

In March, slightly remodelled

Corby Tavern to reopen

by Bob Varettoni
Staff Reporter

Corby's will be closed for only a few days, according to Harold Rowley, a partner of the tavern building and the tavern property.

Rowley said Corby's will hopefully reopen on Mar. 1. The present management, operated by Roger Stouffer, will move out after Saturday, Feb. 26.

Rowley said there will be few changes for Corby's once it reopens.

"We're going to do everything we possibly can to bring the building up to standards without basically changing things," Rowley said. "We've found that the students would not be interested in change."

Renovations planned

Jim Dil, who will replace D.J. O'Bryan as Corby's manager, said

that one change will be to tear down one of the walls on the inside of the building. This work, he said, will begin the first night after closing.

Once the wall is down, Dil said, the social space inside Corby's will increase by 30 percent. Dil added that this would leave room for a second pool table, which they are planning to buy.

Another change for Corby's according to Dil, will be an attempt to improve the washrooms. Dil said new plumbing will have to be put in before the end of March.

Corby's name is one thing that will not change, Rowley added. Last week Stouffer claimed the new management would have to change the name of the tavern. Stouffer said he owned the business known as "Corby's", and that the name belonged to him.

Rowley noted that the tavern has been called "Corby's" since 1963, six years before Stouffer started his business. Rowley said Stouffer has

no legal right to the name.

"Corby's is an institution," Rowley said. "I don't believe it is Stouffer's business, and I don't believe it is our business. Corby's tavern preceeded Stouffer, and it will probably succeed us."

CTI hired

Rowley and his partner, James Broad, have hired CTI Inc. to manage Corby's. Tom Terlecki, president of CTI, formerly operated the Stagecoach Inn. In order for Corby's to open Mar. 1, Terlecki's liquor licence from the Stagecoach Inn will have to be transferred in time.

Terlecki said one of his goals for Corby's is to expand the food service. He noted that, according to South Bend law, if a greater amount of food could be sold, Corby's would be allowed to open on Sundays.

Rowley said he and Terlecki have considered other long range pro-

jects. Rowley said, for example, that he is thinking of building a fireplace along the south wall of the building.

Dil said he would check with Notre Dame and St. Mary's students first before making any changes at all. For this reason he has set up a student advisory council with members Joe Ehrline, Lorraine Ehrline, Mel Hyde, Mary Venn, Tim Weiler, Tony Mendiola, and Bob Olsen.

"Any changes we make will go through this council," Dil said. "They'll be the speakers for our customers. We want to give back

what the kids gave us. It's their place, not ours."

Dil added that, as in the recent past, bartenders will also be students.

While Rowley admits that he has been involved in Corby's for less than two years, he says he is aware of the tavern's place in the community. He added that most of the people in CTI have Notre Dame backgrounds.

"As far as we're concerned," Rowley said, "Corby's is a Notre Dame and St. Mary's social institution. We don't intend to change that."

Ken Kesey opens SLF, Tenn. Williams to appear Fri.

by Greg B. Bangs
Executive Editor

Proclaiming that literature is magic, Ken Kesey opened the 1977 Sophomore Literary Festival before an overflow audience last night in Washington Hall.

Kesey allocated the majority of his hour-and-a-half long presentation to reading two of his more recent works, "Abdul and Ebenezer" and "Seven Prayers of Grandma Whittier," which will be part of a larger novel entitled **The Demon Box**.

"Seven Prayers of Grandma Whittier" is based on Kesey's grandmother whom he labelled "a fierce, righteous woman." "In this piece, I'm looking at literature, Lucifer and the Lord. I'm interested in good and evil, the Oregonian novelist stated. "I'm taking a person of deep faith into the twentieth century arena where faith is being battered continually."

Although Kesey said he "only wanted to read the first sentence and a few others" of that work, the first sentence practically took up

the approximate time of twelve minutes needed to read the piece, which was loosely based on an event early in Grandma Whittier's life.

For his second reading, Kesey offered "Abdul and Ebenezer," a story that appeared in the March 1976 edition of **Esquire**. In it, Kesey chronicles the life death cycle of two bulls and their relatives.

In between the two readings, Kesey leveled an attack at the fascism he believes is growing in the United States. "It's manifesting itself in society. We're losing our grip on civilization - when the big start to decide for the small, then there is fascism."

"When more than one stick of society gets together, then we're in trouble. Big government, big religion and big business combine and then you see a picture of Nixon, Billy Graham and Nelson Rockefeller. "That's fascism," he continued.

Kesey said that it is his hate of fascism that will always keep him

defending the small thing against the big thing."

Williams to appear Friday

Sophomore Literary Festival Chairman John Santos announced that playwright Tennessee Williams will appear this Friday, Feb. 18 at 8:00 in Washington Hall.

Michael Benedikt, who had been scheduled for that time slot will now appear that Friday at 3:30 p.m. in the Library Auditorium.

Notre Dame sophomores have been trying to get Williams to speak since its beginning in 1968. In 1975, Williams was supposed to appear, but cancelled his appearance shortly before the Festival started.

Williams won the Pulitzer Prize in 1948 for **Streetcar Named Desire** and again in 1955 for **Cat on a Hot Tin Roof**. Both of these plays also won the Drama Critics Award, as did **Night of the Iguana** in 1962. In 1969, Williams was awarded the Gold Medal for Literature by the American Academy of Arts and Letters and the National Institute of Arts and Letters.

Conserving energy

WASHINGTON [AP] - Americans could find themselves bathing in form-fitting bathtubs in the near future as the nation seeks ways to conserve its dwindling energy supply, three energy experts say.

Supermarkets and throwaway packages may disappear. Houses and cars will be smaller, the experts say.

These were some of the ideas three energy conservationists predicted for the future as the nation becomes energy conscious.

When the changes will occur, and whether they will be voluntary or by government decree, is less clear, they said in interviews.

Second trial

SALINAS* Calif. [AP] - Almost three years ago Inez Garcia picked up a rifle and hunted down and killed a 300-pound man she said had held her down while another man raped her.

