Have you done anything
extra for the Poor Souls
this month?

WILL YOU HELP ONE OF THESE ?

From Italy (Collalto Sabino-Rieti) comes an appeal from a Sister in charge of an orphanage for girls. In return for your generosity, Sister promises that "three times a month Holy Mass will be said and the hour of adoration will be offered for those who give a helping hand."

"May this humble sheet sail speedily across the seas and reach generous and pious souls who might be disposed to give a little help to the Missionary Sisters of Jesus the Redeemer, who, for a sublime ideal offer up their lives and consecrate their existence for the benefit of mankind, by giving free assistance to babies and poor and abandoned girls whose sole source of sustenance is Divine Providence which touches the hearts of men of good will.

"It is only too true that today the needs are innumerable. Everywhere you see children without parental love. These children are covered only by rags. They are barefooted and extremely miserable. Many young girls are abandoned without food or shelter. Will you, generous souls, please send an offering, a package or anything to cause a little relief and bring a smile to the faces of our little girls in the midst of so much misery? Please provide a bed for the little orphans so many of whom must sleep on bare ground."

(A check for \$5.00 has already come in for the orphans. Send your offerings, big or small, to the Prefect of Religion.)

From Uganda, B.E. Africa.

"This is my first letter to you, and please God, my humble appeal may not be in vain. We are in desperate need here of a hospital. We have two mud huts covered over with grass and in these we have to look after our poor sick. The medical world would turn its eyes to Heaven to see it, but we have to turn them on our sick and do the best we can for them.

"As you can imagine we get all kinds and manner of diseases here. It is trying work under such difficulties. This year we had a very bad epidemic of meningitis. People flocked here in great numbers. You can understand how anxious we are to get a permanent brick building with a tile roof. A hospital in this country is the gate of Heaven to thousands of souls. Will you help us save these souls? Assuring you of many grateful prayers. . ."

(If this appeal touches your charity more than the first one, write Africa on the envelope containing your offering, and leave it at the Office of the Prefect of Religion.)
