbrugh, professor of architecture, spoke on "Triviality in Contemporary Architectural Design" to senior architecture and landscape architecture students at Ball State University, Muncie, Ind., on March 28. The next day Horsbrugh spoke on "Plants in Urban Well-Being" to the annual "ENACT '80: Environmental Alternatives Conference" sponsored by the Department of Landscape Architecture at Ball State.

Walter R. Johnson, professor of physics, gave an invited talk on "Relativistic Effects in Photo-ionization" at the Workshop on Atomic Data Needs in Astrophysics held at Johns Hopkins University, Baltimore, Md., on March 28-29.

A. Murty Kanury, associate professor of aerospace and mechanical engineering, presented an invited lecture at the University of Kentucky's College of Engineering in Lexington, Ky., entitled "Heat Transfer in Liquid Fuel Burning" on April 10.

Donald W. Kline, associate professor of psychology, and Frank J. Schieber, graduate student, presented an invited address, "Visual Persistence and Temporal Discrimination," to the Symposium on Aging and Human Visual Function sponsored by the Committee on Vision, National Research Council, National Academy of Sciences, in Washington, D.C., April 1.

Andrea G. Labinger, adjunct assistant professor of modern and classical languages, presented a

paper "Age, Alienation and the Artist in Usigli's *Los viejos*," at a symposium on Alienation and Revolution in the Latin American Theater at Marquette University, Milwaukee, on March 28.

Ernest LePore, assistant professor of philosophy, presented a paper, "Translational Semantics," at the American Philosophical Association's Pacific meetings, San Francisco, on March 29.

Thomas G. Marullo, assistant professor of modern and classical languages, delivered two lectures and slide-show presentations at Knox College and to the American Association of University Women in Galesburg, Ill., on April 8.

Ralph M. McInerney, Grace Professor of Medieval Studies and director of the Medieval Institute and the Maritain Center, addressed the plenary session of the American Catholic Philosophical Association's 54th annual meeting in Philadelphia on April 12. His topic: "In Defense of Natural Theology."

Ruth Neta, a postdoctoral research associate in microbiology, presented a talk on "The Role of Lymphokines in Disease," at the Squibb Institute for Medical Research, Princetown, N.J., on March 26.

Julian Samora, professor of sociology and anthropology, lectured on "U.S.-Mexico Border Dilemmas" at Ohio State University, Columbus, on April 1.

Thomas J. Schlereth, associate professor of American studies, delivered a paper, "The History Behind, Within and Outside the History Museum," at the George Washington University Conference on Museum Education as well as led a research colloquium on "Resources in Artifact Research" at the Smithsonian Institution, March 27-28, Washington, D.C.

J. Eric Smithburn, associate professor of law, was a guest on WNIT-TV's "Straight Talk" program on March 19 and discussed "Youth in the Community: A Renewal of Purpose," with particular emphasis upon utilization of volunteers in the juvenile justice system. On March 24 Smithburn spoke on "Volunteerism and the Juvenile Justice System" at a state-wide juvenile justice conference at Oaklawn Center, Elkhart, Ind. He also taught a course on "Law of Sentencing and Probation" at the National Judicial College, University of Nevada, Reno, March 24, 26-28. On March 25 Smithburn discussed current issues with the new Indiana Juvenile Code on WSJV-TV's "Good Morning, Michiana" program.

Larry D. Soderquist, associate professor of law, presented an address, "Problems with Minority Shareholders in Close Corporations," to the Elkhart County Bar Association on March 27.

Penny Van Esterik, assistant professor of sociology and anthropology, presented a paper, "Recipe Knowledge: Food and Ideology Among Thai Buddhist Women," in the women and religion section of the American Academy of Religion, March 14 in Chicago.

advanced studies

special notice

The Research Corporation Invention and Patent Management Agreement

Special note should be taken of the agreement which the University has negotiated with the Research Corporation for an invention and patent management program. In accordance with the University's patent policy, faculty members, staff members and students are encouraged to file an invention disclosure document on any invention developed at the University for which they are the inventor. Such disclosures will be reviewed by the University Patent Committee with a view toward patenting and eventual licensing through this management program.

Other options for patenting and commercialization are possible.

Invention disclosure forms are available in the Office of Advanced Studies, Division of Research and Sponsored Programs.

information circulars

Additional information on all circulars listed below may be obtained by calling the following extensions:

Extension 7432, for information on federal government programs.

Extension 7433, for information on private foundations, corporations and state agencies.

Council for International Exchange of Scholars Fulbright Opportunities Abroad

No. FY80-254

Program:
Applications for Fulbright awards for university teaching and advanced research abroad generally must be submitted by June 1 (Australia, New Zealand and American Republics), or July 1 (Africa, Asia and Europe), 12 to 18 months in advance of the grant period. Changes in country programs create new openings from time to time and other positions become available for various reasons. The Council for International Exchange of Scholars will accept applications from eligible U.S. scholars for awards until an adequate panel of nominees is secured.