Today testimony in her second trial in the killing begins. This time she thinks she'll be acquitted - partially because of the impact her trial and the women's movement have had on attitudes and laws about rape since 1974.

Garcia's attorney, Susan Jordan, said she will try to convince the jury of 10 men and two women that her client acted "in legitimate self defense."

Steelworkers talk

WASHINGTON [AP] - The United Steelworkers union and the nation's steel producers opened contract talks today with the future of the industry's historic no-strike agreement staked on the outcome.

Substantial wage increases and "lifetime job security" head a wide-ranging and ambitious set of general bargaining goals fashioned by 800 local union presidents at meetings here Saturday and Sunday.

Saddler defends Student Union

In the wake of the controversy over the upcoming Student Union audit, SU Social Commissioner Kevin Saddler advised yesterday that "students should look closely at what's going on inside the organization."

Blaming the Student Union's poor financial condition, Saddler charged that the Social Commission is being pressured to make a profit from student activities. "We're not a profit organization and we shouldn't be forced to make a profit," he said.

Saddler cited the Bruce Springsteen concert trip, scheduled for Wednesday, Feb. 23, as a example of the Social Commission's present inability to "give students a break"

"N.D. has a difficult time getting big concerts," Saddler said, "and we want to give students the opportunity to see artists when they come to Chicago or Indianapolis." According to Saddler, though, the price is scaring many students away. The Social Commission is selling a package, which includes bus transportation to and from Chicago and a "first class seat" at the Springsteen concert, for \$17.50.

"It's a good deal," Saddler said, "but normally we would be able to give students a more reasonable price and absorb the loss."

Saddler stated that there is a serious lack of communication within the Student Union. He maintained that SU Director Ken Ricci "doesn't have control over things," and called the Union a "shoddy organization."

"The Social Commission," Saddler continued, "should be able to do things for the students without being profit-oriented."

Students who are interested in attending the Springsteen concert are asked to contact the Student Union ticket office in LaFortune, today or tomorrow.

SMC plans learning center to develop student skills

by Pat Payne
Staff Reporter

"The needs of students cannot all be met in the classroom," stated Sr. Miriam Patrick Cooney, chairman of the committee recommending the establishment of a learning skills center at St. Mary's next year.

"This has been brewing within the faculty for a long time," she continued. "Analytical reading techniques, time management and exam preparation must be learned by students, and the faculty just doesn't have the time to do it," Cooney added.

Cooney, who is chairman of the math department, pointed out that the student would be able to allocate her time so one aspect of college life won't interfere with another. She noted that this poses a particular problem for freshmen, many of whom cannot write a research paper nor properly use the library.

The purpose of a learning skills center, according to Cooney, would be to identify the greatest needs of St. Mary's students, get the students to realize their own needs, and respond to these needs with learning and assertiveness workshops, psychological counseling and peer tutoring.

"We have to be honest enough to say these deficiencies exist and then do something about them," she said.

"Perhaps the plan would be to extend the services currently being employed in the freshman writing clinic," noted Cooney.

She emphasized that these deficiencies were what prompted the survey recently sent to all members of the faculty, administration and student body. "We need to know how the students assess their needs as compared to the faculty's thoughts on them," Cooney said.

Citing three specific reasons explaining the current need for the center, Cooney stated, "The college has expanded, students have changed and they're not as prepared for college as they used to be." She added, "The admissions office does a good job in getting prepared students, but some get here with handicaps that aren't identified right away. You know what the problem is, but don't know where to send her, or how to tell her to send herself."

Valuable Service

Commenting on particular faculty needs, Cooney remarked that a learning skills center could provide audio-visual material and make-up test administering, so faculty time wouldn't be taken up in these ways. Tutorial services would also be available to correct student deficiencies. "This center will give the faculty a place to send the student for help," she said.

Cooney explained that the purpose of the committee is to find out where services are presently being

implemented and to expand on them, for example, in the Career Development Center.

In addition to Cooney, the committee consists of Mrs. Rosemary Doherty, Dean of Freshmen; Dr. Kathleen Rice, Dean of Students; Nora Hoover, faculty representative; and Mary Beth Roitz, student representative.

Similar to programs at other schools

The committee was initiated last spring by President John Duggan, who asked the Academic Affairs Council to work on finding out the greatest student needs here.

In preparation for a report to be presented at the end of last summer, Cooney visited the University of Texas and Stanford University, who have "the best and oldest study skills centers in the country," according to her.

She attributes their success to "short, intensive courses held in the evenings and on weekends in the dorms and classrooms, which include faculty involvement in peer tutor training and seminars in behavior modification."

"The success of our program," concluded Cooney, "is dependent on whether the faculty will encourage students to use the center, and whether the students will seek the services."

SMC receives \$2K grant from Shell Oil Company

by Maureen Sajbel

For the second consecutive year, St. Mary's College has received the Shell Assists Award.

The award, given for faculty development, research projects and student scholarships, totals \$2,000. Dr. William Hickey, vice-president and dean of faculty, and Mrs. Jean Gorman, director of financial aid, will decide on the recipients of the award. The amount given to each professor or student depends on work project needs and financial need. The award money will be presented to each person for work and study expenses during the 1977-78 academic year.

"It (the award) was given as a

recognition of the worthiness of St. Mary's College," said Mr. Clyde Remmo, director of foundations and government relations. This worthiness, Remmo continued was based on the "overall quality of St. Mary's educational program and students."

Only a few colleges receive this type of award from Shell each year. Remmo sees this as an indication of the recognition of St. Mary's as one of the top women's colleges in the United States.

"The recognition is as important as the money itself," Remmo stated.

He added that this recognition from Shell, as well as that from other companies, is an indication of the growth and consistent high quality of St. Mary's.

Ski Iowa?

"Ski Iowa" is no longer a laughing matter.

Cross-country ski trails have been cut in a couple of state forests in Iowa, putting the lie to those humorous T-shirts and posters emblazoned with a picture of a forlorn skier in the middle of a cornfield. The Iowa trail systems also point to the spread of ski touring, unquestionable the fastest growing aspect of skiing.

