

What Are They Saying This Week ?

Now that you are back, awake, with lucid intervals, what are they saying about you and your vacation ?

Of course you were noticed -- on trains, on busses, in hotels, at dances and parties, in your parish, and in your neighborhood -- you made sure of that yourself. Only a brass band could have improved on your publicity.

What did you do -- impress them favorably or otherwise ?

More important -- it's amazing how people classify an entire student body and an institution because of a single experience! Other thousands stand or fall on your individual conduct. That's part of your responsibility -- to add to, or to destroy, the good name of all who belong to this household of Our Lady!

Any booby-traps ? If there were, chances are they'll be waiting for you in June again. Be smart. Be alert. Be a credit to Notre Dame and her thousands of Alumni throughout the land. Add something to her heritage! And make it good!

Need Anything ?

There's no better intercessor than Our Lady of Sorrows. Her novena resumes tonight at 6:45 in Sacred Heart Church. (Pity the man who doesn't need her help!)
