

Thank You From Holland

"Words cannot express how happy I was to receive the postal order to pick up your package. It is the first gift given us, and the contents are a great aid to my family. Every article was really wonderful. This package came most unexpectedly, because we had no relatives or friends in America.

"On receiving the parcel I went immediately to our image of the Virgin Mary and Cross and offered my thank you for your help, and said my beads. I will ask our pastor to offer Mass for you too. I attend Mass daily and after Holy Communion I pray for all our benefactors at Notre Dame.

"With the help of God and good people like you we hope to endure these difficult times. Every day I say, 'God's Will be done.' My husband and son will be astonished this evening when I show them your good things."

Mothers' Day

Put a circle around May 9 on your calendar. It's the second Sunday of May, and it's Mothers' Day. Now is the time to give some thought to the manner in which you are going to manifest, in some external way, your love for your mother. The gift you send home will be a token of your affection and gratitude.

One gift you should give your mother is a Spiritual Bouquet. We will begin the Novena for Mothers' Day on May 1.

Material gifts are not to be overlooked. Think about sending some flowers, a wire, some candy, or phoning. These paragraphs are merely a reminder to start saving your money for your gift, and get your prayerbones ready for the Novena.