Cross-country - Nordic - XC - Touring. All four mean the same thing: the "quiet sport" of ski touring.

"If you've got snow on the ground, you can go ski touring, whether it's in your back yard or on a back road," says Rudolf Matthes, president of the Ski Touring Council. "All that's necessary are skis and snow."

seriously folks,

Digging In

art buchwald

WASHINGTON--The Soviet colonel came into the situation room of the Kremlin. He was holding in his hand a photograph of the United States taken from a Russian spy satellite.

"Look, comrades, the Americans are digging holes all over the country. Why are they digging so many holes unless it's for missiles?"

The Joint Soviet Command studied the satellite map.

"Is true," said a marshal. "Hole is here, hole is there. No one makes as many holes unless they going to put in launchers. We must speak to the KGB chief for North America immediately."

A button was pushed and Boris X came in.

"Why," a general demanded, "you have not reported United States is digging holes for new missiles to be aimed against U.S.S.R.?"

The KGB man took a look at the satellite photograph.

"Those are not rocket launcher holes, comrades. Those are potholes made by American cars and trucks."

"What are potholes?" another Soviet general demanded.

The KGB man said, "In America there is winter, yes?"

Everyone agreed. "In winter," he continued, "there is snow and ice, yes?"

"Get on with it," the marshal said.

"To break up ice and snow on roads they put salt on them. Salt not only breaks up ice, it also breaks up road. When road breaks up there is hole. Americans call it pothole," the KGB man said.

"Why don't Americans fill in potholes?" the marshal demanded.

"Because there are so many of them it's impossible to fill them all in. Is better to let them stay as holes until municipal elections."

"What are these yellow lights and pieces of wood around these holes? Surely they must be for missiles," a general said.

"Is not for missiles. Traffic police put up these lights to warn people there is a pothole," the KGB man said.

"Why don't they put them up around all the potholes?" a general asked.

"They don't have enough yellow warning lights."

"How do they decide which holes to put lights on and which holes not to put lights on?"

For the first time the KGB chief was nervous. "We haven't been able to find out why they choose to put lights on some holes and not others. There doesn't seem to be any pattern to it."

The marshal said, "There must be a reason for it. Americans wouldn't just mark some potholes and not others. If they did that they would wreck their automobiles."

The KGB man said, "That's just it. They are wrecking their automobiles. My people are trying to find out why police mark certain potholes and don't mark others but is impossible to get information so far. No policeman will explain why he chooses one pothole over another."

"Is possible," said a general, "that ones with yellow blinkers are really dug for missiles."

"But," said another general, "suppose they put yellow blinkers on to make us think those potholes are missile sites, when in fact unmarked potholes are real missile launch pads?"

The KGB man said, "Comrades, as you know I have lived in America for a long time. It's true that from the air American potholes look like missile pads. But I have driven over them and I assure you that they are rarely more than six feet deep. A car can fall in one, but a missile can't be fired from it. We must not come to conclusion from one satellite photo that Americans are building launching pads all over their highways."

"But," said the marshal, slamming his fist on the table, "how can we be sure?"

"Here is car bill from Soviet ambassador to U.S.," the KGB man said. "Is bill for four new suspension systems in one winter, and that is only from driving around Washington. Comrades, missile sites don't do that kind of damage to cars--but American potholes do."

Dear Editor:

To your readers:

Where does this paper go when you are finished reading it at lunch? Under your plate or glasses or into the soup? Does it neatly cover up the remains of the main course? Are the paper napkins and silverware scattered around your tray? If you answered yes to the above questions then you are

probably the average North dining Hall person. If you answered no then we thank you for your consideration.

As most of you know, a new dish machine and system has recently been installed in the North Dining Hall. The trays are put on a conveyor belt where each person takes silverware, paper or certain dishes off them. The silver and paper people have the most frantic jobs because their items are usually scattered around and are hard to remove quickly and effectively.

If each student would give about five seconds of their time by putting silver on one side of the tray and paper on the other it would speed things up and be a great help. Thank you for your cooperation and consideration.

P.O. Box Q

Start by Doing

Dear Editor:

If you find a person lying unconscious on a sidewalk, apparently sick or injured, you don't start talking to bystanders about the evils of society or problems of organization of health service facilities; you just help that person who is lying in front of you.

That's what I thought when I read Chuck Kulig's letter in the 9 Feb. Observer. If he had his way we would never do anything until we had an overall plan to cure the world of all evil. We would be paralyzed by the immensity of the world hunger problem.

The Wednesday evening fast program, as I understand it, does not pretend to be the answer to the problem of uneven distribution of food in our world. It is an attempt to respond to an immediate need which many people experience: a need for enough food to survive. While we respond to such immediate needs--not instead of responding to them--we can work on the larger problems of "organization and control in the present distribution system." The latter is certainly important.

Granted, not everything goes where it should--I have seen the corruption. But the 'rakeoff' is not that great, and what does reach the poor and starving does immense good. (We should recall that the Hunger Coalition has done extensive research to find those agencies which most efficiently and equitably distribute their funds.)

The Wednesday night fast is much more than "an expression of part-time piety" or "blatantly superficial". It is not "bereft of any practical value". It is a concrete way of responding to the world hunger situation. It is not sufficient in itself. It will not solve the problem, but it benefits more

people more concretely than we here at Notre Dame might imagine. It is a beginning. It is a good thing we can do while we address the equally important problems of organization, control, agricultural methods and distribution.

Kevin Kearney C.S.C.

CARE Not Perfect, but Still Worthwhile

Dear Editor:

In reference to Mr. Kulig's letter in the Feb. 9 Observer, I find myself in great opposition to his opinions. Kulig seems to have taken a very pessimistic outlook on CARE and other relief agencies. Relating to us his observations of CARE packages being sold on the black market, Kulig implies that criticizing the whole organization is justified.

Denial of misuses of some CARE is absurd. But then what organization runs at 100 percent efficiency?

Anyway, it is not CARE that is selling the packages on the black market, but thieves. Furthermore, to think that an organization must maintain 100 percent efficiency to merit donations is far-fetched. The Hunger Coalition has researched the agencies it sponsors and finds the good that CARE provides far outweighs any perversions of aid that may exist.

