

WHAT WILL YOU TAKE WITH YOU ?

Just a degree?

You could have obtained that much at any school -- even at Podunk Sub-Normal!

Listen to one of the Alumni who wrote recently:

"These are the days when I realize that going to Notre Dame pays dividends. I used to pray a lot at school, I thought, and sometimes didn't know just why. But it seemed to be the thing to do in that atmosphere. And you rang enough bells to get me to church, and to the chapel.

"Anyhow, it has turned out to be a good investment for me, the last five years. I've had no serious problems, and no temptations that I have not been able to handle. Even when they came, I knew what I was supposed to do. To date, I have had the courage to do it..."

Have you put anything aside for the future? Or ever thought of the wisdom of a reserve account -- a little more than you need to get by each day? Maybe something for the dark or rainy day ahead?

These are the days to do so -- during Lent especially. Start tomorrow!