The list of opportunities available is too long to include in this information circular. For further information, contact the Office of Advanced Studies, Division of Research and Sponsored Programs, Extension 7433.

National Science Foundation Cooperative Research with Latin America

No. FY80-255

The U.S.-Latin America Cooperative Science program seeks to foster and support mutually beneficial cooperation in scientific research between scientists of the United States and Latin America and the independent nations of the Caribbean. U.S. investigators may request supplemental funding to extend ongoing research into cooperative efforts with qualified Latin American scientists. Workshops and short term scientific visits to carry out or complete the planning of cooperative research projects are also supported. Cooperating foreign scientists must obtain support from other sources, and submit a matching proposal to their own national science council. Proposals should be prepared according to standard NSF guidelines, but must also describe in detail the cooperative aspects of the work plan and the mutual benefits to be obtained.

The next target date for the submission of proposals is Nov. 1, 1980.

NIH-French National Center for Scientific Research Program for Scientific Collaboration Fogarty International Center

No. FY80-256

Under an agreement between the U.S. National Institutes

of Health (NIH) and the French National Center for Scientific Research (CNRS), the two organizations share in the support of well-qualified U.S. scientists selected to work at laboratories in France and similar French scientists selected to work at U.S. laboratories. The purpose of the program is to advance biomedical knowledge through cooperation between U.S. and French scientists in fields of special interest to the NIH and CNRS. Approximately five scientists of each country will be exchanged annually. It is expected that these exchanges will serve as the basis for further and continuing substantive joint relationships, such as collaborative research projects and seminars.

The type of activity undertaken with a host laboratory may include the conduct of a basic or clinical research study, familiarization with or utilization of special techniques and equipment not otherwise available and/or related cooperative efforts. The program does not provide support for activities which have as principal purposes brief observational visits, attendance at scientific meetings or independent study.

The period of interaction of the foreign scientist with the host institution is expected to be of sufficient duration to achieve substantive, specific goals. Except under very unusual and strongly justified circumstances, the minimum period of support will be for 6 months and the maximum, 12 months. Requests for extension beyond 12 months will be considered.

The program is administered for the NIH by the Fogarty International Center (FIC).

The deadline for receipt of applications of U.S. scientists is Oct. 1 for projects beginning at the earliest the following July or during the 12 months thereafter.

documen- tation

summary annual report for ttaa group total disability benefits plan

This is a summary of the annual report of the University of Notre Dame's TIAA Group Total Disability Benefits Plan, employer number 35-0868188, for Sept. 1, 1978 through Aug. 31, 1979. The annual report has been filed with the Internal Revenue Service, as required under the Employee Retirement Income Security Act of 1974 (ERISA).

Insurance Information

The plan has a contract with the Teachers Insurance and Annuity Association (TIAA) to pay all claims incurred under the terms of the plan. The total premiums paid for the plan year ending Aug. 31, 1979 were \$75,002.66. Because it is a so called "experience-rated" contract, the premium costs are affected by, among other things, the number and size of claims. Of the total insurance premiums paid for the plan year ending Aug. 31, 1979, the premiums paid under such "experience-rated" contracts were \$75,002.66 and the total of all benefit claims paid under the experience-rated contract during the plan year was \$38,048.63.

Your Rights to Additional Information

You have the right to receive a copy of the full annual report, or any part thereof, including insurance information, on request. To obtain a copy of the full annual report, or any part thereof, write or call the office of G. Thomas Bull, Director of Personnel, University of Notre Dame, Notre Dame, Ind. 46556. 283-2221.

You also have the legally protected right to examine the annual report at the main office of the plan, the Personnel Office, Notre Dame, Ind., and at the U.S. Department of Labor in Washington, D.C., or to obtain a copy from the U.S. Department of Labor upon payment or copying costs. Requests to the department should be addressed to: Public Disclosure Room, N4677, Pension and Welfare Benefit Program, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216.

faculty senate journal

march 10, 1980

At 7:35 p.m. the chairman, Prof. Kenneth E. Goodpaster, called the meeting to order in Room 202 of the Center for Continuing Education and offered the prayer. The journal for Feb. 12, 1980 was approved. He reported that letters had been sent to the deans concerning the election of new senators. He noted that inquiries were sent to department chairmen on departmental tenure criteria and annual performance review mechanisms, and to deans on leaves of absence policies. Goodpaster cited a communication of support on the senate's efforts to organize an appeal procedure from a representative of the Midwest AAUP, and the receipt of a letter from Prof. Sean Golden concerning formal review of the University decision not to renew his contract.

