

MAN'S ENEMY IS MAN

Once more Carey Orr, in the *Chicago Tribune*, has pictured for us a profound spiritual truth.

Our shipwrecked civilization is still blind to the fact that the spiritual depression preceded, *and caused*, the financial depression.

In the daily newspaper of a large city we find six of the seven large theatres down town advertising shows of the kind that preceded the fall of Greece and Rome.

The NRA for industry will never succeed until an NRA for morals is observed.