Other points Kulig touches upon are the Right To Food Resolution and the idea of a world grain reserve. For clarification, the Right To Food Resolution is not a proposal of a plan of action but merely Congress articulating its stand on the world food issue. A U.S. grain reserve on the other hand is a proposed solution that will hopefully be an example for the rest of the world.

Lastly, I would have to agree with Kulig's view that the American people have a tendency to create enemies with their good intentions. I fail to see, however, this in relationship to distribution of food and other aid from agencies the Coalition sponsors. These agencies are donating money and food freely according to need--no strings attached. They are not trying to guide the poor to Ameri-

Cinema in South Bend By David O'Keefe

Hellavision

Network
Directed by Sidney Lumet
Starring Peter Finch, William Holden,
Faye Dunaway, Ned Beatty

"After skewering the medical profession in *The Hospital*, Paddy Chayefsky turns his attention to commercial television in *Network*." Don't let them fool you. Paddy Chayefsky did as much skewering in *The Hospital* as Goliath did to David. His 1971 film, starring George C. Scott, was a meandering, mundane waste of time and talent as the script bounced fitfully between farce, black humor, and occasional idiocy. It was as confused as it was confusing, and hardly paved the way for future successes.

Which makes *Network* so confounding. It well may be that the television industry is much more susceptible to the follies-and-foibles sort of satire than the medical profession. But a large part of the film's tremendous success can be attributed to Chayefsky, who demonstrated in this script a new-found salience, literacy and sophistication. It is his best yet.

Network is the story of Howard Beale (Peter Finch), a veteran anchorman at the UBS network, whose spirits, and ratings, slip to the point of no return. Informed of his imminent dismissal, Beale takes to the air waves one night and announces to the national audience that he will blow his brains out next Tuesday.

But Beale is rescued from disgrace by a strange series of inane corporate decisions. News Director Max Schumacher (William Holden) wants to let his old friend retire after an apology, but Diana Christensen (Faye Dunaway) has different ideas. She is by far the most carefully drawn character, an independent businesswoman who is something slightly more intense, obnoxious and dangerous than a knee-jerk liberal. Determined to bring UBS up to par with the other three major networks, she exploits the attendant publicity that Beale's grandstand play has won and turns him into the Messiah of the tube, the champion of the oppressed American and the hero of human individualism.

Everything goes well for UBS with Christensen as Programming Director. She develops a series based on the exploits of the terrorist Ecumenical Liberation Army, and the Howard Beale Show, expanded to an hour, is now the top-rated show on television. But Howard goes a bit too far and begins directing his diatribes to the proposed sale of UBS to an Arab conglomerate. Censured by corporate head Jensen (Ned Beatty), Howard reverses himself. The rest, especially the ending, is the unkindest cut of all. As the film builds to the climax, Chayefsky's condemning acerbity climbs right with it. And in the end, one comes to the realization that what is so disconcerting is not that what he describes is true, but that it very well could be.

The part of the film's potency that isn't attributed to the words and characters that Chayefsky creates can be credited to the magnificent cast. The late Peter Finch may well earn an Oscar for his performance. It would be unfortunate were the award ascribed to sentimental voters, because it is richly deserved. Faye Dunaway is superb with a bitch-characterization that she only tinkered with once (*Three Days of the Condor*) and Holden, Beatty and Robert Duvall, as a corporate type, join Finch and Dunaway in dragging their characters out of the coldrooms of caricature and infesting their roles with dimension and vigor.

But the movie ultimately owes all to Chayefsky, who seems to have found himself. His films, like *Marty* and *The Hospital*, have always reflected his independent style. But with *Network*, he finally allows that independence to some to the front without subverting the impact of the story. It is his most provocative and incisive statement yet, a vitality that makes *Network* not a view, but a vision.

Best Dressed

NEW YORK [AP] - Television star Mary Tyler Moore and basketball player Walt Frazier are among the two dozen best-dressed people in the world, according to the International Best Dressed list released Tuesday.

The world's best-dressed have been picked annually since 1940 by 1,500 "fashion editors and observers throughout the world" and finalized by a committee of magazine and newspaper fashion editors.

The list of the 12 best-dressed women for 1976-77 include: Mary Tyler Moore; Empress Farah Diba of Iran; Mrs. William Averell Harriman; Mrs. Oscar Wyatt Jr., wife of a Houston oil executive; Mrs. Irving Lazar of Hollywood and Princess Francoise de Bourbon-Parma of Paris.

Also, Mrs. Thomas Watson Jr., wife of the head of IBM; Lady Antonia Fraser of Britain; Mrs. Reinaldo Herrera Jr. of Venezuela; Mrs. Manuel Machado-Macedo of Paris; American sculptor Louise Nevelson and Baronne David de Rothschild of Paris.

The lineup of the best-dressed men included: Walt Frazier; former Colorado Gov. John Love; Italian actor Marcel Mastroianni; Italian businessman Count Brando Brandolini; publisher Jeffrey Butler and Angelo Donghia, an interior and textile designer living in New York.

Also, New York producer Fred Hughes; Marques Anthony de Portago, a New York stockbroker; interior designer Vlerian Stux-Rybar; the Marquis of Tavistock, England; author and director Joel Schumacher and Roberto Rosellini Jr., son of Ingrid Bergman and Roberto Rosellini.

A Concert Review By Jim Coyne

A Great Guitar

His appearance reminds one of Gordon Lightfoot. His music shows evidence of the influence of Bob Dylan, James Taylor, and Leo Kottke.

He is, Bob Hardy, and he appeared on Friday evening at the Nazz. From the beginning of his set, it was obvious that Hardy was a master at the art of playing the guitar. This ability contributed to his interpretation of a wide variety of music, ranging from that of Paul Simon to a 16th century classic, (of which Bob delivered a brilliant rendition, playing it not only as a

guitar piece, but also, through maneuvering of his instrument, as it would sound on a lute and a harpsichord).