Reporting for the Committee on Student Affairs, Prof. Stephen M. Batill described the results of investigations and discussions on teacher/course evaluation procedures at Notre Dame and enumerated the committee findings: widespread dissatisfaction among the teaching faculty with the present instrument, broad variation in its implementation, inconsistencies in how results are used in tenure and promotion decisions, and broadening interest among the students and administration for the improvement of the teacher/course evaluation.

To secure a better sense of senate interests on these matters, Batill listed eight points for discussion, and suggested that final action be taken at the April meeting. These were recommendations that the senate support: the formation of a University committee to "improve" the teacher/course evaluation, the development of formal guidelines for administering the teacher/course evaluation to be included in the Academic Manual and to help ensure full faculty participation, the design of the survey so that the evaluation of the course is separate from the evaluation of the teacher, the development of guidelines explaining the importance and role of the teacher/course evaluation to be included in the student manual, the inclusion of more specific questions with diagnostic value on the survey, the elimination of the grade/GPA approach to the responses and presentation of the survey results, the development of a more comprehensive presentation of the results for use by the faculty and administration, and senate representation on the University committee.

Prof. Rufus W. Rauch wondered whether the senate should take the initiative and organize a committee to prepare recommendations on the teacher/course evaluation. Goodpaster emphasized the interests of the students and administration in this matter, and supported senate participation on a University committee. Prof. Vincent P. DeSantis stressed the importance of selecting knowledgeable individuals to work on this committee.

DeSantis questioned the need to ensure full faculty participation when we do not seek to ensure full student participation. He also suggested that students be required to take responsibility for their evaluations and to sign their survey responses. Batill felt that the anonymity of the survey assured the candor of the responses.

Prof. Paul F. Conway indicated that a letter explaining the proper administration of the survey does accompany the questionnaires and should be resulting in uniform methods. Batill felt that distribution of the surveys through the deans' offices was resulting in inconsistent methods. Both Prof. Michael J. Crowe and Prof. Robert L. Irvine cited the destructive and intimidating effects of the survey on some faculty members. Prof. A. Murty Kanury pointed out that only two questions on the teacher/course evaluation dealt specifically with review of the course itself.

Richard Gobbie and Elizabeth Imbriaco, representatives of the Academic Commission of Student Government, summarized student concerns about the teacher/course evaluations and recommendations based upon their investigation of current problems.

Reporting for the Committee on Administration, Prof. Michael J. Francis indicated that the investigation of annual performance review methods was continuing and that policies on leaves of absence were being reviewed. The committee is seeking access to a report recently completed at Notre Dame on affirmative action.

The meeting recessed at 8:45 p.m. and reconvened at 8:55 p.m.

Reporting for the Committee on Faculty Affairs, Prof. Irwin Press distributed a chart comparing the average salary and compensation of Notre Dame faculty with those at Big Ten and "peer" schools. He noted the difficulty of making such comparisons because of the A.A.U.P.

decision to stop reporting median salaries. He pointed out that although the faculty has made some progress, significant gaps still persist at the full and assistant professor ranks. Press indicated that Prof. Robert Nelson was also investigating fringe benefits at Big Ten and "peer" institutions.

Rauch described the results of a survey of the financial situation of retired Notre Dame faculty, and moved, seconded by Press, that the senate recommend to the University administration that:

1. the University establish a minimum guaranteed retirement income of \$10,000 a year for husband and wife or \$8,000 a year for a single retiree or retiree's widow, based on TIAA/CREF pension and Social Security income, but not including income, if any, from savings or from whatever source.
2. the University offer retirees, their spouses or widows, the fringe benefit of Blue Cross-Blue Shield medical insurance supplementary to Medicare Parts A and B.
3. the University provide the basic \$2,000 of group life insurance for retirees, as it has for many years for all employees of the University.

Rauch indicated that the total amounts involved in the proposal would be \$95,197. He emphasized that this represented a miniscule amount when compared with the overall budget for faculty salaries, but would be of enormous benefit to individual retired members of the faculty and their spouses. A discussion of the need to include an escalation clause or annual review and to link the minimum income figure to a standard followed. The motion was unanimously approved.

Prof. Robert Vacca briefly highlighted the discussions and meetings which produced the appeal procedures proposal which was distributed to the senate. He moved, seconded by Kanury, that the senate accept the proposal and empower Vacca and Goodpaster to make revisions which are in the spirit of the approved document during consultations with members of the University administration. After an extensive discussion of the important elements in the proposal, the motion was approved.

The meeting was adjourned at 10:30 p.m.

Those absent but not excused were: Paul Anderer, modern and classical languages; Charles F. Crutchfield, law; Dolores Frese, English; Gerald L. Jones, physics; Jay A. Labinger, chemistry; Howard P. Lanser, finance and business economics; Rev. James J. McGrath, C.S.C., biology; Lee A. Tavis, finance and business economics; J. Kerry Thomas, chemistry; Phyllis Webb, microbiology.

Respectfully submitted,

James G. Neal
