An Appeal From Holland.

"Dear Father: Just sixteen months ago you wrote to me that the students of Notre Dame would help me and my family, and they did. This was very generous of them, for which kindness I thank them and you again. I did hope that conditions would be a lot better, but they are still far from it. All the food, except potatoes, are still rationed, and clothing although manufactured in our country, cannot be purchased because our government must sell it to other countries in exchange for machinery.

"We get few points for clothing. We get just enough to buy sewing thread with which to repair old clothing, or to buy wool to mend old socks.

"My need for clothing is so great that I have asked the Sisters of St. Mary's College to help with some women's clothing. I am sure they will assist us. But what about my husband and boy? If assistance does not come soon, they must stop working, so poorly are they dressed. They are really ashamed to go to church too. You will say, "you can go; Our Lord was also poorly dressed." Nevertheless, we are ashamed.

"I know the goodness of your students, so I am not afraid to appeal to them again. I know the power of prayer, and in this belief I send this letter, because I have prayed with all my heart to Our Blessed Mother to help me. At the same time I ask you and the students to remember me and my husband and child in your prayers."

Your old clothing will go a long ways in this needy Dutch family. We have almost daily requests for your castaways. Leave your offerings in the Pamphlet Room in Dillon Hall.