It seems that Hardy holds a soft spot for pickin' music, and a smooth picker he is! The guitar takes on life-like characteristics when in Hardy's hands. He also presented easy, mellow ballads, however, that displayed his musical diversity, and his love of music, in particular the hauntingly beautiful acoustic music of the guitar.

Playing is not Hardy's only strength. His original compositions show his talent for describing various aspects of his life through his lyrics. One such tune, "Little Girl in Pigtails," is a fine example. It is a story of a little girl who sits looking out the window waiting for Daddy to come home. bob also showed his skill in another area of music with his arrangement of Jesse Colin Young's "Get Together."

Audience participation is important to Hardy, and everyone joined in on the chorus of "Get Together," as they did on a "ski song," about a man who has some grave misfortunes while skiing. A "ski song" takes a familiar tune, and substitutes lyrics, sometimes provocative and risqué, dealing with skiing. And hailing from Colorado, Hardy has plenty of experience with this winter sport.

On the whole, Hardy is a brilliant performer, with a pleasant personality, which helps his songs go over even better. He has a balanced repertoire of music, which consists of his own compositions and those of others. He is a truly musical person, involving himself with all styles and aspects of music. He enjoys what he does, and seems to get satisfaction out of entertaining for others. Those fortunate enough to be in attendance on Friday night, saw a truly gifted talent.

One note about the Nazz, director Bill Adams deserves credit for the work he and his staff do, in arranging for talent such as Bob Hardy to appear on campus. The Nazz is a pleasant alternative to the bar triangle, and is a plus for the ND-SMC social scene. I only hope the efforts of the staff are rewarded with continued student support.

The only dim note of the evening came from the audience. It's sad to know that there are a few supposedly educated persons who are too rude and ignorant to halt their conversations while a talented individual is performing.

IRS office offers tips for filing tax returns

by Joe La Costa

The Internal Revenue Service (IRS) gives a few broad tips to all taxpayers.

If you filed a return last year, then you will receive the tax forms in the mail. If you did not file last year then you can pick up the proper forms at the IRS office, many banks, and the post office.

Once you have the form, the IRS suggests to read the instructions thoroughly. When you read the instructions you will find there is an important decision to make. If you will itemize, which simply means that you have decided to write out all your expenses instead of taking the standard deductions, then put the W-2 form in front of you and start.

The IRS suggests all figures to be checked. Checking assures that your return will be processed quicker. A few other ways to speed the filing process, especially if you are waiting for a refund, includes using the mailing label and using the addressed envelope and stamping it.

The important figure on the tax form is income. In determining income one must remember that all income, including tips and income

from overtime and moonlighting, are the responsibility of the taxpayer to report.

Once you know how much your income was then the deduction process can begin. According to the IRS, paying taxes can save you from paying other taxes. If you paid state, local or foreign taxes, you can deduct them from your taxable income. In addition, tax on a car, boat or plane can be deducted from taxable income. Other deductible items included in the IRS list are cost of protective equipment, union dues, and the cost of trade or professional magazines. The above items are only deductible if you itemize them.

Deductions

There are two things to remember about deductions; first, use the method which lowers your taxable income the most, and secondly if deductions total more than your income that does not mean the IRS owes you money. It simply means you don't have to pay any taxes this year.

Finally a tax credit is not the same as a deduction, but has the same effect. The tax credit allows one to subtract two percent of taxable income after deductions from the amount of tax to be paid.

Credits are subtracted from the tax to be paid and not taxable income. If the credit is greater than the tax to be paid there is no refund, you don't pay any tax.

Help available for Spanish-speaking

Spanish-speaking citizens of the South Bend area can participate in the free income tax service offered by business administration students at Notre Dame.

Volunteers with multilingual talents will be on duty from 10 a.m. to 4 p.m. Saturdays at the LaRaza Center, 404 Walnut St., through the April 15 deadline for filing tax returns.

The service is available to families with incomes of \$12,000 a year or less. Certified public accountants in the city are assisting the students at several locations.

The service is offered on specified dates each week from 5 to 8 p.m. at the Northeast, Southeast, Clay, Hansel and LaSalle Neighborhood Centers, from 11 a.m. to 2 p.m. Wednesdays at the Meadowbrook Center, from 10 a.m. to noon Fridays at the Senior Citizen Center and from 2 to 4 p.m. Mondays and Wednesdays at the LaFortune Student Center.

Hollywood theme opens Mardi Gras

by Craig Lombardi

"Bachelor 1, what is your most interesting asset?" No. 1, "I take showers with sheep!"

This conversation during WSND's "Mating Game" exemplifies the Mardi Gras atmosphere. As Allen O'Gorman, assistant coordinator for Mardi Gras, noted, "The atmosphere is different from last year" and that "there is more fun and entertainment provided."

O'Gorman also stated that generally "Mardi Gras is going well and it's been packed every night." He added that the "dealers are gaining experience" and not that the only problem was a hesitancy to shut down when the house begins to lose a lot.

O'Gorman also expressed gratitude for WSND, praising them "for getting more involved this year." Thus far the "Mating Game" has been a big hit. As freshman Bill Floriano remarked, "The 'Mating Game' rules." WSND also plans to have the "Mating Game," "Bong Show," and "Sports Challenge" next weekend.

As for the rest of Mardi Gras, O'Gorman said there will be much to do this week. On Monday, the California String Band will play. Then on Tuesday and Wednesday WSND will sponsor a Disco Night and Talent Night respectively.

On Thursday there will be a Mini Bluegrass Festival. Two bands, Morgan Bros. Band and Sugarfoot, will play non-stop.

Friday will be Academy Awards Night where the winner for Best Booth will be determined by student members from Departments of Architecture and Art. The South Bend Ballet Company will also perform dances from various musicals such as "West Side Story" and "Cabaret."

Saturday night will be the grand finale when the 1977 Cutlass Supreme will be given away. O'Gorman added that the raffle sales were good and urged all students to turn in their books.

All in all, Mardi Gras had been a good time so far and as one student noted, "What counts is that one has a lot of fun without losing all your money."

Halls change formals planning due to concert scheduling mistake

by Alicia Deneffe Staff Reporter

Due to a misunderstanding and a lack of communication concerning the scheduling of the Electric Light Orchestra (ELO) concert, several halls were forced to change formal dates.

The concert, which was thought to be held Mar. 26, is scheduled for Mar. 25. Badin, Pangborn, Farley, Cavanaugh, Stanford and Fisher Halls all had formals scheduled for the 25th.

Concert Commissioner Jim Speier explained that originally both Mar. 25 and 26 were tentatively reserved at the ACC. "We preferred to have the concert on the 26th, but were later informed that ELO could only come on the 25th," Speier said.

Speier noted he picks available dates in advance, and he cannot check out all activities on campus. He also said that the ACC would give a concert priority because of the large revenue involved and the large-scale entertainment value for the University. Speier did not feel that a formal would hurt concert ticket sales.

Hall Social Commissioners Rosemary Marks from Farley and Julie Breed from Badin encountered problems in rescheduling their formals.

"There are so few places big enough to accommodate a hall formal that you have to reserve far in advance," Marks said. "It's difficult to find a place now." Farley has rescheduled their formal for March 26 and is still inquiring about possible locations.

Breed explained that Badin and Pangborn are having their formals together on April 16 at the Albert Pick Hotel in South Bend. She noted that it was difficult to find an alternate date because of the many campus activities scheduled this semester.

Tim Zwahlen, hall social commissioner from Stanford, was informed earlier of the March 26 ELO concert date from his hall president, so he scheduled their formal to March 25 at the Holiday Inn in Niles. He explained that at Hall Council meeting two weeks ago, it was announced that the concert was changed to the 25th. Stanford's formal is now being held March 26th and located tentatively

at the Quality Inn in South Bend.

Cavanaugh will adhere to their previously scheduled March 25 formal date. Hall social commissioner Andy Sewder explained that they were "stuck". Their formal is being held at the Erskin Country Club and the same location could not be reserved for an alternate date. Sewder mentioned that several residents had already informed him that they would choose the concert over the formal. "We have 100 tickets; I hope we can sell them all," Sewder said.

Rick Pacropis, Fisher social commissioner, explained that their formal was being rescheduled to April 2. "We sent around surveys to find out tentatively if people would pick the concert over the formal," Pacropis said. "We ended up changing the date." Formal chairman Brian Harris said they would find out definitely about their location soon, but he was optimistic that everything would work out.

Speier admitted there was a lack of communication between the Student Union and the ACC, and that accounted for the mistaken publication of the concert date.

SMC nursing school to sponsor Career Day Thursday

by Honey McHugh

On Thursday, Feb. 17, 1977, the Saint Mary's Nursing Department and Career Development Center will cosponsor the first annual Nursing Career Day.

This year marks the first graduating class of nursing students who have been enrolled in a program begun in 1973 aided by

United Way to sponsor internships

The United Way is offering an intern program for people interested in preparation for a professional career in the United Way field.

Persons with a bachelor's degree or equivalent, generally aged 21-30 are eligible to apply. Evidence of high academic standing, leadership ability, effective oral and written communication skills, career concern and motivation must be demonstrated.

Individuals selected as United Way Interns begin with an orientation session at the National headquarters in Alexandria, VA and receive on-the-job experience at two different local United Way organizations.

Upon completion of the year's program, interns agree to accept employment in a United Way organization.

Students wanting additional information about the intern program can attend a meeting in Room 222 of the Administration this afternoon at 4:30 p.m.

Mansion sets limit on crowd size

The era of wall to wall crowds for formal at Tippecanoe Mansion is over. The directors of the historical site are limiting the number of people who can attend functions at any one time.

"We are concerned about the preservation of the Mansion," said Dea Andrews, special activities coordinator. "Smaller groups will make it much more pleasant, and will be easier on the house." Andrews added that "350 people make it very tight."

The mansion, site of many Notre Dame formal, was built in 1889. Its 40 rooms and 21 fireplaces show exquisite detail, especially in wood, marble and tile. Materials for construction were imported from around the world. The home formerly belonged to Clement Studebaker, the automobile industrialist.

several government grants. Career Day will provide these students with opportunities to meet employers from the Mid-West and to attain information made available to them through nationwide mailing project.

"I feel that the Nursing Career Day will be beneficial for two reasons," stated Karen E. O'Neil, Director of the Career Development Center, "The students will be exposed to far more information on job opportunities and the health care representatives will be able to take a good look at St. Mary's students and its program."

Under this new baccalaureate program, the students must meet college-wide requirements as well as those of the nursing major. A minimum grade point average of 2.5 is necessary to be accepted into the department after a student's sophomore year and a similar standing must be maintained until graduation. The program incorporates both classroom work and field experience in order to allow the students to apply their knowledge through service to the community.

"The Career Day will serve primarily to alert the employers, faculty and administration to the roles that our students will assume after graduation," states Mary E. Martucci, director of the Nursing Program, "It will essentially educate the recruiters as well as benefit the students."

When asked to comment on the Career Day, one senior nursing student, Ann Coia, stated, "This will give us the opportunity to see what our prospective employers are looking for and it will expose us to the many different areas of service available to a nurse."

The events of the Nursing Career Day include a luncheon in the North Wedge Room, Dining Hall at 11:30 a.m. for nursing faculty and health care representatives. The speaker will be Mary Martucci. The Career Day itself will be held in the Campus Clubhouse from 1:15 to 3:45 p.m. A reception in Stapleton Lounge will follow for administration, nursing faculty, senior nursing students and the health care representatives. All nursing students and faculty are invited to attend the day's activities.

Feminist series features ND prof

by Karen Sikorski
Staff Reporter

Sr. Madonna Kolbenschlag, assistant professor of American Studies, will address the second session of the Women and Humanism series, sponsored by Indiana University at South Bend (IUSB). She will speak on "Feminist Intellectuals: What are they saying?"

The session will be held at 8 p.m., Feb. 26 at the First Unitarian Church, 101 East North Shore Drive (corner of N. Michigan St. and North Shore), South Bend.

Kolbenschlag will discuss current feminist ideas with emphasis on psychology and sociology. "I will take stock of what feminists are saying about relationships between men and women, particularly with regard to marriage and the family," she explained.

The second theme of the talk will be public policy. "It's time the new (feminist) ideas began to have an effect on public policy," Kolbenschlag said. "Some current policies reinforce modes of behavior which are no longer viable in society." As an example, she pointed out the need for an income tax "which

SR. KOLBENSCHLAG

doesn't punish married or single people."

Comments on the speech will be made by Michael Stark, a psychology professor at IUSB. The audience will also be invited to participate in the discussion.

Kolbenschlag has done research and written several articles on sex roles in America. "I'm especially interested in how we have developed the mythology of the sexes," she noted.

The Women and Humanism series is funded by the Indiana Committee for the Humanities and the Division of Continuing Education of IUSB.

Advanced Building Studies Graduate Multidisciplinary Programs

PURPOSE—The program provides advanced training in planning, design, construction and operation of the built environment, by considering the interrelated esthetic, technological, financial and managerial aspects of building problems, embedded in a systems approach. The program integrates methods, knowledge and techniques which address problems of building simultaneously rather than following traditionally fragmented approaches to design of the built environment.

The program is designed to prepare future leaders in the building industry for opportunities of advanced practices which emerge in large architectural and engineering firms, construction firms, real property development and management organizations which concern themselves with building related products, and various local, state and national government agencies concerned with regulation or management of the built environment.

TOPICS OF STUDY
Computer-Aided Design
Energy Conscious Design
Disaster Mitigation
Low Cost Housing
Project Management
Real Estate Economics and Management
Solar Utilization in Building
Structural Systems in Design
Systems Integration

DEGREES
Master of Architecture in Advanced Building Studies
Master of Science in Civil Engineering (Advanced Building Studies)
Master of Urban and Public Affairs in Advanced Building Studies
Doctor of Philosophy

APPLICATION—For students with first professional degrees in Architecture, Engineering and/or Management Graduate fellowships and research assistantships are available. Applications must be received by February 28, 1977.

Irish romp over Gamecocks, 84-66

by Fred Herbst
Sports Editor

Mistakes. They'll kill you every time. Ask any student after final exams. Ask Napoleon about Waterloo. Ask Frank McGuire about South Carolina's 84-66 loss to Notre Dame Saturday.

"We made some bad mistakes on offense in the second half that really cost us," lamented McGuire, the Gamecocks' head coach. "It was our own mistakes that cost us the game. You can't afford to make mistakes against a team that's as strong as Notre Dame."

The most unfortunate thing for Carolina was that all their mistakes came at once. With 13 minutes to play in the game and Notre Dame leading 46-44, the Irish went into a fullcourt zone press that forced the Gamecocks into four consecutive turnovers that started the Irish on a 12-2 streak to put the game on ice.

"We were never worried about their press," McGuire said. "We expected it, and we were prepared for it."

Carolina should have worried about it. After turning the ball over only three times in the first half, the Gamecocks committed eight in the second half—six during the Irish streak.

"In the first half we played very conservatively on defense," Notre Dame mentor Digger Phelps said. "We mainly played sequence, man-to-man, zone and then man-to-man in a time sequence. In the second half we went to the press to used the clock and keep them from setting up their offense."

Offensively, the Irish didn't fare

too poorly either. They shot 54 percent from the field and had six players in double figures—a statistic that caused Phelps to remark, "That's beautiful."

Duck Williams paced the balanced attack, scoring 19 points. After hitting on only three of ten shots in the first half, Williams connected on six of ten in the second half. "My shot just wasn't dropping in the first half," he said. "But I figure I'm a good shooter and that my shots are going to drop sooner or later, so I just kept putting it up."

Dave Batton and Rich Branning each chipped in with 14 markers, while Toby Knight added 12. Bill Paterno hit on seven of eight free throws on way to 11 points and Bruce Flowers had ten points.

Flowers led the team in rebounding with 11. Batton and Knight had eight and seven caroms respectively. Notre Dame out-rebounded the Gamecocks 38-27. After leading the nation in rebounding margin last season with a 12.2 per game rebounding advantage, the Irish are once again leading the land in this statistic. In the latest NCAA statistics, Notre Dame is out-rebounding opponents by an identical edge of 12.2.

Karlton Hilton and Jim Graziano took the scoring honors for Carolina with 17 points apiece. Nate Davis added 13. Hilton hit on eight of ten field goal attempts, but Davis could only manage to make six of his 18 shots.

Carolina's floor general, Jackie Gilloon, was held to four points. "Gilloon is capable of scoring 20-25 points a game," Phelps observed.

"He only got four. Duck (Williams) did a great job on him."

The first half proved to be a dogfight. Notre Dame scored first and led for most of the half, but Carolina stayed close and actually led on three occasions. The Irish led at the half 36-35.

The Gamecocks employed a 2-3 zone to keep the Notre Dame offense in check during the half. The Irish shot 50 percent in the opening period, mostly from the outside.

The win was Notre Dame's seventh in a row, upped their record to 15-5 and brought them closer to what Phelps hopes will be a NCAA bid. "The seven-game winning streak is indicative of what we have," Phelps said. "We're in good shape for that NCAA bid now. We have a lot going for us."

McGuire agreed. "They're a very strong team and they're a strong contender for an NCAA bid," he remarked. "I wouldn't be surprised to see them win a regional."

Carolina fell to 11-11 on the season.

The Irish face Butler tonight in the ACC at 8, as they try to extend their winning streak. "We're playing great ball right now, the way we were at the beginning of the season before we lost Ray Martin," Phelps said. "We've made the adjustments that we've had to since then and we're really tough."

"The students have been great," he continued. "A lot of our success is due to them. We really appreciate their support."

Irish pucksters scalp Sioux

by Paul Stevenson
Sports Writer

The Notre Dame hockey team returned home after two weekends on the road to sweep yet another series and increase their unbeaten string to 12 games. The Irish pucksters edged North Dakota 6-5 on Friday and easily out-skated the Fighting Sioux 10-5 on Saturday.

Although third place Denver dropped two decisions to Michigan, first place Wisconsin maintained their seven point lead over the second ranked Irish by sweeping their series against Michigan Tech.

The first period of Friday night's contest was lackadaisical on the part of both teams. This was the first meeting of the season between the two schools. The performance may have been cautious in order to

feel out the other team.

North Dakota struck first with a goal by defenseman Bob Mihulka 9:28 into the battle. However, six minutes later, Clark Hamilton put one past Sioux goalie Peter Wasevovich to tie the score at one.

Notre Dame was soon to fall behind again as, just 56 seconds into the second period, Sioux center Mike Burggraf slipped a shot past Irish goalie Len Moher.

However, the Irish soon tied the game and captured the lead for good as they displayed some excellent offensive play and aggressive forechecking.

The Irish added three second period goals, two by center Geoff Collier and one by senior Paul Clarke.

A mere 18 seconds into the third period, the Irish hit again. This time, Greg Meredith found an

opening to give the Irish a 5-2 edge off the pass from Brian Walsh. A minute and a half later, Jack Brownschilde struck to catapult the Irish icers to a commanding 6-2 advantage.

The Irish pucksters seemed to have another game notched in the victory column as their lead was maintained throughout 14 minutes of the final period. However, with 5:45 left in the contest, North Dakota left wing Mark Taylor slammed an unassisted goal past Moher. Twelve seconds later, the Fighting Sioux strick again with a goal by Burggraf. Burggraf scored again off a pass from Bill Himmelright with 1:36 remaining, to narrow the Notre Dame lead to 6-5. But the Irish controlled the puck in the final seconds to skate to their eleventh consecutive game without a defeat in the WCHA.

"In the second period we came to life and had some good breaks," Irish Head Coach Lefty Smith commented. "I'm disappointed that we gave up a four goal lead and so is the team. There is no reason for mistakes like that."

Saturday night's result was never really in doubt as the Irish took advantage of North Dakota errors to skate to a 5-0 lead halfway through the game. Clarke opened the scoring with only 1:42 elapsed in the first period. Don Fairholm tallied the second Irish goal and his sixteenth of the season on the assist from Kevin Nugent and Clark Hamilton.

Walsh gave the Irish a 3-0 lead at the end of one and Allen Karsnia increased the margin to four with only 51 seconds gone in the second period. At the 8:30 mark of the second period, Nugent gave the Irish goal number five.

But North Dakota came back with three consecutive goals and challenged the Irish 5-3 edge. However, Notre Dame rose to the test as only 11 seconds after the Sioux scored their third goal of the night, Nugent capitalized on a pass from Don Fairholm to give the Irish a three goal advantage once again. North Dakota closed the gap to 6-4 with only 36 seconds remaining in the period on a close-range shot by left wing Mark Taylor.

The Irish icers found the net immediately in the third as Meredith shot past Sioux goalie Bill Stankoven to give Notre Dame a 7-4 lead with only 1:01 elapsed. Clarke padded the Notre Dame lead only two minutes later as the Irish edge stretched to 8-4.

North Dakota rebounded with a power play goal by Bob Mihulka, however, that was to be the final goal of the series for the Fighting Sioux. Meredith notched a goal for the Irish with 9:38 gone in the third and Collier tacked on another less than one minute later to give the Irish their winning margin.

"The first period and the first half of the second period were as good of hockey as we've played in a long time," Smith acknowledged. "We really dominated the play and had some good scoring opportunities."

The series was a very clean one, with very few penalties being called. The series was also an historic one.

Walsh became the all-time leading Notre Dame scorer with 227 points. That total surpassed that of John Noble (226 points) set from 1969 to 1973. The senior co-captain had 221 points entering the series, and broke the previous total with two assists on Friday night and one goal and two assists on Saturday night.

Irish senior wing Clark Hamilton added six assists in Notre Dame's contest on Saturday. The total sets an Irish record for most assists in a single game.

The series marked the seventeenth and eighteenth meetings between the two schools. The two victories expands Notre Dame's lead in the rivalry to 13-5, and their WCHA record to 18-7-1.

The Irish must now prepare for their home battle this weekend against Denver. The pioneers suffered two losses to Michigan this past weekend and will come to the ACC in fourth place.

"We've played Denver the first time when we were hurt by injuries," Smith recalls. "We're really looking forward to playing them again and it we can beat them twice, it will just about sew up second place for us."

NBA All-Stars: West edges East

MILWAUKEE AP—Rick Barry and Don Buse led a 20-2 third-quarter burst that put the Western Conference in front, then Barry and Paul Westphal came up with key steals in the final minute as the West defeated the East 125-124 in Sunday's 27th annual National Basketball Association All-Star Game.

Kareem Abdul-Jabbar, who led the West with 23 points, kept his team in contention through the first half, scoring 17 points as the East moved out to a 68-58 lead.

It was 85-77 before the West went on its winning tear. Barry had six points and Buse four points and three assists as the West took a 97-87 lead, then turned back a furious, fourth quarter East surge.

Julius Erving, who tied with East teammate Bob McAdoo for game scoring honors with 30 points, was named the game's Most Valuable Player.

Erving scored 11 of his points in the final 6½ minutes, when the East came roaring back. A three-point play by Erving followed by another basket by the star forward of the Philadelphia 76ers brought the East within two points at 120-118 with 2:42 to play.

Westphal, Phoenix' tenacious guard, sank a floater to give the West a four-point edge, but Pete Maravich connected on a long bomb and McAdoo sank a pair of free throws to tie the game at 122-122 with 1:09 to go.

Phil Smith of Golden State put the West ahead to stay by sinking one of two free throws with 52 seconds on the clock. Then Barry, wrestling the ball away from two East players in a scramble under the basket, came away with his key steal and fed Westphal for a breakaway dunk to make it 125-122 in favor of the West with 38 seconds left.

McAdoo of the New York Knicks, the only center of the East squad, brought his team within one point by hitting two free throws just five seconds later.
